## An Old-Time Pacing Race.

Back in the high-wheel days phenomenal performances, as measured by later-day events, were unfrequent. Compared with startling occurrences in nowadays harness racing, the best races prior to 1892 appear comparatively commonplace. Yet the descriptions of long bygone contests, as read in the chronicles of the time, convey but a faint idea of their nature. To the eye witness memory tells a different story from the emotionless pen pictures of desperate contests of the past. It is a privilege to have lived in the era of the high-wheel sulky, and to have had the opportunity to compare racing under the old and new conditions.

As a pioneer of speed progress the pacer has from the very start kept seconds ahead of the trotter, from the heyday of the great Pocahontas to Star Pointer, the monarch of side-wheelers at this writing.

The greatest races have taken place between the pacers, and the fastest heat averages are theirs. No quartette of trotters ever drew the people as did the Big Four nearly twenty years ago, and none will gainsay that the Big Four of 1897 had a greater drawing power than other harness horses.

Little Brown Jug, still in the land of the living, held the champion high-wheel heat average, but the greatest race that ever took place between pacers under the old conditions was in 1883, at Homewood Park. That year Pittsburg was out of the Grand Circuit, preferring to go it alone, but was practically a link in the chain. At that meeting of 1883 there met the most formidable field of pacers that came together up to that date. There was Richball, the brown pony that had swept all before him and was dubbed invincible; Buffalo Girl, who went into the free-for-all with a record of 2:12½; Flora Belle, an Indiana product of growing reputation; Lucy, one of the famous Big Four; Gem, the hope of the Kittson Stable; Sailor Boy, a new aspirant for free-for-all honors, and Fuller, a Canadian champion.

In the over-night betting Richball was a strong favorite at \$400, which figure was increased to \$600 before the race was called. Flora Belle sold second choice at \$300. Buffalo Girl had third call at \$200; Lucy brought \$30, and the field \$20. Pittsburg was full of visitors from the mining and oil districts, and all were loaded with coin of the realm. As Herdic and Stiles began selling at the stand, the regular followers, such as Garry Fleming, "S. W.," Paddy Dolan, Kentucky Bennett and Patsy Reardon, had to step back and watch the men in tuckapan trousers and cowhide boots bet their money. The old guard were not in it with the rough plain men from the hills. The pool-sellers earned their salaries, as there was \$90,000 in the box that afternoon, and nearly \$800,000 passed through their hands during the four days.

The result of the first heat of that great free-for-all satisfied the speculators that they had lined the horses right, as Richball won it in 2:12½, with Flora Belle on his wheel and Buffalo Girl in third place. Fuller and Sailor Boy had struck too speedy company and were flagged.

Richball's stock went still higher, but the result of the next heat put a different face on affairs. The Buffalo mare came with a wet sail and took the pole from Richball before they reached the backstretch. She carried Richball to a break, and secured such a lead that Campbell eased up and finished in fourth place. Gem had taken second place and made a good fight for the lead, finishing a close second to the Girl, whose time was 2:14½. Campbell was thought by the talent to have let the second heat go to make betting stronger, so there was no depreciation of Richball stock. The Texan made a try for the lead in the third heat, but Campbell, as before, stopped driving when he found the mare had the

foot of Richball. Buffalo Girl now had two heats in moderate time, pacing the third in 2:14½. The backers of Richball stuck manfully to their guns, and the field rose considerably in value. Campbell calculated the three heats had taken Buffalo Girl's measure, and there was no doubt as to the final result. But the suspicion that the mare was one of the flash-speed sort was set at rest, as she answered every call readily and shook off the desperate rushes of the brown gelding. Amid breathless attention, the five scored for the fourth heat. Campbell was out for business with determination expressed in every line of his swarthy face. There was a feeling in the air that a great fourth heat was to be paced, and so it was. They got away even. As they swung around the turn Richball was on Buffalo Girl's wheel, Gem lapped on the Texas horse. On the backstretch Richball made an effort to get the lead, but strive at he would the gallant little horse could not gain a foot, as at every brush the mare seemed to have speed to spare. So they went to the finish. Campbell drove with all the well-known skill, but it was Buffalo Girl's day and she ended that marvelous fourth heat in the unprecedented race time of 2:12½. Although disappointed at seeing a popular favorite beaten, the generous mountain men gave the victor a reception such as she received never before or since. Both the fast miles were well rated, the first half of the first heat being paced in 1:04½, and the first half of the fourth heat in 1:05½.

When we consider the circumstances under which this race was paced, it may truly be ranked with the greatest performances. They went to old style sulky, some seconds slower than the vehicle now in vogue, and the track was very cuppy from heavy rains. Both chief contestants were equal to a longer race, and there is no doubt that had more than four heats been necessary, record-breaking speed would have prevailed to the end.

During that memorable Pittsburg meeting there were several other events of great interest, chief of which was the match between Jay Eye See and Majolica, won by the Wisconsin horse. Another attraction on the program, which was declared off on account of the state of the track, was a special race between St. Julien, Edwin Thorne, Trinket and Fanny Witherspoon. To in a measure compensate the crowd for its presence, the horses were paraded before the grand stand and were handsomely received.

How many changes have taken place since then! Of the men and horses, participants in that meeting, how many of them are left and what of them? The secretary of the association was amiable Roddy Patterson, Jr., of Belle Brasfield fame. He has reposed in an honored grave some years, but lives in his bright and good boys, Roddy, Charley and Kim, all three of whom are ornaments of their profession. What of the drivers? Hickok, who drove Overman, is well-to-do, and still handles the ribbons with his old-time skill. John Campbell, driver of Richball, cast his fortunes with the runners, and has done well. Knap McCarthy, driver of Flora Belle, Zoe B., Ina G. and Kate McCall, went over to the bang-tail contingent for a time, but is now pursuing his old profession. Peter V. Johnston, who drove Gladiator, is still with us. Splan, driver of Gem, Minnie R. and the rest of the Kittson stable, campaigns each year, and between times acts as a star horse sale manager. Billy Weeks, driver of J. B. Thomas, is in France driving the trotters. Horace W. Brown, who handled the pacer, Billy S., is also in Europe, where he is regarded as at the top of his profession. Uncle Sam Keyes, driver of Lucy, is gathered to his fathers. Billy McDonald, who drove Buffalo Girl to her great victory, is still with us and able as ever. Gus Glidden, driver of Wilson and Brown Wilkes, died not many months ago, well provided with worldly possessions. Charles Wagner, whose

"winding-up" finishes with Phyllis always tickled the crowd, is living in retirement in Canada. Phyllis, the founder of his fortune, found a watery grave in the stormy Atlantic while en route to Germany. John Turner, driver of Buzz Medium, has retired with a handsome competency. Uncle George Fuller, who drove Algath, is still in active service. B. J. Johnson, driver of the pacer Westmont, long since went on the running turf, as did James Lammsney, who handled Bronze. Capt. W. H. Boyce, driver of Sandy and Hi Ball, is making a fortune with a veterinary preparation. James H. Goldsmith, who handled Walnut, is in the land that is fairer than day, together with his father and Brother John. Ed Bither, driver of Jay Eye See, is doing well in Massachusetts. John Murphy, who drove Majolica, has been dead nearly ten years. Gus Wilson, driver of Brandy Boy, died last year in an asylum for the insane, and W. J. Walsworth, who handled that notoriously bad actor, Lucrece, campaigns a string each season.

Of the great gathering of well-known horsemen, J. W. Knox, Edwin Thorne, W. H. Wilson, F. L. Noble, Jerome I. Case, Col. G. W. Dickey and Charley Perkins are dead. H. D. McKinney, the well-known "Mambrino" of the turf press and owner of Phallamont, is enjoying life at ease with the world. W. B. Fasig, then secretary of the Cleveland Driving Park Company, is now a prosperous combination sale manager. Capt. Sam Brown, owner of the Brick and Mercutio, gave up trotters and made a great reputation as a racehorse man. Uncle Jack Batchelor, of John H. and Mattie Graham fame, also went over to the runners. Of the pool-sellers Charley Stiles has passed away, Billy Armstrong is a hopeless paralytic, Ira Bride is out of the business altogether, and Herdic still calls for the choice, passing his winters as a horse auctioneer.

Of all the horses engaged, outside of the free-for-all pacers but one became a speedy champion—Jay Eye See, 2:13, trotting; 2:06½ pacing. Apropos of this wonderful little horse, the writer ventured the opinion shortly after Jay Eye See first struck the Grand Circuit, that nature intended him for a fast pacer. The remark was received with incredulity, but during the summer of 1892 the truth of the assertion was well proven. Buffalo Girl, on her retirement, was put to breeding, and has her representative in the great list. Brown Wilkes made a reputation as a sire, and several others that took part in the meeting will be found mentioned through their descendants in the 2:30 list.—Chas. T. Harris in the Horse Review.

HANG the banner of Electrite on the outer wall! The young Texas stallion has passed Allerton in the race and now ranks as the leading sire of 1897. A letter from Colonel Exall of Dallas, dated Dec. 17, now exhibits a roster of twenty-two Electrites for 1897. The late additions are: Plano 2, 2:29½ and Norma Electrite, 3, 2:30, trotting, and Homer, 2, 2:22½ and Lady Electrite, 3, 2:24½, pacing. At the age of nine years, and with his oldest foal but four years of age, Electrite now has twenty-eight standard performers to his credit. Comment is unnecessary. We would allude to one extraordinary feature of Electrite's list, however. Six of the 22 new ones in it this year are really but three performers, for three of his get have been given records at both gaits, viz., Elrod, 4, 2:29½, trotting, 2:24½, pacing; Lady Electrite, 3, 2:30, trotting, 2:24½, pacing, and Norma Electrite, 3, 2:30, trotting, 2:25 pacing. The astonishing ability of these youngsters to go either gait is something for theorists to cogitate over, and is one of the most remarkable things about this remarkable young sire and his offspring.

THE BREEDER AND SPORTSMAN wishes its thousands of readers everywhere a Happy New Year!

## Oakland Races.

THURSDAY, DECEMBER 23.

First race, six furlongs, maiden, two-year-olds, purse \$200. Miss Alice (E. Jones, 110), first all out by two lengths; Carbineer (Piggott, 108), second by one length; Snipey (McNichols, 105), third. Flandes, Algorta, Brambella, Thisbe II., La Loma and Morabella finished as named. Time, 1:16.

Second race, seven furlongs, selling, three-year-olds and upward, purse \$400. O'Kleeta (Piggott, 109), first driving by a head; Alma (Thorpe, 104), second by a neck; Coda (E. Jones, 109), third. Florimel, Midas, Gold Bug, Marcie A. and Monitor finished in the order named. Time, 1:27½.

Third race, six furlongs, maiden two-year-olds, purse \$400. Dr. Marks (H. Martin, 110) first, handily by three quarters of a length; Mainbar (Clawson, 108) second by five lengths; The Dipper (Hennessy, 113) third. Moringa, Glenower, Bow and Arrow, Espirando, Fallen Princess and Sister Sue finished in the order named. Time 1:15½.

Fourth race, one mile, selling, three-year-olds, purse \$400. Personne (E. Jones, 105) first easily by two and one-half lengths Rey del Tierra (W. Martin, 110) second by two and one-half lengths; Little Singer (Gray, 104) third. Alvin E. Sutton and Break O'Day finished as named. Time 1:42.

Fifth race, one and one-half miles, handicap, over six hurdles, three-year-olds and upward, purse \$400. Gold Dust (Stanford, 132), first easily by two lengths; Mestor (McMahon, 130), second by one length; Capt. Reis (Hueston, 148), third. Gov. Budd and Viking also ran. Time 2:46.

Sixth race, six furlongs, two-year-olds, purse \$400. Martha II. (Thorpe, 105), first driving by a head; Yule (E. Jones, 105), second by seven lengths; Marplot (H. Martin, 108), third. Hermoso, Rose Maid, Melvin Burnham and Morano finished in the order named. Time 1:13½.

FRIDAY, DECEMBER 24.

First race, four and one-half furlongs, selling, two-year-olds, purse \$300. Lord Marmion (Thorpe, 117) first, easily by one and one-half lengths; Good Friend (Conley, 103) second by one and one-half lengths; Abina (E. Jones, 100) third. Al Koran, San Venado, Daily Racing Form, Valcienne, El Moro, Little T. G., Darechota, Henry C. and St. Angelo finished in the order named. Time, 0:55.

Second race, one mile, selling, three-year-olds and upward, purse \$400. Cappy (Gray, 92) first easily by four lengths; Lucky Star (McNichols, 92) second by one and one-half lengths; Mollie R. (McGinn, 101) third. Sea Spray, Widow Jones, Earl Cochran, Pleasanton, Doyle, Alvin E. Veloz, Terra Archer and Nervula finished in the order named. Time, 1:41.

Third race, one mile, selling, three-year-olds and upward, purse \$400. Polish (J. Woods, 95) first easily by three quarters of a length; imp. Devil's Dream (Thorpe, 104) second by a neck; Bernardillo (Piggott, 104) third. Double Quick, Sir Dilke, Summertime and Lone Princess finished as named. Time 1:40½.

Fourth race, one and one-half miles, special purse \$500. Buckwa (H. Martin, 103) first eased up by six lengths; Judge Denney (Piggott, 105) second, by one length and Grady (Thorpe, 106), third.

Fifth race, one and one-eighth miles, selling, three-year-olds and upward, purse \$500. Salvado (W. Taylor, 107) first, easily by one-half length; Argentina (Piggott, 105) second by one length; Don Clarendio (Clawson, 93) third. Yankee Doodle, Shasta Water and Ace also ran. Time, 1:52½.

Sixth race, seven furlongs, three-year-olds and upward, purse \$400. May W. (Thorpe, 104) first, easily by two and one-half lengths; The Roman (H. Martin, 107) second by three and one-half lengths; Paul Griggs (W. Martin, 107) third. Rev el Santa Anita and Mercutio finished as named. Time, 1:26½.

SATURDAY, DECEMBER 25.

First race, seven furlongs, selling, three-year-olds and upward, purse \$300. Caliente (H. Martin, 105), first driving by two lengths; Serena (J. Woods, 97), second by one and one-half lengths; Pat Murphy (Clawson, 102), third. Earl Cochran, Outgo, Silver State, Olive, Chas. A., Masoero and Cardwell finished in the order named. Time 1:27½.

Second race, one and one-eighth miles, selling, three-year-olds and upward, purse \$400. Flashlight (Shaw, 109), first easily by three quarters of a length; Garland Barr (Piggott, 108), second by five lengths; Mamie Scott (E. Jones, 106), third. Song and Dance and Claudiana finished as named. Time 1:46½.

Third race, one and one-half miles, three-year-olds, the Flood Handicap, value \$1,500. Personne (Conley, 105) first easily by two and one-half lengths; Vincitor (Piggott, 115) second by one length; Charlie Reif (H. Martin, 105) third. Osric II. and Don Clarendio also ran. Time 1:36.

Fourth race, one and one-eighth miles, three-year-olds and upward, the Christmas Handicap, purse \$500. The Roman (H. Martin, 110) first easily three-quarters of a length; Sweet Faverdale (Thorpe, 108) second by one length; Marquise (G. Wilson, 103) third. Time 1:53½.

Fifth race, five and one-half furlongs, all ages, the Shasta Water Handicap, purse \$400. Sybaris (Thorpe, 107) first, handily by one and one-half lengths; Bellicosio (E. Jones, 130) second by three and one-half lengths; Marplot (H. Martin, 105) third. Tiger Lily also ran. Time, 1:07.

Sixth race, six furlongs, two-year-olds, purse \$400. St. Cuthbert (Thorpe, 104) first, easily by seven lengths; St. Calatine (Ames, 117) second by twelve lengths; Magnus (E. Narvaez, 102) third. Duke of York II., Melvin Burnham, Outlay and Rosa finished in the order named. Time, 1:13½.

## Ingleside Races.

MONDAY, DECEMBER 27.

First race, five furlongs, two-year-olds, purse \$350. Traveller (Thorpe, 113) first, driving by a nose; Hardly (Clawson, 110) second by two lengths; Catawba (Conley, 106) third. Woodford filly, Highland Ball, Prince Tyrant and Sunshine II. finished in the order named. Time, 1:01½.

Second race, six furlongs, selling, three-year-olds and upward, purse \$350. Zamar II (Conley, 106) first, driving by three-quarters of a length; Horatio (W. Martin, 109) second by one length; B. & W. (Thorpe, 119) third. Lucky Dog was left. Time, 1:15.

Third race, one mile, all ages, purse \$500. Count of Flanders (J. Woods, 85), first easily by three and one-half lengths; Spunwell (Clawson, 85), second by five lengths; Satsuma (E. Jones, 115), third. Tom Cromwell also ran. Time, 1:40½.

Fourth race, one and one-quarter miles, three-year-olds and upward, purse \$400. Can't Dance (Thorpe, 105), first

driving by a head; Collins (E. Jones, 101), second by four lengths; Don Clarendio (Clawson, 92), third. Coupon III., Capt. Piersal, Claudiana, Billy McCloskey, Little Cripple and Navy Blue finished in the order named. Doyle was left. Time, 2:09½.

Fifth race, four and one-half furlongs, maiden two-year-olds, purse \$350. Mariner, Ping, Prince Blazes, Flushing-ton, Abina, Henry C., Tempse, Indomenus finished as named. Imperious was left. Time 0:55½.

Sixth race, one mile, three-year-olds, purse \$350. Hohen-zeller (H. Martin, 107) first, cleverly by one-half length; imp. Devil's Deem (Thorpe, 112) second by three quarters of a length; Lost Girl (Hennessy, 112) third. Dolore and Lillian M. finished as named. Time 1:44.

TUESDAY, DECEMBER 28.

First race, six furlongs, selling, two-year-olds, purse \$350. Roxey Murphy (Clawson, 103) first easily by one and one-half lengths; Espirando (E. Jones, 104) second by two lengths; Darechota (Conley, 103) third. Brambella, T. M'Hugh, Outlay and Nihan finished in the order named. Time, 1:17.

Second race, five furlongs, all ages, purse \$400. Lord Marmion (Thorpe, 112) first, easily by seven lengths; Geo. Rose (H. Martin, 111) second by one and one-half lengths; Hermoso (Conley, 104) third. Towanda, Midas, Bow and Arrow, Al Koran, Geo. Palmer, Easel and Rockefeller finished in the order named. Time, 1:01.

Third race, six furlongs, selling, two-year-olds, purse \$350. Rebel Jack (Conley, 106), first easily by three lengths; Dr. Marks (H. Martin, 103), second by one and one-half lengths; Morinel (E. Jones, 103), third. Catawba, Lady Ashley, Mainbar, Einstein, Mistletoe and Donator finished in the order named. Time, 1:15½.

Fourth race, one and one-sixteenth miles, selling, three-year-olds and upward, purse \$400. Shasta Water (Thorpe, 104), first driving by a nose; Marquise (H. Martin, 105), second by five lengths; Double Quick (Clawson, 109), third. Polish and McLight finished as named. Time, 1:48½.

Fifth race, seven furlongs, four-year-olds and upward, purse \$350. O'Connell (W. Martin, 119), first cleverly by one-half length; Rey el Santa Anita (Thorpe, 107), second by two and one-half lengths; Summertime (Clawson, 109), third. Flashlight, San Marco and Volt finished in the order named. Time, 1:28½.

WEDNESDAY, DECEMBER 29.

First race, seven furlongs, four-year-olds and upward, purse \$350. Olive (Conley, 107) first driving, by a neck; Argentina (Hennessy, 112) second, by two lengths; Pat Murphy (Clawson, 107) third. Miss Ruth, Jack Martin, Walter J., Allahabad, Cromwell, Zune, Zarro, William O'B. and Sir Richard finished in the order named. Time, 1:29½.

Second race, six furlongs, all ages, purse \$400. Libertine (Shields, 112) first very easily by five lengths; May W. (Conley, 104) second, by three-quarters of a length; Highland Call (McNichols, 84) third. Tea Rose II. and Trolley also ran. Time, 1:14½.

Third race, one mile, selling, three-year-olds, purse \$400. Myth (Conley, 105) first, driving by a neck; Bernardillo (Thorpe, 104) second by six lengths; Charlie Reif (H. Martin, 103) third. Miss Prim, Oscuro, Coupon III and Judge Stouffer finished in the order named. Time, 1:42.

Fourth race, one and one-eighth miles, handicap, over four hurdles, three-year-olds and upward, purse \$400. Snow-down (Murphy, 156), first easily by three lengths; Capt. Rees (Huston, 140), second by six lengths; Gold Dust (Stanford, 144), third. Reno, Viking, Veragua, Three Forks, Hyman, Una Colorado, Red Bird finished in the order named. Volt pulled up and J. M. B. fell. Time, 2:04½.

Fifth race, one mile, two-year-olds, the Crocker Stakes, value \$1,200. Count of Flanders (Conley, 110) first, handily by two lengths; Torsida (H. Martin, 112) second by a head; Eddie Jones (Thorpe, 104) third. San Venado, Morellito, Marplot, St. Calatine, George Lee and Los Prietos finished as named. Time, 1:41.

## Record Breaking at Oakland Track

The Oakland track is now accounted the fastest circular course in America, and more fast races have been run over it in the past few days than ever before known in the history of the turf in such a short period. The time made in some race nearly every day has bordered on the sensational. Such record breaking in the month of December must be considered really phenomenal. Coast and world's records have been lowered, while the number of mile races run under 1:41 has been marvelously large.

The following is a list of sensational races, from a time point of view, made over the Oakland race track this season:

BUCKWA, 103, 1½ miles in 2:32½, December 24th. This is a new world's record, supplementing Lamplighter's 2:32½ made at Monmouth in 1892.

SALVADO, 107, 1-1-8 miles in 1:52½, December 24th. This reduces the Coast record a quarter of a second.

MAY W., 104, 7 furlongs in 1:26½, December 24th. This is within a quarter of a second of the Coast record.

BLISS RUCKER, 87, 1 mile in 1:40, December 18th. This equals the world's record for a two-year-old.

SALVADO, 107, 1-1-16 miles in 1:46½, December 20th. This cut half a second off the Coast record.

LORD MARMION, 108, 5½ furlongs in 1:06½, December 21st. This time never beaten by a two-year-old.

SATSUMA, 115, 6 furlongs in 1:12½, December 22d. This is a new Coast record and within a quarter of a second of the world's record.

SENATOR BLAND, 1½ miles, in the slosh, 2:08, November 24th. Phenomenal time for a slushy track.

JUDGE DENNY, 104, 1-1-8 miles in 1:53, November 18th. This equaled the Coast record at that time.

INSTALLATOR, 112, 1-1-16 miles in 1:46½. November 16th. This equaled the Coast record at the time.

SATSUMA, 110, 1 mile in 1:39½, November 15th. This is the Oakland track record for the distance.

TORSIDA, 108, 1 mile in 1:40½, December 22d. Within a quarter of a second of the fastest time made this year by a three-year-old.

ST. CALATINE, 115, 7 furlongs in 1:27, December 18th. A clever performance with weight up.

## Australasian Turf Notes.

Gaulus carried 106 pounds in the Melbourne Cup which he won this year.

Mr. Lewis' Melbourne Cup winner, Tarcoola, is getting some fine looking foals. They recently took first prize at the horse show in Kynton, Victoria. The horse himself is looking beautiful, we understand, and is proving a sure foal-getter.

The following summaries show some remarkable performances in the Colonies from a time and weight-packing standpoint: The brown gelding Surge (by Gibraltar—Delisk) won a mile and three quarter race in 3:03 in the V. R. C. Handicap; Parthenopæus (by Splendor—Atalanta) won a mile and a quarter race in 2:07½ with 130 pounds up; imp. Positano (by St. Simon—Pouza), carrying 122 pounds, ran a dead heat with Bundook, by Carbine, in 2:36 for a mile and a half; in the Spring Nursery Handicap Altair (by Castor—Cissy) won a half-mile race with 131 pounds up in 0:47; Blazer, 3 (by St. Clair—Mountain Lily), won the Electric Plate with 114 pounds up in 0:46 3-5, and Conqueror (by Medallion—Stella) won the Welcome Stakes, four furlongs, in 0:46 1-5, carrying 117 pounds.

## HOOF-BEATS.

FERNLEAF, 2:16½, for which J. H. Shults paid \$6,000, brought \$400 last week.

THE London Sportsman says: "The American horse Rennselaer, recently arrived at W. Leader's stable at Wroughton, has been sent to England with a view of being prepared for next year's Antuail grand hurdle race. He is a three-year-old colt by Hayden Edwards, out of The Belle and belongs to Mr. J. E. McDonald.

In the list of winning trainers in England for the season just closed, the American trainer, John Huggins, who has been handling the horses of P. Lorillard and the Lorillard-Bereford stable, stands well to the front. He had thirteen horses, which won twenty-seven races valued at \$59,315, which places him seventh in the list as to amount of money won.

COLONEL "BOB" PATE, who for years was regarded as the "king of St. Louis gamblers," is reported to have gone broke at the City of Mexico, where he went a few seasons ago to establish horse racing in that country. He built a race track near the City of Mexico, and this not being a paying success, he erected another. This also failed, and he is now reported to be in bad straits.

THE stallion Red Sid by Sidney, dam Florence Wilkes by Red Wilkes, second dam Lady Curtis by Curtis Hambletonian, took a pacing record of 2:29½ this year at Parker, Pa. His driver, Barney Coyle, drove him a mile in public in 2:18, with the last quarter in 33 seconds. Red Sid is owned by F. C. Godard, of Callery, Pa., and in the stable with him is Billy Chimes, three-year-old record 2:35½, brother to Florida Chimes, 2:16½, by Chimesbrino.

TOM MURPHY, who was undertrainer for Orrin Hickok and who campaigned several horses on the circuit in this State, has succeeded in driving to victory Proclodnyak, the Orloff trotter, who captured a stake worth 18,000 roubles, or \$9,000, which is the largest purse ever pulled down by a trotter in Europe. Proclodnyak is a black mare, and was bred by the Grand Duke Dimitry. Murphy has developed and trained the mare for her yearling form.

It was with great regret that we heard of an accident that befell Gaston Ashe on Christmas Day. He was acting the part of Santa Claus at his place in Tres Pinos and had provided for a number of poor children in that part of the country a Christmas tree and many nice presents. In some way the false white whiskers which enveloped his face caught fire, and Mr. Ashe's face was badly burned before he could get the fleecy fire-catchers off. A telegram to his mother in this city stated that no disfigurement would result, and we earnestly hope the popular young gentleman was not burned as seriously as it is generally supposed he was.

ED TIPTON recently bought Semper Fidele, a royally-bred mare and the half-sister of Semper Lex, Semper Rex and Semper Ego. She was one of the best of race mares. Jim Murphy, who trained her, considers that she was the best mare he ever had in his stable. Semper Fidele is but nine years old. Tipton is a keen judge and one of the best of traders. He values her highly. Tipton bought her for Tipton. Then, too, he bought her yearling colt by Hanover, and left the naming of the colt to the editor of Daily Racing Form. The name chosen is Guelph. It is the family cognomen of the present English royal family—of direct Hanoverian descent. The first George was King of Hanover before he became King of England. The Hanover—Semper Fidele colt is a more than good youngster—in conformation, action and disposition. If he winters well he is likely to be heard from in the early stakes of his year.

THE Western Turf Congress met at Cincinnati Monday, December 20th, and remained in executive session till midnight. The following tracks were represented: New Louisiana Jockey Club, Little Rock, Memphis, Nashville, Kentucky Association, Latonia, Cincinnati Jockey Club, St. Louis Fair Association and Highland Park. The clubs not represented were Washington Park, Detroit and the Pacific Coast. A delegation of the Jockey Club was in conference with the Congress during a portion of its session. The Congress completed the transaction of the following business: 1. It reinstated the horses, horsemen and officials that raced at Pimlico the first few days of this month in violation of Turf Congress rules. 2. It took in the new Harlem Jockey Club to full membership. 3. It changed Rule No. 205 so as to permit cities with 200,000 population to offer \$250 instead of \$300 purses. Mr. Alex Labold presided, and E. C. Hopper served as Secretary. The meeting was entirely harmonious.

DR. STIMPSON pulled Rosemonde through his severe sick-spell in fine shape and from her present condition it is very evident that she will suffer no bad effects from her sickness, and will soon be in training again.

## SPECIAL DEPARTMENT

EDITED AND CONDUCTED SOLELY BY

JOSEPH CAIRN SIMPSON.

**WHAT CHEER?**—Very many times in the course of a day—with few exceptions—I am asked: "What are the prospects for harness racing in California the coming season?"

Owners and trainers of harness horses are, of course, the most anxious querists, but numbers outside of those who are the most vitally interested repeat the question.

As the days pass, I meet on the ferry boats people from all parts of the State, and at the races others are encountered who are in some way connected with harness horses, and since the meeting of the Board of Directors of the Pacific Coast Trotting Horse Breeders Association, and the publication of the editorials in the BREEDER AND SPORTSMAN in relation to proposed changes there has been, what may be termed, an intensification of the interest.

And in this connection it may be well to state that differences of opinions in the editorial columns and the "Special Department," do not imply a conflict between Mr. Layng and myself. He is not responsible for my views, and the aim of both is to do all that possibly can be effected for the good of the cause. Knowledge is increased from argument. Controversies are likely to prove highly beneficial, and though bitterness of feeling may be evoked by contentions even then the gain may far overbalance the loss, there are times when "words that burn" are necessary to correct evils that can only be overcome by heroic measures.

Much pleasanter to commend than condemn, but when condemnation is imperative, in order to save, then it is dastardly in those who are placed in a position that demands attention should skirt the duty.

There is a general consensus of opinion that the outlook for harness racing in California the coming year is anything but favorable. Some quite despondent, others who are somewhat hopeful, a few who have faith that with methods of management which will secure the approval of the public there will follow a break in the dark cloud. This is my belief, and there are many others who agree in the opinion, among them people who have come to the conclusion from a careful study of the situation. An influential body of men who advocated a course that, in my opinion, will prove a great detriment to the future of harness racing. That is for the only association which was organized to "promote" harness horse races to become a sort of quasi jockey club, give a "mixed meeting" where gallopers and harness racers will all be awarded a chance. This was thoroughly canvassed before the fall meeting of the association, and at a gathering of members held in Sacramento there was an "overwhelming majority" opposed to the innovation.

In order to effect the purpose the plan proposed, in fact already agreed upon, is to change the name of the association and amend the constitution so that running races can be incorporated in the programme. If that is carried out in accordance with the requirements of the constitution, and the necessary number of votes secured to legally effect the change, I will do all in my power to aid in making the meetings successful. But if the attempt is made to secure the end by measures not recognized by the fundamental law, to arbitrarily grasp the power and issue an edict that the name has been changed, the original object of the organization disregarded and an entirely different course pursued, those who favor such autocratic methods must not be surprised should there be a stubborn determination to thwart the conspiracy. Too plainly apparent to anyone who will give the question a little consideration to require long arguments that the members of the association are the owners of whatever property belongs to the association. The directors may vote that the Board has the power to transfer this property to another society, that it can sequester, or rather confiscate property belonging to one set of contributors into other coffers, but is that equitable? Is it an act which "laws of the land" will sanction?

There is no excuse, however, for a course that is quite closely connected with oldtime practices when kings despoiled to reward favorites, and somewhat akin to what cost Great Britain the most brilliant jewel in her crown.

Constitution, Article IX, Section 1. "This constitution may be abrogated, altered or amended at any annual meeting, provided the intention to move such abrogation, alteration or amendment, and a copy of the proposed motion be furnished the Board of Directors or its secretary, three months prior to said meeting."

Section 2—It shall be the duty of the secretary to transmit to each member of the association a copy of the proposed abrogation, alteration or amendment, at least four (4) weeks prior to the time of such meeting."

Article III, Section 1. "The association shall meet annually on or before the first Monday in December, at such time and place as the Board of Directors or its presiding officers may designate."

I have italicized "or before," as that furnishes the opportunity for legally accomplishing the object, and even if there is some sort of jugglery that will overrule the constitution and the wishes of some of the members it will be found extremely hazardous to make the attempt. I am of the opinion, however, that when the Directors who favor change of name and other amendments to the constitution are shown that there is a right and wrong way of accomplishing their desire the right will be the choice.

The annual meeting called for the middle of April will give sufficient time before formulating the summer and fall programmes to comply with all the requirements.

Therefore, the trial of new departures can be made the coming season, and even if a spring meeting be held, time enough for that.

**PARALLELS.**—I have heard claims that modern racing would finally degenerate into a close resemblance to the quarter racing of the olden days, and that in place of three-quarters, five and a half furlongs, five furlongs and half a mile, there would be races from "three hundred steps" to seven hundred yards.

The short races, which are so prominent in racing programmes, are the only analogous features, about the only

points of resemblance between the two eras. And without any close likeness at that. Seven hundred yards, half a mile at the furthest, the longest course favored by "short-horse" men, and in the largest stables of those who made quarter-racing a business, rarely contained a horse that could run a mile at fair rate of speed. While a quarter of a mile was the favorite distance, or rather that was more frequently the length of the race than longer or shorter routes, and gave a distinctive name to the sport, oftentimes there were variations.

Matchmaking was the foundation and a sharp genius at driving a bargain, one who could get the better of his competitor, in the distance to be run, weights carried, or, above all, feet given or taken was nearly as important a factor in the result as the contending horses.

Some forty odd years ago a match between two noted Illinois horses to be run at a point equally distant from their homes. One was bred near Galena in a neighborhood famous for its short horses of Printer blood, the other in Central Illinois of Bacchus and Boanerges strains combined, giving his supporters the utmost confidence in his capacity to run the quarter faster than "anybody's horse." The little town selected for the battle ground was thronged with people. The match made some time before, so that there was a congregation of short-horse men and short-horses from Illinois, Wisconsin and Iowa. The "p.t.h.s" were pronounced perfect. The sod had been removed from the level part of the prairie adjoining the village, the soil leveled with an inverted potash kettle and solidified with mauls. Each horse a path, some twelve feet apart, so that foul-riding was impossible, "poles" set at start and finish, where the four judges were stationed. One of the conditions "judge tops and bottom," that meaning if one horse got the best of the start that was measured in feet and subtracted at the finish. Thus, if the judges at the start decided that A had five feet the advantage and the judges at the "outcome" awarded him three feet in front of B, B. was the winner by two feet. Odds were based on feet. A person might offer big odds, 5 to 1, or even greater, without securing a wager, even betting, when a certain number of feet were conceded, right lively.

"Ask and answer," the agreement regarding the start viz, a "toss up" for choice between "ready" and "go." Go was generally the choice though some of the "turners" claimed that it made little difference. Celebrities in the profession and when the match was for a large sum one who stood high in the estimation of the maker would be secured if he had to be brought from a distant country. As a rule stalwart men, strength united with cool judgment the requirements.

A big excitement among the crowds at the start. "Ready," shouted over and over again without a response, a part of the spectacle. Though hours were oftentimes consumed (I knew of one race, the California gray mare, Comet, and Beethoven Billy, when they "turned" for two days) no demonstration of disfavor. Go!!! Exciting! I have watched close finishes among celebrities, when thousands cheered and yelled many scores of times since, and even when the occasion was the culmination of heats of four miles, and the home horse winning, have listened to the enthusiastic bursts of applause. And yet never the equal of the demonstration when Democrat beat Bulger on the Illinois prairie. Hundreds of farm wagons, packed with occupants, carriages occasionally, troops of saddle horses, a dense mass of pedestrians skirting the paths, many tiers deep. Go! resounded along the line and the hurrahing and yells cannot be described. Horses attached to heavy wagons running madly over the prairie, saddle horses frantic, bounding, snorting, wild at the sound of the iron-shod hoofs clattering over the hard track, which started their excitement and that intensified by the succeeding clamor.

Democrat won; he was brought to California, and in commemoration of his victory in the big match was renamed Bulger Dick. The following week was taken up with quarter racing at least six a day from \$25 a side to \$250 each. Rain came. The grand paths spoiled. But the prairie was moderately smooth, and "poles" set at various distances gave all the opportunity wanted.

Looking back so many years, recalling races of the long ago, and I must admit that there were lots of fun in quarter racing. And, as I have stated before, in all the short races I have seen, only one, it may be two, when the race was thrown. The owner of two quarter horses, one of them three-quarters thoroughbred, won many races for me, the only one he lost he ran outside of the poles at the finish, and though far in the lead of his competitor, under quarter-horse law he was disqualified. The other I bought in Missouri, and, measured by the watch, he was quite near the top. After losing three races I gave him away.

**ANOTHER "SIMPSON RULE" ENFORCED.**—"I. H. Beach Brantford, Ct., wrote a letter to Secretary W. H. Gocher, explaining a certain race in which he had taken part, and stated that he had to pull his horse's head off to keep from winning. This admission of guilt cost Mr. Beach \$100." Report of the Board of Review meeting, American Horse Breeder.

There was not much trouble in getting the approval of the Committee on Rules for Section 2, Rule 48, but when brought before the Congress at first it was received as a sort of a joke, but that feeling quickly subsided and the only objection offered was that it might give an opportunity for spietework, though a rereading did away with that the

section being: "Should a driver publicly state that he purposely lost a race, he shall be fined, suspended or expelled. Should an owner state that he gave orders to the driver of his horse not to win a race he shall be expelled on proof before the proper tribunal." Anyone who has listened to some trainer when telling of their prowess on the tracks do not need information regarding the prevalence of the habit, when in all probability one-half or more of the tales were untrue. Nevertheless a rehearsal of that kind has done a great deal of damage, and with a few more examples it will be measurably corrected.

According to my recollection the section passed without a dissenting vote.

The preface to the book of rules gives the changes of the rules and new rules are given in italics. In that *purposely* is omitted, but the rule itself is all right. The error, however, shows what one word will do, and until I referred to the rule was somewhat startled, fearing that *purposely* might have been left out when it was important, vitally important.

\* \* \*

**THE CHRISTMAS TURF PAPERS.**—Whatever the influence of the "hard times" in cutting down the receipts of the "horse" papers, it is very sure that expense has been ignored in getting up their Christmas editions. Not only from an artistic point of view, but, judging from a very brief perusal, the best part is the letter-press. A "heap" of difference in the situation now from that which prevailed when I first began writing on horse topics. Only one turf paper then in the United States, the "old" Spirit of the Times, and now I can only guess at the number published in various parts of the country. Those I receive at home require a good deal of time to become acquainted with their contents, when the usual number of pages are issued, but the Christmas numbers of The Horse Review, The Horseman, and the Spirit of the Times contain such an accumulation of good matter that I have been forced to lay them aside until there is more leisure, and not only more leisure, but also when there is less to interfere with a proper appreciation of the good things presented.

\* \* \*

**"ETERNAL NEGLIGENCE"**—"Eternal vigilance is the price of liberty" is an old and quite true saying. I copied it, but the types reverse it into the caption of this article.

Not so inappropriate, however, as it might appear, as in connection with the subject written about it is safe to state there is more negligence than vigilance displayed.

JOS. CAIRN SIMPSON.

**ROMAN CHIEF**, chestnut colt, 3, by Hanover, dam Golden Reel, by imp. Rayon d'Or., and Westchester, chestnut colt, 3, by Hanover, dam Crilla, by imp. Mortemer, were sold at auction in the Newmarket sale of December 10th. J. S. Morrison got Roman Chief for \$2,000 and Westchester went to G. Richardson for \$1,000. Both these colts were sent to England and were formerly owned by R. Croker.

**THE yearling colt** by imp. Top Gallant, dam Kitty Guzan (dam of George Palmer), by Virgil, out of Moyne, by imp. Mortemer, is said to be the best yearling which has shown up in the West thus far. At Chicago he worked three-eighths of a mile in 0:35½, carrying 123 pounds, and doing the trick with the greatest ease. He is owned by J. M. Murphy, who has refused \$4,500 for him.

**THE Tennessee Breeders' Association**, through J. W. Russwurm, Secretary, announced December 17th that it would claim the same dates as last season for its Spring running meeting—May 2d to May 12th, inclusive. The meeting will follow that held at Montgomery Park, Memphis, and the stakes will close Saturday, January 22d.

**EDWARD CORRIGAN**, the horseman, has purchased five carloads of Livermore Valley hay for shipment to Chicago. He is negotiating to rent 100 acres near Livermore to raise hay for his fine horses, believing that the product from that section is superior feed.—Oakland (Cal.) dispatch, Dec. 29.

**FRANK VAN NESS** was called into the stand to explain Highland Ball's sudden turn of speed. Mr. Van Ness said that he had had a dentist fixing the horse's mouth last week, which accounted for his sudden improvement. Jockey Golden was suspended pending investigation.

**FRANK PHILLIPS** claimed Oscuro after the third race Wednesday. He was entered to be sold for \$500, and with the winners' end of the purse added, it made the black colt stand the genial turfman \$825. The son of Charaxus is well worth that amount, considering his record.

A **WESTERN breeder** says that trotting-bred horses weighing 1,150 to 1,250 pounds can do more farm work than any of the draught breeds, and that they are more hardy and more intelligent.

**THE Curfew**, 2:27½, is a sister to Boreal, 2:15½, being by Row Bells, out of Rosy Morn, by Alcantara.

Your stable is not complete without Quinn's Ointment. An infallible cure for all ordinary horse afflictions. Follow the example set by the leading horsemen of the world and your stable shelf will always hold a bottle of

**Quinn's Ointment.**

A. L. Thomas, Supt. Canton Farm, Joliet, Ill., remarks, "I enclose you amount for six bottles of Quinn's Ointment. After one year's trial must confess it does all you claim for it." For Curbs, Splints, Spavins, Windpuffs or Bunches,

Price \$1.50. Sold by all Druggists or sent by mail.

W. B. EDDY & CO., Whitehall, N. Y.

## TURF AND TRACK.

### THE SULKY.

THE Christmas Horse Review was one of the best numbers ever issued.

It is almost certain that Messrs. Salisbury and Griffith will have a string of horses out this season.

ALAMEDA will be the rendezvous for at least a score of trotting horses drivers and trainers this spring.

THE dam of Athanio, 2:10, is in foal to Junio, 2:22, again. She has a yearling by Diablo, 2:04, that is a good one.

THE track at San Jose, under Messrs. Bunch and Hables' care, is in better condition this winter than it has ever been.

SECOND payment in the Stanford stake to be decided at the State Fair in 1899 is due at Sacramento to-day, January 1st.

ED. LAFFERTY has a gelding by Stamboul, 2:07½, out of Muscova, 2:28½, by Belmont 64, that is the making of a 2:10 trotter.

THE fast pacer, Bessie Rankin, 2:16, was defeated by Haviland, an old-time pacer, in a match race two weeks ago at Alameda.

THERE was a race meeting at Phoenix, Arizona, during the past three days of 1897. Full particulars will appear in our next issue.

F. WICKERSHAM, of Fresno, says prices for good horses in that section of California are improving. He has made several good sales lately.

MATTIE GRAHAM, 2:21½, by Harold, now twenty-three years old, is believed safe in foal to Allenwood, by Cornelius, dam by Vick's Ethan Allen, Jr.

CHEHALIS, 2:07, will be sent East next season. He will please the racing folks there as much as he has those who have seen him pace on this Coast.

A NUMBER of horsemen from Washington and Oregon write that they will bring their horses to California next year provided good races are given.

DICTATUS, 2:21, is now used as a buggy animal in Alameda. He has a kindly disposition and is as level-headed as an old express wagon horse. He looks well.

DIABLO, 2:09½, will make the season of 1898 at Pleasanton. His book will soon be filled, for the only two of his progeny out last year were first-class racehorses.

RYLAND T., 2:07½, Grace Hastings, 2:08, Lord Clinton, 2:08½, and Walter E., 2:10, are the only trotters in the 2:10 list that do not trace to Rysdyk's Hambletonian.

ORRIN A. HICKOK is a frequent visitor at Ingleside. He is looking remarkably well and is not afraid to say that the winters in California cannot be surpassed in America.

WE are pleased to hear that P. J. Williams will stand his handsome Sidney stallion, Monterey, 2:13½, during the season of 1898. The probabilities are he will stand at Alameda.

WE shall not be surprised to hear of the Dexter Princes making a great showing in the East this year, while in California there will also be a number of his progeny winning laurels.

WHITE HAT DAN MCCARTY is trading horses in Los Angeles. Dan bought a number of good ones at Fresno lately very reasonable and will get well paid for them ere he lets them go.

WILLARD STIMSON of Los Angeles recently disposed of a number of trotters and pacers and will confine his breeding operations to a few first-class mares which he has from time to time purchased.

HAMBLETONIAN WILKES, the only son of the mighty Geo. Wilkes at present in California, is looking exceedingly well, and everyone who owns a colt or filly by this horse is sure they have one worth training.

THAT reliable statistician, A. J. Meston, has traced the influence of Hambletonian 10, and he finds that 92 per cent. of all 2:10 trotters and 84 per cent. of all 2:10 pacers carry the blood of this great speed progenitor.

THE report that Ben Walker is in California training for Monroe Salisbury is incorrect. He is now in Chicago and will winter in the East. It is probable, however, that he may drive for Mr. Salisbury again next year.

CECILE A., a four-year-old filly by Advertiser, 2:15, out of Cecil by Gen. Benton sold for \$725 at auction last week in New York City, while her weanling daughter, by Stranger, brought \$230. They will be shipped to Europe.

STRANGER, the seventeen-year old son of Gen. Washington and Goldsmith Maid that was sold for \$1,550 at auction in New York City, December 14th, will be sent to Europe. This was a ridiculously low figure for such a sire.

It is a curious fact, there are very few sons of Electioneer, Guy Wilkes, Nutwood, or Sidney, that will stand for service in California in 1898. A son of Electioneer and Beautiful Belle would make a big season here.

GUS DORE says that the yearling colt out of Director's Flower, and sired by Campbell's Electioneer, and owned at Bryn Mawr Stock Farm, Pawtucket, R. I., is one of the best and most promising colt trotters he ever saw.

THERE is a coal black weanling by Oro Wilkes, 2:11, out of Mary Best, 2:12½ (both being four-year-old records), at the San Mateo Stock Farm, which is pronounced a trotting marvel by all the horsemen who have seen him.

THERE is a Dexter Prince colt out of Slight (sister to the leading sire of 1897, Electrite), by Electioneer, at the Oakwood Park Stock Farm, which competent critics pronounce one of the finest young horses foaled in this State.

MESSRS. Buckman & Garragher two well-known business men of Sacramento recently disposed of nearly all the trotting stock they had on their place, The River View Farm. These gentlemen had Geo. Dexter 2:18½, and a number of other good ones.

LEDA S., a bay mare by Stamboul out of Nancy Lee (dam of Nancy Hanks) by Dictator, was one of the bargains which J. M. Lov of Paris, France, picked up at the sale of Robert Bonner's horses in New York city, December 14th. She only cost him \$410.

BILLY RANDALL has gone home for the holidays, but before going he left orders to have Dr. Stimpson fire Salvation, and from the success of the Doctor's new method on other horses he feels certain that this good son of Salvator will recover and soon be racing again.

THERE is less sickness among horses this winter in California than at any time in its history. The protracted cold spell has retarded the growth of the pastures, but one good rain will make the feed stronger and better than if it had been kept moistened continually.

JAY GOULD, 2:21½, was the first champion trotting stallion to sire a 2:10 trotter. He held the world's record for trotting stallions from 1872 to 1874, and his daughter, Pixley, scored a record of 2:08½ in 1893, which was twenty-one years after her sire became the trotting king.

Now is the time to prepare stallion cards for the season of 1898. More mares will be bred than at any time in the past four years. The supply of really good trotters and pacers does not equal the demand, and it is harder to get a first-class roed horse now than it has been for some time.

FOLLOWING in the steps of the Directors of the Pacific Coast Trotting Horse Breeders Association, the Kentucky Trotting Horse Breeders Association has signified its desire to abolish the use of hobbles on all horses entered in races, and the substitution of dashes for the old-time three in five races.

HART BOSWELL, the handsome son of Onward and Nancy Lee (dam of Nancy Hanks) will make the season of 1898 at K. O'Grady's Laurel Creek Farm, San Mateo. His progeny from ordinary mares have shown phenomenal speed, and he should be well patronized by all who are seeking horses that will sell well.

JAY-EYE-SEE, 2:10, Maud S., 2:08½, Nancy Hanks, 2:04, and Alix, 2:03½, have held the world's record for trotters since the 2:10 line was reached in 1884, and none of them are by a sire or out of a mare with a record as good as 2:30. In fact, the same might be said of every trotting champion since Lady Suffolk beat 2:30 in 1845.

IN reading the account of the sale of horses belonging to John H. Shults, at Peter C. Kellogg's New York sale, one is forcibly reminded that this highly esteemed breeder was a most liberal patron of the late G. Valensin's, for the list of Sidneys, Buccaneers and Flaxtail mares disposed of shows that he has decided to let others try to breed fast ones for them.

MONWOOD, 2:28½, the sire of Mollie Nurse, 2:14½, pacing, was taken by his owner to Klamath Falls, Oregon, when a yearling, and sold to Dr. H. A. Wright. When the doctor learned that there was a registered horse by that name he had his colt registered under the name of Woodmon, merely changing the syllables around. He took his record, however under the name of Monwood.

THE great sire Altamont was bred to twenty-five mares in 1897 and at least twenty-three are in foal. He is looking like a four-year-old. The change from Oregon to California has greatly benefited him. Mr. Beach, his owner, says he will make the season of 1898 at his place in Alameda, and is delighted with the letters received every day from owners of mares who are anxious to breed to the "King of Pacific Coast Sires."

FRED TALBOT, one of San Francisco's leading merchants and most prominent horsemen, is enthusiastically in favor of pneumatic tires for buggies and light vehicles. He says that they are the cheapest, safest, and smoothest-running, besides making the vehicle more comfortable to ride in than any ever devised. He prefers them to the hard rubber tires, because he has tested both for years over the cobblestones and pavements of this city.

THE light harness horse people of California are beginning to take an interest in the prospects for next season's racing. "We shall have race meetings!" They say there is to be a rift in the clouds which have shaded this industry since 1894 in California, and there is a stronger determination than ever on the part of these long suffering breeders to give some good meetings previous to the time when we shall a Governor in California who will not overlook them and vote for mud dredgers when appropriations are to be made.

ELECTIONEER, though dead a number of years, is still the leading sire of 2:20 trotters. Nowadays, 2:20 speed counts and Electioneer is in the lead. In 1891 2:30 speed counted, and Electioneer put 37 in the 2:30 trotting list—which is 12 more performers than were ever credited to any other sire in a single season. In point of ability to beget speed at the trot it is not hard to pick out Hambletonian's best son. At 20 and 23 years of age Electioneer was the leading sire.

ELECTIONEER is the only sire of a 2:10 trotter that has more than one son that has sired a 2:10 trotter. He is the sire of Arion, 2:07½; Sunol, 2:08½; Palo Alto, 2:08½, and his sons, Whips, Chimes, Norval, Hummer, Albert W. and Junio have 2:10 trotters to their credit. Whips sired Azote, 2:04½; Chimes sired Fantasy, 2:06; The Monk, 2:08½, and the dam of Dare Devil, 2:09½; Norval sired Countess Eve, 2:09½; Hummer sired Bonner, 2:10; Albert W. sired Little Albert, 2:10, and Junio sired Athanio, 2:10.

FRANK STARR, in a recent letter from Russia says: "I see in your note of the deal that among the horses purchased at the Patchen Wilkes Farm, by the Japanese, there was one called Vodka, out of a mare called Samavar. These are both Russian names. A Samavar is a tea urn that they use to heat water in making tea, and one is found in every family from the richest to the lowest peasant. 'Vodka,' out of Samavar, translated into English, is 'Whiskey out of Tea Pot,' as Vodka is whiskey."

B. O. VAN BOKKELEN, who is at Wm. Corbitt's Stock Farm, San Mateo, says he never saw such a uniform lot of phenomenal trotting yearlings as those sired by Oro Wilkes on that farm. He says he only wishes he could show everyone what these fine-gaited ones can do. Van is not giving to boasting, hence one can rely on what he says.

THE Rocklin Driving Park Association has prepared another program for races, this time for New Year's day. The posters gotten out this week announce the following events: Free-for-all trot or pace, \$50; 2:45 class trot or pace, \$20; running—½ mile and repeat, \$10; bicycle race, handicap, ½ mile, \$5; entrance free to all races. Money divided 50, 25, 15 and 10 per cent. Munyon, Jessie P., and Bonnell are in training for the free-for-all. If Abidine starts he will be given the pole, Bonnell 2d, Jesse P. 3d, and Munyon in the outside position.

VERILY, Electioneer may be termed the king of all trotting sires. His stud career may honestly be said to have begun less than twenty years ago, and he has been dead some years, while he begot, all told, less than 400 foals. Nevertheless, he stands at the head of all sires of 2:30 speed; has the largest number of 2:20 performers; leads the sires of 2:10 performers; put more trotters in the list in a single season than any other sire, and is the only sire of a 2:10 trotter that has more than one son to sire a 2:10 trotter, no less than six of his sons enjoying this distinction. He has sired more record breakers than any other stallion, and the whole tale is not yet told.

THE bay mare Dot Miller, 2:20½, has been credited at various times to both Sultan, 2:24, and Sultan's son, Epoch 10114. The latter is probably the correct version, although the entry lists at the central New York meetings, where the mare started, generally gave her as by Sultan. Epoch is a nine-year old son of Sultan—Rosebud and is owned by Charles A. Kittle, Mt. Kisco, N. Y., who purchased him some four years ago at a sale of Fashion stud farm horses. Rosebud, his dam, is a daughter of Goldsmith Maid, and a full sister to Stranger, who has just been sold for export. Epoch is the first of Rosebud's get to produce speed.

FAVONIA was the first trotter that had been used as a broodmare to enter the 2:15 list. After raising colts she proved to be about the greatest campaigner of her day. However, the ex-broodmares that have since performed have proven that there was nothing strange about her being fast and game after leaving the harem. Vera Capel (p), 2:07½; Pixley, 2:08½; Lady Wilton, 2:11½, raced well, and obtained their record after raising colts; and the number of performers of this season who belong to this class of performing broodmares is simply startling. Bessie Bonehill (p), 2:05½; Sally Toler (p), 2:08½; Countess Eve, 2:09½; Elloree, 2:09½; Emily, 2:11, Helena, 2:11½, and Peko, 2:11½, all raced well during the season, and they were all transferred from the harem to the turf after raising foals.

BUYERS are up the valley picking up horses for the Alaska trade, and before many months roll by the demand will be greater than the supply. It does not matter whether Portland, Seattle or Tacoma captures the Alaska trade, people going there will need a certain number of horses and these horses will be furnished from Oregon, Washington and Idaho. The demand, based on conservative estimates, will be far greater than the supply of suitable horses for this market. Only a small per cent. of the horses in this country are kept in condition for early spring work. This, together with the fact that only well-broken horses can be used, will likely find the market short on suitable stock. We have advised farmers all along to prepare for this market, which is bound to come before horses can be gotten ready off the range.—North Pacific Rural Spirit.

PATHMONT and Demonstrator, two well-known race horses of Portland, were attached by Sheriff Frazier yesterday in response to a suit by H. B. Miller, of Grant's Pass, against G. M. Misner and M. Schilling to recover \$400. About a year ago Miller sold Pathmont to Misner and Schilling for \$900, receiving \$500 in cash, and notes for the balance. Pathmont is a pacer with a record of 2:14, and was purchased by Miller from Van B. DeLashmott for \$1,000. Miller is said to have once refused \$6,000 for the animal. Pathmont is said to have been unable to keep up to date and improve his record, or even hold to it well, although still a young horse, and Misner and Schilling were unable to make any money with him. They offered to return the horse to Miller for the balance due, and he declined to accept. The \$400 was not paid when due, and suit was instituted. Besides the two horses, a buggy was also attached. Demonstrator was claimed to have just been sold to a banker at Independence, and the attachment against him was accordingly released. The buggy was also found to have been sold, and the attachment therefore only holds as to Pathmont.

AMONG the cases before the Board of Review, the most notable is that of Ira Ryerson, the well-known Orange county reinsman, who has trained for E. H. Harriman during the last three years. Ryerson started for Europe two weeks ago today with Greenlander Girl, 2:14½; Sam L., 2:14½; Tommy, 2:21½; Victor, 2:20½; Golden Gateway, by Guy Wilkes, Krishna, by Stamboul, and a number of other trotters; but before his departure he put in an application for the continuance of his temporary reinstatement. This was denied, so that the sentence of expulsion pronounced several years ago for bringing Taylorson out West stands revived. Ryerson was practically a defendant in the investigation proceedings instituted by the Goshen driving park and E. H. Harriman relative to the story about Elsie S. having been poisoned during the Goshen meeting last August on the eve of the \$7,500 sweepstakes race. Both sides were represented by well-known lawyers, and there was an array of medical and chemical expert testimony that suggested a murder trial. After the evidence was all in the Board found that beyond all doubt Elsie S. suffered from muscle soreness and not from poisoning, and the finding was strongly suggestive of the charge that Ryerson put poison in the manure which he sent to Dr. Lederle for chemical analysis, it having been found that according to the sample furnished Elsie S. must have eaten about a pound of strychnine. In conclusion the Board found that "the scandalous charge of poisoning was started by Ryerson, and that he alone appears to be responsible for its circulation." Mr. Harriman and the Goshen track officials were very much annoyed and humiliated by the circulation of such a story, and they sought an investigation by the Board of Review, in order that the whole truth might be known. Mr. Harriman said on the witness stand that he never believed in the truth of his trainer's story.

## THE SADDLE.

NINETY CENTS is the name given by J. A. Joyner to a yearling gelding by imp. Sir Modred, out of Trade Dollar.

DR. J. D. NEET, Kindergarten Stnd, Ky., has sold Brown Dick the yearling filly Sauchan, by Himyar—Tarantella, by Peter.

OCTAVE, by imp. Quicklime—Ophelia, won at New Orleans December 18th. Quicklime is proving a great sire of winners.

STOCKHOLM, a recent New Orleans winner, is by Iroquois, out of Soncy Laes, therefore a half-brother to J. M. Murphy's good mare Souffle.

ROY CARRUTHERS, the young owner of Howard Mann, made his appearance on the block Saturday, his slate reading "St. Louis Club."

JOHN HUGGINS, who trains the stable of P. Lorillard and the Lorillard-Beresford partnership, with his wife, is at his home on a visit. He will return to England early in the spring.

THE Salvators like a long journey. It is doubtful if there are three horses on the coast capable of beating Salvado at any distance from a mile and a sixteenth to a mile and three-quarters.

SATSUMA now holds the mile track record at Ingleside and the six-furlong record at Oakland. He is the only horse in America who has run a mile in 1:39½, and again in 1:40 during the same year.

SAM HILDRETH has put into training The Ace, Refugee Tuxedo, Alvarado and All Over. The last-named three will be sent over the sticks. The Ace ran a race or two and was then turned out for five weeks.

N. W. MUIR is having Paul Pry put through Dr. Simpson's invigorating mill, and if the doctor is as successful with this horse as he was with Judge Denny last year, Billy will be putting up winning brackets in the near future.

FIVE horses were sent to go over the Ingleside steeplechase course Sunday morning, and Three Forks and Una Colorado, unable to negotiate the stiff fences, fell. Monita, Silverado and Reno went the full course, water jump and all.

ON the Oregon train which arrived at Oakland Monday morning was the string of Mrs. S. Reed (known as the Oregon short-liners), headed by I Don't Know, the crack sprinter. Dr. McAllister and Allahabad were also in the bunch.

DAN O'KEEFE, owner of Silver State, was ordered off the grounds of the C. J. C. Saturday for disobeying the rules regarding the "drenching" of horses. The paddock official gave O'Keefe away, though the latter begged him to say nothing.

GILT and Bonnie Australian used to be in the same racing stable, and they proved excellent pieces of property. December 20th, at the Iron Hill track, near Philadelphia, the chestnut filly, 3, by Bonnie Australian, out of Gilt, won a four and one-half furlong race, beating a field of eight.

CAPT. TOM B. MERRY, one of America's best-posted turf writers, known far and wide as "Hidalgo," is now the manager of The Phoenix, organ of the wine and liquor trade at Los Angeles. That the genial Captain will make an interesting paper of The Phoenix goes without saying.

DAN HONIG has refused an offer of \$4,000 for his great St. Blaise horse, Magnet. The chances are Marcus Daly will buy this horse, and then California breeders will be kicking themselves four times a day that they let him go out of the State. The offer was from A. B. Spreckels, it is understood.

BUCKWA Dec. 24th broke a world's record that has stood for more than five years, and broke it to the extent of half a second. Reference is made to the mile and a half one. Lamplighter, with 109 pounds up, ran it in 2:32½ at Monmouth Park August 9, 1892, and Buckwa, with 103 pounds up, ran the distance in 2:32½.

MR. CLINTON C. RILEY, a newspaper man of long experience, a practical racing man of keen repute, has been appointed associate editor of the Daily Racing Form. He will in future contribute his literary talent and racing experience to the betterment of the paper.—Daily Racing Form. "Clint." Riley is well known in San Francisco, where he acted as judge at Bay District track for two or three seasons.

No less than 540 thoroughbreds, consisting of mares, stallions, race horses in training, yearlings, and foals, were disposed of by Messrs. Tattersall at Newmarket during the four days of the December sales. All of the desirable stock brought their full value, some of the lots being particularly well sold. The highest prices were naturally realized for Count Schomberg, who went to Mr. Horace Bottomley, a stock-exchange speculator, for \$25,500, and Northern Farmer, presumably sold to the same party, for \$12,500.

HILDRETH & SINK, owners of McLight, claimed the game little Marquise out of the fourth race Tuesday. She was entered to be sold for \$800, and this, with the winners' end of the purse added, made her cost these turfmen \$1,125. Marquise was the only horse in Timmons & Marks' stable and the loss was therefore a severe one, as Marquises are not often picked up at \$1,125. Hildreth says he will make it warm for owners of good selling platers from this out—this to even up on some of the run ups that went against him.

W. S. HOBART has arranged a very attractive race for next Thursday. Messrs. Simpkins, R. M. Tobin, H. Poet, W. B. Sink, W. S. Hobart and Lieutenant Haynes will ride one mile on the flat at Ingleside. The weights are 150 pounds, with a ten pound over weight allowed. Dick Behan, Atticus, Senator Morrill, Sky Blue, Presidio and either Gov. Budd or Wm. O'B. will be turned over to the gentlemen jockeys, who will draw lots for their mounts. A cup will be presented to the first three riders and a \$500 purse will be divided among the owners.

HARRY MASON should feel very proud of his showing with Salvado, who has started in three races and broken two coast records, respectively the mile and a sixteenth (which the Salvator colt ran in 1:46½) and the mile and a furlong, which he went in 1:52½. W. Taylor rode Salvado to perfection yesterday, moving up at the right time and keeping the beautifully-gaited horse in great shape.

THE attendance the night of the sale of the Baldwin yearlings and two-year-olds was very meagre and buyers must have been out buying Christmas turkeys, etc., for there were few present that would loosen up. There were but a small number sold, although nearly all were bred in the purple and superb individuals. The Chesterfields, especially, were fine-lookers, but he is untried as a sire so far as California is concerned, and they would not buy.

LEXINGTON, Ky., Dec. 22.—Thomas C. McDowell has sold to John E. Madden the bay weanling colt, David Garrick, by Hanover, dam Peg Woffington, by Longfellow, for \$5,000, and a percentage of the Futurity and Matron stakes, if the colt wins either. Crit. Davis has sold to Madden the chestnut yearling filly by Hanover, dam Fleur d'Or, by Rayon d'Or, for \$1,250. The board of directors of the Kentucky Trotting Horse Breeders' Association has asked the National and American Trotting associations to pass a rule requiring members of these associations to have the use of hoppers on horses in races abandoned, and to shorten the distances in order to prevent fraud and to cause the practice of laying up heats to be discontinued.

THE latest English horse news is the death of Hampton, the noted racehorse and sire. He was foaled in 1872, so that he lived to the ripe old age of 25 years. He had an unusually successful career on the turf, but he is chiefly remembered by the present generation of horsemen through the equine celebrities he produced after retiring to the stud. These included three Derby winners, Merry Hampton, Ayrshire and Ladas. Hampton was also the sire of such noted performers as Rookery, Royal Hampton, Rene d'Or, an Oaks winner; Sheen, Gay Hampton, Bay Ronald and others that have made their mark in turf history. It is estimated that the amount of money won by Hampton's stock from 1882 to 1897 would foot up to \$1,163,175.

CERTIFICATES of the pedigrees of the following yearlings, the property of P. Lorillard, have been lodged with Messrs. Weatherby: Allegory, ch f, by Sensation—Alacrité; Astral, ch f, by Sensation—Aster; Boomer, b c, by Sensation—Equality; Caiman, ch c, by Locobatchee—Happy Day; Dominie II., b or br c, by Sensation—Dolores; Guerra, b g, by Prestonpans—Gazalia; Illogic, ch g, by The Sailor Prince—Illog; Jolly Tar, b or br g, by The Sailor Prince—Joy; Manatee, b g, by Sir Modred—Miss Motley; Myakka, ch f, by Sensation—Magnetic; Pascola, b f, by Simon Magus—Perception; Ramee, b f, by Sensation—Rizpah; Sardonis, ch f, by Sir Modred—Sweetbriar; Sibola, b f, by The Sailor Prince—Saluda; Solano, ch g, by Sensation—Breeze; Tarolinta, b f, by Pontiac—Tarbouche.

THE New York Herald recently published a column story about Jockey Dick Clawson, which gives the history of his rapid rise from picking berries near Woodland to riding the winner of The Futurity. The article concludes as follows: "When being carried from the judges' stand to the jockeys' room at Sheepshead Bay, seated in a floral horseshoe, he said: 'Oh, what I would give if father and mother could see me now.' The judges and stewards at Sheepshead Bay were delighted with him when he came before them after winning The Futurity. With a bundle of money in his hand, which some unknown gentleman had presented to him, he said to the judges: 'Some man whom I don't know has presented me with this. What will I do with it?' 'Keep it, my boy,' said the stewards, 'and we hope you will always show such simple honesty.'"

DESPERATE efforts are being made by the associations owning racing properties in the State of New Jersey to have the courts upset the verdict rendered at the last election against the racing interest. That the racing men were made the victims of technicalities goes without saying, but the situation might as well be faced unflinchingly. There is an excellent chance of having a racing law passed at the next session at Trenton, if it is conservative and modeled on the lines of the Percy Gray act in this State. That law has earned the respect of the public at large, even of that large element which takes no interest in racing or the breeding industry, and it has been proved constitutional by the Court of Appeals of this State. If the New Jersey race-track owners—individuals or corporations—present a proper bill to the new Legislature, they are sure to meet with success.—New York Advertiser.

THE current Field and Farm says: In a letter from Chicago, December 4th, Col. Lewis M. Clark says: "Governor Tanner has called an extra or special session of the Legislature, and it is confidently predicted that a racing bill will be passed, which will allow Washington Park to again open its gates, and Harlem and Hawthorne will fill up the other days." Broad Church, the Spirit of the Times Western correspondent writes: "During a recent interview Secretary James Howard talked quite freely over the Chicago racing situation, and was measurably optimistic when a dip into the future was in order. He is a bit sanguine in connection with early helpful legislation in Illinois, as he assumes to think the coming special session will accomplish the desired end. In that case the racing glories of Washington Park will be revived in 1898, and that means a great deal, not only to Chicago, but for the whole West."

THE Jockey Club has accepted the name of Ossary for W. O'B. Macdonough's bay yearling colt by imported Ormonde from imported Countess Langden. The names claimed for the other Ormonde yearling were duplicates of other embryo racehorses, and new ones will have to be decided on. Ossary is a half-brother to the good two-year-old Count of Flanders, and is expected to partially repay Mr. Macdonough for his enormous outlay on Ormonde. The youngster is bred in the purple, fairly bristling with Derby winners. On the sire's side are Ormonde himself, winner of all classic events. Ben d'Or, Doncaster, Macaroni and Thormanby close up, and all winners of the ribbon of the turf. His dam is by the Derby winner Kingscraft; second dam by the great sire Adventurer, from Lady Langden, dam of the great Hampden. John Rogers, who has a few superiors as a careful handler and good developer, has Ossary in training for the Eastern races.

SUCH a sale of yearlings as was held last Monday night at the Occidental Horse Exchange is mighty encouraging to breeders. It teaches them that they must get a good tried sire to place at the head of their studs, and while they are raising colts and fillies by such a horse they can afford to take a chance with a young stallion bred on sire lines that has proven worthy. It's a wonder breeders, considering the prices the sons and daughters of St. Carlo brought, don't go on a still hunt for St. Blaise horses. It was the sire's reputation that made those youngsters go like hot cakes at big prices, for most of the dams of the babies were young matrons that had not thrown a winner.

THE Turf Congress, at its last meeting, made a graceful concession by admitting Harlem to membership. It went out of its way somewhat, however, when it reinstated the Pimlico people, who were never outlawed, so did not require this act of grace, as Pimlico is entirely outside the sphere of influence of the congress. If the congress is wise it will call another meeting shortly and proceed to materially change its personnel by admitting a number of prominent horse-owners. When this has been done it may be able to reform some of the abuses that lie in the way of turf prosperity, for then it will be able to regard these obstacles in an impartial manner, not from the standpoint of a parcel of track owners alone. It is currently reported that a delegation from the New York Jockey Club was present at this meeting. This is not probable, for the New York institution has frequently avowed its intention of ignoring the Western Association, unless radical changes were made in its constitution, and nothing had occurred recently that could induce them to alter this determination.—Chicago Inter-Ocean.

H. EUGENE LEIGH is at St. Louis for the purpose of transferring the body of his father to the family vault—an act characteristic of the virile turfman. In a talk with Mr. R. D. Collins of the Republic, Daily Racing Form's correspondent, Leigh said: "My experience as a breeder cost me \$200,000. The farm brought about what I paid for it, minus the \$40,000 worth of improvements which I made. Hard times, bad luck and my own unfamiliarity with the business brought about my downfall as a breeder. Bramble was the only money-making stallion I had. I lost 30 of his stud colts in five years. This represented a loss of \$60,000, in view of the fact that six Bramble weanlings realized over \$12,000 at the recent Lexington sale. The youngster that Pat Dunne paid over \$5,000 for is, in my estimation, the best colt I ever bred. Barring accidents, I look for him to develop into a grand race horse. This colt is out of Lady Wayward, the dam of Carlsbad, an American Derby winner. William C. Whitney will probably have an extensive stable next season. He is the probable buyer of Hamburg."

FASHIONABLE as stakes are on the Western turf, there is no doubt that had horse owners reasonable common sense handicaps with the same amount added should provide better sport than stakes, and divide the money more equally. The local handicappers in the past have made the mistake of making their top weight too low. If they would adopt the Jockey Club rule, fix this at 126 pounds, and handicap down instead of up from an absurdly light minimum, they might in time have better success, especially if the highest weight accepting was raised to the maximum. The majority of owners, however, know so little that they cannot even tell when their horses are well treated. In consequence they frequently declare out an almost certain winner, when the one whose horse has been assigned the top weight, no matter how deservedly, thinks the handicapper has done him a personal injury. In consequence that official has a very thankless position, and, through no fault of his, has frequently to declare the race void. The only way to get even with such owners is to add \$800 to handicaps, with the proviso that only half the amount will be given unless eight come to the post. Handicaps properly framed are the fairest sort of race for all concerned, so owners are more than foolish not to support them.—Chicago Inter-Ocean.

"HIDALGO" writes: "Imp' Plenty, owned by Mrs. Wolffs kill of Santa Monica, is as masculine and virile a horse as ever has been seen in American paddocks, yet he has served no mares but those of his owner. Dan Murphy, as pretty a little horse as can be found between the two oceans, plays about his harem at Capistrano and has been overlooked by all breeders save his manly, hospitable owner. Yet he is the only representative of the far-famed Blacklock blood in all the southern part of the state. Over at the beautiful Colonia ranch, near Ventura, is the stout and lusty Sid, the best representative of the line of Tramp in America, with a possible exception of imp. Laureate. Next comes Convent, an English horse of high breeding and faultless conformation, one of the only three Pocahontas horses in America, True Briton and Quicklime being the other two. Old Hock Hocking, the only horse in the world that combined the blood of Boston and Fashion—who won every important four-mile race in America from 1838 to 1846, died in comparative obscurity and never got a mare from the northern end of the State, although he was bred so far away from Norfolk and Woodburn as to be almost an outcross for their daughters. Sid was by imp. Sid-dartha, who, at the time of his importation, was pronounced by critics to be the best-bred yearling imported from England up to that time."

THE running of the two young Maxims as first and second in the Hobart Stakes, last week, is nothing compared to the Gozoz—Gaulus and The Gaffer—in this year's Melbourne Cup, says Capt. Tom Merry in The Phoenix of Los Angeles. This is the first time that it has happened in the history of that race, first run in 1864. Mr. Tait (the 'Squire of Home-bush') ran first and third on three different occasions, but Mr. Forrester of Warwick Farm is the first man to run one two for it. At the same time, it does not say much for the honesty of Australian racing or the vigilance of their stewards that two horses owned by one man should finish fourteenth and nineteenth in a twenty-one horse race in October and then come out two weeks later and run one-two in the world's greatest handicap. The two heroes of the race are Aurum, 3 years, 113 pounds, and Coil, 3 years, 129 pounds, who finished third and fifth in the race. One would never think of breeding a mare gratis to Gaulus while he could get a season of Coil or Aurum for \$100 or even \$200. According to our figures on the Australian scale of weights 113 pounds on Aurum is equal to 148 pounds on an aged horse, for November is a spring month in that country and all a 3-year-old carries by the scale in the spring is 100 pounds in contests with older horses. Aurum is as good a 3-year-old as there is in the world if Amberite did beat him in the Derby.

# THE WEEKLY BREEDER AND SPORTSMAN

WM. G. LAYNG, EDITOR AND PROPRIETOR.

The Turf and Sporting Authority of the Pacific Coast.

— OFFICE —

No. 313 BUSH ST., SAN FRANCISCO  
P. O. BOX 2300.

TERMS—One Year, \$3; Six Months, \$1.75; Three Months, \$1.  
STRICTLY IN ADVANCE.

Money should be sent by postal order, draft or by registered letter addressed to Wm. G. Layng, 313 Bush St., San Francisco, Cal. Communications must be accompanied by the writers' name and address, not necessarily for publication, but as a private guarantee of good faith.

San Francisco, Saturday, January 1, 1898.

## Stallion Owners, Attention!

The time is rapidly approaching when owners of brood mares will be watching the columns of the leading turf journals to see what stallions are standing for public service, hence it is an imperative duty for stallion owners who wish to draw patronage to their horses, to advertise early. Many an excellent mare has been booked to a well advertised horse because he was advertised ahead of others equally as good if not much better, but which was owned by a man who thought these broodmare owners would wait for his announcement.

The year of 1897 has ended with the light harness horse industry on a better footing than it has been for years. More horses have been sold for transportation to Europe and more have been purchased by prominent men of wealth to use on the many boulevards and driveways in all large cities than ever before. The bicycle craze has subdued and the value of these silent steeds have decreased thirty per cent; they are becoming too cheap and consequently dangerous. The elimination of "scrubs" as well as good horses by diseases, accidents, and deaths from the ranks of roadsters has left vacancies which must be filled, and the owners are anxious to get better ones and are willing to pay for them. If the lack of breeding which has been so noticeable during the past five years is continued, good horses will bring very high prices, and the wise breeder who takes advantage of the situation now will never regret it, hence we admonish breeders to begin operations at once.

## The Matron Stakes.

The breeders of the Pacific Coast should not forget that entries to the \$20,000 Matron Stake (to be run at the Morris Park autumn meeting of 1900) close next Tuesday, January 4, 1898, also that we have the blanks on hand all ready for forwarding to H. G. Crickmore, Clerk of the Course, 173 Fifth avenue, New York, N. Y. Breeders should bear in mind the fact that it greatly enhances the value of horses bred by them to enter them in such stakes as The Matron, where the following conditions prevail:

The Matron, for the produce of mares covered in 1897, to run as two-year-olds in the autumn of 1900. Purse \$20,000, to the winner \$14,000, to the second \$2,000, to the third \$1,000. To the nominator of the dam of the winner \$1,500, to the nominator of dam of the second \$1,000, to the nominator of dam of the third \$500. Subscriptions for mares to close Tuesday, January 4, 1898, at \$20 each, or only \$10 if the money accompany the entrance. Mares may be nominated by other persons as well as their owner, but the owner shall have prior right. Foals the progeny of mares so nominated to be eligible at \$10 each if declared on or before September 1, 1899. If left in after September 1, 1899, to pay \$25 each. If left in after January 1, 1900, to pay \$50 each. If left in after August 15, 1900, to pay \$75 each. Starters to pay \$150 each. Should there be any surplus from subscriptions or entries over the advertised value, it shall be paid 50 per cent. to the winner, 30 per cent. to the second and 20 to the third. Colts to carry 122 pounds; fillies and geldings, 119 pounds. Winners of \$5,000 or twice of \$2,500 to carry 3 pounds extra; of \$10,000 or twice of \$5,000, 5 pounds extra; of \$15,000 or twice of \$10,000, 7 pounds extra, of \$30,000 or twice of \$15,000, 10 pounds extra. Non-winners of \$2,000 allowed 3 pounds; of \$1,000, 5 pounds; maidens, 10 pounds. Produce of horses or out of mares that had never produced a winner previous to January 1, 1898, allowed 3 pounds; of both, 5 pounds, which allowance must be claimed at time of entrance. Allowance cumulative. Eclipse Course.

## Our Most Successful Race Horse Breeder.

By the records, W. O'B. Macdonough can lay claim to the title, "California's champion race horse breeder." We say this because of the remarkable achievements on the turf of the horses reared upon his Menlo Stock Farm, because the percentage of winners bred by him is the highest on record in California, and on account of the marked ability of the winners of his rearing. And it is not luck that brought about these results, but deep and careful study of the methods employed by the world's most successful breeders. Before he launched his craft upon the doubtful sea that has wrecked many a man upon the shores of finance, Mr. Macdonough gathered all the books bearing upon the breeding problem that he could hear of and studied them carefully from preface to "The End." About two years after Mr. Macdonough had purchased his first thoroughbred Mr. C. Bruce Lowe, of Australia, came to California and took up his abode at the California Hotel, owned by the Macdonough estate. For twenty years or more Mr. Lowe had studied the complex question of how to breed the best race horses. In all probability no greater student lived than Mr. Lowe. Much of the same disposition as Mr. Macdonough, the gentlemen became fast friends, and the ideas they exchanged redounded to the credit of both. Long before Mr. Lowe's great book on "Breeding by the Figure System" was issued, Mr. Macdonough had in his mind most of the ideas it set forth, and these, with his own, enabled him to breed the best lot of race horses, taken all in all, the country (not alone California) has ever known. Among those of his breeding are: Zamar (who won 19 races as a two-year-old, the record), Count of Flanders (the best two-year-old colt in California) and St. Callatine (the best two-year-old filly up to seven furlongs), Lord Marmion (the speediest youngster in training in this State, winner of a five-furlong race, eased up, in 1:01, over Ingleside track, 112 pound up,) Tiger Lily, St. Cuthbert (six furlongs in 1:18½), Valencienne, Socialist and Charles Le Bel, all winners. All these are by St. Carlo. He also bred Suffrage, Lady Gray and Suwanee, winners by imp. Suwarrow, and Mollie Bawn, a winner by Sinfax.

Zamar's dam is imp. Royal Bess, by Royal George, a horse bred on the same lines as Musket, who was such a success in the Colonies. The dam of Count of Flanders Countess Langden, is by Kingcraft (a Derby-winner and son of the great sire of mares, King Tom); second dam Josyan, by Adventurer (also a sire of wonderful race mares); third dam Lady Langden (dam of the Derby-winner, Sir Bevy) by Kettledrum; fourth dam the grand racer, Haricot, by Mango or Lanercost; fifth dam the immortal Queen Mary by Gladiator, who was the mother of Blink Bonny (Derby and Oaks winner), imp. Bonnie Scotland and half a dozen other celebrities; this is the most highly-prized female line in England to-day. St. Callatine's dam, Callatine, is an own sister to Inspector B., Bella B. and Getaway, and a half-sister to Kosciusko. Lord Marmion's dam, Lady Marion, by Sir Modred, was a winner and an own sister to the grand race horses, Sir John and Sykeston; she is from the greatest of California racing families, the Hennie Farrow. Tiger Lily's dam is imp. Windflower, by Peter (about the best son of Hermit); second dam Windrush II., by Favonius, who was by Parmesan out of a daughter of King Tom; the next dam Buttercup by Kettledrum (a Derby-winner and sire of the dam of Sir Bevy, winner of the Derby). St. Cuthbert's dam, Santa Cruz, is by Double Cross out of Eliza (dam of Monowai). Double Cross was mated with but few mares, yet got Guido, holder of the mile heat record of the world and a winner of over forty races. Monowai, half-brother of Santa Cruz, sold for \$12,500, and other members of the family are Del Norte, Argyle, Conquest and Cuba. Valencienne was from Libbertifibbet, by Bullion, and her dam, by Kingfisher, was one of the highest-prized mares in A. Belmont's great stud, a wonderful producer of winners. Socialist's dam is a young Sir Modred mare (a half-sister to the excellent performer, Shasta Water), and her dam, Tyranny, is an own sister to the famous Tyrant, of the famed Madam Bosley family. Charles Le Bel is by St. Carlo and from Maiden Belle (dam of imp. Santa Bella), by Beau Brummel (son of Derby-winner George Frederick and Ma Belle, by Lord Clifden, winner of the St. Leger).

But two Ormondes have appeared in public in America (Orestes and Rosormonde), and while the former did not win, he ran second in excellent company and showed a liking for a long route. Rosormonde was a stake-winner this season and one of the speediest fillies in California. Mr. Macdonough refused \$8,000 not long ago for an Ormonde filly, and it now looks as if the

\$150,000 he paid Senor Bocau for the horse of the century would not turn out such a bad investment after all. More foals by the great racer make their appearance at Menlo Park every year, and as Ormonde is but fourteen years of age and in the best of health, it is safe betting that he will live for at least ten years, and with those foals by him now living and say a dozen per year for six more seasons, there will be over 80 Ormondes in existence. If they should average but \$2,500 apiece (they will go closer to \$8,000 than \$2,500) Mr. Macdonough will be well repaid for the enterprise and pluck he showed when he gave a fortune for a horse, and that horse to be used as a sire only. No other man in the world ever had the courage to pay such a sum for a race horse, to say nothing of putting out \$150,000 for a stallion. The game young Californian certainly has the best wishes of everyone having the pleasure of his acquaintance, or of those merely knowing of him.

When Mr. Macdonough went into the ranks of breeders there were many scoffers, but time has told the story of what a student of the complex breeding problem can do when he tries, and if there were more W. O'B. Macdonoughs among the breeders of America we would have a vastly superior lot of race horses running over our tracks, and a healthier tone to the market for thoroughbreds would be noted throughout the country.

## Big Money at Memphis.

The thriving city of Memphis, Tenn., has one of the most liberal jockey clubs in this country, as the stakes offered by that organization show plainer than any words of tongue of pen. Entries close at 12 o'clock tonight (January 1, 1898), and nominations should be addressed to the New Memphis Jockey Club, Room 2, Cotton Exchange Building, Memphis, Tenn.

Just see what tempting stakes the club places before turfmen, nearly all the events having LARGE AMOUNTS ADDED:

The Tennessee Derby for 1899—(Subscribed by G. C. Bennett)—A sweepstakes for three-year-olds (foals of 1896). \$3,000 added, of which \$500 to second and \$250 to third. Weights—Colts 122 pounds; geldings, 119 lbs.; fillies, 117 pounds. One mile and one-eighth.

The Tennessee Oaks for 1899.—A sweepstake for fillies, three-year-olds (foals of 1896). \$1,000 added of which \$300 to second, and \$150 to third. One mile.

Gaston Hotel Stakes—(Subscribed by Gaston's Hotel)—A sweepstake for two-year-olds, colts and geldings. \$1,000 added, of which \$200 to second and \$100 to third. Four furlongs.

The Ardelle Stakes—A sweepstakes for two-year-old fillies. \$1,000 added, of which \$200 to second and \$100 to third. Four furlongs.

The Memphis Stakes.—A sweepstakes for two-year-olds. \$1,000 added, of which \$200 to second, and \$100 to third. Five furlongs.

New Gayoso Hotel Stakes—(Subscribed by the New Gayoso Hotel)—\$1,000 guaranteed. A selling sweepstakes for two-year-olds. The Club to add sufficient to make the value of the race \$700 to first, \$200 to second and \$100 to third. Four furlongs.

Luehrmann Hotel Stakes.—(Subscribed by Luehrmann's Hotel)—\$1,500 guaranteed. A sweepstakes for three-year-olds (foals of 1895). The club to add sufficient to make the value of this race \$1,200 to first, \$200 to second and \$100 to third. One mile.

Tennessee Brewing Company Stakes—(Subscribed by the Tennessee Brewing Company)—A selling sweepstakes for three year-olds and upward. \$1,000 added, of which \$300 to second and \$100 to third. Seven furlongs.

The Peabody Hotel Handicap—(Subscribed by Peabody Hotel)—\$1,500 guaranteed. A handicap sweepstakes for three-year-olds and upward. The Club to add sufficient to make the value of the race \$1,200 to first, \$200 to second, and \$100 to third; the fourth to save starting money. One mile and one eighth.

The Montgomery Handicap—A handicap sweepstakes for three-year-olds and upward. \$1,200 added, of which \$300 to second, and \$150 to third, the fourth to save stakes. One and one-sixteenth mile.

The Cotton Steeplechase Stakes—A steeplechase handicap sweepstake for three-year-olds and upward. \$750 added, of which \$150 to second, and \$75 to third, the fourth to save starting money. About two miles.

We are prepared to furnish, upon application, entry blanks for the stakes of the Westchester and Coney Island Clubs, and we hope to see California well represented in these rich events of the turf.

**Coney Island Jockey Club's Great Stakes.**

America's richest two-year-old event by long odds is The Futurity, run at Coney Island, and entries to this grand stake (for 1900) closes January 4, 1898, with the Clerk of the Course, Coney Island Jockey Club, corner Fifth avenue and Twenty-second street, New York, N. Y. The following stakes also close January 10, 1898: For the June meeting, 1898, for three-year-olds and upwards—The Suburban, cash value \$10,000, one mile and a quarter; The June Handicap, cash value, three races, \$5,000; Coney Island, \$1,000, six furlongs; Sheepshead Bay, \$1,500, one mile; Long Island, \$2,000, one mile and a furlong; The Grass Inaugural, added money \$750, six furlongs on turf; for three-years-old, The Swift, added money \$1,000, seven furlongs.

The Spendthrift Handicap, added money \$1,000, one mile and a furlong; for two-years-old, The Great Trial, cash value, \$20,000, Futurity course; The Double Event, cash value \$10,000; First part, \$5,000, five and a half furlongs; Second part, \$5,000, Futurity course; The Zephyr, added money \$1,000, Futurity course; The Spring, added money, \$1,000, the Futurity course; The June added money, \$1,000, Futurity course; The Vernal, for fillies, added money \$1,000, five furlongs; The Daisy, added money, \$750, five furlongs on turf; The Pansy, added money, \$750, six furlongs on turf.

For the Autumn meeting, 1898, for two years old—The Great Eastern Handicap, cash value \$5,000, Futurity course; The Autumn, cash value \$3,000, Futurity course; The Flatbush, cash value \$3,000, seven furlongs. For two years old and upwards—The Flight, added money \$1,250, seven furlongs. For three years old—The September, added money \$1,250, one mile and three furlongs.

**St. Louis' Striking Stakes.**

The St. Louis Fair Association, America's greatest organization of its kind, announces that eighteen rich stakes for the spring, summer and fall meetings of 1898 are now open, also the St. Louis Derby for 1899. Entries to all close January 15, 1898, and entry blanks will be forwarded on application. Communications should be addressed to Robert Aull, President, Fair Grounds, St. Louis, Mo.

Following is the list:

The Inaugural (a handicap for three-year-olds and upwards), one mile, is worth \$2,000. The Debutante (for two-year-old fillies), four and one-half furlongs, \$1,500. The Kindergarten (for two-year-old colts and geldings), five furlongs, \$1,500. The Junior Championship (for two-year-olds), five and one-half furlongs, \$2,000. The Memorial (a handicap), five and one-half furlongs, \$1,500. The Club Members' Handicap (for three-year-olds and upward), one and one-quarter miles, \$2,500. The Brewers' (a handicap for two-year-olds), six furlongs, \$1,500. The Mississippi Valley (a selling sweepstakes for three-

year-olds and upwards), one mile, \$1,500. The Mera-mec (a selling sweepstakes for three-year-olds and upward), one mile, \$1,500. The Laurel (a handicap sweepstakes for three-year-olds and upward), six furlongs, \$1,500. The Missouri (a selling sweepstakes for two-year-olds), six furlongs, \$1,500. The Independence (a handicap sweepstakes for three-year-olds and upward), mile and three-sixteenths, \$1,500. The Mound City (a selling sweepstakes for three-year-olds and upwards), one and one-eighth miles, \$1,500. The Golden Rod (for three-year-olds that have never won a stake of more than \$1,500) seven furlongs, \$1,500. The Ozark (a handicap for two-year-old colts and geldings), six furlongs, \$1,500. The Isabella (for two year-old fillies), five and one-half furlongs, \$1,500. The Chrysanthemum (a handicap sweepstakes for two-year-olds), one mile, \$1,500. The St. Louis Derby for 1899 (for three-year-olds, foals of 1896), one and one-half miles, \$3,500 added.

If this is not liberality, then we do not know what he term implies. Eighteen stakes, ranging in value from \$1,500 to \$10,000, horses of all ages, from two years old up, provided for, the distances in the various events ranging from four and one-half furlongs to a mile and one-half. Surely such stakes should meet the requirements of the most exacting.

We shall be greatly disappointed if a long list of entries from San Francisco is not sent in. The association's popular Secretary, Joseph A. Murphy, is the presiding judge at both Ingleside and Oakland, and doubtless he would be willing to answer any inquiries regarding these stake events and take pleasure in forwarding entries therein.

**Louisville's Spring Stakes.**

That extremely popular and competent racing official, Secretary Charles F. Price, of the New Louisville Jockey Club on December 18th, announced the stakes for the next Spring meeting. The meeting will begin on Derby Day, Wednesday, May 6, and will continue 15 days. This is three days longer than usual, the meeting of last Spring having been but twelve days. Eleven stakes will be run during the meeting. Besides the Kentucky Derby (\$5,000), Clark Stakes (\$4,000) and the Kentucky Oaks (\$3,000), which have already been closed, the following stakes are opened, entries to which close January 15th:

The Debutante Stakes, for two-year-old fillies; four furlongs, \$1,300.

The Wenonah Stake, for two-year-old colts and gelding; four and a half furlongs, \$1,300.

The Louisville Handicap, for three-year-olds and upward, one mile; \$1,500.

The Blue Grass Stakes, for three-year-olds that have not won a sweepstakes or two races prior to time of entry; six and one-half furlongs; \$1,200.

The Mademoiselle Stakes, for three-year-old fillies; seven furlongs; \$1,300.

The Premier Stakes, for three-year-olds; one mile; \$1,300.

The Frank Fehr Stakes, for three-year-olds and upward, selling, one mile; \$1,300.

The Juvenile Stakes, for two-year-olds, selling; five furlongs; \$1,300.

Read the advertisement in this issue.

**California's Richest Two-Year Old Stake.**

The breeders of the Pacific Coast should bear in mind that the entries to the California Agricultural Society's Futurity Stake close January 1, 1898 (produce of mares covered in 1897). It is a sweepstake for two-year-olds, foals of 1898, and by long odds the most desirable two-year-old stake for turfmen to win on the whole Pacific Slope. The conditions will be found advertised in this week's issue, and the breeder who does not enter his mare in this stake is derelict in his duty and extremely unfair to himself, if not to those who buy his yearlings.

The Occident Stake, for trotters, foals of 1897 (with several thousands) also close January 1, 1898, with Secretary Edwin F. Smith, Sacramento, Cal.

REFERENCE to the English turf statistics, published in last week's Spirit, reveals the fact that St. Simon no longer heads the list of winning sires, a position which he has held for seven consecutive years. The pride of place belongs this season to Kendal, but his position is due almost entirely to one horse, Galtee More. As Galtee More is not in the rich stakes for next season, it is not likely that Kendal will retain his present leadership. In defence of St. Simon, it must be stated that luck was dead against his progeny during the latter part of the season, and that he should have finished second was greatly to his credit. Three out of the first five horses to the list are from the Duke of Portland's stud, and St. Serf is a good outsider, so the honor of Welbeck has been well sustained. There has been a tendency to overrate the Australian blood, which thus far has given nothing but form, which, in the opinion of experts, is nearly 10 pounds below The Rush. This view may be altered after the get of Carbine and Trenton have made their appearance. A fair judgment of the merits of the blood cannot be formed until some of the youngsters by these sires, born in England, have raced. As against Merman, Positano, considered a bad horse in England, has established a great reputation in Australia, which leads one to conclude that Australian horses are not the wonders they are claimed to be.—The N. Y. Spirit of the Times.

SPRINGFIELD, MASS.

I have used ABSORBINE for sprains and inflammation with best results.

CHAS. JAMES.

JOHNNY WOODS, who is fast getting into good riding form again, was fifteen years old last Tuesday. He can still ride at about 85 pounds, and the chances are he will never be very heavy. We hope to see him celebrate his thirtieth year in the saddle.

ST. JOSEPH, MO., July 6, 1895.

J. W. HUGHES, Indianapolis, Ind.: Dear Sir—Your Elixir does all you claim for it in your advertisements. I have used it and the results are more than satisfactory. There is no after-effect, unless it is for the good. My horses came out of their races in better form than heretofore, and eat their feed like a section hand.

J. D. MARTIN.

Loma Alto Farm, Dallas, Texas.

# NEW LOUISVILLE JOCKEY CLUB

Stakes to Close January 15th

—FOR—

## SPRING MEETING, 1898

15 DAYS---11 STAKES---MAY 4th-20th.

The New Louisville Jockey Club will close the following Stakes on JANUARY 15th:

**THE DEBUTANTE STAKES**—For two-year-old Fillies. \$5 to accompany the nomination; \$50 additional to start. The value of the race to be \$1,300, of which \$200 to second and \$100 to third. Winners of a sweepstakes to carry 3 pounds; of two, 5 pounds extra. Maidens allowed 5 pounds. **Four furlongs.**

**THE WENONAH STAKES**—For two-year-old Colts and Geldings. \$5 to accompany the nomination; \$50 additional to start. The value of the race to be \$1,300, of which \$200 to second and \$100 to third. Winners of a sweepstakes to carry 3 pounds; of two, 5 pounds extra. Maidens allowed 5 pounds. **Four and a half furlongs.**

**THE JUVENILE STAKES**—A selling sweepstakes for two-year-olds. \$5 to accompany the nomination; \$50 additional to start. The value of the race to be \$1,300, of which \$200 to second and \$100 to third. Those entered to be sold for \$2,500 to carry weight for age. Allowances: 2 pounds for each \$250 to \$1,500; 1 pound for each \$100 to \$500; 2 pounds for each \$100 to \$300. **Five furlongs.**

**THE BLUEGRASS STAKES**—For Three-year-olds that have not won a sweepstakes or two races prior to the closing of this stake. \$5 to accompany the nomination; \$50 additional to start. The value of the race to be \$1,300, of which \$200 to second and \$100 to third. Weight 112 pounds. Winners of a sweepstakes or two races after January 15, 1898 (selling purses excepted) to carry 5 pounds extra. Maidens allowed 8 pounds six and a half furlongs.

**THE MADMOISELLE STAKES**—A Selling Sweepstakes for Three-year-old Fillies. \$5 to accompany the nomination; \$50 additional to start. The value of the stakes to be \$1,300, of which \$200 to second and \$100 to third. Those entered to be sold for \$1,000 to carry weight for age. Allowances: 3 pounds for each \$500 to \$2,000; 2 pounds for each \$250 to \$1,000; 2 pounds for each \$100 less. **Seven furlongs.**

**THE PREMIER STAKES**—For Three year-olds. \$10 to accompany the nomination; \$50 additional to start. The value of the race to be \$1,300, of which \$200 to second and \$100 to third. Winners in 1898 of a race of \$3,000 or one of \$10,000 at any time, \$5 pounds extra. Others, non-winners at any time of three sweepstakes of \$800, or of twelve races of any value, allowed 5 pounds; of two sweepstakes, 8 pounds; of one sweepstake, 12 pounds; Maidens, 20 pounds. **One mile.**

**THE LOUISVILLE HANDICAP**—For Three-year-olds and Upward. \$10 to accompany the nomination; \$50 additional to start. The value of the race to be \$1,500, of which \$200 to second and \$100 to third. Weights to appear three days prior to the day of the race. Winners of a race, other than a selling purse, after weights are posted, 5 pounds extra. **One mile and one-sixteenth.**

**THE FRANK FEHR HANDICAP**—A selling Sweepstakes for Three-year-olds and upward. \$5 to accompany the nomination; \$50 additional to start. The value of the race to be \$1,300, of which \$200 to second and \$100 to third. Those entered not to be sold to carry 3 pounds extra; if for \$3,000, weight for age. Allowances: 1 pound for each \$250 to \$2,000; 1 pound for each \$100 to \$1,000; 2 pounds for each \$100 to \$500. **One mile.**

## The Kentucky Derby, \$6,000, Clark Stakes, \$4,000, and Kentucky Oaks, \$3,500

WILL ALSO BE RUN AT THIS MEETING

Address all communications to the Secretary,

CHAS. F. PRICE, Secretary, Louisville, Ky

## The Pierce Sale.

Following are the prices received from the California consignment sold by P. C. Kellogg New York, December 15:

Cyrus B., br g, 1893, by Cyrus R.—Brown Rose, by Privateer; B. H. Powers, Brooklyn.....	130
Red Princess, b f, 1893, by Prince Red—Lisette, by Melway; J. E. Mowerson, Wyckoff, N. J.....	105
Sylvia (grass, gr m, 1891, by Soudan—Beauty, by A. W. Richmond; W. H. Clark, New York.....	120
Ursula, ch f, 1893, by Danger—Waterwitch, by Bay Rose; J. E. Mowerson, Wyckoff, N. J.....	135
Anterby, b f, 1893, by Anteros Nutwood—Lady Naughtery, by Reavis' Blackbird; Andrew Dickerson, Paterson, N. J.....	115
Princess Rascan, b f, 1893, by Dexter Prince—Lady Fracture, by Electioneer; B. T. Walker, Boston.....	170
Genie Rose, b f, 1893, by Bay Rose—Genie, by General Benton; J. E. Cochran, Chester, Del.....	180
Etta Rose, br m, 1892, by Bay Rose—Lisette, by Abdallah Wilkes; F. W. Cole, New York.....	225
Lisette Rose, 2:32, pacing, by Bay Rose—Lisette, by Abdallah Wilkes; Herbert Jenkins, New York.....	215
Divia Rose, b f, 1895, by Bay Rose—Divia, by Piedmont; W. H. Clark, New York.....	350
Ossa, ch f, 1894, by Dictatus—Red Rose, by Sultan; J. P. Rogers, Gravesend, L. I.....	270
Lily Guide, b f, 1893, by Guide—Lily Stanley, by Whippleton; F. W. Cole, N. Y.....	250
Lady Rupee, br m, 1892, by Rupee—Zelka, by Grand Moor; A. Thomas, Brooklyn.....	210
Bob Wood, b g, 1893, by Woodnut—Sally, by Robert McGregor; T. F. Taylor, Brooklyn.....	240
Figaro Boy, b g, by Don Figaro—Baby, by Tom Benton; J. V. Stewart, N. Y.....	260
Derby, br g, 1893, by Charles Derty, dam by Electioneer; Phillip Collins, N. Y.....	80
Directic, br m, 1890, 2:20½, pacing, by Director—Lady Wattles, by Abbotsford; John McGuire, New York.....	280
Electra, b m, 1890, 2:18¾, by Richard's Elector—Moor Maid, by Fine Moor; Charles H. Ker, New York.....	280
Floraline, blk m, 1890, 2:21¾, pacing, by Memo—Flora Allen, by Ayres' Mambrino Wilkes; F. E. Powers, Worcester, Mass.....	325
Topsey Allen, b m, 1891, 2:25, by Silver Bow—Flora Allen, by Ayres' Mambrino Wilkes; Dr. E. J. Decker, Far Rockaway, L. I.....	230
Allen Rose, b g, by Bay Rose—Flora Allen, by Ayres' Mambrino Wilkes; F. B. Afflee, New York.....	160
Legation, ch g, 1894, 2:33¾, pacing, by Secretary—Maud, by Nutwood; E. H. Dale, Readville, Mass.....	380
Bay colt, 1896, by Arion—Aldea, by Trueman; Stephen Gibson, Bloomfield, N. S.....	35
Bassadora, b f, 1893, by Ambassador—Royanna, by Sidney; A. Jones, New York.....	60
Bay colt, 1896, by Erin—Royanna, by Sidney; W. T. Wood, Gravesend, L. I.....	50
Myllita, b m, 1888, by Ayers' Mambrino Wilkes—Molly Fern, by Captain Kohl; Dr. Hamlin, Boston.....	160
Bay filly, 1895, by Erin—Myllita, by Ayers' Mambrino Wilkes; J. Totten, New York.....	35
Poesie, b f, 1884, by Jay Gould—Ode, by General Knox; G. W. Bauvelt, New York.....	65
Dollie Madison, gr m, 1892, by James Madison, dam by Whippleton; H. S. Sault; East Williston, L. I.....	250

CONSIGNMENT OF SAMUEL GAMBLE, SAN FRANCISCO.  
 Marlin Jr., gr g, 1888, 2:13, by Marlin—Silver, by Silverthreads; Peter Manes, New York..... 630  
 Columbus S., b h, 1889, 2:17, by McDonald Chief—Fanny Rose, by Vick's Ethan Allen Jr.; George Packer, Brattleboro, Vt..... 310

## Burlingame Country Club.

The following programme has been arranged by the Burlingame Country Club for the entertainment of its members and their guests on Saturday, January 1st:

Luncheon will be served promptly at 12:30. The following races will be held on the steeplechase field, commencing at 1:45 sharp:  
 1st—A silver cup. Two hundred yard's dash for qualified polo ponies to carry 160 pounds.

2d—Duke D'Abruzzi's challenge cup. Handicap steeplechase for polo ponies; usual course and conditions.

3d—Purse of \$20. One and one-half mile race, open to residents of San Mateo county, for horses not owned or ridden by members of the club.

Entries for above races should be mailed to the secretary of the Burlingame Country Club, Burlingame, and closed December 27th.

At 3:30 there will be a meet of the San Mateo drag hounds on the steeplechase course.

## San Bernardino Driving Club.

The horsemen of San Bernardino and those who delight in looking at fine stock or witnessing racing will soon be gratified in this direction. J. H. Poole and Fred Ward have leased the Cole race track and intend to organize a Gentlemen's Driving Club. They will put the dilapidated stalls and track in first-class order and even now have Bill Long engaged upon the job. There are fifty-two stalls on the track and a fair grand stand.

Fred Ward is lately from the East and a thorough horseman. He will have charge of M. A. Murphy's string of equines, which will be put into training together with horses belonging to Wise, Severance and Redlands owners of good stock. The animals will be kept and trained on the track.

It is the intention of Messrs. Poole and Ward to make the institution a success in every way. They will give exhibitions at intervals and arrange for race meets that will be a credit to any locality. They had printed season tickets and many of them have already been taken.

They expect to have something to offer the public by New Year's, but what it will be announced later.

FAMOUS old Richball, 2:12½, one of the celebrities of the turf a dozen years ago, met with an accident December 3d, which will end his career in harness. Richball is now twenty-one years old, but has retained to a great degree the fire and spirit of his early years, and has been the king of the speedway at Keokuk, Iowa, since his retirement from active campaigning. He is owned by D. L. Hughes and is kept in a stall in the handsome stable in the rear of Mr. Hughes' residence on Second and Morgan streets. He had been playing in the stall and was found by the attendant in the morning with his leg helpless. Investigation showed that it had been broken at the hip. Dr. Ireland, of Carthage, was summoned, and says the animal's life can be saved. He is now suspended in his stall by a comfortable sling and everything possible is being done for his comfort.

WALTER MABEN is handling a string of very likely trotters and pacers at Los Angeles.

"Chew?"  
 "Sometimes."  
 "Piper Heidsieck!"  
 "I'll go you."

No lover of a good chew ever says no to

## PIPER HEIDSIECK PLUG TOBACCO

(CHAMPAGNE FLAVOR)

There is more solid satisfaction in a piece of Piper Heidsieck than in any other brand on the market. Everything about it is right; the flavor is unsurpassed; the size is 40 per cent. larger than formerly; and the price is still the same old nickel. The new plug at the old price is positively the biggest bargain in tobacco you ever saw. Be sure and ask for one of the NEW pieces of Piper Heidsieck.

## The Crack Jockeys of America.

Fred Tatal headed the list of the princely salaried riders last year. Marcus Daly, the Montana copper king, obtained the services of this capable and experienced young Dutchman by offering him a retainer of \$18,000. Bromley & Co., who had second call on his services, gave him \$7,500 more, and where no horse from either stable was entered in a race he had the privilege of riding for any one else who desired him.

Tod Sloan received a retainer of \$15,000 from Pittsburgh Phil, and Fred Littlefield got about \$10,000 from the Morris, for whom he has been riding for a number of years. The Dwyers have always been extremely conservative about the amount they pay to their jockeys, but it was a well-known fact that McLaughlin every Christmas day received a check for \$10,000 from his employers, and as Mike Dwyer admitted some time ago that Simms cost him more than McLaughlin it can be inferred that the young colored man gets at least \$14,000 annually as a retainer.

In 1896 August Belmont paid young Griffin \$17,500, and the year before that, when Gideon and Daly were in partnership, they gave the same rider a retaining fee of only \$500 less. During the season just ended He Witt, the stable jockey for August Belmont, received a fee equal to that of Littlefield or Clayton, and made a comfortable living.

Aside from the retaining fee, the jockey's income is swelled by the fee which he demands for every horse he rides to the post. It matters not whether his employer is paying him \$10,000 or \$18,000, he has to give him \$10 for every losing mount he rides and \$25 for every winning mount. This scale is regulated by the jockey clubs, and a rider may appeal to them to force his employer to pay.

A first-class jockey riding for any one of the large stables is almost certain to have five mounts a day, and if he loses every race he is sure of \$50.

Another important source of revenue is the practice of giving presents. A rich owner, who races his horses purely for the glory there is in it, frequently rewards a jockey who has won a big race with a sum more substantial than the regulation fee. This was particularly true of the elder Belmont. When his horse Raceland won the Suburban he showered diamonds upon "Snapper" Garrison, and that

opulent member of the best-paid young men set wore them during all the days of his prosperous reign.

Garrison in his day probably made more money than any jockey who ever rode on the turf. His wonderful gift of getting a horse home in front of his field made him always in demand, and he could name his own price and get it without any vulgar quibbling.

When he won the Chicago Derby a few years ago and the owner of the horse he rode offered him \$1,000, he stuck up his horse at it and declared that he would never ride in Chicago again. There is scarcely a young man who earns his livelihood riding horses who does not receive in the course of the season \$2,000 or \$3,000 bonus money. Garrison and Bergen, when they rode His Highness and Merry Monarch for Marcus Daly in The Futurity, each received a present of \$5,000, although Bergen, on Merry Monarch, finished fourth.—St. Louis Republican.

## Grand Old Great Tom.

"Votre," under date of Dec. 15, sends from Nashville the following thoroughly interesting account of the death of imp. Great Tom, one of our greatest broodmare sires, and some newsy notes in regard to several well-known breeders and sires:

"Imp. Great Tom, full of years and honors, passed away at Belle Meade last Monday night, and on the following day was buried in the paddock which had so long been his home. Mr. William McGavock and Uncle Bob were present when the old horse breathed his last. Before committing Great Tom to the grave, his mane was cut off and made into braids of suitable size for distribution among the members of Gen. Jackson's family and the groomsmen on the farm. Great Tom was buried in his blanket, a very handsome one, and Mr. McGavock deposited in the grave a feed of oats.

"Great Tom was foaled in 1873, and was therefore twenty-five years old. He had been totally blind for several years, and for the past two or three years was able to eat only the softest of food. He was imported by Gen. W. G. Harding, founder of Belle Meade, at a cost of \$15,000. He was got by King Tom (Harkaway—Pocahontas), out of Woodcraft, by Voltigeur. Great Tom was the sire of Tyrant, Gen. Harding, Telie Doe, Maid Marian, all good race-horses, and was also the sire of the dams of Tammany, Proctor Knott, Gotham and others that earned distinction on the turf.

"Gen. Jackson held Great Tom in the highest esteem as a broodmare sire, and for several years has been reserving his fillies for that purpose. Ten or twelve of his daughters will be bred for the first time next year. Great Tom was bred to twelve mares in 1896, and to eight or ten in 1897. The foals dropped to him in 1897 are nearly all colts.

"In the last few years Luke Blackburn has made considerable reputation as a broodmare sire, and Gen. Jackson has selected this gallant son of old Bonnie Scotland to take the place made vacant by the death of Great Tom. Irquois will be a private stallion in 1898.

"Of the mares lately sold from the East Meade Stud not one was bought with any idea on the part of the purchaser of ever breeding her with a view to producing a race-horse. Belle Meade has recently 'lost' a number of mares and half a hundred others will be retired from that stud within the next few months. Gen. Jackson promises not only to breed fewer foals at his farm, but has decided that every mare bred to any of his stallions must be worthy in every respect of the mating. E. S. Gardner, of Avondale, has adopted the same line of policy, and only approved mares will be allowed to visit his stallion paddocks."

## A Profitable Investment.

Mr. O. W. Adams, of Corinth, Maine, writes March 2d as follows: "With Quinn's Ointment I removed a bunch from the jawbone of my horse which was the size of half an egg and as hard as the bone itself. Every horseman who saw it said it was there to stay. For curbs, plints, spavins, wind-puffs and all enlargements use Quinn's Ointment, a reliable remedy. Price \$1.50. Address W. B. Eddy & Co., Whitehall, N. Y., unless you can obtain it from your druggist. For sale in San Francisco by Messrs. J. A. McKernon and J. O'Kane.

WE claim to have the best building in the world to sell and show harness horses in. The Dexter Park Horse Exchange was built at an expense of \$250,000 for the special purpose of holding harness horse sales. It contains four hundred open stalls and a hundred box stalls, has a straight-away track one-eighth of a mile in length and a hundred feet in width, and has a seating capacity for eight thousand people. The whole building is well lighted and comfortably heated by electricity, all under one roof and on one floor. The building is connected by all the railroads in the country, and is easy of access from the city of Chicago.

SPLAN & NEWGASS.

## Santa Ana Driving Club.

Saturday afternoon the Gentleman's Driving Club was successfully organized. The meeting was held in the city hall and was attended by a large number of those who had signed the paper of organization. Much interest was manifested in the movement and its success is assured.

Right here it should be understood that the club is not a racing association or anything of the kind; it is simply an organization of those who do not wish to see Orange county lose the fine track which has gained a reputation all over the State, and who come together to give support to this end. They are those who want to save the track, and the organization is a means by which it is hoped this can be accomplished.

It is also part of the purpose of the club to create a wide and more general interest in fine horses, and there are many who will wish to see this done. The preamble of the constitution reads: "This organization shall be known as 'The Gentleman's Driving Club of Orange county,' and its purpose is the encouragement of the horse interests, by providing a place where members may drive, either alone or in company with others, and by this pleasant rivalry to create a greater demand for and interest in fine horses."

The club will be governed by a president, secretary, treasurer and an executive committee of seven members. E. E. Smeltzer, G. W. Ford, E. D. Waffle, C. E. Groat, W. S. Derby, V. V. Tubbs and A. C. Twist were chosen as committeemen for the first year. They will elect a president from their own number and George S. Smith was elected secretary. The committee will meet some time this week for organization. The club starts out under favorable conditions, the names of one hundred and six persons being on the rolls. An initiation fee of two dollars is charged, which will entitle all members to the privilege of driving their horses upon the track.—Blade.

## Safeguard.

Cecilian Park Farm, home of the great Gambetta Wilkes. SPOHN MEDICAL CO. DANVILLE, KY., Sept. 12, 1895.

Gentlemen: Your Spohn's Distemper and Cough Cure is just what I have been looking for these several years. I have used it for the various forms of contagious diseases and other afflictions of the horse's throat with most gratifying results. It is a safeguard against exposure to contagion.

Yours Respectfully, JOE RAE, Trainer.

FRANCIS TREVELYAN writes in the New York Journal: "The list of officials for next season will be announced comparatively soon, it is said, but outside of that little will be going till the local trainers are able to again send their horses along. There are likely to be some considerable changes among the officials. The principal interest centers in the selection of the starter, and it is generally thought that C. J. Fitzgerald will occupy this important post. Other applicants for the position are the two ex-jockeys, W. J. Fitzpatrick and Edward Garrison, and C. H. Pettingill, who was starter last season. Mr. Pettingill is scarcely likely to be re-appointed, as his work, especially during the latter part of the year, was by no means gilt-edged."

Extract from article in recent number of the "Livery Stable."

"Every stall is cleaned six times a day, the horses themselves are cleaned twice daily by means of two Priest's double No. 7 Clipping and Grooming Machines operated by an eight horse power electric motor. By this means a horse can be cleaned in two minutes and be left with a fine slick coat.

In this manner five men in one hour clean sixty horses. Every horse is clipped twice annually."

LORD MARMION, the most improved youngster here, ran the five furlongs Tuesday in 1:01, equalling the track record. As the St. Carlo youngster romped home, his performance is very meritorious.

ETTA H. is decidedly off and sore, and will be given a let up and put under the care of Dr. Stimpson to restore her to good condition once more.

## THE KENNEL

Jan. 1-2—Ingleside Coursing Park. Regular meetings every Saturday and Sunday.

[Written for the BREEDER AND SPORTSMAN.]

## Fred.

## A REMINISCENCE OF A FRIEND.

Our first meeting happened in this way: My horse went lame as we traveled in the night toward home. It was very dark so that I could not discover the cause of his lameness, but as the horse would travel easier without my weight I dismounted and was walking by his side when we crossed the wide bed of Cherry Creek (Colorado) which contained little water, but many cottonwood trees grew on the benches and these in some places formed groves. It was in one of these groves that a dog barked as we walked slowly through the loose sand; he was ahead of us and near the road, and he barked continuously as we approached. The dog's bark indicated that he was coming toward us.

When quite near I spoke to the dog, saying:—"Well, old fellow, I think we can get along without quarreling."

The barking stopped, my hand was at once inclosed between two immense jaws filled with sharp teeth, and for a short distance, the pony, myself and dog walked along side by side. The dog's teeth were not closed tight enough to cause pain, and although he could not be seen, one could imagine him as walking proudly along, waving his tail in token of friendship.

When he released my hand we nearly crossed the creek bed and from that time until we reached home, five miles distance, the dog's presence was not certain, although an indistinct shadowy something big loomed out of the darkness and seemed to pass in front of us.

When home was reached and a flood of light streamed from the open door, then for the first time the new acquaintance was seen to be a large New Foundland dog wagging his tail with great deliberation, and majestic dignity and grace. He was not fawning and begging for support, he was seemingly taking me at my word:—*that we could get along without quarreling*, and stood ready to pledge himself to do his part. The dog was not over sixteen or eighteen months old, but was nearly grown to his full size. He wore a collar, but it had no name or address, and no owner was ever found. His size suggested a name corresponding to his majestic demeanor, and the next day we called him "Frederick the Great." It often happens that names which require too much time for others to speak readily get curtailed by eliminating the redundancy, or get exchanged for some nick name, which may cling like a cockle burr in a sheep's fleece. So it happened with our new made companion and friend, after pronouncing the full name once, to hear how it sounded he became our trusted dog "Fred" and he accepted the name, and the obligation to serve faithfully unto death. He was so intelligent and willing to do what was expected, it was seldom necessary to punish him for disobedience. He was full of courage, good nature and affection, and he had a natural dignity which always attracted attention, and a confidence that entitled him to kind treatment.

We soon established an understanding, which grew more and more instructive until it seemed as if Fred only needed the gift of speech to become human. His desire to be useful was a strong characteristic. On one occasion I shot a duck in a shallow pond, surrounded by a wide margin of mud so forbidding in appearance that it seemed dangerous to wade into it. Fred saw that I was troubled about something; he had never before been with me when I was hunting, and it was some time before he knew that I wanted to get the duck. His inquiring looks at my face was a study; then he walked slowly to the edge of the mud; here he stopped and looked, back for approval; this being secured, he went forward slowly, with great care, looking back every few yards of progress for instruction until he reached the duck. Then he wanted additional instruction; he studied it out with earnest, careful consideration; there must be no mistake. Finally Fred took the duck in his mouth, lifted it high in air and waited for more prompting. Then he came slowly to the shore, brought the duck to me, and allowed me to take it from his mouth without an intimation of what was working in his brain. I patted him and said: "Good dog! Well done, Fred," and off he rushed like a tornado. The tension under which he had placed his control was loosened, and the big, dignified, majestic Frederick the Great, was for the moment the happiest, jolliest, most fantastic, irrepressible, irresponsible puppy that ever you saw. He rushed by me from every direction in an ecstasy of jubilation. To determine how far he had interpreted my wishes, I purposely went to another pond, and there shot another duck, to see how Fred would act. At the report of the gun he dashed by me, plunged into the water and returned with the duck as regularly as a trained retriever.

From this time on Fred was welcome to go with me whenever I hunted. He had always wished to go, but the difficulty of watching him and looking for game at the same time caused me to believe that my chances for success were better if I went alone. He surprised me by his willingness to lie down when ordered, and to remain motionless when I approached a pond where ducks might be found, and also to keep behind me at all times when the gun was held in readiness for a shot. As a considerable portion of his food was obtained from jackrabbits, which I shot as needed, Fred had a direct interest in helping me to get them. One day he came in from an excursion he had made without my com-

pany, carrying in his mouth a large piece of beef. He brought it to me with head and tail erect, and to all of my questioning his only answer was a measured wave of his plume-like tail. "But what do you want, Fred?" I said to him. He put the meat against my hand and looked appealingly. I took the meat and Fred led the way to the place where his rabbit meat was hung high for safety. There he looked up at the nail. When I had hung the beef on his nail he wagged his tail approvingly, licked my hand, and showed in every way his gratification.

The next morning, when I went outside of the house, Fred was waiting for me, and his urgent pleading for me to take his beef from the nail and give it to him for breakfast was as plain and intelligible as if spoken in classical English. Probably the coyotes had robbed his deposits of buried food, and this time he made me his banker.

As my business took me to Illinois, Fred also went as passenger on the cars; he was compelled to ride in the baggage car, but I saw him frequently, and his docility and good looks make him a favorite with the baggage men and express messengers, who enjoyed his company. During my stay in Illinois, Fred had much leisure, and often I did not know where he was, or what he was doing. In Bristol, Kendall county, I remember seeing a great crowd of children seemingly enjoying themselves as much as if playing circus. When I came near I saw my dog Fred in the midst of the children with one small girl on his back; as many others as could get near were holding to his ears and furry coat, and Fred seemed to enjoy the shouting and screaming of the children, and carried his tail proudly, as if the affair was a reception in his honor.

On my way back to Colorado, Fred had been tied up all day in the baggage car; in the evening when I took him from the car for exercise, he was so overjoyed to get his freedom that in running, wheeling and returning, he jumped against the end of a lighted cigar that I was smoking. It was a surprise to Fred as well as myself; he burned his nose, and the cigar was flattened against my lips. Instantly he realized that it was his fault, he was sorry for the accident; he held up a paw for me to shake as his apology for rudeness. A gentleman who saw the whole affair said: "If I were a rich man I would give one hundred dollars for your dog."

I told him that Fred was not for sale; we were too good friends to let money come between us. The phrase, "Dog eat dog," did not apply to Fred.

One wintry morning a large gray wolf trotted by my house when Fred was chained in his house for safety. Fortune favored me in getting a shot at the wolf with a rifle. The weather was intensely cold, and after killing the wolf I was compelled to take him indoors to secure his skin.

The hams were so large that I cut off several steaks of generous width and thickness, and, taking these in my hand, I carried them to Fred. When he saw the fresh meat he leaped for joy, but when it was held out for his acceptance he smelled of this tempting looking gift cautiously, almost apprehensively, turned away and went into his house, declining to even touch the meat. But he would always eat, or try to eat, anything that he saw me eating; if it were an apple, one piece would last him for a long time in chewing and swallowing. If meat were scarce, Fred would eat vegetables with gravy added, and charm you by his appreciation of the effort made to give him as good fare as circumstances would permit. When dogs or other animals live in close companionship with man the knowledge which each gains of the needs of the other is infinitely superior to the condition which prevails where the owner intrusts the care and feeding to others. The animals in the latter case may become faithful servants, but the former is the friend that seeks to anticipate your wishes, and when danger threatens, willingly offers his life in defense.

It is many years since Fred died, but I feel sad whenever I recall his last efforts to lick my hands as his stiffening limbs refused to respond to his efforts.

He had eaten meat poisoned with strychnine, probably set out for coyotes, which were then numerous and troublesome. I could have saved poor Fred's life if I had known then what I have since learned of the antidote\* for this poison.

San Francisco, Dec. 1, 1897.

EDWARD E. CHEVER.

\* Pour down the dog's throat a pint of oil or melted lard. Do not allow the dog to drink water for several hours.]

## Coursing.

The attendance at Ingleside Coursing Park last Sunday was very large and enthusiastic, about 5,000 people being present. The dogs performed well and the jacks were strong and lively. A number of courses were exceedingly close, and several of the cracks were bowled over by a close margin. The most ardent leasher could hardly expect to see any finer courses run than some of the courses which were put up by the dogs during the day. The surprise of the day emanated from the Santa Clara entries. Curtis & Son had their dogs in fine shape, and first and second monies went to their Rosette and Blackette. The litter brothers and sisters of Rosette—(Emin Pasha—Rockette) five dogs and four bitches, whelped January 29, 1896, have shown a finer form and made greater performances than any other litter of greyhounds ever whelped on the Pacific Coast. S. E. Portals' Galagher did some phenomenal work for a dog that raced for the first time. McComb and Bryan's Fleetwood showed fine form and took third money. Herzog's Gazelle showed good style and is a dog that will come to the front before long.

On New Year's day, one of the richest stakes ever presented in this city will be run. The added money will be \$300. The program will consist of two days' racing, Saturday and Sunday. The entrance fee for the all-aged stake will be \$4, with \$200 added money, and the entrance fee for the puppy stake will be \$2.50 with \$100 added. Coursing has been a favorite sport in California for years, but since the game has been so properly and systematically brought before the appreciative attention of the public by the management of the Ingleside Park coursing the sport has taken an impetus and boom all over the Coast. Regular meetings are now held at Sacramento, Los Angeles, Fresno and Merced. New clubs are being organized and new parks opened. We are informed that leashmen in Portland, Oregon, will shortly open a park of large dimensions. The attention of Eastern owners and breeders has been directed this way, and some of the pick of the Eastern kennels are now being offered to the sportsmen of the Coast.

Horse Owners Should Use  
GOMBAULT'S

Caustic  
Balsam

The GREAT FRENCH VETERINARY REMEDY  
A Safe, Speedy and  
POSITIVE CURE.

Prepared

## SUPERSEDES ALL CAUTERY OR FIRING

Impossible to produce any scar or blemish. The Safest  
best BLISTER ever used. Takes the place of all treat-  
ments for mild or severe action. Removes all Bunches  
or Blemishes from Horses or Cattle.

As a HUMAN REMEDY for Rheumatism,  
Sprains, Sore Throat, Etc., it is invaluable.

WE GUARANTEE that one tablespoonful of  
this CAUSTIC BALSAM will  
produce more actual results than a whole bottle of  
any liniment or spavin cure mixture ever made.

Every bottle of Caustic Balsam sold is Warranted  
to give satisfaction. Price \$1.50 per bottle. Sold  
by Druggists, or sent by express, charges paid, with full  
directions for its use. Send for descriptive circular,  
if timorid, etc. Address

J. B. LAWRENCE-WILLIAMS CO., Cleve., O.

## Pacific Coast Field Trials.

The executive committee of the Pacific Coast Field Trials Club held a meeting on Tuesday, December 21st. The gentleman decided upon to judge the coming trials is Col. Arthur Merriam of Memphis, Tenn. Mr. J. M. Kilgariff has written Col. Merriam to this effect, and as the latter has already expressed his favorable consideration of the offer, it is more than probable that this matter can be considered as settled. A number of cracks are now down at Bakersfield, under the watchful eyes and direction of some of the best handlers on the coast. Local interest is increasing daily in the coming trials, so it is fair to assume that the events commencing on the 24th of next month will be memorable in the history of field trials on the coast.

## Sacramento Bench Show.

The premium list for the Sacramento show has been issued. Entries close on January 18th. Entrance fee, \$3.00. Entrance moneys will be given as prizes. Three classes are provided for: Puppy, novice and free-for all class. Mr. C. D. Nairo, of Ballston, Or., will judge all classes. Spratts' Patent will feed, and the American and Continental Sanitas Co., Ltd. will disinfect. The show promises to be a success in every feature.

## DOINGS IN DOGDOM

The twenty-second annual bench show of the Westminster Kennel Club will be held in New York February 21-24.

A fine setter and also a well-bred pointer puppy are for sale and particulars will be furnished on application to this office.

The regular meeting of the Pacific Advisory Board will be held on Tuesday evening, January 4, 1898, at the Occidental Hotel.

DR. H. CLAY GLOVER, NEW YORK  
Dear Sir—Those of your remedies I have used have given the greatest satisfaction. I have used the Distemper Cure with better results than any other remedy I have ever tried, and can say the same of the Vermifuge.  
Very truly,  
W. TALLMAN.

Frank Atkins of Seattle has purchased the black pointer bitch Queen Lil, which was recently brought to Seattle from South Dakota. She is 16 months old, very handsome, intelligent and willing. She was broken for prairie chickens, but in her first trial on quail did well. Her sire is Otho, a pointer that was bred by E. L. Mayer, of Norfolk, Va.

## Kennel Registry.

Visits, Sales, Whelps and Names Claimed published in this column free of charge. Please use the following form:

## VISITS.

C. Leonard (Stockton) has sold the cocker spaniel bitch "T. C." to J. Deganna.

E. V. Sullivan's (Menlo Park) fox terrier bitch Golden Trinket (Warren Sage—Ch. Golden Jewel) to J. B. Martin's Golden Flash II. (Blemon Reefer—Blemon Spinaway) December 9, 1897.

W. P. Strachan's (San Francisco) fox terrier bitch Trixie (Warren Sage—Stilleto) to J. B. Martin's Golden Flash II. (Blemon Reefer—Blemon Spinaway) December, 24, 26, 1897.

## SALES.

A. C. Bradbury has sold his greyhound brood bitch Lady Pembroke to the Montgomery Kennels.

Jno. Unsworth (San Francisco) has sold his fawn colored Great Dane bitch Una Que Amo (formerly Buff)—Hector II. ex Queen R. to A. S. Blake, San Francisco.

Chas. Dresser has sold a R. C. St. Bernard dog pup (Lord Hualpa 21,342—Lady Christabel 40,475) to Mr. Fraser, San Francisco.

Chas. Dresser has sold a fox terrier dog pup to J. H. Ward, Alameda.

Chas. Dresser has sold a Great Dane dog pup to Harry Dale, San Francisco.

J. B. Martin (San Francisco) has sold the fox terrier bitch Golden Trinket (Warren Sage—Ch. Golden Jewel) to E. V. Sullivan (Menlo Park).

## WHELPS.

S. Cullen's (Humboldt Kennels) R. C. St. Bernard bitch Laura Alton, whelped December 20th thirteen puppies to W. F. Worthington a King Frisco, 38,226.

C. Leonard's (Stockton) cocker spaniel bitch Bessie Nutwood, whelped December 13, 1897, one dog to J. G. Chesley's Black Bart.

## NAMES CLAIMED.

C. Leonard (Stockton) claims the name "Buzz Silk" for a black cocker spaniel puppy by Black Pant—Japho.

## ROD.

## Coming Events.

Jan. 11.—Regular semi-monthly meeting of the San Francisco Fly Casting Club. Office of State Fish Commission, Flood Building, San Francisco.

## NOTICE TO ANGLERS.

Every angler is invited to drop us a line occasionally, telling us of the condition of the streams they have visited and the killing lure of the number and size of the fish caught, or any other item of interest to anglers.

## National Fishing Congress.

The meeting of the National Fishery Congress, at Tampa, Florida, to be held January 19th, has created a wide-spread interest all over the United States and the outlook is excellent for a very successful assembly. One of the principal objects of the Congress is to consider the means to maintain and increase the supply of fish and other water products in the rivers, lakes and coastal waters of the country. The com-

mercial fisheries will be discussed. The relations of legislation and protection will be considered. Artificial methods, as applied to the increase of water products, will be a prominent topic. The cause and interests of the angler and sportsman will be duly regarded. A fly-casting tournament will be a feature of the meeting.

The National Government has extended invitations to many foreign governments, which have been requested to send delegates. It is proposed to organize at the close of the Congress an International Fishery Association. A select exhibit of all kinds of fishery products, appliances for cap-

SILVER KING OR TARPON

Weight 150 lbs., length 6 feet, 6 inches, caught by HENRY B. PLANT at Ft. Myers, Fla., U. S. A., April 8, 1897. Hooked with 18 ounce rod.

turing and curing the same, angling outfits, etc., etc., has been arranged. The session will continue one week. The Exposition Building will remain open until March 15th. Information in regard to the programme can be obtained from Dr. H. M. Smith, U. S. Fish Commission, Washington, D. C., general information can be had of H. Cunningham, Board of Trade, Tampa, Florida.

## Russian River Notes.

Steelhead fishing in Russian river has afforded royal sport to a number of well-known local anglers during the past three weeks. The river at present is high and the bar is still closed. There is plenty of fish in the river—as soon as the bar is open again the river will go down in a few hours—thousands of fish will come up the river. Every indication shows that the sport will continue first-class for some time. Among those who took advantage of the opportunity were Judge Evans, mine host Morgan, "Doc" Simpson, "Coldwater" Smyth, Capt. Cumming, Chas. Breitenstein, W. R. McFarland, Al. Wilson and others. Up to date, about seventy-five fish, averaging from ten to twenty pounds, have been caught. In thirteen days' fishing, from December 12th to 25th, McFarland hooked twenty-one fish and landed eighteen. From December 12th to December 27th, Wilson hooked twenty-two fish and landed twenty-one of them, all on one leader. In this catch of fish only two of them were under ten pounds in weight. The largest female caught was a fine fish, weighing fifteen and one-half pounds.

[G. W. Morgan took a crew down Tuesday night and opened the bar; the indications are that it will stay open. He reports plenty of fish coming in, and fishing in the river first class. Several of the "vets" went up there yesterday.—Ed.]

## On the Seine in Paris.

The angling ground for the world's most patient fishermen is claimed to be the Seine. Perhaps fish have been caught in the Seine, because often men have protested that they caught them, but no one—if the same men be excepted—ever saw one caught. This fact, notwithstanding the passion for fishing, and fishing in the Seine particularly, a French statesman has called the evil co-equal with the drinking of absinthe that is undermining the nation. Spring, summer, autumn, winter, morning, noon and evening, rain or shine, the Parisian world stands on the quais with hook in the water waiting for a bite. Men, women and children are in the crowds, and some look poor and some look rich. But nobody looks other than expectant. The waiters of the small cafes and restaurants in the Champs Elysees take advantage of the dull hours; and, bare-headed, aproned, and with napkins covering their immaculate shirt bosoms, seek a place in the ranks; cabmen too, and errand boys and tramps—everybody. If a census were taken some fine day it would undoubtedly show that at least one-twentieth of the population of Paris was always fishing.

John Butler has issued a very fine calendar for 1898. A view of Eel River, with John in the foreground landing a big salmon, is typical of good sport and also of Butler's skill as an angler.

The "Indian" at Point Reyes is suspected of spearing fish. At all events they show marks of illegal catching. That is bad enough, but when it comes to raffling them off at the hotel bar for 10 cents a chance, some sportsmen feel rather disgusted.

Capt. Cumming returned from Russian river last Monday morning. He brought down half a dozen fine large sized steelhead.

Del Cooper placed two fine ten pound steelheads in his creel Sunday last at Point Reyes.

## THE GUN.

## NOTICE TO SECRETARIES.

If secretaries of gun clubs will send us the full scores of their regular monthly shoots we will be pleased to publish them; but we must receive the copy on Wednesday to insure its insertion that week.

## The Game Law.

The open season for shooting quail, doves, deer and wild duck as fixed by the State law is as follows: Doves, 15th July to 15th February. Mountain quail and grouse, 1st September to 15th February. Valley quail, wild duck and rail, 1st October to 1st March. Male deer, 15th July to 15th October.

The clerks of all the Boards of Supervisors have advised us that no changes have been made this year, but the ordinances passed last year hold good if they do not conflict with the State law. The following counties have not passed any ordinances that alter the open season as provided by State law: Amador, Butte, Inyo, Modoc, Mono, Mendocino, Mariposa, Nevada, Napa, Plumas, San Bernardino, San Diego, San Joaquin, Santa Clara, Sacramento, Solano, Sonoma, Santa Cruz, Shasta, Tehama, Yolo and Yuba.

The changes are as follows:

A pine—Deer, Sept. 2 to Oct. 15.  
Alameda—Rail, Oct. 15 to Feb. 15.  
Colusa—Deer, Aug. 15 to Oct. 15.  
Calaveras—Deer, Sept. 1 to Oct. 15.  
Contra Costa—Deer, July 20 to Sept. 2. (Use of dogs prohibited).  
El Dorado—Doves, July 20 to Feb. 1.  
Fresno—Market hunting and shipping game out of the county prohibited.  
Humboldt—Grouse and Wilson snipe, Sept. 1 to Feb. 15. Killing of waterfowl prohibited between one-half hour after sunset and one-half hour before sunrise.  
Kern—Shipping game out of the county prohibited.  
Lake—Deer, Aug. 1 to Oct. 1.  
Los Angeles—Shipping game to markets outside of the county prohibited.

Marin—Deer, July 15 to Sept. 15.  
Madera—Market hunting prohibited.  
Monterey—Deer, July 15th to Sept. 1st.  
Orange—Doves, Aug. 1 to Feb. 1. Deer, Aug. 15 to Oct. 1. (Market hunting prohibited).  
Riverside—Shipping game out of the county prohibited.

Tulare—Deer, Sept. 1 to Oct. 15. Shipping game out of the county prohibited.  
Ventura—Deer, July 15 to Sept. 1. (Market hunting prohibited).

## The Interstate Association.

The annual meeting of the Interstate Association, the governing body of the trap-shooting world, was held December 16th at Oakland, N. J., for the election of officers, the appointing of committees, the submission of various interesting reports and the discussion and adoption of plans as well as the framing of the policy of the organization for the coming year. As is well-known among trap-shooters, the Interstate Association, composed of representatives of the great fire-arm and ammunition concerns of the country, has done more, through practical methods, toward club organization and the holding of trap shooting tournaments, to stimulate and increase the already wide interest in the sport, than any similar organization now or heretofore existing. To its efforts entirely are due the success and development of the Grand American Handicap into perhaps the most important trap-shooting event in the world, the Grand Prix at Monte Carlo not excepted. Last year its tournaments were held at many points throughout the United States, from Monroe, La., to Portsmouth, N. H., and were pre-eminently the backbone of the trap-shooting schedule for the year.

Not a few questions of importance came before the Association; some of these were decided, and others, deemed worthy of more careful consideration, were referred to the Tournament Committee to be discussed and reports pertaining thereto to be submitted to the members of the Association at a meeting called for January 17, (Exposition week) at Madison Square Garden.

In his annual report Elmer E. Shaner, the manager of the Association, said:

"I am pleased to inform you that the season now drawing to a close has not only been eventful in good results for our subscribers, but it has furnished more positive proof of the splendid growth of the real purposes of the Interstate Association than ever before. Furthermore, I am pleased to state that the future prospects are highly encouraging in every sense of the word.

"It has been said, and argued with considerable force, that trap shooting is on the wane but the records of this Association do not show such to be the case—on the contrary, there is more interest manifested and a greater indulgence in the sport today than at any time ever before known. To the uninitiated or those not in close touch with trap shooting there may appear to be a falling off in interest in the sport, but, in my opinion, this impression is created by a lack of large tournaments being held this season. However, it must be remembered that for every one of the larger tournaments formerly given, there were two or three smaller tournaments given this year, besides any number of club shoots not open to all; there are also more clubs in existence to-day, whose practice scores and private shoots do not reach the eye of the general public, than at any time since trap shooting was first introduced.

This latter condition of affairs is to be deplored, and it is to be hoped that such clubs will see the advisability of forwarding their scores to the sportsmen's journals for publication, as this has a tendency to create and keep up interest in the sport.

The territory selected for the scene of the Association's labors during the season of 1898 presented such a series of successes that the Tournament Committee deemed it advisable to continue its efforts in the same direction. Accordingly, the Association gave inanimate target tournaments in the South the first part of the present season and in the New England States the latter part. Those who have watched closely the operation of the Interstate Association during the season will readily accord to the committee the highest merit of praise for its selection of the territory named, as the results obtained and the general and increased interest manifested have been of such a notable character as to predicate beneficial results in the highest order.

The space taken by the Association at the Sportsman's Exposition in Madison Square Garden, March 13th to 20th,

was of inestimable value, since it served not only as a recognized headquarters for the shooting fraternity, but, moreover, brought one and all in close touch with the officials of our Association. Seventy entries for the Grand American Handicap were received at the Exposition Headquarters.

The opening of the season was marked as usual by the Grand American Handicap tournament. It was a meeting long to be remembered by those who were so fortunate as to witness it. When it is considered that the number of entries has grown from the modest figure, twenty-one, in the inaugural year, 1893, to one hundred and forty six the present year, some idea may be formed of the popularity of this principal shooting event of America, if not in the world. The Tournament Committee is deserving of the highest praise for its wise selection of the Elkwood Park grounds. No finer arrangements could be made for pigeon shooting and none equal to them exist in this or in any other country. I am firmly of the opinion that much of the success of the tournament was due to the grounds selected for the holding of same. The methods adopted for dividing the purses in the different events met with such universal approval that I would advocate a continuance of same at future Grand American Handicap tournaments.

After reviewing in detail the many events held during the year under the auspices of the Association, Mr. Shaner continues:

At no time in our history have the benefits of organization been more manifest than now. It leads us to believe that our past accomplishments will be exceeded in the near future. But it must not be expected that this result will be attained without earnest labor and hearty cooperation. The latter is especially desirable as the major portion of the work and expense in the past has devolved upon a few. What we really should have, and what we are justly entitled to, is the encouragement, judgment, wisdom and ardent support of all sporting goods manufacturers. In no way can the manufacturer contribute more to the general interest of trap-shooting than by adding his influence and personal attention to the efforts of the Interstate Association. With an enlarged active membership success should attend our every well-directed effort and our usefulness increase.

The season of 1898 will present a practically unlimited field for the scene of our labors, and as it will be impossible to comply with all requests for assistance, it should be our aim to arrange a circuit that will result in the greatest good to the greatest number; one that will not only put us in close touch with a desirable element, but that will be of great value to our subscribers.

All preliminary details pertaining to the sixth annual Grand American Handicap tournament have been arranged, and contracts signed for the holding of same at Elkwood Park, Long Beach, N. J., March 22, 23 and 24, 1898. I am confident the selection of the Elkwood Park grounds will meet with the hearty approval of a great majority of those who contemplate taking part in the tournament. From information received I see no reason why the Grand American Handicap of 1898 should not prove to be a great success. Furthermore, I am fully satisfied that an individual effort upon the part of each of our subscribers is all that will be required to make it the equal of, if not superior to, any of its predecessors.

I would suggest that the Association consider the advisability of increasing the amount guaranteed from \$1,000 to \$1,500, and dividing the same as follows: \$600 to first high gun, \$500 to second high gun, and \$400 to third high gun.

I would also suggest that provision be made for presenting to the winner of first money a silver cup or other suitable trophy commemorative of the win.

I am in receipt of numerous communications requesting our co-operation next season. The condition of affairs is similar to those existing at the close of the season of 1896. The continued growth of applications for tournaments is highly encouraging, and though the progress made during the past year will be hard to surpass, yet it should be our aim to excel that record during the coming year.

I can see no reason for changing the rule whereby clubs are permitted to select such handicap methods or systems of dividing purses as they may deem advantageous for their particular tournaments, therefore I would advocate a continuance of same.

The properties of the Association are stored at Pittsburg, covered by insurance, and with the exception of repairs needed, are in good condition.

Before the report was ordered placed on file immediate action was taken upon that part thereof suggesting an increase in the Handicap guarantee and in giving to the winner a trophy emblematic of standing as such. An increase from \$1,000 to \$1,500 was promptly voted, and the Tournament Committee was instructed to secure designs for the trophy and submit the same at the next meeting, on January 17th.

The advisability of holding two Grand American Handicaps in future, one in the East and the other in the West, which has excited some discussion of late, was diplomatically referred to in the Tournament Committee. It is safe to say, however, that not more than one Grand American Handicap will be held at any time in future. That for 1898 will be held at Elkwood Park; it is not unlikely that the West may get the Handicap of 1899, but the location of that event will not be determined until after the 1898 event has been shot.

As to the future tournament policy of the organization, that question was also referred to the Tournament Committee. Many cities, therefore, anxious to obtain an interstate tournament next year will have to await the deliberations of the Committee.

Those present at the meeting were J. A. H. Dressel, representing the Union Metallic Cartridge Company; Irby Bennett—Winchester Reweaving Arms Company; E. S. Lentilhon—E. L. Du Pont, De Nemours & Co.; John L. Lequin—Hazard Powder Company; Charles Tatham—Tatham & Brothers; A. W. Money—American "E. C." & Schultze Powder Company; A. W. Higgins—Lafin & Rand Powder Company; W. L. Parker—Parker Brothers. The Leroy Shot and Lead Works and the Cleveland Target Company were represented by proxy.

Directors for the ensuing year were elected as follows: A. W. Money, J. A. H. Dressel, A. W. Higgins, John L. Lequin, E. S. Lentilhon, Charles Tatham, Irby Bennett.

The election for officers resulted in the re-election of the present incumbents—J. A. H. Dressel, President; Irby Bennett, Vice President; John L. Lequin, Secretary.

The Executive Committee for '98 consists of Messrs. Bennett, Money and Parker.

Tournament Committee—Messrs. Lequin, Lentilhon, Higgins, Tatham, and Bennett, chairman.

Club Organization Committee—Messrs. Delano, North and Parker.

Handicap Committee—Edward Banks, Jacob Pentz, W. K. Park and Elmer Shaner.

Elmer Shaner was appointed manager for the ensuing year.

#### The Petaluma Club Hunt.

The club hunt held Sunday December 19th, by the Petaluma Sportsman's club was a big success, the teams both doing good work. R. S. Brown was the captain of one team and E. E. Drees marshalled the other. Brown's team had seven men in the field and Drees' ten men, it being agreed before starting out that they would even the teams up after the game had been counted, the side having the least number to draw from the other side and adding it to the small side. Brown having the short side was entitled to draw from Drees' side one man, to be added to the points of Brown's and taken out of Drees' points. Brown drew F. M. Collins, with 767 points, and there was still one-half of one man too many left to Drees' side. Brown drew one more which which was to be cut in two, one half of the amount of points to be given to each team. Brown had the luck to draw Al Smith, with 2,397 points. Before the drawing Drees' side had a total number of 11,497 points, Brown's side 8,552; but after the drawing, as agreed upon by the captains, the result was as follows: Brown 10,581, Drees 9,513, which put the supper expense on Drees' team. The score of each member was: R. S. Brown, Captain, 1,744; C. P. Northrup, 1,045; West and Zartman, 1,467; Ben Phillips, 791; J. T. Studdert, 2,030; Ed Cavanaugh, 1,470; F. M. Collins, 767; Al Smith (one-half), 1,199; E. E. Drees, Captain, 676; Al Smith, (one-half), 1,198; Steiger and Gus Drees, 845; Jos. Steiger, 1,966; George Griess, 1,615; Geo. Ortman, 2,371; Louis Steitz, 115; W. J. Palmer, 767.

Points were allowed according to the following schedule: Bear, 1000, panther 1000, coyote 500, wildcat 250, fox 250, badger 250, quail hawk 250, coon 150; polecat, ground squirrel, weasel, mink, eagle, jackdaw, swan, sandhill crane each 100; pelican 75, honker and small hawk 30, mudhen 40; poke, grey squirrel, large diver, yellow hammer, wild pigeon, white and blue cranes, gray and white geese, canvasback duck, mallard, English snipe and large owl 25 each; blue jay 50, woodpecker, hare and cottontail 20 each; sprig and gadwall 15 each; widgeon, bluebill, spoon and sawbill, teal, butterball, jacksnipe, rail, English sparrow and small hawk 10 each; small diver, clintail, coots and shags, curlew, plover, lark and quail 5 each; blackbird and sandpiper 2 each; smaller birds 1 point.

At a meeting of the club held recently Section 14, Article II, of the By-laws was changed so as to close the membership of the club. If a member drops out a new member will not replace him and the club will not take additional members.

It was decided to serve injunctions on all of the poachers who invade the club preserves. The keeper has a list of the intruders and the documents will be served at once.

#### Visalia Notes.

Quail shooting in the vicinity of Visalia has been good recently. E. E. McVeagh and George Dinely have been out together twice, and judging from the bags made, birds must be plentiful. On November 28th they killed one hundred and nineteen birds between the hours of 9 A. M. and 2 P. M., and on December 12th they made a bag of one hundred and thirty quail between 8 A. M. and 2:30 P. M. McVeagh had seven birds the best of the shoot on his string. These were all wing shots at single birds. On Christmas day a live pigeon shoot was held at Dinuba. The following scores were made:

First event at six birds:

E. E. McVeagh.....	121211-6	"Fox".....	221121-6
"Sensaboy".....	121112-6	G. Lovelace.....	221111-4
J. C. Bell.....	222111-6	A. Lovelace.....	201210-4

Second event at twelve birds:

"Sensaboy".....	1221221121-12	E. E. McVeagh.....	12111222*121-10
"Fox".....	2221212*1212-11	J. Shell.....	02**221212-8
G. Lovelace.....	21102211*121-10	A. Lovelace.....	1*0001011200-6

Third event at ten birds:

E. E. McVeagh.....	2121222111-10	G. Lovelace.....	212121*21*2-8
J. Shell.....	122*111222-9	"Sensaboy".....	1*13011*2-7
"Fox".....	1*11121221-9	A. Lovelace.....	*122222001-7

Fourth event at six birds:

E. E. McVeagh.....	111121-6	A. Lovelace.....	102100-3
J. Shell.....	201202-4	Bacon.....	1200-0-3
"Fox".....	101002-2		

\*Dead out of bounds.

#### CARTRIDGE AND SHELL.

Plenty of cans are reported along the Alviso bay shore.

H. Vogel made a bag of sixteen ducks at the Bridges last Sunday.

B. Sherock made a bag of twenty ducks at Newark Sunday last.

F. Feudner and a friend made a bag of one hundred ducks at Olivers last week.

Geo. Jackson hunted over the Country Club preserve Friday of last week.

Tommy Coakley made a bag of forty teal and sprig at Alvarado last Sunday.

Some very fine fur Klondyke suits can be seen at E. T. Allen, 416 Market street.

The weather was most too warm for good shooting at Point Reyes last Sunday.

Jack Creben and Joe Byers bagged three dozen fine birds at Alvarado last Sunday.

C. A. Haight, Dave Thom and H. Justins will hunt quail to morrow near Livermore.

The Empire Club members were in force at their grounds last Sunday. Fair bags were made.

St. Clair brothers were at Alvarado Sunday last and bagged seventy-five ducks, principally sprig.

The market hunters in and around San Pablo and Suisun districts use canvasback decoys only.

A. Wilson and H. Swan, at Alvarado Sunday last, bagged respectively, twenty and thirty seven ducks.

Frank Dolliver delivered twenty-eight pounds of wildcat to the Cum Cook Verein last Monday morning.

Shaw and Klevesahl were at Alvarado on Saturday and Sunday. The bag was fifty sprig, spoonys and teal.

F. E. Miller and Clem Thurber were at the Pastime Club house Saturday and Sunday. They bagged fifty ducks.

Geo. Smalley and Frank Hoffeng were at Mt. Eden a week ago Wednesday. The bag counted up ninety-one ducks.

N. Marriott and Fred Middlemas were at Black Point recently. The bag was eighty-five ducks, cans, sprig and teal.

Wm. King and W. W. Morrow had a quail shoot in the vicinity of Santa Maria recently. The birds were numerous and good bags were made.

Al. Cumming and W. E. Murdock were at Los Banos last week. They report the duck shooting good. Mallards, sprig and gadwall were plentiful.

Duck shooting has been fine on the other side of the bay, especially in the vicinity of the salt wells. The ponds are full of water and birds are plentiful.

Only four guns were reported on the Alviso marsh last Sunday. Ducks are swarming all along the bay shore in that vicinity—plenty of cans among them.

Harvey McMurchy, the representative of the Hunter Arm Co., famous trap shot and expert with the Smith gun is expected in the city in the early part of March.

Ed Forster shot at Reclamation last Sunday. He bagged twelve cans and teal. The weather was too hot for good shooting. The ducks were all out on the bay.

Hunters at Mt. Eden last Sunday had a good day. Ducks were plentiful and the weather fine for shooting. A number of sportsmen had three and four dozen birds apiece.

Chas. Precht bagged twenty-two quail at Point Reyes last Sunday. Frank Vernon had a string of forty quail and a few ducks, he was at the Point Saturday and Sunday.

S. L. Goulding of Colusa has turned loose ten Oregon pheasants in that vicinity. It is to be hoped that they will not be molested or destroyed until they have multiplied freely.

Sport must be red hot up north, according to the following in the Jacksonville Democrat: A shooting match for beef and turkeys will be held near the city jail in Klamath Falls on Dec. 31st.

Ducks have not been very numerous near Point Reyes the past week. Quail are still fairly plentiful. Some good bags of English snipe have been made on the Country Club grounds recently.

W. L. Prather Jr. and two friends had a good run with the Olinda pack of fox hounds last Saturday. The dogs killed two large wild cats and a coyote. They covered ground on the hills behind the Olinda Kennels.

Phil B. Bekeart and Clarence Nauman were at the mouth of Sonoma creek, Wednesday, a week ago and made fine bags. They were lucky in getting a position in an unoccupied blind and caught the flight just in time.

Fred Gilbert has challenged J. A. R. Elliott to a return match for the Du Pont live bird championship emblem, under the rules governing the same. Rolla Heikes has accepted Chas. Grimm's challenge for the East Iron Medal and names January 1, 1898, as the date and Fairview Park, Dayton, O., as the place.

The Illinois State Sportsmen's Association will hold a winter convention at Peoria, Ills., on Wednesday, Feb. 9, 1898, for the purpose of furthering the interests of game and fish protection and propagation, and to determine upon some definite and decisive line of action regarding the adoption of practical and necessary game laws within the state.

The Black Jacks, at Antioch on Christmas Day were President Lemmer, "Sherman," Pete McCrea, J. Maynard, Jr., Billy Swain and E. C. Johnson. The combined bag was fair. Ice in the ponds prevented good shooting conditions. The ducks were nearly all out on the Suisun in running water. The boys had a swell time and thoroughly enjoyed their Christmas dinner.

Some recent shooting news in the vicinity of Los Angeles is noted by The World, as follows:

Mr. and Mrs. Albert C. Jones shot on the Ceritos Gun Club grounds Wednesday. Mrs. Jones bagged 21 and Mr. Jones 56 duck.

Mr. H. Keller and Horace Anderson shot on the Alta Gun Club grounds Wednesday. Mr. Keller got 55 and Mr. Anderson 44 ducks.

Duck shooting is pretty good at present. Quail will be hard to get until after a good rain.

John Scott got 43 duck at the Greenhead Club's grounds Wednesday.

On the Recreation Club's grounds Wednesday G. Fritz bagged 30 ducks, Fay 35 and John Hauerwass 40.

John Cline and Joe Banning have been in San Diego county on a quail hunt during the past week. They returned yesterday.

John Hauerwass, Ed Golder, Joe Singer, Chris Krempel, Archie Freeman and R. Wheeler attended the turkey shoot, which took place at Redondo on the 21st and 22d.

Count von Schmidt, Mr. Bottsford and another member of the San Joaquin Club have leased the laguna for every Friday, Saturday and Sunday during the season.

The Valley Rifle Club give another turkey and bull's-eye shoot at Covina on December 22d.

Notice to Dog Owners!

THE "BREEDER AND SPORTSMAN"

Is Agent for the Following Publications on

The Dog;

KENNEL SECRETS, by Ashmont,

Price, Postpaid, \$3.50.

The most exhaustive treatise on the dog ever written. By following the instructions contained in this volume even a novice can manage a kennel, breed and exhibit dogs as scientifically as a veteran at the business. It contains 345 pages, is beautifully bound in cloth, and has 150 exquisite half-tones of the most celebrated dogs of the various breeds of the present day. Anyone securing a new yearly subscription to the "BREEDER AND SPORTSMAN" (\$3 each) and forwarding the cash to this office will at once be sent this valuable book as a premium.

FETCH AND CARRY, by Waters

Price, Postpaid, \$1.50

With the aid of this book anyone with ordinary intelligence can quickly teach a dog to retrieve in fine style. Every duck hunter should own a copy of this. The work contains 124 pages and is bound in cloth. Anyone securing a new yearly subscription to the "BREEDER AND SPORTSMAN" (\$3 each) and forwarding the cash to this office will at once be sent one of these volumes as a premium.

Get your friends to subscribe to the "BREEDER AND SPORTSMAN" and avail yourself of this rare opportunity to secure some of the most valuable books known.

"HAUNTS OF WILD GAME"

By ISAAC McLELLAN, edited by CHAS. BARKER BRADFORD.

A beautiful book of two hundred pages in cloth and gold; appropriately illustrated. Tells of the haunts of fur, fin and feather game, and the natural history of birds, fishes and wild mammals.

Invaluable to the angler, gentle sportsman, hunter guide, tourist, taxidermist, naturalist and book lover.

Price \$1. Sent carefully wrapped to any address, postage free, by CHAS. BARKER, BRADFORD Publisher, 487 Broadway, New York.

For the AUTUMN MEETING of 1900

To Close JANUARY 4, 1898

BY SUBSCRIPTION of \$20 each, OR ONLY \$10 IF THE MONEY BE SENT WITH ENTRY, for mares covered in 1897, and a further subscription of \$50 each for the produce of such mares unless struck out by July 15, 1899, or \$100 unless struck out by July 15, 1900. All starters to pay \$250 additional, all of which shall go to the second and third horses as further provided. The Coney Island Jockey Club to add EIGHT THOUSAND SEVEN HUNDRED AND FIFTY DOLLARS (\$8,750); the second to receive \$1,000 of the added money and two-thirds of the starting money; the third \$500 of the added money and one-third of the starting money. The breeders of the winner, of the second horse and of the third horse, namely, the owner of the mare at time of entry, to receive \$2,000, \$1,250 and \$500 of the added money respectively, whether they be the owners of the horse when the race takes place or not. Colts, 122 lbs.; fillies and geldings, 119 lbs. Winners of \$2,500, 3 lbs.; of two races of \$2,500, or one of \$4,500, 7 lbs.; of four of \$2,500, or two of \$1,500, or one of \$9,000, 12 lbs. extra. The produce of mares or stallions which have not produced a winner prior to January 1, 1898, allowed 3 lbs.; of both (mare and stallion), 5 lbs., said allowance to be claimed at time of entry. Maidens allowed 10 lbs., which allowance shall not be cumulative. Mares may be entered by persons not their owners, the owner having the prior right. If a mare in this stake drops her foal before the first of January, or if she has a dead or more than one foal, or is barren, the entry of such mare is void and the subscription, if paid, will be returned. By filing prior to July 15, 1899, with the Coney Island Jockey Club, an accepted transfer of the produce with its engagement in this Stake, accompanied with all forfeits to date, the original subscriber will be released from any liability as to the engagement of the produce. Should a subscriber or transferee die before the race, the entry shall not be void provided it be assumed by the then owner of the horse; notice in writing to that effect, accompanied by the payment of all accrued liabilities, being given within three months after such demise. Futurity course (170 feet short of six furlongs).

The Prince among Auctioneers, WM. FITCH, will sell these horses.

## The California State Agricultural Society's

### FUTURITY STAKE

For the Produce of Mares Covered in 1897.

TO BE RUN AT THE

## STATE FAIR OF 1900,

TO CLOSE JANUARY 1, 1898.

A sweepstake for two-year-olds, f. als of 1898, by subscription of \$10 each for mares covered in 1897, and of \$100 each for the produce of such mares, to be paid as follows: \$10 FOR MARE'S TO ACCOMPANY ENTRY, \$10 on produce payable January 1, 1899 when color, sex and marks of foal must be given, \$5 payable November 1st, 1899, \$15 January 1, 1900, and \$50 on September 1, 1900. The State Agricultural Society to add \$1,000, of which the winner is to receive \$500 and the stakes paid on produce second col. \$250 third col. \$150. The owner of mares at time winners of first, second and third money were foaled, to receive 60 per cent., 30 per cent and 10 per cent respectively, of money subscribed for mares on January 1, 1898.

Colts to carry 118, fillies 116 pounds. The winner of a stake of the value of \$1,500, or two of \$1,000 each, to carry three pounds extra. The winner of a stake of the value of \$2,500, or two of \$1,500 each, to carry five pounds extra.

Allowances: Real maidens allowed three pounds for once, five pounds for twice. If beaten three or more times and not placed 1, 2, 3, allowed 1 lb. pounds.

The produce of mares not having foaled a winner prior to January 1, 1898, to be allowed five pounds additional, if claimed at time of entry of mare. In case of sale of mare before foaling, or produce thereafter, notice thereof should be filed with the secretary, as payments not made as they become due de lares entry out and releases subscriber from all liability.

If mare entered and proves barren or has dead foal, entry is void, and money paid will be returned; otherwise, try follows colt.

THREE-QUARTERS OF A MILE.  
ENTRIES TO CLOSE WITH SECRETARY, JANUARY 1, 1898.

EDWIN F. SMITH, Sec'y,  
C. M. CHASE, President.

No horse that has incurred either of the penalties shall be entitled to any of the allowances, and no horse which is not entitled to the first two allowances can claim any of the subsequent ones. Allowances and penalties not cumulative. **One mile and a half.**

Owners wishing to declare their horses in the ST. LOUIS DERBY FOR 1899 can do so by PAYING \$10 ON OR BEFORE JANUARY 1, 1898.

Entry blanks will be forwarded on application. Address all communications to

ROBERT AULL, PRESIDENT FAIR GROUNDS, ST. LOUIS, MO.

## THE NEXT SPLAN-NEWGASS SALE OF SPEED

WILL TAKE PLACE

February 22d, 23d, 24th, 25th, 1898, at  
DEXTER PARK HORSE EXCHANGE,  
UNION STOCK YARDS, CHICAGO, ILL.

Among the gilt-edged consignments already pledged are those of

THE PABST STOCK FARM, WAUWATOSA, WIS., including the famous stallion FAUSTINO 10,739, record 2:12½, sire of Trophy (2), 2:29½, and Faustine W. (3), 2:28. SANGAMO STOCK FARM, SPRINGFIELD, ILL. Dispersal of the entire stud, including the highly-bred Electioneer sire CONDUCTOR, 2:14½; BONITA, 2:18½ (once the holder of the world's four-year-old record), by Electioneer; MINK, 2:22½; IRENE, 2:22½; DORENE (dam of Akron, 2:24½); ROSA SPRAGUE (dam of McKinley, 2:11½). Broodmares by Nutwood, Alcantara, Alcyone, Belmont, Harold, Electioneer, Gov. Sprague, Robert McGregor, Dictator, Ansel, 2:20, Red Wilkes and Simmons. Also a number of colts and fillies by Conductor.

CATON STOCK FARM, the home of HIGHWOOD, 2:21½, and CAID (4), 2:11, consigns twenty-five head of the choicest-bred trotters on the place. Particulars as to this rich consignment in future advertisements.

CHOICE CONSIGNMENTS OF FASHIONABLY-BRED HORSES AND TROTTERS WILL BE ACCEPTED UP TO FEBRUARY 1, 1898.

For all information, address

SPLAN & NEWGASS, UNION STOCK YARDS, CHICAGO, ILL.

## California Jockey Club Stakes

Entries for the following California Jockey Club stakes close JANUARY 10th:

31. **THE RIMWOOD STAKES**—For two-year-olds (foals of 1896). Value \$1,000, of which \$200 to the second and \$100 to the third. **Four furlongs.**

32. **THE FLYING STAKES**—For fillies. Two-year-olds (foals of 1896). Value \$1,000, of which \$200 to the second and \$100 to the third. **Four furlongs.**

33. **THE RACING STAKES**—A selling stake. For two-year-olds (foals of 1896). Value \$1,000, of which \$200 to the second and \$100 to the third. **Four furlongs.**

34. **THE WATERHOUSE STAKES**—For two-year-olds (foals of 1896). Value \$1,250, of which \$200 to the second and \$100 to the third. **Four and a half furlongs.**

35. **THE GENERAL ARTHUR CIGAR STAKES**—For two-year-olds (foals of 1896). Value \$1,250, of which \$200 to the second and \$100 to the third. **Four and a half furlongs.**

36. **THE CANDELARIA HANDICAP**—For two-year-olds (foals of 1896). Value \$1,500, of which \$250 to the second and \$150 to the third. **Five furlongs.**

37. **THE GEBHART STAKES**—For two-year-olds (foals of 1896). Value \$2,000, of which \$500 to the second and \$200 to the third. **Five furlongs.**

**DISTEMPER, INFLUENZA, PINK EYE, EPIZOOTIC AND CATARRHAL FEVER** speedily and permanently cured, and others in the same stable, no matter how exposed, kept from having them by using

## SPOHN'S DISTEMPER and COUGH CURE

Also marvelous in cases of Pharyngitis, Laryngitis, Catarrh, Chronic Coughs, Colds, etc. 3 to 6 doses often cure DISTEMPER, and 1 bottle guaranteed. Cures by cleansing the blood. Absolutely safe for colts, mares in foal, stallions in service, and for the training and racing stables is the biggest saver of time, trouble and money. Used by over 100 stock farms in the United States and sixty five per cent. of livery, sale and shipping stables and thousands of farmers and breeders. Try it for horses "out of form" or with poor appetites. Not a powder. Price, 50 cents a bottle; \$5 a dozen. Manufactured by

SPOHN MEDICAL CO.

Sold by J. A. MCKERRON, San Francisco, and  
MOOREHEAD & SON, Santa Clara.

Goshen, Indiana.

# THE NEW MEMPHIS JOCKEY CLUB.

1898 STAKES FOR SPRING MEETING 1898

TENNESSEE DERBY, \$3,000 ADDED

TENNESSEE OAKS, \$1,000 ADDED, for 1899

Meeting Opens Saturday, April 9, 1898, and Continues 19 Days, Closing Saturday, April 30

Entries Close January 1, 1898.

Second Payment Due Jan. 15th, TENNESSEE DERBY, \$5,000 GUARANTEED, to be Run at Spring Meeting, 1898.

THE TENNESSEE DERBY FOR 1899—SUBSCRIBED BY G. C. BENNETT.—A sweepstakes for three-year-olds (foals of 1895). \$150 each, \$50 forfeit, or \$10 if declared on or before May 1, 1898; \$25 if declared on or before January 1, 1899. All declarations void unless accompanied by the money. \$3,000 added, of which \$500 to second, and \$250 to third. Weights—Colts, 122 lbs.; geldings, 119 lbs.; fillies, 117 lbs. One mile and one-eighth.

THE TENNESSEE OAKS FOR 1899.—A sweepstakes for fillies, three-year-olds (foals of 1896). \$100 each, \$40 forfeit, or \$10 if declared on or before May 1, 1898; \$20 if declared on or before January 1, 1899. All declarations void unless accompanied by the money. \$1,000 added, of which \$300 to second, and \$150 to third. Weights, 117 lbs. One mile.

GASTON HOTEL STAKES—SUBSCRIBED BY GASTON'S HOTEL.—A sweepstakes for two-year-olds, colts and geldings, \$100 to accompany nomination, and \$50 additional to start. \$1,000 added, of which \$200 to second, and \$100 to third. Four furlongs.

THE ARDELLE STAKES.—A sweepstakes for two-year-old fillies. \$10 to accompany nomination, and \$50 additional to start. \$1,000 added, of which \$200 to second, \$100 to third. Four furlongs.

THE MEMPHIS STAKES.—A sweepstakes for two-year-olds. \$10 to accompany nomination, and \$50 additional to start. \$1,000 added, of which \$200 to second, and \$100 to third. PENALTY—A winner of a stake race (selling stakes excepted) to carry 3 lbs.; of two or more, 5 lbs. extra. Beaten maidens allowed 5 lbs.; if beaten in and unplaced in a sweepstake at this meeting allowed 8 lbs. Five furlongs.

NEW GAYOSO HOTEL STAKES—SUBSCRIBED BY THE NEW GAYOSO HOTEL.—\$1,000 guaranteed. A selling sweepstakes for two-year-olds. \$10 to accompany nomination, and \$25 additional to start. The Club to add sufficient to make the value of the race \$700 to first, \$200 to second, and \$100 to third. The winner to be sold at auction for \$3,000 is, for less, 2 lbs. allowed for each \$500 to \$1,500; 1 lb. for each \$100 less to \$1,000; then 2 lbs. for each \$100 less to \$300. Starters and selling price to be named through the entry-box (usual time of closing of entries for this day's racing), and horses so named are liable for starting fee. Four furlongs.

LUHRMANN HOTEL STAKES—SUBSCRIBED BY LUHRMANN'S HOTEL.—\$1,500 guaranteed. A sweepstakes for three-year-olds (foals of 1895). \$10 to accompany nomination, \$50 additional to start. The Club to add sufficient to make the value of this race \$1,200 to first, \$200 to second, and \$100 to third. A winner of a three-year-old stake race, when carrying their weight (colts, 122; geldings, 119; fillies, 117) 3 lbs. penalty; of two or more, 5 lbs. Beaten non-winners in 1898 allowed 5 lbs.; if unplaced; 8 lbs.; others never having won a two or three-year-old stake race (selling stakes excepted) allowed 5 lbs.; if such have never won a race of the value of \$100 to the winner (selling stakes and purse races excepted); allowed 10 lbs.; beaten maidens, 20 lbs. Allowances not cumulative. One mile.

SPECIAL NOTICE—No entry will be received for any of these stakes except upon this condition. That all disputes, claims and objections arising out of the racing, or wit respect to the interpretation of the conditions of any stake, shall be decided by a majority of the RACING STEWARDS present, or those whom they may appoint, and their decision upon all points shall be final.

Address all Nominations to NEW MEMPHIS JOCKEY CLUB, Room 2, Cotton Exchange Building, Memphis, Tenn.

## Westchester Racing Ass'n!

TO BE RUN AT THE

### AUTUMN MEETING

1900

## The Matron of \$20,000

To Close Tuesday, January 4, 1898

THE MATRON, for the produce of mares covered in 1897, to run as two year olds in the Autumn of 1900. Purse \$20,000, to the winner \$14,000, to the second \$3,000, to the third \$1,000. To the nominator of the dam of the winner \$1,500, to the nominator of dam of the second \$1,000, to the nominator of the dam of the third \$500. Subscriptions for mares to close Tuesday, January 4, 1898, at \$20 each, or only \$10 if the money accompany the entrance. Mares may be nominated by other persons as well as their owner, but the owner shall have prior right.

Foals the progeny of mares so nominated to be eligible at \$10 each if declared on or before September 1, 1899. If left in after September 1, 1899, to pay \$25 each. If left in after January 1, 1900, to pay \$50 each. If left in after August 15, 1900, to pay \$75 each. Starters to pay \$150 each. Should there be any surplus from subscriptions or entries over the advertised value, it shall be paid 50 per cent. to the winner, 30 per cent. to the second and 20 per cent. to the third.

### WEIGHTS, PENALTIES AND ALLOWANCES.

Colts to carry 122 lbs.; fillies and geldings, 119 lbs. Winners of \$5,000 or twice of \$2,500 to carry 3 lbs. extra; of \$10,000 or twice of \$5,000, 5 lbs. extra; of \$15,000 or twice of \$10,000, 7 lbs. extra; of \$30,000, or twice of \$15,000, 10 lbs. extra.

Non-winners of \$2,000 allowed 3 lbs.; of \$1,000, 5 lbs.; maidens, 10 lbs. Produce of horses or out of mares that had never produced a winner previous to January 1, 1898, allowed 3 lbs.; of both, 5 lbs., which allowance must be claimed at time of entrance. Allowances cumulative. Eclipse Course.

For Entry Blanks and information, address,

H. G. CRICKMORE, Clerk of the Course, 173 Fifth Ave., New York; or, to the office of THE BREEDER AND SPORTSMAN.

## LOOK ALIVE!

If you have a trotter or pacer to sell, communicate with Wm. G. Layng, 313 Bush street. He will hold a big sale of light-harness horses at the Occidental Horse Exchange, Thursday, January 20th.

### SCALE OF THIS RACE.

	Colts	Gelg.	Fill's.
Those entitled to no allowances.....	122	119	117
Winner with weight up of one three-year-old stake.....	125	122	120
Winner with weight up of two three-year-old stakes.....	127	124	122
Beaten non-winners placed in 1898.....	117	114	112
Beaten non-winners unplaced in 1898.....	114	111	109
Non-winners of a two or three year-old stake (selling excepted).....	117	114	112
Non-winners of a race of the value of \$100 (selling excepted).....	112	109	107
Beaten Maidens.....	102	90	97

TENNESSEE BREWING COMPANY STAKES—SUBSCRIBED BY THE TENNESSEE BREWING COMPANY.—A selling sweepstakes for three-year-olds and upward. \$10 to accompany nomination, and \$50 additional to start. \$1,000 added, of which \$300 to second and \$100 to third. The winner to be sold at auction for \$3,500 if for less; 3 lbs. allowed for each \$100 to \$2,000; then 1 lb. for each \$100 less to \$500. Starters and selling price to be named through the entry-box at the usual time of closing for this day's racing, and those so named are liable for starting fee. Seven furlongs.

THE PEABODY HOTEL HANDICAP—SUBSCRIBED BY PEABODY HOTEL.—\$1,500 guaranteed. A handicap sweepstakes for three-year-olds and upward. \$10 to accompany nomination, and \$50 additional to start. The Club to add sufficient to make the value of the race \$1,200 to first, \$200 to second, and \$100 to third; the fourth to save starting money. Weights to be announced two days before the race. Winners of a race, after announcement of weights, to carry 5 lbs. extra (selling race excepted). Acceptances to be made through the entry-box usual time of closing the day before the race. One mile and one-eighth.

THE MONTGOMERY HANDICAP.—A handicap sweepstakes for three-year-olds and upward, \$50 each, half forfeit, or \$10 if declared. \$1,200 added, of which \$300 to second, and \$150 to third, the fourth to save stakes. Weights to be announced before 9 A. M., February 15, and declarations to be made on or before March 1, 1898. All declarations void unless accompanied by the money. The winner of a race, after the weights are announced, of the value of \$500 to the winner, or two races of any value (selling purse races excepted), 5 lbs. penalty; such penalty not to exceed scale weight if handicapped at less; those weighted at scale or more than scale weight by the handicapper will not be subject to a penalty. The scale of the American Turf Congress Scale for April. (This race to be run the opening day. One and one-sixteenth mile.

THE COTTON STEEPLECHASE STAKES.—A steeplechase handicap sweepstake for three-year-olds and upward. \$10 to accompany nomination and \$25 additional to start. \$750 added, of which \$150 to second, and \$75 to third, the fourth to save starting money. Weights to be announced two days before the race. Four or more horses of entirely different interests to start, or the race may be declared off. Acceptances to be made through the entry-box at usual time of closing the day before the race. About two miles.

## The Game Old Screw.

He's a homely old brute as he stands there now,  
No claims, sir, to beauty, I frankly admit.  
But a real true friend, and I'll tell you how  
He proved it, and well I remember it.  
Aye! a friend in need, for he pulled me thro'  
When I needed a friend—my poor old screw!

It was down at the Beach. One dismal day  
I had entered him in a six-furlong dash,  
I was broke, with my help and feed bill to pay,  
And I'd fifty dollars in actual cash.  
There was one thing, and only one thing to do—  
Die game; so I bet on my poor old screw!

"Fifty to one" was the price in the ring.  
As I saddled him I felt faint and sick.  
He had all his speed. I feared only one thing—  
If he didn't break down he might do the trick.  
"Try to get off well and then come right thro',"   
Said I to the kid on my poor old screw!

Well, sir, he was last when the flag went down,  
And had to race round the entire lot.  
Was ten lengths to the bad at the head of the stretch.  
The mud was deep, and the pace red hot.  
But nearer the front and nearer drew  
At every stride my game old screw!

Fifty yards from home he was leading a head,  
But there he faltered; his leg had gone.  
The kid was riding the best he knew.  
His spurs were in and his whip was drawn.  
Swish! Crack! head and head by the post they flew,  
But his nose was in front, my game old screw!

Well, sir, I won near a cold "two thou,"  
I was saved from a winter of cold and want  
By this blessed old horse you're looking at now.  
(You never shall starve, old chap, that you shan't!)  
Of true "friends in need" we meet for too few,  
And my truest and best is this game old screw!

The righteous will say we've no love for a horse,  
And regard him as only a gambling machine,  
A means to the end of profit and loss;  
And that racing men's hands are not over clean,  
But you know, I know, that that is not true,  
We love a good horse if he is a screw!

—Gaiters, in Rider and Driver.

## Miss Russell and Beautiful Bells Compared.

Without making an accurate count—and in this matter the precise number is not important—it may truthfully be stated that Miss Russell has more descendants that have entered "standard" lists than any other mare ever had during her lifetime. At the close of 1896 they numbered 790 and there have probably been additions of over one hundred since that time, so that the list of her descendants with standard records may now be approximately estimated at 800. For this she is of course largely indebted to her son, Nutwood, though she has other descendants that have been very prolific. Miss Russell is now verging on thirty-three years of age and her extraordinary longevity is still another element in producing this result. Mr. Wallace, in his late work, has attacked her pedigree—as he has attacked nearly everything else at Woodlawn—claiming that her dam Sally Russell is not a daughter of Boston. I do not care to discuss this question, as I know nothing about it and probably care as little. Whether Sally Russell was sired by Boston or some other running horse is not a matter of very vital importance. Mr. Wallace also states that Boston, her reputed sire, was not thoroughbred—his great-great-grandam being s. t. b. of Wild Air blood. He says that the six crosses that have been added to this pedigree are "entirely fictitious and copied from an advertisement of a stallion descended from this maternal line that had neither indorsement nor name

attached to it." He further says that Timoleon, the sire of Boston, cannot be traced beyond three crosses. If neither Timoleon nor Boston were thoroughbred, of course Lexington could not be and this leaves the two dams of Jay-Eye-See and Maud S. non-thoroughbred, though doubtless in part running bred. I do not undertake to say that Mr. Wallace's statement is either correct or incorrect. If his statement be attacked he is, I suppose, able to open up his end of the argument. Whatever may have been the breeding of Miss Russell she was certainly an extremely great brood mare and I have no desire to make her appear any less great than she really is. But there is a trotting-bred brood mare paternally descended from the same stock as Miss Russell and foaled seven years later that will in my judgment, when she has attained the same age, rank considerably higher. I refer to the great brood mare of Palo Alto, Beautiful Bells, by The Moor. Beautiful Bells has never produced a Maud S., and it is extremely improbable that she ever will, but without doubt she incomparably surpasses all other mares in the uniform production of speed and in the production of early speed. This is demonstrated by the list of her produce, which is as follows:

1880—Hinda Rose (1), 2:36½; (2), 2:32; (3), 2:19½.  
1881—Alta Belle, dam of Daghestan, 2:24½.  
1882—St. Bel (4), 2:24½; sire of 52.  
1883—Rosemont, dam of Montrose (3), 2:18; Sweet Rose (1), 2:25½; Mazatlan, 2:26½.  
1884—Chimes (2), 2:33½; (3), 2:30¾; sire of 41.  
1885—Bell Boy (2), 2:26; (3), 2:19¾, sire of 11.  
1886—Palo Alto Belle (3), 2:22½.  
1887—Bow Bells, 2:19¾; sire of 7.  
1888—Electric Belle, trial 2:24; sire of 2.  
1889—Bellflower (2), 2:24¾; (3), 2:26½; (4), 2:12½.  
1890—Bell Bird (1), 2:26¾; (2), 2:22.  
1891—Belsire.  
1892—Day Bell.  
1893—Abdell (1), 2:23.  
1894—Bell's Beauty.  
895—Adabelle.  
896—Vesper Bells.

Her performers with records better than 2:30 are eight, with either standard record or standard produce, 13. Day Bell, I am told, will easily go in the list. Electric Bell has trotted for Marvin in 2:24, and as to what has been done with the last three, one of which is by Electricity and the other two by Advertiser, I am not informed. I know nothing to prevent Belsire making a fast record whenever prepared for it. As he will stand at the head of the Miller & Sibley Kentucky stud, I suppose he will be trained next year after the stud season. We can only count, however, the performances that have actually been made, for when we venture beyond them we get into the region of speculation.

Let us now see what Miss Russell has done. I began with the statement that she has more standard performers in all the generations than have been credited to any other mare while alive, but as she is seven years older than Beautiful Bells, it is evident that she has in this respect a very considerable advantage, as time is a mighty factor in such comparisons. I have not gone beyond two generations with Beautiful Bells and will confine myself to two with Miss Russell. The following is a table of her produce:

1870—Nutwood, 2:18¾; sire of 153.  
1871—Lady Nutwood.  
1872—Cora Belmont, 2:24½.  
1874—Maud S., 2:08¾.  
1875—Chestnut filly, dead.  
1877—Nutbourne; sire of 7.  
1878—Mambrino Russell; sire of 15.  
1879—Nutula; dam of Mandolin, 2:25¾.  
1880—Russella.  
1881—Lord Russell, sire of 24.  
1882—Lady Russell, dam of Expedition, 2:15¾; Re-Election 2:17¾; Electrix, 2:28¾.

1883—Russia, 2:28.  
1885—Pilot Russell.  
1886—Pistachio, pacer, 2:21¾; sire of 1.  
1887—Russia, dam of Unkamel (3), 2:22½.  
1888—Rustique, 2:18½.  
1889—Suffrage.  
1890—Sclavonic, pacer, 2:15¼.

There is, I think, no doubt that, judged by production, Miss Russell and Beautiful Bells are the two greatest living brood mares. Miss Russell trotted a three-year-old trial of 2:44; Beautiful Bells has a record of 2:29½. Miss Russell has seven in the 2:30 list, two of which are pacers; five sires of speed and four producing daughters. Beautiful Bells has eight in the 2:30 list, all trotters; five sires of speed; two producing daughters. Two of Beautiful Bells' foals took their record as yearlings, three took records of better than 2:30 as two-year-olds, while a number of others were almost in the list at the same age. The average time of the performers of Miss Russell is a little slower than 2:20 (including pacers). The average time of the performers of Beautiful Bells is a trifle slower than 2:20, including yearlings and two-year-olds and all trotters. Miss Russell is, as stated, nearly thirty-three, and Beautiful Bells nearly twenty-six years old. Up to the close of 1897 Beautiful Bells has had 17 foals; Miss Russell, 19. I suppose that the foals of neither mare have lacked training.

Eleven of Beautiful Bells' foals were by Electioneer; one by Piedmont, and this one is the dam of three, including Sweet Rose (1), 2:25½. Another of her foals, Day Bell, by Palo Alto, has not yet secured a record. One, Abdell, by Advertiser, has the yearling record. Two others, foaled in 1895-6, are by Advertiser, and the remaining one up to 1897 by Electricity. Seven of Miss Russell's foals were by Belmont; eight by Harold; one by Woodford Mambrino; two by Electioneer, and the last Sclavonic, 2:15½, by King Wilkes. Both mares therefore have been bred uniformly to good horses, though in this respect, all things considered, Beautiful Bells has probably had the advantage.

While the California mare has never produced as high a rate of speed as Maud S. possessed, it must be admitted that she excels Miss Russell in uniformity of production, and, with the exception of Maud S., who was a good trotter when quite young, I do not think there has ever been any strong indication that the sons and daughters of Miss Russell had anything like the capacity to develop early speed that the produce of Beautiful Bells has shown. Both these mares will live in horse history as the founders of great families. Miss Russell's greatest son has already performed his task and established a very brilliant line, and Lord Russell has also become a sire and progenitor of note. Mambrino Russell, too, at one time promised to become a very considerable sire, but seems to have received less attention of late years than his early promise seemed to entitle him to. On the female side, Miss Russell has horses descended from her that have acquired distinction, and through whom her reputation will be increased. As the dam of the mare that for many years held the trotting championship, her fame is already world-wide, and no matter what speed the trotter may attain, Maud S. will always be among the most celebrated of the champions.

From present indications it appears probable that when Beautiful Bells shall have attained Miss Russell's age, she will be the greatest of trotting brood mares. It is not likely that she will do much more in the way of immediate production; but she has now living and in the stud four sons that should become sires of great families. Chimes has already distinguished himself in the stud to a very marked degree. Bow Bells has given in Boreal, Janie T. and others an earnest of what may be expected of him in the future.

Electric Bells is for the first time this year a sire of speed, because this year for the first time some of his get had been handled, and Belsire, the youngest horse for which Messrs Miller & Sibley paid \$25,000, will undoubtedly make his mark in the stud as St. Bel, Bell Boy and Chimes have done in the past. The oldest of these "ull" brothers is but thirteen, and Belsire, the youngest, but six. These horses are all admirably located for speed production. Chimes is at the great Village farm; Bow Bells, Electric Bell and Belsire are in Fayette county, Kentucky. Every son of Beautiful Bells that has ever had reasonable opportunities in the stud and time for the development of his produce, has made a phenomenal sire of speed. There is no reason why the younger ones should not equal their older brothers. Besides these there are Day Bell, by Palo Alto, and Abdell, by Advertiser, that must not be lost sight of, both of them being likely to become prominent in the stud.

Beautiful Bells is one of the most deeply-bred mares in trotting lines alive. Her sire was a trotting-bred horse and on her dam's side she runs back through four crosses to Engineer II, sire of Lady Suffolk. Her dam was herself one of the greatest of trotting brood mares. It would seem that should she attain Miss Russell's years, she should rank even more highly than she has as the progenitress of a great family of trotters.—Iconoclast in The Horseman.

#### Ingleside Races.

THURSDAY, DECEMBER 30.

First race, seven furlongs, for maiden three-year-olds and upwards, purse \$350. Triumph (Thorpe, 109) first cleverly by one length; Twinkle Twink (H. Martin, 109) second by two lengths; Rey del Riablo (Spencer, 107) third. Los Cerillos, Lillian M., Malplaquet, Sandow III, Durwad, Santa Lucia, Home Stake and Santa Clara finished in the order named. Time 1:30½.

Second race, six furlongs, selling, for three-year-olds and upward. Midnight (Conley, 103) first, driving by one-half length; Cash Day (Clawson 105) second by four lengths; Miss Lynah (Thorpe 106) third. Mainstay also ran. Time 1:14½.

Third race, one mile, for gentlemen riders, a silver cup to the riders of first, second and third, purse \$500. Deck Behan (M. Murphy, 155) first, cleverly by one and one-half length; Atticus (M. Sink, Jr., 155) second, by four lengths; Presidio (Mr. Hobart, 165) third. William O'B, Senator Morrill and Sky Blue finished in the order named. Time, 1:46½.

Fourth race, one mile, for three-year-olds and upwards, purse \$500. Buckwa (H. Martin, 116) first, driving by a nose; The Roman (Thorpe, 106) second by one-half length; Orimar (Conley, 106) third. Imp. Tripping and Mercutio also ran. Time, 1:41.

Fifth race, one and one eighth miles, selling, for four-year-olds and upward, purse \$400. Perseus (E. Jones, 107) first, cleverly by one length; Can't Dance (W. Martin, 110) second by one length; San Marco (Thorpe, 110) third. Song and Dance, Doyle, Joe Terry, Marcel, All Smoke and Alvero finished in the order named, Peter II. was left. Time, 1:55½.

Sixth race, six furlongs, selling, for four-year-olds and upwards, purse \$350. Major Cook (Conley, 109) first, cleverly by one and one-half lengths; Meadow Lark (Thorpe, 109) second by three quarters of a length; Pat Murphy (Clawson, 109) third. Jack Martin, Coda, Elano and Zarro finished in the order named. Moylan was left. Time, 1:15½.

FRIDAY, DECEMBER 31.

First race, five and one-half furlongs, for two-year-olds, purse \$350. Prince Tyrant (C. Sloan, 108) first, pulling up, by two lengths; Henry C. (Hennessy, 110) second by five lengths; Texarkana (H. Brown, 108) third. Himera, Tom Spencer, T. McHugh, Forest Guard, Nihau, Indomitus, St. Angelo and Sunshine II. finished in the order named. Time, 1:09½.

Second race, six furlongs, selling, for three-year-olds, purse \$350. Zamar II. (Conley, 107) first, cleverly, by one length; Polish (G. Wilson, 110) second by eight lengths; Miss Prim (J. Woods, 102) third. Lost Girl, Lone Princess, Kaiser Ludwig and El Venado finished as named. Time, 1:15.

Third race, five and one-half furlongs, for two-year-olds, purse \$350. Prince Blazes (Thorpe, 113) first, cleverly by two lengths; Albina (E. Jones, 110) second, by a head; Mainbar (Clawson, 118) third. Joe Levy, Imperious, Formella, Roulette, Wheel, Ping, Racio, Snipsey and Carlisle finished as named. Time, 1:09½.

Fourth race, seven furlongs, handicap, for all ages, purse \$500. Lord Marmion (Thorpe, 113) first, handily by two lengths; May W. (Conley, 118) second, by three and one-half lengths; Libertine (Shields, 120) third. Hardly and Nic Nac also ran. Time, 1:27½.

Fifth race, one and one-sixteenth miles, for three-year-olds and upward, purse \$400. Bernardillo (Clawson, 95) first, cleverly by a head; Marquise (E. Jones, 104) second by one-half length; Nouffe (H. Martin, 104) third. Personne also ran. Time, 1:48½.

Sixth race, one mile, three-year-old and upwards; purse \$400. Cabrillo (Spencer, 107) first, easily by one and one-half lengths; Rubicon (Thorpe, 112) second by five lengths; Rey del Tierra (Clawson, 98) third. Geo. Palmer and Miss Ruth finished as named. Time, 1:41½.

SATURDAY, JANUARY 1.

First race, six furlongs, selling, three-year-olds and upward, purse \$350. Miss Ross (Thorpe, 104), first driving by two lengths; Soniro (Conley, 110), second by one length; Towanda (McNichols, 90), third. Sir Richard, Chappie, Elano, Brambella, Ike L., Mainbar, Fullerton Lass and Glenover finished in the order named. Time, 1:15½.

Second race, six furlongs, three-year-olds and upward, purse \$350. Traverser (Clawson, 94), first ridden out by two lengths; St. Callatine (E. Jones, 101), second by a head; Imp. Tripping (Conley, 106), third. San Tuzza, also ran. Time, 1:14½.

Third race, steeplechase, short course, four-year-old and upward, purse \$400. Reno (Barry, 140), won walking by himself; Esperance (Tobin, 140), second; Silverado (Stanford, 143), third. Capt Rees and Mestor ran out of course. Silverado cut across the field. Monita fell. Time, 4:26½.

Fourth race, two miles, three-year-olds and upward; the New Year Handicap, value \$1,500. Marquise (C. Sloan, 112) first, handily, by a head; Can't Dance (W. Martin, 109) second by a head; The Bachelor (Thorpe, 104) third. Vincitor, Song and Dance, Collins, Judge Denny, Wheel of Fortune, Don Clarence, Yankee Doodle and Billy McCloskey finished in the order named. Time, 3:20½.

Fifth race, one and one-eighth miles, selling, four-year-olds and upward, purse \$400. San Marco (Thorpe, 112) first, cleverly, by one and one-half lengths; Little Cripple (Clawson, 109) second by three lengths; Walter J. (Shields, 112) third. Cromwell, Joe Terry, Peter II., Doyle, Marcel, Volt and Oscuro finished in the order named. Time, 1:55½.

Sixth race, six furlongs, selling, for three-year-olds and upward, purse \$350. Geo. Rose (Clawson, 101) first, driving by a head; Sorrow (J. Woods, 106) second by one and one-half lengths; Highland Ball (McNichols, 99) third. Midas, Rebel Jack, Lena, Kamsin, Scotch Rose, Geo. Miller and The Dragon finished as named. Time, 1:15½.

Seventh race, seven furlongs, three-year-olds, purse \$400. Eddie Jones (Thorpe, 104) first, driving by one and one-half lengths; Torsida (Piggott, 109) second by a neck; San Antonio (Clawson, 104) third. Yule, Marplot, Morinel and Los Prietos finished in the order named. Eddie Jones disqualified for a foul and placed second. Time, 1:27½.

MONDAY, JANUARY 3.

First race, seven furlongs, selling, for four-year-olds, purse \$350. Velox (Stevens, 101) first, easily by three lengths; Little Singer (Gray, 95) second by a neck; Rufalba (Conley, 99) third. Pleasanton, Nonchalance, Florimel, Draught, El Venado, Los Troncos, Durwad, Malplaquet and Rey del Diablo finished in the order named. Time, 1:29½.

Second race, five and one-half furlongs, three-year-olds, purse \$400. Dr. Sharp (Thorpe, 116) first, easily by two and one-half lengths; Official (Gray, 104) second by three-quarters of a length; Martha II. (E. Jones, 105) third. Attainment, La Goleta, Highland Ball, Free Lady and Racio finished in the order named. Time, 1:07½.

Third race, one mile, three-year-olds and upward, purse \$500. The Roman (Conley, 109) first, driving by a nose; Horatio (W. Martin, 109) second by twenty lengths; Red Glenn (Kiley, 111) third. Spunwell broke down. Time, 1:14½.

Fourth race, one and one-half miles, selling, four-year-olds and upward, purse \$400. Argentina (Thorpe, 108) first, easily, by seven lengths; Personne (W. Martin, 110) second by a neck; Charles Reif (Conley, 106) third. Don Clarence, Doyle and Marcel finished as named. Time, 2:35½.

Fifth race, six furlongs, four-year-olds and upward, purse \$350. Cash Day (Thorpe, 107) first, driving by three-quarters of a length; Rubicon (Conley, 112) second by ten lengths; Benamela (Macklin, 112) third. Peril also ran. Time, 1:13½.

Sixth race, six furlongs, selling, four-year-olds and upward, purse \$350. Fashion Plate (Clawson, 104) first, easily, by two lengths; Kamsin (W. Martin, 110) second by three-quarters of a length; Stentor (Corley, 108) third. Mamie Scott, Meadow Lark, Santuza, Walter J. and Alma finished in the order named. Time, 1:15.

TUESDAY, JANUARY 4.

First race, six furlongs, three-year-olds, purse \$350. Einstein (Conley, 105), first easily by five lengths; Duke of York II. (Thorpe, 105), second by one length; Royal Prize (Kiley, 97), third. Aluminum, Donator, Tewrica, Forest Guard, Hertha and Queen Blazes finished as named. Time, 1:16½.

Second race, six furlongs, selling, four-year-olds and upward, purse \$350. Chappie (Gray, 107), first driving by a head; Kaiser Ludwig (Clawson, 110), second by a head; Torsion (Ames, 112), third. La Mascotta, Soniro, Sir Richard, Dolore, Mollie R., Zarro, Southworth, Nic Nac, Ike L. and Esael finished in the order named. Time, 1:15½.

Third race, one and one eighth miles, handicap, four-year-olds and upward, purse \$500. The Roman (W. Martin, 113) first driving by a neck; Fleur de Lis (Shields, 109) second by seven lengths; Tom Cromwell (Thorpe, 112) third. Grady, Double Quick and Los Prietos finished in the order named. Time, 1:53½.

Fourth race, six furlongs, selling, four-year-olds and upward, purse \$350. Miss Ross (Thorpe, 108) first, driving by three-quarters of a length; Harry Thouburn (W. Taylor, 107) second by one and one-half lengths; Hermanita (Shields, 108) third. Lost Girl, Maj. Cook, Geo. Miller, Midas, Dick Behan, Tim Murphy and Emma D. finished as named. Time 1:15½.

Fifth race, one mile, selling, three-year-olds and upwards, purse \$400. Garland Barr (Conley, 104), first, driving, by a head; Myth (O'Connor, 99) second by three and one-half lengths; Geo. Lee (McNichols, 87) third. Shasta Water and Rule also ran. Time, 1:41½.

Sixth race, six furlongs, three year-olds, purse \$350. San Venado (Clawson, 105) first, driving, by a head; Glorian (O'Connor, 105) second by three and one-half lengths; Plan (E. Jones, 102) third. Good Friend, Morinel, Rebel Jack, Novia, Tiger Lily, Irritator and Miss Alice finished as named. Time, 1:14½.

Match race, seven furlongs. Eddie Jones (Thorpe, 104), first, easily, by three and one-half lengths; Torsida (Shields, 109) second. Time, 1:27.

WEDNESDAY, JANUARY 5.

First race, seven furlongs, maiden three-year-olds, purse \$250. Imperious (C. Sloan, 114) first, handily by two lengths; The Dipper (Conley, 115) second by one-half length; Prestar (Thorpe, 115) third. Formella, Himera, Joe Levy, Mainbar, Tom Spencer, Texarkana, Major Hooker and Carlisle finished in the order named. Time, 1:30.

Second race, six furlongs, selling, three-year-olds and upwards, purse \$350. Midnight (Conley, 106) first, driving by a nose; Lucky Dog (W. Martin, 114) second by a head; Miss Lynah (O'Connor, 102) third. Zamar II., Mainstay, Tulare, Abina, Sorrow, Esael and La Loma finished in the order named. Time, 1:14½.

Third race, one mile, selling, four-year-olds and upward, purse \$400. Kaiser Ludwig (O'Connor, 119), first easily by one length; Rufalba (E. Jones, 102), second by two and one-half lengths; Mulberry (Gray, 106), third. Soniro, Atticus, Tobey, Mollie R. Our Climate finished in the order named. Heidelberg and Miss Ruth were left. Time, 1:43½.

Fourth race, six furlongs, selling, four-year-olds and upward, purse \$350. Joe Ullman (Piggott, 109), first driving by a neck; Twinkle Twink (Thorpe, 104), second by three-quarters of a length; I Don't Know (Morse, 114), third. Stentor, Pat Murphy, Cardwell and Malplaquet finished in the order named. Time, 1:15½.

Fifth race, one mile, selling, four-year-olds and upward, purse \$400. San Marco (Thorpe, 112) first, driving by one length; Benamela (Conley, 106) second by a nose; Charlie Reif (Clawson, 101) third. Lena, Little Cripple, Coda and Charles A. finished in the order named. Miss Prim pulled up. Time, 1:42½.

Sixth race, one and one-eighth miles, selling, four-year-olds and upward, purse \$400. Yankee Doodle (Conley, 114) first, all out by a nose; Song and Dance (Spencer, 111) second, by four lengths; Una Colorado (Burke, 111) third. Walter J., Peter II., Can't Dance and Nic Nac finished as named. Time, 1:56½.

THURSDAY, JANUARY 6.

First race, seven furlongs, selling, three-year-olds, purse \$350. George Lee (Clawson, 06) first, cleverly, by one-half length; Attainment (Thorpe, 106) second by one-half length; Dr. Marks (Woods, 101) third. Towanda, Highland Ball, Don Luis, Tiny P., Mordecai, Henry C. Bonito and La Loma finished in the order named. Time, 1:31½.

Second race, five furlongs, three-year-olds and upwards, purse \$350. Tea Rose III (Clawson, 110) first, easily, by two lengths; Count of Flanders (J. Woods, 94) second by twenty five lengths; Bliss Rucker (Meany, 94) third. Bow and Arrow and Mt. Roy also ran. Time, 1:01½.

Third race, two miles, sweepstakes, \$25 each, \$1000 added, special weights. Song and Dance (Spencer, 112) first all the way by seven lengths; The Bachelor (Piggott, 110) second by five lengths; Vincitor (Thorpe, 117) third. Billy McCloskey also ran. Time, 3:36.

Fourth race, seven furlongs, selling, four year olds and upward, purse \$350. Double Quick (Clawson, 100) first, handily by two and one-half lengths; Walter J. (Powell, 100) second by a nose; Harry Thorburn (Thorpe, 106) third. Joe Terry, Red Glenn and Doyle finished as named. Time, 1:29½.

Fifth race, one and one-sixteenth miles, selling, three-year-olds and upward, purse \$400. Plan (Clawson, 91), first pulling up by three lengths; Argentina (E. Jones, 109), second by two lengths; Cant Dance (Piggott, 109), third. Cromwell and Palomacita finished as named. Time, 1:50½.

Sixth race, six furlongs, three-year-olds and upwards, purse \$350. Torsion (Piggott, 109), first driving by a neck; Sorrow (J. Woods, 87) second by six lengths; La Mascotta (Powell, 105), third. Ping, Chartreuse II., Coda, Marcel, Forest Guard, Lady Ashley and Volt finished in the order named. Time, 1:17.

#### Racing in Russia.

It is racing day in Moscow, says the Badminton Magazine. The course is swept clear of snow and follows the wooded shores with red painted railings on each side. On one side is a stand, with seating room for several thousand people, and a special box with tent hangings for the governor general, surmounted by the imperial eagle in gold. In front of this box, lower down, you see the prizes, consisting of gold and silver cups, vases and ornamental pieces, all in Russian style and taste.

The bell rings; the course is cleared by mounted gendarmes, and now the competitors, in due order, take their places in front of the stand, but not side by side, as they always start from opposite side of the course, with heads also turned in opposite directions. The usual race course hum and noise of the betting men are heard and increase in volume as the bell rings the second time. They are off! and the fascination of rapid motion, open air and strenuous exertion throws its spell over the assembly, high and low, for trotting is certainly the most fashionable and beloved sport in Russia. You cannot recognize people just yet; the green fur collars are raised and reach over the fur caps, leaving only red-tipped noses, beneath which appear never-missing cigarettes. The ladies' heads are almost entirely covered with woolen wraps, so here again you can only guess who is who. To a stranger not investing his money in backing his opinion as to winners, the game might seem monotonous enough, as the horses do not finish side by side, but in the way they started. Yet the Russians think differently—and, besides, is there not plenty of vodka and caviar to be had between the races?

Single horses are pitted against each other, drawing light little sleighs, in which the driver is seated low down and far away from the horse, owing to the long shafts, intended to give the horse perfect freedom of action. A whip is not used, but on the reins are metal buckles over the quarters, which are employed instead, and almost all horses run without blinkers.

Sometimes a horse is attached to the sleigh on one side of the trotter, who is between the shafts; he is the pace-maker, and gallops the whole course, whereas, it need not be said, the trotter must not break. Then follow pair horses, harnessed, lastly troikas, with three horses, sometimes four abreast. Troikas are very barbarously gaudy and clumsy things to look at, but exceedingly comfortable all the same.

Driver of the World's Champion, W. W. P. at Two Miles, 4:22 3/4.

FORT WAYNE, Ind., September 25.

I. W. HUGHES:  
Dear Sir—To your question, "Are you pleased with the Speed Sustaining Elixir?" I will say, yes. It cannot fail to become a fixture in all well-conducted trotting stables, for it is an article of merit and does all claimed for it.

Yours truly, F. B. LOOMIS.  
With Du Bois Brothers.

THE revised rule of the American Turf Congress relating to the size of purses which are governed by the populations of the cities where racing is held, reads as follows: "In all towns of less than 500,000 and over 200,000, and for a distance of twenty-five miles from the corporate lines of such towns or cities, no races shall be given any one day for purses or stakes of less value than two hundred and fifty (\$250) dollars each, and no entrance will be charged to such purses unless it be added to the purses. No day's racing shall consist of less than five races. This, however, shall not apply to State, county or district agricultural fairs, where racing is given for a term not exceeding six days, and where not more than two meetings are given in any one year, and no more than two such meetings shall be given over any race track."

FRANK TAYLOR has resigned as trainer of the Santa Anita stable and will turn the horses over to his successor at the conclusion of the present meeting. It is expected that Manager Unruh will appoint Jim Garland as trainer to-day.

CHARLIE QUINN has dropped about twelve thousand dollars in the last few weeks and has taken a trip to the springs to recuperate.

## SPECIAL DEPARTMENT

EDITED AND CONDUCTED SOLELY BY

JOSEPH CAIRN SIMPSON.

**INCOMPREHENSIBLE.**—When a person of more than average mental ability makes mistakes, logically and otherwise, it is usual to ascribe the break to accident. Some of them are so queer, or rather people will accept premises as safely based as that twice two will surely make four, and yet then be without any support. When I first saw the resolution, which followed Major McDowell's address before the Kentucky Trotting Horse Breeders Association, it seemed as though there were palpable errors in the types and that in place of being a manifesto in favor of laying-up heats, after the most successful harness-racing meeting in the history of the sport, that success due to a rigid enforcement of the law, it would be an indorsement of the policy which won the admiration of the horse world, and the sanction of the Kentucky Trotting Horse Breeders Association.

It had the sanction, the late meeting at Lexington demonstrated that the present rules enforced were all that were necessary to make the most successful harness racing meeting ever held in the world. Then, of course, comes the surprise. Major McDowell makes a speech that secured the endorsement of the meeting. The keynote of that speech was that a driver should win the race if it was in his power to do so, "fair play" subordinated to any other tactics that would win.

If laying up a heat gave him a stronger pull, secured him a better show of winning than he could win by "fair play," then he was justified in laying up that heat.

Just as well to state that if an opponent was dangerous he would be supremely justified in taking a wheel off, throwing his adversary over the fence, anything, in fact, that would enhance his chances to win. All right to say that the rules punish fool driving, that if a man fouls his opponent, the laws come in the way of gratifying his propensity for that sort of work.

A far manlier method to gain the ends, when the driver knows that should he endeavor to effect his purpose the other fellow may take his wheel off or throw him over the fence, than the sneak-thief operation of letting his opponent tire his horse out while he rests. But the argument which Major McDowell uses, that it is the "duty" of the driver to win under all circumstances, is so weak that to repeat the opening statement does not require apology. The duty is to win fairly. The Major argues that if one heat laid up will better his chances to win it is laudable to lay up that heat. If that is praiseworthy, then two heats can be laid up, three heats, any number of heats, the driver must be judge, no other person so capable of forming a correct opinion.

And right here, if the Congress next February changes the rule I sincerely hope that the change will be made in accordance with Major McDowell's arguments, and that laying-up heats will be sanctioned.

Not one, two or three heats, follow out the line of argument, and let the driver be the judge of the situation.

Rosh! The great panacea, "shorten the distance," is so absurdly weak that it seems strange to me that it ever secured the support of such a body of men as we all know are members of the Kentucky Trotting Horse Breeders Association. True, emphatically true, that thirty yards will give only about a third of the chance to lay-up that eighty yards secures. Not much relief in ninety feet and the horse that is so near the winner of the heat has not much the best of the mile. But think for a moment. A. has by long odds the best horse in the race. He can shut out all of his competitors when it is to his interest to leave them behind the flag.

The trotting does not suit A. He must manipulate things. He drops his horse just inside the thirty yard limit, once, twice, as many times as he chooses, and then make the "killing." Grant the right to lay up heats and he has the game in his hands. He shuffles, cuts, deals the cards to suit himself and there is no necessity of taking the risk of "ringing in a cold deck."

Again, if the rule the K. T. H. B. A. recommend that the N. T. A. and A. T. A. adopt, restricting the distances in accordance with its advice, in place of membership extending into hundreds, only scores, it may be dozens.

This surely does not require long arguments so sustain the position. Not so long ago when there was a strong effort to reduce the distance from one hundred yards to seventy-five yards. Objections from all sides and the idea abandoned. With thirty yards between the red flag and the stand, the entries so few that associations could not afford to give adequate amounts to secure support, the public so little interested that "a beggarly array of empty boxes" would take the place of the crowds that cheered the honest racing at Lexington. Five yards from the inside position and the horse so unfortunate as to draw that position would be compelled to trot thirty yards further than the pole horse if the place were retained around both semi-circles.

In a field of six horses—and that is the limit for a distance of thirty yards—should all be abreast in going around the turns, the sixth horse would go sixty yards at least farther than the one which drew the inside place. "Bad breakers" cannot be eliminated entirely. The very handiest are liable to make serious mistakes at times, and a loss of thirty yards quite frequently the result of one break.

And then, too, Major McDowell states: "The most important business of a driver is to win the race, and it often happens that this can only be done by judiciously laying up heats, and when such is the case is it not the duty of the driver so to act? And if it is his duty should he be fined or otherwise punished?"

Under that view of the question it is certainly wrong to interfere. "Judiciously laying-up" when there are eighty or one hundred yards to exercise the judgment upon is quite different from the proposed ninety feet, and, therefore, an act of injustice to prevent the driver from availing himself of the opportunities to perform his duty. Preston, as far as I can learn from published accounts, and conversations with those who saw the race, lost The Futurity by laying up the first heat. And there is little question in my mind that numbers of races have been lost, that could have been won, if heats had not been laid up. Hereafter I will copy another part of Major McDowell's address that will hardly correspond with the part quoted in this issue.

The passage of the resolution is readily accounted for, as Major McDowell said: "Mr. Chairman—As I have been selected by about three-fourths of the stockholders as their proxy with power to vote their stock according to my discretion"—it can truthfully be said that the carrying the resolution was due to individual opinion.

Before closing, I shall refer to two subjects which I understand will be presented at this meeting, for the purpose of obtaining instructions to the Board of Directors to adopt them. The first is that no horse shall be permitted to start in a race that wears hobbles. This would make a decided improvement, but it is not for us to make such an innovation. Legislation of this character pertains to the National Association and there is no call on us to lose the patronage and secure the enmity of that large class of owners in whose stables are horses that cannot be raced without hobbles. If the two associations, the National and American, should adopt such a rule, and affix a sufficient penalty for its violation, as to insure its being carried out, it would be hailed with delight, and a resolution from our Association to these National Associations respectfully requesting such legislation would be as far as I should be inclined to go.

The other question is that relating to "laying up heats." That the present rules of the National Associations pertaining to the subject effect no good is well known. The most important business of a driver is to win the race, and it often happens that this can only be done by judiciously laying up a heat, and when such is the case is it not the duty of the driver so to act? And if it is his duty, should he be fined or otherwise punished? Now, take the driver who deliberately lays up a heat, having made his bets so that he will, by such action, certainly win. Is the fine which he is occasionally made to pay such a punishment as would deter a repetition of this action? Of course it is not. So few judges can certainly tell when a heat has been wilfully laid up that the innocent are as likely to suffer by the judges' guess as the guilty. There is, however, one way to effectually break up this practice, and it is the only one that has as yet been suggested or is likely to ever be devised, and this is without exception admitted by all, even by its opponents. I refer, of course, to shortening the distance. Should the distance be thirty yards instead of, as at present, one hundred, no heat could be laid up and every heat would be a race. The best horses could not be trotted to death by a combination, and the spectators would be entertained from the beginning to the end of each race. Trotting horse men are proverbially conservative, and any change will meet with opposition. Some will say that thirty yards is too short; then make it fifty and abolish penalties for laying up heats, for any driver that is artist enough to lay up a heat with a fifty yards' distance should be rewarded for his skill. Let the National Associations adopt a rule of this character and the turf will be relieved of its greatest cause of scandal, and the judges of many difficult questions, and much deserved as well as undeserved criticism.

After the close of Major McDowell's address, the following resolutions were adopted:

Resolved, by the Board of Directors of the Kentucky Trotting Horse Breeders Association that the use of hobbles on horses in races is dangerous to the life and limb of every driver and horse participating therein; that it mars the enjoyment of the public in witnessing such races, and that it works great injustice to those who race horses without hobbles, forcing them to place their lives and property in jeopardy without any compensating advantage whatever.

We therefore respectfully request the National and American Trotting Associations to pass a rule prohibiting the use of hobbles on horses participating in races over the tracks of their respective members, attaching a specific penalty of such severity for its violation as will insure full obedience from each track so governed.

Be it further resolved, That the rules now in force against the practice of laying up heats are ineffectual, and that, as a bar against fraud and the indefinite lengthening of races, they form no protection. The experience of all practical horsemen has shown that there is but one rule that will effectually provide the safeguard desired, and that is to shorten the distance.

We therefore respectfully request the National and American Trotting Associations to pass a rule fixing the distance in races of mile heats between six or less horses at thirty yards; between seven and twelve horses at fifty yards; and between thirteen or more horses at seventy yards, and to affix a specific penalty for the violation of this rule by tracks in membership with said associations of such severity as will insure its strict observance.

\* \*

**HOBBLER AND BOOTS.**—Hobbles it should be though the usual orthography is to use double b in place of double p.

To hobble is to "hitch," to progress at an awkward gait, whereas to hopple is to confine the legs to keep the hopped animal from straying, or to compel a kind of action that the horse will not show unless it is made compulsory.

At the meeting of the P. C. T. H. B. A. Mr. Spreckles advocated the doing away of hobbles and boots on trotting and pacing horses, and made a strong and sensible argument in favor of discarding the "straps."

Boots come under a different category, however, and it is well within the boundaries of truth to say that were boots thrown aside fast trotters and pacers would be reduced to small comparative proportions, and even gallopers, though in less numbers, seriously affected. Quite true that a model road horse is free from leathern or kersey appendages on legs and feet, but a horse that never "brushes a hair" on the road might knock his legs badly on the track. Had the art of making horse boots been undiscovered, or even had the perfection of those of the present day been delayed until the opening of the twentieth century, in place of large numbers that have beaten the record of 2:19½ made by Flora Temple at Kalamazoo in 1859, a beggarly array of inferior horses.

California has gained high renown for the number of fast trotters and pacers bred here in the past twenty-five years.

So many of very high class that it has "surprised the world." "California boots" have also marked a new era in the line of these equipments. Again, safe to say that the only kinds that will meet with the approval and acceptance of skillful trainers are made here, or closely modeled after California patterns. And in this important part of track paraphernalia it is an act of justice to state that John A. McKerron is entitled to the first place among the many worthy members of the craft. Scarcely a single one of the hundreds in use that he has not improved, either in shape or

workmanship, and until Eastern makers emulated his patterns and construction, their wares would not find a market among critical buyers.

The published reports of the last meeting of the Board of Directors are either greatly at fault or my memory is singularly out of joint. The "hobbles" question was not voted upon, "Shorter races in the future," only talked about, laying-up heats not honored or disapproved by a formal vote, and in place of "hereafter book betting will be permitted," as that system of wagering is prohibited by an amendment to the constitution it can only be abrogated at an annual meeting of the association, and in accordance with the fundamental law. A resolution which was carried, without a dissenting vote, at a previous meeting of the Board covered the question of laying-up heats, and I certainly would have been greatly pleased had it again received approval as at the last meeting, twelve of the fifteen directors were present, the only absentees, two in the far East, one in Los Angeles, that being "the record," never before so many in attendance.

As to laying up heats, or at least laying up a heat, the Kentucky Trotting Horse Breeders Association passed a resolution in response to advice from Major McDowell contained in an address, that N. T. A. and A. T. A. be requested to do away with the present rule against laying-up heats and substitute therefore: "A rule fixing the distance in races of mile heats between six or less horses at thirty yards; between seven and twelve at fifty yards, and between thirteen or more horses at seventy yards, and to affix a specific penalty for the violation of this rule by tracks in membership with said associations, of such severity as will ensure its strict observance."

Major McDowell tells: "The most important business of a driver is to win the race, and it often happens that this can only be done by judiciously laying up a heat, and when such is the case is not the duty of the driver so to act?"

Then why interfere if it be the duty so to act, by depriving the driver of the benefit? Or, if laying up a heat is judicious, then laying up two, three or more must be superjudicious, an indication of superlative wisdom that must insure the wonder and homage of all the spectators.

\* \*

**JUBILATE.** Thrice welcome, nine times welcome, more than that the rain that came so gently on Wednesday night. Pattering down on the roof, gently, pleasantly, and yet carrying tidings of great joy to all of us who depend on Providence. I italicize that word, and emphasize it as you may, that is the supreme governor, the genius who controls the world. Good luck or bad luck, one man riding on the high tide of prosperity, the other stranded on the shoals. But the welcome rain! So welcome that there should be shouts of appreciation, paeans to the one who has control of the elements. Jupiter Pluvius! Hurrah for the old fellow who reigned on Olympus. He is not in it with the controller of the weather on this Pacific Coast. He gathers up the vapors from the grand old ocean, distributing it on the land, which grows parched and weary as the sun shines and the northern wind desiccates and dries the surface.

Already the Contra Costa hills are taking on new life. Twelve hours of rain and there is verdure and gladness in place of the sere and brown carpet. Gently falls the welcome drops.

One feels like standing, with bared head and thankful heart, as the water falls, for it means another good year for California, and with good crops even the trotting and pacing horses will spring into prominence. Surely, no need of glowing adjectives, certain as anything in the future can be foretold, harness racing will resume its hold over the people. And without encroaching upon the field that their near kin now revels upon. A glad adjunct to the sports of the turf; the track will present attractions that will entice those who are now devoted to the "legitimate," ready to welcome the other division of horse performers.

\* \*

**WHY THE DIFFERENCE?** There are causes at times that will answer a submitted problem, or, rather, there are reasons that will explain a singularly different state of affairs.

Now, if a person were to state that the harness-racing in California for the past year did not receive the support that was awarded in former years, why the difference?

Something of a problem. A question that very many are interested in.

"Comparisons are odious," the old time copybook headline and yet the only proof that can be given weight is from comparisons.

A good many years ago there was a trotting race called, if my remembrance is to be depended upon, the National Trotting Stallion Stake. There were ten nominations in the stake \$1,000 each. Only three left in and one of those known to be crippled. The gate money was over three thousand dollars. "The public" satisfied that the race would be honestly conducted, and hence the large attendance.

JOS. CAIRN SIMPSON

The report that Sir Walter has been retired and sent to J. B. Haggins' Elmendorf stud farm is denied. The honest little horse was sent to H. T. Headley's Beaumont farm, where he will remain through the winter. He will be raced again next year, though he has certainly earned an honorable retirement.

## TURF AND TRACK.

## THE SULKY.

Now is the time to advertise your stallions.

Hazel McKinney's record is 2:17 instead of 2:15.

The horse known as Prince H. has been sold by F. M. Mosier to Dr. Evans, of Modesto, for \$500.

BOQUITA, by Bow Bells, out of Tosa, 2:19½, dam of Preston, 2:13½, took a record of 2:17½ at Nashville, Tenn., in October.

DR. HOAGLAND, the well-known veterinary dentist, was badly injured by a railroad car in Australia, but he is slowly recovering. He is in Melbourne at present.

THE first appearance of Jasper Ayres, 2:11½, against the old champions of the Boston speedways will be watched with interest. His present owner is John V. N. Stults.

L. A. RICHARDS, of Grayson, is slowly recovering from a long spell of sickness. Mr. Richards has an immense stock and wheat farm, and owns many valuable horses in Stanislaus county.

FLEETWING, the dam of Stamboul, 2:07½, is also the second dam of Oakland Baron, 2:09½, and is the only mare that has produced a 2:10 trotter and a daughter that has produced one in the 2:10 list.

JAMES DUSTIN writes from Winslow, Me., that he has fully recovered from his long illness and expects to get together a stable of campaigners in New York State. His many friends will be glad to know he is ready for the bell again.

JOHN MACKAY, superintendent of J. B. Haggin's Rancho del Paso, made an effort to buy Stranger from his European purchaser at the Kellogg sale, but was unsuccessful. The son of Goldsmith Maid would have been very popular in California.

BROWN WILKES, France's Allie Wilkes, Arguile by Alcantara, and many other stallions of the Wilkes family are getting carriage horses of high class in Ohio. Edge Hill, by Dictator, and St. Bal, by Electioneer, have got many fine park horses.—C. F. Bates.

FOUR stallions by Hambletonian, out of mares by American Star, have sired 2:10 trotters. They are: Aberdeen, sire of Kentucky Union, 2:07½; Jay Gould, sire of Pixley, 2:08½; Squire Talmage, sire of Strader H., 2:09½, and Dictator, sire of Jay-Eye-See, 2:10.

ALTHOUGH very little is apparently being done regarding trotting horse meetings in California, nevertheless, there is a strong determination on the part of horsemen and their friends to have good meetings. The prospects are brighter than they were this time last year.

THREE stallions by George Wilkes, out of mares by Mambrino Patchen, have sired 2:10 trotters. They are: Alcyone, sire of Martha Wilkes, 2:08; Bush, 2:09½, and Harrietta, 2:09½; Guy Wilkes, sire of Hulda, 2:08½, and Lesa Wilkes, 2:09; Baron Wilkes, sire of Oakland Baron, 2:09½, and Baron Rogers, 2:09½.

PILOT JR. sired the dams of more stallions that have sired 2:10 trotters than any other horse, his daughters having to their credit Lord Russell, sire of Kremlin, 2:07½; Nutwood, sire of Lockheart, 2:08½; Pilot Medium, sire of Pilot Boy, 2:08½, and B. B. P., 2:09½; Meander, sire of Pamlico, 2:10, and Nutbourne, sire of Cheyenne, 2:09½.

WORK of training and breaking colts is steadily going on at the Pleasanton Stock Farm by those who have rented stalls and track right. Among the most promising colts being put to the harness, are those by Directum, belonging to Green Estate. They are little wonders for their age. Five of these will be two-year-olds in the spring and the others three.

BY the request of numerous horse-owners it has been decided to postpone the auction sale of trotters and pacers at the Occidental Horse Exchange until Thursday, February 3d. From present indications it promises to be one of the best sales held in years. There is room for a few more good horses and all who would like to dispose of them can learn full particulars by addressing this office.

SECRETARY F. W. KELLEY of the P. C. T. H. B. Association, for some reason forgot to send in a notification of the second payment of the Breeders' Futurity Stake until it was too late for publication in our last issue. This will not do. The columns of this paper are always open for such news, and it should be sent in at least a week prior to the date of closing. There can be no excuse for such an oversight.

C. B. COFFIN, the well-known horse buyer of San Jose, has purchased the handsome black roadsters, Black Bart, 2:29½, and Uprior, a Sidney gelding, one of the finest double teams that ever left Monterey county. Black Bart is by Junio, 2:22, out of Dolly, the dam of Bruno, 2:16½, Altoonita, 2:22, and Lara D., 2:25. His mate, Uprior, is by the great Sidney, out of the mare Surprise by Abbottsford. Uprior has no mark, but has shown trial miles in 2:28. The latter was the property of J. D. Carr and the former of C. Z. Hebert. Mr. Coffin drove the team overland Sunday to San Jose. The price reported to have been paid for this fine team is \$400.

MR. C. X. LARRABEE, who bought the very well-bred stallion Alfonso, for his Brook Nook stock farm in Montana also brought out the following mares, which have arrived safely at his farm, Antonio by Electioneer, out of Columbine by A. W. Richmond, being a full sister to Anteo, 2:16½ and Antevolo, 2:19½. Ruby Allen by Ethan Allen 43, dam Ruby Clay by Cassius M. Clay Jr. A 3-year-old filly by Stranger dam Ruby Allen by Ethan Allen. Ruby Allen is one of the few Morgan mares living, while she is now nearly 23 years of age she is a regular breeder and is in foal to Alfonso. She is the dam of Opal 2:23, and Blarney 2:27½, and the grandam of four in the list.

FRANK FRAZIER, writing us from Pendleton, says that he has found out the cause of Chehalis' lameness last fall. The day before Christmas the quarter he was favoring broke open and let out a lot of gravel and clotted blood, which was undoubtedly the cause of his lameness. Mr. Frazier thinks he got graveled at Spokane, and made all his exhibitions with this trouble bothering him. He is now all right and has every indication of being able to repeat his success on the turf in 1898.

GEORGE WILKES, Henry Clay and Jay Gould have each sired the dams of two sires of 2:10 trotters, daughters of George Wilkes having produced Keeler, sire of Onoqua, 2:08½, and Hummer, sire of Bouncer, 2:10. Daughters of Harry Clay produced Electioneer, sire of Arion, 2:07½, Sunol, 2:08½, and Palo Alto, 2:08½; and daughters of Jay Gould produced Edgardo, sire of Tomah, 2:10, and Boodle, sire of Ethel Downs, 2:10. No other stallion sired the dam of more than one sire of 2:10 trotters.

THE late Dr. Herr always claimed that Betty Brown, Timothy Anglin's great mare, was an accident. He stated to the writer that Mr. Anglin sent him over a mare with the word to breed her to his best horse. Dr. Herr considered Mambrino Patchen such, and Pickles, for she proved to be, was accordingly bred to a son of her own sire. Whether or not Mr. Anglin would have so bred the mare had he been present, is a matter of conjecture. Today it would not be far out of line, but the owner of Mambrino Patchen stated often before his death, and that in the face of Betty Brown's great success in the harem, that he would never have thought of making such a combination had he known that both were by Mambrino Chief.

JACK DALTON, the well-known Alaska prospector, after whom the Dalton trail is named, in an interview speaking of the proposed relief expedition of the United States Government to Alaska, said: "The proposal to use reindeer teams does not strike me as being the right thing. Horses can be used to so much better advantage. Instead of reindeer the department ought to get together a large number of hardy horses, sufficient food should be taken along to feed them, and they could do much better work than reindeer. I would use sleds for carrying the food for the men and provender for the horses. To handle a reindeer expeditiously it would be necessary to have relay stations established a day's journey apart, with food for the animals at this station."

A COMMITTEE was out yesterday soliciting subscriptions for a fund to insure the maintenance of the Chico driving park during the coming year. For a number of years H. A. Sanborn, the owner of the track, has received no revenue from the track and concluded to plow it and clear away the buildings this winter. A number of the local people decided to check the progress of destruction, as they believe that the appropriations for annual fairs will be resumed under a new administration, and to lose the track now would mean that a new track could not be built for many years. Mr. Sanborn reported that for \$125 he would allow the track to remain in form and will maintain the building intact. Yesterday there were sufficient funds raised to insure its maintenance.—Chico Record.

THE Salt Lake Tribune has this to say regarding a possible meeting at that place in 1898: "The announcement that next year there will be no harness races at Butte or Anandona has caused local horsemen to discuss the possibility of having a summer meeting in Salt Lake for the pacing and trotting contingent. The harness horses that have heretofore gone over the Montana circuit have been exceptionally high class; and as many of them never leave the Northwest, they will have considerable spare time, unless the Montana dates are filled in. Opinion is that if the Salt Lake mile track were repaired and the enterprise put in the hands of an energetic management, a meeting could be held here that would be profitable alike to the promoters and horsemen. It is a matter of comment throughout the West that no other town in the country of the size of Salt Lake fails to support a race course. Locally, horse affairs are quiet, but there is a rumor that H. W. Brown contemplates cutting a swath on the Grand Circuit next year, and will take Altoka along to show the Easterners how to go."

IT is not very often that a trotting horse rubber accumulates enough money at his trade to be considered wealthy, yet there are exceptions. The most noticeable one on record, without a doubt, is the case of Lucy Jimmy, who is now in a Catholic home for aged people in this city. No history of the American trotter would be complete without mention of Jimmy. Splan tells many amusing stories about him in "Life With the Trotters," and says it was Jimmy who first taught him to do up a trotter. All the latter part of his life he was with Hickok, and he had no other home except a trotter's stall until some two or three years ago, and not until his eyes failed him and caused him to lose his tools in the stall did he tell Hickok he was ready to quit. He was earning \$40 a month the year around, and as his wants were few and he made enough on the side to supply them, he saved all his salary. He would sometimes go two or three years without drawing out over \$15 or \$20, and when he retired from business Hickok estimated that Jimmy was worth upwards of \$25,000. A good share of this was saved out of his life's earnings, and fortunate investments in real estate made him the rest.

DURING the recent Splan-Newgass sale the Kentucky trainers Joe Thayer and Dick Curtis both informed me, says a writer in Horse Review, that the scarcest article in the Kentucky horse market just at present is extra good young stallions. Mr. Thayer informed me that he was a buyer for several such, but only knew of one desirable article that could be bought in the State. During the recent depression in horse values the knife was probably used more extensively in Kentucky than anywhere else, and some breeders even gelded all their horse colts, regardless of breeding or individuality. But there are other causes for the present scarcity of young stallions besides this. The coach horse dealers have scoured Kentucky and every other trotting horse state this side of the mountains for young, sound stallions. Stallions have more substance and better necks than mares or geldings, and as stags they make the finest coach horses in the world. Only a week ago one of the largest dealers in coach horses in this city informed me that he was thinking seriously of taking a trip to California to see if he could pick up about 100 trotting-bred stallions, and this demand is just at present thinning them out at a very rapid rate.

Among the miscellaneous consignments to the Splan-Newgass sale, February 22d are the superb road gelding Wilkieras 2:26½ and the beautifully bred Don Lowell 2:14½, Trafton 24,904, by Robert McGregor, dam of Red Wilkes; 2nd dam by American Clay, and Senator Holcomb by Trafton dam by St. Just; 2nd dam by Onward; 3rd dam by Bayard Jr. Caton Stock Farm has drafted 25 head from its collection, all available, and in the near future Splan & Newgass will make announcement of several highly sensational entries.

I TAKE the liberty of looking through your list of sires that have contributed performers in 2:30 and better in 1897, and from which to compile the following facts: There are, I see, all told, 1,621 sires in the list that have contributed one or more to make new records in 1897, and out of this number of sires 697 have themselves made records on the turf, all the way from 1:59½ to 2:30; but there is no evidence that some, if not all, of the 924 sires that did not enter the list could not have done so if given a chance. Nevertheless, to give you the benefit of my further search, of the 84 sires that contributed five new record-makers in 1897, 64 made records themselves. And to carry the argument still further, of the sixteen sires that gave us ten such record-makers in 1897, thirteen have records; and to still further enlarge the majority, as we increase their number, the two sires that had twenty or more such performers in 1897 both have fast records; and Allerton, who excels all his competitors this year with twenty-eight such performers, himself has a record of 2:09½, and comes of a family of record-makers and record-breakers, his sire being Jay Bird, 2:28½, son of Geo. Wilkes, 2:22, dam by Mambrino Boy, 2:26½, second dam by Geo. Wilkes, 2:22, the dam of Jay Bird, by Mambrino Star, 2:28½; second dam Lady Franklin 2:29½.—Frank H. Dunton in Horse Review.

IN discussing the hay market of Greater New York the Hay Trade Journal says: "It is generally well known that in the past few years a great change has taken place in the motive power of the street railways of the country, and that the horse had been gradually eliminated from the service, electricity and cable taking his place. There can be no doubt that a conservative estimate as to the number of horses displaced by this means throughout the country is considerable, and would not fall short of 100,000, and range from that to 125,000 to 150,000. In the Greater New York this substitution has been fully as great in proportion as in other cities. Has the consumption of hay decreased on this account? has been the question most often asked. While it no doubt has to a more or less extent in some cities, we are inclined to the belief that here the consumption is fully as great as at any former period. The horses that have been taken from the surface railways have been replaced by others, not in the same line of work, however, but by the increase of manufacturing enterprises and other lines of business, and also the increase in population. The keeping up of the ratio of receipts would seem also to indicate that as far as the introduction of electricity or cable as a motive power, or the bicycle as a means of locomotion, the consumption of hay has not been decreased."

NEARLY all of the old horsemen of Ashtabula county will remember the gray gelding, Spile Driver, owned in 1851-52 by James Culver, of Ashtabula. This old-timer's "face was his fortune," as he was entirely without pedigree, which could be traced no further back than his own birthday, but he certainly had an unusual amount of speed for those days. An old resident of Ashtabula gives the following account of one of the incidents in his career: "Although badly afflicted with string halt, one of his most interesting feats of speed took place when he was about twelve years old, when he was driven over the snow for a wager of \$100 to beat three minutes, which he did by going in 2:42, notwithstanding the fact that he was drawing a heavy cutter that contained two men, the timer, who sat in the rear end of the sleigh with his watch, and the driver." In 1853 Spile Driver was sold by Mr. Culver to Chicago parties, at what was termed a "Shylock" bargain, that is, by weight at one dollar per pound, and as he weighed over 1,010 pounds, he brought his owner the nest little sum of over \$1,000. From Chicago he was shipped to St. Louis, where he got a mark of 2:26½. From there he was taken to California, being one of the first race horses sent into that section of the country. This was his last journey save the one inevitable, for he died soon after being taken to this western land."

THE owners of the Oakland race track have been negotiating with the controllers of the Pleasanton Stock Farm for the purchase of the Pleasanton track with the idea in view of establishing winter training quarters here for their stables. Failing to reach satisfactory terms they have made a bid for a tract of the Bernal property, and if the deal can be closed up, as it most likely will be, the gentlemen behind the scheme will build a new track, stables, paddocks, etc. Colonel Dan Burns, Tom Williams and a Mr. Waterhouse are the parties who desire to locate here. All are owners of valuable racing stock and possess ample fortunes. Mr. Burns has wintered his string near San Jose and Tom Williams has kept his blooded stock at the Winters track. The gentlemen state that Pleasanton has better advantages for handling horses during the winter than any other section of the State. They have tried many places but find that horses here show up to better advantage at the opening of the season than any others. The first proposition to locate here was made several weeks ago, upon which occasion Col. Dan Burns personally visited Pleasanton and looked over the ground. Since then negotiations have been going on through an agent of the gentlemen named. We are informed that while the parties would have preferred to purchase the Stock Farm track they found they had so many different people to deal with in order to get it or even a price fixed on it that they gave it up and turned their attention to a piece of the Bernal property lying south of the Dublin road. The track is large and level and admirably adapted for the purpose of a racetrack. The agent tells us that his principals are determined to locate here, and will unquestionably do so, if they can get the land they are after at anything like a reasonable figure. As Messrs. Burns, Williams and Waterhouse are men of means the locating of their stables here would be a matter of very great benefit to Pleasanton. It would bring much money into town besides giving Pleasanton a big advertisement among the horsemen all over the country. Nothing should be thrown in the way of the gentlemen. Pleasanton should extend the "glad hand" and welcome them.—Pleasanton Times.

## THE SADDLE.

JUDGE JOHN J. CARTER, associate judge at the Oakland track, is to officiate next season as judge on the Canadian circuit.

DAN HONIG spent Sunday at A. B. Spreckels' Napa stock farm, which he pronounced one of the best-equipped that he has ever seen.

O'CONNOR, who is not much more bulky than a pint of cider, is a very clever young rider. Twice yesterday he was beaten but a head—on Myth and Glorian.

R. STANLEY claims the name of Cambist for the chestnut gelding by Rio Bravo out of Irene (dam of J. O. C.) that he purchased at the Kerr yearling sale of November 22, 1894.

STEEPLECHASE JOCKEY MARTINUS had a close call Dec. 31st. While schooling Veragua through the field he collided with Captain Rees. He escaped with a broken kneecap.

THE Rossingtons were very much in evidence Saturday, Miss Ross and Traverser, winners of the first and second races, being by the English horse, who is nearly a full brother to Ormonde.

THE Eddie Jones disqualification Saturday was the first under the new rule giving the judges power to put a horse back second or third, or as far as they see fit, according to the amount and kind of bumping indulged in.

W. LAKELAND is gathering together a select string of horses belonging to Marcus Daly for the Eastern races. Hamburg, Ogden and several promising two-year-olds are already at Lakeland's stables at Brighton Beach.

HENRY MARTIN, who was badly kicked at the post in the first race Saturday, is getting along well, and, barring the loss of blood, the crack lightweight is practically all right again. He will be in the saddle in a few days if nothing goes wrong.

AT Gravesend the leading subject talked about by trainers is the form shown by P. J. Dwyer's colt Miller, by Hindoo—Bonnie Gal. He moves easily and has already shown great speed. Frank McCabe says he thinks that Dwyer has got another Hanover.

JOCKEY EUGENE VAN KEUREN, who will be seen in the saddle next week, gained great fame when riding for the Santa Anita stable several seasons ago. He won the American Derby with Rey el Santa Anita and also captured several other classic races.

THE most highly tried two-year-old of the season is a chestnut filly, recently owned and trained by Owen Bradley, of Lexington, Ky. Last month on the Lexington track she ran three furlongs with 115 pounds up in 0:35½. C. T. Patterson paid \$3,000 for that filly.

SIR WALTER, the great little Midlothian horse that has just been sent to Kentucky, won \$119,750 upon the turf of this country. He was victorious in 35 races 17 times second, 17 times third, 16 times unplaced. As a two-year-old his earnings footed up \$41,745.

THE highest price paid for a yearling during 1894 was \$10,000 for Method, by Order—Victorine, a full brother to Ornament, bought by J. S. Curtis. He is a grand-looking colt, and bids fair to make a name for himself. J. W. Rogers, who trains for Mr. Curtis, pins his faith in him.

ADAM BECK, the London (Ont.) horse-owner, bought the much-used two-year-old Judge Wardell from "Virginia" Bradley at the close of the Pimlico meeting. Judge Wardell beat Presbyterian at Harlem in a five-eighths race last summer, but was disqualified for fouling that horse by Judge Clark.

JAMES ROWE has his eye upon several of the big two-year-old stakes of 1895. He relies upon two colts and a filly the get of Juvenal—Retaliation, from Bassinette, and a chestnut colt from Mag. That his trainer thinks well of this youngster is proved by the fact that he states \$10,000 would not buy him.

MANAGER UNRUH has satisfactorily negotiated the sale of most of the Santa Anita youngsters that were brought up last month. The following colts have been sold: Rey d'Amour, San Laredo, La Condesa, Magno, Magdalinas, Rio Chico, Formoso, Alcalins, San Augustin, La Petaca, Salinas Cruz, Cazadero, Mocerito, De Los Reyes.

THE first foal of the year, at least the first heard from, was dropped at the Menlo Park Stock Farm at 12:10 on New Year's Day. A little close on time, but luckily on the right side. He is a chestnut colt by St. Carlo, from Bud, and judging from the present value of the Carlos was as nice a New Year's gift as Mr. Macdonough could wish for.

OUT in Montana Marcus Daly has a regular "corker" in preparation—a dashing colt by Goldfinch—Carina. Matt Byrnes says he is as fine a looking colt as he ever laid eyes on. Mr. Daly paid \$8,600 for him. Some good horsemen say that the good form shown by this youngster was a leading inducement for Mr. Daly to purchase Hamburg, and that he is sure that he has two winners for next year.

SALVADO, who recently lowered the California records for a mile and a sixteenth and a mile and a furlong, is on the shelf. He pulled up lame after his phenomenal race. It was supposed then that he had bruised his foot on a stone, but it turns out that the good Salvador colt has an enlarged tendon. The middle tendon of the near fore leg is in such a shape that Harry Mason will be lucky to get him to a race in April.

SIR WALTER, one of the gamest horses that ever earned brackets, was retired to the stud on Tuesday after a campaign on the running turf which has few parallels. He will be eight years old on January 1st, so he leaves a racing record behind him extending over five years, and yet when he left Morris Park he was without a blemish. He was shipped to Kentucky, and his destination is said to be Elmendorf stock farm. This is now the property of J. B. Haggis, who bred Sir Walter and who also owns his sire, imp. Midlothian.

RECENT advices from Memphis, Tenn., are to the effect that John W. Schorr & Son's good two-year-old Presbyterian has broken down and has been turned out on the farm of his owners. Presbyterian is a bay gelding by imp. Prestonpane, dam Dareka, and though his right foreleg has been under suspicion for some time, he was a consistent performer and won a number of good races.

BURNS & WATERHOUSE have claimed the following names for foals of 1895, and they are so registered with The Jockey Club: Goldscratch, gr c, by imp. Goldfinch—Helen Scratch, No. 9103; Baneowar, br f, by imp. Stromboli—Guidon, No. 7840; Odd Eyes, b f, by imp. Stromboli—Lake County, No. 7838; River King, ch c, by El Rio Rey—Calamity, No. 9385; Whaleback, b c, by imp. Dancombe—Orange Leaf, No. 7830.

D. GIDEON's California string is made up of Leedsville, Distinction, Colonial Dame, Eakins, Ludwigshafen, Wasteful and Ballister. Outside of Leedsville, none of the horses named have apparently done enough to justify the expense of their transportation to California, but Gideon knows a thing or two about racing and would be likely to make even the unlikely ones win before he returns to New York next spring.

THE names for the three Ormonde yearlings not heretofore named, have been selected and accepted by the Jockey Club as follows: Bay filly out of Dizzy Blonde, Golden Locks; by filly out of Marilee, Orellana; brown filly out of Jong-leuse, Orsini. The yearling filly out of imp. Windflower by St. Carlo, has been named St. Zephyrine. She was not offered at the last sale, being reserved by the owner for the stud. This filly is a full sister to Tiger Lily. Judging from her royal breeding, she should be a worthy mate for Ormonde.

G. WALBAUM, the managing director of the Saratoga Association, departed Tuesday on his annual winter trip to California. On his way he will stop off a few weeks at the Hot Springs. Before leaving he approved of the new list of stakes, which will probably be made public within a week. Most of the events are a departure from the guarantee plan. The stakes will number about fifteen. Inasmuch as Saratoga is bound to have a certain number of clear days, so as not to conflict with Brighton, many Western stables are likely to be sent East.

THE match race between Torsida and Eddie Jones resulted in an easy victory for the Burns colt, who made all the running and won pulled up. The jockey club took no cognizance of the race, which was a private match and entails no penalties on the winner. Ab Stemler, by Holly and C. T. Boots officiated in the judges' stand, while James F. Caldwell handled the flag. Judging from the handy style in which Eddie Jones won, in 1:27, which equals the track record, he should be a pretty good thing in some of the stakes in which he is entitled to a maiden allowance.

JACK ATKINS had another piece of bad luck Monday. Spunwell was a good three lengths in front of his field when they hit the backstretch, but before a furlong had been passed he stopped as though shot. It turned out that the good three-year-old had broken the small bones in the near foreleg, and with the best possible luck he may be good enough for a saddle horse. Atkins has had hard luck for several seasons. Scarborough won the Derby and looked like being a first-class stake horse, but was so badly injured that he has never shown the same form. Belle Boyd won a mile and a furlong so easily that \$4,000 was offered for her and refused. In her next race she was cut down and has never shown any decent form since. Atkins refused \$3,000 for Spunwell last week and thought he had another Derby horse.

O'CONNOR, the feather-weight jockey, who rode Attainment for the Jennings confederacy last Monday, made a reputation in the East last summer. Dave Gideon put the boy up in a selling race at a mile and claimed an apprentice allowance of five pounds on Leedsville. Twelve good players were entered, and, after making all the running, O'Connor won on Leedsville, with Rubicon, ridden by Todd Sloan, at his neck. Libertine, with big Bill Martin was a close third. Break o'Day, Rey del Tierra, Bernardillo and other good race horses were among the beaten crowd. After the race Tommy Griffin claimed Rubicon from Pittsburg Phil. As Pittsburg Phil (George Smith) was accredited with losing \$20,000 on the race, he was not in a very amiable mood and is said to have made unfavorable comparisons between O'Connor and Sloan.

A FEW more farces like Saturday's steeplechase (?), and that end of the racing game wouldn't have as much drawing power as a mild flaxseed poultice. It is not quite clear why an experienced rider like Stanford should go around a fence with such a good timber-topper as Silverado when the field is a small one and there is a leader to show the way. Then, too, so much time was taken in returning to the fence that one thought of funeral gait, snails and a few other speedy things. Couldn't there be anything in Capt. Rees' running out of the course calling for a tidy little reprimand, if nothing else? What's the matter with instructions, too, about the course the rider should take? Reno must have finished a mile in front of Esperance, who was nearly as far before Silverado. And if a ballot were taken we feel pretty sure that the horse securing third money would be voted the best "lepper" in the bunch, and we're not so sure that Capt. Rees wouldn't be selected for second place.

THE Pacific Coast Jockey Club has issued the following notice to trainers and owner: "On and after January 1, 1895 the jockeys' fees for a losing mount must be paid to the Clerk of the Scales, who will give a receipt for the amount, before the jockey will be allowed to weigh out for the race in which he is to ride, unless there is a contract or special agreement in writing, wherein the payment for winning and losing mounts is otherwise provided for, a copy of which must be filed with the Clerk of the Scales. The fees for losing mounts are as follows: In purses where first money is less than \$500, \$5; in purses where first money is \$500 or more, \$10; in hurdle and steeplechase purses, \$15; in hurdle and steeplechase stakes, \$25. An additional fee for the winning jockey will be deducted from the purse or stake as follows: In purses where first money is less than \$500, \$10; in purses where first money is \$500 and in stakes, \$15; in hurdle and steeplechase stakes, \$25. Failure to comply with this rule will cause the horse to be scratched and the owner fined."

NEW YORK, January 3.—At a meeting to-day of the directors of the Horsemen's Protective Association a resolution was adopted excluding jockeys and trainers, unless horse-owners, from membership in the association. Matthew Byrnes was elected a director. As a result of the resolution adopted the resignations of several jockeys and trainers were handed in and accepted. Jockey Frederick Littlefield, who has been employed by A. H. and D. H. Morris for many years, not only resigned from the Horsemen's Protective Association, but also gave up his position. Criticism because of his connection with the association is said to be at the bottom of his action.

NEW YORK, January 3.—A dispatch to the "World" from London says: Where Todd Sloan will ride this year has not yet been settled. The little American is now trying to get the Fleischmanns to release him, so that he can ride in England. Lord William Beresford and Pierre Lorillard have offered him \$15,000 for first claim on his services for the season of 1895. Sloan has been holding out for \$20,000, a sum Lord William is willing to give, but which Lorillard objects to. Sloan has gone to Florida to see Lorillard and try to arrange to get his release from the Fleischmanns. It is understood that another prominent English turfman has made Sloan an offer of \$7,500 for second call on his services. This man, it is said, is close to the Prince of Wales, and it is this offer that probably started the report that Sloan would ride in the Prince's colors. One thing is certain that if Sloan returns to England he can ride in every race every day if he wishes to. He will have his hands full, and will have to use much discrimination in accepting the mounts offered him.

THE Santa Anita stable, owned by E. J. ("Lucky") Baldwin, has been one of the most famous in American turf history, and won most of the big stakes East and West. Trainers, somehow or other, never seem to stay long with the millionaire turfman, who is constantly changing his management. Albert Cooper, Bob Campbell, Counsellor Bill Brien, McDaniels, Sam Hildreth, Taylor and Dow Williams have in recent years handled the stable for short periods, and nearly all have had more or less trouble. This fall things have been unpleasant all round and Manager Unruh, George Baldwin and Trainer Taylor were called up some few days ago to fix the responsibility of the different departments. They stated to the officials that Taylor was to be held responsible for the racing of the stable. It was current gossip then that Taylor would resign, but affairs were patched up for a time. It is now definitely stated that Mr. Unruh will assume the entire management of the stable, and he last night held a conference with Jim Garland, who will probably take charge of the stable today.

RECORD-BREAKING performances in 1894 were few in number, a suggestion that our best performers were hardly up to the average of recent preceding years. The records at one and one-half and one and three-quarter miles were cut down, and that at six furlongs was tied. None of these performances were by Eastern owned horses. Scoggan's smart filly, Flora Louise, a phenomenon of speed under light weight, tied O'Connell's six furlong record when she traversed the distance in 1:12½ at Harlem, September 30th last. The Western owned Ben Holladay put a notable performance on record at Morris Park, October 23d, when he wiped out Hotspur's long standing mark for a mile and three-quarters and put the new figures for the distance at 2:59½. Buckwa won new honors at Oakland the day before Christmas, when he easily cut a half-second from the record of 2:32½ for a mile and a half, held jointly by Lamplighter and that sulky old rogue, Evanatus. Of the three performances, Ben Holladay's was in every sense the most valuable, because over a longer distance he carried 118 pounds and ran practically as fast as Buckwa did, when with only 103 pounds in the saddle he broke the mile and a half record.

ST. LOUIS, Mo., December 29.—Uncas, the last surviving son of Lexington, died suddenly on Christmas day at Bryan Obear's Goodrock stud, near Crescent, Mo. The cause of his death is unknown, but it is thought to be due to the rupture of a blood vessel. Although nearly 22 years of age, he was unusually active and playful, and since his arrival last October at his new home had increased in flesh. The bad weather of the past ten days necessitated his being kept indoors, and Christmas afternoon, upon being turned out, he gave free vent to his love for play in caper. In the height of his enjoyment he suddenly paused, then fell forward, arose to his feet, and sank down sideways, dead. Uncas was purchased from his breeder, A. J. Alexander of Woodburn stud, Kentucky, by D. D. Withers, when a yearling for Mr. Pierre Lorillard, in whose colors he raced, winning the Kentucky stakes and two other starts as a two-year-old. He had sired some of the leading brood mares in the country. Among them are Cascade, Prudence, Uproar, Wigwam, Majolica, Trill, War Paint. Three of his yearlings have been registered this year—b f Uncette, Jam Juliette; b c Autumn, dam Meadowdale and b c unnamed, dam imp. Born Fool. D. D. Withers was the man who built the new Monmouth track.

FIVE of the horses owned by Marcus Daly, the purchaser of the celebrated colt, Hamburg, arrived at William Lakeland's stable at Brighton Beach early yesterday morning. Among them is Ogden, the winner of the Futurity and the Great Eastern Handicap in 1894, and it goes without saying that he will be in all the important handicaps at Brooklyn, Morris Park, Sheepshead Bay and Brighton, and possibly at Saratoga, for there is a sentimental reason for entering him there, inasmuch as he was trained at the Spa for the greatest race that he won. Among the lot is the colt by Goldfinch out of Carita, the dam of St. Carlo, for whom Mr. Daly paid \$8,600 at public sale. Mr. Daly, now that he has got rid of a lot of his stock, which may prove useful in other stables and other studs that are run on a less extensive scale, is branching out anew, and in Mr. Lakeland he has not only a capable trainer, but a conservative and experienced adviser so far as breeding is concerned. A Lexington dispatch this morning says that Mr. Daly, through Ed. A. Tipton, has purchased the broodmare Shipmate, dam of First Mate, for \$8,000. She is a young mare, bred by Mr. Keene. She is by Spendthrift, out of Messmate, she by Alarum, out of Full Cry, by Vandal. Mr. Daly is strongly impressed evidently with the value of the Vandal blood, whose fountainhead in this country was Glencoe. Hamburg is a great-great-grandson of Vandal, and he is destined to take the premiership of Mr. Daly's stud after his racing career is finished. N. Y. Commercial Advertiser, December 20th.

# THE WEEKLY BREEDER AND SPORTSMAN

WM. G. LAYNG, EDITOR AND PROPRIETOR.

\*

The Turf and Sporting Authority of the Pacific Coast.

— OFFICE —

No. 313 BUSH ST., SAN FRANCISCO  
P. O. BOX 2300.TERMS—One Year, \$3; Six Months, \$1.75; Three Months, \$1.  
STRICTLY IN ADVANCE.

Money should be sent by postal order, draft or by registered letter addressed to Wm. G. Layng, 313 Bush St., San Francisco, Cal.  
Communications must be accompanied by the writers' name and address, not necessarily for publication, but as a private guarantee of good faith.

San Francisco, Saturday, January 8, 1898.

## St. Louis to the Front Again.

The most substantial fair association, in a financial way, is the one established more than half a century ago at St. Louis. In keeping with its standing in this respect, the association now announces eighteen rich stakes, to be run during the spring, summer and fall meetings of 1898, also the St. Louis Derby for 1899. Following is the list:

The Inaugural (a handicap for three-year-olds and upwards), one mile, is worth \$2,000. The Debutante (for two-year-old fillies), for four and one-half furlongs, \$1,500. The Kindergarten (for two-year-old colts and geldings), five furlongs, \$1,500. The Junior Championship (for two-year-olds), five and one-half furlongs, \$2,000. The Memorial (a handicap), five and one-half furlongs, \$1,500. The Club Members' Handicap (for three-year-olds and upward), one and one-quarter miles, \$2,500. The Brewers' (handicap for two-year-olds), six furlongs \$1,500. The Mississippi Valley (a selling sweepstakes for three-year-olds and upwards), one mile, \$1,500. The Maramec (a selling sweepstakes for three-year-olds and upward), one mile, \$1,500. The Laurel (a handicap sweepstakes for three-year-olds and upward), six furlongs, \$1,500. The Missouri (a selling sweepstakes for two-year-olds), six furlongs, \$1,500. The Independence (a handicap sweepstakes for three-year-old and upward,) mile and three-sixteenths, \$1,500. The Mound City (a selling sweepstakes for three-year-olds and upwards,) one and one-eighth miles, \$1,500. The Golden Rod (for three-year-olds that have never won a stake of more than \$1,500), seven furlongs, \$1,500. The Ozark (a handicap for two year-old colts and geldings), six furlongs, \$1,500. The Isabella (for two-year-old fillies, five and one-half furlongs, \$1,500. The Chrysanthemum (a handicap sweepstakes for two-year-olds), one mile, \$1,500. The St. Louis Derby for 1899 (for three-year-olds, foals of 1896), one and one-half miles, \$3,500 added.

Eighteen stakes, ranging in value from \$1,500 to \$10,000, horses of all ages, from two years old up, provided for, the distances in the various events ranging from four and one-half furlongs to a mile and one-half. Surely such stakes should meet the requirements of the most exacting.

We shall be greatly disappointed if a long list of entries from San Francisco is not sent in. Entries to all close January 15, 1898, and entry blanks will be forwarded on application. Communications should be addressed to Robert Aull, President, Fair Grounds, St. Louis, Mo.

## Louisville's Liberality.

Perhaps the most pleasant spot in the South is Louisville, Ky., and her jockey club has long been regarded as the most substantial, liberal and enterprising of any in the Southern States. It was in 1897 that the three-year-old stake, now most talked about in America, was first run and won—the Kentucky Derby. The winner was Aristides, the "little red horse" from the stable of Col. Price McGrath. Since that time the great event has been won by such celebrities as Vagrant, Lord Murphy, Fonso, Hindoo, Leonatus, Buchanan, Spokane, Azra, Holma and Ben Brush, while the Merchants' Handicap, Clark Stakes and Kentucky Oaks also brought to the post many of the most famous racers the Middle West has ever known.

The 1898 spring meeting bids fair to equal any that have preceded it in point of excellence, and eleven stake races will be run in the fifteen days, beginning May 6th. Besides the Kentucky Derby (\$5,000), Clark Stakes (\$4,000) and the Kentucky Oaks (\$3,000), which have already been closed, the following stakes are opened, entries to which close January 15th:

The Debutante Stakes, for two-year-old fillies; four furlongs, \$1,300.

The Wenonah Stake, for two-year-old colts and geldings; four and a half furlongs, \$1,300.

The Louisville Handicap, for three-year-olds and upwards; one mile, \$1,500.

The Blue Grass Stakes, for three-year-olds that have not won a sweepstakes or two races prior to time of entry; six and one-half furlongs, \$1,200.

The Mademoiselle Stakes, for three-year-old fillies; seven furlongs, \$1,300.

The Premier Stakes, for three-year-olds; one mile, \$1,300.

The Frank Fehr Stakes, for three-year-olds and upward, selling; one mile, \$1,300.

The Juvenile Stakes, for two-year-olds, selling; five furlongs, \$1,300.

Read the advertisement in this issue, get a lot of the blanks in this office, and send your list of entries on to popular Secretary Charles F. Price, Louisville, Ky., mailing them not later than January 15, 1898.

## Of Interest to Horsemen.

When M. W. Dunham of Wayne, Illinois, was on a visit to this coast, last spring, he did not hesitate to point out facts regarding horsebreeding to all who were interested in the subject. With the editor of this paper he visited J. Parrott's farm at San Mateo, and the one adjoining it belonging to W. S. Hobart, and to these gentlemen, as well as others, he explained his views which he repeated in the Christmas number of the leading stock-breeding journal of America "The Breeders Gazette," published in Chicago. As he is practical in everything he does and says, his words are well worth copying.

By my experience of the past year I am able to report indications of renewed interest throughout the country. Farmers are beginning to realize that they will be short of horses for their own use before they can grow them of sufficient age for service. Breeding solely to supply the city or foreign trade is occupying less attention now than for many years. Self-protection against the effects of the past five years' suspension of breeding seems to be the lever that is forcing the reactionary activity. The mania to sell every horse not actually in daily use is passing; the talk so often heard about the folly of breeding when one could buy a horse for less than the cost of year's keeping of a colt is not so often heard. The wonderful shrinkage in numbers of horses reported in every State and Territory, the sale of the best mares, the disappearance of a very large per cent of the good breeding stallions are facts that are being forcibly impressed upon the minds of our people. They are beginning mentally to grasp the situation in all its detail; many are making logical use of facts that heretofore have but slightly impressed them.

Sow wheat and in six months the product is ready for market; it is therefore easy to keep in touch with supply and demand; but to breed a horse ready for market it takes five years. Where the day of conception and marketing are so far apart there is great danger that the breeder will not take into full account the intervening conditions. All do not yet realize that we are now using only horses that were grown during the boom days or flood-tide of that wonderful period of horse-breeding when every man bred every mare possible, and there were stallions enough in every neighborhood to supply everyone. The horses that must supply the demand for the next ten years will have been bred during a period of the lowest relative production ever reached in this country. If prices have been low during the consumption and marketing of our five years of unprecedented, over-production, a most violent reaction must occur during the time when our supply is being drawn from products of five years of the colt crop.

If every man will take an account of stock to ascertain whether he has sufficient horses to last him until he can raise others old enough for service, I venture the assertion that there will be tens of thousands who will find that they will have to buy horses before they can supply themselves by breeding if they begin in the spring. It has been easy to buy when everybody wanted to sell, but it will be expensive to buy when so many former sellers become buyers instead.

THE sale of trotters and pacers which has been postponed until February 3d, promises to be the best held in this city. There is a good demand for first-class horses and with those already consigned, owners are assured that there will be many buyers in the pavilion when Mr. Fitch begins to call for bids. There has not been many successful sales in the middle of January even during the most prosperous era in the light-harness horse industry in the State and as buyers who are looking for good material for the track and road are almost sure of finding the roads in perfect order after the heavy January rains, they are more than anxious to speed good horses over them. The prospects for a good season's racing in California this year are very favorable and many a winner will be disposed of at this sale. Horses may be shipped by rail, care Occidental Horse Exchange and will be taken direct to the splendidly appointed salesyards and box stalls. It is of the utmost importance that the names, ages, pedigrees, performances (if they have any) and an idea of their disposition, etc., be forwarded to this office on or before January 18th, on which date the copy will go into the printers' hands for publication in the catalogue. Remember, the sale will take place Thursday morning, February 3d, at the Occidental Horse Exchange where over \$50,000 worth of thoroughbreds were disposed of in one month to the entire satisfaction of the consignors.

SOME time ago Gaston Ashe made a discovery that is likely to be of great benefit to breeders throughout the country. That discovery is the wonderful success at the stud and on the race course of horses having in their veins a large amount of Vandal blood. He has promised to write us an article on this interesting subject at an early date, but we presume the accident that befel him on Christmas day may cause him to postpone writing it. It is remarkable, but Hanover, best racehorse and sire of his day, has a double cross of Vandal (best son of imp. Glencoe), while Hamburg, his great young son, has only two crosses of Vandal, but gets more of the blood of imp. Glencoe through the great racer Reel, dam of War Dance, Capt. Elgee, Starke, Priores, Le-compte, etc. Marcus Daly brought to a realization of the value of the Vandal blood, will some day place Hamburg at the head of his great Bitter Root farm. It has never been printed, to the best of our belief, but it is a fact that Bourbon Belle, dam of the greatest race horse and sire, Hanover, in 1875, foaled a bay filly by the celebrated trotter, Mambrino Patchen. She rather upsets another breeding theory, too, for be it known that she was bred at two years of age and foaled Tuscola, by Enquirer, at three years. Mr. Ashe has a horse on his ranch with the Vandal cross closer up than any in America, in all probability. We refer to the grand little racehorse, Homer, who was by Shannon, out of the race mare Sallie Gardiner, by Vandal. As Shannon was by Monday, who had for a dam the celebrity, Mollie Jackson, by Vandal, it can be seen that he also has a double cross of Vandal. Homer was a stake horse, and defeated the best horses in training here and at the East, and it would not be surprising if, bred on such lines, he should prove a wonderful sire of racehorses.

THE determination on the part of the lovers of good racing at Chico and Hollister to keep their race courses intact and not allow them to be destroyed, is a splendid indication that they want them when our next governor signs the appropriation bill for district fairs and thus shows his approval of the great industry which has made California second to no other state in the Union. We have never heard of a trotter or pacer named after Gov. Budd; perhaps they were not fast enough to deserve such a title. However, as Jim has only eleven months to serve, and he can do little or no harm in that time, some one ought to take pity on him and name some real good one after His Excellency; it might please him in his declining days.

THE wonderful success achieved by Splan and Newglass at their sales during November and December has attracted the attention of horsemen everywhere. These gentlemen have fitted up a place at the Union Stock yards, Chicago, which is second to no other in the United States and on February 22d, 23d, 24th and 25th, they will hold one of the best sales to be held west of New York. Consignments are solicited and all who have horses that they wish to dispose of in the East, should write at once for particulars and make arrangements to ship their horses there. We cordially recommend this firm to all horse owners.

RUBY, a pacing mare owned by J. J. Grinnell of Red Bluff, is the first pacer to win a race in 1898. She defeated J. R. Freeman's horse Spotted John, on New Year's Day over the half mile track at Red Bluff in 2:37, 2:34, and 2:26. The race was for \$200 a side. Col. Park Henshaw of Chico, E. C. Fortier and J. N. Gregg, of Red Bluff were the judges. National Association Rules governed. Ruby was only in training four weeks and has paced a half in 1:09. She is a good one and the first to enter the 2:30 list this year.

We are pleased to note the remarkable progress made by the Horseshoers of California in their efforts to form successful unions and will do all we can to help these hard working friends of the horse in getting some protective legislation. They need it as much as members of the builders or mechanical trades, and should have it. Mr. Lohmire, the State organizer, has promised us a series of letters which hereafter will be of great benefit to the craft.

ENTRIES for the two-year-old stakes of the California Jockey Club will close next Monday, January 10th. Every owner of a two-year-old should make entries in these valuable events. Blanks may be obtained at the office of the club or from this office. Do not overlook these important opportunities to win large sums of money at a very little cost.

A SALE of thoroughbreds will take place at the Occidental Horse Exchange Thursday, January 20th, at which some of the best-bred race horses, stallions, broodmares, colts and fillies ever offered in this State will be sold. There is room for a few more, if applications are made at once. See advertisement.

## Where 2:10 Speed Comes From.

Alix, 2:03½, Nancy Hanks, 2:04, and Azote, 2:04½, the three fastest trotters, and the only ones that have been able to demonstrate their ability to trot in 2:05, are inbred to Hambletonian 10. But this is not proof that an extremely fast trotter must be inbred to this great sire, for Directum, 2:05½, who was equally great, considering he is a stallion, but has one cross to him, and that one so remote that he only carries 12½ per cent. of the blood of the famous Hambletonian.

Alix has four crosses to Hambletonian, two through Harold and one through each Cuyler and Alexander's Abdallah, and notwithstanding she has twice the number of Hambletonian crosses that Nancy Hanks has to him, she only carries 18½ per cent. of his blood, and Nancy Hanks has just double the percentage of it (37½ per cent.), because her crosses to him are so much closer. Alix gets 9.3-8 per cent. through each her sire and dam, and Nancy Hanks gets 25 per cent. through her sire and 12½ per cent. through her dam.

Azote gets an equal amount of Hambletonian blood through sire and dam, 12½ per cent. of each, giving him a total of 25 per cent. of it. He has one cross through his sire and two through his dam, but, being one generation more remote on the dam's side of the pedigree, it necessarily equals the amount he inherits through his sire.

Horses inbred like Altoka, Sally Toler, Bert Oliver, Wilton, etc. (whose sire and dam are by the same horse), have just fifty percent. of the blood of their grand-sire, or the same percentage of it that their sire and dam carry. For instance, Allerton has 50 per cent. of the blood of Jay Bird, because he is by Jay Bird, and Atoka, by Jay Bird, must therefore have the same amount of it. Then Altoka, who is by Allerton, out of Atoka, necessarily has the same amount of Jay Bird's blood as his sire and dam, for he gets 25 per cent. through each of them.

It seems to be almost a universal custom to figure on the number of crosses a trotter has to some great sire instead of figuring the per centage of blood the trotters possessed of that great ancestor. Undoubtedly, the true basis of figuring is percentage, it should be the guide board of inbreeding. The above paragraph illustrates how deceptive the number of crosses may be.

Many horsemen believe that the four-year-old form is the off-year of the horse, and consequently the year in which we cannot expect the best results. The belief was quite general a few years ago, but the marvelous achievements of our four-year-old performer during the past few seasons has had its effect upon the public, and many have changed their minds upon the subject. For the benefit of those who have not been close observers, and still think the horse must necessarily be more or less off at that period of life, we herewith give a list of all four-year-old trotters with records of 2:10 and better whose record at that age is the best to date. It includes more than one-tenth of the 2:10 list, and several of them are noted campaigners that remained sound beyond that year of their existence, and were skillfully trained, but failed to reduce their four year old marks. Naturally some of them will yet reduce them, but their places will be filled by other four-year-olds that will not. The list as it now stands includes Directum, 2:05½; Fantasy, 2:06; Beuzetta, 2:06½; Arion, 2:07½; Onoqua, 2:08½; The Monk, 2:08½; Bessie Wilton, 2:09½; Pat L., 2:09½; B. B. P., 2:09½, and Moquette, 2:10.

Star Pointer, 1:59½; John R. Gentry, 2:01½, and Joe Patchen, 2:01½, the three fastest pacers, were all foaled in 1889. Pointer and Patchen were therefore eight years old when they obtained their records, and Gentry made his at seven.

It seems rather remarkable that the world's record for pacers has always been held by a mare or gelding until John R. Gentry captured it in 1896, and a year later three stallions had records faster than Robert J., who was Gentry's predecessor for that honor, and neither mare nor gelding approached the performance during the time.

Online, 2:04, is the only pacer in the 2:05 list who obtained his record as young as four years.

Strathmore is the first to sire the dams of a 2:10 trotter and a 2:05 pacer. His daughter produced Dan Cupid, 2:09½, and Bumps, 2:04½. Dictator sired the dams of two faster ones in Nancy Hanks, 2:04, and Lockheart, 2:08½, but they are both trotters.

Mambrino Patchen is tied with American Star in this respect, and in addition to the three sires mentioned above by George Wilkes, out of his daughters, Allendorf, whose dam is by Mambrino Patchen, sired Dick Hubbard, 2:09½, and no daughter of American Star produced a 2:10 sire excepting those by Hambletonian above mentioned.

Mambrino Chief and Hambletonian rank next. Daughters of the former produced Director, sire of Directum, 2:05½; Onward, sire of Beuzetta, 2:06½, and Red Wilkes, sire of Ralph Wilkes, 2:06½; and daughters of the latter produced Vatican, sire of Belle Vara, 2:08½; Wilton, sire of Bessie Wilton, 2:09½, and Moquette, 2:10; and Dexter Prince, sire of James L., 2:09½.

There are but seven stallions that have sired the dams of more than one 2:10 trotter, and they have each sired the dams of two, as follows: Pilot Jr., sire of dams of Maud S., 2:08½, and Jay-Eye-See, 2:10; Harold, sire of the dams of Beuzetta, 2:06½, and Early Bird, 2:10; Mambrino Patchen, sire of dams of Ralph Wilkes, 2:06½, and Bouncer, 2:10; Dauntless, sire of dams of William Penn, 2:07½, and Benton M., 2:10; Daniel Lambert, sire of dams of Dandy Jim, 2:09½, and Pamlico, 2:10; Nutwood, sire of dams of Arion, 2:07½, and Ethel Downs, 2:10; Dictator, sire of dams of Nancy Hanks, 2:04, and Lockheart, 2:08½. The two Harold gets credit for are out of the same mare, and Dictator gets credit for the highest average of speed.

## Request That Hopples Be Barred.

Directors of the Kentucky Trotting Horse Breeders Association, at a meeting held at Lexington, Ky., December 21st, took most important action in relation to the barring of hopples and the shortening of distance in races. These resolutions were adopted:

"Resolved, by the Board of Directors of the Kentucky Trotting Horse Breeders Association. That the use of hopples on horses in races is dangerous to the life and limb of every driver and horse participating therein; that it mars the enjoyment of the public in witnessing such races, and that it

works great injustice to those who race horses without hopples, forcing them to place their lives and property in jeopardy without any compensating advantage whatever.

"We therefore respectfully request the National and American Trotting Associations to pass a rule prohibiting the use of hopples on horses participating in races over the tracks of their respective members, attaching a specific penalty of such severity for its violation as will insure full obedience from each track so governed. Be it further

"Resolved, That the rules now in force against the practice of laying up heats are ineffectual, and, that, as a bar against fraud and the indefinite lengthening of races, they form no protection. The experience of all practical horsemen has shown that there is but one rule that will effectually provide the safeguard desired, and that is to shorten the distance.

"We therefore respectfully request the National and American trotting associations to pass a rule fixing the distance in races of mile heats between six or less horses at thirty yards, between seven and twelve horses at fifty yards, and between thirteen or more horses at seventy yards, and to affix a specific penalty for the violation of this rule by tracks in membership with said associations of such severity as will insure its strict observance."

The resolution is signed by the members of the executive board, viz., P. P. Johnston, president; R. P. Stoll, vice-president; Shelby Harrison, second vice-president; H. W. Wilson, secretary; H. C. McDowell, Mike Bowerman, G. M. Asher, H. L. Asher, directors.

## Master Horse-Shoers Association.

The Master Horse-Shoers held a lively and interesting meeting Tuesday evening, Dec. 20th, initiating ten candidates for membership. At present there are 130 shops in the association, out of a possible 150. Judging by the progress made by this organization, it can be safely said that the Master Horse-shoers Association bids fair to become one of the strongest societies of its kind in America. It numbers among its members all of San Francisco's most prominent master horse-shoers, who have entered the work of elevating the craft to the high position it deserves. This they mean to do by means of education and legislation. Mr. Lohmire of Portland, Oregon, the district organizer of the National Order of Master Horse shoers, was present. When called upon by President Sullivan he responded in an eloquent, intelligent and business-like manner, advising the members of the best mode of eradicating many of the disreputable practices which are sometimes practiced by unscrupulous horse shoers.

He also spoke at length explaining the use of the National shoe stamp which will be placed on all shoes put on by members of the association. In exploiting the virtues of this stamp suffice it to say that any shoe which bears its imprint is the handiwork of a competent and thorough mechanic. Mr. Lohmire also spoke to the members of their real strength—their strength of fellowship—their strength of respect and confidence in one another and said: "These are the requisite attributes necessary for the advancement and benefit of the craft."

This association held another lively meeting last Tuesday evening, initiating seven candidates for membership. Under the head of reports of committees the gentlemen appointed to investigate the matter of civilians having their horses shod at the Presidio requested that they be given credentials, and further time in which to present their grievances before the proper authorities.

Mr. Lohmire, the district organizer of the National Association, addressed the members in a forcible manner, impressing upon their minds the necessity of raising the standard of the craft for mutual benefit and protection and the educational advancement of them.

Mr. Lohmire was at San Jose and organized a local in that city. The officers elected were: Thos. A. Carroll, President; Harry Conners, Secretary; James Lamb, Treasurer, and he also organized one in the city of Oakland. The officers are: Wm. Maguire, President; Wm. Rutherford, Vice-President; A. McAuley, Recording Secretary; R. Spangenberg, Financial Secretary; H. Luebke, Treasurer. By means of scientific shoos, which will impart to the horse-shoer a thorough understanding of the art of farriery. Mr. Lohmire is about to go to Sacramento to organize the horse-shoers of that city.

## HOOF-BEATS.

CLAWSON had a great day Thursday, piloting four out of the six winners.

JACK WILLIS of the Westminster Club is the only book-maker who has been on the block continuously since the opening of the present season.

MIKE COSTELLO is back in Lodi having come from Montana with a grand looking pacer called Jupiter, by Dalgamo. Mr. Costello has charge of the track at Lodi.

LONNIE CLAYTON, of color, one of the best horse-pilots in America, arrived Thursday and will soon be seen in the saddle here—and have his mounts much fancied by the betting public.

WE have it on good authority that horsemen use more Piper Hiesieck plug tobacco than they do any other kind. Its sales are increasing wonderfully on this Coast, and every one says it is the "best tobacco ever used!"

HUGH JONES claimed Lucky Dog out of the second race Wednesday. He secured the son of Darebin and Lon Lanier for \$975. He also attempted to claim Benamela, but was four minutes too late.

RILEY is looming up as a sire of winners of late. On Tuesday Einstein "won a block," yesterday Joe Ullman got home in front of a good band of sprinters. The latter is a half-brother to Joe Murphy, a good race horse.

A NEW RACE track is said to be in contemplation at Montreal, Can., to be built by the Queen's Park Driving and Athletic Association. The association is credited with a capital of \$50,000, and it is expected that work will begin shortly.

JOHN MACKAY has claimed the following names for his two-year-olds: Seco, ch f, by Tenny—Tearless; Hemera, b f, by imp. Goldfinch—Hinda Dwyer; Tirade, b c, by Rosseau—Young Flush; Julisse, b f, by imp. July—Calla Lilly; Hula, ch f, by Tenny—Dansante; Hermita, b f, by imp. Sir Modred—Solitude.

THE brown two-year-old gelding Pelleas, by Bersan—La Belle Helene, died at the Fair Grounds track, St. Louis, Thursday, of blood poisoning. Pelleas was a smashing good two-year-old and the winner of exceedingly good races at Washington Park and Harlem in 1894. He was then the property of John Rodegap.

Q. MORSE, one of the best riders here, and the champion pilot in Montana last summer, is back in the saddle after an enforced retirement of nearly two months, caused by the fracture of several ribs. Morse has few superiors in the finishing line, is cool, a grand judge of pace, and will undoubtedly be in great demand among owners of gallopers.

The famous stable known as Horsemen's Headquarters has been transferred to G. D. Wilson by J. B. Haggin for \$36,650 54, \$150 54 cash in hand and the balance in ten annual installments. Mr. Haggin bought the stable last winter at the sale of the late Capt. B. J. Tracey. Mr. Wilson acted as Mr. Haggin's manager during the latter's ownership.—Thoroughbred Record.

THE will of the late Charles Fleischmann was recently admitted to probate. The estate is estimated at \$2,000,000. Charitable bequests are made as follows: Two hundred dollars each to the Associated Charities and Hebrew Relief Union, \$1,500 to the Jewish Home, \$1,000 each to the Catholic Orphan Asylum, Protestant Orphan Asylum and Jewish Hospital, all of Cincinnati.

IN Chicago next year there is every prospect that there will be racing at all three tracks—Harlem, Hawthorne and Washington Park. Manager Condon, of Harlem, states that Harlem was willing to make any concession as to dates, so as to have harmony in that city. As to the Washington Park people they should also be disposed for peace, as Harlem accommodatingly closed her gates on two Saturdays last summer on the dates of the two Star Pointer Joe Patchen battles.

ALL of Helen Scratch's foals to race have proven victorious on the turf. The last one to win (so that the old gray mare is not disgraced) is the slashing bay by Morello, named Imperious, and owned by Barney Schreiber. The gelding came from the clouds yesterday and won off, he being coupled in the betting with Joe Levy, and the pair going at 6 to 1. Barney Schreiber owns three of Helen Scratch's babies—Braw Scot, Greyhurst and Imperious. Her other thoroughbred foals were Grandee and La Reina. A peculiar fact is that all are by different sires. The old gray mare traces to the same female source as did the famous Katy Pease and Hubbard, and the gray color has been handed down for more than 100 years. Imperious is the only one of her foals that was not in color a gray.

GALLANT little Sir Walter, one of the most famous of American race horses arrived in Lexington from New York Wednesday in G. D. Wilson's horse car. He was accompanied by the following broodmares also the property of Mr. H. K. Kapp, owner of Sir Walter: Fireworks (full sister to Dewdrop), by Falsetto, dam Explosion; Nutbrown, by Uncas dam Mimi; My Own, by Sensation, dam Queen's Own. Sir Walter and the mares were taken on arrival to Beaumont Stud, where the mares mentioned, as well as Ida K. (dam of Ida Pickwick), who was recently bought by Mr. Knapp, and who was already at Beaumont, will be bred to Sir Walter. It is not Mr. Knapp's intention to put Sir Walter in the stud now. He will simply serve the mares mentioned and then be returned to New York to go back into training in the spring.—Thoroughbred Record.

MCBRIDE, known to all Eastern turfmen as having exhibited sensational speed, has been selected by Major B. G. Thomas to mate with the Himyar mares belonging to him and Mr. Gardner. McBride started but one time, when he was a favorite and won easily, but bowed a tendon which ended his turf career. McBride is a son of imp Galore and the good mare Holiday by imp. Hopeful, and thus combines the St. Simon blood of England and the blood of Planet and Lexington of this country. He is a young bay horse, of splendid appearance, with clean, flat legs, broad hips, an arched loin and a very expressive face and head. His disposition is perfect and he can be controlled by a small lad. When in training McBride was remarkable on account of his smooth racing action, but an accident was injured. We hope to see to see the produce of this splendid horse and the mares of the Dixiana Stud prove the science of breeding.

It is already evident from the number and character of the entries made this year that the Annual Champion Stake at two miles and a quarter, to be contested over the Sheephead Bay track for the first time in 1899, is destined to become in public estimation one of the greatest fixtures of the American turf. It is a continuous event for three-year-olds and upward, to be worth each year \$20,000 to the winner, \$2,000 to second horse, \$750 to third horse, \$1,000 to owner of winner at time of entry, \$500 to owner of second horse at time of entry, \$250 to owner of third horse at time of entry and \$500 to the man lucky enough to be the trainer of the winner at the time of the race. Each year's crop of yearlings will be eligible for entry as it comes along, the natural result being that the stake should eventually be contested annually by larger fields that mark any fixed event of this country for horses older than two years old.

THE Bromley & Co. yearlings are an especially good lot according to report. Julius Bauer, the new trainer of the Chicago stable, has them on the Kentucky farm recently bought by the firm. They are: Bay colt by imp. St. Blaise—Fedora II; brown filly by imp. Cheviot—Elsie S; bay colt by Exile—Medal; brown colt by imp. Cheviot—Gold Basis; bay colt by Kingstock—Henrics; chestnut filly by Exile—Faust Rose; bay colt by Duke of Montrose—Violet; chestnut filly by Onandaga—Frederick's Pride; bay filly by Duke of Montrose—Burletta; bay colt by imp. Wagner—Miss Barnes; chestnut colt by Kingstock—Complete. The stable will also contain First Mate, Typhoon II, Semper Ego, Howard S., Free Advice, Nick, Rondo, On Deck, Orion, Kenmore Queen, Danforth, Van Antwerp, Nuto and Prince Lee. The operations of the stable will be in Eastern fields, unless the Chicago pinch is made less.—C. C. Riley in Daily Racing Form.

## Let Your Light Shine.

There is one point in connection with the great industry of breeding the trotter and pacer, to which those vitally interested have, save in rare cases, given but little of the attention to which it is justly entitled, and the neglect has cost them thousands of dollars. I refer to advertising. A breeder may have his paddocks full of as good colts as ever saw the light of day and not make a dozen sales a year, if he fails to advertise. A stallion of superior merit will waste the better part of his lifetime in idleness, if his owner fails to advertise. The champion trotter is little better off in that respect than a comparatively unknown horse. There is an old maxim of advertising which says: "To be successful must offer for sale what the public wants in such a way that the public will want it." I do not know that I can, in a few words, give my ideas concerning this important branch of every business, but some few thoughts in connection with it may be of value to every reader. To begin with, I am of the opinion that the stock farm that is a fixture, and has reached the point at which it has the services of a stallion to offer should advertise the year round. There need be no particularly loud blowing of trumpets, but enough of it to keep the horse and his owner constantly in the public eye. If the farm has gotten so far along as to have stock for sale, more attention should be paid to the advertising and the work should be done more systematically. Let one good colt be announced at a time and enough told about him so that the prospective buyer can tell from the advertisement just what is offered him. Then let it be understood that if any one comes to look at the colt and does not find him as represented, all his expenses will be paid. There can be nothing lost through honesty in advertising. Too many breeders, who believe in advertising, lose much of the benefit that otherwise might accrue from the show of enterprise and progressiveness, by failing to advertise systematically. What is worth doing at all is worth doing well. But to go back to the stock farm. In the proper season the stallion should be well advertised, and when the booking period has passed the space should be used for a general announcement coupled with offers to sell such colts as are ready for the market, or any other stock that is not wanted or cannot be utilized. Nothing changes oftener than the aspect of the horse world. The family that is unknown today may be famous tomorrow, but the benefit to the owner of the most of the stock will not be great until all those interested know where to go and get it. Every newspaper reader in the United States knows that the Wanamaker store is located in Philadelphia, but that fact does not make its shrewd owner content to wait for customers. He advertises the people into the belief that they want what he has to sell. He has used \$40,000 last year for newspaper advertising and probably more in 1897, yet he says he will spend more next year. Following his plan the breeders of the United States could make their investments pay vastly

greater dividends. Wanamaker does not advertise today and not tomorrow, but every day his announcements go to the people. It will not do to say that advertising does not pay, for that foolish notion was exploded years ago. The man who has anything to sell must advertise it in some way, even if only by word of mouth. Now that prices for good horses have gone back to something like fair values, the profit on one sale should go to nearly pay for a year's judicious advertising by a small farm. But the owner of a small farm is wont to say: "What good is to come to me through advertising? The big farms overshadow me?" Grant that they do, and that is one of the best reasons in the world why the small farm should not fail to advertise. I have known men to visit nearly all the big farms in the United States, and finally buy of a small breeder who had what they wanted, and who had called attention to his stock by advertising it.—Grattan, in Horse Review.

## A Gilt Edge Draft.

Sangamo Stock Farm, Springfield, Ill., came into universal notice several years ago through the extensive and high priced purchases made by the proprietors. Messrs. Ridgely did not stand on prices, their aim being to secure the best breeding stock procurable. That they did so the well informed reader knows. They placed at the head of their stud the richly bred Electioneer stallion Conductor, 2:14, a horse now in supreme command of all his faculties and functions and a tried progenitor. In the harem they placed such mares as Bonita, 2:18½, (ex-four-year-old world's record holder); Mink, 2:22½; Irene, 2:22½; Dorene (dam of Akron, 2:24½); Rosa Sprague (dam of McKinley, 2:11½), and daughters of Nutwood, Alcantara, Alcione, Belmont, Electioneer, Robert McGregor, Dictator, Red Wilkes, Simmons, Harold and other great sires.

All the above named animals with colts and fillies of Conductor, in all thirty-seven head, have been consigned by Sangamo Stock Farm to the Splan-Newgass sale February 22d to 25th.

## Faustino, 2:12 1-4.

Faustino, now a ten-year-old, is in his prime as a turf performer. As a three-year-old he made a record of 2:14½, and then retired to the stud. One of the results of his season of 1892 was the brown colt Trophy, who as a two-year-old got a mark of 2:29½. A foal, the result of the following season, was Faustino W., three-year-old record in 1897 of 2:28. Last campaign Faustino was started to practically demonstrate that he had not reached his speed limit in the high wheel days. The outcome was a record of 2:12½, which he is able to reduce.

Briefly, Faustino has shown he can sire early speed, and that the faculty of speed has not left him. As a stock horse, he, as an individual and in point of tested blood lines, is beyond criticism. This noted stallion is one of the star entries for the Splan-Newgass sale February 22d to 25th.

will bear the closest inspection and comparisons. No better tobacco is grown than that used in the manufacture of Piper Heidsieck. No other tobacco has so exquisite a flavor. None is so carefully manufactured or yields so much real enjoyment as Piper Heidsieck.

These are not mere claims but facts easily demonstrated. Buy one of the new 5-cent pieces,

**40% LARGER THAN FORMERLY**

and be convinced that Piper Heidsieck is positively the biggest piece of good tobacco ever sold for a nickel.

## Honolulu Track Improved.

The money raised recently by enthusiastic horsemen for the improvement of the Kapiolani Park race track is being judiciously expended under the direction of Nat Goodwin, the old-time driver and turfman. During the past week a gang of men and teams have been hard at work on the track, and they will continue along the line of improvements mapped out so long as the available funds hold out. Only about \$800 has been subscribed thus far, but it is believed that such a good showing can be made even with so small a pittance that it will cause a revival of interest among horsemen, who have not yet been heard from, and that as much money again can be secured by subscription.

The greatest fault with the Kapiolani Park track has ever been the sharp turns at the quarter and the three-quarter mile posts, where the track is perfectly level. Naturally, when going at a fast clip, a horse loses headway in making the turn, and unable to understand just how it is, loses more or less interest in the game. And then, the track on the turns is generally cut up so that the dust is deep and the pulling hard. Drivers have always complained of this condition of affairs, as it is encouraging to horses and drivers alike.

It is upon these sharp curves that the funds on hand are being expended. A bank of earth has been thrown up along the outer edge of the track, along the curve, rising to a height of three feet at the center of the curve, and earth filled in between it and the pole in such a way as to produce a grade of an inch to the foot, making a bank similar in construction to the Cyclomere bicycle track. The earth for filling is secured from the Diamond Head quarry. The construction is such that the track will be hard and firm on the bank, but soft and more springy about 25 feet from the pole. Drains will be so arranged that the bank cannot be washed out, nor will there be any longer standing water on the track after a rain storm.

Just now Mr. Goodwin's forces are concentrating their energies on the Makai curve at the end of the track, and it looks very much as if the funds on hand would not be more than sufficient to complete that, but the promoters of the work believe that once the horsemen in general see the great improvement, they will respond to another call for such subscriptions, and sufficient funds can be raised to complete the job. The track will be much faster than ever before, and much easier on the horses.

The revival in racing during the winter has been very marked. A very large number of horses have been shipped here from the Coast, and at the next meeting of the Jockey Club many dark horses will be in the field. A prominent horseman ventures the opinion that there will be at least a score of new horses in training within the next six weeks. Some of them are already at it, although in a quiet way.

Jim Quinn's new trotter, "290 Girl," is one of the most promising of the new comers. While she has not yet gone into active training, Mr. Quinn has tried her out sufficiently to be satisfied that she can beat anything on the Islands, and at the proper moment will be willing to back his judgment with something more substantial than words.

Ralph, Directress and Creole, will, of course, be in the field, and Tom Hollinger's Gustie, Imperial and Marguerite are ready to go on the track at the proper time. Chas. David has a new pacer of which great things are expected, and a down town merchant has recently purchased boots and a sulky for a horse that has attracted a great deal of attention on the road.

Little is known as to the number and qualities of the runners on hand. At least a dozen have been shipped from the Coast during the past few months, but they are being held back. As much of the general interest centers in the running races the bringing out of these dark horses will be watched with interest.

It is a safe prediction that the racing season of 1898 will be the greatest in many years.—Honolulu Star.

In consigning their stock to our sale, Messrs. Ridgely & Son write that they are sending us the best that they have owned. They bought the best that money could buy and have had three or four of what they call "culling sales." This is the balance of their stock and was considered by them and everyone else the cream of all they ever had.

Conductor, with a record of 2:14½, by Electioneer by Son-tag Mohawk, dam of eight in the 2:30 list, is certainly an animal of great merit. He is fine size, good conformation, perfect disposition and proved himself a born race horse when in his two-year-old form he trotted one of the greatest races ever trotted in this country. He has already proven that he can reproduce himself, as his youngsters show good form and lots of trot.

As to the brood mares, there are six in the sale that Messrs. Ridgely & Sons paid \$18,925 for. They were the cream of the brood mares at the time they were bought. Already many of them have proven themselves producers and there is no doubt but that among the number are the dams of some world beaters.

SPLAN & NEWGASS.

## Tod Sloan's Average the Best.

Tom Cannon's son, Mornington, again leads the jockeys of England. It is the fourth consecutive year to the able and mannerly young man's credit. In the list, the flamboyant, but clever Tod Sloan appears as James T. Sloan. His average of sixteen wins out of fifty-three mounts is the best.

Here is the list:

Jockeys.	Mounts.	Lost.	Won.
Cannon, M.	621	476	145
Loates, S.	686	551	135
Wood, C.	549	427	122
Allsopp, F.	734	635	99
Madden, O.	587	489	70
Finlay, F.	565	479	69
Rickaby, F.	465	399	60
Calder, T. J.	464	405	61
Bradford, W.	449	390	59
Robinson, N.	449	322	51
Chandley, S.	373	310	49
Fagan, J.	359	262	46
Watts, J.	248	146	34
Loates, T.	280	197	32
Cannon, K.	429	397	32
Black, F. B.	198	164	30

Sharples, J.	96	84	12
Purkis, C. P.	144	132	12
Lofthouse, T.			

## The Voice of the People.

Mr. Daniel McGregor, of Hancock, Wis., writes under date of April 11th as follows: "Enclosed find \$1.50 for one bottle of Quinn's Ointment. I had a box and found it perfection." This is the general expression of the leading breeders throughout the United States. For curbs, splints, spavins, windpuffs and all bunched use this marvelous remedy. Regular price \$1.50 per bottle. If you cannot obtain from druggist or dealer, address W. B. Eddy & Co., Whitehall, N. Y. For sale in San Francisco by Messrs. J. A. McKerron and J. O'Kane.

THE fastest pacer bred in the provinces \* Belle, 2:11, by Melbourne King, now owned in Chico.

## The Range Horse Passing Away.

The horse slaughtering establishment at Linnton, nine miles below Portland, has continued in operation at intervals until February, 1897. During this time the establishment has killed 4,000 range horses. On June 1, last year, the horse killing was resumed, and, up to Oct. 1, the institution has consumed 50 horses per day. Since the latter day it has slaughtered 80 horses per day, and now has enough horses contracted for to keep busy on until February, 1898, at which time operations will cease until the spring and summer ranges have put horses in condition again for the meat market. The company has killed 15,000 horses to date, and now finds a ready market for the choice portions, such as the hams, etc., in France and Germany, and the demand is reported as increasing. The meat is put up in barrels, much in the same manner as is pickled pork. The management at Linnton estimates the visible supply of meat horses in eastern Oregon and Washington at 70,000, but conservative horsemen here think his estimate too high. He also declares that such horses as his establishment uses are increasing at a rate as fast as his company can slaughter them. But he is certainly wrong again, for the range horseman saw the handwriting on the wall two years ago, and has since been industriously killing a little on his own account; and the small stallions, at least, suffered the fate of their brethren, and did not enjoy the ride to a regular slaughtering establishment, but died on their native heath with their boots on, without the formality of inquiry as to who owned or claimed them. A rifle ball usually furnished the means.

The Klondike excitement last summer was the means of taking not less than 3,000 head of these horses as pack animals from the over-crowded ranges, and the coming season will require a great many more for the same purpose, as the prospective gold miner does not care to put much money into a horse that is liable to be killed any hour of the day in travelling through those rough mountain passes. A gentleman who was over the Skaguay pass this fall informed me that of the 2,400 horses which were landed at that port this season, less than 300 are alive today. So that with the Alaska excitement, the Linnton slaughtering establishments and through other and more legitimate channels the little horse will go, and I predict that within five years he will be only a memory. Why, only think; a common Spanish Merino ewe brings more to its owner than these good little range horses. Why shouldn't he go?—S. C. Beach, in Horse Review.

## Where They Came From.

There are but five states in the Union that can boast of having bred as many as three 2:10 trotters, viz., Kentucky, California, New York, Iowa and Indiana. The following paragraphs give the performers bred in each state:

Kentucky heads the list, having to its credit Nancy Hanks, 2:04; Beuzetta 2:06½; Ralph Wilkes 2:06½; Kentucky Union 2:07½; Kremlin, 2:07½; Martha Wilkes, 2:08; Trevillian, 2:08½; Lockheart, 2:08½; Belle Vara, 2:08½; Maud S., 2:08½; Bessie Wilton, 2:09½; Countess Eve, 2:09½; David B., 2:09½; Dan Cupid, 2:09½; Oakland Baron, 2:09½; Baron Rogers, 2:09½; Dandy Jim, 2:09½; Dick Hubbard, 2:09½; Early Bird, 2:10; Jay-Eve-See, 2:10 and Moquette, 2:10, making a total of 21.

California ranks second with a total of thirteen, as follows: Azote, 2:04½; Directum, 2:05½; Stamboul, 2:07½; Arion, 2:07½; Sunol, 2:08½; Derby Princess, 2:08½; Hulda, 2:08½; Palo Alto, 2:08½; Lena Wilkes, 2:09; James L., 2:09½; Athanio, 2:10; Ethel Downs, 2:10 and Little Albert, 2:10.

New York is a good third with ten to its credit, as follows: Fantasy, 2:06; Grace Hastings, 2:06; Nightingale, 2:08; The Monk, 2:08½; Bush, 2:09½; Dare Devil, 2:09½; Harrietta, 2:09½; Page, 2:08½; Bouncer, 2:10; Cheyenne, 2:09½, the latter being doubtful.

Iowa has produced four good ones in Alix, 2:03½; Allerton, 2:09½; Elloree, 2:09½ and Senator A., 2:10.

Indiana breeders have succeeded in raising three, which are Magnolia, 2:09½; Praytell, 2:09½ and Que Allen 2:09½.

Illinois claims Onoqua, 2:08½; B. B. P., 2:09½; Ohio, Pilot Boy, 2:09½; Strader H., 2:09½; Massachusetts, Ellard, 2:09½; Benton M., 2:10; Maine, Nelson, 2:09; Tomah, 2:10; Oregon, Klamath, 2:07½; Altai, 2:09½ and the rest of the 2:10 list were bred one in a state.

I removed a Bog-Spavin from my mare with ABSORBINE. CAMBRIDGE, N. Y. W. E. THORN.

Horse Owners Should Use  
GOMBAULT'S

## Caustic Balsam

The GREAT FRENCH VETERINARY REMEDY  
A Safe, Speedy and  
POSITIVE CURE.

Prepared  
exclusively  
by J. E.  
Gombault  
ex-Veterinary  
Surgeon to  
the French  
Government  
Stable.

**SUPERSEDES ALL CAUTERY OR FIRING**  
Impossible to produce any scar or blemish. The Safest  
best BLISTER ever used. Takes the place of all liniments  
for mild or severe aches. Removes all Bunches  
or Blisters from Horses or Cattle.

As a HUMAN REMEDY for Rheumatism,  
Sprains, Sore Throat, Etc., it is invaluable.

**WE GUARANTEE** that one tablespoonful of  
CAUSTIC BALSAM will  
produce more actual results than a whole bottle of  
any liniment or spavin cure mixture ever made.

Every bottle of Caustic Balsam sold is Warranted  
to give satisfaction. Price \$1.50 per bottle. Sold  
by Druggists, or sent by express, charges paid, with full  
directions for its use. Send for descriptive circulars,  
if desired. Address  
J. E. LAWRENCE-WILLIAMS CO., Cleveland, O.

## THE GUN.

## NOTICE TO SECRETARIES.

If secretaries of gun clubs will send us the full scores of their regular monthly shoots we will be pleased to publish them; but we must receive the copy on Wednesday to insure its insertion that week.

## The Game Law.

The open season for shooting quail, doves, deer and wild duck as fixed by the State law is as follows: Doves, 15th July to 15th February. Mountain quail and grouse, 1st September to 15th February. Valley quail, wild duck and rail, 1st October to 1st March. Male deer, 15th July to 15th October.

The clerks of all the Boards of Supervisors have advised us that no changes have been made this year, but the ordinances passed last year hold good if they do not conflict with the State law. The following counties have not passed any ordinances that alter the open season as provided by State law: Amador, Butte, Inyo, Modoc, Mono, Mendocino, Mariposa, Nevada, Napa, Plumas, San Bernardino, San Diego, San Joaquin, Santa Clara, Sacramento, Solano, Sonoma, Santa Cruz, Siskiyou, Tehama, Yolo and Yuba.

The changes are as follows:  
Alpine—Deer, Sept. 2 to Oct. 15.  
Alameda—Rail, Oct. 15 to Feb. 15.  
Colusa—Deer, Aug. 15 to Oct. 15.  
Calaveras—Deer, Sept. 1 to Oct. 15.  
Contra Costa—Deer, July 20 to Sept. 2. (Use of dogs prohibited).  
El Dorado—Doves, July 20 to Feb. 1.  
Fresno—Market hunting and shipping game out of the county prohibited.

Humboldt—Grouse and Wilson snipe, Sept. 1 to Feb. 15. Killing of waterfowl prohibited between one-half hour after sunset and one-half hour before sunrise.

Kern—Shipping game out of the county prohibited.

Lake—Deer, Aug. 1 to Oct. 1.

Los Angeles—Shipping game to markets outside of the county prohibited.

Marin—Deer, July 15 to Sept. 15.

Madera—Market hunting prohibited.

Monterey—Deer, July 15th to Sept. 1st.

Orange—Doves, Aug. 1 to Feb. 1. Deer, Aug. 15 to Oct. 1. (Market hunting prohibited).

Riverside—Shipping game out of the county prohibited.

San Benito—Deer, Aug. 1 to Sept. 15. (Market hunting prohibited).

Santa Barbara—Deer, Aug. 1 to Sept. 14. Use of hounds prohibited. (Market hunting prohibited).

San Diego—Shipping quail out of the county prohibited.

San Luis Obispo—Deer, July 15 to Sept. 1. Doves, July 15 to Dec. 1. (Use of hounds prohibited. Hunting for markets situated outside of the county prohibited).

San Mateo—Deer, July 15 to Sept. 1. (Use of dogs prohibited).

Rail, Oct. 15 to Nov. 15. (Shooting from boat at high tide prohibited).

Shasta—Deer, July 15 to Sept. 1.

Sierra—Deer, Sept. 1 to Oct. 15.

Sutter—Deer, Sept. 1 to Oct. 15. Doves, July 15 to Jan. 1.

Trinity—Deer, Sept. 1 to Oct. 15.

Tulare—Deer, Sept. 1 to Oct. 15. Shipping game out of the county prohibited.

Ventura—Deer, July 15 to Sept. 1. (Market hunting prohibited).

## THE MAN WHO MISSES.

## Sportsman's Law as Applied to Southern Hunters.

Several gentlemen were seated in the palmroom of the Boston Club in New Orleans one day early in December last when a prominent railroad official of Tennessee, noted for his love of dog and gun, entered and was invited to join the circle. As the newcomer drew up his chair and exchanged greetings he volunteered the information that he had been hunting for a week or ten days in his own State, and that birds, as quails, are generally termed, were unusually plentiful.

"Any of you fellows ever shot up Brownsville way?" he asked, addressing himself particularly to the doctor, whose skill with the shotgun and rifle is known throughout the length and breadth of Louisiana, and pausing for a reply, which came in the negative from every man at the table. "Well," resumed the man from Tennessee, "there's a heap of fun in store for you, and I'll put you on the track of more sport than you've had dodging yellow jack the last few months."

The refugees who found New York and Chicago more attractive than the Crescent City during the recent scare, although business did call them North, breathed a trifle harder and said harsh things under their breath while waiting for the railroad man to continue.

"I had business up Brownsville way recently," went on the Tennesseean after he had drained the last drop of a whiskey punch, "and was invited to accompany the members of the Brownsville Outing Club on one of its weekly shoots. When it came time to start for the grounds a gun was handed to me which was much to straight in the stock to suit my make-up but I was forced to content myself with it, as there was no opportunity to get my own weapon down from Memphis, and I had serious misgivings as to my ability to bring down anything with it although you fellows all know I shoot as well as most of you—always taking my hat off to you sir," this to the doctor, who bowed at the compliment.

"I was mounted on a big, raw-boned bay horse that had the true ambling gait, and, falling in line behind the president, we started out of town. There were six of us, all told, two of the men being under 30, while the president, who was the dean of the crowd, was a man who might have turned 60. He was tall and lean, and, although he was sober of speech, there was a twinkle in his deep-set blue eye which betokened a spirit ever ready for a quiet frolic. I was the only guest, and as we rode along the president engaged me in a lively dissertation on the merits of pointer versus setter as a field dog. It was a lovely morning, and the dogs ranged hither and thither, and they seemed to be as glad as we were to be afield. We had gone only a mile or two from town, when we left the main road for a well-beaten pathway, through a plantation which abounded in what looked like splendid cover. The dogs slackened pace somewhat, in a trench between two fields where the cotton balls gleamed white and finally came to a point and back, as prettily as any of the creations of Tracy's brush.

"Get down, Mr. D—; it's your shot," said the president. "Mr. C—, you will shoot with him."

"This latter remark was addressed to one of the members of the club, who dismounted with me, and to whom I had been introduced only that morning.

"He was a young business man of Brownsville, and was considered one of the best shots in that part of Tennessee. We walked in quietly, the others holding our horses for us, and we weren't twenty-five yards away from the dogs when

the birds flushed, scattering right and left. My heart was in my mouth when the fluttering wings sounded, and I shot over my bird with the first barrel. C— waited courteously and then knocked down a left quartering dazzer in a way that indicated his ability to live up to his reputation as a marksman. My second barrel failed to get a feather, and I was in a blue funk, particularly as C— killed prettily with his reserve shot.

"You are all familiar with the man who can only shoot with his own gun, or who can't play his regular good game of billiards because his favorite cue was away getting a new tip on it. Well, I didn't want to be like him, so I stuck my tongue in my cheek, gave it a bite, and said nothing. The birds had been marked down and the dogs began to pick up the stragglers.

"Mr. D— will shoot," said the president once more, as he shifted his position in the saddle, and I thought I noticed a suspicion of laughter in his eyes as he spoke.

"I was thoroughly determined that the next bird would come to earth, and made up my mind to give him plenty of time before pulling the trigger. When he rose he looked as big as a house, and I held, as I thought, dead on him. I fired; he kept on. I fired again, and I think the very dog looked reproachfully at me as the quail disappeared in a field of corn 300 yards away. It was embarrassing for me, for my companion killed his birds in grand style, and my face was burning when I looked at the president, who had been told that I could hold my own with most men in the field or at the traps.

"Better luck next time," was his kindly comment, coupled with the charitable opinion that he thought I had touched him with my second barrel. The next bird and the next and yet the next got away from me, and I was wild with chagrin. I tried everything that I knew. I was quick and I was slow. I held under them and over them, but those birds seemed to have a coat of mail in place of feathers for a covering, and they flew away unscathed. I had heard a few vague hints before starting out that the Brownsville Outing Club had some sort of code which dealt with poor marksman-ship, and I determined to inquire into the matter. My first thought was to hope that the members would keep my poor showing secret from my friends, who would be only too glad to gibe me, for if there is anything I pride myself upon it's my ability to hold a gun as straight as the average Southerner.

"Mr. M—," I said addressing the president, "how many times should a stranger miss such shots as I've had before calling down the contempt of this body upon his head?"

"How many have you missed?" asked the president, and I thought I felt the eye of every man in the party upon me.

"About ten," was my reply.

"Oh, you're all right yet," said he, and I imagined I noticed a slight rising inflection on the final word.

"When the dogs found a new covey it was in a broad open space with a brush fence on the right and an open field of a couple of hundred acres on the left. There was nothing to mar the aim, and when the president called on me to shoot I startled myself by making a good double. I felt my courage returning and resolved to make an effort to retrieve my lost laurels.

"Mr. C— will shoot," said the President when the first of the stragglers was marked down. C— had been doing brilliant work and he was the picture of confidence as he walked in ready for the bird. It was one of those birds that stick in the grass and that you have almost to kick out before they will get up, and C— was almost on top of it when it jumped with a twist and a snakelike turn and was gone like lightning. There was a double report, and as the bird passed me untouched I blazed away and brought it down.

"Oh, ho, that's it!" shouted the president from the back of his horse, "What's the matter?" said I looking around.

"Ask Mr. C— what's the matter," said the president, as he slid from the saddle; 'he knows what's the matter. To think of letting a man from Memphis with an old pot-metal gun come down here and wipe his eye.' As he concluded he strode toward the bushes pulling a huge hunting knife from his pocket as he walked.

"I looked at C—, who was the picture of misery. He was watching the president as he cut half a dozen stout switches from a persimmon bush and came back trimming off the twigs. They were strong and supple, just the kind of switches we used to get warmed with when we played hooky forty years ago and went swimming; and I was at a loss to know what use they were to be put to until the other members of the organization also dismounted and gathered around the luckless C—, who without a word laid aside his gun and stretched himself full length upon the ground, face downward. The skirts of his canvass hunting jacket were turned up and the president's long and sinewy arm applied the switches vigorously where they were supposed to do the most good.

"Let—a—man—from—Memphis—wipe—your—eye—will—ye?" said the president between blows, amid the shouts of laughter of the others.

"When the switches were worn out, C— was commanded to rise, and taking up his gun, he mounted his horse. I had had my share of the birds and wanted to stop, but they wouldn't hear of it. So they passed on, another member of the club taking C—'s place. We had half a dozen shots before I had a chance to put it on him, and the minute I did there was a howl, and I think the voice of C— sounded above all of the rest, for you know misery loves company most dearly. The president again cut the switches, and his arm swung with the regularity of a pendulum, and the dust flew from the trousers of the prostrate sportsman.

"I move that the president take his turn," said C—, as we were ready to go on, and a majority of the club voting 'aye,' the veteran took his place at my side.

"I got encouraging glances all around and especially from C—, who was elected to act as President pro tem. The old man killed with the greatest regularity, and I think we had about eight or ten straight and were working along the bank of a dead canal which was overgrown with tall, rank grass and bordered with bushes, when the President lost his bird. Quick as a flash he threw himself head foremost down the grassy incline, disappearing beneath the banks, and when the other members of the club came up he was nowhere to be seen. In a minute we heard a shout far down the canal, and there, 300 yards away, the tall figure of the old man was outlined against the blue sky. He held his gun in one hand and put the thumb of the other hand to his nose and twiddled his fingers."

"I'll have to go up there," said the doctor, "for that's an organization which should be encouraged. It's a new one on me, but we have plenty of customs in this country which are unknown to sportsmen of the North and Northwest. After

my return from college, I went shooting deer in one of the parishes below, one of a party of four invited by Cadé, who was then President of the Cotton Exchange. You know he had then, as now, an extensive preserve, where a man could get quail, snipe, turkeys, deer and a bear in season. My father had just bought a new repeating rifle, and when I mentioned that I was going off for a few days' hunt, he readily consented to my taking his new gun.

"We left here in the evening and were at the shooting box by 11. After a cold bite and a toddy we turned in and slept until daylight, when the dogs were ready for us. I was stationed at one of the most promising points of the runway, and was confident that I would bag anything that came my way. I was a young man then, but could hold my own with a gun and had no fears for the result of a turnup with most anything to be found in our swamps. I listened to the dogs giving tongue in the distance for some time, now near and now far as they ranged in following the scent, and I had almost concluded that the quarry was about to pass the stand of some more fortunate hunter than I when out of the bushes jumped a spanking big buck. I had ample time to pull on him and was as confident as you please, but I clean missed him, and as he turned and with a snort of terror fled as only a frightened deer can, I gave him a perfect fusillade. There was a great crashing and crackling of the undergrowth as the deer broke through it, and then all was still, except the yelping of the dogs as they came nearer and nearer in pursuit of the buck.

"A few minutes later the dogs, followed by my host, appeared upon the scene.

"Where is he?" asked C—.

"Gone," said I.

"The devil!" said he.

"No, the deer," was my retort, for I was pretty sore.

"Didn't you shoot?" asked C—, as he fumbled in one of his pockets and pulled out a knife.

"And you missed him?" was his comment, as he commanded me to turn around.

"There was a tug at my shirt at the back, and in a twinkling the tail of it had been severed neatly. C— said never a word as he tucked the piece of linen into the pocket of his hunting coat, and I know it is one of a most valued collection to this day."

"Say," said Billy Montgomery, who was one of the listeners, "if forced to take an outing with the Brownville boys, and participate in a deer hunt on the same day, I think I would elect to try for birds in the morning."

"Either that or carry along a supply of shirts," was the pertinent response of Jim Hearn, who is nothing if not philosophic.—Chicago Inter-Ocean.

#### Distribution of Oregon Pheasants.

The pheasants recently received by the State Board of Fish and Game Commissioners are being placed in favorable localities as expeditiously as possible, at present the demand exceeds the supply. The commissioners are being ably seconded in their efforts by sportsmen, game wardens and clubs in all parts of the State. A number of the birds have been liberated in various localities up to date. This has been noted from time to time in the columns of the BREEDER AND SPORTSMAN. San Luis Obispo has been supplied lately, a number of the birds having been liberated in that county in favorable cover. Geo. H. Barfield, Game Warden at Merced, has placed several pairs along the Merced river. M. L. Weaver, of Visalia, Game Warden for Tulare county, received five pairs of pheasants from the Board, he has turned them loose on Thomas Jacobs and Brother's ranch near Kaweah Station. Sportsmen in the vicinity of Hollister are making efforts to have that district stocked. The liberation of the birds has been noted by the local journals and it is to be hoped that they will be left free from molestation and allowed to multiply. At the end of the protection period in Oregon the State was literally alive with Mongolian pheasants. If the same results are happily brought about in this State then indeed will the sportsmen have cause for congratulation.

#### Calendar for 1898.

A pair of mallards hanging against a grained panel is the subject of illustration on the calendar issued by Clabrough, Golcher & Co. The drawing and coloring is marvelously true to nature. This art calendar has been accepted by sportsmen with a feeling akin to "brotherly love," the collectors have been indefatigable in their efforts to procure copies.

The Du Pont Smokeless Powder Co.'s calendar is most artistic in general effect and graphic in subjects of illustration, being most apropos and suggestive to lovers of the gun and dog. A pair of setters in the foreground, two guns stacked against the fence, and a brace of grouse suspended to a tree limb tell a story more eloquently than words can portray. Outside of the vignette and forming a background for the calendar matter is shown a life-like study of a pair of wild geese.

The calendars issued by the Union Metallic Cartridge Co. and the Winchester Arms Co. are beautifully illustrated and in keeping with the elegant series annually published by these firms respectively.

The Marlin Fire Arms Co. present a very convenient and neat desk calendar for the year. The illustration is a typical hunting scene.

#### San Diego Quail Ordinance.

Market hunters are under the ban in San Diego county. The Supervisors of that county have ordained as follows:

"Section 1. Every person who shall transport, carry or procure another to transport or carry out of the county of San Diego any quail the same having been killed or captured in the County of San Diego shall be guilty of a misdemeanor.

"Sec. 2. Any person found guilty of a violation of any of the provisions of this ordinance shall be fined in the sum of not less than \$20 or be imprisoned in the County Jail in the County of San Diego not less than ten days, or be punished by both fine and imprisonment.

"Sec. 3. This ordinance shall not be construed as derogating or suspending any of the laws of the State of California for the protection and preservation of game.

"Sec. 4. This ordinance shall be in full force and effect on and after the 24th day of December, 1897.

The game warden of the county has offered a reward of \$10 for information that will lead to the conviction of the transgressors of the law, and Wells, Fargo & Co.'s Express have issued orders to their agents to receive no shipments of quail for transportation after the date mentioned.

#### A Jockey's Shooting Trip.

Mike Hennessy proposes to show his friends and admirers that he can handle a shotgun with the same ease and skill that he lands a long shot or pilots a favorite to victory. Mike and his fellow knight of the pigskin, Charley Thorpe, will be the guests of the Black Jacks at their ark and shooting grounds at Antioch tomorrow. Secretary Jim Markland has taken the boys in charge and will arrange for a star duck shoot. The Black Jacks will be in force and are curious to know if the jacks can ride tule-splitters as handily as bang-tails. They will also incidentally introduce the boys to the most aristocratic circles of the mallard, widgeon, sprig and gray duck colonies frequenting the various ponds on their preserve.

#### A Good Holiday Number.

We congratulate our sporting contemporary across the water, *The Shooting Times and British Sportsman*, on the splendid typographical appearance and commend the many and varied excellent sporting stories, beautiful and apt illustrations; rod, gun and kennel data, notes, etc., etc., contained in the current Christmas number of that most interesting journal.

#### CARTRIDGE AND SHELL.

Brant are swarming in Tomales bay.

Ducks were rather plentiful at Point Reyes last Sunday.

Wood duck are becoming rather numerous near Oulton's Landing.

Duck hunting is reported to be good in the vicinity of Martinez.

Pete McCrea made a bag of forty fine ducks at Mt. Eden on Sunday last.

W. Robertson bagged twenty teal last Sunday on the marsh near San Rafael.

Sheckleton and Mace shot twenty teal, sprig and cans at Black Point on Sunday last.

Myriads of ducks frequent the bay on the Contra Costa side from Oakland to Port Costa.

Plenty of mallard up on the river, but they are very wary. A windy day will afford fine shooting.

A naturalist of eminence finds that land birds make their journeys in the daytime and water birds by night.

C. Zeiner and O. Fisher held down the Bridges for a four days' shoot last week. They had a fine bag of ducks.

E. Schultz and a friend shot on the Empire Club grounds Sunday, their bag comprised twenty-four mallard, sprig and teal.

W. E. Murdock tried his hand on the Petaluma Gun Club's grounds and made a bag of twelve teal and mallard last Sunday.

O. Fingler and L. Thiebaut are having new guns made and will join the ranks of the shooters again in the near future.

Ed Forster and G. Price had fairly good luck on Petaluma creek Sunday. Their bag comprised twenty-five cans, teal and sprig.

A gun club has been organized in Mariposa. Grounds are now being laid out for trap shooting and practice during the close season.

The Board of Supervisors of Lake county have passed an ordinance fixing a bounty of two dollars per head on all coyotes destroyed in the county.

Frank Dolliver and C. Berge, Jr., went up to Point Reyes last Friday. The combined bag Sunday night was over fifty sprig, widgeon, mallard and teal.

Jules Bruns, John Karney and G. Kropp tried their favorite spots at Bear's Point on Sunday and made a combined bag of sixty-five teal, sprig and widgeon.

The grounds shot over by the Alameda, Miramonte, Olympic, Empire and Petaluma Gun Clubs offered fine shooting to the members who shot Saturday and Sunday last.

Ducks are becoming very plentiful in the Salt Spring reservoir near Stockton. The recent rains have caused them to go from the tules to the unfrequented nooks in the reservoir.

Dave Thom, Clarence Haig, H. Justins and W. J. McClain were quail hunting near Livermore on Sunday. Fair strings were made, the weather was too warm for first-class quail shooting.

L. R. Larzalere, J. R. Bartland and J. Miles were at the Spooney Club grounds near Alvarado. The combined bag for two days' shooting was over a hundred birds; widgeon, sprigs and spoonneys.

A pigeon shoot at fifty birds was held at the Olympic Gun Club grounds on Tuesday forenoon. The birds were lively and the scores made were: Coleman, forty-five, Ireland, forty-five and Bushnell forty-three.

The Seattle Rod and Gun Club will in the near future stock the White river valley with forty dozen Bob White quail. Messrs. Ellis, Morton and Charles were appointed a committee to secure the birds from the East.

The Olympic Gun Club was represented on Saturday and Sunday last, at the shooting grounds, by L. D. Owens, H. H. White, C. F. Grant and W. Foster. One hundred and five ducks; cans, sprig, teal, etc., paid tribute to their guns.

Among the hunters who were at the Country Club last week we note that Jno. K. Orr made a combined bag of forty quail, fifty English snipe, and thirteen ducks. Dr. Vow-winkle, W. S. Kittle and others had pretty good strings of quail.

Billy Wetmore made a large bag of ducks last Sunday on the Pastime Club's grounds. Wetmore is a sportsman of patience and resources, notwithstanding the handicap caused by a broken gun-stock, he kept on with the sport and made his "Gold Dust" net him a prolific string of birds.

At the traps in the East during the recent tournaments the L. C. Smith gun demonstrated in evenness of work and reliability the merits claimed for it by the Hunter Arms Co. A number of the cracks used it and made a strong average of high scores and wins with this popular and effective gun.

A steam launch with a number of hunters aboard was hard aground near the Bridges until ten o'clock last Sunday night. Two hunters at Alvarado were caught by the tide and left high and dry. They dragged their boat over a mile before they got to their blinds too late though for the evening flight.

Ed Nicolans, on New Years day, was awarded the Pellican Gun Club's trophy for the best average for the season's scores—85 per cent. The prize is a diamond studded locket. The club held a New Year's "shoot" north of the American River bridge Friday, and Captain Frank Ruhstaller beat all comers.

The New York Central Park Board has appropriated \$10,000 for the establishment of a pheasantry in connection with the menagerie. A building with suitable accommodations will be constructed, and it is now a certainty that the park will contain, in time, one of the finest collections of pheasants in the world.

The quail hunters at Point Reyes last week had only fair results for their work. The weather has been a little too warm. Among those recently there were Frank Vernon and a friend, Ned Bosqui, Jr., H. C. Golcher and Chas. Precht who all made fine bags of birds notwithstanding the adverse conditions for sport.

Stockton sportsmen who spent a Sunday recently on the islands after game, returned that evening with a goodly supply. One party, consisting of James Langford, Duke Manchester, Dave Creaser, W. H. Lyons and Will Folger, brought back seventy-four birds. In the lot were all sorts of ducks and geese, and the hunters assert that game is thicker on the islands than ever before.

E. H. Ladd made a good bag of widgeon, gray duck, teal and mallard last Sunday. He was shooting in the vicinity of Oulton's Landing—stopping with the Merkle boys on their ark "Three Brothers." Hunters desiring good accommodations and open shooting ground can obtain full particulars from Ladd at his store, 421 Kearney street.

Mt. Eden shooting ground last week and Sunday afforded very good sport to a number of the regulars who hunt there. F. Schultz had two dozen teal, Eddie Peterson bagged about two dozen fine spoonneys in two days. Joe Bickerstaff got forty, Jim and Mike McDonald had about twenty-five apiece. Arthur Priest shot thirty-five and H. Nolan had a fair bag.

The Lincoln Club boys, who use the ark Pastime as their shooting headquarters near Alvarado, had two days' good shooting to begin the new year with on Saturday and Sunday last. E. Klevesahl and C. Shaw had a bag of thirty teal and sprig; Dan Ostrander shot twenty; C. Swan bagged thirty-five; Geo. Frauen had twenty-seven in his strap loops and Le Gal bagged sixteen.

On December 28, 1897, in Justice St. John's court, Fresno, Hans Peterson, a hunter, pleaded guilty to violating the county game ordinance. In company with Chris Peterson he was arrested on December 23d by Deputy Constable Dumas and Game Warden Andy Ferguson. The men were hunting on the James ranch about thirty miles west of Fresno, and used a No. 6 shotgun with which to kill the ducks and geese that may be found in great flocks in that section. The game was slaughtered by the wholesale and shipped to San Francisco for sale. Hans Peterson was fined \$50, with the alternative of serving fifty days in jail, and he accepted the latter sentence.

In speaking of the devotees of the rifle and pistol the Stockton Independent has the following to say about the local club: "The marksmen of the Stockton Rifle and Pistol Club will hold their usual weekly shoot at their range, south of the city, January 2d. C. Merrill leads with the best general average on all of the shoots held this season, but Mr. Strocker has been improving his scores of late and is fast catching up with the leader. The club has one of the best ranges in the interior. At fifty yards there is a bulkhead for those who wish to practice with a pistol. The 200-yard range for the rifle has a very fine bulkhead, which will probably last for years, as it has been constructed in a most substantial manner. A neat shed has been erected for the shooters to stand under while firing, and the entire arrangement is very convenient.

As a result of the existing rules and methods adopted by the Suisun Gun Club, so far this season in the way of privileges granted to outsiders, a new club is soon to be formed, and a different state of affairs will prevail next season. Several members of the Suisun Gun Club, dissatisfied with its management, have taken a three years' lease of the well-known Pringle ponds owned by Clint Peyton, to take effect Oct. 1, 1898, and visiting sportsmen to Suisun will have access to this favorable resort of wild game. Visitors to the Suisun Gun Club are charged \$5 per day for the privilege of hunting over the preserve. The new club will do away with an imposition of this nature, and has leased the Pringle ponds with the sole object of entertaining visitors free of charge when they come here. The promoters of the new movement realize the benefits which the town derives from outside hunters and their action in providing a place where good sport can be enjoyed without molestation and pecuniary exaction is a commendable one. The new club is composed of solid material which augers well for its success, the members being W. H. Brvan, proprietor of the Arlington Hotel, who first mooted the matter, John A. Wilson, Fred Robben, John W. Harper, George H. Kinloch, Will Pierce, Dr. J. A. Ostrander and Dr. W. G. Downing. The membership is limited to eight and local members will be allowed to shoot on three days of each week. One day every week will be set aside exclusively for visitors. Night shooting will be strictly prohibited.—Solano Republican.

The Black Jacks had their usual weekly shoot last Saturday and Sunday. Among those participating were, J. Maynard, Jr., Dick Brooks, M. J. Geary, "Sherman," Dr. E. N. Ayres, F. Marriott, Jr. and F. Fitzpatrick. Secretary Markland missed the boat. The bags made were fair. Ducks were plentiful, but wary; the weather was too warm and the flights were few and far between.

Hunters returning from the marshes in the vicinity of Stockton, report game more plentiful than it was earlier in the season. The best hunting grounds are on Roberts Island and the Moss tract. Thousands of ducks are to be found there and those who are familiar with the country can bring home some big bags. Geese in large numbers flock to Union Island on the stubble, which affords splendid feeding grounds for them. They are very wild and it requires some clever work to get within range as they take to wing at the least sign of a man. Those who enjoy quail shooting have to travel quite a distance. There are no good quail grounds in this vicinity and it will require about a week's trip to reach a place and have any hunting worth mentioning.

## THE KENNEL

### Coming Events.

#### BENCH SHOWS.

Jan. 26-29, 1898—State Poultry and Kennel Club's second bench show Sacramento; Matt. Coffey, secretary.

#### FIELD TRIALS.

Jan. 24, 1898—Pacific Coast Field Trial Club's annual trials at Bakersfield, Cal. J. M. Kilgariff, secretary.

#### COURSING.

Jan. 11, 1898—Annual meeting Interstate Coursing Club.  
Jan. 8-9—Ingleside Coursing Park. Regular meetings every Saturday and Sunday.

### A NOTABLE COURSING STAKE.

### Capable Hounds After Strong Hares and Another Big Purse.

The greyhounds at Ingleside will sprint for another big purse today and tomorrow. The stake is for "beaten" dogs, so-called, but a "beaten" dog is not by any means a necessarily slow dog, nor is he incapable of putting up the liveliest kind of sport. Indeed, the fleetest performers at times drop into the "beaten" ranks. This they may do through temporary lack of condition, through accident or through perversion on the part of the hares. There are many candidates in today's stake that owe their eligibility to just such causes. The run down today begins at 1 P. M. and the ties will be run off tomorrow, commencing at 11 A. M. From the make up of the entry there will be several sensational upsets this afternoon. From its quality, too, the winners of this week's stake will not again figure in the beaten class for many moons.

The Curtis dogs of Santa Clara continue to hold their own against all comers. When Blackette was put out by Fleetwood last Sunday it was whispered that the Curtis luck had broken. But Curtis & Son have no luck. They have the dogs. With Blackette out they simply worked a little harder on their remaining candidate, Lady Campbell, and although she had at no time earlier in the game been considered dangerous, she romped through to first place just as her kennel mates have done before. It was another victory for good breeding and training that has achieved remarkable results.

Mountain Beauty, a Colorado dog, broke the record for an inclosed field last Saturday. Against Aileen Aroon she fields up a score of 51 to 5.

Portal's puppy ran a somewhat disappointing race Sunday. A week earlier Gallagher was the surprise of the day and again last Saturday he put out D. Shannon's snappy little bitch Sweet Music. But Sunday morning, against St. Nicholas, and selling a 3 to 1 favorite, he was himself sent back to his kennel with ease.

"Fox" Kenney was at the coursing part last week after an absence of several weeks. "Fox" brought down Lady Penn for P. McLaughlin.

D. Shannon's Sarcastic has been sold during the week and taken into the interior.

The purchasers of Hercules, lately owned by Sater & Gibson, have taken the black flyer to Petaluma where he is being gotten into shape.

A. C. Bradbury has purchased Sir Jasper and had him in the puppy stake last week. Sir Jasper is a promising youngster to look at, but appears, as yet, to lack both training and experience.

The Emin Pasha stock was again much in evidence last week. Gladys Pasha (Emin Pasha—Valley Queen) was third in the puppy event and it was only after two gruelling undecided runs that Royal Oak could nose her out of second money.

On the strength of his having won second money at the last Merced meet Rusty Gold sold over Lady Campbell last Sunday at odds of 3 to 1. Until the Colorado dog has had more experience in a park and a longer residence on the Coast he should hardly sell a favorite over any of the Curtis cracks.

F. Butler's Susie has been forging to the front with remarkable strides of late. Seldom has she failed to pull down a goodly piece of the money since her return to the sward, her work shows marked improvement every week.

Deckelman and Panario are comparatively new to the leash, but their work with Old Glory shows them to lack nothing in capability. Not until he met the runner up, Susie, could he be put out last week, and third place among the aggregation of dogs then running was a remarkably creditable performance.

The purse to-day and to-morrow is the largest ever hung up for beaten dogs in the history of coursing on the Coast. To the total entrance money the park management adds no less than \$200.00.

The hares at Ingleside are just at present running exceptionally strong. Jack after Jack escaped the lithe flyers last week and darted into safety. This is due not only to the careful selection of the "bunnies" by Superintendent Reilly, but also to their being left absolutely undisturbed throughout the week.

One of the most complete surprises sprung lately turned up last week in A. Higgins Duke of Oakgrove. He is a big,

clumsy looking dog and was said to be only "a scrub picked up on some ranch down Santa Clara way." On the strength of this Granuale sold over him at 4 to 1. He put out Granuale with ease, and later in the stake downed the late good thing of Colorado, Gilt Edge, with ease. He is a dog that will bear close watching.

C. W. Dewlaney's Fleetwood continues to show improved form. Last week he won over the famous Blackette. He is being trained by J. M. Lettich.

Dillon & Reilly had in Dauntless, one of their Sunol-Fairy youngsters, last week. It was his first public appearance and was very creditable. He is less than a year old yet he won his first course with ease, and, unless all signs fail, he will annex many more.

The entry to-day shows candidates from all parts of the State and many that are but late arrivals from the East. As is usual in beaten dog events, picking the winners will tax the talent to the utmost. Those who should successfully negotiate a course in the run down will be found in to-day's daily edition of the BREEDER AND SPORTSMAN.

### Interstate Coursing Club

Some thirty members of the Interstate Coursing Club met Tuesday evening for the purpose of making arrangements for the annual meeting of the members which takes place on Tuesday evening next, and to hear the report of the committee that was appointed to meet the management of the Ingleside Coursing Park with reference to the purses to be given for each meeting during the present year. President Shannon occupied the chair.

The committee reported that Manager Donovan made the following offer: To all age stakes of not less than thirty-two dogs at \$4 nomination, \$325; \$100 for not less than a 16-dog puppy stake; \$75 for not less than a 12-dog puppy stake, and \$50 for not less than an 8-dog puppy stake; \$250 for all other open stakes at \$2.50 entrance, and \$200 for the beaten dogs' stake on the third Sunday of each month. A dog winning one course in any of the above stakes will receive back his nomination fee, and be taken from the added money.

For the John Grace Challenge Cup run on the 22d of February \$500 will be given.

The offer was most satisfactory to all the members of the club. The following gentlemen were appointed by the chair to draw up a programme for the John Grace Challenge Cup meeting: William Halpin, T. Butler and J. Larkey.

The following candidates were proposed for membership: George A. Panario, H. A. Dickelman, John Maher and Hugh Lynch of this city and Charles L. Willett of Santa Clara.

### Pacific Coast Field Trials.

Col. Arthur Merriman, of Memphis, Tennessee, in a communication recently received by Mr. J. M. Kilgariff, has expressed his acceptance of the invitation, tendered by the Pacific Coast Field Trials Club, to officiate as judge during the coming trials, to be held at Bakersfield, commencing January 24th. Col. Merriman is expected here on the 22d inst. The associate judges are announced to be two well-known California sportsmen, William Dormer of this city and Mr. Vanderfoot of Pasadena. The interest in the trials continues unabated, and, judging from the systematic training and the careful preparation on the part of the coast and local fanciers who propose to enter their dogs, some very clever field work can confidently be expected. Considerable curiosity is manifested by Eastern sportsmen, notwithstanding the high standard of the recently imported dogs. It is not drawing invidious comparisons in making the statement that a few surprises may be sprung from unexpected quarters.

### Sacramento Bench Show.

Premium lists and entry blanks for the Sacramento Bench Show can be procured at the office of the BREEDER AND SPORTSMAN.

### DOINGS IN 'DOGDOM.

In Paris you find dog doctors, dog dentists, dog barbers, and dog dressmakers advertised in the newspapers, and they seem to be well patronized.

One of the litter of Great Dane pups (Mabel S.—Lord Londesbrough) owned by Mrs. C. G. Saxe is noticeable for the beauty of its markings, all white with blue spots.

Tod Sloan is expected in this city on the 23d inst. He will bring with him from England three grey hounds. The dogs will be quartered in Jimmy Anthony's kennels opposite the Ingleside Coursing Park.

W. B. Sink Jr., has lately developed a great liking for coursing. He has one or two greyhounds now and has made arrangements to purchase and own some dogs that will make a record on the sward for his kennels.

The St. Bernard Club will hold their regular meeting on Monday evening, January 10, 1898, at the office of Dr. Cluness, 406 Sutter street. A full attendance is expected as business of importance will be transacted.

### THE MAIZELAND KENNELS, RED HOOK, N. Y.

H. CLAY GLOVER, D. V. S.—Dear Sir:—I take great pleasure in recommending your Mange Cure. Have used it in my kennels for over three years, and always with entire satisfaction. Have also found it an excellent remedy in the stable for scratches. Yours truly,

LAWRENCE TIMPSON.

Jimmy Anthony, the popular proprietor of "The Bantam" located just opposite the entrance to Ingleside Coursing Park has fitted up new and commodious kennels in his place. Billy Murphy, who is associated with him, has the justly earned reputation of being one of the best greyhound trainers on the Pacific Coast. Billy has advised his friends to go into coursing. He has started the nucleus of a kennel himself by the recent purchase of two fleet dogs and will devote his time and attention to the training of his own and such other dogs as may be intrusted to his care.

Handlers Coutts, Walters, Dodge and Allender have been at Bakersfield for nearly a month preparing their dogs for the field trials. All the principal dogs to run are now on the ground. John Lucas has recently gone there with a string of pointers including Lady C., Wicklow, Alec C. and Pedro.

### Kennel Registry.

Visits, Sales, Whelps and Names Claimed published in this column free of charge. Please use the following form:

#### VISITS.

E. B. Simpson's (Sacramento) fox terrier bitch Golden Restless (Warren Sage—Ch. Golden Jewel) to J. B. Martin's (San Francisco) Golden Flash II. (Blemton Reefer—Blemton Spinaway) January 2, 1898.

#### WHELPS.

Mrs. C. G. Saxe's (San Francisco) Great Dane bitch Mabel S., whelped December 25, 1897, 12—6 dogs to Lord Londesbrough.

## ROD.

### Coming Events.

Jan. 11.—Regular semi-monthly meeting of the San Francisco Fly Casting Club. Office of State Fish Commission, Flood Building, San Francisco.

### NOTICE TO ANGLERS.

Every angler is invited to drop us a line occasionally, telling us of the condition of the streams they have visited and the killing lure of the number and size of the fish caught, or any other item of interest to anglers.

### The Song of the Jellyfish.

As the waves slip over my cuticle sleek,  
They tickle my soul with glee,  
And I shake with a visceral, saccharine joy  
In the place where my ribs should be.  
For I'm simply a lump of limpid lard,  
With a gluey sort of a wish  
To pass my time in the oozing slime—  
In the home of the jellyfish.

But I'm happy in having no bones to break  
In my unctuous, wavering form,  
And I haven't a trace—nor indeed any place  
For the congerous vermiform.  
For I'm built on the strictest economy plan  
And the model was made in a rush,  
While essaying to think almost drives me to drink,  
For I'm simply a mass of mush.

At night when I slide on the sandy beach  
And the moonbeams pierce me through,  
The tears arise in my gelatine eyes  
As I gurgle a sob or two.  
For I wonder—oh, me!—in the time to come,  
When the days are no longer young,  
What fish's digestion will suffer congestion  
When the end of my song is sung.

—Jarvis Keiley in Life

### Steelhead Fishing in Russian River.

Never in the history of Russian river angling has the fishing been so good as during the last two weeks. A phenomenal run of game and hungry steelheads have afforded grand sport to the fisherman. Up to date over three hundred royal fish, averaging in weight seventeen pounds, have given the anglers a plethora of sport which will make those days memorable in the annals of angling in the river. Among the sportsmen who have been fishing there we note John Davis, W. E. Bachellor, Dr. Lowry, C. T. Reed, A. T. Vogelsang, John Butler, Al. Wilson, W. R. McFarland, Otto Muser, Del Cooper, George Walker, Capt. Cumming, J. Searls, Chas. Green and others. The bar at the mouth of the river closed again on Friday last week, thus affording the steelheads that were lodging in the deep pools near Duncan's Mills an opportunity to ascend the river.

The Tomales bay fishermen should be looked after by the Fish Commissioners. Considerable and persistent complaint has been made concerning their illegal and rapacious methods in depleting the steelhead supply in the waters at Point Reyes. Further indifference on the part of the law officers cannot consistently be indulged in.

John Benn is still at the old stand, 402 Montgomery street, attending to orders for his famous flies as of yore. The announcement that John contemplated taking up his residence at Fortuna was premature. He will not leave the city for Eel river until next fall, if he goes at all.

Deputy Fish Commissioners Davis and Lowe made an effective and neat capture of a first class net from unscrupulous fishermen at Duncan's Mills on the night of January 2d. The culprits are known and will doubtless have to face the legal consequences of their actions.

The State Board of Fish Commissioners have sent up to Eureka, per steamer Pomona, for distribution in the Eel river, twenty cases of quinnat salmon eggs taken from the Battle Creek hatchery.

The local anglers at Healdsburg are now having quite a lot of sport with the fish that have gone up the Russian river. Some fine individual catches of large steelhead have been made.

The angling members of the Tamalpais Club are awaiting the rain with quite a little patience, knowing that they will have sport with the salmon in the Throckmorton lagoon.

The anglers at Point Reyes last Sunday were not very successful. The creek and tide water did not offer much sport. Two fair-sized hook-bills were caught by "Andy."

Salmon are running freely in the Little Sur, 23 miles down the coast from Monterey.

SAN FRANCISCO HEADQUARTERS—BAKER & HAMILTON

# ZOMBRO, 2:11, THE GREATEST TROTTER IN AMERICA,

Has trotted 40 heats as a three-year old better than 2:27 1-2, 31 in 2:20 or better, and 12 in 2:15 or better. Won 13 races out of 17 starts as a three-year-old, and a total of \$5,400 in his three-year-old form.

ZOMBRO, 2:11, brown stallion, foaled in 1892, stands 16 hands high and weighs 1,200 pounds, and is one of the most perfect formed horses in America. His career on the turf in 1895 stamps him as one of the greatest three-year olds the world has ever seen.

ZOMBRO, 2:11, sired by McKinney, 2:11 1/4, son of Alcy-one, by George Wilkes.

ZOMBRO, 2:11, first dam Whisper, by Almont Lightning, son of Almont 83, dam by Mambrino Pilot 29.

ZOMBRO, 2:11, second dam May Berry, by Kentucky Clay 191, whose dam is also the dam of Mambrino Patchen and Lady Thorne, 2:15 1/4.

ZOMBRO, 2:11, third dam by Edwin Forest 49.

Whisper, the dam of Zombro, was bred and raised by Gen. W. T. Withers, of Lexington, Ky., and is a handsome brown mare, 16 hands high, weighing about 1,150 pounds. She has never been beaten in the show ring, always carrying off first prize.

ZOMBRO, 2:11, won the first prize over all three-year-old stallions at the Horse Show in San Francisco in 1895.

This grand stallion will make the SEASON of 1897 at SACRAMENTO RACE TRACK from FEBRUARY 1st to about JULY 1st, 1897. Terms, \$50 cash at the time of service, with usual return privileges.

## GREAT Thoroughbred and Trotting Broodmare — AUCTION SALE —

Tuesday, January 18, 1898,

AT 10 A. M., AT

Salesyard, cor. Van Ness Avenue and Market Street.

PALO ALTO STOCK FARM

Having decided to consolidate all its horse-breeding interests at that location, it becomes necessary to dispose of

FIFTY HEAD OF RUNNING AND TROTTING-BRED MARES AT PUBLIC AUCTION

On the above date. Among the thoroughbred mares are some of the noted animals which have made the farm famous. These mares are all stunted to Flambeau, Racine, Flood, imp. Mariner and imp. Loyalist, stallions in service at the farm. The trotting mares are by Electioneer, Azmoor, Piedmont, Electricity, Nutwood, Dexter Prince, Paola, etc., and stunted to such noted young sires as Monaco, Advertiser, Wild-nut, Stephen and the Russian stallion Verbovstchik. A number of these mares are well broken and will make admirable roadsters if not desired for breeding. Several choice roadster geldings will be offered at the same time. The horses will be at the salesyard SUNDAY, JANUARY 16th, where they may be seen until day of sale. Catalogues ready SATURDAY, JANUARY 8th. The running mares will be sold at the beginning of the sale.

KILLIP & CO., Live Stock Auctioneers, 11 Montgomery St., S. F.

## Ingleside Races.

FRIDAY, JANUARY 7.

First race, seven furlongs, selling, for three-year-olds and upward, purse \$350. Fred Gardner (Piggott, 110) first, cleverly by three-quarters of a length; Charles A. (Spencer, 107) second by three quarters of a length; Nonchalance (Golden, 107) third. Triumph, Draught, Twinkle Twink and Atticus finished as named. Time, 1:31½.

Second race, six furlongs, for three-year-olds and upward, purse \$350. Catawba (McNichols, 101) first, handily by one length; Hardly (Clawson, 99) second by two lengths; Highland Ball (Golden, 114) third. I Don't Know, Prince, Tyrant, The Dipper, Einstein, Hermoso and Carlist finished as named. Time, 1:17.

Third race, one mile, selling, four-year-olds and upward, purse \$400. Collins (Gray, 102) first, readily by two lengths; Schiller (W. Martin, 109) second by a nose; Benamela (Clawson, 105) third. Dick Behan, George Palmer, Cavallo, Marcel and Kaiser Ludwig finished in the order named. Time, 1:44.

Fourth race, seven furlongs, four-year-olds, purse \$400. Mercurio (Shields, 107) first driving by a neck; Newgatherer (W. Martin, 111) second by four and one-half lengths; Alma (Thorpe, 109) third. Pleasanton and Los Troncos also ran. Time, 1:31.

Fifth race, seven furlongs, selling, four-year-olds and upward, purse \$350. Harry Thoburn (Thorpe, 104) first easily by eight lengths; Jack Martin (Stevens, 114) second by one and one half lengths; Lena (Gray, 102) third. Peril, Hermanita, Miss Prim and Stenter finished as named. Pat Murphy and Hazard were left. Time, 1:30½.

Sixth race, one mile, three-year-olds, purse \$500. Morinel (McNichols, 104) first driving by a head; Linstock (W. Martin, 109) second by one and one-half lengths; Los Prietos (Golden, 106) third. La Goleta and Dr. Bernays finished in the order named. Time, 1:44½.

SATURDAY, JANUARY 8.

First race, seven furlongs, three-year-olds, purse \$350. Imperious (C. Sloan, 114) first easily by two lengths; Glorian (W. Martin, 114) second by one and one-half lengths; Prestar (Clawson, 110) third. Maj. Hooker, Formella, Duke of York II., Texarkana, Dr. Bernays and Irrigator finished in the order named. Time, 1:31½.

Second race, six furlongs, selling, three-year-olds and upward, purse \$350. O'Connell (W. Martin, 110) first easily by three-quarters of a length; Martha II. (Clawson, 96) second by three lengths; Zamar II. (Thorpe, 102) third. Myth, Lost Girl and Peril finished in the order named. Time, 1:15½.

Third race, one and one-eighth miles, selling, four-year-olds and upward, purse \$400. Souffle (Thorpe, 109) first, easily by one length; Collins (Gray, 105) second by three-quarters of a length; Personne (O'Connor, 102) third. Benamela and Little Cripple, also ran. Time, 1:57½.

Fourth race, one and one-half miles, handicap, over six hurdles, three-year-olds and upward, purse \$400. Viking (McCauliffe, 123) first easily by five lengths. Silverado (Stanford, 140) second, by four lengths; Gov. Budd (Peters, 147) third. Mestor, Monita and Esperance finished in the order named. Time, 2:54½.

Fifth race, one mile, handicap, all ages, the Shreve Cup purse \$1,000. Fleur de Lis (W. Martin, 113) first, easily by two lengths; Imp. Tripping (Piggott, 110) second by a head; Schiller (Clawson, 103) third. Rubicon, Morelito, Lucky Dog and Libertine finished in the order named. Time, 1:43½.

Sixth race, one mile, selling, three-year-olds, purse \$350. Bonita (Clawson, 105) first, driving by one length; Geo. Lee (Piggott, 109) second by six lengths; Dr. Marks (Thorpe, 107) third. Don Luis, Muscalado and Lady Ashley finished as named. Time, 1:44½.

## Oakland Races.

MONDAY, JANUARY 10.

First race, six furlongs, selling, for three-year-olds and upward, purse \$300. Sorrow (J. Woods, 85) first, handily by one and one-half lengths; Don Falano (Thorpe, 110) second by two lengths; Howard (McDonald, 107) third. Kaiser Ludwig, D. J. Tobin, Sutton, Our Climate, Mrs. Shade and Outgo finished in the order named. Time, 1:16½.

Second race, five and a five furlongs, three-year-olds and upward, purse \$350. San Venado (Thorpe, 104) first, easily by six lengths; Blarney Stone (O'Connor, 104) second by three lengths; February (Spencer, 111) third. Aluminum, Lucky Star, Castake, Mahogany, Sport McAllister and Lorena II. finished in the order named. Time, 1:09.

Third race, one and one-eighth miles, selling, mares, four-year-olds and upward, purse \$400. Widow Jones (O'Connor, 95) first all out by one and one-half lengths; Palomacita (Meany, 90) second by two lengths; Thelma (Gray, 90) third. Mamie Scott and Marcel also ran. Time 1:58½.

Fourth race, six furlongs, California Maiden Stake, value \$1,000. Eddie Jones (Thorpe, 122) first easily by three lengths; Ravelette (Spencer 117) second by a neck; Bow and Arrow (Gray, 109) third. Flandes and Catawba finished as named. Time 1:16½.

Fifth race, seven furlongs, all ages, the Golden Gate Stakes, value \$1,000. Col. Wheeler (Thorpe, 107), first easily by four lengths; Satsuma (Jones, 117), second by six lengths; Dr. Sharp (O'Connor, 99), third. Fleur de Lis, St. Calatine and Shasta Water finished in the order named. Time, 1:27½.

Sixth race, one mile, selling, four-year-olds and upward, purse \$400. Sweet Faverdale (Thorpe, 108), first driving by a neck; Harry Thoburn (Spencer, 104), second by a head; Perseus (Holmes, 107), third. Polish, Bernardillo, Serena, Allahabad and Hazard finished in the order named. Time, 1:44½.

TUESDAY, JANUARY 11.

First race, six furlongs, maiden three-year-olds, purse \$300. Mieleton (Thorpe, 112) first easily by eight lengths; Roulette Wheel (Clayton, 105) second by a head; Mainbar (Spencer, 122) third. Brambella, Rose Maid, The Dipper, Forest Guard, Be Happy, Henry C. T. McHugh finished in the order named.

Second race, six furlongs, selling, three-year-olds, purse \$350. Al Koran (Spencer, 116) first cleverly by one and one-half lengths; Abina, (Jones, 103) second by two lengths; Moringa (Devio, 105), third. Dr. Marks, Colonial Dame, (Lee Kylo formerly Kyle), El Moro, Glenover, Little T. G., Rosa and On Gua Nita finished in the order named. Time, 1:17½.

Third race, one mile, four-year-olds and upward, purse \$400. Rubicon (Thorpe, 114), first easily by two lengths; Double Quick (Shields, 124), second by one-half length; Paul Griggs (Gray, 109), third. Newgatherer, Outgo, Gallant and Don Daniel finished as named. Time, 1:44½.

Fourth race, six furlongs, fillies and mares, three-year-olds and upward, purse \$400. May W. (Morse, 104), first very easily by one length; Tea Rose III. (Spencer, 99), second by two and one-half lengths; Midnight (Thorpe, 104), third. Peril and February finished in the order named. Time, 1:15½.

Fifth race, seven furlongs, selling, four-year-olds and upward, purse \$400. Argentina (Clayton, 108) first, handily by three and one-half lengths; Osric II (Thorpe, 104) second by three lengths; Earl Cochran (H. Brown, 101) third. Sly, Fashion Plate, Alvero, Hermanita and Charlie Reif finished as named. Time, 1:29½.

Sixth race, one and one-sixteenth miles, selling, four-year-olds and upward, purse \$400. Personne (Thorpe, 104) first, easily by one and one-half lengths; Sir Dilke (Conley, 105) second by a head; Cromwell (Kitley, 105) third. Collins and Song and Dance also ran. Time, 1:51.

WEDNESDAY, JANUARY 12.

First race, five and one-half furlongs, selling, four-year-olds and upward, purse \$300. Dolore (E. Jones, 103) first, easily by two lengths; Veragua (Hennessey, 109) second by a head; Heritage (Spencer, 102) third. Spry Lark, Lillian M., Capt. Rees, The Gossip, Bobolink, Fannie E., Pollock, Red Bird, Restless, Mt. Roy, Sky Blue, Scoldian, Red Spinner, La Fontera and Torpeda finished in the order named. Time, 1:11½.

Second race, five and one-half furlongs, selling, four-year-olds and upward, purse \$300. O'Fleeta (Clayton, 106) first driving by a head; Lucky Star (McNichols, 102) second by one length; Jack Martin (Stevens, 102) third. Roadwarmer, Basel, Distinction, Sea Spray, Our Climate, Emma D. and Monitor finished in the order named. Time, 1:09.

Third race, seven furlongs, selling, three-year-olds, purse \$350. Bonito (Conley, 104) first, driving by three quarters of a length; Attainment (E. Jones, 103) second by one length; Imperious (Clayton, 107) third. Tenrica, Morinel, Tiger Lily, Duke of York II. and Towanda finished in the order named. Time, 1:29½.

Fourth race, six furlongs, three-year-olds, the Lissak Stakes, value \$1,250. Traverser (Thorpe, 117) first, easily by six lengths; Dr. Sharp (Clayton, 107) second by one length; Count of Flanders (Conley, 117) third. Linstock, Col. Dan and St. Calatine finished as named. Time, 1:14½.

Fifth race, one mile, selling, four-year-olds and upward, purse \$400. Garland Barr (Conley, 105), first driving by a nose; Perseus (O'Connor, 97), second by eight lengths; Souffle (Thorpe, 106), third. Serena and Cash Day also ran. Time, 1:43.

Sixth race, five and one-half furlongs, selling, four-year-olds and upward, purse \$300. Scotch Rose (Thorpe, 105), first easily by six lengths; I Don't Know (Morse, 104), second by two and one-half lengths; Torsion (Clayton, 107), third. R. Q. Ban, Major Cook, Walter J. and Geo. Miller finished in the order named. Kaiser Ludwig also ran. Time, 1:08½.

THURSDAY, JANUARY 13.

First race, six furlongs, selling, four-year-olds and upward, purse \$300. Ricardo (McDonald, 104), first easily by two and one-half lengths; Coda (E. Jones, 102), second by three lengths; Veragua (Hennessey, 107), third. Blue Bell, Outgo, Tom Anderson, Diablitia, Gallant, Paso Tempo, D. J. Tobin, Merrilake, Mrs. Shade, Pollock and Homestake finished in the order named. Time, 1:17½.

Second race, five and one-half furlongs, maiden, three-year-olds, purse \$350. La Maroma (Hennessey, 107), first driving by a head; Flandes (Morse, 112), second by a head; Bow and Arrow (Gray, 109), third. Mainbar, San Durango, Eutrata, Ballister, Royal Prize, Ideal and Agnes Tobin finished in the order named. Time, 1:11.

Third race, one and one-sixteenth miles, selling, for four-year-olds and upward, purse \$400. Fashion Plate (Holmes, 97) first, driving by three-quarters of a length; Collins (E. Jones, 104) second, by six lengths; Song and Dance (Spence, 106) third. Cromwell, Widow Jones, Argentina and Marcel finished in the order named. Time, 1:50.

Fourth race, seven and one-half furlongs, three-year-olds, purse \$500. Morelito (C. Shaw, 115) first easily by a head; San Venado (Clayton, 110) second, by one length; Hardly (Conley, 105) third. Dr. Bernays and Mistletoe also ran. Time, 1:36.

Fifth race, one mile, selling, four-year-olds and upward. Purse \$400. Harry Thoburn (Spencer, 100) first, very easily by two lengths; Thelma (Gray, 90) second by three-quarters of a length; Earl Cochran (H. Brown, 102) third. King William and Cappy finished as named. Time, 1:43.

Sixth race, six furlongs, selling, four-year-olds and upward, purse \$300. Palmerston (Tompkins, 114) first, easily by five lengths; Don't Skip Me (Conley, 105) second by a head; Una Colorado (Hennessey, 107) third. Charles A., Benamela, George Miller, Geo. Palmer and Stenter finished in the order named. Pescador was left. Time, 1:16.

## Master Horse-Shoers' Association.

The Master Horse-Shoers held their regular weekly meeting last Tuesday evening. Two candidates were initiated.

The charter was adopted on Tuesday evening, after which it was handsomely framed and hung on the wall of the assembly-room.

The committee, consisting of the following gentlemen—Mr. M. Oslea, Mr. T. J. Crowley and Mr. J. F. Twomey—who were appointed to revise the constitution of the Association, reported progress.

A communication was received from Mr. Moore, Secretary-Treasurer of the National Association, bearing the information that twelve cities organized locals during the year of 1897, which clearly shows that the light of intelligence is spreading amongst the horse-shoers.

Horse-shoeing in the past held out a dreary prospect to the apprentice who was chosen on account of his strength alone—but now the situation is different. Boys are chosen after consideration of their superior intellects, and in the future can look forward to the condition of their chosen craft with pride, feeling confident that their future will be a bright and prosperous one.

THE Ingleside management are making arrangements for a great day's racing on January 24th. The programme for that day will be of exceptionally high order.

## The Ten Broeck—Mollie McCarthy Match.

A correspondent asks us to reprint an account of the famous Ten Broeck—Mollie McCarthy match with which some men, now retired from the turf, were very prominently connected. The subjoined, from the pen of an eye witness, appeared in an Eastern exchange recently and doubtless will prove more interesting than the accounts written at the time of the race:

Another notable four-mile heat race was a match between the then "king of the turf," Ten Broeck, and the California equine wonder, Mollie McCarthy. It took place at the Churchill Downs, Louisville, on one of the hottest Fourth of Julys ever seen in the West, the thermometer in the afternoon indicating over 100 degrees Fahrenheit in the shade. The gate receipts showed that over 100,000 persons were present. It was a speculative race, inasmuch as the track had been rented for the day by Budd Doble and J. H. Connolly, of Chicago, but the racing was under the control of the regular officials of the track.

It was a day of great excitement. Many persons fainted from exhaustion caused by the heat, and then intense indignation was excited by a report which gained considerable credence that the "big boss," Ten Broeck, had been got at and dosed in the interest of some gamblers who were taking the short end of the odds. Ten Broeck at the time held the one, the two, the three and the four-mile records, and was almost idolized by the Kentuckians, who thought him the greatest horse alive and were willing to back him with their last dollar. Had he not won no one can tell what vengeance would have been wreaked on those suspected of having been mixed up in the alleged crooked work.

Mollie McCarthy was ridden by a white jockey named Howson, who was a very capable rider indeed. A light mulatto named Will Walker had the mount on Ten Broeck. He is now a well known trainer. He had ridden Ten Broeck in most of his notable races, and knew him as a father knows his child. Just before the horses were sent to the post the president of the association, Colonel M. Lewis Clark, who acted as presiding judge of the race, summoned Walker before the stand, giving him a warning such as I have never heard administered to any jockey in my turf career. The Colonel is a very fine-looking specimen of Kentucky chivalry, and he is always attired faultlessly. On this occasion he paid especial attention to his dress, and he looked superb. Said he in substance: "Walker, there is a suspicion, which I have no doubt is unfounded, that you do not intend to ride the 'big boss' out today. I want to say to you that there are 5,000 good judges of racing here to-day who have field glasses. Every one of these glasses will be leveled on you from the start to the finish of this contest, and I want to say to you that if you do not make every effort in your power to win the crowd will take you and hang you to that apple tree in the infield."

After the race Walker was asked what he would have done had he not won, and he replied, "I never would have finished the race, but would have ridden out of the gate down by the stables and gone lickity split for Portland."

But I anticipate. Ten Broeck had the choice of positions, and of course took the rail, Howson dropping down barely an open length behind. As they neared the second turn Howson attempted to send Mollie McCarthy to the front between Ten Broeck and the rail, and Walker, fearing that there might be a collision between the horses, or a wrangle about interference, rode wide in order that there would be no trouble. He lost fully sixty feet. This manoeuvre was repeated at each turn, and much was the surprise expressed at Walker's permitting it, but as Ten Broeck kept easily to the front, it was thought that the boy knew what he was about. They were only well into the third mile of the first heat when the mare gave out. She switched her tail, "propped" in front, and Ten Broeck shot away from her as if fired out of a gun. As soon as Walker found he had the race won, he pulled his mount down to a gentle lope, finishing the heat at his ease. The cheering which greeted the victory was heard for miles. I don't know that there was any truth in the report that Ten Broeck had been "dosed." In company with Major Ben Bruce, of the Kentucky Live Stock Association Record, of Lexington, I went over to his stable and saw the "big boss" being cooled out. He appeared to be very tired, and his eyes had a sleepy, "dopey" look. Twice he tried to lean against the boy holding his head as though utterly tired and exhausted. Some of the bystanders declared that the horse smelled of laudanum, but one of his "rubbers" said that there was a little in a liniment used on his legs, but none had been given him internally.

Racing was no cleaner in the old days than it is at present.

Office C. B. Dean, 23-25 Church St.

OWEGO, N. Y., Nov. 27, 1897.

AMERICAN SHEARER MFG. CO. Gentlemen:—Replying to your letter of inquiry Nov. 25th I can say that I have used one of your clipping and grooming machines every day since I received the machine, have done all the clipping twice a year of my own stock besides clipping horses enough the first year outside of our own to pay for the machine. It would be hard work to go back to the old way of grooming horses. I consider it one of the best investments I ever made.

Very truly yours,

C. B. DEAN.

"HIDALGO" in the Los Angeles Porcupine truthfully says: "The man who goes out to Agricultural Park and does not go over to see Sky Pointer, stabled near by, misses the sight of a very wholesome looking horse. Aside from the fact of his being an own brother to Star Pointer, the only horse that has so far done a mile inside of two minutes in harness. Sky Pointer is a magnificent individual 'himself. A good solid bay in color, a tiny star in his broad forehead lights up a very intelligent face, and his head, while large, is clean and bony. The body is a wonder of strength, and though he is a blocky-built horse he stands just sixteen hands. His shoulders rake back beautifully, while his arms and gaskins are enormously muscled. We saw a better looking horse than we expected, to be candid about it; and aside from his excellent temper and powerful formation, it must be borne in mind that he is a clear outcross for every mare in this State. From mares uniting the blood of Sultan, Echo and Nutwood he ought to get the fastest horses in the world."

PLAINFIELD, N. J.

I find ABSORBINE is excellent for many things.  
Yours truly,  
J. W. COOLEY.

CAPPY was so badly out down Thursday in the fifth race that he will probably never race again.

## SPECIAL DEPARTMENT

EDITED AND CONDUCTED SOLELY BY

JOSEPH CAIRN SIMPSON.

**THE RACING ORDINANCE.**—More properly christened an ordinance to interdict racing in the county of San Francisco, that is now before the Board of Supervisors, but a shorter "side-head" being preferable, that is selected.

So far as I have seen the arguments offered in favor of the passage of the ordinance are of the same old stamp, a portion of them, perhaps, uttered in all sincerity and with some logical basis, many of them of the cheap clap-trap, frequently reiterated order, dependent upon bigotry and fanaticism for their main supporters. The evils of gambling the favorite theme. That gambling has wrought injuries is beyond dispute. That the "gambling instinct" has advanced the world from barbarism to the enlightenment of the present day can be demonstrated with equal certainty.

That speculations on the racecourse are no more reprehensible than dealings on "exchanges" is clearly susceptible of proof. From one point of view there is a vast difference. Millions at stake; even one man in the mammoth operations of the boards may lose or win more money, at a single venture, than is risked on the turf by all the speculators in months, and there is also the difference that the stock, grain, or produce gambler has less "protection" than one who takes chances at the races.

There is one plea, however, presented by the supporters of the prohibitory ordinance that may have a wider influence than moral precepts, that being what may be termed the financial aspect.

One section of that argument is that Eastern people, who take part in the races, carry out of the country a good deal of money that rightfully belongs to California.

That is an assertion which is extremely difficult to sustain or disprove. Could it be decided authoritatively I have not the least doubt that excess of expenditures over receipts, by the whole body of Eastern visitors, would astonish even those who are in the best position to know. Several hundreds of men and horses to bring here at big cost, to be sustained for months at huge expense.

Those who talk so flippantly about money going out of the country on account of the races should see some of the bills that owners of horses have to pay at the end of each month. Though the stables may not contain but a few horses, these, with men and boys engaged to take care of them, consume a great deal of food, and the wages are spent here in place of being carried away.

I am in a position to know something about business affairs in the vicinity of the California Jockey Club course. Have lived within three quarters of a mile of the entrance gate of the track for twenty-three consecutive years, and the change even in the last two years is almost marvelous.

Business folk prospering who were struggling and worrying previous to the opening of the track, few vacant houses where signs "to rent" were on a goodly number of the dwellings. Then compare the business of the district surrounding the Bay District track before it was broken up and now. But in mentioning the appreciation of business in the immediate neighborhood of the tracks, contiguity bringing it more conspicuously into view, the advantage to the whole city should be kept in remembrance. All San Francisco, the whole of Oakland are gainers, and while the splash and disturbance of the water when a stone falls into the pool attract the observer, the circles extend to the uttermost limit. As a "business proposition" the advantages accruing to San Francisco through the courses at Ingleside and Oakland will turn the scale so far in favor of sustaining racing that no business man of ordinary perspicuity can fail to be convinced that efforts to break them up are disastrous to a large majority of the residents. *Felo de se*, the right name of the act of those who base their opposition on the financial problem, when residents of the city and connected in any way with its growth and prosperity.

The statement that people go to the races and lose money they ought to pay to their creditors is true in a measure. Plenty of people who prefer the enjoyment of luxuries to paying their honest debts, and there is little difference, in my estimation, between one who pays a big price for a pew in a fashionable church, takes pride in hearing the jingle of his money as it falls into the contribution box, while his tailor, grocer, butcher or others he owes are left to struggle as they best can, or the poor devil who fancies that his only two dollars invested on a long shot may enable him to pay bills that he cannot meet in any other way. If there is a difference it is in favor of the race-goer. Not so pretentious, nothing like so able to pay, and, in all probability, had he an amount equal to what others squander for strictly moral superfluities would pay his debts as well as take a "flyer" on the races. There are crowds of people in these times, when money is so scarce, who cannot pay their bills, try ever so hard, who never wager on race or any other gambling device. Quite a number of my acquaintances who pay their bills with money earned at the races, and if denied that means of making a livelihood would be in serious trouble to secure food and shelter.

I have likened the swash and the circles made by a stone thrown into the water to the effects of racing, though in place of a pool quite a large-sized lake when racing, in the neighborhood of San Francisco, is the weight that starts the waves of prosperity. The winter racing here is a heavy body forcing the circular wave to cover a long distance on every side of the center before it subdues into a ripple on the shore. Safe to say that from San Diego to Siskiyou, from the Pacific ocean to far beyond the crown of the Sierras, there are financial benefits, and that California gains immensely from the establishment of racing on so large a scale is beyond all reasonable contention.

So far there are only two sections of the United States where winter racing can be carried on successfully; San Francisco, in connection with Oakland, and New Orleans. Both of these places offer inducements to visiting horsemen outside of the money attractions. They afford the opportunity to have horses in superior condition for the big centers of summer racing than they would be if denied the privilege of winter exercise. Not only an exercising ground, but a preparatory school, college and university, practical, technical the business acquired, as well as training muscles and lungs. The lessons of the past are reliable guides for the fu-

ture, and when the number of Eastern horses now here is compared with those of 1895 and 1896, and 1896 and 1897, it is altogether probable there will be a corresponding ratio of improvement from now on. The greater the influx the more profit for California, and the aim of everyone who is desirous to advance the prosperity of the State should be to give permanency to the institution that has fostered the industry into its present proportions. Much more to say from a purely business-standpoint, a great deal from other points of view, and while it will be a labor of love to do whatever I can to avert the danger, sincerely trust that there will be no necessity. The good sense of the majority of the Board of Supervisors must surely prevail.

\* \* \*

**A STRIKING EXAMPLE.**—If the San Francisco Board of Supervisors will take the trouble to look over the history of racing and questions connected with racing, for the past five years in Chicago, give the subject fair consideration and after that I will be greatly mistaken if the proposed prohibitory ordinance secures three votes.

Never so fierce a war, or it may be better to state, never so strong a determination to break up racing when connected with betting. That meant that racing, whether galloping or harness horses were the contestants and, consequently, equally as vigorous a fight on the part of those who struggled to retain the sport. Law and a big majority of the people enlisted under the banner of the aggressors, and as fanaticism, bigotry and intolerance incite violent passions, the victory when won, was hailed with acclaim. The opposition to closing race courses and trotting tracks was not confined to those who were connected with these places, owners of horses and the large number of people dependent on racing for a livelihood. Conservative men who could not be swayed by prejudices of those who would fain control all in accordance with their narrow views, or support another division, composed of fanatics, always anxious to make everyone subservient to their domination, saw that the plans of the "civic federation" meant great injury to the business of the city, but were powerless to avert the evil so long as the passion prevailed. Then there were men closely connected with one branch of "the sport" who believe that the absence of speculation on the races would not be a drawback, and that the loss of revenue from that branch would be fully counterbalanced by an increased attendance of people of a higher grade of morality than the usual supporters of racing.

The trial came. Racecourses were closed. If "legitimate" racing could not be made successful without an opportunity for speculating on the contests, then harness racing, which did not present such a popular field for gambling, would take its place. A vain conclusion. The most powerful club in the country, The Western Trotting-Horse Breeders Association, essayed the task. That grand racing curriculum, Washington Park was secured, large purses given, the best horses in the country brought together, management ultra-satisfactory, the press laboring to augment the interest, there could not be more favorable auspices for the success of the meeting. A comparative failure. The grand attendance predicted of those who would put in an appearance if the taint of gambling were removed, stayed away. Those of the class while reprobating the sin, and who formerly visited the track, did not appear. The excitement that had enticed them was lacking, the attractions so greatly reduced that the races were no longer relished.

Thousands of people make trips to Monaco and throng the Monte Carlo Casino, who never gamble on the games, but are attracted by the scenes in the hall. Were gambling suppressed, all the other enchantments of this world-famed place retained, a large portion of the non-gambling visitors would not think it worthy of even a brief stay.

Another trial was made, and in 1896 the same influential association essayed a big meeting. A still more disastrous failure. A harness-racing meeting with all the advantages presented, but without speculation entailed serious loss, the Association withdrew from the struggle.

Then a large majority of the business folk of Chicago, many others who had been active supporters of the civic federation, learned how detrimental to the interests of the city the crusade had been. Gambling was not squelched. Plenty of opportunities for gratifying the nearly universal passion without betting on races. Legal and illegal chances to woo dame Fortune, the legalized being more dangerous, far more perilous to the devotees than speculations on racing events. There was a tacit understanding that laws which came in the way of prosperity, that failed in every sense to be beneficial should not be enforced. Better the breach of them than the observance, and hence when racing was resumed, a few months ago in Chicago, there was no opposition; an "unqualified success." If interdicted in San Francisco by municipal ordinances there can only be the same results. The example of the "City on the Lake" should not be disregarded.

\* \* \*

**A MAGNANIMOUS OFFER.**—When the intelligence became public that an attempt would be made to pass an ordinance that would virtually close Ingleside there was a prevailing opinion that the action would be satisfactory to the California Jockey Club, as that would give them a monopoly of winter racing in California.

That was not my belief, so far from that as to feel assured that the C. J. C.'s influence would be on the other side. Too much good sense and acumen on the part of its managers to stand aside when a war was imminent that threatened the horse interests in all parts of the State. Successful in San Francisco the campaign would cover the whole country, and if other victories could be gained then California would be in the same condition as New Jersey.

And with this difference. The capital invested in racecourses, tracks, breeding farms, horses, and other adjuncts of racing, so far exceeds the amount at stake in New Jersey that what might appear to be a wild estimate of the difference fall far short of the real sum.

There is not a single individual in any way connected with thoroughbreds or harness horses who is not interested in the welfare of the Pacific Coast Jockey Club.

To close Ingleside by a law that would stop all speculations connected with racing is a menace to every track in the State. A threat of the same treatment, or rather an absolute assurance, that if successful in putting the metropolis under ban, all other parts of the commonwealth should surely wear the fetters forged by fanaticism and riveted by despotism, that despotism more dangerous than any other, that which is inspired by bigotry.

Apart from its being the policy of the C. J. C. to aid the sister association in sustaining their joint interests, I did not expect the magnanimous offer of the free use of its grand park to hold alternate meetings the same as is now followed, to the P. C. J. C. That the offer was prompted by the truest kind of hospitality, and without reference to any other motive, I am convinced after a conversation with Mr. T. H. Williams, Jr., on Wednesday last. But a more effective blow to the passage of the ordinance could not be struck.

The blind, even those who are afflicted with the utter blindness of preconceived ideas, cannot fail to see the bearing. All the many pecuniary advantages accruing from the races in San Francisco, transferred to the other side of the bay by those who are supposed to guard the interests of their constituents. A sorry plea that they are the guardians of the morals of the people who live in their bailiwick, even to the extent of minor breaches of the moralistic code, and that they are justified in driving those who fancy the wild excitement of wagering a few dollars into another county. I cannot think it possible that a majority of the Board will sanction such a movement,

JOS. CAIRN SIMPSON.

## Four Great Race Horses and Sires.

In the history of the American turf four imported horses stand out prominent by reason of the vigor and greatness of their progeny and descendants. Diomed, winner of the Epsom Derby of 1780, brought to this country when well advanced in years, founded a line distinguished in every generation and now represented best by the sons and daughters of Emperor of Norfolk and El Rio Rey. Glencoe, imported by James Jackson of Alabama in 1836, made a very great impression on the breeding interests to the United States, and it is doubtful if there is a stronger male line of descent in the world than that which reads Glencoe, Vandal, Virgil, Hindoo and Hanover.

Lexington, a very great race horse and a very great sire, added a new and valuable element of great influence among our bloodlines that is still second to none in value, as the doughty deeds of Henry of Navarre have recently demonstrated. The fourth of the illustrious quartet, Bonnie Scotland, was second to none in the speed, hardiness, courage and power of his descendants. Other horses, imported at various periods have contributed valued elements to our thoroughbred strains, but none have equaled the widespread influence of the four named.

The death of Uncas a few days ago calls attention to the fact that the sons of Lexington have now nearly all gone the way of all flesh and it is doubtful if more than four or five are now living. Fiddledicks is at Mr. Belmont's place near Lexington, Ky. Duke of Magenta is a stable companion of Meddler at Mr. Forbes' place near Boston. Wyndham Walden still has the hero of the Centennial year, Tom Ochiltree, on his farm near Middleburg, Md. Wanderer may still be alive, but if any others are living it is in forgotten obscurity.

But in his day, Lexington, a native bred horse and fifth in the direct male line from Diomed, was deemed the greatest sire ever known in America, and ultra-enthusiasts proclaimed him the greatest in the world. Year after year his sons and daughters won nearly everything that was worth winning and it was anticipated that such horses as Kentucky, Norfolk, Harry Bassett, Tom Bowling, Kingfisher and other great performers could not fail to be as great in the stud as on the track. But no son of Lexington proved a distinct success as a sire, though it cannot be fairly said that they were wholly failures, for, for one thing, the mares owing their existence to them have almost uniformly proved among the very best of stud matrons.—C. C. Riley in Daily Racing Form.

## Answers to Correspondents.

J. B. N., Cordelia—Kindly answer those two questions in next issue and oblige. 1. Pedigree of Volunteer (Brown's) 227. 2. Pedigree of Miss Russell. Answer—1. Volunteer 1758, br h, foaled 1871, by Gen. Dana, he by Hambletonian 725. Dam, Novato Damsel, by Novato Chief, son of Vermont, by David Hill. 2. Miss Russell, gr m, foaled 1865, by Pilot Jr. Dam, Sally Russell, by Boston.

CURBS, SPLINTS, SPAVINS, WINDPUFFS,  
—and all enlargements, absolutely removed by—

# QUINN'S OINTMENT.

It has the unqualified endorsement of our leading horsemen and veterinarians.

MR. C. E. DINEHART, Cashier State Bank, Slavton, Minn., says:

"One bottle cured a very bad case of blood spavin on a mare for which I have since been offered \$500. I would not be without it if it cost \$5.00 a bottle."

We have hundreds of such testimonials.

Price \$1.50 per Package. Ask your Druggist for it. If he does not keep it we will send prepaid on receipt of price. Address W. B. EDDY & CO., Whitehall, N. Y.

## TURF AND TRACK.

## THE SULKY.

HEIR-AT-LAW, 2:05½, will not be raced next year.

THE National Trotting Association has 657 members.

ALLERTON will be taken back to Kentucky for the season of 1898.

MILLARD SANDERS is in Kentucky looking about for some "prospects."

JOE PATCHEN's earnings were in the neighborhood of \$20,000 in 1897.

BOW BELLS has 11 in the list. Four of his get have records below 2:20.

If you intend to make a season with your stallion write us for advertising rates.

A BOSTON paper says that Nancy Hanks may be bred to imp. Meddler in the spring.

DAY BELL, the son of Palo Alto, 2:08½, and Beautiful Bells, is to be sold at auction.

MR. GEORGE WILLIAMS, of New York, recently purchased the mare Attie Mack, 2:21½, for \$1,900.

JAMES DUSTIN, who has had a long spell of sickness, has recovered and will be seen in the sulky next season.

LUCY, the great mare who has produced Silver Chimes, 2:08½; Alii, 2:11½, and G. W. D., 2:18½, is of unknown breeding.

JOHN R. GENTRY, 2:00½, will probably be raced next year but Robert J. is likely to be used by Mr. Tewksbury, as a road horse.

ROBT. MCGREGOR is the sire of eleven trotters with race records of 2:15 or better, and Electioneer and Guy Wilkes each of ten.

ROBERT MCGREGOR has thirteen trotters in the 2:15 list and Electioneer 12, they leading all other producers of 2:15 trotting speed.

THERE are 614 youngsters now eligible for the Kentucky Trotting for foals of 1897; at least second payments for this number have been received.

DEXTER PRINCE will remain on the Palo Alto Stock Farm this year, having been leased for another season from his owner A. B. Spreckels.

THOMAS TALBOT, Cornelius, Wash., has lost by death the stallion Wallace Drew, a six-year-old son of Guy Wilkes, 2:15½—Libby B., by Winthrop.

MARCUS DALY one of the level-headed money makers of this country, is quietly buying up a number of well-bred trotting fillies and mares for breeding purposes.

EVIDENTLY there is not complete depression in trotting breeding circles. Baron Wilkes' fee has been fixed at \$200 and several mares have already been booked to him.

THE interesting discussion among the turf writers as to which is the gamier horse, the thoroughbred or the trotter, is something like the question itself. It is a case of wind.

LADY H., 2:15, by Sidney has been bought by a gentleman at Warren, O. She will be used on the road until the training season begins, when she will be prepared for racing.

A WELL-KNOWN American trainer, James Brown, now in Vienna, has been commissioned by Austrian horsemen to buy twelve American trotters with fast records before Spring.

AL GREGOR, 2:11, is among the many good ones to be sold by the Occidental Horse Exchange at the great combination sale February 31. He should be a money earner this year.

DEL MAR WILKES (2:28½), one of last season's new performers, is owned by Mary J. Staats, Castleton, N. Y. Del Mar Wilkes is by Del Mar, out of Martha Wilkes, by Young Jim.

NELSON STOCKTON, 49 San Pedro street, San Jose, is to sell forty head of trotting and work horses on Saturday, January 22d, to close up the estate of Geo. Rutherford, deceased.

OF the twenty head sired by Allerton, that lately sold for \$16,415, an average of \$821 each, not one had a thoroughbred dam or grandam, which shows that buyers are not anxious for near infusions of hot blood.

AMONG the youngsters W. J. Andrews is training at Goshen, N. Y., is a filly by Director, out of the dam of Nancy Hanks, 2:04, and one by Director, out of the dam of Jack 2:12. He is also working Oncqua, 2:08½.

COL. R. G. STONER of Oakland Farm, Kentucky, has a mare by Baron Wilkes, dam by Red Wilkes, second dam by Guy Wilkes, that he breeds to Oakland Baron, son of Baron Wilkes. How will this do for inbreeding?

DE BRINO now holds the British trotting record, having gone a mile in 2:26½ from a standing start in a first-class handicap at Blackpool. He has an American record of 2:17½. He was recently sold in England at auction.

MIKE MCMAHON, formerly of this State, who is training the trotters and pacers on the Patchen Wilkes farm in Kentucky, has a three-year-old sister to Beuzetta in his string that he thinks will be a big winner this season.

EGYPTIAN PRINCE, 14,431, one of the most royally bred horses in America, together with some of his colts will be in the combination sale of the Occidental Horse Exchange February 3d. He is eight years old and a perfect picture.

THE only living daughter of Goldsmith Maid, 2:14, Rose Bud, is now in the great brood mare list, being the dam of Rigby, 2:30, by Wickliffe, and of Epoch, sire of Dot Miller, 2:20½, both animals having taken their records in 1897.

THERE is certain to be plenty of harness racing in Oregon, Montana and Washington this year if the activity of the horse owners and breeders in those states is any criterion. All our exchanges from the northwest are full of horse talk.

THERE is room for a few more good horses in the great combination trotting sale to be held at the Occidental Horse Exchange in this city February 3d. If you have a horse or two to offer write to Wm. G. Layng & Co., 313 Bush street, about it.

THE three-year-old son of Directum, 2:05½, Directum's Star, has recently been added to the farm of Charles L. Chase, Gilmanstown, N. H. His is out of Lynde, dam of Sidwood, 2:16, and Judge G., 2:21½, by Lynwood, son of Nutwood.

IT is said that Senator Charles W. Hoffman, of Bozeman, the well known owner of fast trotters, is planning the organization of an eastern Montana circuit. Bozeman, it is reported, will be included in the circuit and Helena will be urged to join.

JOHN BLACKFORD, one of Kentucky's wealthiest trotting-horse breeders, was fatally injured and his father-in-law instantly killed by an express train on the Cincinnati Southern near Lexington January 3d. They were trying to cross the track in a buggy.

A FINE standard bred trotter named Kenwood, by Robin from Evelyn, dam of Maud Fowler, Nick Russell and others died at Santa Rosa last Monday. He was owned by Henry Baker and was one of the handsomest roadsters ever owned in Sonoma county.

A MAN who becomes light-headed when riding a 2:20 gait, should never think of making a good driver for he will not even make a common bus or hack driver. Too many good horses are handicapped with light-headed drivers who cannot sit still long enough to let the horse win the race himself.

H. E. GANGMERE is wintering at the driving park at Bethlehem, Pa., with Lady Piedmont, 2:21½, that started 10 times and won six races, all on half-mile tracks, in 1897. She is by Piedmont, 2:17½, dam Lady Agnes, by Electioneer. He also has Crockett, 2:22½; Rustan, 2:27½, and Silver Bell, by St. Bel.

GEO. MCKNIGHT will have in his stable this year the good colt Chrononhotologus, with which he expects to attract some attention.—Rural Spirit. He will attract attention all right, but it will be principally from the secretaries, the programme men, the press reporters and others who have to write the name.

THE old-time trotter Arab, 2:15, now twenty years old is still seen on the Boston boulevards. He is a great show horse and his present owner, Dr. S. G. Sawyer, permits him to step occasionally with his best, just to show that he has all his former speed. Arab was bred in California and took his record at San Jose in 1888.

THE fast four-year-old pacer Sidworth, 2:16½, died a few days ago, the property of Henry & Son of New York. He was a bay colt by Sidney, out of My Own, by Red Wilkes, and was bred by Count George Valensin of California. At one of the New England meetings last year Sidworth, it is said, was timed separately in 2:10½.

C. B. DAWSON, of Salinas, has sent his fine Boodle colt, Valentine, three years old, to C. F. Bunch at San Jose to be trained. Valentine's dam is by Carr's Mambrino. He is a grand individual and as a two year-old took a record of 2:30. He comes from a family that trains on, and if he does not get into the 2:20 list as a three-year-old we greatly miss our guess.

THE Chicago Journeymen Horse Shoers Union is one of the most prosperous of organizations, and has not yet heard of the annihilation of the horse, which has been predicted so long but never fulfilled. At a ball given by this organization on New Year's eve, over two thousand dancers were present. A branch of this great Union has been organized in this city.

A THREE-YEAR-OLD bay filly by Dexter Prince, out of Peko, 2:11½, will be offered at the great combination sale at the Occidental Horse Exchange February 3. This is one of the grandest individuals in the State and a more royally-bred one does not exist, Peko being by Electioneer, out of Penelope, a great broodmare by Mohawk Chief, second dam a thoroughbred mare by Planet.

THE offer of Nathan Straus to match Cobwebs, 2:12, for a race to road wagons, owners to drive, for \$5,000 a side, the proceeds to go to charity, has attracted a great deal of interest in New York and other large cities. At first the proposal was intended for the owner of that good mare Elloree, 2:09½, that has a matinee race record of 2:10, but the owners of Newcastle, 2:11½, want to enter; and as Newcastle was at Elloree's saddle when she finished in 2:10, they think they have a show. Harley Darlington, who recently bought Cephas, 2:11½, the most popular trotter in New York, would like to get in such a race, while George Hall, of Boston, owner of Tomeb, 2:10, would like to join in the fray. A sweepstakes of \$2,500 each would make a great race of the good old fashioned kind, and it is to be hoped that it will take place next spring.

MONEY judiciously spent in advertising is every honest business man's most legitimate and profitable investment, and the most prosperous business men the world over are the best and most liberal advertisers. This is not only true of the "patent medicine" business, but of the mercantile business, the banking business, the railroad business, the manufacturing business, the trotting-horse business and every other legitimate business. There are numerous ways of advertising, but as this is a newspaper reading nation newspaper advertising is the very best of all advertising, as through this channel more people can be reached at a given outlay of money than through any other channel. This fact all shrewd advertisers fully recognize, and the point with them is to select the medium through which they can, for the least money, reach the greatest number of that particular class of people with whom they must do their business. Breeders of and dealers in horses, manufacturers of road and track vehicles, harness, turf goods, veterinary remedies and sundry stock farm and trotting turf supplies naturally, and logically, resort to the use of their natural friends, the turf papers.

HELENA, Montana horsemen are arranging for a trotting matinee to be held July 4th. The principal race is a stake in which six leading horsemen of Helena have agreed to make entry, \$20 to be put up by each on the first of each month until the race. This will make a stake of \$840 which is to be divided into three moneys. An effort is being made to have a three cornered match on the same day between Bourbon Wilkes, George Ayres and Glen Arthur.

A CORRESPONDENT of the American Horse Breeder writes a long article in opposition to betting being allowed on trotting tracks and as one of his reasons says he knows of a young man who went to the races and lost all his summers' wages in bets and had to borrow money to go home on. We know of a California fool who came to San Francisco and blew in his summer wages on buggy rides and ice cream at church fairs. You can't shorten the fool crop by stopping up the holes where they throw their money. There are always others.

HARRY NETHAWAY, the Cleveland trainer, who went to Selma, Ala., recently for the winter, took the following horses from W. J. White's Two-Minute Farm: Minnetta, 2:14½, by Russia, dam Sue Margaret, by Roger Hanson; Pinewood, 2:11½, by Artemas, dam Mamie F., by Joe Jefferson; Russo Greek, by Russia, dam Alice Gray, by Allie West; Let, by Russia, dam Nimble, by Jay Bird; San Te Ta, by Russia, dam Santa Rita, by Sidney; Reudex, by Russia, dam Mattie Solomon, by Director; Hazelmere, by Raven Wilkes, dam Jenny, dam of Oakley Maid, 2:20, by Ajax; Erinland, by Russia, dam Pandora, by Pan; Gachia Girl, by Guy Wilkes, dam Sister V., by Sidney; Rue Chen, by Russia, dam Maggie Patchen, by Pluto.

MR. C. X. LARRABEE has just returned from the East, where he visited quite a number of the big closing-out sales, and paid particular attention to the horse-breeding industry of the older States, says the Portland Rural Spirit. Mr. Larrabee is of the opinion that there will be a great scarcity of horses in the near future, and that the breeding of the American trotter of standard type will be a profitable business again. He says the high stepper is not so much in demand now as a few years ago, and that the roadster that possesses speed is again coming to the front. At the New York Horse Show it was plain to be seen that the trotting-bred horse was the favorite over all other breeds, and it is recognized to-day as the greatest breed of horses in the world.

THE old Indiana pacing sire Blue Bull stands at the head of the column of brood mare sires for the season of 1897. He is second to Mambrino Patchen and will in a few years be the leading brood mare sire of the world. Blue Bull's daughters have 123 standard performers. This year's standard performers out of Blue Bull's dams are: Moral (p), by Mariborough, 2:11½; Tom Powers (p), by Wayne Wilkes, 2:12; Blue Wilkes (p), by Wickliffe, 2:17½; Louise M. (p), by Strathlan, 2:17½; Coxswain (p), by Dundee, 2:21½; Marie Wellington (p), by General Wellington, 2:21½; Anna Woodruff (p), by Gogebic, 2:22; Kassell (p), by Dunton Wilkes, 2:22½; William C. (p), by Fairy Gift, 2:22½; Strathblue (p), by Strathmore, 2:23½; Nameless, by Fairy Gift, 2:23½; Strathbell (p), by Strathmore, 2:25; Flamingo C., by St. Vincent, 2:25½; Blue Wilkes, by Wickliffe, 2:27; Toxine, by Haw Patch, 2:28; Royal Baron, by Baron Wilkes, 2:28.

PRINTERS' INK, a journal devoted to the interests of general advertisers, recently contained bits of advice which horse owners can appreciate as well as anyone. "It is better to lose a sale occasionally because of an honest statement, than to lose a customer who has discovered that a certain statement was not true," is the first one, and a second one reads: "There is no more virtue in big type than there is in a loud voice. What is said is the main thing, so far as your audience—the public—is concerned." The same issue says: "Many an excellent advertising medium is condemned as fruitless of results when the fault is entirely with the advertiser himself. A poorly prepared advertisement in a good medium is likely to be more disappointing than a well-prepared one in a poor medium. A good advertisement in any medium does some good. A bad advertisement, in whatever medium it may be placed, has a doubtful effect."

WHEN the breeding business became stagnant there was a great activity in the manufacture of bicycles. This business has been overdone, just as the horse-breeding business was overdone, and one of the results is an avalanche of cheap wheels. The failure of the big Overman Company, in Massachusetts, following numerous other failures in the same line, speaks volumes against the rash policy of over-production. The trouble with our people is that they are not content to do things in a conservative way. If they discover a business in which a reasonable profit can be made, everyone tumbles over himself, as it were, in order to get into it, and then the markets are flooded and flags of distress are hung out. The bicycle manufacturing business has entered upon the stage which caused so many fortunes to be lost in horse-breeding, and only the strongest concerns will survive the ordeal. While the price of wheels goes down on account of over-production, the price of horses steadily advances because the supply of desirable animals is not now equal to the demand.

MR. J. MALCOLM FORBES is thinking seriously of breeding Nancy Hanks, 2:04, to the great thoroughbred stallion, Meddler, imported by his brother at a cost of \$75,000. The object is to get a filly to be bred to Arion, 2:07½. Starlight, 2:15½, at four years old, was bred to Meddler and the result is Norroway, a bay filly, born May 23, 1896. This filly is level-headed and good-gaited in harness. Starlight is by Electioneer, out of Sallie Benton, 2:17½, the producing daughter of Gen. Benton, and she out of the great brood mare Sontag Mohawk. A mare in which the trotting tendency has been kept alive and intensified by generations of breeding is the kind to use in an experimental outcross with a thoroughbred. The late Col. Forbes, who imported Meddler, bred three daughters of Meddler to Arion with tempting results. The harness gait was most pronounced in the produce. Meddler is a horse of distinguished merit, and he transmits good bone with fine disposition and plastic action. Mr. J. Malcolm Forbes has an inquiring mind. Breeding is not a cold commercial transaction with him. In a letter to us he says: "If I was not interested in what I am producing, and did not feel that I was trying experiments with the highest grade of individuals, I would stop off in a minute." If Mr. Forbes does send Nancy Hanks to the harem of Meddler, we hope that he will get a filly for further experiment in the stud.—Turf, Field and Farm.

## THE SADDLE.

TINY WILLIAMS, who is expected here shortly, will ride in the East this season for Joseph E. Seagram, the well-known Canadian turfman.

DAN MEEK is training St. Angelo. He is by St. Carlo, while his dam is Catherine B., a mare who had scores of winning brackets while on the turf.

W. D. RANDALL, the Great Falls turfman, returned Monday from a trip home, and, looking quite well, attended the races at Oakland in the afternoon.

BARNEY SCHREIBER has decided to race Charmion again. He bought her for a brood mare, but she is doing so nicely that he will campaign her for a short time.

MISTLETON, the chestnut colt that won the first race yesterday, is one of the few Brutes that can run well in the mud. His dam is Mistletoe, by Thad Stevens.

STARTER CALDWELL, who has probably started more horses than any man in America, says Traverser is the fastest horse away from the post that he has ever seen.

TOM LOTTRIDGE is no longer training any of Ed Purser's horses. The only two he had of late were Scarf Pin and Draught, which he turned over to Billy Murry several days ago.

J. E. McDONALD, it is said, is anxious to procure a successor to his famous stallion, Hayden Edwards, which recently died. It is more than probable that he will import a sire.

ARBEZZO, who ran here last winter and won a couple of stakes, changed hands at New Orleans last week. Eugene Leigh raced him in California with Good Times and a few others.

JIM GARLAND has now complete control of the Santa Anita Stable of E. J. Baldwin. The former trainer, Frank Taylor, will take a rest at Sacramento before getting down to hard work again.

THORNHILL, who broke down in the four-mile race, is standing up in first-class style and will shortly be seen at the post. He recently worked a mile over the Ingleside track in 1:44, it is said.

CHARLEY BOOTS has his good colt, The Roman, entered in the Brooklyn and Suburban Handicaps and if things go well with the Milpitas owner he will take a small stable to headquarters next summer.

D. J. TOBIN is breeding thoroughbreds on a moderate scale. He started in by breeding Sister Maggie by Joe Hooker and Kern Lass by Munster to St. Carlo. Both are expected to foal next month.

NELLIE S., a five-year-old sister to Jim Gore, won again at Barksdale, Md., January 5th. Another winner that day with a pedigree that made us think of old times. It was that of Lida Woodlands, by imp. Woodlands—Lida Stanhope.

JOE HARVEY is to retire from the racing game, and according to report will sell all his horses, except perhaps Wheel of Fortune. Harvey is now in Seattle, where he will conduct a big gambling proposition to catch the Klondike trade.

THE excellent performer, George Rose, by George Kinney—Hindoo Rose, is dead. He was cut down in a shocking manner, and notwithstanding all the efforts of able veterinarians, passed away. It was a case of what was known as "open joint."

CHARLEY THORPE rides some horses mighty well, but Rubicon is not one of them. He rushed the Eastern crack (who is a brother to Chaos, the Futurity winner) to the front altogether too quickly, and the result was Rubicon had nothing left to finish on.

TRAVERSER'S win of Wednesday settles it in the minds of most persons that he is by long odds the best youngster seen in California since Crescendo's day. He made such good ones as Dr. Sharp and Count of Flanders look like selling-players of the commonest description.

OF the sixty odd mares at Melbourne Stud farm, over twenty are in foal to Prince of Monaco. As this horse is a full brother to St. Carlo, and in some respects a better individual, it is no wonder that a distinguished place in racing records is anticipated for his progeny.

WALTER JENNINGS has shipped a carload of unpromising horses to Sacramento. Miss Prim, Chic and a few unprofitable colts were returned to the big farm. Their places will be filled shortly by some well-tried youngsters who have been given a careful preparation and are reported ready to win the first time out.

THE California Jockey Club have announced a new stake for Wednesday, January 19th. It is called the Oakland Derby, and is for three-year-olds that have never won \$650. The club will add \$600 to the sweepstakes, distance one mile. Hardly a Derby race in the true conception of the term, but still an improvement.

E. S. GARDNER & SON will ship a string of twelve horses to Memphis in January, where they will remain in training till the last of April. The stable will include White Frost, Bangle and a number of two and three-year-olds by Quicklime. Bangle is at present at Avondale, and has grown into a magnificent looking three-year-old, and one that, barring accident, will give a good account of himself next season. White Frost is perfectly sound and promises to race well in 1898.

ACCORDING to the supplement of Messrs. Weatherby the returns of mares in England for 1897 shows a slight increase over the number accounted for in 1896 and also in the number of foals. In 1898 the total number of mares reported was 5,415 from which there were 1,652 colts and 1,652 fillies while in 1897, from 5,556 mares there were 1,710 colts and 1,638 fillies. In 1896 the number of barren mares was 1,287 as against 1,247 in 1897. The total number of foals in 1897 was 3,348 from 5,556 mares.

THE most highly-tried yearling of the season is a chestnut filly, recently owned and trained by Owen Bradley, of Lexington, Ky. Last month on the Lexington track she ran three furlongs with 115 pounds up in 0:35½. C. T. Patterson paid \$3,000 for this filly.

THE highest price paid for a yearling during the present year was \$10,000 for Method, by imp. Order—Victorine, a full brother to Ornament, bought by J. S. Curtis. He is a grand-looking colt, and bids fair to make a name for himself. J. W. Rogers, who trains for Mr. Curtis, pins his faith to him.

THE London Sportman says: "The American horse Rensselaer, recently arrived at W. Leader's stable at Wroughton has been sent to England with a view of being prepared for next year's Anteuil grand hurdle race. He is a three-year-old colt by Hayden Edwards, out of The Belle and belongs to Mr. J. E. McDonald.

THE Prince of Wales may win the English Derby of next year, as he possesses a splendid colt in Ormathwaite, who, under the care of R. Marsh, is doing as well as possibly could be wished for. He is good-looking enough for anything, and he may turn out a better animal than the Duke of Devonshire's Dieudonne, whose chances appear second to none.

MINNIE ELKINS, winner of the Colorado Derby, etc., and remembered as the mare that swam ashore when the Sunol was wrecked in San Francisco bay, will in a very few days give birth to a son or daughter of the record-breaker Libertine, the first of that grand, big horse's get. B. C. Holly owns Minnie Elkins, and also owned Melanie, who did not swim ashore.

PREPARATIONS have been made by President P. J. Dwyer, of the Brooklyn Jockey Club, for an important addition to the Gravesend race track in the shape of a new public or field stand at the side of the quarter stretch, where all the conveniences of the grand stand will be provided for people unwilling or unable to pay the high price of admission charged at the main gate.

JOCKEY SAM DOGGETT, who has ridden for the Oneck stable since the late Dr. G. L. Knapp began racing under the stable name in 1892, has left the establishment, and will ride next season as a free lance. The Oneck stable, with Walter Rollins as trainer, continues to race on a small scale, but will not have enough horses to justify the renewal of the contract with Doggett.

IMPERIOUS is the best-looking of Helen Scratch's several foals, and as matters look now may turn out the best performer. Last spring he outworked every youngster at Ingleside track, and was made a hot favorite several times on account of his work in the forenoon. He was finally voted only a "morning glory," but his last two wins indicate that he is something of a racehorse, too.

TOM OCHILTREE, the famous race horse and successful sire of race horses, died at the farm of R. W. Walden, Middleburg, Md., Wednesday morning, December 29. He was the sire of such well-known performers as Tattler, Tom Boy, Ed Kearney, Major Domo, Jester, Little Barefoot, Cynosure, Ranger, Radiator, Sluggard, King Tom, Tabouret, Orator, Letretia and Ma Petite.

E. S. GARDNER & SON'S horses to be sent to Memphis from their Avondale Stock Farm February 15th, are: White Frost, 4, Bangle, 3, Swing, 3, Surrey, 3, Eight Bells, 3, Frogmore, 3, Wingshot, 3; b c, 2, by Quicklime—Monardo, b f, 2, by Exile—Wildflower; ch f, 2, by Exile—Semaphore, and ch f, 2, by St. Blaise—Forever. They will be joined by the division now racing at New Orleans later on.

IN the Leigh & Gillock string are six two-year-olds, the pick of the bunch being, in Mr. Gillock's estimation, the bay colt by King Fonso—Crucite, by Powhattan. They call him Garra Brant, after the manager of the Duncan Hotel. The second dam of this colt is Crucifix, by Lexington, and Crucifix is the third dam of Ornament. Garra Brant is entered in the Kentucky Derby and Clark Stakes for 1899. In a trial recently he covered a half mile in 0:51½ very handily.

W. FISHER, who refused \$1,000 for Plan recently, has the following two-year-olds about ready to race: Hijo el Rey, b c, by Yo el Rey—Princess; Buck Taylor, ch c, by El Rio Rey—Nellie Post; Ed Lannigan; b c, by Flood—imp. Amelia; Gold Garter, ch c, by Golden Garter—Miss Pickwick; —, b c, by Wildidle—Glen Queen. Galen Brown has in training: Olinthus, ch c, by Red Iron—Lily Wright; Miss Red Iron, b f, by Red Iron—Belle.

T. GARNETT FERGUSON, son of the well-known starter, has the following two-year-olds in training in California that will soon sport colors for the first time: Master Lee, br c, by St. George—Levee; Distance, b c, by Prince Royal—Press Onward; Maud F., b f, by Prince Royal—Blue Hood; Sweet Cakes, b f, by Prince Royal—Under Crust; Anchored, br c, by Prince Royal—Homeward Bound; Wheat King, blk c, by St. George—Lucrezia; Prince Farewell, b c, by Prince Royal—Minnie Williams; Royal Tartar, b c, by Royal Prince—Tartarine.

T. GARNETT FERGUSON, son of Starter J. B. Ferguson, has one of the biggest strings of two-year-olds in training in California and will race them in orange and green. These colors were made famous in the seventies by H. P. McGrath, who founded the celebrated McGrathiana stud at Lexington. Such horses as Tom Bowling, Aristides and Chesapeake carried the orange and green to victory, and the great match race at Lexington, in which Aristides beat Ten Broeck, will long live in the memory of race-goers. The late H. P. McGrath was a great uncle of Garnett Ferguson.

AN Australian exchange, "The Referee," says: "New South Wales horse owners received an unpleasant surprise when they called at the V. R. C. office for their cheques. The Victorian authorities evidently did not relish so much money leaving their colony, and in order to retain a little of it, the Commissioner of Taxes notified the Secretary of the V. R. C. that he was to deduct from the cheques the tax chargeable under the Income Tax Act. Mr. W. Forrester had £80 deducted from his cheque, and other winners of more than £200 were subjected to a proportionate deduction.

NEW ORLEANS, La., Jan. 3.—John Huggins, a trainer for the Lorillard-Beresford string, who has been in this city for several days, offered \$10,000 to Tommy Burns, the crack light-weight jockey, to ride his horses in England next season. Burns, who is under contract to ride for John Schorr of Memphis, the coming season, declines to leave this country.

At the Occidental Horse Exchange one week from tonight such excellent racers as Chappie, Harry Gwynn, Darchota, Senator Morrill, E. H. Shirley, Woodchopper, the one time crack, Duke of Norfolk, and several of his get, imp. Sain, Charles Le Bel and a number of other good ones will be sold to the highest bidders. Sain is one of the best-bred horses in America, a grandson of St. Simon, while his third dam, Quiver, threw the great La Fleche, who, after her racing days were over, sold for \$66,000 at auction. Chappie is by imp. Order (sire of Ornament), and as he won his last race from a fine field, will undoubtedly elicit some lively bidding.

It is announced, though not officially as yet, that Dan T. Murray will be the starter for the races next year on the Highland Park club's circuit, while the judge will be John J. Carter and the secretary Walter Farmer. Local followers of this game will be very glad to hear this report about Mr. Murry confirmed, as he has a great many friends in Detroit who would like to see him wielding the red flag on the Highland Park and Windsor tracks the coming season. Those interested in the circuit are to have a meeting in this city early in the new year to settle definitely upon the question of dates for the different meetings.—Detroit Free Press.

CINCINNATI, Ohio, Jan. 3.—The delegates of the Cincinnati and Louisville race tracks met at the Gibson House this afternoon, and arranged dates for the meetings of 1898. There were present, F. F. Fowler and J. G. Hanley, Queen City; George Griffith and Mark Simonton, Oakley; E. C. Hopper and Colonel W. E. Applegate, Latonia, and the new Louisville Jockey Club. The first date was captured by the Queen City Club for twenty-one days, from April 9. The other meets were arranged as follows: Louisville, fifteen days, from May 4; Oakley, fifteen days, from May 26; Latonia, twenty-seven days, from July 26. Owing to the failure of Lexington to respond to the invitation to meet to day, Lexington was ignored in the arrangement of dates.

THE Tennessee Breeders' Association instead of giving their annual spring meeting in May will begin on April 1st and continue eight days. These change of dates were made so that the Nashville Association can have clear sailing with no opposition except on the last day, which is the opening day of Memphis and Newport. The expected racing at Chicago caused the Cincinnati and Louisville associations to grasp all the early time they could and Louisville announced to open May 4th, and as Memphis does not close until April 30th, Nashville would have only two clear days. Consequently the Nashville would prefer to run in April. Eight stakes will close Feb. 1st, V. L. Kirkman was again elected President, J. N. Russwurm, Secretary, and R. A. Hiller clerk of the course.

JAMES GARLAND ("Big Jim") took charge of the Baldwin gallopers Sunday, and San Venado won right off the reel yesterday. Of course, Frank Taylor trained him, but it shows there's no "hoodoo" on "Big Jim," who is one of the most careful, conscientious and competent conditioners of race horses in the country. To look at Garland now one wouldn't say he was once a crackerjack ribbon handler in trotting races, but he was. Later he took to the gallopers, just as Johnny Campbell and other celebrities did, and owned a great horse in Beaconsfield. When he lost Beaconsfield he lost a great friend, but he had fair success with Normandie, Nelson and others. For several months past he has been with A. E. Spreckels, and sent several winners to the post at last fall's Sacramento meeting.

JOHN L. HERVEY, the statistician of the Horse Review a valued contribution to Daily Racing Form, and the harness figure editor of the American Sporting Manual, writes: "I note what you say in Monday's Form concerning Tom Ochiltree as being one of the few sons of Lexington still living. I saw the old horse last August at Wyndham Walden's place, at Middleburg, Md. The conqueror of Parole, Fellowcraft and Aristides and sire of Major Domo, was then, Mr. Walden told me, retired from service. His twenty-seven years sat heavily upon him, and his gigantic frame was shrunken and bowed with age. There was, however, an astonishing resemblance still to be traced between him and the photograph which Schreiber took of his sire shortly before Lexington passed to the happy hunting grounds."

THE Fort Erie race track, which, some time ago, was reported to have been leased to a syndicate, has not been leased at all, says the Buffalo Express. This announcement was made by the Fort Erie people last week and a telegram from Walter O. Parmer, reported to be at the head of the syndicate, confirms the declaration. The syndicate tried to get control of the track and is yet endeavoring to do so, but no papers have been signed. The Fort Erie property is still in the hands of its original owners, but just what they intend to do with it is not known. They hope to be able to pay off all the horsemen and other creditors and give a meeting next spring, but whether they can accomplish this remains to be seen. It is stated authoritatively, however, that there will be spring meetings at this track and probably a trotting meeting between.

T. C. McDOWELL, who came into prominence last week as the breeder and seller of a \$5,000 weanling, is the only son of Major Henry Clay McDowell, who now owns Ashland, the residence of Henry Clay. Young McDowell's mother is a daughter of the great commoner's favorite son, Henry Clay, Jr., who was killed on the field of battle in Mexico. Mr. McDowell is a breeder of thoroughbreds in a small way. He does not own more than fifteen or twenty mares, but they are bred in the choicest lines and are splendid animals. It will be remembered that his great grandfather bred thoroughbreds on this old farm as far back as 1833, when he was presented by some admiring Virginians with the wonderful old mare Magnolia. It was from her that sprang one of the best families of racehorses ever known in America. Mr. McDowell has some of her descendants, and he has reinforced his stud with fresh blood until he has as choice a lot of young mares as can be found anywhere. In the youngster he sold for \$5,000 are blended the best blood lines in the stud book. The colt is out of Peg Woffington, and is by Hanover. Peg Woffington is out of Ballet, the dam of Modesty, and is by Longfellow.

# THE WEEKLY BREEDER AND SPORTSMAN

WM. G. LAYNG, EDITOR AND PROPRIETOR.

The Turf and Sporting Authority of the Pacific Coast.

— OFFICE —

No. 313 BUSH ST., SAN FRANCISCO  
P. O. BOX 2300.

TERMS—One Year, \$3; Six Months, \$1.75; Three Months, \$1.  
STRICTLY IN ADVANCE.

Money should be sent by postal order, draft or by registered letter addressed to WM. G. LAYNG, 313 Bush St., San Francisco, Cal.  
Communications must be accompanied by the writers' name and address, not necessarily for publication, but as a private guarantee of good faith.

San Francisco, Saturday, January 15, 1898.

## Opportunities for Horsemen.

The sale of trotting stock which is to take place on Thursday, February 3d, at the Occidental Horse Exchange under the auspices of Wm. G. Layng & Co., promises to be "a good one." Notwithstanding many owners have offered horses for this sale it has been deemed advisable to limit the number and not include horses that have neither pedigree, soundness nor merit. Compilations for the catalogue are being rapidly pushed forward, and on or about the 20th inst., will be handed to the printer. The prospects for a good season's racing are brighter than they were a year ago while the demand for good roadsters is in a far healthier condition. There are more good horses driven on the roads now than there has been for years and still the demand seems to be for "more good ones." The bicycle craze is not so powerful as it was in January 1897, in fact, it is growing weaker as the wheels are becoming cheaper. There is room for them yet, but the light harness horse is crowding them more and more on the roads every day.

"Good times," those long-looked-for, and eagerly sought after periods will be our heritage this season. The winter has been all that could be desired. Rains have fallen at the right time and our returns from all the agricultural districts are most encouraging. Reports from the mining regions in this state are most flattering, while the news from the Klondike is of such a nature that the exodus to the rivers which flow over golden sands and ledges honey-combed with the precious metal, will be almost as great as that which startled the world in 1848 and 1849, and turned the attention of all civilization to the Pacific Coast.

There is an army of men at the Klondike to-day who have made all the money they need, and are only waiting for the arrival of gold seekers and their agents to dispose of their mining properties to them. With the money they will have does any one doubt where the bulk of it will be expended? California has charms for them which are not found in any other state in the Union, and to its fertile valleys or its commercial centers they will devote their days of happiness. Horses and carriages will be purchased and farms will be fitted up and stocked with horses that will be the best that money can buy, for the signs all point to a revival of good prices and an increasing demand for fast light harness horses in all parts of the world.

The sale on February 3d will contain some of the best horses ever offered in California, and to the seekers after material for either the track or road such an opportunity will be offered to secure perfect horses as may never occur again.

THE Alaska Electric Exploration and Mining Company, which has its office in the Mills Building, this city, is organized for work on the Klondike and Stewart rivers, Alaska. Its prospectus gives in a very simple, straightforward manner the objects of this Company, and as the officers and directors are practical mining men and mechanical engineers success will undoubtedly crown their efforts. One article says: "We desire to take into our company fifty good, sober, honest men who will subscribe for 500 shares of stock or more, each (miners and mechanics preferred), who wish to go to Alaska. To those we will give free transportation and board on conditions that they stay with us, if wanted, and work for the company at the wages prevailing in the locality." Assayers, physicians, etc., will be among those going, and the idea seems to be that by the forming of a well organized company having capital, greater progress will be made in mining than working in small numbers. This company controls many valuable patents and has all the facilities for doing what they undertake. Write at once to them for further particulars.

THERE were twenty-two horses consigned by E. J. Baldwin to the Occidental Horse Exchange to be sold by auction December 23d. A few evil-minded scoundrels started rumors afloat about them and the result was that when the sale opened there were few men willing to purchase. Mr. Layng, the manager, ordered the sale to be declared off, and inside of fourteen days with the aid of Mr. Unruh, the gentlemanly manager of Mr. Baldwin's properties sold all but three of these yearlings at an average of \$300. Next fall there will be a consignment of sixty sold at the Occidental Horse Exchange that will come from far famed Santa Anita, and they will be the best ever offered there.

This is the last notification regarding the closing of entries to the St. Louis Fair Associations spring, summer and fall meetings, which is to take place to-day. There are seventeen stakes advertised in this issue, besides the St. Louis Derby for 1899. Every horse owner should make entries at once. There is almost no necessity to call attention to the track at St. Louis and the famous association which is known throughout the United States as one of the best in existence.

REMEMBER, stakes for the Louisville Jockey Club close to-day. This meeting will be of fifteen days' duration, commencing May 4th and ending May 20th. Entry blanks have been sent to all the prominent horsebreeders, and it is earnestly hoped that a large number of entries will be forwarded to Secretary Chas. F. Price, Louisville, Ky.

At the sale of trotting stock, to be held at the Occidental Horse Exchange February 3d, there will be offered a number of grandly-bred sons and daughters of Hambletonian Wilkes (whose picture adorns our front page), and they are the making of very fast ones.

THE sale of fifty Palo Alto broodmares (trotting and running) and geldings will take place at Killip & Co.'s salesyard, Van Ness avenue and Market street, on Tuesday next. There are some good ones among them.

WM. CORBITT, of San Mateo, will ship Oro Wilkes, 2:11, and nearly all the colts by him to Kellogg & Co. about the middle of February.

THE names of all who made second payments in the Futurity Stake, P. C. T. H. B. Association, will appear in our next issue.

ADVERTISE your stallions now!

## State Agricultural Society's Trotting Stakes

SACRAMENTO, CAL., Jan. 11, 1898.

EDITOR BREEDER AND SPORTSMAN:—Following is a complete list of all entries to the California Futurity and Occident Stakes for 1900, closing January 1st, together with a list of payments made upon same date on all trotting and running stakes of the State Agricultural Society for the years 1898-9.

An unusual number made payments in trotting stakes for the years 1898-9, which indicates that the interest in breeding of this class of stock is still alive and looking healthy.

The State Agricultural Society's idea is to interest the breeders in early contests, thereby offering inducements for the training of young stock, which should they not show speed enough for racing purposes, will make excellent road horses, and by the sale of which owners may be remunerated for expense of care and training.

Very respectfully,

EDWIN F. SMITH.

Secretary.

The following entries were received in the Occident Stake of 1900, trotting stake for foals of 1897.

T W Barstow's b f Our Lady, by Wilkes Direct—Nettle G  
L C Ruble's blk c by Waldstein—Today, by Noonday; b c by Waldstein—Amber, by Monroe Chief.  
Alex Brown's br f by Chas Derby—Lottie, 2:28½, by San Diego; b c by McKinney, 2:11½—Bonnie Red, by Red Wilkes  
A Hirschman's b f Hazel, by Sidney Howard—Marion, by Chas Derby  
A Hellborn & Bro's dk b c by Red Nuttle—Corra, by Don Victor; br m by Red Nuttle—Lizzie C, by Clay; br m by Red Nuttle—Eve, by Noonday  
J L Davis's b c Klondike, by Waldstein—Fanny Mc  
La Sierra Ranch's b c The Roman, by McKinney—Wanda, 2:14½  
George E Shaw's b f Aunt Sally, by Benton Boy—Nellie Nutwood  
Rudolph Jordan Jr's b c El Milagro, by McKinney—Adeline Patti  
Oakwood Park Stock Farm's br f by Chas Derby—Susie Mamburno; b f by Chas Derby—May, br f by Chas Derby—Directress; b f by McKinney—Amazon; br c by Ste nway—Katie G  
Lawrence Stock Farm's b f Hazel B, by Mess Almont—Magna Maid, by Pilot Medium  
George T Beckers' b c by Zombro, 2:11—Reica, by Ferl's Clay  
D E Knight's b f Corda N, by McKinney—Knighthood; b f Ella McKinney, by McKinney—Balance All; b f Freeder S, by Lynmont—Elmo  
E P Head's br c by McKinney—Daisy S  
C A Durfee's blk c by McKinney—Nona Y  
C Z Hebert's br c by McKinney—Dolly, by Mozart  
Thos J Weeks' b c General Montgomery, by Boodle, 2:12½—Nutwood Weeks, by Nutwood  
George Y Bollinger's br c Poodle Boy, by Boodle—Wapale  
Mrs Kate Mastin's b f Lacie Rose, by Fairness—Lady Harper, by Alaska  
Nutwood Stock Farm's b c Barstow, by Wilkes Direct—Lida W, 2:18½  
T J Drals' blk c by McKinney—by Guy Wilkes  
M S Severances' br c Papago, by Dexter Royal 26,957—Regina, by Electioneer; blk f Queen Isabella, by Plut—Irene Benefit, by Benefit  
Vendome Stock Farm's Vendome, by Iran Alto—Linda Oak, by Guy Wilkes; Myr Jeda, by Iran Alto—Nellie Nutwood, by Nutwood; H J Agnew, by Iran Alto—Tenny-third, by Director  
George H Fox's b c by Silver Bow—Grace, by Buccaneer; ch c by Silver Bow—Ventures, by Arthuron; b f by Silver Bow—Alaska, by Alaska; b f by Silver Bow—Kitty Fox, by Pancoast  
P J Williams' b c Ogden, by Egyptian Prince 14,481—Hattie, by Commodore Belmont  
J B Iverson's br m Princess, by Eugeneer—Bell, by Kentucky Prince; br m Dagmar, by McKinney—Steinway Maid

Mrs S V Barstow's b f Bell Jackson, by Wilkes Direct—Darkness  
Palo Alto Stock Farm's b c Monbells, by Monaco, 2:19½—Beautiful Belle, by The Moor 870; br c Altoona, by Altivo 19,812—Elaine, by Mess Duroc 106; f Lustro, by Boodle, 2:12½—Luta, by Electioneer 125; b f Elsie Mc, by McKinney—Elsie, by General Benton 1755; b c Monbelle, by Monaco, 2:19½—Bonnie Bell, by Azmoor 13,467; br f Wildwell, by Wildnut 13,472—Ladywell, by Electioneer 125; b c Lucio by Dexter (Prince 11,363—Lucyner, by Electioneer 125; b c Monrextro, by Monaco, 2:19½—Alfrexta, by Alfred 5,328; b f Sunshio, by Advr 17,542—Waxana, by General Benton 1,755; ch f Monote, by Monaco, 2:19½—Sallie Benton, by General Benton 1,755  
Estate of James G Fair's b f Gossamer, by Gossiper, 2:14½—Lizette H, by Wyoming Chief 1,755; sr f Chatterbox, by Gossiper—Princess, 2:19½, by Woolsey 5,387  
Elias Williams' ch f Princess, by Egyptian Prince 14,481—Leap Year, 2:26, by Tempest 1881

Total number of entries received fifty-seven.

The following made second payment in the Stanford Stake of 1899, trotting stake for foals of 1896:

Palo Alto Stock Farm's b c Idolita, by Monaco, 2:19½—Edith, by Geo. Wilkes, 2:22; b c Elegido, by Altivo, 2:18½—Elsie, by General Benton, 1755; b c Lucina, by De ter Prince, 11363—Luta, by Electioneer, 125; br f Alula by Altivo, 2:18½—Lulu Wilkes, by George Wilkes, 2:22; b f Monora, by Monaco, 2:19½—Nona, by Messenger Duroc, 106; ch f Esparita, by Monaco, 2:19½—Sprite, by Bell, out, 64; b f Ariol, by Dexter Prince, 11,363—Aerolite, by Palo Alto, 2:08½; b f Corales, by Dexter Prince—Coral, 2:18½, by Electioneer; blk f Princess Agnes, by Dexter Prince—Lady Agnes, by Electioneer; b f Asombrosa, by Azmoor, 2:20½—Alhago, by General Benton, 1755; b f Ellatie, by Dexter Prince, 11,363—Extra, by Electioneer, 125  
Jama McCaw's b f Nellie Waldstein, by Waldstein, 12,697—Nellie Bye, by Alpheus  
W G Goodman's b f Carrie M, by Diablo—Hattie W, by Alaska  
E C Pearl's b g Elmont, by Lyamont—Nellie, by Tilton Almont  
A C Severance's br c Direct Heir, by Direct—Bet Madison; blk c Directus, by Direct—Betsy Trotwood  
Lawrence Stock Farm's br f Miss Leslie, by Mess. Duroc—Magna Maid, by Pilot Medium  
E J Weldon's br m Elevator, by Don Marvin—Emeralda  
Rudolf Jordan's Jr b c Felix Holt, by Alex Button, 1897—Adeline Patti, by Effingham  
George H Fox's b c by Silver Bow—Vesper, by Prompter; b c by Silver Bow—Grace, by Buccaneer  
P W Lee's b c Lee Roy, by Fay Wilkes—Estarte  
F Rounds' b f Fanny Waldstein, by Waldstein—Lady Thorne by Billy Thornhill

Palo Alto Stock Farm's dk b c by Oscar—Imp Amella; b f by Flambeau—Fairy Rose; b c by Oscar—Rosetta  
Burns & Waterhouse's ch c by Watercross—Paloma; ch f by Brutus—Cosette; b c by Brutus—Deception; b c by Brutus—Decoy Duck; br f by Brutus—Picnic; b f by St Andrew—Free Love; b c by Midlothian—Taluda  
H E Cassidy's b f Midity, by Midlothian—Charity

### To Popularize Trotting.

EDITOR BREEDER AND SPORTSMAN:—Whenever two or more admirers of the light harness horse are gathered together in California nowadays, the talk invariably drifts to the outlook for the season of 1898, and speculations are indulged in as to the number of meetings, probable attendance and what changes are necessary to attract the people to the sport. That there is something lacking in trotting meetings as conducted in California is certain, as we see a daily attendance of four or five thousand people every day for six months at our running meetings, and that number every Sunday at the coursing events, while at a trotting meeting which only lasts a week, it is not possible to secure over two or three hundred dollars per day in gate receipts. These being the facts, there must be some cause for it, as the time was when a race to harness would draw thousands to see it in San Francisco or Oakland.

Having been a pretty regular attendant at trotting meetings in this State for many years I have formed some opinions in regard to the causes of the decadence of the grand sport in California, and although I may not have discovered the true ones, I will give them to your readers and let them judge for themselves in the matter.

One of the principal evils on the trotting track, in my opinion, is heat races. I will remember when we had the heat system on the running turf in California. There were some grand contests then, I admit, but they were few, and where there was one honest heat race, there was a dozen dishonest ones, and the heat system was abolished with a decided improvement for the better. One cannot pick up a turf journal without seeing something in regard to laying up heats in trotting events—arguments pro or con. I believe that heats ought to be laid up—laid up on the shelf as relics of by-gone days. They are a source of more than half the trouble on the trotting turf.

After the heat system is abolished, the next important thing is to get paid officials in the judges' stand and a paid starter. In short, take lessons from the running turf and adopt all the best features which have made it such a success. I firmly believe that if the Pacific Coast or the California Jockey Club had taken up trotting as they have running they could have made as great a success of it here in California as they have with their present meetings.

At present there is but one way to classify trotters, and that is by their records, though there are hundreds of horses that are relegated to the road simply because they cannot trot within ten seconds of their marks. A Board of Trotting Stewards composed of bright young men who would devote their attention to the matter should be able to arrange a series of condition races for trotters and pacers that would not only attract many entries, but insure good racing and in a very short time large crowds.

I would like to see the Pacific Coast Trotting Horse Breeders Association announce a three or four weeks' meeting at Oakland or Ingleside next summer on new lines. Merely as a suggestion:

Let purses be announced for the following classes:  
Trotters—Free for all, 2:12, 2:15, 2:20, 2:25, 2:30 and 2:40.  
Pacers—Free for all, 2:10, 2:15, 2:20, 2:25, 2:30 and 2:40.  
All dash races at distances of one mile, mile and a quarter, mile and a half, with occasional ones at still further distances. Make races with conditions, as for instance—Horses that have started in a certain class and not won first or second money, or horses that have not won a race for a certain space of time—thus giving an opportunity for horses that are not as fast as their records. Out of the fourteen classes above mentioned five or more races per day could be given, thus giving all horses an opportunity to start twice or oftener each week, and after the first week I believe they could be so classified that a horse could start three or four times a week. The running people arrange conditions so that ex-stake horses can start with a lot of cheap selling platers, and why shouldn't trotters be treated as well.

I would have a form book kept by experts for the benefit of the Judges and Board of Stewards. When there was evidence of a horse being pulled or not driven to win, set the driver down for a number of days, weeks or months or rule him off as the case might require. The National and American Associations both have codes of rules sufficient to cover all crooked work. All that is needed is men in the stand

who know crookedness when they see it and have the backbone to punish it.

If the public want books, let there be books; if not, the old auction and the mutuels will do. For my part, I think the public likes the book system the best.

The purses need not be large—\$250 and \$350, with free entrance. By this system a man can start his horse three or four times a week and increase his chances of winning proportionately.

There are many other improvements and innovations that suggest themselves, but this letter is already longer than editors like to see, so I will conclude by saying that if trotting can only be conducted in an up-to-date manner by up-to-date men it will soon be as popular a sport as it ever was, but we need never expect to see a very large crowd at any meeting where the customs of fifty years ago are still in vogue.

Yours respectfully, REJUVENATED OLD TIMER.

### Dates for the Running of C. J. C. Stakes.

The California Jockey Club has set the following dates for the running of the balance of their stakes:

Monday, February 7, 1898, the Follansbee Handicap, seven furlongs.

Wednesday, February 9th, the Emeryville Handicap, one and one-eighth miles.

Saturday, February 12th, the Flirtation Stakes, six and one-half furlongs; the Gunst Stakes, one and one-sixteenth miles.

Wednesday, February 16th, the Oakland Handicap, one and one-quarter miles.

Saturday, February 19th, the Elmwood Stakes, one-half mile; the Thornton Stakes, four miles.

Monday, March 7th, the Camus Stakes, one mile.

Wednesday, March 9th, the Rancho del Paso Handicap, one mile.

Saturday, March 12th, the Racing Stakes, one-half mile; the Baldwin Hotel Handicap, one mile.

Wednesday, March 16th, the San Pablo selling stakes, seven furlongs.

Saturday, March 19th, the Flying stakes, one half mile; the Pacific-Union stakes, one and one-eighth miles.

Monday, April 4th, the Alameda handicap, one mile.

Wednesday, April 6th, the Waterhouse stakes, four and one-half furlongs.

Saturday, April 9th, the General Arthur stakes, four and one-half furlongs; the Burns handicap, one and one-quarter miles.

Wednesday, April 13th, the Gebhard stakes, five furlongs.

Saturday, April 16th, the Candelaria handicap, five furlongs; the Palace Hotel handicap, one and one-eighth miles.

THE champion colt trotter Faustino with a yearling record of 2:35, a two-year-old record of 2:24½, a three-year-old record of 2:14½ and a seven-year-old record of 2:12½ looks as though he was the makings of a great race horse or a great stock horse. His sire Sidney was a race horse himself, came from a race horse family and he is one of the greatest producers of race horses that we have ever had. If there is any truth in the saying that "like begets like," Faustino ought to prove himself great in every way in the world. His dam was a producer, his grand-dam was a producer and every cross in his pedigree teams with race horse records.

SPLAN & NEWGASS.

The Handsome Three-year-old Chestnut stallion

**DIAWOOD 27,772,**  
RECORD (2) 2:21 1-2.

WILL MAKE THE SEASON OF 1898 AT

**SACRAMENTO.**

Sired by DIABLO, 2:09 1-4; dam ABBIE WOODNUT, 2:36 (dam of Abeline, 3, 2:24 1-2, and Diawood, 2, 2:21 1-2), by WOODNUT, 2:16 1-4.

DIAWOOD carries the blood of four great American sires, viz: Alcantara, 2:28, sire of the dams of Heir-at-Law, 2:05¾, and Diablo, 2:09¾. Electioneer, sire of Arion, 2:07¾; Sunol, 2:08¾, and Palo Alto, 2:08¾. Steinway, 2:24, sire of W. Wood, 2:07; Agitato, 2:09, and Cricket 2:10. Nutwood, 2:18¾, sire of Manager, 2:06¾; Lockhart, 2:08, dam of Arion, 2:07¾. Of the great producing dams, Miss Russell (10 descendants in 2:10 list), Alma Mater (dam of Alcione, sire of 8 in 2:10), Addie (grandam of Arion, 2:07¾), Green Mountain Maid (14 descendants in 2:10 list) and others.

ABBIE WOODNUT, the dam of DIAWOOD, is also the dam of Abeline (3), 2:24½, her only colts by different sires. Abbie Woodnut was sired by the game race horse, Woodnut, 2:16¾, sire of Baywood, 2:10½.

Second dam, PHYLLIS, by thoroughbred imp. Admirable.

Third dam, DAPHNE, by Hambletonian 725, sire of dam of Azote, 2:04¾.

Fourth dam, PHOEBE CARY (grandam of Honesty), by Chieftain 721.

Fifth dam, DODGE MARE, by Jim Crow, thoroughbred.

DIAWOOD is 15½ hands high and weighs 1,000 pounds. Thirty mares are wanted to book to him at \$25, payable at time of service. Mares not proving in foal may be returned next year. Good green alfalfa pasturage at \$3 per month. Address,

O. J. HOLMES,  
Manager Training Stables,

2022 H. Street Sacramento, Cal.

## San Jose Race Track

TROTTER TRACK PICNIC GROUNDS RUNNING TRACK

The beautiful, convenient and popular grounds known as AGRICULTURAL PARK, San Jose, has been leased by

C. F. BUNCH and A. HABLES,

Who are putting the same in suitable condition for the accommodation of picnics and other attractions. The attention of horsemen is called to the fact that both the trotting and running tracks will be kept in first-class order. The numerous box stalls are roomy and well ventilated. The San Jose Race Track must soon become a popular resort for horsemen, if good treatment, moderate charges and first-class accommodations are appreciated. Address,

C. F. BUNCH, Agricultural Park San Jose.

## The Trotting Horse.

BY CHARLES MARVIN.

This great practical horse book is a handsome, three hundred page octavo, bound in cloth, elegantly printed and superbly illustrated, and explains in every detail the remarkable success of CHARLES MARVIN and the whole plans and methods pursued at Palo Alto as to breaking, training, shoeing, gaiting, driving, keeping racing and breeding trotters.

Read what J. C. Silby, the owner of St. Bel, says of this book: "In this work Marvin has let out all the mysteries of the craft, and it is so simple and plain that any breeder, owner, trainer or rubber who has any relish for his business can take a colt as a yearling and develop to the highest and fullest extent that colt's capacity as a trotter. The work impressed me so strongly that I have ordered twenty copies, and shall place one in the hands of every rubber on our farm."

Mailed postpaid for \$3.50. Address

THE BREEDER AND SPORTSMAN

818 Bush St., San Francisco, Cal

### Blue Bull, the Plebian.

The fact that the daughters of the plebian Blue Bull produced more of the new standard performers of 1897 than any other horse, says the Buffalo Express, will lead many horsemen to give more than a passing thought to the wonderful old horse that was to Indiana horse interests what Hambletonian was to those of New York. The history of Blue Bull's life reads like a romance. Naturally a very fast pacer, and at his best when pacers were despised, he received scant consideration. He was kicked from pillar to post, and after one of his legs had been broken he was at last placed in the stud as companion to a jack, and his service fee was just \$5, one-quarter of that of the jack. In this ignominious position, it can hardly be imagined that many even fairly good mares could be bred to him. Yet his foals, got under such circumstances, proved fast, and in a few years the formerly despised horse began to attract the attention of breeders far and near. Before he died Blue Bull had made his owner, the late R. J. Wilson, of Rushville, Ind., a rich man, and placed himself second to Hambletonian as a progenitor of fast harness performers. Many of his sons have become successful sires. As for broodmares, he now stands second only to Mambrino Patchen, with good prospects of becoming the leader in this respect within the next two years. His daughters have produced 123 standard performers, as against 147 produced by daughters of Mambrino Patchen, although the daughters of Mambrino Patchen are much sought after, and given opportunities such as the daughters of Blue Bull never had.

This year eight new performers were out of Mambrino Patchen mares, while the daughters of Blue Bull produced sixteen, as follows: Moral, pacer, 2:11½; Tom Powers, pacer, 2:12; Blue Wilkes, pacer, 2:17½; Louise M., pacer, 2:17½; Coxswain, pacer, 2:21½; Marie Wellington, pacer, 2:21½; Anna Woodruff, pacer, 2:22; Kassel, pacer, 2:22½; William C., pacer, 2:22½; Strathblue, pacer, 2:23½; Nameless, 2:23½; Strathbell, pacer, 2:25; Flamingo C., 2:25½; Blue Wilkes, 2:27; Foxine, 2:28; Royal Baron, 2:28. What a good showing this really is may best be judged when it is stated that the daughters of Belmont produced only fourteen, those of Electioneer and Strathmore each thirteen, those of Happy Medium ten, those of Red Wilkes and Nutwood each eleven, while those of George Wilkes and Mambrino Patchen contributed but eight each.

### An Equine Turkish Bath.

On the farm of A. L. Lumis, near Lexington, Ky., an experiment was lately tried that while not exactly new in all its aspects was new at least in so far as the manner of application was concerned. Mr. Lumis had a thoroughbred horse that was threatened with

bronchitis, and it looked as though the application of vapor after the fashion of the ordinary Turkish bath would do him good. In a small zinc lined stall the horse was placed and then the steam, emanating from a boiler below, was turned on, reaching the stall through countless small perforations in the floor and partly on the sides. Rubbing down followed in due course and a thorough cleansing was given the animal's skin during the entrance of the steam into the zinc lined stall. The usual precautions were taken to prevent the horse catching cold and they were successful, as was the treatment, the animal coming out much improved in health and in attractive appearance, his skin being particularly improved in looks. The improvement was so very marked and the means to avoid cold catching so apparently simple that Mr. Lumis has decided to repeat the experiment on both healthy and ailing horses. It stands to reason that the same agent that works so successfully with the human subject should act equally well on the equine, when the necessary precautions can be taken against letting the patient get cold after he has received his treatment. It may be that some convenience of the sort may eventually be made to take the place of the regulation bath in stall or open air after a race. If a horse could be comfortably placed in a zinc lined stall secure from drafts and theresteamed out after a hard race, his muscles refreshed with soothing and stimulating washes, and the soreness drawn from them by rubbing and heat, the effect would be in all probability highly beneficial. Mr. Lumis seems to have solved the problem of appliances and the principle is so simple and so well understood that no trouble should now be experienced in taking a step in advance in the treatment of horses in disease and in health.

### Foreign Buyers.

Elsewhere will be found the advertisement of Wm. B. Fasig & Co.'s coming February sale in New York.

The firm invites a comparison of records of sales and is willing to stand in the test. Records are what tell, no matter what is claimed, and a perusal of sale reports will enable anyone to determine what firm conducts the most successful sale events.

The foreign buying contingent patronize the sales of this firm almost exclusively, simply for the reason that it is believed to be the only American sale firm that advertises systematically and extensively in Europe. At the last November sale close to \$30,000 was paid by foreign buyers to this firm and the same buyers pledged attendance to the February event.

There can be but a limited number of horses accepted and they must be of the highest type.

Information can be had by applying to Mr. Samuel Gamble at the office of the BREEDER AND SPORTSMAN.

# NEW LOUISVILLE JOCKEY CLUB

Stakes to Close January 15th

— FOR —

## SPRING MEETING, 1898

15 DAYS---11 STAKES---MAY 4th-20th.

The New Louisville Jockey Club will close the following Stakes on JANUARY 15th:

**THE DEBUTANTE STAKES**—For two-year-old Fillies. \$5 to accompany the nomination; \$50 additional to start. The value of the race to be \$1,300, of which \$200 to second and \$100 to third. Winners of a sweepstake to carry 3 pounds; of two, 5 pounds extra. Maidens allowed 5 pounds. **Four furlongs.**

**THE WENONAH STAKES**—For two-year-old Colts and Geldings. \$5 to accompany the nomination; \$50 additional to start. The value of the race to be \$1,300, of which \$200 to second and \$100 to third. Winners of a sweepstake to carry 3 pounds; of two, 5 pounds extra. Maidens allowed 5 pounds. **Four and a half furlongs.**

**THE JUVENILE STAKER**—A selling sweepstakes for two-year-olds. \$5 to accompany the nomination; \$50 additional to start. The value of the race to be \$1,200, of which \$200 to second and \$100 to third. Those entered to be sold for \$2,500 to carry weight for age. Allowances: 2 pounds for each \$250 to \$1,500; 1 pound for each \$100 to \$500; 2 pounds for each \$100 to \$500. **Five furlongs.**

**THE BLUEGRASS STAKES**—For Three-year-olds that have not won a sweepstakes or two races prior to the closing of this stake. \$5 to accompany the nomination; \$50 additional to start. The value of the race to be \$1,300, of which \$200 to second and \$100 to third. Weight 112 pounds. Winners of a sweepstakes or two races after January 15, 1898 (selling purses excepted) to carry 5 pounds extra. Maidens allowed 5 pounds. **Six and a half furlongs.**

**THE MADEMOISELLE STAKES**—A Selling Sweepstakes for Three-year-old Fillies. \$5 to accompany the nomination; \$50 additional to start. The value of the stakes to be \$1,300, of which \$200 to second and \$100 to third. Those entered to be sold for \$3,000 to carry weight for age. Allowances: 3 pounds for each \$500 to \$2,000; 2 pounds for each \$250 to \$1,000; 2 pounds for each \$100 less. **Seven furlongs.**

**THE PREMIER STAKES**—For Three-year-olds. \$5 to accompany the nomination; \$50 additional to start. The value of the race to be \$1,300, of which \$200 to second and \$100 to third. Winners of a race of \$3,000 or one of \$10,000 at any time, 5 pounds extra. Others, non-winners at any time of three sweepstakes of \$800, or of twelve races of any value, allowed 5 pounds; of two sweepstakes, 8 pounds; of one sweepstake, 12 pounds; Maidens, 20 pounds. **One mile.**

**THE LOUISVILLE HANDICAP**—For Three-year-olds and Upward. \$10 to accompany the nomination; \$50 additional to start. The value of the race to be \$1,500, of which \$200 to second and \$100 to third. Weights to appear three days prior to the day of the race. Winners of a race, other than a selling purse, after weights are posted, 5 pounds extra. **Mile and one-sixteenth.**

**THE FRANK FEHR HANDICAP**—A selling Sweepstakes for Three-year-olds and upward. \$5 to accompany the nomination; \$50 additional to start. The value of the race to be \$1,300, of which \$200 to second and \$100 to third. Those entered not to be sold to carry 5 pounds extra; if for \$3,000, weight forage. Allowances: 1 pound for each \$250 to \$2,000; 1 pound for each \$100 to \$1,000; 2 pounds for each \$100 to \$500. **One mile.**

## The Kentucky Derby, \$6,000, Clark Stakes, \$4,000, and Kentucky Oaks, \$3,500

WILL ALSO BE RUN AT THIS MEETING

Address all communications to the Secretary,

CHAS. F. PRICE, Secretary, Louisville, Ky

## Selling Horses in New York.

SAN FRANCISCO, Jan. 6, 1897.

EDITOR BREEDER AND SPORTSMAN.—I have just returned home from my trip at Peter C. Kellogg's December combination sale at Madison Square, Garden, New York, and to me, all things considered, the trip was a very successful one, as the stock arrived at the sale in excellent condition, and with two or three exceptions, the prices were fair, considering that this sale followed the very successful one of the wide-awake auction firm W. B. Fasig & Co., who advertise extensively, throughout the United States and Europe. The power of the press on their side greatly handicaps any sale following them, as they offered the best and fastest horses by their records in the land. I mention this for the interest of those who contemplate selling their stock hereafter and advise them not to send their consignments to the New York market following any sale held by that firm or just before the holidays, as there will not be any enthusiasm nor good buyers present. There must be high-class stock offered, good buyers and enthusiasm at any sale, for it to be a success.

When any person will say to you that high-breeding counts for naught, just turn your deaf ear on that person and say to yourself that it is a false alarm. I have observed that all the best buyers first look for that quality, then if it is accompanied with good looks, color and speed and fast records, if you don't realize an extra good price for your animal you can say for yourself, "this is a cold day for me."

I have on two occasions been placed in a very embarrassing position, though simply acting as an agent between buyer and seller, and in all cases the animals sold for their par value. The seller kicks in one instance and is dissatisfied with the prices he receives. As he is not posted on his animal's actual value, his love for him and eagerness for a long price makes him sour. A few weeks later in turn I received a kick right opposite from the buyer for selling an animal that is not high class in every respect.

I show the animal as well as possible and sell him, "as he wears hair," so as to not let myself be placed in a position where I cannot look both seller and buyer straight in the face and say, "I have simply done my duty." I can't afford to allow any seller to use me as a cat paw, as there is only one way to act in a horse deal and it has always won and always will—the straightforward business way. I am now too old to do otherwise. Again I wish to call the attention of the seller to the fact that the public is not so easily fooled as in former days. They well know a trick or two themselves. You offer an animal high bred, good looks, color, sound, speedy and good gaited, or one that has earning capacity or that has just finished a very fast and successful season upon the turf. Such an animal will find a ready purchaser at a price that gives a good profit on breeding and developing. When you offer any animal for sale just think what you would be willing to pay. There is no actual value to be placed upon any animal. After the sale is over then you know the value. Any horse is worth what you can get for it.

The only way to get at your animal's value is to offer it at a public sale. Advertise well, and have it look and show well at the time of selling. This is the best and only way that I can tell any horse's actual value. I have seen animals sell for twice their value, and others for not half what they were worth according to my notion. Again, opportunities and good management must be considered at any sale. Take the case of O. A. Hickok's great young mare Thoro, that was sold at Chicago last month. I hold that she did not sell at her value, as I consider the management and circumstances about her were poor, and it has proven beyond doubt that she would have sold in either Kellogg or Fasig's New York sales for \$5,000 or over. She was started at \$3,000, and only one bid after, and that was \$100. It is the general opinion of all good judges that she would have sold for over \$5,000 in New York, and that her purchaser got a bargain, as she has earning capacity and a prosperous turf future in store. So if I were asked the value upon this young mare I would feel safe in naming her value at \$5,000. Take any animal the type of Margart Worth, Ethel Downs, Ira, that has size, good breeding, looks and record; it will attract attention at any public sale, and lively bidding, but just what price such animals will bring no man can foretell. These are the kind that attract the attention of the Europeans, as well as some of our wealthy American gentlemen road riders. I should advise all our California breeders to not think of sending any stock hereafter to the New York or European Market unless of your very best, as the freight and expense is large and you will be taking a great chance in getting that expense back. At the same time the buying public is getting more enlightened every day, and an animal must be great to claim that title in these times.

I have been, and will continue, negotiating with the railroad people to try and get reduced rates on stock shipped to the Eastern sales markets, and I think that it would be a good idea if the members of the P. C. T. H. B. Association and breeders of California would interest themselves in this important movement. If this should be accomplished it would improve your breeding industry and horse market.

Yours very truly,

SAMUEL GAMBLE.

1307 Dolores street.

Dr. McMackin of Raleigh.

Office of W. C. Mackin, V. S.

RALEIGH, N. C., May 21, 1896.

SPOHN MEDICAL CO., Gentlemen:—I seldom recommend proprietary remedies, but after using Spohn's Distemper and Cough Cure in my practice for some time and putting it to the severest tests for the cure and prevention of distemper, pink eye, epizootic and catarrhal fever, I must say it is an absolutely sure cure for these contagious diseases, and prevents horses having them even in same stables.

Yours truly,

W. C. McMACKIN, V. S.

The Successful American Trainer—Frank Starr  
—Now in Russia.

Dear Sir—I have used the Speed Sustaining Elixir during the present season, and feel that I am fully satisfied it does all claimed for it, and that it has in many instances saved horses from death and from exhaustion. It is absolutely free from any bad after effects. If my friends use it, their verdict will surely be the same as my own. FRANK STARR.

## COURSING.

Jan. 11, 1898—Annual meeting Interstate Coursing Club.  
Jan. 15-16—Ingleside Coursing Park. Regular meetings every Saturday and Sunday.

## Dogs as Draft Animals.

With a view to discovering, if possible, what bearing the use of dogs in certain parts of continental Europe might possibly have on our export trade in horses, the state department at Washington sent out an enquiry to many of the American consuls stationed at French, German and Belgian points, requesting information on the subject. Obviously, if any great number of these animals were in use, any new law or economic change, that might necessitate their discontinuance, would create an additional demand for horses of certain sorts that can be supplied more cheaply in the United States than anywhere else in the world. From the reports already received it does not appear that any reason exists why we should look for any great increase in the export demand for cheap horses even if laws should be passed in France, Germany and Belgium prohibiting the use of dogs as draft animals, as was done in England in 1842. The fact is that dogs are used in place of horses, almost altogether by men and women who could not afford either to buy or keep horses, and as a result these people if prohibited from using dogs would merely go out of the business they are now engaged in. The matter, while somewhat out of the strict equine line, is very interesting, and the report subjoined will be read with a marked degree of pleasure:

The use of dogs as draft animals exists to no extent in France, and to a rather limited extent in Switzerland (except in the country), but that such use is very common, almost universal in Belgium and certain parts of Germany. In the Netherlands, dogs are also so used, but to no very large extent, owing to the very strict regulations which exist.

The regulations regarding draft dogs are very much the same in all countries. Dogs must not pull a load beyond their strength, estimated to be 300 or 400 pounds to a dog; must wear muzzles of a particular pattern, which prevent biting, but are not uncomfortable; must be harnessed to the wagon in various prescribed ways; must never be left standing in the sun; in the cold weather must be provided with a blanket for cover, and a mat to lie down on during waits; must have water at certain intervals; must not be driven under certain conditions, etc., etc.

For all these reasons, the Belgium, German and Swiss peasant and small trader cling to the use of their dogs. It is said that the dogs are of more endurance than horses; they can take longer journeys with less fatigue than horses can. They require no stabling, no shoeing, no care of a special sort as do horses. At night the dogs act as watch dogs, in this way protecting the property which they help to accumulate in the daytime.

In the small farms near the cities, the farmers raise their own dogs; but the city traders buy theirs, at prices varying from \$6 or \$7 up to \$20 or \$30, the difference in price being due to difference in age, strength, pulling qualities, tractability, etc. The average price is about \$12.

The dogs are chiefly used by countrymen, especially dairy-men, to draw their product from the small market gardens or truck farms to the adjoining city, and also by dealers in the cities for delivering small and light wares. The countrymen, usually of very limited financial means, could afford to keep no other draft animal; the dog is the cheapest animal of the sort. His breeding is of no importance; no special breed exists; his training is limited to a day or two's practice in drawing a cart with an older animal, already broken in; his harness can be purchased for \$1.25; or can be manufactured out of odd pieces of rope and leather by a "handy man," his feed is an item of consideration, consisting of scraps from his master's table with an occasional treat in the shape of a piece of meat once or twice a week. The cart is the most expensive item in the whole outfit, costing from \$10 up to \$20, or \$30, according to quality, but the cart will wear for many years and once purchased, it is a fixture in the family.

There is no organized trade in draft dogs; dog markets are held, but the dogs offered for sale are of indiscriminate breeds and no standard is set by the dealers, as there is no recognized breed. In Belgium the dog is commonly called the "Belgium dog," for lack of a better name. Experiments have been made to produce a large, strong animal by crossing as follows: Mastiff with Danish hound, St. Bernard, shepherd (collie) and setter; St. Bernard with collie and common hound; Danish hound with setter, and Newfoundland with collie. The pure bred Newfoundland is rarely used as a draft animal on account of the hind quarters. In Hamburg, crossbreeds of Ulmer dogs and Danish hounds are selected for drawing small wagons and hand carts. In Berne, Switzerland, the dogs are with few exceptions all bastards of the Bernardine race, the pure breed is not employed as draft animals. A Ghent dog dealer has stated that in his opinion a very good breed could be obtained by the scientific crossing of the Belgium dog with the Ulm or Great Dane dog, but that this is not done and probably never will be done to any extent as that would materially increase the price of the dog and cheapness is the raison d'être of the draft dog.

Short haired dogs are always preferred, and as a rule the tails and ears are clipped, the latter that they may not be tormented by flies, the former for the reason that the peasants believe that the strength that would otherwise go into the tail of the dog is thus kept in the spine.

The societies for the prevention of cruelty to animals are interested in the prohibiting of the use of dogs for draft purposes, on the ground that such use is, in itself, a cruelty; in England, dogs were so used until 1842, when harnessing

them was prohibited. A wide difference of opinion on the subject prevails, but the majority of people think that so long as the dogs are not cruelly used, and the humane regulations which exist are strictly enforced, the use of the dog as draft animals should be continued.

At present, it is the custom to harness more than one dog to a cart, sometimes as many as five; when but one is used, the driver helps by pushing or pulling. A driver is never allowed to ride on a loaded cart, but after his cart is empty, he may ride. One reason for the continuance of this use of the dog is the undeniable and undoubted fact that the dog likes his work, and enters into it with the greatest intelligence. Nothing is so irksome to the dog used to be harnessed as to be left at home when his master goes abroad. The dog rarely has to be urged to exertion; on the other hand, it is more often a necessity to pull him in.

Consul Henry Robertson writes from Hamburg, that, in his opinion the use of dogs as draft animals is a cruelty; but Consul General de Kays differs from this opinion and writes that the dogs are well-used and happy.

## Great Dane Standard.

The following translation from the official "Rassemerkma der Deutschen Dogge" of the National Doggen Club of Germany, contributed recently to the American Field by Mr. G. Muss-Arnolt may be of interest to the fancy in view of the coming show season. This is the standard of the Great Dane Club of America. It will clear some points, especially in regard to the head and colors, and it differs materially, especially in its directness and exactness from other self-styled standards and should be of corresponding value.

General Appearance.—The Deutsche Dogge (Great Dane) combines in his whole appearance size, strength and refinement, as hardly any other breed does. He has not the heavy and clumsy looks of the mastiff, nor lightness of the greyhound, but just holds the middle between these extremes, of immense size, with strong, and, albeit, elegant conformation, wide stepping and proud bearing, head and neck high; stern, when quiet hanging downward, when excited straight or only slightly raised above the back.

Head.—Rather longish; higher and more pressed in on the sides than broad and flat appearing; seen from the side, it shows a decided stop; line of forehead and nose must be parallel with each other. Seen from the front the skull should not appear much broader than the strong, well developed muzzle. Cheeks of very little prominence. The head should, from all sides, appear squarish, lean and dry in all its lines. Nose large, bridge straight or only slightly arched. Lips blunt, forming a right angle with line of head, with medium yet distinct flews. Jaws even. Eyes medium large, round and with sharp expression. Brows well developed. Ears high put on, medium wide between and standing erect with a pointed crop.

Neck and Shoulders.—Neck long, strong and slightly arched, with well defined line where it connects with skull; from shoulder to head gradually growing finer; no dewlap. Shoulders long and sloping.

Chest.—Medium broad, ribs fairly sprung, reaching far back, deep in front, should go almost to elbow joint.

Body.—Back moderately long, loin slightly arched, croup short, slightly drooping and running in fine line to stern. Seen from above, the broad back connects well with fairly sprung ribs. Thighs should be strongly developed and the hams must be well muscled. Line under body a graceful curve with stomach well drawn up.

Stern.—Medium long, little more than going down below hocks, strong at root, ending well tapered; but should never even under excitement, be carried high over the back or curled.

Forelegs.—Elbows well let down, at right angle almost to shoulder blade and turned neither in nor out; forearm well muscled, the whole leg strong, and seen from front appears, on account of muscular development, slightly bent; seen from the side, perfectly straight from elbow to foot joint.

Hindquarters.—Hams long, well muscled, well let down, fairly bent; seen from behind stifles must appear entirely straight, neither in nor out.

Feet.—Catfoot, neither turned in nor out, well arched and closed toes, nails strong and curved; dewclaws not wanted.

Coat.—Short, dense, smooth, slightly longer on under side of stern.

Color.—(a) Brindled, body color varying from the lightest fawn to rich golden tan, always with black, or at least dark stripes. (b) Whole colors, fawns or grays in the different shades, either entirely one color or with darker shadings of the same on muzzle, eyebrows and back; also all black, and all white. The nose, with brindled or whole-colored dogs (except the all-whites) is always black, eyes and nails dark, white markings not desirable. (c) Spotted, known as harlequins, body color being white with irregularly-formed but regularly distributed spots of black, or sometimes gray. Other colors, respectively, markings as the above are faulty. Harlequins, or all-white dogs, have sometimes wall eyes, flesh-colored or spotted nose and white nails, which are permissible in these colors.

Size.—The height of dogs should be not under 76 centimeters, better 80 and above (30 to 32 inches); bitches from 70 to 75 centimeters (28 to 30 inches.)

## Treed by Wild Dogs.

A pack of wild dogs is making the Maurice river valley a terror to the hunters and farmers of that section. John Kyte of Vineland, N. J., had an exciting experience with the canines recently.

Kyte was hunting in the swamp when his dog began to run around strangely, scenting the air as if in the vicinity of big game. Presently the hound stopped, trembled, and, lowering his tail, ran to its master and whined. Suddenly there burst into view several large, shaggy dogs of the Newfoundland species, followed by a pack of the brutes, all snapping and snarling.

Kyte dropped his gun and clambered up a tree out of reach, whilst his dog sought safety in flight. He was none so soon, for the dogs circled around the tree trunk, growling savagely. Kyte, realizing that he was treed, began to speculate seriously upon the prospects of spending all night in his airy loft. He did not have to wait very long, however, for one particularly large dog, evidently the leader, started into

the swamp, followed by the rest, and finally the whole pack disappeared. Kyte waited a little while, then cautiously descended and made a bee line for home.

While guanoing one morning near the same swamp Joel Chew and his son Ned were set upon by the same dogs. A volley of shot staggered them. Chew and his son continued to fire into the drove until they turned and made for the thickest part of the swamp, leaving trails of blood in their path. Young Chew captured a little puppy which was left behind and brought it home.

#### GREAT GREYHOUND GOING.

#### Big Open Stake at Ingleside Coursing Park To-day.

The slight dissensions that have lately arisen among certain of the leasmen has apparently done nothing but add to the sport as it affects the public. The stake this week at Ingleside is one of the most notable events ever gracing any coursing park in America. The total prize money aggregates no less than \$375.00, and the entry embraces fifty performers of the highest class. This would hardly indicate a rending in twain of the leasmen's ranks, or, indeed, anything except a healthy state of sport and the prospects of continued increase.

It is an increase over last weeks stake both monetarily and in number. The money has brought out the famous Dean stock, the entire Kay & Trant string, the speedy Skyball, and, in truth, a classic representation. The running begins today at 1 P. M., and continues through the run down. The ties will be run off tomorrow commencing at 11 A. M.

The candidates in to day's contest seeming to have the best chance at a flag are Lass o' Gowrie, Susie, Pat Malloy, Vigilant, Seminole, Sly Boy, Myrtle, Diana, Fireman, Granule, Hercules, Moondyne, White Lily, Eclipse, Tod Sloan, Fleetwood, Counts of Monte Cristo, Carlotta, Black Prince, Sylvia, Connemara, Counterfeit, St. Lawrence and Skyball.

The drawing Thursday evening was the best attended for many months, Delta Hall was packed to the doors.

W. Kay's name has been associated with the succeeding faction of the Interstate Club. Kay & Trant's whole string, it will be noticed, are running to-day, even Carlotta, who makes her Coast debut to day.

#### The Sacramento Bench Show.

Classes have been provided for field spaniels, black and other that black, as follows: puppy, novice, junior, senior and free-for-all. Cash prizes will be offered for first, second third, fourth and fifth best kennels, free-for-all. The foregoing was inadvertently omitted in the premium list—the omission will be properly listed in the catalogue. Entries are reported to be coming in rapidly and the outlook is favorable for a large entry list.

#### St. Bernard Club.

The regular meeting of the St. Bernard Club last Monday evening drew forth a large attendance of the members. General routine business was the principal order of the evening. The report of the treasurer was a very acceptable one to those present. It shows the club to be in a remarkably healthy financial condition. The coming bench show season will be vigorously prepared for by this energetic organization.

#### DOINGS IN DOGDOM.

A Higgins sold his Duke of Oak Grove (Sculptor—Snowflake) to Jas. Wren for \$50.

Sarcastic has been purchased from D. Shannon by a Merced leasman. The price paid was \$100.

Two valuable dogs belonging to Frank Grassi, of Livermore, were poisoned recently. It is suspected that the cowardly perpetrator of the act harbored a grudge against Mr. Grassi.

The setter Lock recently purchased by Arthur Bennet from Richard Bangham of Chatham, Ont., will not be seen in competition at the coming trials, the time for proper preparation being too short.

The bench show at Tacoma is credited with seventy-five entries. From a bench show standpoint this is not encouraging, but the nucleus has been formed for a "hot time in the old town" for some time to come.

Dog teams were used successfully over the trails from Dawson City to the Coast by a party of returning miners recently. They were twenty-four days on the trip over the Dawson trail. The journey was unattended by special incident.

A fine pair of Alsace poodle bitch puppies, two months old, beautifully marked, can be purchased for a reasonable price by addressing "T. D. G." 1022 Mission street. The sire John and dam Nellie are imported dogs and won bench prizes respectively in Paris and Sydney and Melbourne.

It is more than probable that the excellent cocker spaniel Raillotte will be seen at the Sacramento Bench Show. The Irish setter Queen of Kildare is in fine fettle and will give a good account of herself at the show. If Reglov Jr. can be put in proper condition the Sacramentoans will have the opportunity of viewing a grand St. Bernard.

#### CHARLESTON, MASS.

DR. H. CLAY GLOVER—Dear Sir:—It gives me great pleasure to testify to the merits of your infallible remedies. I have used your Mange Cure in cases of mange of the most virulent type; you have indeed found a specific. As for your Vermifuge, it is a mild and harmless eradicator of worms, and is with my puppies, from their weaning an established diet. Very respectfully,

T. A. STEPHEN, Federal Bank, London, Ont.

The well known and valuable collie dog Laddie, which was owned by R. E. De B. Lopez, of the Merriwa Stock Farm, Pleasanton, was recently poisoned. Whether the poisoning was accidental or by design is unknown at present to Mr. De Lopez. The collie bitch Sheppie is now in whelp to Laddie, which litter will be the last of many by this favorite sire.

#### Kennel Registry.

Visits, Sales, Whelps and Names Claimed published in this column free of charge. Please use the following form:

#### VISITS.

W. B. Frue's (San Jose) collie bitch Baby Due, 37,187 (Maney Trefoil—Smoky) to same owner's Mascot, 45,213 (Jeannot—Juanita) January 1st, 3d.

Henry Bamber's (Hollister) fox terrier bitch Golden Gift (Warren Sage—Ch. Golden Jewel) to J. B. Martin's Golden Flash II. (Blemton Reefer—Blemton Spinaway) on January 11, 1898.

#### ROD.

#### Coming Events.

Feb. 8.—Regular semi-monthly meeting of the San Francisco Fly Casting Club. Office of State Fish Commission, Flood Building, San Francisco.

#### NOTICE TO ANGLERS.

Every angler is invited to drop us a line occasionally, telling us the condition of the streams they have visited and the killing lure of the number and size of the fish caught, or any other item of interest to anglers.

#### Russian River Notes.

Anglers had good fishing on the river up to the beginning of this week. On Saturday and Sunday last Fish Commissioner A. T. Vogelsang, Chief Deputy J. P. Babcock and Al Wilson caught thirty-one splendid fish in the tide water between Green's cabin and the old saw-mill. Al Wilson came back Tuesday evening, he brought down six large fish caught the day before. A number of gentlemen who have been fishing near Duncan's Mills recently are very much dissatisfied with the conduct of certain influential parties in that vicinity owing to the evident cognizance and encouragement of illegal fishing which has been indulged in on the river to quite an extent, notwithstanding the seizure of eight or nine fine set nets during the season. The visits and patronage of sportsmen is worth a great deal more to Duncan's Mills than the amount received from shipments of fish that are sent down to the local markets and elsewhere. A party of anglers chartered a special car last Saturday for a trip to the river. The excursionists had a pleasant time, but they did not catch many fish.

#### The Fly-Casting Club.

The regular meeting of the San Francisco Fly-Casting Club last Tuesday evening drew forth a large attendance of the members. The principal business of the evening was the discussion and acceptance of a system of rules governing the contests for the coming season. The committee was given credit for having very happily overcome the many difficulties in the way of perfecting the series of rules submitted. Under the classification adopted the novice will have comparatively the same opportunity for showing a good score as the champion. C. F. Grant was elected a member of the club. The next regular meeting will be held February 8th.

Crawfish, crabs and lobsters are peculiarly sensitive to loud noises, and it is a fact that a loud and sudden clap of thunder will cause them to amputate or drop their large claws and pincers. The impulse which seizes them when suddenly alarmed is to throw off their heavy claws, so that they may be the quicker scurry off to a place of safety. Crabs and lobsters can in ten days or a fortnight grow new claws as large as the old ones. For several weeks, however, the patient who is growing on a new set of fighting weapons, does not appear among the armed members of his family, because, his claws being soft, he could not take his own part, and would be eaten by his cannibal brethren.

Constable McGuigan of Salinas brought over from Castroville Monday two fishermen who were arrested at Moss Landing Saturday night by Fish Commissioner Lowe, on a charge of having violated the law by fishing with a set net. Their examination was to take place Wednesday.

The bagfish, or myxine, has a custom of getting inside the cod and similar fishes and entirely consuming the interior, leaving only the skin and the skeleton.

Anglers have been rather lucky with steelhead in the tide water at Schellville. The fish are reported to be of good size.

The anglers were somewhat numerous at Point Reyes last Sunday but not many fish were caught.

On the Sausalito shores and at Bonita cove sea trout are plentiful.

Smelt fishing in the Oakland estuary is about over.

The bar at Russian river is closed again.

#### THE GUN.

#### NOTICE TO SECRETARIES.

If secretaries of gun clubs will send us the full scores of their regular monthly shoots we will be pleased to publish them; but we must receive the copy on Wednesday to insure its insertion that week.

#### The Game Law.

The open season for shooting quail, doves, deer and wild duck as fixed by the State law is as follows: Doves, 15th July to 15th February. Mountain quail and grouse, 1st September to 15th February. Valley quail, wild duck and rail, 1st October to 1st March. Male deer, 15th July to 15th October.

The clerks of all the Boards of Supervisors have advised us that no changes have been made this year, but the ordinances passed last year hold good if they do not conflict with the State law. The following counties have not passed any ordinances that alter the open season as provided by State law: Amador, Butte, Inyo, Modoc, Mono, Mendocino, Mariposa, Nevada, Napa, Plumas, San Bernardino, San Diego, San Joaquin, Santa Clara, Sacramento, Solano, Sonoma, Santa Cruz, Siskiyou, Tehama, Yolo and Yuba.

The changes are as follows:

Alpine—Deer, Sept. 2 to Oct. 15.  
Alameda—Rail, Oct. 15 to Feb. 15.  
Colusa—Deer, Aug. 15 to Oct. 15.  
Calaveras—Deer, Sept. 1 to Oct. 15.  
Contra Costa—Deer, July 20 to Sept. 2. (Use of dogs prohibited).  
El Dorado—Doves, July 20 to Feb. 1.  
Fresno—Market hunting and shipping game out of the county prohibited.  
Humboldt—Grouse and Wilson snipe, Sept. 1 to Feb. 15. Killing of waterfowl prohibited between one-half hour after sunset and one-half hour before sunrise.  
Kern—Shipping game out of the county prohibited.  
Lake—Deer, Aug. 1 to Oct. 1.  
Los Angeles—Shipping game to markets outside of the county prohibited.  
Marin—Deer, July 15 to Sept. 15.  
Madera—Market hunting prohibited.  
Monterey—Deer, July 15th to Sept. 1st.  
Orange—Doves, Aug. 1 to Feb. 1. Deer, Aug. 15 to Oct. 1. (Market hunting prohibited).  
Riverside—Shipping game out of the county prohibited.  
San Benito—Deer, Aug. 1 to Sept. 15. (Market hunting prohibited).  
Santa Barbara—Deer, Aug. 1 to Sept. 14. Use of hounds prohibited. (Market hunting prohibited).  
San Diego—Shipping quail out of the county prohibited.  
San Luis Obispo—Deer, July 15 to Sept. 1. Doves, July 15 to Dec. 1. (Use of hounds prohibited). Hunting for markets situated outside of the county prohibited.  
San Mateo—Deer, July 15 to Sept. 1. (Use of dogs prohibited).  
Rail, Oct. 15 to Nov. 15. (Shooting from boat at high tide prohibited).  
Shasta—Deer, July 15 to Sept. 1.  
Sierra—Deer, Sept. 1 to Oct. 15.  
Sutter—Deer, Sept. 1 to Oct. 15. Doves, July 15 to Jan. 1.  
Trinity—Deer, Sept. 1 to Oct. 15.  
Tulare—Deer, Sept. 1 to Oct. 15. Shipping game out of the county prohibited.  
Ventura—Deer, July 15 to Sept. 1. (Market hunting prohibited).

#### NOVEL GOAT HUNTING.

#### How the Wild Animal in Alaska is Brought Into Rifle Range.

"They have a unique way of hunting mountain goats up in the mountains back of Skagway," said D. J. McKinney, the "mayor of Skagway," recently.

"The boys at one of my camps told me one day that they had seen some goats up in the hills, and they asked me if I wanted to go along to hunt them. Of course I did and we were soon climbing high up on the mountains, away above the altitude that I thought any living creature could live in. Still up and up we went. The boys were trying to get above a place where they had seen the goats a few days before. When they had located the proper point, they selected a huge boulder and got me to help them tip it over. It took the combined strength of three of us to get the rock started. When it did get to going the havoc it caused on its way down the valley was something fearful.

"Then the boys told me to get ready for a surprise. We all got our rifles ready and waited. It was only a short time until we saw emerging from the scrubby growth below us three fine goats. They came toward us, bounding from crag to crag and apparently heedless of the danger they were running into. They came to within sixty yards of us, and we brought down all three.

"I learned that the goats always try to get above rolling rocks, and that this is a favorite way of hunting them."—Seattle Post-Intelligencer.

#### Trap Shooting.

Arrangements are rapidly being perfected in the East for one of the greatest live bird tournaments ever held in this or any other country. It will take place, or rather begin, in February, 1899, at Baltimore, Md., and will last thirty days. The tournament will be open to the world, and the new City of New York will, without a doubt, have the largest representation. So far \$6,000 has been subscribed as an addition to the purses, and at this rate it is safe to say that the above amount will have been doubled by the time the tournament commences.

The tournament is to be held on a very different plan from any previous event of like character. It will require a very large ground, where the men can shoot quickly; it will require, in fact, a double field. There will be three sets of traps in each field, or thirty traps in all, just twice the number now in use at big Elkwood Park. At each set of traps the events will be different. Some will be at \$5 entrance and others at \$10, \$15, \$25 and \$30, and each participant can make his selection and enter as he sees fit.

It is proposed to interest the shooters who now attend the spring contests at Monte Carlo and other foreign points, and to place the game at Baltimore on such a liberal scale as to make it possible for a shooter to travel from any part of the globe to this centre, and, by winning one of the big events, to return home with plenty of money in his pocket. These proposed big events will call for an entrance fee of \$125 and will be decided on the miss and not plan.

The present plans, which are subject to alteration, call for a thirty-day tournament. That is, it will take thirty days to finish the contest, but the live bird programme will embrace events on alternate days only. The shooters may practice during the off days and may shoot small events if they choose. Lovers of clay bird shooting will also have a chance to indulge in their favorite sport on days not included in the programme proper.

#### Half Moon Bay Notes.

#### HALF MOON BAY GUN CLUB.

As a result of the Christmas shoot much interest is being taken in forming a rifle, pistol and gun club in Half Moon Bay by the young men of that neighborhood.

A circular letter has been sent out this week, explaining the plans of formation and the probable cost of membership. These circulars were sent to the young men of the vicinity, asking them to attend a meeting during the coming week, called for the purpose of discussing the advisability of limiting the membership and arranging other details of the proposed club. The idea is not to confine the club to shot-

gun wielders, but to include the pistol and rifle men, as well as the lovers of the rod and line, and to advance the interests of game protection and propagation.

#### A CRACK SHOT.

One of the best exhibitions of good marksmanship that has come to our notice was made last week by Geo. F. Ruddock at the oil wells. In ten shots with a 22 cal. Stevens rifle at a target 100 yards off he managed to cut the entire bull's-eye out. His first six shots rimmed the left hand and upper side of the bull's-eye, the remaining shots tearing away every vestige of the black center. It is doubtful if such shooting can be equalled by any rifleman in the county.—Coast Advocate.

#### Peerless Shooting Club.

About twenty-five citizens of Davisville are combined in the organization of the Peerless Gun Club, which has a lease on between 600 and 800 acres of land known as the Armstrong tule, east of Davisville a few miles.

This tule abounds in ducks and geese and game is so plenty that greater sport is found here than on some other preserves. The members of the club spend part of their leisure time on the grounds and invariably return with a long string of feathered contributions.

The club is not troubled much by poachers as there is a keeper always present who warns all trespassers. A few, however, have been cinched for being too ardent in their search for game this year. There is plenty of tule land which is not held by clubs, there is no need for trespassing.

The members have a supply of boats and dogs so that their sport is rendered as enjoyable as could be wished. The only restriction placed on those hunting is that they must not shoot during the night.

#### Shooting Contest.

An interesting shooting contest at Woodland between local sports took place on the club's hunting grounds New Year's Day. The contestants were divided into sides of four each as follows: Dr. Grant, Chas. Elston, Frank Porter and H. E. Coil constituting one side, and W. A. Porter, Harry Porter, Chas. Richmond and Hayes Gable the other. Ducks and geese were given certain values in points, the contest being to pile up the most points. Mallards were worth 50, sprig 30, geese 25, widgeon 20, spoonbills and teal 10 each.

The contest resulted in a tie, something like 900 points having been made by both sides. Teal, spoonbills and sprig were the birds most killed. The following numbers were brought down by: Dr. Grant, 24; Chas. Elston, 10; Frank Porter, 10; H. E. Coil, 12; total for that side, 56; W. A. Porter, 21; Hayes Gable, 4; Chas. Richmond, 5; Harry Porter, 15; total, 45. The latter's birds were of a better quality and consequently worth more points, which fact made up the breach in numbers.

#### CARTRIDGE AND SHELL.

H. Fitch was at Petaluma Sunday. Thirty spoonbills fell to his gun.

Chas. Precht was at Sonoma, Sunday last, he shot a dozen English snipe.

R. Wenzel was at Mowry's and a bag of twenty teal and sprig was the result.

B. Sherock made a bag of fifteen teal and spoonbills at Newark on Sunday last.

At McGills last Sunday Messrs. Baum and Watson shot quail and English snipe.

E. Depue made a bag of twenty-five sprig and teal on the Empire Club grounds last Sunday.

Good bags have been made by Petaluma hunters on the Sonoma and Petaluma marshes during the past week.

"Bill Nye" and "Hello" were at Alviso last Sunday. The result of their shoot was a bag of fifty ducks, principally teal.

W. Price and Al Shurneman were in the vicinity of San Mateo last Sunday. They made a fair bag of quail and rabbits each.

Several men sat down to a banquet of the flesh of a rattlesnake in Denver not long ago and they pronounced the meat excellent.

L. D. Owens and W. Foster made a combined bag of twenty-five sprig and teal on Sunday. They shot on the Olympic Club preserve.

Dave Thom tried the Alviso district for English snipe last Sunday. H. Justins and a friend also bagged a few English snipe near Alviso Sunday last.

Sear's Point gave J. Kearney, J. Bruns, J. Brownlie and J. Kropp a fine bag containing seventy-five cans, sprig, teal, widgeon and spoonbills on last Sunday.

Ducks were plentiful at Mount Eden last Sunday. The weather was very cold. Plenty of hunters were on the ground and all of them made good bags.

F. Shultz bagged a dozen teal and spoonbills at Mt. Eden on Sunday. Dick Echeson and Jim McDonald shot fifty birds and H. Nolan brought down about two dozen.

Joyce's Landing was the ground selected for a shooting trip last Sunday by J. G. Chesley, Al. Cartwright, W. Burlingame and party. The bag was fair, composed of widgeon, sprig and teal.

The shooting grounds in the vicinity of Stockton are prolific in the supply of game and afford many opportunities to the hunter—but some of the catamaran contingent get mixed up once in a while.

W. H. Harrelson and Ollie Harrelson of Visalia, Martin Mull, Will and Walter Premo of Tulare were recently on a hunting trip down on the lake. They had splendid success, bringing home full gamebags.

At Alvarado last Sunday, the Lincoln Club shooters made some nice bags of ducks. Franzen had seventeen; Shaw, twenty-two; Klevesahl, thirty-one; Swan, twenty-seven; Carlson, twenty-five; and Le Gal, fifteen.

Cecil and Walter Lillard, E. Ullsteen and Chas. Story, of Dixon, bagged forty-one ducks recently, as the result of a day's shooting. The Dixon Tribune's quota, a fine pair of mallards, was confiscated by a neighbor's cat.

The recent rain has made the quail hunting very good near Riverside and Nimrods are making big bags on the mesa lands about the city every day. Ducks are also plentiful on both the Elsinore and San Jacinto lakes.

From Oakland mole to San Pablo the "cans" can be seen on the bay in countless numbers. They range south of the mole also; in fact, on the other side of the bay one can see daily myriads of ducks just out of range and wary.

Plenty of ducks; hunters fairly numerous last Saturday, Sunday and Monday on the bay shore district from San Leandro to Alviso. Sunday and Monday the weather was very cold; ponds on the marshes were frozen over.

W. N. Wetmore and Chas. W. Debenham made their presence felt among the ducks down on the Pastime Gun Club's grounds near Alviso last Sunday and Monday. The combined bag counted one hundred and eight birds, mixed in variety.

The match for the Cast Iron medal, emblematic of the live bird championship, between Rolla O. Heikes and Charles M. Grimm, held at Dayton, O., on New Year's day, was won again by Heikes. The score was 93 to 90. They shot at 100 live birds each.

The Spooney Gun Club had a day's good shooting on their grounds at Alvarado last Sunday. P. B. Bekeart, L. R. Larzalere, J. R. Burfield, Harry Miller and J. Miles were of the party. The combined bag was a good one, made up of sprig and spoonbills principally.

Johnny Coleman, Fred Bushnell, D. Hearfield and W. E. Murdock were shooting in the vicinity of Byron Saturday and Sunday, they made some good bags although the flight was not conducive to first-class shooting. The ducks were plentiful, but lazy—geese abound in that region.

The game wardens' convention to be held at Chicago on Feb. 7th bids fair to hold a considerable interest. There will be present wardens from Michigan, Wisconsin, Minnesota, North Dakota and possibly others. The question of game protection and preservation is awakening a great deal of interest and attention in the Western States.

Duck hunting in the vicinity of Merced has been very good recently. On the West Side two members of the Los Banos Gun Club, Dr. Hall and M. Fallon, accompanied by a friend, enjoyed two days' shooting on the Club grounds and killed ninety-three ducks. Two Fresno sportsmen are credited with 120 ducks in one day and C. N. Smith is reported to have bagged 130 ducks.

Game Warden Helms, of Sacramento county reports that he has found a number of dead ducks out on the Rancho del Paso, in the American river basin, that were evidently poisoned. The birds may have been eating poisoned wheat put out by the farmers for the purpose of killing squirrels and gophers. The warden proposes to investigate the matter fully. The penalty for putting out poison is \$500 fine or imprisonment for a year. The matter has been called to the attention of the District Attorney.

The Sportsmen's Exposition for 1898, opened on Thursday at 7 P. M. in the Madison Square Garden, New York. The exhibition will continue until Saturday evening, January 22d. The Exposition this year will be on a considerably larger scale than any held in the past. A large number of new exhibitors have taken space. The special attractions outside of the exhibits, are tournaments for fly casters and bait-casters, rifle men and amateur billiard players. Many entries in these events have been made. From all accounts the Exposition promises to be a great success.

The match between J. A. R. Elliott of Kansas City and Fred Gilbert of Spirit Lake, Ia., for the Du Pont trophy, will take place today at Dexter Park, L. I. There will undoubtedly be a large attendance of sportsmen at this match. A year ago at Dexter Park, Elliott won the trophy from Fullord, since then Gilbert has shot Elliott four times for the Du Pont cup; of these contests two resulted in ties, Gilbert won one and Elliott was the victor in the last. The conditions are 100 live birds, thirty yards rise and fifty yards boundary, \$100 a side and trophy, loser to pay for the birds.

Now that J. A. R. Elliott, the crack shot of Kansas City Mo., is in the East, efforts are being made by some Philadelphia to have a series of matches arranged between Elliott and J. E. Brewer. The Philadelphians are very anxious to back Brewer against Elliott, but there is scant hope that such a series can be arranged. Brewer is apparently shooting as well as he ever did, and his backers express the utmost confidence in his being able to beat any body in the world. They say, however, and figures bear them out, that it would not reimburse them for their outlay to send Brewer out west for a series of \$200 matches; even should he win them all, traveling expenses would more than eat up the receipts. If Gilbert's or Elliott's friends talk a little bigger, say, three matches for \$500 a match, and \$500 on the general result, they will be accommodated very quickly.

That portion of the game law relative to the use of guns of a larger caliber than No. 10 has been stricken from the statute books by a decision of the Supreme Court.

At the last session of the Legislature amendments were made to the game laws, one of the new sections providing: "Every person who shall use a shotgun of a larger caliber than that commonly known and designated as a No. 10 gauge shall be guilty of a misdemeanor." Complaint was made in the Justice's Court of Fresno against Chris Petersen for having a No. 8 bore gun in his possession, and he was convicted of the offense. From the sentence—a fine of \$50—habeas corpus proceedings were taken to the Superior Court and denied. On Monday the Supreme Court had the petition for habeas corpus submitted to it. In passing on the petition the court ordered the prisoner discharged, holding that the complaint, which was drawn in accordance with the statute, was not sufficient to constitute an offense.

Game Warden Andy Ferguson liberated four pairs of Mongolian pheasants on the Blasingame ranch thirty miles east of Fresno. The Blasingame ranch is an ideal location for the introduction of these rare birds in this climate. No shooting is allowed upon the ranch, which comprises 3,000 acres and there is an abundance of running water, grain and natural feed. Anyone shooting the pheasants will be liable to a heavy penalty.

The Stockton Rifle and Pistol Club has arranged a match shoot with Company B, N. G. C., for to-morrow, in which ten men from each organization will take part. The rifle team will be made up of the following marksmen: F. Merrill, Stroecker, Towne, Carroll, Phillipson, Salbach, C. Merrill, Robinson and Ditz, with Shafer and W. Stone for substitutes. Company B has selected Captain W. Bruce, Sergeants J. Ford, J. C. Ferguson, J. Burke, L. Giovanessi, G. Graham, Privates A. B. Anderson, E. Douglass, G. Reynolds and G. G. Young, with Musician A. Giovanessi and J. Porter for substitutes.

In notes of gun room gossip in the current number of the English Stock-Keeper, the following description of a Hindu-made gun appears. "There are some fearful and wonderful weapons in the form of shooting irons placed upon the market, but probably less sniping has been effectual than with one turned out by a native Mohmand smith. In this engine of destruction for the barrel of the rifle—it was very much rifle—seven pieces of broken Martinis had been used, but although the outside work had been done all right, no regard had been paid to the twist of the rifling, so that the bullet must have been subject to alternate twistings, first to right and then to left. Moreover, the screws of the back sight protruded into the grooves of the rifling. The student of ballistics would have some trouble in deciding where a bullet fired from this rifle would find its billet."

The Los Angeles World has the following notes in regard to sport in that vicinity: A good rain is very much wanted by all the hunters. The hills are dry and sandy and it is almost as hard getting a good bag of quail as it is finding a disinterested school director. Doves are next to impossible to find and cotton tails are scarce. In the San Fernando valley a number of jacks are reported. Some good scores have been made and are being made daily at the different duck clubs, but a good shower would be welcomed even by them.

Jim Monasco, Sam Alexander and Rob Ross went down to the Greenhead grounds Tuesday evening and came back Wednesday afternoon. Monasco got 15, Ross 41 and Alexander 25.

Count Von Schmidt, Colonel Morehouse, Mr. Hoy and several others went down to the San Joaquin grounds Wednesday and made some fine scores.

John Hauerwass and Joe Singer were down at the Recreation grounds Wednesday and Thursday. Singer got 56 and Hauerwass 53.

Jake Kuhrts visited the Recreation for three days and got 90 birds.

The Suisun Republican of last week has the following shooting notes:

Jonas Dinkelspiel has improved in his shooting, his string for last Sunday's work being fifty.

Frank and Gerald Whitley also received large strings, but we are unable to give the extent of their luck.

George Green, the well known pugilist, with his friend, Arthur Lamphere, both of San Francisco, have been at the Suisun Gun Club's headquarters with Dorm Perkins, during the greater part of the week.

A regular bombardment took place on the marshes last Sunday, and the mortality among ducks was great. The day was exceptionally favorable for the numerous visitors who came to Suisun to spend the holidays.

Joe Sweeney, of San Francisco, who was recently recorded as having picked up a stray duck while hunting at Good-year's station, visited the marshes with Tom Lenahan last Sunday, and the two hunters secured thirty ducks.

Conspicuous among the San Francisco hunters was James G. Chesley, cashier of the San Francisco Chronicle, who redeemed his reputation by bagging a string of fifty-eight ducks. Next on the list came W. H. Bryan with a single handed record of forty-seven.

Isaac Jacobs has fitted up a hunters headquarters at the mouth of the slough, and is anxious to have some of the visitors to Suisun call upon him. We can assure hunters that they will receive fine treatment from Mr. Jacobs, and we hope they will give him a trial.

Horse Owners Should Use  
GOMBAULT'S

## Caustic Balsam

THE GREAT FRENCH VETERINARY REMEDY  
A Safe, Speedy and  
POSITIVE CURE.

Prepared exclusively by J. E. Gombault, ex-Veterinary Surgeon to the French Government Stud.

SUPERSEDES ALL CAUTERY OR FIRING  
Impossible to produce any scar or bluish. The safest best BLISTER ever used. Takes the place of all liniments for mild or severe action. Removes all blanches or blanchettes from Horses or Cattle.

As a HUMAN REMEDY for Rheumatism, Sprains, Sore Throat, Etc., it is invaluable.

WE GUARANTEE that one tablespoonful of Caustic Balsam will produce more actual results than a whole bottle of any liniment or spavin cure mixture ever made.

Every bottle of Caustic Balsam sold is warranted to give satisfaction. Price \$1.50 per bottle. Sold by Druggists, or sent by express, charges paid, with full directions for its use. Send for descriptive circulars, if desired, etc. Address

**DISTEMPER,** INFLUENZA, PINK EYE, EPIZOOTIC AND CATARRHAL FEVER speedily and permanently cured, and others in the same stable, no matter how exposed, kept from having them by using

## SPOHN'S DISTEMPER and COUGH CURE

Also marvelous in cases of Pharyngitis, Laryngitis, Catarrh, Chronic Coughs, Colds, etc. 3 to 6 doses often cure DISTEMPER, and 1 bottle guaranteed. Cures by cleansing the blood. Absolutely safe for colts, mares in foal, stallions in service, and for the training and racing stables is the biggest saver of time, trouble and money. Used by over 100 stock farms in the United States and sixty five per cent. of livery, sale and shipping stables and thousands of farmers and breeders. Try it for horses "out of form" or with poor appetites. Not a powder. Price, 50 cents a bottle; \$5 a dozen. Manufactured by

SPOHN MEDICAL CO.

Sold by J. A. MCKERRON, San Francisco, and  
MOOREHEAD & SON, Santa Clara.

Goshen, Indiana.

# ZOMBRO, 2:11, THE GREATEST TROTTER IN AMERICA,

Has trotted 40 heats as a three-year old better than 2:27 1-2, 31 in 2:20 or better, and 12 in 2:15 or better. Won 13 races out of 17 starts as a three-year-old, and a total of \$5,400 in his three-year-old form.

ZOMBRO, 2:11, brown stallion, foaled in 1892, stands 16 hands high and weighs 1,100 pounds, and is one of the most perfect formed horses in America. His career on the turf in 1895 stamps him as one of the greatest three-year-olds the world has ever seen.

ZOMBRO, 2:11, sired by McKinney, 2:11 1/4, son of Alcy-one, by George Wilkes.

ZOMBRO, 2:11, first dam Whisper, by Almont Lightning, son of Almont 83, dam by Mambrino Pilot 29.

ZOMBRO, 2:11, second dam May Berry, by Kentucky Clay 194, whose dam is also the dam of Mambrino Patchen and Lady Thorne, 2:18 1/4.

ZOMBRO, 2:11, third dam by Edwin Forest 49.

Whisper, the dam of Zombro, was bred and raised by Gen. W. T. Withers, of Lexington, Ky., and is a handsome brown mare, 16 hands high, weighing about 1,150 pounds. She has never been beaten in the show ring, always carrying off first prize.

ZOMBRO, 2:11, won the first prize over all three-year-old stallions at the Horse Show in San Francisco in 1895.

This grand stallion will make the SEASON of 1897 at SACRAMENTO RACE TRACK from FEBRUARY 1st to about JULY 1st, 1897. Terms, \$50 cash at the time of service, with usual return privileges.

## BREEDERS' DIRECTORY.

YERBA BUENA JERSEYS—The best A. J. C. C. registered prize herd is owned by HENRY PIERCE, San Francisco. Animals for sale.

## SKY POINTER

Allowed to be the handsomest son BROWN HAL has ever sired; dam SWEEPSTAKES, the greatest broodmare in the world. Full brother to STAR POINTER, 1:59 1/4. Will stand this coming season at the stable of L. J. H. Hastings, owner, near race track gate, Los Angeles. Terms \$50. A. A. Cleveland, Manager. Address, 827 Figueroa Street, Los Angeles.

## TO LEASE.

Several promising thoroughbreds, two and three year-olds, to responsible person. For further particulars, address "L. C. F." this office.

## GREAT Thoroughbred and Trotting Broodmare — AUCTION SALE —

Tuesday, January 18, 1898,

AT 10 A. M., AT

Salesyard, cor. Van Ness Avenue and Market Street.

PALO ALTO STOCK FARM

Having decided to consolidate all its horse-breeding interests at that location, it becomes necessary to dispose of

FIFTY HEAD OF RUNNING AND TROTTING-BRED MARES AT PUBLIC AUCTION

On the above date. Among the thoroughbred mares are some of the noted animals which have made the farm famous. These mares are all stunted to Flambeau, Racine, Flood, imp. Mariner and imp. Loyalist, stallions in service at the farm. The trotting mares are by Electioneer, Azmoor, Piedmont, Elclicity, Nutwood, Dexter Prince, Paola, etc. and stunted to such noted young sires as Monaco, Advertiser, Wildnut, Stephen and the Russian stallion Verbovatchik. A number of these mares are well broken and will make admirable roadsters if not desired for breeding. Several choice roadster geldings will be offered at the same time. The horses will be at the salesyard SUNDAY, JANUARY 16th, where they may be seen until day of sale. Catalogues ready SATURDAY, JANUARY 8th. The running mares will be sold at the beginning of the sale.

KILLIP & CO., Live Stock Auctioneers, 11 Montgomery St., S. F.

## 1898 SPRING, SUMMER and FALL MEETINGS 1898

### STAKES TO CLOSE JANUARY 15, 1898

**THE INAUGURAL**—A handicap sweepstakes for three-year-olds and upwards. Weights to be announced March 26th; \$10 to accompany the nomination; \$15 to be paid on acceptance of weights, which acceptance must be made by April 9th, and \$50 additional to start. The Association to add an amount sufficient to make the value of the stake \$2,000, of which \$1,500 to the winner, \$350 to the second, \$150 to the third and the fourth to save his stake. A winner of a race, after publication of weights, the total advertised value of which is \$1,000 or more, to carry 5 pounds extra. One mile.

**THE DEBUTANTE**—For two-year-old fillies (foals of 1896); \$5 to accompany the nomination; \$50 additional to start. The Association to add an amount sufficient to make the value of the stake \$1,500, of which \$1,200 to the winner, \$200 to the second, \$100 to the third and the fourth to save his stake. Winners of a sweepstakes, the total advertised value of which is \$1,000 or more, to carry 3 pounds; of two such, 5 pounds; of three or more such, 7 pounds extra. Maidens allowed 5 pounds. If beaten three or more times, 5 pounds additional. Four and a half furlongs.

**THE KINDERGARTEN**—For two-year-old colts and geldings (foal of 1896); \$5 to accompany the nomination; \$50 additional to start. The Association to add an amount sufficient to make the value of the stake \$1,500, of which \$1,200 to the winner, \$200 to the second, \$100 to the third and the fourth to save his stake. Winners of a sweepstakes, the total advertised value of which is \$1,000 or more, to carry 3 pounds; of two such, 5 pounds; of three or more such, 7 pounds extra. Maidens allowed 5 pounds. If beaten three or more times, 5 pounds additional. Five furlongs.

**THE JUNIOR CHAMPIONSHIP**—For two-year-olds (foals of 1896); \$10 to accompany the nomination; \$50 additional to start. The Association to add an amount sufficient to make the value of the stake \$2,000, of which \$1,500 to the winner, \$350 to the second, \$150 to the third and the fourth to save his stake. Winners of a sweepstakes, the total advertised value of which is \$1,000 or more, to carry 3 pounds; of two such, 5 pounds; of three or more sweepstakes of any value, 7 pounds extra. Maidens allowed 5 pounds. Maidens that have started in a sweepstakes and not been placed, 5 pounds additional. Five and a half furlongs.

**THE MEMORIAL**—A handicap sweepstakes for all ages; \$5 to accompany the nomination; \$50 additional to start. The Association to add an amount sufficient to make the value of the stake \$1,500, of which \$1,200 to the winner, \$200 to the second, \$100 to the third and the fourth to save his stake. Weights to be announced three days prior to the race. Five and a half furlongs.

**THE CLUB MEMBERS' HANDICAP**—A handicap sweepstakes for three-year-olds and upwards. Weights to be announced April 30th; \$10 to accompany the nomination; \$20 on acceptance of weights, which acceptance must be made by May 14th, and \$70 additional to start. The Association to add an amount sufficient to make the value of the stake \$2,500, of which \$2,000 to the winner, \$350 to the second, \$150 to the third and the fourth to save his stake. A winner of a sweepstakes after publication of weights, the total advertised value of which is \$1,000 or more, to carry 3 pounds; of two such, or one of the total advertised value of \$2,000 or more, 5 pounds penalty. One and a quarter miles.

**THE HURWERS**—A handicap sweepstakes for two-year-olds (foals of 1896); \$5 to accompany the nomination; \$50 additional to start. The Association to add an amount sufficient to make the value of the stake \$1,500, of which \$1,200 to the winner, \$200 to the second, \$100 to the third and the fourth to save his stake. Weights to be announced three days prior to the race. A winner of a handicap after weights are announced to carry 5 pounds extra. Six furlongs.

**THE MISSISSIPPI VALLEY**—A selling sweepstakes for three-year-olds and upwards; \$5 to accompany the nomination; \$50 additional to start. The Association to add an amount sufficient to make the value of the stake \$1,500, of which \$1,200 to the winner, \$200 to the second, \$100 to the third and the fourth to save his stake. Those entered not to be sold to carry 7 pounds extra; those entered to be sold for \$4,000 to carry weight for age; for \$3,000, allowed 5 pounds; 2 pounds allowed for each \$500 to \$2,000; 1 pound for each \$200 to \$1,000; then 1 pound for each \$100 to \$700. Starters, with selling price, to be named through the entry-box by 12 o'clock on the day prior to the race. More than two can be named by the same owner, but only two can start, but the starting fees must be paid for all named. One mile.

**THE MEXICAN**—A selling sweepstakes for three-year-olds and upwards; \$5 to accompany the nomination; \$50 additional to start. The Association to add an amount sufficient to make the value of the stake \$1,500, of which \$1,200 to the winner, \$200 to the second, \$100 to the third and the fourth to save his stake. Those entered not to be sold to carry 7 pounds extra; those entered to be sold for \$4,000 to carry weight for age; for \$3,000, allowed 5 pounds; 2 pounds allowed for each \$500 to \$2,000; 1 pound for each \$200 to \$1,000; then 1 pound for each \$100 to \$700. Starters, with selling price, to be named through the entry-box by 12 o'clock on the day prior to the race. More than two can be named by the same owner, but only two can start, but the starting fees must be paid for all named. One mile.

\$3,000, allowed 5 pounds; 2 pounds allowed for each \$500 to \$2,000; 1 pound for each \$200 to \$1,000; then 1 pound for each \$100 to \$500. Winners of \$1,000 in 1895 not to be entered for less than \$3,000. Starters, with selling price, to be named through the entry-box by 12 o'clock the day prior to the race. More than two can be named by the same owner, but only two can start; but the starting fees must be paid for all named. One mile.

**THE LAUREL**—A handicap sweepstakes for three-year-olds and upwards; \$5 to accompany the nomination; \$50 additional to start. The Association to add an amount sufficient to make the value of the stake \$1,500, of which \$1,200 to the winner, \$200 to the second, \$100 to the third and the fourth to save his stake. Weights to be announced three days prior to the race. A winner of a handicap after weights are announced to carry 5 pounds extra. Six furlongs.

**THE MISSOURI**—A selling sweepstakes for two-year-olds (foals of 1896); \$5 to accompany the nomination; \$50 additional to start. The Association to add an amount sufficient to make the value of the stake \$1,500, of which \$1,200 to the winner, \$200 to the second, \$100 to the third and the fourth to save his stake. Those entered to be sold for \$2,400 weight for age; 3 pounds allowed for each \$300 to \$1,200; 1 pound for each \$100 less to \$500. Winners of a stake of \$1,000 to be entered for not less than \$2,100. Starters, with selling price, to be named through the entry-box the day before the race. More than two can be named by the same owner, but only two can start; but the starting fees must be paid for all named. Six furlongs.

**THE INDEPENDENCE**—A handicap sweepstakes for three-year-olds and upwards; \$5 to accompany the nomination; \$50 additional to start. The Association to add an amount sufficient to make the value of the stake \$1,500, of which \$1,200 to the winner, \$200 to the second, \$100 to the third and the fourth to save his stake. Weights to be announced three days prior to the race. A winner of a handicap after weights are announced to carry 5 pounds extra. One mile and three-sixteenths.

**THE MOUND CITY**—A selling sweepstakes for three-year-olds and upwards. The Association to add an amount sufficient to make the value of the stake \$1,500, of which \$1,200 to the winner, \$200 to the second, \$100 to the third and the fourth to save his stake; \$5 to accompany the nomination; \$50 additional to start. Those entered to be sold for \$3,000 weight for age; 3 pounds allowance for each \$500 less to \$2,000; 1 pound for each \$100 less to \$1,500; 2 pounds for each \$100 less to \$1,000. Starters, with selling price, to be named through the entry-box the day preceding the race. More than two can be named by the same owner, but only two can start; but the starting fees must be paid for all named. One and one-eighth miles.

**THE GOLDEN ROD**—For three-year-olds that have never won a stake of more than \$1,500; \$5 to accompany the nomination; \$50 additional to start. The Association to add an amount sufficient to make the value of the stake \$1,500, of which \$1,200 to the winner, \$200 to the second, \$100 to the third and the fourth to save his stake. \$3,000 weight for age; 1 pound for each \$200 to \$2,000; then 1 pound for each \$100 less to \$1,500. Winners of a stake after the closing of entries not to be entered for less than \$1,500. Winners of two or more stakes after the closing of entries to carry their weight. Starters, with selling price, to be named through the entry-box the day before the race. More than two may be named by the same owner, but only two can start; but the starting fees must be paid for all named. Seven furlongs.

**THE OZARK**—A handicap for two-year-old colts and geldings (foals of 1896); \$5 to accompany the nomination; \$50 additional to start. The Association to add an amount sufficient to make the value of the stake \$1,500, of which \$1,200 to the winner, \$200 to the second, \$100 to the third and the fourth to save his stake. Weights to be announced three days before the race. Six furlongs.

**THE ISABELLA**—For two-year-old fillies (foals of 1896); \$5 to accompany the nomination; \$50 additional to start. The Association to add an amount sufficient to make the value of the stake \$1,500, of which \$1,200 to the winner, \$200 to the second, \$100 to the third and the fourth to save his stake. Winners of a sweepstakes of the advertised value of \$1,000 to carry 3 pounds; of two such, 5 pounds; of three or more such, or one of \$1,600, 7 pounds extra. Horses not having won a sweepstakes of the value of \$700 allowed 5 pounds; non-winners of three races of any value, 9 pounds; two races, 12 pounds; maidens, 17 pounds. No horse which has incurred any of the penalties shall be entitled to any of the allowances. Five and a half furlongs.

**THE CHRYSANTHEMUM**—A handicap sweepstakes for two-year-olds (foals of 1896); \$5 to accompany the nomination; \$50 additional to start. The Association to add an amount sufficient to make the value of the stake \$1,500, of which \$1,200 to the winner, \$200 to the second and \$100 to the third. Weights to be announced three days prior to the race. One mile.

### FIXED EVENT—THE ST. LOUIS DERBY FOR 1899.

#### ENTRIES CLOSE JANUARY 5, 1898.

**THE ST. LOUIS DERBY FOR 1899**—A sweepstakes for three-year-olds (foals of 1896); \$25 each or only \$10 if declared by January 1, 1899; \$100 additional to start. The Association to add \$5,500, of which \$350 to the second, \$150 to the third and the fourth to save his stake. Winners of a stake of \$5,000 in 1898, or one of \$10,000 in 1898, to carry 3 pounds penalty; winners of a stake of \$10,000, or three of any value in 1898, to carry 5 pounds penalty. Allowances: Non-winners of two stakes of any value in 1898, 3 pounds; of one stake, 7 pounds; non-winners of four races in 1898, 10 pounds; three races, 12 pounds; two races, 15 pounds; one race, 20 pounds; maidens 25 pounds. Selling purse races not counted in figuring allowances. No horse that has incurred either of the penalties shall be entitled to any of the allowances, and no horse which is not entitled to the first two allowances can claim any of the subsequent ones. Allowances and penalties not cumulative. One mile and a half.

Owners wishing to declare their horses in the ST. LOUIS DERBY FOR 1898 can do so by PAYING \$10 ON OR BEFORE JANUARY 1, 1898. Entry blanks will be forwarded on application. Address all communications to

**ROBERT AULL, PRESIDENT FAIR GROUNDS, ST. LOUIS, Mo.**

### THE STANDARD-BRED TROTTING STALLION

## MONTEREY, 2:13 3-4,

WILL MAKE THE SEASON OF 1898 AT ALAMEDA  
(Cor. Arbor St and Eagle Ave., end of Speed Track.)

MONTEREY, 2:13 3-4.	Santa Claus, 2:15.....	Strathmore 402
	Sire of	Elenor.....2:11
	Claus Forrester.....2:11 1/4	and 75 others in the 2:30 list.
	Wm. Penn.....2:07 1/4	Lady Thorn Jr.
Sidney, 2:19 3-4.	and 15 others.	Dam of
	Sweetness, 2:21.....	Navidad.....2:22 1/2
	Dam of	Volunteer 55
	Sidney.....2:18 3/4	Sire of
Hattie.....	Com. Belmont 4340.....	St. Julian.....2:11 3/4
	Sire of	and 24 others.
	Meteor.....2:17 1/2	Lady Merritt, by Edw. Everett
	Cora Bell.....2:23	Belmont 61
Hattie.....	Dam of	Sire of
	Iago.....2:11	Maud S.....2:08 1/2
	and six others.	Miss Gratz (by Commodore)
	Baron.....2:11 1/4	Woodford Mambrino, 2:21
Hattie.....	Dam of	Sire of
	Abbotsford.....2:21 1/2	and 13 others.
	By Alexander's Norman 25	
	Dam of	
Monterey.....2:13 3-4	Hattie.....	
	Montana.....2:16 1/4	

If Monterey begets colts like himself he will prove to be the poor horse-breeder's friend, for it will cost but little to get them to a race. Monterey had only four and a half months' training prior to starting in his first race, which he won in 2:11, and won his last race in 2:13 3/4, all training and racing inside of five months.

He was injured last season in shoeing. The day before he went an easy mile in 2:11 1/2 in the presence of three thousand people. He seems all right, and I predict Monterey will soon hold the harness record. If he gets the record I expect his colts will be very valuable.

MONTEREY has a bold and square way of going, such as is now in demand for road horses. He is thoroughly game; in fact, I never drove a gamer horse; is level-headed; legs as clean as a yearling's, and has the strongest foot I ever saw on a horse. He is a chestnut, 15.3 in height, and weighs 1,200 pounds. Come and see him.

### TERMS, \$50, With Usual Return Privileges.

SEASON CLOSING JUNE 1, 1898. All bills payable not later than that date. Address all letters to

Jordan, Jr., B. F. Rush, Santa Rosa Stock Farm, H. E. Grif-  
fin, C. W. Welby, O. A. Kenyon, D. E. Fortin, R. S. Brown,  
H. L. Franklin, H. W. Crabb, F. M. Day, Wm. Meek and  
others. The following will be sold:

ALGREGOR, 2:11, by Steinway.

DICTATUS, 2:21, by Red Wilkes.

FANADMA, 2:19½, by Eros.

PASCAL, 2:21¾, by Victor.

MOUNT HOOD, 2:22¾, by Eros.

ANNA BELLE, 2:27½, by Dawn, dam of La Belle, 2, 2:16.

RAYANETTE, 2:27, by Anteco.

MONTE CHRISTO, 2:29, one of the grandest road horses  
ever driven.

EGYPTIAN PRINCE, one of the handsomest and most  
royally-bred young stallions in America.

I DIRECT, by Direct, 2:05½, out of Francesca, by Al-  
mont.

PIOCHA, bay filly, 3, by Dexter Prince, out of Peko  
2:11½, by Electioneer, one of the best prospects in the State.

FELIX HOLT, bay gelding, by Alex. Button.

LADY BENTON, by Col. Benton, 2:14½.

Several royally-bred three-year-old fillies by the great sire  
Hambletonian Wilkes, sire of Phoebe Wilkes, 2:08½, and 22  
others.

SWIFT, a fast pacing mare by Sidney.

SILVER BELLS, mare by Silver Bow.

Bay filly, by McKinney, dam by Dexter Prince,

MABEL LEIGH, filly by Dexter Prince, out of the dam  
of Margaret Worth.

A fine carriage team by Electioneer.

Several fine roadsters and saddle horses.

The track will be put in first-class condition, and by that  
time all the horses will be looking well and be shown to  
harness. We are ready to receive consignments of a few more  
good ones.

The Prince among Auctioneers, WM. FITCH, will sell  
these horses.

Copy for catalogues must be in before January 18th.  
Apply at once to

WM. G. LAYNG & CO.

THREE DOLLARS A YEAR

#### TROTTERS AND ROADSTERS.

**Finest Aggregation of Choicely-bred Stallions, Geldings, Broodmares, Colts and Fillies Ever Offered—Opportunities For Horse-Owners to Get Good Material Either For Track or Road.**

As the days go by and the rain falls with a regularity that is most encouraging, the hopes of the lovers of light harness horses brighten, and the fears of the directors of the associations in California are dispelled. For weeks there has been a cold, dry spell, which chilled the marrow in the bones of every farmer, stock breeder, and business man in this great State, but the weather god took pity upon them and bounteous showers fell at his command, until at this writing a prosperous season is assured.

Prosperity begets liberality, and with liberality comes a desire to make investments that combine pleasure with profit. The light harness horse industry has always felt the first touch of the wave of prosperity and from present indications doubtless the sensation will be repeated.

The building of new and elegant driveways, as well as the improvement of the old ones in and around all the large cities in the United States, furnish inducements for people to drive and ride over them. The cessation of the bicycle craze, and the recruiting of the ranks of road drivers from the long squadrons of bicyclists is not to be overlooked while contemplating the prospects for the future. The arrival of scores of horse-buyers and bayers' agents from Europe this winter has been manifested by large shipments of the very choicest stallions and broodmares to the "lands beyond the pond," and they are not satisfied yet if we are to infer by the many purchases they have made outside the auction marts. In fact a score of these good judges are closely watching the proceedings in the trotting horse circles, and from the inquiries sent to the various turf journals regarding the most prominent horses one cannot help inferring that these seekers are intelligent far beyond the average of horse buyers, and know exactly what they want.

The most important phase of the trotting horse question, and one which is sure to have a splendid effect upon prices from this time on, is the breaking up of many large stock farms and the dispersal of nearly all the choice trotting stock among small breeders who have given the subject of breeding, feeding, and development considerable thought. Here in California, the birthplace and nursery of more famous trotting horses than any other State of its age in the Union, many changes of the same nature as those which affected the industry in the far Eastern states have taken place. Many of our prominent breeders and owners of large

stock farms have passed to "that land which is fairer than day," and the breaking up of their magnificent collection of horses have been gradually noticed until to-day we look back and recall with sorrow the names of the farms that have gone into history, and cling closer to those that are still striving to make their names memorable.

The trotting horse industry received a terrible solar plexus blow three years ago when a fakir governor, known as Jim Budd, turned traitor to the people who elected him, and by one stroke of his pen closed all the fair grounds in California. But its effect will be lost after this year. There is a grim determination on the part of every trotting horse owner to have his best horses trained and fitted for racing, and if in the fall there is no hope of having races again their aim is to sell them in the East.

Dictatus, 2:21, by Red Wilkes—Miss Lottie, by Dictator. He can show as much speed as any horse on earth, is a good driver on the road, and a money-earner in the stud. Ten of his sons and daughters will be sold also. What a royally-bred fellow he is? No better in America and as a sire can not fail to become famous.

Fanadma, 2:29½, by Eros, out of Elma 2:24, is one of the nicest drivers on track or road and can beat her record several seconds.

Pascal, 2:21½, by Victor 2:22. A road horse that is always in the front rank in park or on the road, and is a fine driver.

Mount Hood, 2:21½, by Eros—Alice. This a perfect horse in every respect and should be a valuable addition to any stock farm. He is one that will breed horses that will never tire and have dispositions that are perfect.

Anna Belle, 2:27½, by Dawn, 2:18½. She is the dam of La Belle, 2:16, as a two-year-old, and is a game broodmare. Bred to the right horse her product will be very valuable. She is the dam of Maud Murray, by Hambletonian Wilkes in this sale, that is as fast, if not faster, than her half-sister La Belle, 2:16.

Rayanette 2:29, by Antecor, 2:16½, out of Debonaire, by Sultan. There is no better road mare in California than this one. She is large and as handsome as a picture, broke to drive every way, afraid of nothing, and the best pole horse in California.

Monte Christo, 2:29, a perfectly formed gray roadster, that is one of the grandest road horses ever driven. He goes without boots or check rein and his action is perfect. He is the beau ideal of a park horse.

Egyptian Prince, 14,431, by El Mahdi, out of bay Hambletonian, by Hambletonian 10. The dam of this horse is the dam of Henrietta 2:17½. Egyptian Prince is not only one of the most royally bred horses in America, but he is

also a grand individual, and one of his fillies to be sold at this sale will show that his produce are like him. There are several counties in this State where a horse like this is needed and where he would be assured a good season, if properly advertised.

I Direct, (3), by Direct, 2:05½, out of Francesca, by Almont 33. (Francesca is the dam of Guycesca 2:23, the second dam was dam of Tuna 2:13) by Sentinel 280, third dam by Bayard 53 and so as to the 24th dam. I Direct is one of the best bred as well as the fastest ever offered. Competent horsemen say he is the most promising three year old in California.

Piocha, a bay three year old filly, by Dexter Prince, out of Peko 2:11½, by Electioneer. This filly is a magnificent individual. She is nicely broken but has not been trained for speed. There are few fillies in California that are as grandly bred, as she shows evidence of speed she is one of the best prospects in America.

Esther C., 2:32, a bay filly by Sidmoor 2:17½, out of Firefly, the dam of four others that have records or trials better than

**DICTATUS, 2:21**

THE MOST FASHIONABLY-BRED STALLION IN CALIFORNIA.

During the past week this office has been besieged by horse owners who are anxious to see that something should be done regarding meetings this year, and the long list of names of good racing material which appears in our business columns has acted as a magnet to attract these men to the fact that if we have racing this year this will be the time and place to get the material.

Many applications for horses to go into this sale were rejected and only the very best were retained. The sale will take place at the Occidental horse Exchange, February 3d, and will in every respect mark a new era in the way of conducting harness horse sales on this Coast. Silvery tongued William Fitch will preside and everything will be done to make visitors comfortable. The list embraces the following:

Algregon, 2:11, by Steinway, out of Maggie McGreggor, by Robert McGreggor. Algregon is a race horse and in all his starts was never outside the money. He is ready money now and needs neither hobbles nor boots. Stylish and handsome and easy to drive.

2:30. Corinne Dillman took her record last year in her two year old form and went against all the best two year olds in California. She has been timed quarters in 31 seconds, miles in 2:22 and should be a money winner this year.

Corinne Dillman (3), by Geo. Dexter, 2:18½, out of To-Day by Noonday, has no record but has a trial of 2:30. She raced against Prince Ansel and the other cracks last year and was never behind the money. The trainer says she will beat 2:20 this year easily. She is a large filly, one of the very best of roadsters, perfectly fearless and needs no urging.

Felix Holt (2), a bay gelding by Alex Button, out of Adelina Patti, dam of Margaret Worth, 2:15. All of Adelina Patti's colts are remarkable for their kind disposition and intelligence, and this colt is no exception. He has been in harness for the past two months, shows fine trotting action, and gives great promise of being a very fast trotter. He is entered in Occident and Stanford Stakes to be trotted next year at Sacramento State Fair, and the Semi Tropic Stakes at Los Angeles. All paid up to date.

Mabel Leigh (3), a filly by Dexter Prince, and also out of the dam of Margaret Worth. She is very kind and gentle, and having been handled for the past two months is now ready to go on training with. She shows wonderful speed, even now, and is full of vim and grit. She has absolutely no vices, is a square trotter, and has the very best of feet and legs. Entered in the Stanford and Occident Stakes for 1898, all paid up to date.

Queen, brown mare, 15.1, foaled 1887, by Little Fred Low, dam by Berlin. This mare can pace very fast on the road, yet is perfectly safe for a lady to drive, is kind and has no vices whatever. She is an excellent road animal and should make a good brood mare.

Juno, gray mare 16.1 foaled 1893, by Mountain King, dam by Silas Skinner. She has a kind disposition, no vices, and though driven steadily but for the past month, is speedy and level headed and should make the ideal roadster.

Split Wind, brown gelding (7) by Aptos Wilkes, (brother to Hulda, 2:08½) dam by Abbottsford. This is one of the finest geldings on the Coast, is afraid of nothing and can show a 2:20 clip on the road. He is sound and all right and a splendid road horse. Needs neither boots nor check and can pass any horse on the speed track. He is one of the untiring kind.

Novato, grey gelding, 15.3½ hands, foaled 1891, by Daww, 2:18½, out of a daughter of Rustic, 2:30. There are few hand-some horses than this fellow, and no better pole horse anywhere. He is a good driver single or double, requires no boots, is pure gaited and a first class animal every way.

Swift (pacer), 15.3, bay mare foaled 1891, by Sidney, out of Bay View Maid, by Gen. Benton. Swift is a very handsome mare, very speedy on the road, kind and gentle, requires no boots and is afraid of nothing. One of the best roadsters in California. Daughters of Sidney are invaluable and this is one of his finest.

A handsome bay gelding (4), by Richard's Elector, out of Swift, by Sidney. A well-broke animal, handsome, stylish, speedy, and a splendid roadster. He is fit to drive anywhere.

Lady Benton, bay mare, foaled in 1894, by Col. Benton, 2:14½, out of Queen, by the fast pacer, Prince, out of a thoroughbred mare by Williamson's Belmont. Lady Benton has worked out in 2:33 and has shown some very fast quarters. Should be fast enough for the races, is game and steady and a good easy driver.

Stanley W. (4), brown gelding, by Chas. Derby 2:20, dam by Frank Medley. This young gelding is well broken, is perfectly kind and gentle and a woman can drive him. He can show a 2:20 clip at anytime and is an excellent road horse.

Geo. Wiley, bay gelding, foaled 1892, by Prince Red, dam Calypso, by Steinway. This is a fine large stylish horse, has trotted to a record of 2:31, and which is no measure of his speed. He is sound and gentle, drives freely, is afraid of nothing and one of the best roadsters anybody owns.

Silver Belle, bay mare, 15:3½, foaled 1891, by Silver Bow, dam Fanny Wickham, by Arthurton. Silver Bow is beautiful in form, very stylish and one of the finest gaited mares in California. She is a splendid driver and as her breeding is ultra-fashionable, should be valuable either as a road, track, or brood mare.

A good-looking bay filly by Disk 13,857, son of Director and Mocking Bird, out of Addie May, by Hawthorne. This mare is broken single and double, is perfectly gentle, a fine driver, square-gaited and can trot in three minutes on the road.

Polly P., a bay pacing mare, by Fairmount, dam by John Nelson, is a fine individual, gentle in every way, works single or double, and can show a 2:20 gait.

Fred, bay gelding, foaled 1891, weighs 1,200 pounds. Sired by California Nutwood. Is a fine, large horse, either single or to pole, can show a 2:30 clip anytime.

Maud, bay mare, foaled 1890, thoroughly broken to saddle. Is a fine single footer, and has been ridden by a lady. It reliable in every way.

Nellie is a handsome black saddle mare, foaled in 1892, perfectly broken, a natural single-footer and perfectly safe for ladies.

Anteros, bay mare, foaled 1887, by Anteros, brother to Anteo, 2:16½, dam by Geo. M. Patchen Jr. Anteros trotted a mile in 2:32 when 22 months old. She has size, style and action, is a good roadster, and should be very valuable as a brood mare.

A handsome bay mare by Dexter Prince, out of Anteros, by Anteros. This is a grandly-bred filly, well-broken in every way with speed enough for a race mare and is a fine roadster. She should be very valuable in the stud as she is a fine individual and her breeding is extra fine.

A bay filly, foaled Aug. 30, 1897, by McKinney, out of the daughter of Dexter Prince, and Anteros, above mentioned, should be worth speculating with. With such superb breeding she can not help being a fast one.

Maud Murray, chestnut filly, foaled March 26, 1895, by Hambletonian Wilkes (sire of Phoebe Wilkes, 2:08½, and twenty others), dam Anna Belle, 2:27½, (dam of La Belle (2) 2:16) by Dawn 2:18½. Here is a filly bred in the purple and is a natural-born trotter. She worked a quarter in 36 seconds in her two-year-old form. She represents a combination of trotting blood that is hard to surpass and that she will prove as fast as her most sanguine admirers believe, there is no doubt. She is entered in the Occident Stakes worth several thousand dollars, to be trotted in September this year.

Maggie N., by Hambletonian Wilkes, dam of Kitty Elmo, by Joe Elmo. This filly is a good-looking, and has speed. She was worked thirty days in her two-year-old form and trotted an eighth in 23 seconds.

Bay filly, by Hambletonian Wilkes, out of Otto, by Dash-wood.

Uranus, bay filly, foaled 1895, by Hambletonian Wilkes, out of Urania, by Bell Alta. This filly worked an eighth in 21 seconds with but thirty days work last year.

Joe, a bay gelding, foaled 1895, by Hambletonian Wilkes, first dam Belladonna, 2:34½, by Gladiator; second dam Minnie Morgan, thoroughbred. Paced an eighth in 20 seconds with a few days work last year.

Mount Hope, a handsome black stallion, eight years old, by the great Sable Wilkes, and Lizzie E., full sister to Chancellor, 2:16, by Bismark. Mount Hope is stoutly and compactly built, has been trained and shows ability to trot better than 2:20. He is standard and registered and should make a valuable horse on some of our breeding farms, as well as a money winner on the track.

Lucille, by Chancellor, 2:16, out of a Patchen mare, is a handsome chestnut, 15.1 hands high, compactly built, sound, and perfectly gentle, drives single or double, and is not afraid of cars of any kind.

Lucrece, by Chancellor, 2:16, out of mare by Ethan Allen, Jr., is a good-looking, sound, well-broken mare, makes a good mate to Lucille above.

Kitty, by Dick Patchen, a mare that drives single or double, is well broken and a first-class road mare.

Besides the above there is a fine, large, bay carriage team, by Electioneer. They are 15.2 high, bays with black points, fine drivers, wear no boots, and show considerable style.

#### Oakland Races.

FRIDAY, JANUARY 14.

First race, six furlongs, selling, three-year-olds, purse \$300. Brambella (Morse, 105), first easily by two and one-half lengths; The Dipper (Conley, 110), second by two lengths; Roulette Wheel (Hennessy, 107), third. Mainbar, Moringa, Magnus and Abina finished in the order named. Time, 1:17½.

Second race, seven furlongs, selling, four-year-olds and upward, purse \$350. O'Fleeta (Thorpe, 110), first cleverly by six lengths; Jack Martin (Morse, 105), second by one length; Walter J. (Hennessy, 111), third. Charles A., Veloz, Cavallo, Monitor, Mulberry and Fanny S. finished in the order named. Time, 1:31½.

Third race, three furlongs, two-year-olds, purse \$350. Buena Ventura (Conley, 105) first, easily by six lengths; Clarando (T. McHugh, 110) second, by a head; Anchored (E. Jones, 108) third. Bonibel, Racine Murphy, Malay, The Miller, Prince Will, Casdale, La Condisa and Rey Hooker finished as named. Time, 0:37½.

Fourth race, one mile, selling, four year-olds and upward, purse \$400. Hazard (Gray, 99) first, driving by three-quarters of a length; Nonchalance (Thorpe, 105) second by four lengths; Heritage (Spencer, 102) third. Polish, Red Glenn, Allahabad, Stentor and Fannie E. finished in the order named. Time, 1:45½.

Fifth race, seven furlongs, selling, four-year-olds and upward, purse \$350. Torsion (Spencer, 105), first handily by two lengths; Sly (Gray, 105), second by three-quarters of a length; Major Cook (E. Jones, 105), third. Don Fulano, Kamsin, Lost Girl and Little Singer finished as named. Time, 1:30½.

Sixth race, seven and one-half furlongs, selling, three-year-olds and upward; purse \$300. Imperious (Woods, 84), first easily by four and one-half lengths; Fred Gardner (Conley, 105), second by five lengths; Morinel (McNichols, 82), third. Mercutio, Plan, Rebel Jack and Loudon finished as named. Kaiser Ludwig was left. Time, 1:37.

SATURDAY, JANUARY 15.

La Maroma, Chihuahua, Prince Tyrant, Scintillate, Queen Blazes, Miss Alice, Toto and Dr. Bernays finished in the order named. Time, 1:10.

Second race, six furlongs, selling, three year-olds, purse \$350. Good Friend (Conley, 105) first, driving by a neck; Sorrow (Thorpe, 105) second, by two lengths; Catawba (McNichols, 107) third. Al Koran, Lee Kyo, Castake, Ballister and Tenrica finished in the order named. Time, 1:16.

Third race, one mile, Owners' Handicap, three-year-olds and upward, purse \$400. May W. (J. Woods, 85) first, cleverly by one length; Buck Massie (Gray, 88) second, by fifteen lengths; Double Quick (O'Connor, 85) third. Sir Dilke and Paul Griggs finished as named. Time, 1:42.

Fourth race, one and one-sixteenths miles, all ages, McLaughlin Selling Stakes, purse \$1,250. Sateuna (E. Jones, 113) first, handily at the finish by a neck; Col. Wheeler (Thorpe, 104) second, by four lengths; Garland Barr (Conley, 103) third. King William, Tom Cromwell and Buckwa finished in the order named. Time, 1:48½.

Fifth race, seven furlongs, all ages, the Reliance Club Handicap, purse \$1,000. Caspar (Thorpe, 110), won easily by two lengths; Colonel Dean (Woods, 95), second by one length; Rubicon (Clayton, 124), third. Paso Tempo also ran. Time, 1:29.

Sixth race, one and one-sixteenth miles, three-year-olds and upward, purse \$400. Osric II (Thorpe, 106), first easily by eighth lengths; Song and Dance (Spencer, 106), second by two lengths; Yankee Doodle (Conley, 109), third. Elano, Una Colorado and Miss Ruth finished in the order named, Time, 1:51.

MONDAY, JANUARY 17.

First race, five furlongs, selling, four-year olds and upward, purse \$300. Lo Lo (Clawson, 105) first, easily by two lengths; Koenigen (E. Jones, 101) second by a neck; I Don't Know (Morse, 107) third. Blue Bell, The Gossip, Mahogany, J. T. Tobin and Terrier finished in the order named. Time, 1:03½.

Second race, seven and a half furlongs, selling, three year-olds and upward, purse \$350. Magnus (Clawson, 91) first, driving by three-quarters of a length; Our Climate (Conley, 109) second by four lengths; Coda (Jones, 107) third. Geo. Palmer, Jack Martin, Allahabad, El Venado, Fanny S, and Darechota finished in the order named. Time, 1:38½.

Third race, one mile, three-year-olds and upward, purse \$400. The Dipper (O'Connor, 82) first, driving by three-quarters of a length; Captive (W. Martin, 112) second, by five lengths; Nonchalance (Thorpe, 107) third. Gotobed, Veragua, Don Daniel and Bobolink finished in the order named.

Fourth race, seven and a half furlongs, selling, three-year-olds and upward, purse \$350. Red Glen (Kiley, 109) first, easily by three lengths; Kaiser Ludwig (H. Brown, 109) second, by a nose; El Moro (J. Woods, 94) third. Veloz,

Benamela, Li Hung Chang, Song and Dance and Palmerston finished in the order named. Time, 1:39.

Fifth race, one and a sixteenth miles, selling, four-year-olds and upward, purse \$400. Schiller (H. Martin, 107), first, driving by a neck; Hazard (Conley, 104) second by two lengths; Lena (Spencer, 103) third. Heritage, Personne, Wawona and Miss Ruth finished in the order named. Time, 1:51½.

Sixth race, six furlongs, condition and selling, three-year-olds, purse \$400. Blarney Stone (H. Martin, 112) first, driving by two lengths; Hardly (Thorpe, 107) second by one length; Bonito (Conley, 107) third. Master Mariner, Rebel Jack, Sorrow and Ballister finished in the order named. Time, 1:17.

TUESDAY, JANUARY 18.

First race, five and a half furlongs, selling; maiden three-year-olds and upwards, purse \$300. Steput (Clawson, 90), first, pulling up by four lengths. Flanders (E. Jones, 104), second, by a neck. Mounge (Devin, 86), third. Jim Brownell, Red Spinner, Entrata, Rose Maid, Pacio, San Durango, Altivo, Texarkana, Ordago, Von Dunk, Nita Murphy, and Tartar finished in the order named. Time, 1:11½.

Second race, six and a half furlongs, selling, four-year-olds and upward, purse \$400. Dolore (E. Jones, 104), first, nose and nose finish. Silver State (Woods, 99), second, by two lengths. Judge Stouffer (Conley, 104), third. Ricardo, Tom Anderson, Jack Martin, Melaire, and Chapple finished in the order named. Time, 1:24½.

Third race, six furlongs, three-year-olds and upward, purse \$400. May W. (Clawson, 107), first easily by two and one-half lengths. Morinel (McNichols, 87), second, by one and one-half lengths. Lucky Dog (H. Martin, 112), third. Glen Anne, Rejected, Lucky Dan, and Town Topics finished in the order named. Time, 1:16½.

Fourth race, four-year-olds and upward, purse \$350. Buck Massie (H. Martin, 112), first, galloping by ten lengths. Gallant (Conley, 104), second, by five lengths. Flashlight (Shaw, 122), third. Outgo, Howard, Fannie E., The Gossip, finished in the order named. Time, 1:17.

Fifth race, six and a half furlongs, selling, four-year-olds and upward, purse \$400. O'Fleeta (Thorpe, 106) first, driving by three-quarters of a length; Aquinas (J. Woods, 89) second, by five lengths; Polish (Clawson, 104) third. Caliente, Sly, Hermanita and Torsion finished in the order named. Time, 1:23½.

Sixth race, five and a half furlongs, selling, maiden three-year-olds; purse \$300. Dr. Bernays (J. Woods, 86) first, handily at the finish by two and one-half lengths; Milesio (Clawson, 92) second by four lengths; Himeria (McNichols, 84) third. Rosa, Paso Tempo, Sardou, Glenover, Scintillate, El Ladrone, Loumont, Mary Nieves, Nervula and Merrillake finished in the order named. Time 1:11½.

#### F. W. Loeber in Baltimore.

Mr. F. W. Loeber, who has been so long and so prominently identified with the trotting horse industry of California, is now, with his family, a resident of Baltimore, Maryland, where he has been called to manage his deceased father's estate. Mr. Loeber will be greatly missed in this State. Coming here originally for his health, he finally settled near St. Helena, Napa county, where he established the Viceland Stock Farm and began the business of breeding high class carriage horses and trotters, besides thoroughbred cattle and other domestic stock. No man has devoted more time and energy to building up the breeding interests of California. He was one of the organizers of the Pacific Coast Trotting Horse Breeders Association, and its Vice President for years. He was the principal organizer and first President of the Napa Agricultural Society, and in fact for twenty years of his life in this State was prominent in the breeding business. Mr. Loeber was also a member of the Board of Trade of St. Helena, and always to the front in any enterprise calculated to advance the interests of that community. His efforts to secure legislation in favor of the horse-breeding interests are known to all horsemen, and have their warm endorsement. Mr. Loeber now has the management of large interests in his native state, but we believe his heart is out here in the State of his adoption, and we believe, and hope, that he will, eventually, return to the land of "sunshine, fruit and flowers," to spend the autumn and the winter of his life.

#### From the Millionaire Horseman.

TOLEDO, O., August 20, 1895.

After trying the Speed Sustaining Elixir on three horses that were troubled with defective respiration, I find in each case a marked improvement. I drove one of them a quarter in 40 seconds, and the result was a well defined case of thumps. I administered a dose of the Elixir at once and two hours after drove the horse three consecutive quarters without a rest between in 35½, 35 and 34½ seconds. I believe it to be a great benefit to respiration. GEO. H. KETCHAM.

#### An Endorsement.

EDITOR BREEDER AND SPORTSMAN:—Allow me a few lines to endorse the sentiments expressed by your correspondent last week in regard to the trotting horse interests. I think he hit the nail on the head. We have been bewailing our bad luck for years, and doing nothing to change it. New ideas and new methods are necessary, and when we get them, trotting will be as popular as ever. C. L. S.

ONE of the best of the young consignments to the Sp'annewass sale February 22d to 25th is the two-year-old filly, Callie Cuyler. This filly is entered in the Kentucky Stock Farm Futurity, \$5,000, to be trotted this year. Payments in this stake have been made on Callie Cuyler up to the close for starters. She has great natural speed, fine style and is bred right being by St. Justine, 2:26 dam Gold Elsie (dam of Lelia Wilkes, 2:34), by Cuyler 100; second dam Ethel Goldust, by Goldust 150; third dam Rosalind (dam of Zileadi Goldust 4,400); fourth dam Sally Russell, grand-dam of Maud S., 2:08½.

HARRY FORSLAND, the representative of Daily Racing Form, is authority for the statement that Bookmaker Frank Eckert stands willing to back Dr. Sharp against Lord Marmion, rigged as they were in yesterday's race, for any amount from \$500 to \$10,000. It is said Owner McManus is of an adverse opinion, and there should be no difficulty in arranging a match. It would be a big drawing card.

## SPECIAL DEPARTMENT

EDITED AND CONDUCTED SOLELY BY

JOSEPH CAIRN SIMPSON.

"PLASTIC ACTION." } Not at all surprising that writers of horse literature should be somewhat ignorant in regard to what may be called the *technique* of horsemanship, when so many of those who are in "close touch" with the "noble animals" are equally unable to give correct information in some of the points that have elicited "heaps" of discussion.

The manner of progression, that is the movements of feet and legs at the various paces would appear to be easily described by one who watches horses exercising day after day. Thus the trainer of gallopers should, it would seem, be able to describe the action of a galloping horse with accuracy, and the trainer of harness horses equally *au fait* in telling correctly the movements of trotter and pacer. Strange as it may appear, the walk is the most difficult of all to portray and one who endeavors to picture the slow gait from recollection of the movements will find a good deal of difficulty in giving a true picture.

It is safe to say that before instantaneous photography showed the exact manner of progression, the action in the flying gallop was practically unknown. At least the most celebrated writers were not cognizant of the true manner in which a horse runs, and from the earliest period, until the Palo Alto exhibition, not a single correct description of the "flying gallop."

The Duke of Newcastle is as near to the mark as anyone who has written since his day. So that with two centuries to perfect the knowledge the true way was not discovered until the cameras at Palo Alto disclosed the secret. And it is worthy of notice that the description published 230 years ago is more nearly correct than later portrayals. Newcastle's words are: "So that in the action he makes, his outward foreleg is set to the ground first, and is at liberty; that's one time; and then his inward foreleg, which is prest, and leads make a second time; that's two; and then his outward hinder leg, which is at liberty, is set down; that's three times; and then his inward hinderleg, which is prest, and leads, is set down; and that makes a fourth time. So that a gallop forward is 1, 2, 3, and 4 which is the just action and time of a gallop forward, and is a leap forward."

Replace the foreleg with the hinderleg and the action at the gallop is correctly described. "Stonehenge" in his work published in 1869 is far from being as correct, both authors, however, sharing in the error that after the airdight the fore foot strikes the ground first.

But it is not the intention to discuss a question that requires a great deal of "space," the object being to call attention to a statement made in *The Horseman* several months ago, that after the race at Springfield, Ill., when Star Pointer won the second heat in 2:00½—Joe Patchen only a quarter of a slower, states.

"Later, the footprints on the back stretch that were clearly visible were measured, and it was found that Star Pointer had stepped 2½ feet in each stride, while Joe Patchen hoof prints measured 2½ feet apart."

I will cheerfully go a long way to see a pacer "cover as much ground" as it is represented the two racing kings accomplished, and the probable explanation is, that five spaces instead of four were included; that is, the distance between six "tracks" was taken when it should have been five hoof prints to mark the boundaries. Even then Joe Patchen covered 19½ feet and Star Pointer 18 feet, provided the spaces were equally distant.

When the horses are again put in training it will be little trouble to obtain correct knowledge in regard to the length of their strides, and if Joe Patchen can repeat the Springfield exhibition or come within four feet of it he will equal the longest stride I ever knew trotter or pacer to make.

Regarding action, I saw an expression a few days ago that pleased me well. Although new to me, it may have been used before and if the author, whom I suppose was the originator of the expression, it will make some amends for the "roastings" he has suffered, through his fondness for walking on stilts when a more natural method of progression would have saved columns of ridicule. In speaking of a thoroughbred horse he calls him "a horse of distinguished merit, and he transmits good bone with fine disposition and plastic action."

The adjectives heretofore used to describe action, though so numerous as to lead one to believe that not another one was left, that would fit the place, plastic is surely a welcome addition. The significance may not be apparent at the first glance, but when duly considered its appropriateness must be conceded. Like "clay in the hands of the potter," the action can be changed to suit the trainer, or rather teacher, with little effort. "Plastic disposition" is often times used to denote that pupils will readily acquire whatever the mental powers can sustain with little coercion.

In lieu of saying that the action is too high or too low, too round or too straight, should the animal persist in adhering to the wrong movement, we can state that he is handicapped with nonplastic action. "Adaptability to acquire" fast trotting or pacing action is a clumsy expression when compared with that one word; even "instinct" will have to surrender the place it has held for so many years and the hugely superior combination of letters secure a monopoly.

There may be casuists who will not admit the beauty and worth of the acquisition, but for my part:

"I thank thee \* \* \* for the word" and if it does not "steel my sword" it "nerves my heart" to offer the tribute of praise so manifestly due regardless of hypercritical dissent. Whenever the name of the author, the discoverer of the new expression, is positively known, it will replace the stars that break the quotation. Christian or surname will probably give the right number of syllables to fill the gap, and if there are only two then the prefix *sir* will remove the difficulty.

So FAR AS I HAVE READ not a single paper or writer has supported the Major McDowell plan for the prevention of laying up heats by shortening the distance to thirty yards when the starters are six or less the race heats of one mile.

A peremptory law to that effect, in which both associations joined, could not be enacted, as the experience of a similar

trial a few years ago conclusively proves. The Lexington folk might give it a trial, as they have an undoubted right to make such a condition in the programme outside of stakes which closed before the announcement was published.

Therefore should the two parent societies refuse to embody the amendment in their codes, then it will be legitimate and praiseworthy on the part of the Kentucky Trotting-Horse Breeders Association to give a practical exhibition of the value of the change. Will it be done? I am of the opinion that notwithstanding the resolution carried it was entirely owing to the large number of proxies held by Major McDowell, but this question will have to be decided by the Board of Directors, proxies of no force, and, consequently, there is small chance for it to be brought to an actual test.

With the rules against laying up heats abrogated, there will be a grand chance for drivers to play a game of deception, although, of course, the advantages gained by letting some of the horses battle for the heats while others rested would be diminished.

Scarcely logical, however, to concede that a driver is justified in laying up heats, in fact that it is his duty to lay up when, in his opinion, it will increase his chances to win—as Major McDowell does—and then deprive him of the opportunity of displaying his wisdom. Still thirty yards is something of a relief—2:12.22—the rate for the loser when the winner makes the mile in 2:10, and a heat won in 2:20 will give the loser the easier task of 2:22.42.

The only substantial foundation for square racing is to keep the horses as nearly equal as it is possible to put them on an equality. Were a straight course obtainable the distance would be equalized, each horse having a chance to go 1760 yards and no more. When "regulation" shaped the horse which has the inside position has the advantage of a little over six feet for every foot he is nearer the pole than those outside of him, provided the same relative places are kept for the circuit. This is in a measure a repetition of my article on the same question in a previous issue of the BREEDER AND SPORTSMAN, though people have asked me if there was not a mistake in estimating so great a loss as was represented.

The only estimate is the number of feet between the horses. The rule for obtaining the circumference from the diameter is in this ratio: For each foot of the diameter, 3.14159 feet of circumference, yards of course in the same proportion. Fifteen feet (five yards) is certainly as close together as horses are generally driven, the length of a sulky axle, five feet.

The center of the circle is equally distant from the points where turns and stretches join. This doubles the distance from the center, so that if a horse is fifteen feet farther away at the starting point when he reaches the opposite side there is another fifteen feet, in all thirty feet, or ten yards more, the diameter of the circle he travels, so that in place of thirty yards, as given last week, the correct answer is 31.4159 yards; that is, if five yards is taken as the measure. With "hubs rubbing" the third horse would be ten feet outside the one holding the pole.

With three good drivers the third horse might be kept within four yards of the one which held the inside place, and the loss would be 25.13275 yards. Horses frequently are locked when making the first turn, and in that case the third horse would lose 37.6 feet. Not at all surprising that owners and drivers are opposed to a short distance.

THE DUKE OF NORFOLK.—The first son of Marion is surely well worthy of a notice. And more than that, entitled to quite a high place in her great family, as had he been awarded the same opportunity as the more celebrated members of the clan, he would have stood still higher in the calendar. He has also the distinction of being, in one sense, the godfather of his brothers and sisters and those who bore one-half of that relationship. When Mr. Wood was employed by Mr. Winters on the Putah creek rancho, I reached there after sunset and all that evening Mr. W— was descending on the most wonderful yearling, he or anybody else ever saw.

He could hardly wait for me to breakfast before going to the paddock, and much to his admiration I selected the colt while still some distance away, but he was anything but well pleased when I objected to the name selected. Mr. Winters requested me to name him, and as Duke of Magenta was then one of the sensations of the Eastern turf, and their breeding being similar, one by Lexington from a mare, Magenta, by imp. Yorkshire, second dam by imp. Glencoe, Miriam, and the other by a son of Lexington, first and second dams by the same sires, Duke of Norfolk seemed an appropriate title. It would not do to seek lower titles than that first bestowed and then came Duchess of Norfolk, Prince of Norfolk, King of Norfolk, Queen of Norfolk, Emperor of Norfolk, when English titles were exhausted. The Czar followed and then a more preferable nomenclature in the shape of Spanish names which had a meaning. El Rio Rey—The River King; Rey del Reyes—The King of the Kings. These were brothers and sisters, all by Norfolk, and the first Joe Hooker was called Yo Tambien—I too—and no one acquainted with her history will dispute her claims to membership in the family.

One of the happiest names a St. Louis gentleman suggested, Yo el Rey, I the king, and had Fortune been kinder it is safe to say that he would have ranked among the best. But

the tide had turned, and from the time El Rio Rey was taken sick on his victorious campaign there has been a constant succession of calamities. Rey del Reyes fell on a harrow. Yo Tambien was killed by running against a splinter in the paddock fence. Yo El Rey became soured from some cause, and when recovering from that and giving indication of a glorious career, he was cut down in a race. Rey del Sierras, king of the mountains, showing in his yearling form if anything superior to any of his elder brothers, also went wrong, and has never been able to start in a race. He is now five years old, is at my place in Oakland, and should any one desire to see a marvellously well shaped colt, the time spent in making the trip will not be regretted.

The last foal—El Vera Reyna—the True Queen—died soon after her arrival at Sacramento, where she was to be put in training, and so far as could be told from her form and action very likely to have become also entitled a true sister to Yo Tambien. C. Bruce Lowe, in the book published in England since his death, places Marion at the head of all the American broodmares, and this estimate is shared by a great many critics.

COL. BRUCE HAS RETIRED.—Glad and sorry that Col. Saunders Dr. Bruce has retired from the Turf, Field and Farm. Well, pleased to know that from now on he will be released from the anxiety attending a newspaper, especially when the journal is "devoted to the horse" and sports of the Turf and Track.

Sorry that one reason for severing his connection with the paper he founded is ill health, and now that attending tribulations are overcome it may be that he will recover his old time vigor.

The absence of care and plenty of outdoor life and exercise are the best of all remedies, and as Col. Bruce and I are within a few months of the same age I have the utmost confidence in his ability to exercise, although he is handicapped with a good many pounds, sixty at least, more weight to carry.

As I have oftentimes stated, the breeders of thoroughbred horses in the United States are largely indebted to Col. Bruce as without his aid the genealogy of the old families would have been hopelessly involved in obscurity. Had the papers in his possession been destroyed when the war began they never could have been replaced. Had they fallen into other hands saving, perhaps, his brother, the late Ben G. Bruce, it is doubtful if they could have been "straightened out." Then he had to contend against elements that would have thoroughly disgusted any one less enthusiastic and determined to carry the project through, and when large expenditures of money were also required, and these continued for many years after the publication of Volume I of the American Stud Book, the stouthearted would have quailed and refused to carry on the unequal battle. However large the sum obtained for the Stud Book from the A. J. C. it is within bounds to say that never a man did so much work of that kind for the price paid, and his best reward his own knowledge that he accomplished the task, and that at this late day his labor is appreciated.

Now that he is "footloose" I hope he will spend a part of his time in California, confident that a sojourn in this "glorious climate" and among the grand surroundings will prove not only a health restorer, but also a potent rejuvenator.

A letter containing a late photograph, as well as the notice of his retirement, was received a few days ago, and there is little change in his appearance from that of many years ago.

Col. Bruce will receive a hearty welcome on this occidental side of the continent, and I sincerely hope he will give my remedy a trial, sure that the results will prove the wisdom of the advice.

JOS. CAIRN SIMPSON.

## The Futurity of 1900.

NEW YORK, January 11.—Nine hundred and twenty-three nominations for the Futurity of 1900 have been received by the Coney Island Jockey Club and a few more may arrive by mail within the next day or so. The nominations closed at midnight on the 4th inst. With one exception this is the largest number of nominations ever received. The Futurity of 1895 had 1,010 entries.

As usual, J. B. Haggin is the largest nominator. Following is a partial list of the nominators and their nominations:

	No. of Nominations.		No. of Nominations.
J. B. Haggin	165	J. R. & F. P. Keene	25
Milton Young	67	A. H. & D. A. Morris	18
Beale Meade stud	44	Gideon & Daly	8
August Belmont	33	C. Fleischmann Sons	6
Marcus Daly	31		

Among the other nominators are Perry Belmont, O. H. P. Belmont, Clay & Woodford, B. G. Thomas, F. Gebhardt, estate of Byron McClelland, J. F. Madden, S. S. Brown, W. O'B. Macdonough, Eastin & Larabee and about seventy others.

W. H. LAUDMAN'S string, in charge of Trainer A. C. Franklin, Jr., has been sent to Memphis. The stable is made up of: Ramiro, br. h, 4, by Fonso—Goodie Cad. Schedule, br. h, 4, by imp. Candelmas—Swift. Melter, ch. r, 3, by Strathmore—Elizabeth L. Goodrich, ch. c, 3, by Fatron—Eihel Gray. Chestnut colt, 2 (brother to Irish Lady), by Onondaga—Patty of Cork. Chestnut filly, 2, by Hanover—Elizabeth L. Chestnut filly, 2, by Imp. Candelmas—Maid of Balgown.

## QUINN'S OINTMENT FOR HORSES

stands at the head of all veterinary remedies. Such troubles as Spavins, Curbs, Windpuffs, Splints, Bunches have no terrors for a horse if the master keeps and applies Quinn's Ointment. All well-known horsemen speak of it in the highest terms:

Miller & Sibley, of Franklin, Pa., owners of St. Bel, brother of late Bell Boy, write, "We have used Quinn's Ointment with great success and believe it fulfills all claimed for it. We cheerfully recommend it to our friends." For Curbs, Splints, Spavins or Bunches, it has no equal.

Price \$1.50.

Sold by all druggists or sent by mail.

W. B. EDDY &amp; CO., WHITEHALL, N. Y.

TRY IT.

## TURF AND TRACK.

## THE SULKY.

We shall have a good live circuit in California this year.

AZOTE won seven more heats inside of 2:10 than any other trotter.

JOHN DICKERSON has begun training for Senator McCarty, of Brooklyn.

OMAHA will have a trotting meeting this year from June 27th to July 2d.

FRANK AGAN, 2:03½, was recently priced to a Buffalo man for \$7,000.

SANTA ROSA will offer a strong inducement this season for a trotting meeting.

THE speed sale to be held in this city, February 3d, promises to be a good one.

KENTUCKY is characterized as the state where they raise "hay, hell and speed."

BEDOUIN, 2:25½, foaled in 1888, is the first standard performer bred by J. Malcolm Forbes.

JASPER AYRES 2:11½ will try conclusions with the crack Boston trotters on the snow path this winter.

BLACKSTONE, 2:23½, a son of Guy Miller is dead. His record was made at twelve years, but he trotted trials in 2:15.

HICKOK says Miss Rita never wore a boot of any kind, and never made a break in her life, neither in her work or races.

BILLY G, 2:15, by Gaviota, is now owned by Dr. Taylor of Napa, who uses him on the road. He makes an ideal roadster.

ALMONT, Happy Medium and Strader's Clay are buried side by side beneath a locust tree near the stables at Fairlawn Farm.

THE old campaigner, Bert Sheldon, 2:16½, has won nearly half of all the races in which he has started, which number something over 150.

THE old trotting horse Nevada, taken to Honolulu years ago, where he was king of the road for a long time, died there on January 1st.

THE fast pacing mare Argoret 2:09½, which has been racing in Montana for two years, was recently purchased by F. Kemp, of Kansas City.

PRETTY nearly anybody can tell you what is needed to help out business, but it is the fellow who puts his shoulder to the wheel who counts.

THE MERCHANT, 2:29½, by The Conqueror, 2:12½, is the only yearling that trotted below 2:30 in 1897. W. A. Paxton Jr. of Omaha, Neb., is his owner.

THE nominations for the \$15,000 Futurity Stake, offered by the Kentucky Trotting Horse Breeders Association for foals of 1897, include 614 youngsters.

THE pacer Arrow, 2:12½, was destroyed in Brooklyn recently by order of a veterinary. He was eighteen years old and was suffering from spinal meningitis.

ALGREGOR, 2:11, is one of the best prospects in the State. He has never yet shown his true form during an entire racing season, but is now better than he ever was.

AT Newman, Stanislaus county, there is great interest taken in trotting and pacing events between local horsemen, and contests come off there on every holiday.

MONTE CRISTO, 2:29, one of the horses to be sold February 3d, is one of the purest-gaited and most intelligent roadsters ever offered at public auction in this city.

ALGONA, by Almont, sire of Flying Jib, 2:04, and Velocity, by Aberdeen, sire of King of Diamonds, 4, 2:08½, are both out of the same dam—Emma Kinkead, by Conscript.

THE sale of Palo Alto broodmares brought very low prices. No one wants to load up with old mares, thoroughbreds or trotters, but in this consignment there were some very good ones.

THE P. C. T. H. B. Association directors will hold a meeting next Tuesday, and no doubt will adopt some measures which will show that their interest in the light harness horse business is as strong as it was.

ARDETTA, 2:25, as a three-year-old is now in Geo. Hall's Boston stable, and is likely to trot into the 2:10 but this year. She was bred at Palo Alto and is by Advertiser out of Wildmont, 2:27½, by Piedmont, 2:17½.

MILLARD SAUNDERS, who has just made a tour of the State, says that where 700 foal were dropped in Kentucky in 1896, less than 40 were dropped last year. Surely the predicted shortage in trotting horses is coming soon.

THE old broker's advice to his boy, "Buy 'em when they're low," is a good thing to follow in the horse business. There was never such an opportunity to get good horses as now. Poor ones should never be purchased at any price.

J. A. McKERRON, the well known harness and horse boot manufacturer, has just shipped some splendid sets of trotting harness and boots to Europe and the East. Geo. Starr's order is being filled at this place and it is a good one.

CHICAGO lovers of harness racing are to build a magnificent new track, to be used exclusively for harness racing and the training and driving of trotters and pacers. The club that will build this track is composed of over one hundred of the leading horse-owners of Chicago.

LUCY Q. is entitled to a place not far from the top of the list. She is dam of Reno's Baby, 2:14, pacing 2:23½, trotting; Peleg, 2:11½, pacing, 2:23½, trotting; Nannie E., 2:17½, pacing; Syzygy, 2:29½, pacing, and Claud Cleour, 3, 2:25, pacing. These performers are by three different sires.

It is now a question of merit and earning capacity, and only the fittest will command the attention of buyers.

WHEN the Hermitage Farm horses are disposed of the old veteran Wedgewood, 2:19, will be reserved and will be kept on the farm until his death.

DOMINO, the greatest winner on the running turf in this country, is credited with \$202,000, while Goldsmith Maid earned \$325,000; quite an increase in favor of the light harness horse.

STAR POINTER, 1:59½, if raced at all during 1898, will only appear late in the season, as Mr. James A. Murphy, his owner, has decided to leave the horse in the stud the earliest part of the year.

THE three-year-old colt Directum's Star, by Directum, 2:05½, has recently been added to the farm of Charles L. Chase, Gilmanstown, N. H. He is out of Lynde, dam of Sidwood, 2:16, and Judge G., 2:21½, by Lynwood, son of Nutwood.

BLUE GUM, 2:27½, by Nephew out of Gem by Gen. Benton, is one of the champions on the snow path at Hartford, Conn., this winter and there are many fast ones there. He is looked upon as one of the most promising prospects for 1898. He was bred at Palo Alto.

A successful fair is an all-around money maker. It benefits the railroads, hotels, restaurant men, vendors of liquid refreshments, street railways, hack lines, and the majority of merchants; but as a rule, those having the direct management of the exhibition receive but little benefit.

THE many friends of Scott Leighton, the well known animal artist, well regret to learn of his commitment to the McLean insane asylum, Boston. Ill health, followed by too much work and worry is said to have caused the break down, but the doctors in charge of his case give hopes of his recovery.

THE sensational report of some days ago that Bismark, the German statesman had died, was caused by a cablegram which announced the death of Bismark—a horse. It is believed the horse is the little stallion Bismark 2:13½, which Mrs. Dan McPhee purchased for \$3,500 while in New York not long ago.

M. L. COOVERT, of Vancouver, Wash., has consigned Touchet, 2:15, and Tenino, 2:19½, to the Splan-Newgass February sale in Chicago. Tenino promises to be as fast as her brother Chehalis, and Touchet has been converted to the trot and is going very fast. They are now at Red Oak, Iowa, under the care of John W. Tilden.

GEORGE G. HALL picked up a good addition to his Boston stable at the Hicks' sale at Combination Park, in the four-year-old mare Ardetta, 2:25, by Advertiser, 2:15½, dam Wildmont, 2:27½, by Piedmont, 2:17½. This is royal breeding and as Ardetta took her record as a three-year-old last year she may be expected to step very fast another season.

THE citizens of the lively little town of Ferndale, Humboldt county, will build a mile track in place of the present half-mile course there, and will give a meeting in connection with a fair this year. The Ferndale horsemen are not afflicted with "the blues" in the least, but are confident that their 1898 meeting will be the most successful ever held in Humboldt county.

MESSRS. HENRY and IRA PIERCE of the Santa Rosa Stock Farm arrived from the East last Monday. They are of the same opinion regarding the light harness horse industry as everyone who has given this subject, thought and that is, there will be a great scarcity of good horses next year, and all who are in the business of breeding trotters and pacers have a brighter future before them.

AUGUST ERICKSON, owner of Bill Frazier, 2:14, has bought the two colts by Altamont—Tecora, now in Sam Casto's stable near Irvington. These youngsters, for breeding and individuality, are hard to beat anywhere. One is a three-year-old colt and a trotter, the other a two-year-old filly, a pacer, being full brother to Chehalis, 2:07½; Del Norte, 2:08; Touchet, 2:15; Tenino, 2:19½; Coquette, 2:30. They will be kept in training.

DICTATUS, 2:21, is to be sold at the combination sale at the Occidental Horse Exchange, February 3d. Dictatus is sound and all right. Besides being one of the best bred horses in America he is a splendid road horse and his owner asserts can outbrush any horse on the road in California—bar none. The man who buys him will be able to throw dust in the face of any horse that tries to pass him, and he can get to his speed in fifty feet.

EGYPTIAN PRINCE 14,431, to be sold at the combination sale of the Occidental Horse Exchange next month, is a grand young stallion and in proper hands should earn a good round sum in the stud this year. A grand individual, and most royally-bred, being by El Mahdi, 2:25½, son of the great Onward and Lady Bunker, the dam of the great Guy Wilkes. Egyptian Prince's dam is also the dam of Henrietta, 2:17½, and was by the great Hambletonian 10.

IN ten years the yearling trotting record has been reduced 8½ seconds. In the same period the two-year-old record for trotters has dropped 20½ seconds. The record for three-year-olds has been improved by 9½ seconds. The four-year-olds are 10½ seconds nearer the 2:00 line, while five-year-olds have been able to make but 4 seconds advance. The past decade shows an advance of 8 seconds for the stallion trotting record, while that for mares has moved up 5 seconds.

THERE has never been such a chance to get race or road horses as will be offered at the Occidental Horse Exchange February 3d. Some of the very best roadsters now used in San Francisco will be offered and there are several horses with fast records that will easily win themselves out this year if entered in the trotting and pacing events. The fact that there will surely be a big revival in trotting interests this year should be taken into consideration by those who attend this sale.

THE Colusa Jockey Club held a meeting last week at Secretary Wright's office and took the first steps toward a week of racing over the Colusa track next May. The races last year were a big success and were the means of bringing many hundred dollars into the town that would not otherwise have come and from present prospects, the races next spring will far excel those of last year.

A MATCH race at Red Bluff between J. J. Grinnel's mare Ruby and J. K. Freeman's horse Spotted John for a purse \$200 came off New Year's Day. It was won by Ruby who is the talk of horsemen up there as she was an entirely green mare with but four week's training. The three heats were trotted in 2:37½, 2:36 and 2:26, the mare trotting the last quarter of the last heat in 34 seconds without a skip or a bobble. It is said she has trotted trials in 2:20, and she must be a good one. We shall try to give her breeding next week.

THERE was a well attended meeting given by the Rocklin Driving Park Association at the Placer county track on New Year's Day. Two very interesting contests were held. The first was a mixed pacing and trotting for horses of the 2:45 class. The first heat was declared no heat. Brown Bess won the second, third and fifth heats, Lottie H. taking the fourth. The best time was 2:48 for Brown Bess and 2:50 for Lottie H. In a free-for-all trotters and pacers, there were three entries, Munyon, Jessie P. and Bonnie Belle. The first named won in straight heats of 2:23, 2:22 and 2:21. Munyon is by Wilkesdale.

As a means of getting rid of the ringers of the trotting turf a number of prominent horse owners favor the general adoption of the practice in vogue at the Palo Alto ranch of branding the foals under the manes. The batch of ringing cases brought to the attention of the National Trotting association last year was unusually large, but it was manifestly only a small percentage of the number of turf robberies of this character that were perpetrated during the year. If a horse's name was branded under the mane ringing would be impracticable. The branding could be done without torture to the horse and in such a manner as not to cause disfigurement.

TUSA, the bay mare that was such a prominent campaigner last year in the Salisbury stable, was bred at Fairlawn farm, Lexington. When three years old she passed through a sale in that city and was purchased for \$275 by W. T. Withers, Jr. She developed extreme speed, trotting quarters in 30 seconds, but was somewhat flighty. Mr. Withers sold her to a gentleman for \$1,000, who said he was buying for another party whose name was not given. In time she was owned by George Hall, the well known Boston horseman, who sold her to Walter Hobart of California. Her dam is sister to the Almont stallion, Maximus.

THE Vineland Stock Farm, St. Helena, Napa Co., on which many of the handsomest carriage horses and some of the best money winners on the California trotting circuit were bred, has been purchased by the Rennie Brothers, who will continue the breeding of fine stock along the lines so well established by Mr. F. W. Loeber, its former owner. Grandissimo, 2:23½, will remain the premier stallion. Messrs. Rennie have entered upon their new venture at the most opportune time, as the horse breeding business is certainly improving every day, and prices will be double what they now are within two years. We wish the gentlemen success and are certain they will attain it.

It is said that at the coming Congress of the National Trotting Association to be held next month, an effort will be made to modernize trotting. A strong effort will be made to shorten races in one or two ways. Under the present rule, all horses which do not win a heat in five are ruled out. It is proposed to send to the barn all horses which do not win a heat in three. Another proposition is to reduce the distance to fifty yards. The latter rule would make every heat a race, and would stop laying up heats, one of the most potent causes of fraud on the trotting turf. In this connection there will be a proposition to prohibit book making on heats. The most important questions will be the licensing of trainers and drivers. The system has worked well on the running turf, and it would be of far greater usefulness to the trotters, as it would sound the death-knell of the "ringing" brigade.—Am. Stock Farm.

THE trotting horse, when first introduced into Australia, was not much of an attraction, and trotting races were not very largely patronized by the general public in the colonies. The last ten years have produced wonderful changes. There are now several large breeding farms, one splendid mile track, and several half-mile tracks. Races are frequently made on the following plan: The winner of the first heat "stands out," the winner of the second heat follows suit and so down to the last horse that could win money, which with four moneys is fourth. The winners of the first and second heats then trot together to decide first money, and the winner of the third and fourth heats to decide third money. This plan compels drivers to go for each and every heat. No matter how many horses are entered only six heats can be trotted. An improvement on this plan would be to have the winners of the first and second heats only to trot for the final heat. This would limit all the races to five heats.

GEORGE W. ST. CLAIR, the Lexington horseman, was the real discoverer of the great three-year-old, Searchlight, 2:09½ whose trial, or rather public exhibition, in 2:05½, makes it appear probable that he will be the most likely candidate for 2:00 honors this year. Searchlight was bred by W. R. Richfield, and as a yearling St. Clair was so impressed with him that he took the colt to train on shares. He tells of his success as follows: "When I first began to work him he was so roughly gaited that nearly all the horsemen at the track condemned him as no good, and asserted that he never would be of any account. He was so stoutly and perfectly built, however, that every time I looked at him my confidence of his ability and his future was strengthened. As his speed came to him his gait became more frictionless, and he moved with an ease indicative of reserve power and endurance. On June 6, when a two-year-old, this colt, that had only been broken the previous December, paced a mile in 2:18½, and that day he could have gone in 2:14, and a quarter in 31 seconds. On the strength of that performance he was sold to David Bricker, of Montana, for \$3,000, who left him in my stable with orders that he be not speeded any more. Bricker brought some horses here last fall to race, and when he shipped them home Searchlight went with them."

## THE SADDLE.

If the Boots two-year-olds show promise, a few of the best will be taken along with the four-year-olds to New York.

A DOZEN choice mares, among them the celebrated Shipmate, will be sent to Boston to be bred to Meddler, now making a season at the Forbes establishment.

THE \$50 prize given to jockeys for winning on the horses whose odds are 10 to 1 and more at Barksdale is proving effective. Outsiders won four out of five races Tuesday.

J. M. MURPHY's much-touched Toppallant—Kitty Gunn colt has been named Streamer. If half the reports about this youngster are borne out by his performance, he will be in the Hamburg class.

MARCUS DALY has purchased of Milton Young, through his agent, Ed A. Tipton, the thoroughbred mare Lizzie D., bp Onondaga—Blue Mantle; price \$2,500. The mare is with foal to Hanover.

ANIE GRAY, by Free Knight, and out of a full sister to the rindam of Hamburg, has foaled a bay colt by Hanover. She is the property of Sanford Lyne, and he and Milton Young own the colt jointly.

THURSDAY last John Brenock lost the two-year-old brown filly by Lord Hartington—Ala-la-la, by St. Blaise. The filly broke a leg in play and was shot. Mr. Brenock regarded her as the most promising of his seven two-year-olds.

FRANK D. WEIR, Dick Liddal, M. Goldblatt and Arthur Wooley were ruled off the track at Barksdale Tuesday. The ruling includes the horses owned and controlled by these parties, and no less than fifty thoroughbreds are thus forced into retirement.

JUDGE JOSEPH MURPHY received quite a bunch of entries for the St. Louis fair meeting. Barney Schreiber and Tom Ryan each made forty-eight entries. Lewis Ezell, Dr. Rowell, Ed. Corrigan, Cesar Young and J. M. Murphy also made entries.

CHARLEY BOOTS is looking for three good-looking extra roomy broodmares of fine breeding to take the place of Beauty, Bonnie Jean and another highly-prized mare that recently died. He made a liberal offer for Souffle, but Owner Murphy did not want to sell.

I DON'T KNOW, the Oregon sprinter that was ruled off at Bay District track about three years ago for peculiar running, was ordered off the track Monday for his poor showing in the first race, for which he was a favorite, and Jockey Morse was suspended pending investigation.

CLAWSON received quite a handsome New Year's present Monday from the Thompson brothers. Clawson rode the firm's L'Alouette to victory in last year's Futurity and was well paid for his mount. Yesterday he received a splendid Tiffany split-second watch to remind him of his ride.

THE condition of Satsuma reflects the greatest credit on his trainer. The bald-faced horse has run the greatest lot of races here this winter on record. His mile and a sixteenth in the mud in 1:48½ Saturday with 113 pounds up is just as good as his six furlongs in 1:12½ on a dry track or his mile in 1:39½.

THE partnership between Lord William Beresford and Pierre Lorillard is renewed for the coming season. The stable, which is trained by John Huggins at Hare Park, Newmarket, includes thirty-six horses. August Belmont's Bridegroom II., seems to be the favorite colt of the American candidates.

A RUNNING meeting at Cleveland, O., is one of the probabilities of the year. Frederick A. Thomas of the Thomas Manufacturing Company, and some associates are negotiating with the owners of the West Side Driving Club for the use of their track for a spring and autumn meeting of two weeks each.

JOCKEY CHEVALIER and Hinrichs, who gained unwished-for fame in connection with the Little Pete turf scandal in San Francisco two seasons back, have reached the very limit of the descending grade, having been ruled off recently at the Maryland outlaw tracks and had their urgent petition for another trial sternly denied.

M. MENIER, of chocolate fame, heads the list of winners on the French turf this season, with £36,000 (\$180,000). The next is Vicomte de Harcourt, with £17,000 (\$85,000). Then comes Baron Schickler, with £15,000 (\$76,000). Among the owners of French steeplechasers, Mlle. Marsy, the actress, leads, with £14,000 (\$70,000).

COL. JACK CHINN says the old racing firm of Chinn & Morgan will have a stable this year, including nine 2-year-olds, all by Bubblor, the sire of Ingomar. Next year they will introduce the first of the get of Lissak, of which they have nine at the Chin farm near Harrodsburg, Ky. Lissak was truly a great horse and should be a good sire.—Daily Racing Form.

JIMMY MCCORMICK was redhot after the McLaughlin stakes. "Why, Colonel Wheeler could not have lost if Conley had kept Garland Barr where he belonged and not let Jones through on Satsuma. All they were in for was to carry me with Barr and then beat me with Satsuma," said the clever trainer; "but you won't catch my boys pulling out any more for them in future."

GRAVESEND (Brooklyn) is to have a new field stand for people unwilling or unable to pay the sum necessary to gain admission to the big grandstand with "all privileges." It will seat 1,500, have a restaurant, ring and waiting-room and be separated from the main grandstand by a double fence. It will be situated alongside the quarter stretch, on ground formerly occupied by the carriage sheds.

LOS ANGELES, January 15.—The dead body of Fred A. Parish was discovered in a room in the Phoenix lodging-house this morning. Parish had plugged all the cracks in the room and turned on the gas last night. He was a jockey, twenty-one years of age, and apparently well supplied with funds. His parents reside at Stewartville, Mo. He came here from San Francisco a short time ago.

JIMMY ROWE has Plaudit in his charge at Brookdale. He says the colt is as rugged a customer as he ever handled. Plaudit will be specially prepared for the Metropolitan Handicap at Morris Park.

THE first foal of the year announced from Kentucky is a bay colt by Hanover—Anna Gray, foaled on the farm of S. C. Lyne, near Lexington, Saturday, January 8. The youngster's grandam, Alice Gray, was a full sister to the dam of Domino.

THE stables of E. S. Gardner & Son and J. W. Schorr & Son, or a division from each, will invade the Eastern tracks next season. With such speedy ones as Macy, Meadowthorpe Sligo, and Lieber Karl in their string and Tommy Burns to ride, the Schorr stable should achieve the greater measure of success.

THE "ringer," Jersey Boy, that won at Barksdale a few days since and thereby led to an investigation and the ruling off of A. D. Worley, Frank D. Weir, "Mose" Goldblatt, Richard Siddell and Jockey R. Bender, turns out to have been Sidney Bender. He is also supposed to be the horse that under the name of Major Nick was the medium of a successful coup at Iron Hill.

MISS ELSIE JONES, of Brockville, the only woman who races horses in Canada, will have a candidate for the Queen's Plate stake this year. Winsome is the name of the candidate, a full sister to Wicker, who last year carried her colors in the Guineas stake and ran third. This colt was entered by Miss Jones in the Ideal park stakes in 1897, and she may be represented on the American turf this year.

ED PURSER had \$60 on his Red Glenn, his 100 to 1 shot winner, but had it on for the peep only—at odds of 8 to 1. Trainer Billy Murry felt pretty badly over the result. "I kept Purser from winning a fortune," said he. "He wanted to bet \$150 on the old fellow straight, but I advised him not to play him for anything but the show." Murry risked \$2 on Glenn at the juicy odds and got \$200 against it.

TRAINER JOHN GIVENS ("Kentucky John") will sever his connection with the Pueblo stable of Naglee Burk at the end of this week. The stable, once full of fine performers, such as Crescendo, Bellicoso, Brioso and Rosormonde, is now composed principally of cheap selling platers, and "Kentucky John" cannot make Cudas, Thelmas and Dolores win stake races, try as he will. That's the trouble. He will open a public stable.

W. O. SCULLY sold some of his horses at New Orleans January 8, at the following prices: Masterpiece, ch c, 4, Mr. Brown, \$200; Peacemaker b g, 7, Ed Baxter, \$725; Paul Kruger, b c, 3, J. W. McKinley, \$40; Carlotta C, br f, 4, A. Taylor, \$425; Bucksaw, ch c, W. O'Connor, \$285; Minnie Murphy, b f 4, John Morris, \$385; Troil, br c, Mike Race, \$40; Chestnut colt, 2, by Macduff—Rhody Gale, E. Seraphin, \$25. Total, \$2,125; average, \$265 75.

BARNEY SCHREIBER is to permanently retire from racing a stable of horses, and this will be the last season that the purple and orange sleeves will be seen on the turf. He has forty horses in training, but will dispose of all of them during the present year, as he intends to breed for the market exclusively. Schreiber has one of the biggest breeding farms in the country at Woodlands, and very justly argues that a man cannot breed to sell and race a stable of horses at the same time.

T. D. CARTER, who has become well known of late years through the fast Pontico two-year-olds he introduced to the Chicago race tracks every spring, has in the neighborhood of twenty-five now on his farm just beyond the city limits. A good many of them are Pontico's, but he has some sired by Wawekus and Bradford and also an Inspector B. filly. For these he has claimed names as follows: Gold Fish, ch f, by Wawekus—Cretonia; Bone Setter, b f, by Wawekus; Turn Coat, b f, by Bradford—Stella V.; Baba Robertson, b f, by Bradford—Jennie Ten Broeck; Ice Cream, b f, by Inspector B.—Carrie A. Last year Mr. Carter brought out Dr. Sharp, who proved to be a speedy two-year-old.

TRAINER SAM SEXTON is said to have a wonderful colt named The Bondholder, by imp. Rossington-Helena. He is a full brother to Rally. The colt has been worked with the other horses in the stable and has beaten them all. It belongs to Yaeger & Oxx, a firm of young men who have been fortunate in their entries. They have been buying bargain horses at sales. Armorer, a filly that the late Byron McClelland once grew disgusted with and traded for a pair of martingales, was purchased by Yaeger & Oxx for \$15. They won four races with her last year, and got as good as 100 to 1 for some of their money. The Bondholder has shown in wonderful form, and is touted as a stake animal. He was bought at one of the sales at Latonia last year.

LONDON, January 8.—The American racing colors which will be seen in 1898 are about the same as in 1897. The acceptances for the Lincolnshire spring handicap include Mr. James R. Keene's St. Cloud and Voter; for the City and Suburban, St. Cloud and Voter and Richard Croker's Dobbins and Pierre Lorillard's Diakka are entered. For the Jubilee stakes, Dobbins, St. Cloud, Voter, Diakka, Berzak, and Sandia are on the list. For the Hurst Park spring handicap the entries include Voter, Diakka, Berzak and Sandia. For the Alexandria Park and Metropolitan handicap Voter is entered for the Ascot gold cup. James K. Keene's Uriel will be among the runners. St. Cloud is also entered for this event. The Ascot all aged stakes will probably find Berzak, Bloezen, and Doric II. at the post. St. Cloud is entered for the Alexandria plate.

A DISPATCH announces that Ben Brush will not be sent to England for some time, not until after the Brooklyn and Suburban have been decided. Talking about the horse a few days ago Starter Chris Fitzgerald said: "As a matter of fact I know that Mr. Keene has had his eye on Ben Brush for a long time, and that with a view of racing him in England. He is essentially a long-distance horse, and weight makes very little difference to him. He is fast either on the turf or in the mud, and he will stand any amount of knocking about and shipping without getting off his feed. He is always ready to eat his bedding if he can get nothing better, no matter how much he has raced and been shipped, and upon the whole I believe he will be more successful on the English turf than any horse we have ever sent over, not even excepting Foxhall and Iroquois."

THE four Oakley stakes announced to close February 1st, the Diamond, Sapphire, Emerald and Moerlein, to be decided at the spring meeting, and three to be decided at the autumn meeting, the Pearl, Garnet and Gem Stakes; are entrance free. Owners can make any number of entries without charge, but to those not declared from the stakes for the spring meeting by April 1st, and from the stakes for the autumn meeting by July 1st, a liability of \$10 each accrues with an additional starting fee.

NEW YORK, January 17.—The Coney Island Jockey Club has received three additional entries for the Suburban handicap, namely: "H. L. Frank's Senator Bland, five years; A. J. Stemler & Co.'s Fleur de Lis, four years; and C. T. Boots' The Roman, four years. The total number of entries for the Suburban is forty-nine. Additional entries have also been received for the June stakes, Great Trial stakes and the Double event. The total number of entries for the eighteen events scheduled is 983, as compared with 899 last year.

THE American Sporting Manual of 1898, issued by Daily Racing Form Publishing Co. of Chicago, is out. It is a keen and correct book of the past year's sporting records, of pocket size and handsome proportions. All the fights of the past year, three handicap tables, with explanatory notes, the records of every race track, racing speed tables, baseball, bicycling, billiards, athletics, harness racing, sculling and general rules about sporting affairs are displayed within its pages. George Siler edits its pugilistic data, Tom Gallagher cares for the billiard figures, F. H. Brunell and Clint Riley have arranged the racing records, Ed Sheridan, sporting editor of The Chicago Tribune, has compiled its baseball figures, L. Sass, sporting editor of the Chicago Record, has made its bicycle and athletic calculations and John L. Hervey, the statistician of The Horse Review, has cared for the figures about harness racing.

TRAINER JOHN MORRIS is developing this year's racing crop of Bashford Manor at Louisville and will send the select to Harlem. G. J. Long has the following well-named home bred: Marlius, ch c by Pardee—Adversity; Timon, b c by Pardee—Day Dream; Olaska, b f by Pardee—Outstep; Synia, ch f by Pardee—Julia Magee; Greyfield, ch c by Azra—Anadem; Coxcomb, b c by Azra—Nellie J; Cassio, b c by Azra—Katiebred; Tarsus, b c by Azra—Quindaro Belle; Ramlet, b f by Azra—Starlight; Oneita, b f by Azra—Outspeed; Favoia, ch f by Azra—Meadow Lark; Flavius, b c by Volante—Glo-vine; Jerid, ch c by Sabine—Fadema; Coanza, b f by Bob Miles—Rainfall. Last year Mr. Long brought Byron McClelland here, a horse that as a yearling gave evidence of being a world-beater, and was considered worthy of carrying the name of the famous horseman, but failed to fulfill what he promised. It was only as a four-year-old that he displayed any racing qualities. At Harlem he won three races and was then shipped to Cincinnati, where he won several races before the season closed.

TRAVERSER has had a most checkered career, says the Chronicle. He was sold at the closing sale of Arthur White in 1896 for \$325 to two street contractors, who had a big contract in Guatemala. The colt was shipped down, but he was never started in that country, owing to the failure of his owners. A friend of Bradley purchased the colt for \$100, and he was shipped back to America, but did not make his appearance on the turf until July at either Detroit or Windsor. He made a phenomenal record for himself, especially after being carted all over the country. He was beaten in a special sweepstakes at Chicago by Lieber Karl. Jimmy McCormick reached the Windy City about that time. With his usual shrewdness he recognized in Traverser a colt that could probably beat any two-year-old in America with the exception of Hamburg. B. J. Johnson had offered Bradley \$7,000 for the colt, but McCormick took the old turfman to the theater the night Lieber Karl had beaten Traverser. Bradley would not agree to put any price on his colt, but McCormick secured the racing qualities of the colt for Burns & Waterhouse, and he will doubtless run in their colors until his racing career is at an end.

LONDON, December 24, 1897.—There is not much news of importance to send this week except what readers of The Spirit probably know already, viz, that the great Australian three-year-old Aurum, by Trenton, out of Aura, is the property of Mrs. Langtry, having been purchased for her by me in my capacity as manager of the International Horse Agency and Exchange. The negotiations were entered by cable, and by the arrangement finally agreed to Aurum remains in Australia to run out his three-year-old weight-for-age engagements. This he will do on partnership account between his late owner, Mr. R. W. Wilson, and Mrs. Langtry, the lady receiving half the stakes won, and the colt carrying Mr. Wilson's colors. In May, if all goes well, Aurum will be shipped for England, and, looking a long way ahead, one may venture on a prophecy that he will win the Ascot Cup in 1899, for he is unquestionably a wonder and stays forever. It is no matter for surprise, under the circumstances, that Aurum's sire, Trenton, now standing at our Cobham Stud, has his book full for 1898 at a few of 100 guineas, which, as English fees go, is a very moderate one for such an extraordinarily successful stallion.

THE ill-fortune of the racing firm of Bromley & Co. last year evoked much comment and sympathy. They spared nothing of care or cash to secure horses apparently as good as any in the country, but their liberality in this regard failed to produce its due reward, Typhoon II, Howard S and others of their costly purchases, going wrong from one cause and another. But, showing the spirit of genuine turfmen, the members of the firm have not "lain down" in discouragement, but have bought more horses, and with Jules Bauer in command of their racing forces, will again try for well deserved success. Additions to their string since last season are the useful 3 year olds Van Antwerp, Nuto, Danforth and Kenmore Queen, all good winners in their two-year-old form last year and more than likely to pay their way, with good handling, this year. Their two-year-old division is twenty-one strong, with the br f, by Cheviot—Elsie D; b c, by St. Blaise—Fedora II; b f, by Duke of Montrose—Burletta; b c, by Exile—Medal; br c, by Cheviot—Gold Basis; b c, by Kingstock—Henrica; ch f, by Exile—Faust Rose; b c, by Duke of Montrose—Violet; ch f, by Orondaga—Frederick's Pride; b c, by Wagner—Miss Barnes; and ch c, by Kingstock—Complete, apparently the most promising.—Daily Racing Form.

# THE WEEKLY BREEDER AND SPORTSMAN

WM. G. LAYNG, EDITOR AND PROPRIETOR.

The Turf and Sporting Authority of the Pacific Coast.

— OFFICE —

No. 313 BUSH ST., SAN FRANCISCO  
P. O. BOX 2300.TERMS—One Year, \$3; Six Months, \$1.75; Three Months, \$1.  
STRICTLY IN ADVANCE.

Money should be sent by postal order, draft or by registered letter addressed to Wm. G. Layng, 313 Bush St., San Francisco, Cal.  
Communications must be accompanied by the writers' name and address, not necessarily for publication, but as a private guarantee of good faith.

San Francisco, Saturday, January 22, 1898.

## The Question of the Hour.

The question of how to promote more interest in trotting horse races has been agitating horse breeders' circles more the past two weeks than anything that has come up in a long while. We have three communications on the subject which we laid over until next week in order that we might publish Mr. Peter C. Kellogg's letter. There seems to be an awakening all along the line, and now that horse-owners are realizing that excellent material for either track or road is becoming scarce, while the demand is growing stronger, they are more hopeful than they have been for years.

There never was an owner of a horse that did not want a better one, and as the good ones are getting old and passing away, better ones are wanted to take their places.

Californians who have visited the eastern states declare that next fall we will be besieged by agents who will be trying to fill orders from our race tracks and stock farms. There never was such a scarcity of good material as at present, and if we have race meetings this year everyone who develops a good trotter or pacer will realize a handsome profit. We must give race meetings that will attract the public and get everybody talking about trotters and pacers, and heralding their excellent qualities. It will not be much of an undertaking if everyone interested in light harness horse breeding in this State takes an interest and does some work. In regard to a suitable programme one of our contributors makes this novel proposition, and we take the liberty of copying it: "Would it not be an excellent idea for the P. C. T. H. B. Association to offer a prize to the one who forwards the best programme for the Breeder's meeting this year?" At the next meeting of the Board of Directors we predict that something will be done regarding this work, for there seems to be a strong determination on the part of these gentlemen to stir up enthusiasm among the horsemen, and we believe they will succeed. A number of successful meetings were held last season, even if they were conducted on the old fashioned plan, but we trust all those to be held this year will be even more successful.

We cannot afford to let 1898 pass over without having race meetings. It is more necessary now than ever.

## Pacific Breeders Futurity Stakes.

The following is a list of the second payments made on the entries in the Pacific Breeders Futurity Stakes, \$2,000 guaranteed, for foals of 1897 to trot and pace in 1899 and 1900. This stake is given by the P. C. T. H. B. A. and closed on June 1, 1897, with 147 entries. It is one of the best arranged futurity stakes ever offered, as it provides for races for both trotters and pacers at two and three years old. Nominators have the option of starting their colts at either or at both of these ages. It is the intention of the Association to offer a stake of this description each year. The next one will be for foals of 1898 to trot and pace in 1900 and 1901 and to close about June 1, 1898.

## Liberality of Latonia Jockey Club.

The Latonia Jockey Club announces that the following stakes are now open, entries to close on February 1, 1898:

The Eclipse Stakes, two-year-old fillies, \$700 added, five furlongs.

The Harold Stakes, two-year-old colts, \$700 added, five furlongs.

The Sensation Stakes, two-year-olds, \$1,000 added, six furlongs.

The Corington Spring Stakes, selling, two-year-olds, \$600 added, five and one-half furlongs.

The Ripple Stakes, three-year-olds, \$700 added, one mile.

The Latonia Spring Prize, handicap, three-year-olds, \$1,200 added, mile and a furlong.

The Tobacco Stakes, selling, three-year-olds and upwards, \$900 added, one mile.

The Milldale Stakes, three-year-olds and upwards, \$700 added, six furlongs.

The National Handicap, three-year-olds and upward, \$1,500 added, mile and a furlong.

The Cincinnati Hotel Handicap, three-year-olds and upward, \$1,200 added, one and one-eighth miles.

Entries to the following stakes for the fall meeting of 1898:

The Kimball Stakes, two-year-old colts, \$700 added, six furlongs.

The Zoo Zoo Stakes, two-year-old fillies, \$700 added, six furlongs.

The Kentucky Central Stakes, two-year-olds, \$700 added, one mile.

On February 1, 1898, entries 2, the following stakes close for the spring meeting of 1898:

The Latonia Derby, three-year-olds (foals of 1896), \$2,150 added, mile and a half.

The Hymar Stakes, three-year-olds (foals of 1896), \$1,500 added, one and one-eighth miles.

The Latonia Oaks, three-year-old fillies (foals of 1896), \$1,250 added, one and one-fourth miles.

All communications should be addressed to the Secretary, E. C. Hopper, Covington, Ky.

## Stakes Well Worth Winning.

The Cincinnati Jockey Club, which has one of the best plants in the country at Oakley, a suburb in Cincinnati, offers the following stakes, entries to which close February 1, 1898, with W. R. Letcher, Secretary, who has Room 303, Neare Building, Cincinnati, Ohio.

The Diamond Stakes, two-year-olds, \$1,000 added, six furlongs.

The Sapphire Stakes, two-year-olds, \$750 added, five furlongs.

The Emerald Stakes, two-year-old colts and geldings, \$750 added, five furlongs.

The Christian Moerlin Brewing Company Stakes handicap, three-year-olds and over, one and one-eighth miles.

The fall stakes for 1898 (to close Feb. 1, 1898, also) are:

The Pearl Stakes, two-year-old fillies, \$1,000 added, six furlongs.

The Garnet Stakes, two-year-old colts and geldings, \$1,000 added, six furlongs.

The Gem Stakes, two-year-olds, \$1,000 added, one mile.

For the spring meeting of 1899 (entries close February 1, 1898) the following are offered:

The Oakley Derby, three-year-olds (foals of 1896), \$2,500 added, mile and a quarter.

The Buckeye Stake, three-year-olds (foals of 1896), \$1,500 added, mile and a furlong.

The Cincinnati Oaks, three-year old fillies (foals of 1896), \$1,250 added, mile and a sixteenth.

Surely these should attract the attention of turfmen throughout the country, and we expect to see a long list of entries sent on from this Coast.

THE stakes for the spring and autumn meetings of the Westchester Racing Association, and the spring meeting of the Washington Jockey Club are announced in this issue of the BREEDER AND SPORTSMAN, and we wish to call the particular attention of horse-owners thereto. The stakes are arranged to attract all classes of runners and deserve a liberal patronage. Entry blanks can be obtained at this office, which, when filled out, should be addressed to H. G. Crickmore, Secretary, 173 Fifth avenue, New York. The entries close at midnight, Wednesday, February 2d.

It is needless to call the attention of our readers to the fact that the coming sale of trotting stock on February 3d, in this city, will include the finest performers ever offered here. Besides, there will be a number of excellent stallions which have proven to be good investments in the past and will be better in the future.

A MEETING of the Board of Directors of the P. C. T. H. B. Association will be held at their office, 22½ Geary street, next Tuesday afternoon at 1:30. A large attendance is expected, as matters of vital importance to the Association will be considered.

CATALOGUES for the trotting sale, February 3d, will be issued next Wednesday. No more horses will be taken for this sale.

NOTHING was done about selecting a starter and judges at the annual meeting of the Jockey Club Thursday. It is probable that no selection will be made until early in April. Messrs. August Belmont, J. H. Bradford, James R. Keene and F. K. Sturgis were re-elected stewards to serve two years, and certain of the racing rules were amended to read as follows: Rule 79, third paragraph, is amended to read: In case of a walk over (except after a dead heat and in selling races), one half of the money offered to the winner is given. Rule 99, second paragraph, is amended to read: With the sanction of the starter, a horse may be led to his position. The jockey must not dismount except to set right insecure equipments, and then only with the permission of the starter. Rule 181, sixth paragraph, is amended to read: Any person who shall attempt to prevent another person from bidding on the winner of a selling race or claiming any horse in such race, or demand any portion of the surplus from the owners of horses which are entitled to it, or any owners running in selling races who may make any agreement for the protection of each other's horses in contravention of these rules, shall be fined, suspended or ruled off.

## An All-Absorbing Topic.

P. C. Kellogg expresses his opinion on laying up heats and other questions to the trotting horse interests:

EDITOR BREEDER AND SPORTSMAN:—Where old friends agree on so many points of theory and judgment one cannot accuse unfriendliness as a motive for disagreeing on other points. I seldom read a word written by Mr. Joseph Cairn Simpson without the deepest interest, for he writes to the point, touches mainly topics that are mostly congenial to my mind, treats them fairly and honestly, and in terms and expressions of happiest selection. This is true to-day, as it has been for the better part of the last forty years to my knowledge.

But how he can think that the present trotting rules, rigorously enforced, are either adequate or just, to prevent the laying up of heats, is to me a puzzle. He has great admiration for the severity of the judges at a prominent meeting some months ago, in fining drivers who, in the judgment of the judges, did not try to win every heat. He has no patience with Major H. C. McDowell's attitude when that gentleman says: "The most important business of the driver is to win the race, and it often happens that this can only be done by judiciously laying up a heat, and when such is the case it is not the duty of the driver to so act? And if it is his duty should he be fined or otherwise punished?" Now, Mr. Simpson thinks that the driver is in duty bound to strive to the end of each heat to win it though that driver's deliberate judgment is that he cannot possibly win the heat; and that the effort to accomplish that impossibility will so outtax his horse as to greatly reduce, if not preclude, all possible chance of winning the race. Mr. Simpson's reasons for so thinking, if I understand him, is that the rules say that it is the duty of the driver to win each and every heat, and that all rules should be enforced. Without disputing that such a rule exists, Major McDowell evidently thinks that the rule is an unjust one, and that it is certain, if enforced, to work great injustice and hardship upon well-meaning drivers whom the happenings of the race have placed at some special disadvantage. I agree perfectly with Major McDowell, yet I can understand how a sudden enlargement of the rule should have excited evidence of approval at the meeting cited. There may have been some delinquent punished who was dropping heats for dishonest gains in the heat betting and not for ulterior advantage toward winning the race. But crowds, as a rule, are denominated by the unthinking, and anything that looks like discipline, whether justified or not, is almost certain to excite a ripple of applause. No doubt that rule was framed to hit dishonest men and upon occasions it has done so, but if enforced with regularity it would so often hurry and worry drivers of good intention as to work intolerable injustice. Laws of the land that are inconsistent and bad and even ridiculous often appear on the statutes and are suffered to remain there for long periods simply because they are not enforced. If they were enforced they would cause public disapproval and would be abolished. The only good that could come of a general enforcement of this rule for fining drivers, for not striving to win every heat, would be, that it would in consequence soon be abolished or greatly modified.

The rules for awarding final positions in the race are a great temptation to lay up heats. They could easily be so modified as to compel drivers to begin aggressive racing at the first heat instead of waiting, as they often do, until the third or fourth. The present fault is that each heat is only a strife between the actual heat and the whole field, considered as one horse, and a horse may go on and finish in the rear for four heats and yet perhaps win the race by setting sail in earnest and taking the fifth heat. This is because the rules permit him to continue to start until some one horse has been beaten the whole field three times. Perhaps every horse in the race has beaten the tail-enders four heats before he starts out to really race at all, though he means all the

time to win the race after the leaders have fought each other tired. The lax rules allow him to thus continue to remain in, unless he is distanced, and so he takes advantage of it. It is the rest of the field with which he is bunched (not with the merits of his own trotting) that has held his position safe for him against any one heat winner. Why should this be? Perhaps a dozen different horses have finished ahead of him the required number of heats to decide a three in five race, and had he been in a race against any one of them alone he would in a like relative position, have been beaten and the race would have been over. Why not in three-in-five rule out every horse that has been beaten in position three times by any other one horse whether the latter was an actual heat winner over all or not? This will put every driver on his mettle at once and the real strife will begin in the first heat instead of in the third or fourth. To lay up a heat will then be in nearly every case the worst of evils instead of the greatest of advantages as regards the final chances of winning the race, because the exigencies of the race will be so different from the present. Now a horse can drop back and lean upon the rest of the field to maintain a position for him against actual heat winners. With the proposed change he will have to maintain his own position, not only against actual heat winners, but against every other horse in the field, or go to the stable.

Such a consummation would greatly shorten races by compelling the most capable horses to come to real work at once; also by quickly shifting the incapables out and reducing the numbers of starters which so often delays the scoring. This too would preserve the superior advantages of the three in five system over the two-in-three in affording a badly placed horse in a large field an additional chance to retrieve his fortunes. It would afford a reason to a driver why he must strive for each heat and make him want to do it, in place of a reason why it would be a great advantage to lay up. Circumstances alter cases and with the proposed change there would be a disadvantage in laying up heats where now there is an advantage. An inducement to a driver in such cases is far better than a threat. It is an eye to the final result that nine times out of ten induces drivers to lay up heats under existing rules, though I don't deny that now and then the pernicious plan of heat betting is accountable for it. Remove the advantage which now accrues to laying up heats by modifying the rule as to positions and privileges, and then the inducements will be directly opposite. Of course the plan of moving up the distance stand will largely frustrate the laying up of heats, but it will also catch many a good horse that has encountered some accidental setback and shut him out when he was capable of fairly winning with half a showing.

Yours truly,

PETER C. KELLOGG.

## HOOF-BEATS.

ORELIO, a three-year-old brother to Ormonde, was recently sold in England for 930 geldings.

At Hobartville the imported mare Welcome has foaled a filly to Marvel, Blue Sleeves a filly to Autonomy, and Salutation and Athlone each a colt to Far Niente.

The popular English actor, John Hare, entered the list of owners at the recent Newmarket December sales, having purchased the good horse, Count Schomburg for the nest sum of \$25,500. It is rumored that he had partners in the purchase.

MAG, who won the Park Stakes at Canterbury on Saturday, does not want on the score of breeding, being by Carbine from Astarte, the latter being a sister to Richmond. Bosworth Segenhoe and Co. Mr. W. Kelso purchased Mag in Melbourne last March for 115gs, and on Saturday last got his money back and a little over.

W. B. JENNINGS has received three promising two-year-olds from Rancho del Paso. They are a Salvator out of Geyser's dam (Hot Springs), a Watercross out of Shasta, dam of Osric II., and a Midlothian from the champion, Miss Woodford.

TOMMY GRIFFIN has sent Strathmeath to New Orleans. Green Morris left the old horse here last spring and expected to be here this winter, but decided to go to New Orleans instead, and notified Griffin who was handling the horse, to send him on.

GUS STRAUS, of Lexington, has bought from Dr. J. D. Neet, of Versailles, Ky., two yearling colts by Spendthrift that should be worth any man's owning. Both are chestnuts. One is a full brother of Hastings, the other a half-brother of the speedy colt Handsel.

The great race mare Firenze is in foal to imp. Goldfinch, a son of the unbeaten Ormonde, and will be bred back to the Rancho del Paso stallion, who has shown up so well in the stud that he will probably depose Salvator and be recognized as the king of Rancho del Paso. Good old Sir Modred is still in the ring, though, and has more winners than the others put together. They all win—stakes or plates—sooner or later.

SECRETARY H. G. CRICKMORE has prepared the list of stakes to be decided at Morris Park and Washington. The events are much the same as last year, except that instead of being guaranteed stakes they are nearly all added money events. The Metropolitan Handicap has been changed to \$3,000 added money instead of a guaranteed stake.

The Secretary of the Washington Club, Washington, D. C., announces the conditions for the third Washington Nursery of \$6,000 for two-year-olds, four and a half furlongs, to be run at the Bennings spring meeting of 1900. The purse is to be divided as follows: To the winner, \$4,000; to the second, \$700; to the third, \$300; to the nominator of the dam of the winner, \$500; to the nominator of the dam of the second, \$300; and to the nominator of the dam of the third, \$200. Entries close February 2d.

The combination sale of thoroughbreds at the Occidental Horse Exchange last night was fairly well attended, but there was no lively competition. Previous to the sale James McManus purchased Charles Le Bel and St. Philip for \$1,100. Barney Schreiber purchased imp. Sain, paying \$2,500 for him, and the beautiful black colt will be taken to Woodlands, Schreiber's Missouri farm, at an early date. The former owner of the horse reserves the right to breed two mares for two seasons to the horse, which, in our opinion is the best-bred young stallion in America. He is almost certain to sire high-class racers, especially those that can go, a Derby route. It is our belief that Sain is a mighty cheap horse at \$2,500.

The Farmer-Hendrie syndicate has decided on dates and stakes for their Michigan-Canada circuit, the order being as follows: Highland Park, June 7 to 25—Detroit Derby, 1½ miles, \$2,000; 3-year-old fillies, 1 mile, \$1,000; three-year-olds and upwards, selling 7-8 mile, \$1,000; 2-year-old colts and fillies, ½ mile, \$1,000. At Ft. Erie, June 25 to July 12—Canadian Derby, three-year olds, 1½ miles, \$2,500; three-year-olds and upwards, selling, 1 mile, \$1,000; handicap, three-year-olds and upwards, 1½ miles, \$1,300; two-year-old fillies, 5 furlongs, \$1,000; two year-olds that have not won a stake valued at \$600, 5 furlongs, \$1,000. Montreal, July 14 to 30—The stakes for this meeting will be announced in the stake book, which will be out next week. They will aggregate \$5,000. Windsor, August 2 to 17—Consolation Stakes, for three year-olds, 1 1-4 miles, \$1,000; two-year-old colts and geldings, 5 furlongs, \$1,000; three-year-olds and upwards, conditions, 1 1-8 miles, \$1,000; two-year-old colts and fillies, 5 1-2 furlongs, \$1,000; two-year-old fillies, 5 furlongs, \$1,000.

## THE STANDARD-BRED TROTTING STALLION

## MONTEREY, 2:13 3-4,

WILL MAKE THE SEASON OF 1898 AT ALAMEDA

(Cor. Arbor St. and Eagle Ave., end of Speed Track.)

MONTEREY, 2:13 3-4	Santa Claus, 2:15	Sire of	Strathmore 402	2:11
	Claus Forester, 2:11 1/4	and 75 others in the 2:30 list.	Elenor	2:11
	Wm. Penn, 2:07 1/4	Dam of	Lady Thorn Jr.	2:22 1/2
	15 others.	Volunteer 55	St. Julian	2:11 3/4
	Sweetness, 2:21	Sire of	Lady Merrit, by Edw. Everett	2:11 3/4
	Dam of	Belmont 64	Maud S.	2:08 1/2
	Sidney, 2:18 3/4	Miss Gratz (by Commodore)	Woodford Mambrino, 2:21	2:21 1/4
	Com. Belmont 4340	Sire of	Abbottsford	2:21 1/4
	Meteor, 2:17 1/2	and 13 others.	By Alexander's Norman 25	
	Cora Bell, 2:23	Dam of		
Hattie	Iago	2:11		
	Barona	2:16 1/4		
	Hattie	2:13 3/4		
	Monterey	2:16 3/4		

If Monterey begets colts like himself he will prove to be the poor horse-breeder's friend, for it will cost but little to get them to a race. Monterey had only four and a half months' training prior to starting in his first race, which he won in 2:21, and won his last race in 2:13 3/4, all training and racing inside of five months.

He was injured last season in shoeing. The day before he went an easy mile in 2:11 1/4 in the presence of three thousand people. He seems all right, and I predict Monterey will soon hold the harness record. If he gets the record I expect his colts will be very valuable.

MONTEREY has a bold and square way of going, such as is now in demand for road horses. He is thoroughly game; in fact, I never drove a gamer horse; is level-headed; legs as clean as a yearling's, and has the strongest foot I ever saw on a horse. He is a chestnut, 15.3 in height, and weighs 1,200 pounds. Come and see him.

## TERMS, \$50, With Usual Return Privileges.

SEASON CLOSES JUNE 1, 1898. All bills payable not later than that date. Address all letters to

P. J. WILLIAMS, ALAMEDA, CAL.

## For Sale at a Bargain

50 lb. Old-Style TOOMEY Bike.

50 lb. Old-Style McCAFFRY Bike.

1 FRAZIER Speed Cart.

1 Medium Heavy Breaking Cart.

Extra Set High Wheels to the 50 lb. Sulkies.

Apply to

OVERHOLSER BROS.,

Marin County Packing and Provision Co.,  
629 Laguna Street, S. F.BOYD'S LIGHT TREAD  
TURF SPRING

This spring is the only device that has ever been invented that will prevent horses from going lame from coming in contact with hard tracks. This spring will not only break the concussion, but it will prevent bowed tendons, corns, quarter cracks and contraction. It will also help a tired horse to finish strong at the wire. The springs can be put on a 4-oz. to a 24-oz. shoe, and are so simple that any country horse shoer can put them on. Full directions given with each set. These springs are guaranteed to take off 450 pounds' concussion, and will save you from \$50 to \$75 per year for leg wash. Mr. Boyd is known by all knights of the sulky from the east to the west as an artist at his profession. Apply to

W. H. BOYD, Salt Lake City, Utah.

## For Sale.

A pair of well-bred sorrel mares, 16 hands high, well matched for color, size, disposition and gait. Have never had any training or track work. Will show a 2:40 gait on the road with easy rein. Price, \$800. Refers to Joseph Cairn Simpson. For further particulars, address

J. O. MINER,

528 32d Street, Oakland

## San Jose Fair Matters.

The annual meeting of the Santa Clara Valley Agricultural Society was held at Ruth-erford Hall yesterday afternoon, with President Topham in the chair, Secretary Brandon at the desk and about forty members present.

President Topham addressed the meeting and stated that he was sorry to be compelled to state that the society had made no advancement towards paying off its enormous debt during his administration. He then went on to state what means had been unsuccessfully employed to raise money, and expressed the hope that in the near future some way would be found whereby the debt, or a portion of it at least, would be paid off.

Secretary Brandon then read his report for the year, showing the society in debt for about \$13,000. His report also showed that a large portion of the debt is for taxes, interest upon which is accumulating very rapidly. After the conclusion of the Secretary's report Colonel Philo Hersey arose and stated that if two-thirds of the members would join with him he would see that the debt was paid. James W. Rea then stated that while the proposition was a good one, the Directors had another plan, that of reorganizing, which they were perfecting, that would bring the society out all right. The Secretary's report was accepted and placed on file.

As it was shown by the report that money had been borrowed from the Grand State fund T. S. Montgomery moved that hereafter money from that fund be not appropriated for any other use. The motion was unanimously carried.

A resolution was presented by D. J. Porter to the effect that hereafter the track privileges be let to the highest bidder. James W. Rea was very much opposed to the adoption of such a resolution for the following reason: "Governor Budd," he said, "vetoed the County Agricultural bill for no other reason than to aid the Ingleside and Oakland running tracks. The fight is now on to find out whether they are going to secure the San Jose track for running purposes and work against trotting horse-men. The fight to day is not on the question of dollars and cents, but a fight to preserve trotting interests and agricultural and horticultural interests. What we want is some one to run our track for the accommodation of both runners and trotters." Upon motion the resolution was then laid on the table.

The matter of electing a President and two Directors was then announced as next in order. George Y. Bollinger was placed in nomination and elected without opposition. For Directors the names of Paul P. Austin, William Boots and Edward Topham were placed before the meeting. Much discussion followed

as to the allowance of proxies and was finally settled in favor of proxies. After the vote it was announced that Paul P. Austin and William Boots having received the largest number of votes, were declared elected.

T. S. Montgomery then presented a resolution requiring all trotting horses to be kept on the trotting track and all running horses to be kept on the running track. It was stated that a number of complaints have been made about running horses being exercised on the trotting track and thus spoiling it for trotting purposes. The resolution was unanimously adopted, after which the meeting adjourned. —Mercury.

MATTERS in the I Don't Know case took a new turn yesterday. "Sec." Nichols, formerly a jockey and lately trainer for D. J. Tobin, was ruled off the turf the owner of the horse was reinstated, and Morse's chances of being reinstated grow slimmer every hour. Judge Murphy will, in fact, recommend that his application for a jockey license be denied. Nichols used to ride Lottie Mill at the old Bay District track, and has also ridden on all the leading courses of America. It will also be remembered that Nichols rode the winner of the Guatemala Derby when a big coup was effected in 1896. At all events, although Nichols has not done any riding for some time, he has taken a very active interest in turf affairs, and had an "angel" (or backer) on his staff. According to information obtained by the judges, Nichols and Morse had control of I Don't Know and had the "angel" bet a good round sum the day Scotch Rose beat the barrier and I Don't Know landed up in second place. I Don't Know was entered again on January 17th in a five furlong dash. The "angel," who, by the way, had agreed to protect I Don't Know for \$1,000 in the event of his being run up in a selling race, made a protest against playing I Don't Know on Monday, as the odds would be something like 4 to 5, and he was already something like \$1,000 loser, and could not get out very well at those odds except by betting something like \$1,500. At any rate, I Don't Know was not scratched and, to add to the dilemma, the "angel" with the money did not come. If I Don't Know should win there was a possibility that someone would take the horse away, as no one connected with the management had any money, and this explains why Morse took I Don't Know so wide turning into the stretch, thus losing his chances of winning. The owners of I Don't Know were not implicated, though it does not seem exactly right to let such persons as Nichols run a horse to suit his own sweet will, even if he did agree to protect the horse up to \$1,000 in selling races. Now that the officials have started in it is to be hoped that a few others in close touch with jockeys that bear none too good reputations will be run off the track and an end put to their alleged nefarious business. A little good detective work might be well.

"Oh George! I don't know what to do, I'm sure. Pa says he will never consent to my marrying a man as extravagant as you are. He says you never chew anything but that expensive Piper Heidsieck Tobacco."

"Expensive? Why, the old man's behind the times. The size of the plug has been increased 40 per cent. Piper Heidsieck is really the cheapest tobacco on the market."

The new five-cent piece of

## PIPER HEIDSIECK PLUG TOBACCO

(CHAMPAGNE FLAVOR)

besides being 40 per cent. larger than the old five-cent piece is

It is the best tobacco ever offered at any price, and the largest plug of choice tobacco ever offered for five cents.

### Breeders, Successful and the Reverse.

More than one breeder can attest to the truth of the frank confession of failure as a breeder of thoroughbreds made by Eugene Leigh, as published recently. He was not the only one who imagined that it was as easy to breed thoroughbreds as it is to breed Poland-China hogs.

Con Enright, the successful bookmaker and poolroom man, bought the old Elmendorf farm when Daniel Swigert retired from the breeding business, and, although his friends in the East told him that he didn't know enough about a farm to open a big gate, he went into the business with all the energy of an enthusiast.

He spent thousands of dollars in improvements, bought the highest-priced stallions and brood mares and—failed. His failure was as complete and thorough as that of Mr. Leigh, and while he has not publicly admitted it he has confessed the same to his friends. And yet Mr. Enright and Mr. Leigh are shrewd, long-headed business men, but they failed to give the business of breeding thoroughbreds that personal attention which is so necessary to success.

Daniel Swigert made a success at breeding thoroughbreds because he watched every detail of the business and saw with his own eye that the stallions, brood mares and youngsters were properly taken care of. Woodburn farm bred many great performers when Swigert was its manager, but after he left and began breeding on his own account Woodburn gradually dropped to the rear, and a few weeks ago the remnants of what was one of the greatest breeding farms in America was sold under the hammer for a song. After leaving Woodburn Swigert at his Elmendorf farm gave to the world the turf's fastest performer, Salvator, and that wonderful race mare Firenze.

Clay & Woodford have been breeding thoroughbreds for a third of a century and they have been uniformly successful because Colonel E. F. Clay gives the business his personal attention. This stud has furnished some of the greatest stars on the American turf, including the mighty Hanover, which won a fortune for the Dwyers and is now winning fame and fortune as a sire for his owner, Milton Young.

General W. H. Jackson, of the famous Belle Meade Farm, near Nashville, has been the breeder of thoroughbreds for thirty years. Like Colonel Clay, he gives the business his personal attention, and the result is that many of the greatest performers have come from the Belle Meade, and in one year he General sold \$100,000 worth of yearlings.

Major B. G. Thomas is another successful breeder, who furnished the turf with its largest winner, Domino, and the great mare Correction. But when the Major became unable, through failing health, to give the business his personal attention he decided to retire, and a few weeks ago sold his stallions and broodmares and quit the business forever.

Milton Young, one of the most successful breeders of later days, gives the breeding business the closest personal scrutiny. He is up every morning at the break of day and sees to it that his stallions, brood mares and colts are given the proper care by the hired help. Of course, he studies blood lines just as the other great breeders who have preceded him did, and he has profited largely by so doing.

Mr. Young is not a theoretical breeder in the sense that he breeds to conform to some particular fad. There is only one end sought by Mr. Young, and that is speed. He says that he cares nothing for conformation unless that conformation brings speed.—Exchange.

### First Get of Star Ruby and a Little of His History.

Star Ruby (imp.) the high-class winner of the four-mile Thornton stakes in 1896, at the old Bay District track, will be represented in the National stallion stakes of 1899 says the Inter Ocean. Among the nominations to the event to be run that year are eight youngsters, the first get of this young sire, made by J. B. Haggin and Eastin & Larrabee, as follows:

Ch f, by imp. Star Ruby—May H.  
B f, by Star Ruby—Chimera.  
B f, by Star Ruby—Divine.  
Ch c, by Star Ruby—Falsalara.  
Br f, by Star Ruby—Flora Dare.  
Ch f, by Star Ruby—Glendora.  
Ch f, by Star Ruby—Jewelry.  
Ch c, by Star Ruby—Misfortune.

The career of imp. Star Ruby, the son of Hampton—Ornament, on the turf was short but impressive. He raced only as a three-year-old, and two months as a four year-old. His record is as follows:

1895, three-year-old, twenty starts; ten won, four unplaced.

1896, four-year old, thirteen starts; six won, four unplaced. He never raced in the East, but was a winner at St. Louis, Latonia and San Francisco, beating some of the best horses in the West at all distances, from seven-eighths of a mile up. It was the intention of J. B. Haggin, who always owned him, although he raced in the name of Green B

Morris & Co., to retire him to the stud in 1896, but he wanted to win a stake with him before doing so, and as the horse had shown staying qualities, he was prepared carefully for the four-mile race.

The race was run February 22, Washington's Birthday, and Star Ruby was just a four-year-old. There were only two other starters—Gilead, who had won the Thornton Stakes the year before, and Claudius, both five-year-olds. Willie Martin had the Haggin mount, and from the start took him back. When the first mile had been covered Star Ruby was an eighth of a mile out of it, and Martin was still keeping him back. At two miles he was fully three-eighths of a mile in the rear and going at about the pace of an exercise gallop. After the third mile he began to move up, and as the horses reached the stretch for the last time Star Ruby had overtaken the leader, Gilead, and the race began.

All down the stretch it was a drive with the two leaders head and head, and Star Ruby did not gain any advantage until just before they reached the wire, when he drew away from the tired Gilead, winning by a slo t length. Claudius was beaten off. This was the last time Star Ruby faced the flag. He was soon after shipped to Mr. Haggin's farm and bred to some of his best mares.

### American Turf Congress Rulings.

LEXINGTON, Ky., January 11.—The Board of Appeals of the American Turf Congress has refused the petition for reinstatement of Hippolyte Chevalier, who was mixed up in the "Little Pete" scandal in San Francisco.

The board decided that the case of John Brannon should be referred back to the Latonia Jockey Club, as Brannon's alleged fraudulent work was done prior to the creation of the board.

The case of Jockey Edgar Dorsey was not brought before the board.

The following resolutions were unanimously adopted: WHEREAS, Racing prohibited by the rules of the Turf Congress has practically ceased; and,

WHEREAS, It is the full determination to afford no excuse or immunity to those offending against said rules; be it

Resolved, That all persons heretofore outlawed for participating in races on unrecognized race tracks located west of the eighty-first meridian are hereby reinstated from this date to the privileges of all track racing under the jurisdiction of the American Turf Congress. This action is not intended to include suspended, ruled-off or outlawed horses, and it is not intended to apply to persons suspended or ruled off by the action of members of the Turf Congress or by the action of any turf authority.

## Entries to New Memphis Jockey Club Stakes.

Following are the California-bred or owned horses in the stakes of the New Memphis Jockey Club:

**GASTON HOTEL STAKES**—For two-year-olds.  
E Corrigan's b c by Riley—Jennie Tracey; ch c by Riley—Ada Reese  
Louis H Ezell's b c by Jim Gore—Helene  
T A Magee's Judge Magee, ch c by Silver Fox—Conjunctrix; Rexlight, ch  
by Tyrant—Probability; Hammond, b c by July—Pansy  
**ARDELLE STAKES**—For two-year-old fillies, four furlongs.  
E Corrigan's ch f by Montana Regent—Geneva; b f by Riley—Miss Bow-  
ling  
Louis H Ezell's Nellie Searcy, br f by Tremont—Marchioness  
Timmons & Marks' Lady Chatham, b f by Chatham—Lady Morton

**MEMPHIS STAKES**—For two-year-olds, five furlongs.  
E Corrigan's b c by Riley—Jennie Tracey; ch c by Riley—Ada Reese; b  
f by Riley—Miss Bowling  
Louis H Ezell's Nellie Searcy, br f by Tremont—Marchioness; b c by Jim  
Gore—Helene  
T A Magee's Judge Magee, ch f by Silver Fox—Conjunctrix; Rexlight, ch  
c by Tyrant—Probability; Hammond, b c by imp. July—Pansy  
**NEW GAYOSO HOTEL STAKE**—For two-year-olds, four furlongs.

J Brennan's Laurentian, b c, by Salvalor—imp Lady Cardigan  
E Corrigan's b c by Riley—Jennie Tracey; ch c by Riley—Ada Reese;  
b c by Riley—Lime ree  
Louis H Ezell's Nellie Searcy, br f, by Tremont—Marchioness; b c by  
Jim Gore—Helene  
T A Magee's Judge Magee, ch c, by Silver Fox—Conjunctrix; Rexlight,  
ch c, by Tyrant—Probability; Hammond, b c, by imp. July—Pansy  
Timmons & Marks' Bob Bass, ch g, by Chatham—Aristocrat

**THE LEHRMAN HOTEL STAKE**—For three-year-olds, one mile.  
J C Cahn's The Professor, b g, by imp Darebin—Teacher  
T A Magee's b c, by Tyrant—Probability; Hammond, b c, by July—Pansy  
J W Schorr & Son's Presbyterian, b g, by imp. Prestonpans—Dareka

**TENNESSEE BREWIN COMPANY STAKE**—For three-year-olds  
and upward, seven furlongs.  
P Dunne's Daclan, ch c, by Hindoo—Miss Moore; Estaca, b c, 4, by Em-  
peror of Norfolk—La Cigale; Salvable, b c, 5, b. Salvalor—Lydia  
Timmons & Marks' Marquise, b m, 5, by Miser—Monterosa

**PEARODY HOTEL HANDICAP**—For three-year-olds and upward,  
one and one-eighth miles.  
J C Cahn's The Professor, b g, 2, by imp Darebin—Teacher  
P Dunne's Daclan, ch c, 3, by Hindoo—Miss Moore; Estaca, b c, 4, by Em-  
peror of Norfolk—La Cigale; Salvable, b h, 5, by Salvalor—Lydia  
J M Murphy's Black Massie, br h, 6, by Hanover—Trianza; Car, ero, b h,  
4, by imp Candemas—Sister Geneva

J W Schorr & Son's Presbyterian, b g, 3, by imp Prestonpans—Dareka  
Timmons & Marks' Marquise, b m, 5, by Miser—Monterosa

**MONTGOMERY HANDICAP**—Three-year-olds and upwards, One  
and one-sixteenth miles.  
J. W. Schorr & Son's Presbyt. rian, b g, 3, by imp. Prestonpans—Dareka  
P Dunne's Daclan, ch c, s, by Hindoo—Miss Moore

**THE COTTON STEEPLECHASE STAKE**—For three year-olds and  
upwards. About two miles.  
A G Blakely's Capt. Piersall, br g, 4, by Favor—Imperuse; Col. Weight-  
mann, b g, 6, by Warfellow—Leslie P.; Southworth, br h, 5, by  
Strathmore—Zoulika

T King's Prize ch g, a, by imp. Sir Modred—Preciosa

**THE TENNESSEE DERB** / FOR 1899.  
Burns & Waterhouse's Strong li, b c, b imp. Stromboli—Flossy; Gaunt-  
let, ch c, by imp Cavalier—Nerchel; First Tenor, b c, by Falsetto—  
Peral Thorn; Goldschatz, g c, by imp. Goldfinch—Helen Sraich

E Corrigan's b c, by Riley—Idle; b c, by Riley—Hindoo; b c, by Montana  
Regent—Lucerne; b c, by imp. Watercress—La Colomna; b c, by imp.  
Watercress—Lucie Murphy

Louis H Ezell's Chikoot Pass, ch g, Forester—Wavelet; b c, by Jim Gore  
—Helene  
T A Magee's Judge Magee, ch c, by Silver Fox—Conjunctrix; Rexlight,  
ch c, by Tyrant—Probability; Hammond, b c, by imp July—Pansy

G B Morris' North Newington, ch c, by imp. Islington—Temescal; Fresma  
br c, Fresno—Marline  
J M Murphy's b c, by imp. Topgallant—Kitty Gunn

Stubbs Brothers Dr Sam, br c, by imp. Watercress—Algarata  
Caesar Young's b c by Julian—Old Miss; ch c by Panique—Ninetzin; ch  
c by Padisha—Daviata

**THE TENNESSEEOAKS FOR 1899**—For three-year-old fillies, one mile  
Burns & Waterhouse's Humidity, br f by Hindoo—imp Calphurnia;  
Banewor, br f by imp Stromboli—Gindora; Millove, b f by imp Mid-  
lothian—Free Love; Cuzana, b f by imp Midlothian—Colette; Enke,  
b f by imp Goldfinch—Firdly

E Corrigan's b f by Riley—Comide B; b f by Riley—Miss Bowling; ch f by  
Montana Regent—Geneva

Louis H Ezell's To-day, b f by Inspector R—Tomorrow; Nellie Searcy,  
br f by Tremont—Ma chioness

Timmons & Marks' Lady Chatham, b f by Chatham—Lady Morton;  
Irene Daly, b f by Chatham—Helena  
Caesar Young's b f by Bishop—Albattross; b f by Leonatus—Princess  
Lima; b f by Clarendon—Voldato

## Why You Should Use It.

John C. Boyd, Gentry, Tenn., writes: "I can recommend  
Quinn's Ointment as being the only remedy I ever tried that  
would remove a splint; I consider it valuable." It does the  
business for curbs, splints, spavins, windpuffs and all en-  
largements. Give it a trial. Price \$1.50. If you can not  
obtain it from druggist or dealer address, W. B. Eddy & Co.,  
Whitehall, N. Y. For sale in San Francisco by Messrs. J.  
A. McKerron and J. O'Kane.

SOUTHFORD, Conn.

I have used ABSORBINE with great success.

Yours truly,

GEO. L. MINOR.

Horse Owners Should Use  
GOMBAULT'S

# Caustic Balsam

The GREAT FRENCH VETERINARY REMEDY  
A Safe, Speedy and  
POSITIVE CURE.

Prepared  
exclusively  
by J. E.  
Gombault  
ex-Veteri-  
nary Sur-  
geon to  
the French  
Government  
Stud.

**SUPERSEDES ALL CAUTERY OR FIRING**  
Impossible to produce any scar or blemish. The Safest  
best BLISTER ever used. Takes the place of all in-  
struments for mild or severe action. Removes all Bunches  
or Blemishes from Horses or Cattle.

As a HUMAN REMEDY for Rheumatism,  
Sprains, Sore Throat, Etc., it is invaluable.  
**WE GUARANTEE** that one tablespoonful of  
this medicine will produce more actual relief than a whole bottle of  
any liniment or spavin cure mixture ever made.

Every bottle of Caustic Balsam is Warranted  
to give satisfaction. Price \$1.50 per bottle. Sold  
by Druggists, or sent by express, charges paid, with full  
directions for its use. Send for descriptive circulars,  
if timonials, etc. Address  
J. E. LAWRENCE-WILLIAMS CO., Cleveland, O

## THE KENNEL

### Coming Events.

#### BENCH SHOWS.

Jan. 26-29, 1898—State Poultry and Kennel Club's second bench  
show Sacramento; Matt. Coffey, secretary.

#### FIELD TRIALS.

Jan. 24, 1898—Pacific Coast Field Trial Club's annual trials at Bak-  
ersfield, Cal. J. M. Kilgariff, secretary.

#### COURSING.

Jan. 22-23—Ingleside Coursing Park. Regular meetings every  
Saturday and Sunday.

### COURSING FOR COIN.

## Fleet Greyhounds Following the Hares at Ingleside To-day.

Another big open stake will be run off at Ingleside Cours-  
ing Park to-day and to-morrow. As on last week it is a  
notable event, the added money again being no less than  
\$250. The entry, in consequence, is large and embraces  
several new performers. It is also an entry of quality. The  
best that is in the local kennels has been put forward. The  
outside counties are strongly represented. And the sport  
should be torrid. The candidates most likely to elevate a  
flag in to-day's run down will be found in to-day's daily  
edition of the BREEDER AND SPORTSMAN.

G. Pinto's Hercules showed remarkable form last week.  
It was the black flyer's second run in the hands of his new  
owner and he showed wonderful improvement.

J. Dean's Moondyne ran up against all the chances of  
coursing last Sunday. First he had two "undecided" with  
Hercules. Then he scared up a second hare after beating  
White Lily and made a gruelling run. Had it been other-  
wise his chances at the stake would have been every bit as  
good as those of his kennel mate, Connemara.

Tod Sloane ran last Sunday after having been subjected to  
a drastic dosing all the week, and without training. Yet he  
put out both Snowbird and Fleetwood. In shape, Tod  
Sloane is a dog of whom no leashman need be ashamed.

J. McCormick's Black Prince surprised one a bit last week.  
Black Prince was slated by the talent to lose his first course.  
He not only won it handily, but ran right along into the  
third money. The Prince is fast and reasonably clever. In  
ordinary company no "pony" has a right to sell over him.

"Billy" Murphy, lately associated with Jimmy Anthony,  
is now high up in the management at Los Angeles.

Neither rain nor cold affect the leashman. Last Saturday  
and Sunday were both the nastiest sort of days climatically,  
yet the crowds at Ingleside were fully up to the warm sum-  
mer days.

Vigilant again showed an affection of the eyes last Satur-  
day. In his course with Premier he lost sight of the hare  
for several seconds. Had he sight on his game the result  
might have been different.

Moondyne also showed a lack of vision in his first course  
Sunday. With the game all his own from the slips he lost  
the jack and permitted Hercules to gain a lead that made it  
a "no go."

Magnet is being trained by "Tim" Cronin. In such  
hands Magnet should soon get back to his old form. He is  
yet a young dog, comparatively, and after a brief rest should  
pull down many a stake.

Kay and Trant's black bitch Diana made a hot bid for last  
week's stake. She downed Molly Bawn, Myrtle, Sly Roy,  
Susie, and Moondyne; and in the first she was only put out  
by Connemara by a score of 4 to 2. Diana is a splendid  
bitch and the day is not far distant when she will trot just  
one pace faster and land the stake.

With only two candidates Jimmy Dean last week pulled  
down \$155.00 of the stake money. In Connemara, Moondyne  
and Mialmo (winner at Merced) Dean has a trio of per-  
formers that it would be hard to duplicate.

M. Manning has a new dog in to day. He is a dark brindle  
lately brought down from Marysville, where his work in the  
open is said to have been of high class.

The number of puppies being held under cover and on the  
eve of running is just at present exceptional. J. F. Grace is  
said to have a lively contingent. The Orient Kennels have  
a promising litter. Dillon & Reilly will be out with some-  
thing hot in a few weeks. M. Traynor has several young-  
sters of the Flashlight stock. Frank Murphy is caring for  
several. Jimmy Anthony has an embryo crack at Pleasanton.  
W. Shields is giving their first work to a pair of beau-  
ties by Pretender out of Lady Pembroke. And "there are  
others."

On the wet fields last week the hares ran remarkably  
strong. While the dogs slipped and occasionally stumbled  
the hares sped blithely to the escape or led the hounds all  
over the field.

After beating Skyball Saturday, Nellie B. was unable to  
beat Vigilant Sunday in a bye and was easily put out by  
Connemara. Seminole also went down before Sly Boy scor-  
ing a point. The Byrnes dogs seem to be poor mud larks.

W. Kay, who was elected an officer of the secreding fac-  
tion of the Interstate Club is out with a statement that his  
name was used and his election accomplished without his  
consent.

The racing to day begins at 1 P. M. (rain or shine) and  
continues through the run down. The ties will then be run  
off to-morrow, commencing at 11 A. M.

### Westminster Kennel Club.

The judges at the forthcoming New York show will be:  
St. Bernards, Newfoundland dogs and pups—Miss A. H.  
Whitney. Great Danes—J. Blackburn Miller. American  
foxhounds—Dr. A. C. Heffinger. Pointers—Charles Heath.  
English setters—William Tallman. Irish and Gordon set-  
ters—George Jarvis. Sporting spaniels—Andrew Laidlaw.  
Collies—Robert McEwen. Poodles—Charles D. Bernheimer.  
Bull dogs—not certain. French bull dogs—E. D. Faulkner.  
Boston terriers—Arthur Mulvey. Beagles—H. F. Schellhass.

Bloodhounds, mastiffs, wolfhounds, deerhounds, greyhounds,  
English foxhounds, Old English sheep dogs, dachshunde, all  
terriers (except Boston terriers), whippets, Italian grey-  
hounds, toy spaniels, schipperkes, Pomeranians and miscel-  
laneous—George Roper, England.

The special prizes make a list of larger and more valuable  
rewards than have ever been given at an American show.  
The Westminster Kennel Club will give a special prize of  
\$20 each for the best exhibit of four of the following breeds,  
entered and owned by one exhibitor, namely, English blood-  
hounds, mastiffs, rough and smooth coated St. Bernards,  
Great Danes, Russian wolfhounds, greyhounds, foxhounds,  
pointers, English setters, Irish setters, Gordon setters, field  
spaniels, cocker spaniels, collies, poodles, bull dogs, bull  
terriers, Boston terriers, dachshunde, beagles, smooth and  
wire-haired fox terriers, Irish terriers, Scottish terriers,  
black and tan terriers, Yorkshire terriers, pugs, and toy  
spaniels.

There will be winners' classes at this show for bloodhounds  
mastiffs, rough St. Bernards, smooth St. Bernards, Great  
Danes, wolfhounds, greyhounds, pointers, English setters,  
Irish setters, Gordon setters, field spaniels, cocker spaniels,  
collies, curly-coated poodles, bull dogs, bull terriers, Boston  
terriers, dachshunde, beagles, smooth fox terriers, wire-haired  
fox terriers, Irish terriers, Scotch terriers, Black and tan ter-  
riers and pugs.

Club trophies and medals are given by the English Blood-  
hound Club of America, American Mastiff Club, Old English  
Mastiff Club, Great Dane Club of America, National Grey-  
hound Club, Pointer Club of America, Gordon Setter Club  
of America, American Spaniel Club, Collie Club of America,  
Poodle Club of America, Bull Dog Club of America, French  
Bull Dog Club of America, Boston Terrier Club, American  
Dachshunde Club, National Beagle Club, American Fox Ter-  
rier Club, Irish Terrier Club of America, American Scottish  
Terrier Club, Bull Terrier Club of America, Irish Setter  
Club of America.

There is a generous list of premiums for 233 classes. In  
important breeds the divisions run like this:

English bloodhounds, novice, dogs and bitches, \$10, \$5 and  
medal; junior dogs, \$20, \$10, medal; bitches, same; free for  
all dogs, same; bitches, same. Mastiffs, like classes, same  
awards. Rough St. Bernards, dogs, puppy, \$10, \$5, medal;  
novice, same; junior, \$20, \$10, \$5; free for all, same. Bitches,  
like classes and awards. Smooth St. Bernards, same.

Great Danes, same. Newfoundland, free for all dogs and  
bitches, \$10, \$5, medal. Russian wolfhounds, novice dogs  
and bitches, \$10, \$5, medal; dogs, junior, \$15, \$10, \$5; free for  
all, same; bitches, same. Deerhounds, free for all, dogs, \$15,  
\$10, \$5; bitches, same. Greyhounds, novice dogs and bitches,  
\$10, \$5, medal; junior dogs, \$15; \$10, \$5; free for all dogs,  
\$15, \$10, \$5; bitches, junior, \$15, \$10, \$5; free for all, the  
same.

Pointers, puppies, dogs and bitches, \$10, \$5, medal; novice  
dogs and bitches, same; junior dogs under 55 lbs., \$20, \$10,  
\$5; over 55 lbs., same; free for all, dogs, \$20, \$10, \$5; ju-  
nior bitches, under \$50 lbs, same; over 50 lbs., same; free for  
all, bitches, same; field trial class, dogs and bitches, \$15,  
\$10, \$5.

English setters are divided into puppies, dogs and bitches,  
novice dogs and bitches, junior dogs, free for all dogs, junior  
bitches, free for all bitches and field trial class of dogs and  
bitches, with awards as in corresponding pointer divisions.  
Irish setters, same. Gordon setters same.

Spaniels—Irish water, junior dogs and bitches, \$15, \$10,  
and \$5; free for all, dogs and bitches, the same. Clumbers,  
same classification and prizes. Field spaniels, puppies, dogs;  
and bitches, \$10, \$5, medal; novice dogs and bitches, same  
junior dogs, black, \$15, \$10, \$5; other color, same; free for  
all dogs, same; junior bitches, black, same; other color,  
same; free for all, same. Cockers, puppies, dogs, and bitches,  
\$10, \$5, medal; novice, same; junior dogs, black, \$15, \$10,  
and \$5; red or liver, same.

For the full premium list, write to Superintendent James  
Mortimer, Room 310, Townsend Building, No. 1123 Broad-  
way, New York.—Forest and Stream.

### California Collie Club.

The regular annual meeting of the California Collie Club  
was held in the St. James Hotel, San Jose, on January 16th,  
President Stewart presiding. After general business had  
been transacted, during which the treasurer read a report  
showing the club to be in good financial condition, the elec-  
tion of officers for the ensuing year was held and resulted as  
follows: President, J. C. Berrett; Vice-president, J. E. de  
Ruyter; Recording Secretary and Treasurer, Miss Della  
Beach; Corresponding Secretary, N. J. Stewart; Executive  
Committee, Tyler Beach, N. J. Stewart and O. J. Elbee.  
Two gold medals, similar to those given last year, will be of-  
fered for the best California bred collie dog and collie bitch,  
respectively, exhibited in the coming Sacramento bench show.  
Diplomas will be given for the second and third best collies.  
A committee of five, consisting of President Berrett, Miss  
Della Beach, N. J. Stewart, Wm. F. Frue and Mrs. O. J.  
Albee, were appointed to act in conjunction with a like com-  
mittee of the Santa Clara Valley Poultry and Kennel Club as  
the bench show committee for the dog show to be held March  
30th, 31st, April 1st, 2d, 1898.

### San Jose Bench Show.

A meeting of the Santa Clara Valley Poultry and Kennel  
Club was held at the St. James Hotel last Sunday, January  
16 h. Several members of the California Collie Club were  
present. It was decided to hold a bench show in San Jose  
during the last days of March.

The show will be held by the Santa Clara Valley Poultry  
and Kennel Club and the California Collie Club. The great-  
est enthusiasm prevailed, and the combination show prom-  
ises to be one of the best ever seen on the Pacific Coast.

Letters were read from several specialty and gun clubs  
who thought so much of last year's exhibition that they will  
offer medals or cups for competition.

It is intended to make ladies' pet dogs one of the leading  
features of the show.

## San Francisco Kennel Club.

The annual meeting of the San Francisco Kennel Club was held on Wednesday evening last at the Occidental Hotel. There was a large and enthusiastic attendance of the members. The officers elected for the ensuing year are the following named gentlemen: President, A. B. Spreckels; First vice-president, J. E. De Rayter; second vice-president, Henry J. Crocker; Secretary, H. H. Carlton; Treasurer, F. W. Tallant; Board of Directors, A. B. Spreckels, Henry J. Crocker, J. E. De Rayter, F. W. Tallant, Dr. F. W. D'Evelyn, J. G. Barker and E. V. Sullivan.

Robt. F. Oxnard, President of the Country Club; Norman J. Stewart, of the California Collie Club; E. V. Sullivan, owner of Dash Antonio and a noted leashman, and W. H. McKittrick, of Bakersfield, were elected members of the club.

In formulating a plan of arrangement and to facilitate the better preparation for the contemplated bench show of the club, the following committees were appointed, thus segregating important work that has heretofore fallen to the direction of but a single committee, viz:

Bench Show—H. J. Crocker, E. V. Sullivan, W. C. Brown, Dr. d'Evelyn, H. H. Carlton.

Committee on Judges—J. G. Barker, Norman J. Stewart, H. H. Carlton, J. Bergez, Dr. d'Evelyn.

Committee on Premium List and Catalogue—John E. de Ruyter, J. G. Barker and W. C. Brown.

Committee on Advertising—H. J. Crocker, J. G. Barker, E. V. Sullivan, W. S. Kittle and W. C. Brown.

Committee on Specials—H. J. Crocker, Robert J. Oxnard, J. E. de Ruyter, N. J. Stewart and W. S. Kittle.

It was announced that the annual bench show would be held on May 18th, 19th, 20th and 21st at the Mechanics' Pavilion, which dates have been claimed by the club.

## Pacific Field Trials.

The fifteenth annual field trials of the Pacific Coast Field Trials Club will commence at Bakersfield on Monday. The interest among Coast and local sportsmen in these contests has been unabated and no doubt there will be a large attendance of enthusiastic visitors. Eastern attention has been a strong factor in creating a large fund of curiosity and speculation as to the probable winners in the trials. Arrangements for the trials are practically completed. Col. Arthur W. Merriman, of Memphis, Tenn., will be the leading judge, associated with him will be A. Vandervoort of Pasadena. Wm. Dormer, who had originally been selected as one of the judges, having gone to Seattle, the selection of the third judge will be made during the meeting of the club in Bakersfield to-morrow evening. It has been rumored that Judge N. C. Post, of Sacramento will be the probable choice of the club.

Two events will run—the Derby, for pointers and setters that have never run and who at the beginning of 1898 were not two years old, and the All-aged stake, in which all dogs will be eligible. The Derby entries closed last November and were 22 in number. The number of starters have not been estimated as only dogs will be started by owners and handlers that are in condition and have a chance of winning. The pointer entries outnumber those of setters.

The setters will probably have the advantage in the All-aged stake. This has been the rule in previous trials and this year the setter interest is unusually prominent, prompted by recent importations of famous setters from the East. The pride of California owners and trainers has been thoroughly aroused, and if the utmost care and unusual diligence in preparation of the dogs will avail the results of the trials it will be such as will uphold the already high reputation of the California dogs. The standard of quality represented in the All-aged stake would be hard to overcome in any country. In addition to the cups already mentioned in the columns of the BREEDER AND SPORTSMAN an additional cup will be awarded to the best dog in the All-aged stake. This cup has been donated by our esteemed contemporary, Western Sports

## Sacramento Bench Show.

The list of entries for the dog show in Sacramento closed on January 18th; we note a summary of the same up to that date, but other entries are expected by mail. The list is a fairly large one and greatly exceeds last year's entries in quality. The number for each class is as follows: Mastiffs 1, Great Danes 2, St. Bernards 16, Greyhounds 3, Pointers 9, English Setters 4, Gordon Setters 1, Irish Setters 5, Collies

15, Bull Terriers 2, Cocker Spaniels 11, Fox Terriers 10, Japanese Spaniels 1, English Whippets 1, Wire-haired Fox Terriers 1, Field Spaniels 1. Total 83.

The indications are that the combined poultry and dog show will be a very successful exhibition.

## DOINGS IN DOGDOM.

Distemper is prevalent not only locally, but at many points on the coast.

Half Moon Bay is afflicted with an up-to-date pest, in the shape of a dog poisoner.

Dr. Glover's remedies are good and efficient for the treatment of dogs during these distemper days.

Coursing at Sacramento has been temporarily discontinued owing to the bad condition of the grounds. The sport will be resumed on the 30th inst.

Frank Smith and Al Steiner of Livermore left on January 12th for Seattle. They had with them twenty-five dogs that have been trained in Livermore for Alaska sled work. Friday following Tod Smith and Geo. Van Gordon started for Seattle, from that point the Livermoreans will depart the latter part of the month for the Alaskan gold fields.

At Modesto, Sunday afternoon, January 9th, there was a match coursing race between L. A. Comin's dog, Tom Cy, and G. H. Bertran's Swift. Comin's dog had the best two out of three courses. The winner wagered \$10 against \$7 that his dog would be the victor.

H. C. GLOVER.

Dear Sir.—Your Imperial Mange Cure is the best I ever saw or used. I have had spaniels very bad with mange, and your cure completely restored them; in fact in a month the hair was as long as it ever was. I recommend it to any one having dogs afflicted this way.

T. A. STEPHEN,

Federal Bank, London, Ont.

## Kennel Registry.

## WHELPERS.

W. B. Frue's (San Jose) collie bitch La Creole (Ch. Charlerois II—imp. Heather Twig) whelped January 14, 1898, 12—5 dogs—by same owner's Mascot (Jeannot—Juanita.)

## SALES.

The Humboldt Kennels (San Francisco) sold a St. Bernard dog pup (Eboracum—Lady Bernardo) to H. A. Hunter (San Francisco) Jan. 15, 1898.

The Humboldt Kennels sold a St. Bernard bitch pup (King Frisco—Laura Alton) to C. W. Stevens, Jan. 15, 1898.

The Humboldt Kennels sold a black and tan toy terrier dog to F. W. McCullagh (Los Gatos) Jan. 3, 1898.

Chas. Dresser sold an R. C. St. Bernard dog pup (Grand Chancellor, 22063—Rheta) to Mr. B. B. Nicholls (Brentwood, Contra Costa) January 19, 1898.

## THE GUN.

## Jockeys in the Tules.

Mike Hennessy, Henry Shields and Mr. Dorsey (who gives Ferguson pointers on starting horses), were the guests of the Black Jack Club at Antioch last Sunday. "Sherman" and "Hardmouth" were appointed a committee by Secretary Jim Markland to look after the "boys." Considerable speculation was indulged in previous to the start as to the ability of the horsemen to go through the maneuvers and work necessary to reach the ark, start off early in the morning in a tule-splitter, stay in the blind and properly use their guns on the birds. Why this particular curiosity should have been made manifest does not appear, but nevertheless, when the jocks took their seats in the cranky little boats it was at once evident that they knew their business. The conditions for shooting were not in favor of the party, the weather being very cold and most of the ponds were covered with a thin film of ice, consequently the ducks were not flying, and the decoys had but few feathered visitors. A fair combined bag was made, however. Shields shot the best canvasback bowled over during the morning shoot.

## The Black Jacks.

The above illustration is reproduced from photos taken during a recent shooting trip near Antioch. Several members of this well-known gun club are depicted in characteristic costume and attitude. The President, J. A. Lemmer, is a little diffident about showing his genial face, but Jim Markland, the secretary, makes up for the short-coming.

## MERRY NIMRODS.

## Banquet and Reunion at the Petaluma Sportsmen's Club.

The banquet hall of the Petaluma Social Club on Tuesday evening, January 11th, was the scene of a festive gathering, and a merrier assemblage never graced a festal board than that which enjoyed the banquet and reunion given by the losing team, in the recent club shoot of the Petaluma Sportsmen's Club, to the club and invited guests.

At 8:30 E. E. Drees, master of ceremonies, gave the signal and the onslaught began. There was no contest this time

W. D. McRAE,  
E. C. JOHNSON.

"THE BLACK JACK,"  
JIM MARKLAND, SECRETARY,  
JIM MAYNARD.

PETE McRAE,  
W. C. SWAIN.

Dominick Shannon received two first-class dogs from St. Louis by express last Wednesday. Both of these runners are entered in the stake to-day.

The owner of a fine pair of Italian greyhounds can, if desirable, find a purchaser for them by addressing the kennel editor of the BREEDER AND SPORTSMAN.

The Humboldt Kennels last week sold a Newfoundland dog and bitch to Mr. Tolman of Juneau, Alaska, for use in drawing sleighs in the Klondike district.

Pete Kyne and Jack Debenedetti will enter their prize mastiff "Heck" in the coming San Francisco bench show. They expect to have him in fine condition.

Chas. Dresser has sold several dogs to parties who contemplate an early trip to the Klondike. Mr. Van Gordon of Oakland bought one, and Mr. C. J. Bromley purchased four St. Bernards recently.

E. H. Mulcaster, a leashman of international reputation arrived in this city on Thursday last. It is reported that he brought a couple of cracks from St. Louis, but at present the greyhounds are under cover.

The Glasgow bench show had 401 collie entries, these included the best dogs in Scotland and some of the best from over the border. The judge of the collie classes was Mr. Hugo Ainscough, the veteran breeder and fancier.

and victors and vanquished united in a common attack on the good things with which the tables were laden. Twenty-five jovial souls constituted the assemblage, and from the club's famous chowder to the dessert, mirth and merriment prevailed; but after the fragrant Havanas had been passed around, the real enjoyment began.

E. E. Drees acted as toastmaster, and made an ideal presiding officer. There were toasts, songs, speeches, stories, and more toasts. Toasts were drunk to the visitors, the club, the Lakeville club, J. H. Fritch, S. J. Hopkins, and Al Smith.

Addresses were made by Colonel Fairbanks, Captain MacLay, E. E. Drees, S. J. Hopkins, Al A. Smith, C. Skinner, and others. It was generally agreed to have similar social gatherings on more frequent occasions.

R. S. Brown, J. H. Fritch, and F. C. West were voted the honors for yarn spinning. Ben F. Phillips rendered a vocal solo, and the huntsman sang in chorus. Anecdotes and experiences of the chase were recounted, and there was variety in the entertainment provided. Marshal Collins was called upon, but was too full for utterance.

Messrs. Lockwood and Will Steiger, who had charge of the commissary department, were voted the thanks of the club, and it was an early hour in the morning when to the strains of "Auld Lang Syne" the revelers deserted the banquet board and the merriest time in the history of the club was at an end.

The following were present: Charles Skinner, Point Reyes; Capt. Fred Walder, Col. D. B. Fairbanks, F. C. West, B. F. Zartman, Capt. Thos. MacLay of the Lakeville Club, J. E. Lockwood, and the following members of the Petaluma Sportsmen's club: R. S. Brown, D. T. Ruffin, Lyman Green, G. A. Dress, Tony Mego, E. E. Drees, J. V. Long, S. J. Hopkins, F. M. Collins, A. A. Smith, Tiburon; J. Homer Fritch, San Francisco; E. S. Cavanaugh, L. F. Steitz, J. T. Studdert, Will Steiger, Jos. Steiger, George Griess, Jr., George Ortmann, Ed D. Hedges, Ben F. Phillips.—Petaluma Courier.

#### Encourage Quail on the Farm.

A writer in a Michigan exchange relates the following incident, and supplements it with some interesting matter as to the habits of the quail in the northwest.

At Athaca, Mich., a quail that had miscalculated its courage and killed itself by flying against a house was picked up and its distended crop examined. It was found to contain 101 potato bugs, which the bird had taken for its morning meal. The bugs were yet fresh and alive, and many of them began to move when exposed to the air. Prof. Bruner, of Lincoln, Neb., says of this valuable bird: "Perhaps no other bird that frequents the farm pays a higher price for the grain it cuts than the quail. Living about the hedge rows, groves and ravines, where insect enemies gather and lurk during a greater part of the year, the quail not only seizes large numbers of these enemies daily during the summer months, when they are abroad in the land, but all winter through, it scratches among the fallen leaves and other rubbish for hibernating insects of various kinds. Being a timid creature, the quail seldom leaves cover to feed in open fields, and therefore, does little harm in the way of destroying grain. In fact, only the stray kernels that would otherwise be lost are taken. It is one of the only few birds that will eat largely of that unsavory insect, the chinch bug, and the number that actually fall a prey to it is astonishing. A single chinch bug is a small thing, but I have seen a quail's stomach filled with them, more than five hundred being taken for a single meal. No farmer who is a fruit grower should kill a single quail; nor should he allow them to be pot-hunted on his premises.

The quail is a small bird, and its value as an insect destroyer is many times greater than its value for food."

#### The Rifle Club Wins.

The Stockton Rifle and Pistol Club defeated the Company B team last Sunday afternoon at the shooting range of the club. The score stood 406 to 367. The club members had somewhat the advantage over the militiamen who used the heavy Springfield rifle having a pull of six pounds. All the club rifles have hair triggers, among them are some fine Stevens. The weather was very cold and disagreeable which fact had a corresponding effect on the marksmen. The individual scores were as follows:

Rifle Club—Robinson 40, Towne 38, Shafter 36, F. Merrill 44, Roeckel 46, Phillipson 42, C. Merrill 43, Carroll 41, Salbach 41, Lorjers 35; total, 406.

Company B—E. Douglass 41, G. C. Young 40, G. Reynolds 40, L. Giovanessi 36, A. B. Anderson 40, William Bruse 32, Graham 29, Ford 36, Ferguson 40, Burke 33; total, 367.

#### Killed a Gray Eagle.

A few days since Lee McKinney killed a gray eagle on the ranch of W. F. Turpin, at Hor's Ranch, in Merced county with a twenty-two calibre rifle. The eagle measured seven feet from tip to tip. There were four eagles in the flock but McKinney only succeeded in getting one. It is quite a rare incident to kill an eagle in this county and we do not recall of more than one being killed as large as the one above mentioned.—Modesto News.

#### The Lincoln Gun Club Trap Shoot.

An event scheduled for Washington's Birthday, that will be of considerable interest to the lovers of the gun, is the blue-rock shoot of the Lincoln Gun Club. There will be four events, class shooting, at twenty birds each. The entrance will be \$1.50, divided into four moneys.

#### Duck Hunting Professors.

Professors Angell and Murray of Stanford University and Professor Walter Magee and Lieutenant Clomen of the University of California are the guests of Regent John E. Budd of the State University on a hunting trip in the tule country along the San Joaquin. The party left Stockton in a houseboat in tow of Governor Budd's launch Hazel.

#### Bounty on Coyote Scalps.

The board of supervisors of Merced county have passed an ordinance giving a bounty of \$2.50 on each coyote scalp. The coyote must be killed in the county, and the person presenting the scalp for registration must make oath to that effect.

#### The Game Law.

The open season for shooting quail, doves, deer and wild duck as fixed by the State law is as follows: Doves, 15th July to 15th February. Mountain quail and grouse, 1st September to 15th February. Valley quail, wild duck and rail, 1st October to 1st March. Male deer, 15th July to 15th October.

The clerks of all the Boards of Supervisors have advised us that no changes have been made this year, but the ordinances passed last year hold good if they do not conflict with the State law. The following counties have not passed any ordinances that alter the open season as provided by State law: Amador, Butte, Inyo, Modoc, Mono, Mendocino, Mariposa, Nevada, Napa, Plumas, San Bernardino, San Diego, San Joaquin, Santa Clara, Sacramento, Solano, Sonoma, Santa Cruz, Siskiyou, Tehama, Yolo and Yuba.

The changes are as follows: Alpine—Deer, Sept. 2 to Oct. 15. Alameda—Rail, Oct. 15 to Feb. 15. Colusa—Deer, Aug. 15 to Oct. 15. Calaveras—Deer, Sept. 1 to Oct. 15. Contra Costa—Deer, July 20 to Sept. 2. (Use of dogs prohibited). El Dorado—Doves, July 20 to Feb. 1. Fresno—Market hunting and shipping game out of the county prohibited.

Humboldt—Grouse and Wilson snipe, Sept. 1 to Feb. 15. Killing of waterfowl prohibited between one-half hour after sunset and one-half hour before sunrise.

Kern—Shipping game out of the county prohibited. Lake—Deer, Aug. 1 to Oct. 1.

Los Angeles—Shipping game to markets outside of the county prohibited.

Marin—Deer, July 15 to Sept. 15. Madera—Market hunting prohibited.

Monterey—Deer, July 15th to Sept. 1st. Orange—Doves, Aug. 1 to Feb. 1. Deer, Aug. 15 to Oct. 1. (Market hunting prohibited).

Riverside—Shipping game out of the county prohibited. San Benito—Deer, Aug. 1 to Sept. 15. (Market hunting prohibited).

Santa Barbara—Deer, Aug. 1 to Sept. 14. Use of hounds prohibited. (Market hunting prohibited).

San Diego—Shipping quail out of the county prohibited. San Luis Obispo—Deer, July 15 to Sept. 1. Doves, July 15 to Dec. 1. (Use of hounds prohibited. Hunting for markets situated outside of the county prohibited).

San Mateo—Deer, July 15 to Sept. 1. (Use of dogs prohibited). Rail, Oct. 15 to Nov. 15. (Shooting from boat at high tide prohibited).

Shasta—Deer, July 15 to Sept. 1. Sierra—Deer, Sept. 1 to Oct. 15.

Sutter—Deer, Sept. 1 to Oct. 15. Doves, July 15 to Jan. 1. Trinity—Deer, Sept. 1 to Oct. 15.

Tulare—Deer, Sept. 1 to Oct. 15. Shipping game out of the county prohibited.

Ventura—Deer, July 15 to Sept. 1. (Market hunting prohibited).

#### CARTRIDGE AND SHELL.

Chas. Precht bagged nine English snipe at Schellville last Sunday.

H. B. Hosmer made the Byron district contribute seven-teen fine mallards last Sunday.

The rain at Point Reyes on Saturday last spoiled the quail shooting for a number of hunters.

Summerfield and Judd were at Ignacio on Sunday; they bagged eighteen fine canvasback.

S. F. Hughes and A. King bagged thirty-seven quail in the vicinity of Point Reyes on Sunday.

To-day, to-morrow and Monday will give a number of sportsmen a good chance to get away for a shoot.

M. J. Geary hunted for ducks on the marsh at Point Reyes last Sunday and bagged a few widgeon and mallard.

H. H. White shot on the Olympic Club grounds last Sunday. His bag counted thirty-five teal and widgeon.

B. Schindel and R. Wenzel made a combined bag of twenty-five teal and spoonys last Sunday at Mowrys.

Tom McDonald and Tom Sharkey made a bag of one hundred ducks at Suisun last week in three days' shooting.

The majority of the sportsmen at Point Reyes last Sunday had fairly good sport. The weather was clear but cold.

Frank Dolliver at Point Reyes on Saturday and Sunday last made a bag consisting of forty-four sprig, widgeon and spoonbills.

C. Z. Hebert, of Salinas, secured a munificent bag of ducks and English snipe around the lagoon near Castroville one day last week.

English snipe are quite plentiful in the marsh lands in Scotts Valley, near Santa Cruz. Local gunners are making good "bags" daily.

Col. Barrett, of New York, and Alexander Gunn, Esq., were elected honorary members of the Black Jack Gun Club last Wednesday evening.

W. S. Kittle and C. Rudolph shot over the Country Club grounds Saturday and Sunday. The combined bag was thirty-eight duck and sixty quail.

Al Newman and Mike Malloy were with the hunters at Alvarado last Sunday. They bagged a few spoonys and cans. The shooting in this district was "off" during the day.

The match between Henry Stelling, of Davisville, and M. O. Feudner is still on the list of coming events. Nothing definite up to date has been heard in answer to Feudner's suggestions.

Thomas Burland and Hans C. Lanritzen, two typos, were arrested in Salinas recently, on complaint of Dr. D. G. McLean, who charged them with "pursuing and hunting" a Mongolian pheasant.

W. Murdock and Clarence Nauman made a combined bag of fifty birds on Saturday and Sunday last. They hunted in the vicinity of Reclamation. Saturday's shooting was not good owing to the rain.

T. H. B. Varney, W. A. Thomas, H. B. Varney, and John Conway had a successful quail hunt along the Arroyo Valley last week. In two hours time they bagged fifty-three birds and six fat brush rabbits.

Alvarado was visited by the regular contingent of the Lincoln Gun Club last Sunday. Though the boys did fairly, they had to work hard for their birds. Shaw had fifteen, Swan thirteen, Carlsen seventeen, Klevesahl ten, Ostrander sixteen.

R. S. Brown, the crack wing-shot of Petaluma, bagged 100 ducks on the Petaluma Gun Club's grounds last Sunday. Quite a number of fine "cans" were in the count, the rest were principally mallard and teal, all in fine condition. Bob's arrival in Petaluma after a hunt is always anticipated by that particular class of friends who know where and how to get plenty of good game without shooting it themselves.

The Tacoma Rifle, Rod and Gun Club have elected the following officers for the ensuing year: President, E. A. Kimball; Vice-president, H. T. Denham; Secretary, R. L. Pierce; Trustees, Jos. L. Carmen, Dr. T. F. Smith and A. H. Nelson. The club grounds will be greatly improved during the coming season. A series of interesting tournaments are being arranged.

Jim Maynard and Dr. E. N. Ayers sculled in the Suisun sloughs last Sunday. The combined bag was seventy teal, mallard, "cans" and gray duck. There was about forty-five guns on the Suisun Club, teal and Cordelia grounds and outside. This tended to keep the birds flying fairly well, but the weather was somewhat against making the bags they calculated on in the shooting district they were in.

Capt. J. L. Waller seems to be wedded to this part of the country and is a weekly visitor to the Suisun hunting grounds. He was here a week ago and secured thirty-five ducks and on Wednesday of this week he again made his appearance, in company with Chief Sattler, who has charge of the county jail in San Francisco, and the two sportsmen secured a bag of seventy ducks at Peyton ponds. Capt. Waller will form a company in the city for the purpose of leasing a suitable hunting place in the vicinity and the ardent hunter will spend much of his time here next season.—Solano Republican.

## ROD.

#### Coming Events.

Feb. 8.—Regular semi-monthly meeting of the San Francisco Fly Casting Club. Office of State Fish Commission, Flood Building, San Francisco.

#### NOTICE TO ANGLERS.

Every angler is invited to drop us a line occasionally, telling us o the condition of the streams they have visited and the killing lure of the number and size of the fish caught, or any other item o interest to anglers.

#### Russian River Notes.

The steelhead fishing on Saturday and Sunday last, in the river, afforded quite a deal of sport to a number of well-known anglers, among them were, Walter D. Mansfield, Jno. Seibe, Fish Commissioner A. T. Vogelsang, Capt. Geo. Cummings, Jno. Gallagher, Esq., H. F. Emeric, Al Wilson and Chief Deputy Fish Commissioner J. P. Babcock. The catches were fair with but one or two exceptions. Mr. Vogelsang landed a fine buck salmon, weighing eighteen pounds that was a remarkably beautiful specimen.

A special train was advertised to take up anglers last Saturday evening. The weather being very inclement that day, the railroad management magnanimously advised intending passengers that it was very probable the fishing in the river had been spoiled for the following day. The train left, but without more than one or two passengers whose destination was for intermediate points. A number of gentlemen at the river were enabled, however, on its return next day to reach the city sooner and more conveniently than by the regular Monday morning train. Messrs. Stetson and Latham are surely deserving the good opinions, to say the least, of sportsmen who are accustomed to go up to Point Reyes and Russian River.

The following incident took place recently at Duncan's Mills, there was quite a party of city anglers on the river fishing for steelhead at the time. Two of the fishermen, when through with the sport for the day, rowed their boats to the shore and then took their tackle and the fish caught up to the hotel. The catch being rather large, it was necessary to make several trips to carry all of the fish to the house. On the last trip but one there was left in one boat six fine large steelhead and in the other boat one. When the boats were visited again for the purpose of getting the remaining fish, lo! and behold, six of them had been taken by an unauthorized party or parties. The owner of the fish readily understood the situation. He told his companion of the day of his loss, but outside of this disclosure the matter was not discussed, and for the time being was a state secret. Shortly afterwards a well known individual came in their presence and very candidly volunteered the information, that he "didn't take \_\_\_\_\_'s fish, and didn't know nothing about 'em." The query naturally arises, how did he get his peculiar information? Probably he may write a letter explaining the situation.

The two men arrested at Duncan's Mills on the 2d inst. for illegal fishing were brought before a Justice of the Peace at Santa Rosa last week. On motion of the prosecution the case was postponed until to-day. The defendants have strenuously claimed that they were within the proper observance of the law. This assertion has not been backed up by a demand for the net seized.

Wednesday morning J. E. Hall, John P. Overton, J. A. Dunn and Deputy Collector of Internal Revenue T. S. Dunn started on a fishing trip to J. E. Hall's coast ranch. The gentlemen expect to have a great deal of sport.—Santa Rosa Press.

Al Smith caught three three pound steelheads in the "big rock hole" at Point Reyes last Sunday. They were very fine specimens of the fish.

"Andy" was fishing at Point Reyes Saturday and Sunday last. He landed four large hookbills and a fine steelhead.

Geo. Walker landed an elegant nine pound steelhead Sunday at Point Reyes. M. J. Geary tried his rod on Saturday.

### San Jose Race Track

TROTTING TRACK PICNIC GROUNDS RUNNING TRACK

The beautiful, convenient and popular grounds known as AGRICULTURAL PARK, San Jose, has been leased by

O. F. BUNCH and A. HABLES,

Who are putting the same in suitable condition for the accommodation of picnics and other attractions. The attention of horsemen is called to the fact that both the trotting and running tracks will be kept in first-class order. The numerous box stalls are roomy and well ventilated. The San Jose Race Track must soon become a popular resort for horsemen, if good treatment, moderate charges and first-class accommodations are appreciated. Address,

C. F. BUNCH, Agricultural Park San Jose.

The Handsome Three-year-old Chestnut stallion

DIAWOOD 27,772,

RECORD (2) 2:21 1-2.

WILL MAKE THE SEASON OF 1898 AT

SACRAMENTO.

Sired by DIABLO, 2:09 1-4; dam ABBIE WOODNUT, 2:36 (dam of Abeline, 3, 2:24 1-2, and Diawood, 2, 2:21 1-2), by WOODNUT, 2:16 1-4.

DIAWOOD carries the blood of four great American sires, viz: Alcantara, 2:24, sire of the dams of Heir-at-Law, 2:05 3/4, and Diabolo, 2:09 1/4. Electioneer, sire of Arion, 2:07 3/4; Sunol, 2:0 3/4, and Palo Alto, 2:08 3/4. Steinway, 2:24, sire of W. Wood, 2:07; Agitato, 2:09, and Cricket 2:10. Nutwood, 2:18 3/4, sire of Manager, 2:06 3/4; Lockhart, 2:08, dam of Arion, 2:07 3/4. Of the great producing dams, Miss Russell (10 descendants in 2:10 list). Alma Mater (dam of Alcione, sire of 3 in 2:10). Addie (grandam of Arion, 2:07 3/4). Green Mountain Maid (14 descendants in 2:10 list) and others.

ABBIE WOODNUT, the dam of DIAWOOD, is also the dam of Abeline (3), 2:24 1/4, her only colts by different sires. Abbie Woodnut was sired by the game race horse, Woodnut, 2:16 3/4, sire of Baywood, 2:10 3/4.

Second dam, PHYLLIS, by thoroughbred imp. Admirable.

Third dam, DAPHNE, by Hambletonian 725, sire of dam of Azote, 2:04 3/4.

Fourth dam, PHEBE CARY (grandam of Honesty), by Chieftain 721.

Fifth dam, DODGE MARE, by Jim Crow, thoroughbred.

DIAWOOD is 15 1/2 hands high and weighs 1,000 pounds. Thirty mares are wanted to book to him at \$25, payable at time of service. Mares not proving in foal may be returned next year. Good green alfalfa pasturage at \$3 per month. Address,

O. J. HOLMES,

Manager Training Stables,

2022 H. Street — Sacramento, Cal.

TELEPHONE MAIN 5176

# ZOMBRO, 2:11, THE GREATEST TROTTER IN AMERICA,

Address,

Has trotted 40 heats as a three-year old bat e than 2:27 1-2, 31 in 2:20 or better, and 12 in 2:15 or better. Won 13 races out of 17 starts as a three-year-old, and a total of \$5,400 in his three-year-old form.

ZOMBRO, 2:11 (Registered No. 28,029), brown stallion, foaled in 1892, stands 16 hands high, and weighs 1,300 pounds, and is one of the most perfect formed horses in America. His career on the turf in 1895 stamps him as one of the greatest three-year-olds the world has ever seen.

ZOMBRO, 2:11, sired by McKinney, 2:11½, son of Alecy-one, by George Wilkes.

ZOMBRO, 2:11, first dam Whisper, by Almont Lightning, son of Almont 33, dam by Mambrino Pilot 29.

ZOMBRO, 2:11, second dam May Berry, by Kentucky Clay 194, whose dam is also the dam of Mambrino Patchen and Lady Thorne, 2:18¾.

ZOMBRO, 2:11, third dam by Edwin Forest 49.

Whisper, the dam of Zombro, was bred and raised by Gen. W. T. Withers, of Lexington, Ky., and is a handsome brown mare, 16 hands high, weighing 1,150 pounds. She has never been beaten in the show ring, always carrying off first prize.

ZOMBRO, 2:11, won the first prize over all three-year-old stallions at the Horse Show in San Francisco in 1895.

This grand stallion will make the SEASON of 1898 at SACRAMENTO RACE TRACK, from FEBRUARY 1st to JULY 1st, 1898. Terms, \$50 cash at the time of service, with usual return privileges.

GEO. T. BECKERS.

## BREEDERS' DIRECTORY.

VERBA BUKNA JERSEYS—The best A. J. O. C. registered prize herd is owned by HENRY PIERCE, San Francisco. Animals for sale.

## SKY POINTER

Allowed to be the handsomest son BROWN HALL has ever sired; dam SWEEPSTAKES, the greatest broodmare in the world. Full brother to STAR POINTER, 1:50¾. Will stand this coming season at the stable of L. J. H. Hastings, owner, near race track gate, Los Angeles. Terms \$50. A. A. Cleveland, Manager. Address, 827 Figueroa Street, Los Angeles.

## TO LEASE.

Several promising thoroughbreds, two and three year-olds, to responsible person. For further particulars, address "L. C. F." this office.

## LATONIA JOCKEY CLUB

RACING DEPARTMENT OF THE LATONIA AGRICULTURAL AND STOCK ASSOCIATION  
(Incorporated)

Announce the Following Stakes for the Spring and Fall Meetings, 1898, and Fixed Events for the Spring Meeting, 1899

### SPRING MEETING, 1898. STAKES TO CLOSE FEB. 1, 1898.

**THE CLIPSETTA STAKES.**—For fillies two years old. \$5 to accompany the nomination; \$45 additional to start; \$700 added, of which \$100 to the second and \$50 to the third. Winners of a sweepstake of the value of \$900 to carry 3 pounds; of two of any value, 5 pounds; of three or more of any value, 7 pounds extra. Non-winners of a sweepstake allowed 3 pounds, and if such have not won three races, 5 pounds; two races, 8 pounds; maidens, if never placed in a sweepstake, 12 pounds. **Five furlongs.**

**THE HAROLD STAKES.**—For colts two years old. \$5 to accompany the nomination; \$45 additional to start; \$700 added, of which \$100 to the second and \$50 to the third. Winners of a sweepstake of the value of \$900 to carry 3 pounds; of two of any value, 5 pounds; of three or more of any value, 7 pounds extra. Non-winners of a sweepstake allowed 3 pounds, and if such have not won three races, 5 pounds; two races, 8 pounds; maidens, if never placed in a sweepstake, 12 pounds. **Five furlongs.**

**THE SENSATION STAKES.**—For two-year-olds. \$10 to accompany the nomination; \$90 additional to start; \$1,000 added, of which \$200 to the second and \$100 to the third. Winners of a sweepstake of the value of \$900 to carry 3 pounds; of two of any value, 5 pounds; of three or more of any value, 7 pounds extra. Those not having won a sweepstake allowed 3 pounds, and if such have not won three races, 5 pounds; two races, 8 pounds; maidens, if never placed in a sweepstake, 12 pounds. **Six furlongs.**

**THE LOVINGTON SPRING STAKES.**—A selling sweepstake for two-year-olds. \$5 to accompany the nomination; \$45 additional to start; \$600 added, of which \$100 to the second and \$50 to the third. Those entered for \$2,500 to carry weight for age. Allowance: 1 pound for each \$200 to \$1,500; 1 pound for each \$100 to \$500; 2 pounds for each \$100 to \$100. Starters to be named with selling price through the entry box the evening preceding the race. **Five and a half furlongs.**

**THE RIPLE STAKES.**—For three-year-olds that have never won a sweepstake or three races of any value. \$5 to accompany the nomination; \$45 additional to start; \$700 added, of which \$100 to the second and \$50 to the third. 5 pounds below the scale. Winners of a race of the value of \$700 after the closing of this stake to carry 5 pounds extra; of two such or one of \$1,500, 8 pounds extra. Others that have not won three races since the closing of this stake allowed 3 pounds; two races, 6 pounds, and if beaten non-winners of the year, 8 pounds; maidens that have not been placed in a sweepstake this year, 12 pounds. **One mile.**

**THE LATONIA SPRING PRIZE.**—A handicap for three-year-olds. \$5 to accompany the nomination; \$50 additional to start; \$1,200 added, of which \$125 to the second and \$75 to the third. Weights to be announced three days prior to the race. Winners after publication of weights to carry 5 pounds extra. **One mile and an eighth.**

**THE TOBACCO STAKES.**—A selling sweepstake for three-year-olds and upward. \$5 to accompany the nomination; \$45 additional to start; \$700 added, of which \$100 to the second and \$50 to the third. Those entered for \$3,000 to carry weight for age. Allowances: 1 pound for each \$200 to \$2,000; 1 pound for each \$100 to \$800; 2 pounds for each \$100 to \$400. Starter to be named with selling price through the entry box the evening before the race at the usual time of closing. **One mile.**

**THE MILDALE STAKES.**—For three-year-olds and upward. \$5 to accompany the nomination; \$45 additional to start; \$700 added, of which \$100 to the second and \$50 to the third. Winners of a sweepstake of the value of \$900 and winners since May 1st of three races of any value to carry 5 pounds extra. Allowances: Other horses that have not won on this year a race of \$700, 5 pounds; and if such have not won two races this year, 8 pounds; if beaten non-winners of the year, 10 pounds. Selling purses not to be considered in estimating penalties and allowances. **Six furlongs.**

**THE NATIONAL HANDICAP.**—For three-year-olds and upward. \$10 to accompany the nomination; \$90 additional to start; \$1,500 added, of which \$200 to the second and \$100 to the third. Weights to appear three days prior to the race. Winners after the publication of weights to carry 5 pounds extra. **One mile and an eighth.**

**THE CINCINNATI HOTEL HANDICAP.**—For three-year-olds and upward. \$5 to accompany the nomination; \$50 additional to start; \$1,200 added, of which \$125 to the second and \$75 to the third. Weights to appear three days prior to the race. Winners after the publication of weights to carry 5 pounds extra. **One mile and a sixteenth.**

### FALL MEETING, 1898. STAKES TO CLOSE FEB. 1, 1898.

**THE KIMBALL STAKES.**—For colts two years old. \$5 to accompany the nomination; \$45 additional to start; \$700 added, of which \$100 to the second and \$50 to the third. Winners of a sweepstake of the value of \$1,000 to carry 3 pounds; of one of \$2,000 or two of any value, 5 pounds; of three of any value, 7 pounds extra. Those not having won a sweepstake allowed 5 pounds, and if such have not won three races since July 1st, 8 pounds; maidens that have not been placed in a sweepstake, 12 pounds. **Six furlongs.**

**THE ZOO ZOO STAKES.**—For fillies two years old. \$5 to accompany the nomination; \$45 additional to start; \$700 added, of which \$100 to the second and \$50 to the third. Winners of a sweepstake of the value of \$1,000 to carry 3 pounds; of two of any value, 5 pounds; of three of any value, 7 pounds extra. Non-winners of \$1,000 to carry 3 pounds; of two of any value, 5 pounds; of three of any value, 7 pounds extra. **One mile.**

a sweepstake allowed 5 pounds, and if such have not won four races, 8 pounds; maidens, if never placed in a sweepstake, 12 pounds. **Six furlongs.**

**THE KENTU KY CENTRAL STAKES.**—For two years old. \$5 to accompany the nomination; \$45 additional to start; \$700 added, of which \$100 to the second and \$50 to the third. Winners of a sweepstake of the value of \$1,000 to carry 3 pounds; of two of any value, 5 pounds; of three of any value, 7 pounds extra. Non-winners of a sweepstake allowed 5 pounds, and if such have not won three races since July 1st, 8 pounds; maidens 10 pounds, if beaten and not having been placed in a sweepstake at the meeting, 15 pounds. **One mile.**

### FIXED EVENTS—SPRING MEETING, 1899. STAKES TO CLOSE FEB. 1, 1898.

**THE LATONIA DERBY.**—For three-year-olds (foals of 1896) at \$100 each, \$50 forfeit, \$15 if declared on or before August 1, 1898. \$30 if declared on or before April 1, 1899 (money to accompany declarations or they will not be accepted); \$2,500 added, of which \$400 to the second and \$100 to the third. Winners of a sweepstake in 1898 of the value of \$1,500, 3 pounds; of two such or one of \$3,000, 5 pounds extra. Non-winners of a sweepstake in 1899 allowed 5 pounds, and if not placed in a sweepstake, 8 pounds; maidens, 12 pounds. **One mile and a half.**

**THE HIMYAR STAKES.**—For three-year-olds (foals of 1896) at \$100 each, \$50 forfeit, \$10 if declared on or before August 1, 1898. \$20 if declared on or before April 1, 1899 (money to accompany declarations or they will not be accepted); \$1,500 added, of which \$300 to the second and \$100 to the third. Winners of a sweepstake in 1899

of the value of \$1,500 to carry 3 pounds; of two of any value or one of \$2,500, 5 pounds extra. Those who have not won a sweepstake in 1899 allowed 7 pounds, and if beaten and unplaced in a sweepstake 10 pounds; maidens 15 pounds. **One mile and an eighth.**

**THE LATONIA OAKS.**—For fillies three years old (foals of 1896) at \$100 each, \$50 forfeit, \$10 if declared on or before August 1, 1898. \$20 if declared on or before April 1, 1899 (declarations to be accompanied by money or they will not be accepted); \$1,250 added, of which \$250 to the second and \$100 to the third. Winners of a sweepstake in 1899 of the value of \$2,000, and winners of two sweepstakes in that year of any value to carry 5 pounds extra. Those not having won a sweepstake in 1899 allowed 5 pounds, and if not placed in a sweepstake 8 pounds; maidens 12 pounds. **One mile and a quarter.**

## JUBILEE YEAR FOR HORSEMEN.

### Great Preparation for Light Harness Racing in California Commenced—Many New Ideas to Be Introduced.

There is just cause for rejoicing in the ranks of all interested in light harness horses, for a new era is about to dawn, a new beacon light has been lit, where all can see that the darkness and despair are vanishing before its rays. The old-time, track-worn methods have been laid aside and a new system is to be inaugurated at the next meeting of the Pacific Coast Trotting Horse Breeders Association, which will revolutionize that portion of the industry known as "racing" and "developing" trotters and pacers, and add new zest to the sport. We have advocated it for weeks in the columns of the BREEDER AND SPORTSMAN for we believe, and so does everyone who has studied the subject, that it is feasible and up-to-date in every particular. We must attract the public to witness racing contests. This determination on the part of the jockey clubs has made thoroughbred racing so popular, and as nothing succeeds like success, we should try and follow the same system which everyone admits has made that branch of the sport profitable. It is all very well to say "we like to see three in five contests," but, can we induce the majority of the people who expect a quick return for their money to agree with us? It is out of the question. This is a progressive age and we must keep up with the procession. With this knowledge about successful racing being brought so forcibly to our notice every day, it is with feelings of pride and gratification we announce the fact that at the meeting of the Board of Directors of the P. C. T. H. B. Association last Tuesday that feeling of enthusiasm and determination we have alluded to in the past was in evidence all the time. There was such an unanimity among the members to do everything to promote an interest in the minds of the public, and encourage the breeders of horses that every motion was carefully considered and adopted and the result of this decision of the board will be manifest throughout the United States.

In the first place, we will give a meeting in Oakland of from three to four weeks duration, beginning about June 18th. We will give four dash races and one two-in-three race every afternoon. There will be races given for all classes of trotters and pacers from 2:10 to 3:00, viz: 2:10, 2:12, 2:14, 2:16, 2:18, 2:20, etc., all the way to 3:00. There will be dashes of a mile, mile and a half and two miles. The payment as now proposed is \$5 for nominating and \$20 to start. The

purses will be at least \$300, guaranteed by the association. We might with propriety call them stakes. Pools will be sold by bookmakers, and no doubt many of the pencilers will "cut in."

There must be a paid starter and judges. The dates of closing will be selected hereafter, and any one who has a horse that can trot or pace will have an opportunity of making money with him. The distance flag may be moved forward, and as every heat is a race there can be no such thing as "laying up heats," for the very first man caught jockeying will be "set down for life." There are plenty of good men who are willing to win money honestly without joining the ranks of the jobbers. A man with a stable of good horses can make more money at a meeting like this than he ever

for, Thomas H. Williams, Jr., President of the California Jockey Club, has kindly tendered the use of the beautiful racetrack at Oakland to the Pacific Coast Trotting Horse Breeder's Association for three or more weeks, they feel that half the battle is won, and all they ask is the aid of every owner, breeder, and trainer who has a trotter or pacer. Now is the time to get ready, for there will not only be money made at the race meetings, but this fall there will be more buyers of good horses than we have seen in the last ten years, and prices will be high—far higher than anyone dreams of at present.

We should cast dull care aside, stop brooding over the past, forget the money we have lost, and make a strong effort this year to go ahead.

There's a brilliant future for every breeder and owner of a light harness horse in America and just as soon as prices increase we shall see many whose love for the horse is undiminished, buying horses and getting ready to recover the losses they sustained in the past though their lack of judgment and a too earnest desire to buy every horse with a pedigree they could find.

There seems to be a more hopeful feeling pervading light harness horse circles than has been noticed during the past three years. As horses have become scarcer values have taken an upward jump. The whole civilized world has been attracted to the trotting horse of America and the demand is increasing every day.

### Col. Clark's Sensible Ideas.

Col. M. Lewis Clark, who is in New York, talked most wisely of the western racing situation in a recent issue of the Daily Telegraph. Here is Col. Clark's idea, in words:

"Racing affairs in the west,"

said he, "as everyone knows, have not been in a flourishing condition for several years, although the season at Chicago last year was remarkably good and healthful, all things considered. The troubles of Chicago in a racing way are matters of history and they are rapidly being forgotten in the new and successful era which last season's racing gave promise of. There was friction and misunderstanding, which I do not care to discuss, and while it left our field fallow for a time, it has but served to show how strong a hold the sport has on the Chicago people.

"I have been especially interested in the Chicago end of the business for some time, and I believe that no city in the country takes such a thorough and genuine interest in racing as does Chicago. It seems to me that the whole Chicago public likes racing, likes to go and likes to bet on the horses, and nowhere outside of England have I seen so much general interest in the sport. You know the Chicago people do things on a big scale when they do them; they are democratic

## FANADMA, 2:19 1-2.

ONE OF THE GEMS OF THURSDAY'S AUCTION SALE.

could; besides, he saves the expense of shipping his horses from one place to another. When one of them trots or paces out of his class he can start in a faster one, and those who did not win are provided a place where they can do so. The moneys being divided into three parts it does not take a "lightning calculator" to compute how much a horse will earn in one year in the circuit where these kind of races are given.

The use of hobbles for 1898 has not been restricted but in 1899 they will not be allowed on any track. It would not be just to pass an ironclad law against them to go into effect at once, for many men bought horses with the idea of racing them this year knowing it was impossible for these pacers or trotters to go fast without them.

The committee on speed programmes consisting of Messrs. Covey, Kirkpatrick, and Layng, will have considerable work to get a programme that will suit, but, as that prince among men and lifelong friend of the trotting horse of Cali-

live, and want what they want, and will come pretty near getting it, if it is reasonable, healthy and above board. I must say that I consider Chicago people better supporters of racing than those of New York or any other city.

"Even last year, when we had no big stakes by reason of our inability to provide for them under the laws we had in Illinois, the hundred day's racing was a big success. We had five to six thousand people daily, and running from this to ten thousand on special days. With the favorable legislation which we expect, Washington Park, Harle and Hawthorne will probably divide up the racing season in an impartial way as to dates, and the old stakes be revived. This should give an impetus to the sport, and make the season a grand one. All our tracks are easy of access, too, which undoubtedly has much to do with the attendance.

"With regard to a reduction in the price of admission, I do not favor the plan, as I believe it cheapens racing in a way, and if made a feature is liable to attract an undesirable element to its ultimate detriment. Those people who are really interested in the sport will pay a dollar, or a dollar and a half, as quick as they will pay fifty cents. They would really prefer to keep up a standard of excellence rather than see any deterioration. Of course, the sport is for the public, and they are first to be considered, as I have always strongly stood out for. But I can see no good in making the public cheap, so to speak.

"Western racing is, of course, different from that of the East, but mainly in the details of speculation. I have always believed in the idea of ruling with an iron hand in the judges' stand, irrespective of persons, and I have carried out this principle in the twenty five years that I have acted as judge. I do not believe in a racing judge leaving the stand, and I do not like my associate judges to do so. The public looks upon a judge as its safeguard and friend against many things that are possible on a race-track, and likes to see the judge in his place of business. I have records of betting and everything for the control of the track right at my side. Many tracks have abolished the wire across the track and the hanging of purses, but I find the wire a most important thing in judging a close race. You don't shoot at squirrels without taking a sight, do you! Well, the wire from board to board is your 'sight' in judging a race, and the judges' stand should always be fifteen feet away from the rail.

"I am more and more interested in racing as I grow older, and hope to see a lot of it yet. Mr. August Belmont, Sr., Mr. Withers and Mr. Jerome, who were all my friends, have gone, and I find myself growing more conservative as time passes, but the most important thing to keep in view for the success of the turf, I still believe, as I have always, is the welfare of the public, which loves the sport and supports it."

"The other Western tracks, I believe, are in good condition, although I have only been closely allied with Chicago racing of late years. The dates for the Louisville circuit have been announced, I see, making a total of seventy-four days. Lexington will have a short meeting undoubtedly, as usual. I will be at Memphis for the Spring meeting, going from there to Louisville and then to Chicago for the balance of the season. Little Rock will have a Spring meeting and may clash with Nashville and Memphis, but not, I think, to any great degree.

"I am not here representing the Turf Congress with regard to any lines of reciprocal relations, but I hope to have a talk with Mr. Belmont and other members of the Jockey Club in a general way on the subject. I do not think there is any need for misunderstandings or quarrels between the two bodies, although a conference might bring about a little more harmonious working of affairs. This will be accomplished, doubtless. This is a big country of liberal and broad-minded people, and the turf is too much a part of the whole to become infected with any spirit of narrowness and bigotry. As you know, I was instrumental in the founding of the Western Turf Congress, and I believe thoroughly in its ability to carry out its intentions."

### Oakland Races.

WEDNESDAY, JANUARY 19.

First race, five and a half furlongs, selling, three-year-olds and upward, purse \$300. Alumnium (H. Martin, 105), first, easily by three-quarters of a length; Brambilla (Gray, 99), second, by two lengths; Blue Bell (Jones, 122), third. Third race, three furlongs, two-year-olds, purse \$350. Buena Ventura (Conley, 110), first, easily by four lengths; Bonibel (Clawson, 101), second, by four lengths; Clarado (McHugh, 110), third; Ruchored, The Miller, Magdalene, Also Ran, Malay, Ralier, Prince Will, La Condiss and Lomatus finished in the order named. Time, 1:37.

Fourth race, six and a half furlongs, all ages, the Acme Club Handicap, purse \$1000. Walter Joe (Tuberville, 117), first, driving by a head; Mainstay (H. Martin, 108), second, by eight lengths; Casper (Thorpe, 115), third. Time, 1:24.

Fifth race, one mile, selling, four-year-olds and upward, purse \$400. Garland Barr (Conley, 107), first, easily by one and one-half lengths; Harry Thoburn (Clawson, 105), second, by twenty-five lengths; Soulie (Thorpe, 115) third. Newgatherer and Yankee Doodle finished as named. Time, 1:44.

Sixth race, five and a half furlongs, selling, three-year-olds and upward, purse \$300. Castake (Spencer, 101), first, driving by one-half length; Lo Lo (Jones, 115), second, by a head; Lucky Star (Thorpe, 113), third. Watombs, Chivalry, Good Friend, Kaiser Ludwig, Harry Gwynn and El Moro finished in the order named. Time, 1:41.

THURSDAY, JANUARY 20.

First race, seven furlongs, selling, four-year-olds and upward, purse \$300. Boboluk (Jones, 110), first, driving by five lengths; Una Que Amo (Conley, 105), second, by five lengths; Hacienda (McDonald, 105), third. Pollack, Greenleaf, Don Daniel, Rejected, Toby, James Porteus, Springfield, and Tartar finished in the order named. Mahogany fell. Time, 1:32.

Second race, six furlongs, maiden three-year-olds, purse \$350. Formella (Conley, 107), first, driving by a head; Flantes (E. Jones, 122), second, by six lengths; Glenover (Sivens, 109), third. Roulette Wheel, Lomont, Rosa, Entrata, Himer, Rose Maid, Sing Wing, and Racio finished in the order named. Time, 1:18.

Third race, six furlongs, three-year-olds, purse \$400. Dr. Sharp (Clawson, 107), first, driving by two lengths; Lord Marmon (Thorpe, 114), second, by five lengths; Duke of York II. (Hobart, 107), third. Prince Tyant, Muscalado and P. A. Finnegan finished in the order named. Time, 1:15.

Fourth race, one and three-eighths miles, selling, four-year-olds and upward, purse \$400. Collins (E. Jones, 103), first, driving by four lengths; Song and Dance (Spencer, 103), second, by seven lengths; Personne (Thorpe, 101), third. Red Glenn, Sir Duke, Wido S. Jones, Thelma and Charlie Riet finished in the order named. Time, 2:24.

Fifth race, one and one-half miles, selling, four-year-olds and upward, purse \$400. Hermanita (Conley, 104), first, driving by one and one-half lengths; Benamela (Spencer, 109), second, by one-half lengths; Palomaciti (Thorpe, 101), third; Heritage, Una Colorado and Veloz finished as named. Time, 1:50.

Sixth race, seven furlongs, selling, four-year-olds and upward, purse \$350. Coda (E. Jones, 105), first, driving by three lengths; Gallant (Conley, 107), second, by one-half length; Stentor (E. Brown, 108), third; Hawona, La Mascotta, Pescador, Pasha and Plummie finished in the order named. Time, 1:31.

FRIDAY, JANUARY 21.

First race, six furlongs, selling, three-year-olds and upward, purse \$300. Zamar II (Conley, 106), first, easily by two and one-half lengths; Caliente (H. Martin, 112), second, by a head; Official (Gray, 94), third. Diggs, R. Q. Bann, Mamie G., Al Koran and Towanda finished as named. Time, 1:15.

Second race, seven furlongs, selling, four-year-olds and upward, purse \$350. Judge Stouffer (Spencer, 103), first, easily by one and one-half

lengths; Ramsin (Conley, 104), second, by one and one-half lengths; Lost Girl (McNichols, 95), third. Aqueduct, Polack, Little St. Ger, Walter J. Sardou and Howard finished in the order named. Time, 1:28.

Third race, one mile, selling, four-year-olds and upward, purse \$400. Shasta Water (Thorpe, 101), first, easily by one length; Serena (Gray, 101), second, by three-quarters of a length; Fashion Plate (Clawson, 97), third. Double Quick, Lena Lorena II, and Mos gatherer finished in the order named. Time, 1:42.

Fourth race, one and one-sixteenth miles, four-year-olds and upward, purse \$500. Buck Massie (H. Martin, 114), first, easily by five lengths; Walter Joe (Tuberville, 117), second, by eight lengths; The Roman (W. Martin, 114), third. Tom Cromwell also ran. Time, 1:48.

Fifth race, one and a quarter miles, selling, four-year-olds and upward, purse \$400. Our Climate (Conley, 108), first, driving by two and one-half lengths; Rifaiba (Jones, 102), second, by a nose; Cromwell (Kelley, 109), third. Coupon III, Rudolph, Watons, Outgo, Fiorimet and Mulberry finished in the order named.

Sixth race, five and a half furlongs, three-year-olds and upward, purse \$350. May W. (Jones, 129), first, easily by one and one-half lengths; Tea Rose III (Clawson, 101), second, by seven lengths; I Don't Know (Thorpe, 107), third. Biarny Stone, Red Spinner, Hermosa and Foremost finished as named. Time, 1:57.

SATURDAY, JANUARY 22.

First race, six furlongs, three-year-olds, purse \$300. Abina (Spencer, 107), first, easily by three-quarters of a length; Prince Tyant (G. Sloan, 122), second, by three-quarters of a length; Chihuahua (Clawson, 104), third. Evocia, Ravette, Moringa, Mileston, P. A. Finnegan, Dr. Marks, Snipey, and La Maroma finished in the order named. Fallen Princess fell. Time, 1:15.

Second race, seven furlongs, selling, three-year-olds and upward, purse \$400. Koeniga (O'Connor, 100), first, driving by three-quarters of a length; Dolore (E. Jones, 102), second, by a neck; Lucky Star (McNichols, 92), third. Maxine, Roadwarrior, Gotoled, Little Singer, May R. Duke of York II, Capt. Rees, Li Hung Chang, Gallant, D. J. Tobin, Blue Bell, and Waboon finished in the order named. Time, 1:29.

Third race, three and a half furlongs, two-year-olds, purse \$350. Baner (Thorpe, 115), first, ridden out by two lengths; Magdalene (Mooney, 107), second, by six lengths; Clarado (T. McHugh, 110), third; Mala, Buena Ventura, La Lorena, Red Glenn, Ralier, Ruchored, The Miller, Magdalene (for Howard) and Distance finished in the order named. Time, 0:43.

Fourth race, one mile, three-year-olds, the Sheldum Handicap, purse \$1000. Eddie Jones (Thorpe, 118), first, easily by two lengths; Flantes (E. Jones, 102), second, by four and one-half lengths; Iatawana (H. Martin, 105), third. Time, 1:24.

Fifth race, six furlongs, all ages, the Berkeley High-weight Handicap, purse \$100. Colonel Dan (Thorpe, 110), first, driving by one-half length; Steppad (Clawson, 102), second, by one length; Rubicon (Conley, 140), third. Mainstay and Bellicose also ran. Time, 1:14.

Sixth race, seven furlongs, selling, three-year-olds and upward, purse \$400. Oaric II (Thorpe, 106), first, driving by one-half length; Sly (Clawson, 90), second, by a head; Imperious (J. Woods, 87), third. Lost Girl, Myra, Mercutio and Sea Spray finished as named. Pescador was left. Time, 1:28.

SUNDAY, JANUARY 23.

First race, seven furlongs, three-year-olds, purse \$350. Dr. Marks (H. Martin, 110), first, easily by two and one-half lengths; Glorian (Thorpe, 113), second, by eight lengths; Ruchored (Clawson, 118), third. The Dipper, Boy and Arrow, and Formella finished in the order named. Time, 1:24.

Second race, six furlongs, selling, four-year-olds and upward, purse \$350. O'Connell (W. Martin, 115), first, easily by three-quarters of a length; Zamar II (Thorpe, 106), second, by one length; Caliente (Clawson, 109), third. Lucky Dog, Midlight, and Una Que Amo finished as named. Time, 1:24.

Third race, one and one-eighths miles, four-year-olds and upward, purse \$500. The Roman (W. Martin, 108), first, driving by one-half length; Walter Joe (Tuberville, 114), second, by two lengths; Salsuma (E. Jones, 114), third. Time, 1:54.

Fourth race, one mile, three-year-olds, the Balboa Boulevard Stake, purse \$1000. Count of Flantes (Conley, 120), first, driving by one length; McNeill (W. Martin, 116), second, by a head; Myra (Clawson, 96), third. Highland Ball, Marplot, Colonel Dan and Biarny Stone finished in the order named. Time, 1:24.

Fifth race, one mile, selling, three-year-olds and upward, purse \$400. Hazard (Thorpe, 109), first, driving by a nose; George Lee (Clawson, 95), second, by three-quarters of a length; Benamela (H. Martin, 112), third. Imperious, Our Climate and Colonial Dame finished in the order named. Time, 1:24.

Sixth race, one and one-eighths miles, selling, four-year-olds and upward, purse \$350. Cromwell (H. Martin, 111), first, easily by seven lengths; Can't Dance (H. Martin, 110), second, by three and one-half lengths; Rifaiba (E. Jones, 108), third; Wanona, Fred Gardner, and Glad Eyes finished in the order named. Time, 1:56.

TUESDAY, JANUARY 25.

First race, three furlongs, two-year-olds, purse \$350. Also Ran (Harris, 103), first, easily by two lengths; Malay (Thorpe, 103), second, by two and one-half lengths; Prince Will (Gray, 101), third. Frank Ireland, Olinthus, Saindy, Sir Urian and Santello finished in the order named. Time, 0:34.

Second race, six furlongs, selling, four-year-olds and upward, purse \$350. Kam in (Thorpe, 114), first, easily by six lengths; Joe Ullmann (W. Martin, 111), second, by a neck; Meadow Lark (E. Jones, 107), third. Veragua, Red Glen, Stentor, Treacher, Charlemagne and The Gospel finished as named. Time, 1:17.

Third race, six furlongs, selling, four-year-olds and upward, purse \$350. Montalade (Conley, 107), first, easily by one-half length; Triumph (Spencer, 114), second, by six lengths; Major Cook (E. Jones, 114), third. Fig Leaf, Starling, Argonaut, Tim Murphy, and Peril followed in the order named. Time, 1:17.

Fourth race, one and one-sixteenth miles, selling, three-year-olds and upward, purse \$400. San Marco (Thorpe, 110), first, easily by two and one-half lengths; Myth (Clawson, 111), second, by one and one-half lengths; Imperious (Woods, 87), third. Yankee Doodle, Peter II, and Li Hung Chang finished as named. Time, 1:48.

Fifth race, six furlongs, four-year-olds and upward, purse \$50. Geyser (Thorpe, 106), first, easily by four lengths; Alvarado II (Clawson, 111), second, one and one-half lengths; Fortunae (Conley, 111), third; Charlene II, Rey del Tierra, Cardwell and Mc Nac finished in the order named. Time, 1:15.

Sixth race, one mile, four-year-olds and upward, purse \$400. Imp Tripping (Clawson, 105), first, driving by one-half length; Harry Thoburn (Clawson, 111), second, by two and one-half lengths; Cabrillo (Thorpe, 115), third; Honezoilers, King William, and Joe Terry finished in the order named. Time, 1:42.

### The Master Horseshoers.

The Master Horseshoers Association is now getting to be a solid, substantial fixture, and at last night's meeting the work of adopting a constitution and set of by-laws was commenced.

The objects of the organization, as stated in the preamble, are to "rescue our trade from the conditions into which it has fallen; to raise ourselves in society to which we, as mechanics, are justly entitled; to place ourselves on a foundation sufficiently strong to secure us from further encroachment, and to elevate our industry in the city and county of San Francisco. To the consummation of such desirable objects we do pledge ourselves to unceasing effort."

The by-laws provide that a candidate for membership must be a practical mechanic, of good moral character and a master horseshoer, and that any member who shall become a habitual drunkard or be guilty of any acts whereby he may be punished in a court of justice, or defraud any member of the association, shall be expelled.

The committee which has been quietly investigating the shop at the Presidio reported that the shoeing of horses for outside parties by government blacksmiths was still going on, and that when they sought an interview with the authorities they were refused an audience. An effort will be made to have this evil abated through other sources.

A committee was appointed to choose another hall for a meeting place, the present one being in many ways unsatisfactory, and when the new hall is secured meetings will be held bi-monthly, instead of weekly.

LORD CHESTERFIELD, the four-year-old half brother to Bonibel that captured the big end of the purse in the steeplechase Wednesday is the first of the get of imp. Chesterfield to win in America. He is in the stable of the veteran, Dan Dennison, and was ridden by Ed. Corrigan's rider, Huston Burns & Waterhouse first raced him. Lord Chesterfield, is a good-looking, and the best "green" jumper ever seen here, in all probability. He did not make a bobble, but went over the fence like a bird.

### THE HORSEMAN'S OPPORTUNITY.

A Chance to Get Horses to Win Money With This Year by Attending W. G. Layng & Co.'s Auction Sale.

There is nothing more certain than the fact that good, looking, sound and speedy trotters and pacers fit to drive on the road or the track are becoming very scarce. Within the past two weeks this office has been besieged with parties who are looking for horses that can lead on the track and road, and prices do not seem to be a matter of such moment as the question whether the animals sought after can be furnished. The fact that there is certain to be a revival in trotting and pacing interests this year, which is already demonstrated beyond the possibility of a doubt, has started a search for track material fit to take to the races. There is no over-supply of this material in California, and prices are lower to day than they will be again for many years to come. The horses to be sold at the combination sale at the Occidental Horse Exchange on Thursday next comprise about all the first-class horses that are for sale at the present time in California. If between now and the date of the sale the rain should come down generously, the demand for horses will be further increased, and those who attend the sale and secure any of the horses there offered can consider themselves very lucky persons.

The race horses in the list have been extensively noticed in these columns, and as the catalogues are now ready and can be had on application to this office we refer our readers to them for any further information they may require.

There are two very handsome teams to be offered at this sale. One is a handsome pair of bays by Electioneer that are very stylish and as nice drivers as can be seen in the city. They are in perfect order, not afraid of anything, and would grace any carriage in the land. They were bred at the celebrated Palo Alto farm and like all the stock bred there are good sized and good lookers.

There is but one other team in the sale, a pair of handsome chestnut mares by that game race horse, Chancellor, 2:16. They are sound and well-broken, compactly built and very stylish. Few road teams can be found in the State that will compare with this one.

Then there are a few very handsome and perfectly broken saddle horses that are perfect in every way and sold for no fault. Parties in need of roadsters or saddlers should not miss this sale on any account. Such an opportunity will not be offered again for some time. Remember the date, Thursday morning, February 3d, at 225 Tehama street.

### Racing in Illinois.

The racing bill before the two bodies of the Illinois Legislature has a chance to pass. It provides for 157 days racing and is a measure that adds to the revenue of the State. The taxation provisions of the bill are well built and its general terms sensible and correct. Should local troubles not bring about political division, the bill will pass. Should it become a law, Washington Park will open its gates in 1898 for, probably, its old term of twenty-five days. This will leave 132 days for the other Chicago courses. Hawthorne and Harlem would get ninety days under the law, leaving forty-two days for the three Indiana tracks at Lakeside, Sheffield and Forsyth. The Indiana tracks, by mere existence and past use, have become fixed items in the Chicago racing field. Monopoly in racing is not more healthy than in other lines. An agreement between all track owners seems probable under the terms of the measure—should it pass—on some such basis as this:

Washington Park	25 days
Hawthorne	45 days
Harlem	45 days
Lakeside	15 days
Sheffield	15 days
Forsyth	12 days

Total ..... 157 days

As a matter of revenue Illinois would probably get from \$30,000 to \$40,000 a year through the measure from the three Chicago race tracks alone and some \$150,000 from all the race tracks within its limits. The passage of the bill would give Chicago from five to eight millions of dollars worth of business which has gone to Cincinnati, St. Louis and the East for the past three years, and benefit the breeders of the State by nearly as large a sum. In addition it would aid the breeders and owners of American thoroughbreds by four or five times that amount. The business men of Chicago might well send to the members of the Illinois legislature their idea of what they have lost by the closing of Washington Park and the two other high-class race courses in Cook county. Such testimony would make the passage of Senator Fitzpatrick's measure a surety.—Daily Racing Form.

NEW YORK, January 26.—Jockey Tod Sloan will leave to-morrow for San Francisco. He will stop off at Cincinnati and St. Louis, and, in fact, wherever his fancy suggests. Sloan has a decided advantage over nearly all other jockeys, in this respect, that he puts on flesh while taking the world easy. Still, he is not one to abuse such a favor of nature and he will hop into the saddle out West at the first opportunity.

JOHN B. BRANNON, who was ruled off in 1891 by the officials of the Latonia Jockey Club for supposed complicity in the notorious Polk Badget case, was reinstated by that same club Thursday. Brannon was unjustly ruled off and his vindication has been unjustly delayed. There was never the slightest evidence connecting him with the ringing of Polk Badget except the circumstance that he, being then here in Chicago, had received a "tip" by telegraph from his brother telling him to put a bet on the horse, a suggestion that he thought so slightly of that he bet a very trivial sum and showed the telegram broadcast among his acquaintances so that they might avail themselves of its "information" if they so wished.—Daily Racing Form.

## JOSEPH CAIRN SIMPSON.

He attended a meeting which, to say the least, had many suspicious features, the drivers apparently having made combinations that the judges could not entirely overthrow. "In case I were giving a trotting meeting," he said, "before starting the first race the drivers would be summoned to appear in a body, and I would inform them that certain rules had been adopted for the government of the meeting. These rules may be wrong in your opinion; they are right in mine, and will be strictly enforced. Those who are not ready to be governed by the code adopted can avoid the penalties a breach of the rules will surely entail by taking your horses away, but those who participate can fully depend on all their just rights being duly protected, attempted wrongdoing as surely punished."

While disagreeing with a "rejuvenated oldtimer" and his letter of last week in many of the propositions he advances, an idea that is even worthy of consideration. He says: "I would have a form book kept by experts for the judges and board of stewards. When there was evidence of a horse

L. S. & W. P. THOMPSON head the list of winning owners in the East last year with a total of \$65,035, L'Alouette contributing \$42,390 of the sum, mainly through her capture of the Futurity.

## TURF AND TRACK.

## THE SULKY.

BUD DOBLE is again in America, but will return to Europe in the spring.

EVERY horse sale in the East shows an improvement over the prices of last year.

It is probable that Fantasy, 2:06, will be bred to Dare Devil, 2:09½ in the spring.

It is said that Charter Oak Park may open a \$20,000 stake for foals of 1898 to be trotted in 1901.

In 1897 at the East Buffalo horse market 37,544 horses were sold at auction on an average of \$92.50.

JOHN SPLAIN is authority for the statement that Alix 2:03½ looks as though she would stand training.

W. J. JAMS has sold Praytell, 2:09½, by Axtell, to Chas. D. Eckell of Cleveland, Ohio. The price paid was \$5,000.

It is reported that the owner of Don Cupid has a desire to match that horse against any trotting stallion for \$10,000.

No hoppers have been allowed on the Minneola (L. I.) track during the past two seasons, and the classes have filled well.

C. E. BARROWS says that he bred 85 mares to Del Norte in 1897, and that only 3 of the 85 had young colts by their side.

A rubber instead of a tan bark runway is one of the innovations that Allen Lowe has introduced in his new Boston sale mart.

THE Kentucky Trotting Horse Breeder's Association may add a piece of plate to the purse for the Kentucky Futurity for 1898.

BILLY HAMILTON, the clever center-fielder of the Boston ball team, is an admirer of the trotter, and owns quite a stable of good ones.

THE greatest speed sale ever held in California will be the one to take place at the Occidental Horse Exchange in this city February 3d.

A Kansas horseman says that seven years ago there were forty-five breeders of trotters in that State, while to-day he knows of but three.

JOHN A. SHULTS is having Town Lady 2:13½ and Lillian Wilkes 2:17½ worked to pole and expects them to take a shy at the team record.

THE probabilities are that there will be more and better meetings in California this year than any year since Jimbud tried to kill the district fairs.

ALCANTARA and Red Wilkes are the leading sires of 2:15 performers, each having 19. Onward ranks next, with 17, and Robert McGregor fourth, with 16. Three of the foregoing are sons of George Wilkes.

THE European record for trotting teams is held by the American horse Autrain 2:16½, and Chatsworth, 2:24, who trotted a fourth heat (of a mile and a furlong) at Milan, Italy November 18, in 2:43½, a 2:30 rate for the mile.

THE horseman in Kentucky will ask the Legislature of that State to pass a law which will require all horseholders to undergo an examination as to competency and take out a license before being allowed to work at their trade.

F. W. COVEY says the three-year-old colt Bentonica, who paced a trial in 2:06½, could pace a quarter in 28 seconds and an eighth in 13½ seconds. He is looked upon as a two-minute horse at Palo Alto and his price is \$20,000.

THE brown gelding, Split Wind, that most San Francisco road drivers know as one of the fast ones but few can pass, is to be sold at the big combination sale next Thursday. He is sound and all right, and a 2:20 clip is easy for him.

Athalie, dam of Athanio 2:10, by Harkaway 11808, dam Mag. pedigree unknown; is also the dam of Athadon with a yearling record of 2:27, and Athanix 2:20. She is the only mare that has produced a 2:10 trotter and a yearling in the 2:30 list.

WITH a three or four weeks meeting at Oakland to open the circuit, meetings will pay if properly managed by the district associations this year. Petaluma, Napa, Vallejo, Woodland, Chico, Willows, and other points should get in line early.

RAYANETTA, 2:27, by Anteeo, is one of the very best road horses in California. She is 16.1 hands high, a perfect picture and much faster than her record. She is among a lot of other good ones to be sold next Thursday at the Occidental Horse Exchange.

Well bred stallions with good looks are needed in several localities in California. There are quite a number to be offered at the Occidental Horse Exchange sale February 3d that can earn a goodly sum this year if located right and properly advertised.

THERE is a general wake up in the trotting business in California, and horses that are fit to go to the races and win in their class are already in demand. An opportunity to get some good ones will be offered at the Occidental sale next Thursday, February 3d.

FANADMA 2:19½, to be sold at the Occidental Horse Exchange sale next Thursday, will be a money winner in her class this year if properly handled. She would make an ideal roadster and would be a hard one for the fastest of them to try conclusions with.

CONTRA COSTA county will be in line again this year with a meeting over the Concord track. While they are not in the grand circuit, the Concord folks always have a good meeting and some good racing. Their purses average \$300 for the winter and spring events.

THE get of the famous brood mare Alma Mater, by Ambrino Patchem, have been sold at the following prices: Alcantara, \$11,500; Alcione, \$20,000; Elysia, \$4,000; Almeta, \$2,000; Allendorf, at 10 months old, \$1,500; Alleen, \$1,500; Arbiter, \$1,000, the total being \$41,500.

J. W. SHANNON is working some colts and young horses on the Albany track, and has some that are promising. One a two-year-old by Cœur d'Alene, dam Mary A. by Altamont. Another good one is a full sister to John A. Crawford. He also has one by Del Norte and one by Altago.

WITH proper management and display of the necessary amount of energy every town on the California circuit can give a race meeting this year that will lose no money, while the benefit to be derived to the local merchants and business men will amount to many hundreds of dollars.

J. B. NIGHTINGALE has begun work preparatory to building a half-mile track on his ranch in Green Valley, near Cordelia, Solano County. Cordelia has some speedy horses and the owners will appreciate a track in the locality where they can exercise their horses so as to develop their speed.

MRS. JOHN A. GOLDSMITH, of Washingtonville, N. Y., intends to have her show horse Burlingame 2:18½, prepared next summer to enter the 2:10 list, where she thinks he belongs. John Dickerson, who drove the son of Guy Wilkes to his record in 1895, will probably be asked to train him again.

MAREL LEIGH, by Dexter Prince, out of Adelina Patti, the dam of Margaret Worth, 2:15, ought to be a good one. She is three years old, a square trotter and is entered in the Stanford and Occident Stakes to be trotted this year. This filly is to be sold at the Occidental Horse Exchange next Thursday.

THREE stallions by George Wilkes, out of mares by Mambrino Patchem, have sired 2:10 trotters. They are: Alcione sire of Martha Wilkes, 2:08; Bush 2:09½ and Harrietta 2:09½; Guy Wilkes, sire of Hulda 2:08½, and Lesa Wilkes 2:09; Baron Wilkes, sire of Oakland Baron 2:09½ and Baron Rogers 2:09½.

ROBERT COUCHMAN, of White's Station, Ky., owns a mare that is the dam of 11 foals. He has sold all of them at an average of \$200, and notwithstanding the old mare has passed through the storms of 23 winters, she is said now to be as active as a five-year-old, and still serves her master faithfully on the farm.

AUGUST ERICKSEN, who purchased the two Altamont-Tecora colts recently, has sold the three-year-old to C. E. Hoxie of Portland, Oregon. Mr. Hoxie, who is also the owner of a two-year-old named Billy Hume, by Prince Altamont, out of McMinville Maid, has placed them both in Sam Casto's hands to be developed.

A driver who pulled a heat in the Kentucky Futurity at Lexington last year, and was heavily fined for it, writes a letter to the American Stock Farm in which he acknowledges the whole thing, says he was only following the instructions of the owner and that the act not only cost them the fine but lost them the race. Served them just right.

MR. F. M. DAY this week sold to *The Examiner* the dark chestnut filly Miss Layng, by Dictatus, out of a mare by Altona. She is pronounced by all who have seen her the very handsomest piece of horseflesh now used in the streets of this city. She is four years old and has speed enough for the track, while she is perfectly docile and very stylish.

THERE is every promise of a renewal of the struggle for supremacy between Joe Patchem 2:01½ and John R. Gentry 2:00½. The ex-champion has been leased by his owner, Mr. L. G. Tewksbury, to trainer E. R. Bowne, who will race him the coming season and let him take chances in the free-for-all classes.

SOME of the grandest looking colts and fillies ever seen in any country are those sired by Dictatus 2:21, who is to be sold at the Occidental Horse Exchange sale on February 3d. Dictatus is one of the grandest bred horses in the country and cannot help being a great sire, and he will be a good money earner for anyone who properly handles him in the stud.

AUGUST BELMONT is going to experiment with thoroughbred blood in the trotting horse. The Chairman of the Jockey Club has just sent his running mare Di Vernon from Lexington to Goshen to be bred to the noted trotting stallion Stamboul 2:07½. Di Vernon is by Gilroy, son of Lexington, and is strictly thoroughbred, but she is said to have fine trotting action.

OUR BOY, 2:13½, by Vernon Boy, has been sold to go to the Hawaiian Islands, where he is to be used on the road or raced as his new owners may elect. As this horse is much faster than his record, he will no doubt be able to "coon" any horse that has so far been sent to the little republic, and we shall expect to hear of his winning all the free for alls and other fast pacing events during the season of 1898.

PASCAL 2:21½, the long distance trotter and one of the best roadsters in California, is to be sold at the Occidental sale next Thursday. He should be a winner in his class in the dash races to be given by the Breeders and District Associations this summer. At a mile and a half and distances over that he is almost invincible. His mark of 4:50 for two miles was earned in a race he won pulled up almost to a walk.

RECENTLY Mr. Peter Duryea declared that it was his candid opinion that he could have hitched a team together last season that could have beaten John R. Gentry and Robert J. in a race. While he declined to say what horses would compose the team, it is more than probable that he referred to Miss Rita and Sally Toler, those two mares having been hitched together last season and shown remarkable speed.

By order of the President the annual meeting of the Board of Stewards of the Grand Circuit is called for Tuesday, February 15, at the office of the Detroit Driving Club, Detroit, Michigan. A full representation is earnestly desired, as matters of importance will be brought up for discussion at the meeting. Each association will be permitted to arrange its own classes. Still any suggestion from those interested will be cheerfully received.

C. E. BARROWS, of McMinnville, Oregon, is working the following stable: Del Norte, 2:08; Roy S., green trotter by Del Norte, dam by Almont, Jr.; Alta Norte, b f by Del Norte, dam Linnett by Rockwood; Doc Wright (3), by Del Norte, dam Linnett by Rockwood; Lindell, b c by Del Norte, dam by Multnomah; Boncelina, b m by Altamont, dam by Waverly chief. The three-year-old Doc is a very promising youngster, being able to show a pacing gait that indicates a race horse.

ED. DE CERNEA of New York, has recently sold to Col Lawrence Kip a very handsome matched pair for his road driving. One is by Ryswood, and has trotted a half in 1:07, the other by Alcione, and has trotted quarters in 32 seconds. Price paid, \$4,000. He has also sold to a New York road driver a pair, one by Wilkemon and the other by Aberdeen, for \$4,000; also a pair, one by Azmoor, and the other by another son of Electioneer, that can trot to pole in 2:45, for \$3,500.

AN eastern horseman has suggested that the rule requiring a driver to weigh in and out at 150 pounds or more be abolished. He argues that it would have saved lots of time, and as it has been demonstrated time and again that weight unless over 175 is not a handicap in a trotting race, and as the rules do not require sulkies to be of a certain weight, it will be a benefit to horses and all concerned to do away with the rule and thus reduce the number of long waits now such a nuisance on all trotting tracks.

BETONICA, the sensational pacer bred and owned at Palo Alto, is a pacer of unusual breeding. His sire is Azmoor, 2:20½, the son of Electioneer and Mamie C., a running mare, by imp. Hercules. The dam of Betonica was Nadine, by Wildidle, thoroughbred son of imp. Australian and the noted mare Idlewild, by Lexington. His grand dam was Norah, by Messenger Duroc, and his third dam was Mary Hulse (dam of Charley Chaplin 2:21½), by Seeley's American Star. The crack pacer is thus half thoroughbred.

THE managers of Charter Oak Park have decided to amend the stake programme for the two Hartford trotting meetings by making several changes in the classes. The \$10,000 Charter Oak Stake will be for trotters of the 2:17 class, instead of the 2:18 class. Under the old regime the big stake at Hartford was for 2:20 trotters, but since that time the pneumatic sulky has been introduced, so that the managers deem it necessary to advance the race to the 2:17 class in order to draw out an equally high class of horses. This contest is to be a fixture at Charter Oak and will be renewed from year to year under the same conditions. The 2:11 class of the Grand Circuit meeting has been changed to the 2:14 class, while for the July meeting there will be a 2:16 class instead of a 2:17 class, and the 2:12 class replaces the 2:11 class.

ON Tuesday next the State Board of Agriculture will meet for the purpose of electing officers for the ensuing year, and it is rumored that Adolph B. Spreckels will be chosen President of the Board. That he will be elected unanimously is a foregone conclusion and everyone in California will rejoice to hear of his appointment. Chas. M. Chase, the present incumbent, has been one of the hardest working and most conscientious officers ever elected to fill that position, and great credit is due him for the work accomplished through his efforts in the past. He has long wished to be relieved from the arduous duties of his post and will lend invaluable aid to his successor in order that the good work he has done for almost a quarter of a century may be continued.

AN old Californian said yesterday: "It is a wonder to me that the two jockey clubs do not step in now and crush out these pool rooms. They are affecting the receipts at the track, taking thousands away that would be wagered here and calling the attention of business men and merchants to the dangers of their existences on our busy thoroughfares. All that is necessary to close the doors of these pitfalls is for the clubs to forbid any information by wire leaving the track. THE BREEDER AND SPORTSMAN is trying to stem the tide and its work is done in the true spirit, for it has been the best friend the thoroughbred interests in America have ever had, and its warning should be heeded."

GEORGE BODIMER, the American trainer who is now in Vienna, Austria, writes that he is highly pleased with his new home. He says: "I have a stable of ten horses including Maud Wright, 2:13½; Charming Chimes, 2:17½; Wm. M. Evans (European record, 2:31), by King Wilkes; Hans Klaus, 2:40, an Inlander; a two-year-old filly by A. J. Alexander, that is fast, and the others are all Inlanders. My barn is only a few rods from the track. Mr. B. Tappan is stabled next to me, with Quartermarch, 2:11½; Quarterstretch, 2:15; Viola Belle, 2:24; Golden Bells, 2:17; Carroll R., 2:25; Kitty L., 2:19; Silver Lace, 2:20; Highland Girl, 2:29, and John Brooks, 2:31. We have a tanbark track to jog on three-eighths of a mile long, and talk about trotters, there are from 20 to 30 out at once. There it snow here, but the ground is frozen and the weather is cold."

THE mare Staccato, that took a record of 2:24 at the October meeting at Salem, Ore., was bought out of a band of horses, by the late Tom Raymond, owner of Klamath, (2:07½) when she was a weanling. He paid \$125 for her. He broke her when she was 11 months old, and did nothing more with her until the spring of 1893, when he prepared her for two-year-old stakes in Montana. She showed up well then, stepping eighths in eighteen seconds, quarters in :39, but she took the distemper, and had to be turned out. The next season she was campaigned a little by P. J. Keenan of Spokane, Wash., who bought her of her then owner, W. J. Harris, for \$400. As a five-year-old Mr. Keenan says he drove her a mile in 2:25, and was offered \$850 for her. The past season he worked her three weeks, then let up on her for a couple of months, and she had had only five weeks work before she got her present record. He says that she is the gamest mare he ever saw. At Salem, Ore., she went a five-heat race on Monday, Oct. 4, and won. The following Wednesday she won a four-heat race, and on Thursday she won another four-heat race and got her present record in the last heat. He says that she will be wintered at the Spokane track, and in all probability will go East next year with Chebalis (2:17½), Umahalis (2:17½) and Westfield (2:22½), that are owned by Frank Frazier, Pendleton, Ore. Mr. Keenan informs us that Staccato is by Latah, son of Indiaman, and out of Queen, a mare said to be of Rifleman and Copperbottom stock. She was foaled in 1891.

## THE SADDLE.

JOCKEY CHARLES MACKLIN was married Wednesday to Miss Olivia Malteno, a native of Honolulu.

W. O'B. MACDONOUGH has declared the three Ormonde youngsters out of this year's Junior Champion Stakes.

THE name Wrinkles has been registered for Jim Neil's Flambeau—Phoebe Anderson filly. This filly is a half-sister to Thornhill.

CHARLES WALTER has had a very disastrous season of it up to date. He dropped something like \$10,000 at the Oakland meeting.

THE stable of "Mr. Jersey"—that is, Mrs. Langtry—is quite an extensive one as to numbers, there being no less than 29 horses in training.

ROMAN CHIEF, chestnut colt, 4, by Hanover, dam Golden Reel, by Rayon d'Or, sold at the Newmarket December sales, has been sent to South Africa.

It is estimated that 3,000 people attend the down town poolrooms every day. That means at least \$3,000 is taken away from the race track receipts.

LONDON, January 22.—The sporting press announces that Richard Croker will return to England in April and run his horses at the first Newmarket meeting.

A Central American turfman has purchased the ex-crack race horse Rey Alfonso of R. Hughes, this city, and will ship the horse to Guatemala at an early date.

BARNEY SCHRIEBER has turned out Schiller, Sir William, Aquinas, Sorrow and Don Carillo at Antioch. Sorrow and Aquinas have proved great disappointments.

CHARLES KERR got \$500 for Castake, who has more than won himself out for his new owner, A. Barrera. Mr. Kerr only recently recovered from an attack of pneumonia.

A chattel mortgage was filed yesterday whereby the race horses George Miller and Castrake were given by W. L. Stanfield to F. H. Smithson as security to cover an indebtedness of \$400.

JIMMY ROWE has Plaudit in his charge at Brookdale. He says the colt is as rugged a customer as he ever handled. Plaudit will be especially prepared for the Metropolitan handicap at Morris Park.

MR. CHARLES MOORE has bought from Mr. James R. Keene the young stallion imp. Ingoldsby, by Chitabob, dam imp. Mere Hill, by Macgregor, and he will be placed in the stud at Mr. Moore's farm near Lexington.

SYBARIS will hereafter be allowed to start on Turf Congress tracks. He was barred on account of a change in his name, as he first started under the name of Thorpe, but Judge Murphy had the matter straightened out.

JOE MCCARTHY, son of "White Hat Dan," has a handy stable in shape at Fresno, and as soon as the Eastern delegation begin to leave will bring up Bernardo, The Lark, Guadalupe, Talbot Clifton and a few other useful racing machines.

NOTWITHSTANDING statements to the contrary, John Givens is and will continue to be in charge of Naglee Burke's horses. Kentucky John has been very successful, considering the calibre of the horses, and has really worked wonders placing the horses under his charge.

BARRY, who had the mount on Reno yesterday, was badly shaken up when the big chestnut fell shortly after the start. Maynard got up on Volt and attempted to get him over the course after the chase was over, but came to grief at one of the fences and was badly smashed up.

ANYONE desiring to purchase (at a reasonable sum) a thoroughbred pony, 14 hands  $\frac{1}{2}$  inch in height, that the owner will bet can beat any pony in the State, will do well to communicate with the BREEDER AND SPORTSMAN at once. Pony stoutly built and can pack any kind of weight.

PRESIDENT REILLY, of the Queens County Jockey Club, is preparing plans for a new grandstand at Aqueduct. It is his intention to make it both roomy and comfortable and so constructed that a good view of the racing can be had from any point of the structure, which is by no means a possibility to-day.

A NEW ORLEANS dispatch of January 25 says: Owing to the unsatisfactory and suspicious riding of Jockey P. Campbell on Al Lone, the board of stewards to-day suspended him for the remainder of the meeting, and no further entry will be accepted from his employer, A. F. Dayton, or from D. J. Honan.

PROTEUS, chestnut colt, foaled 1894, by The Chevalier, dam Plasir, by imp. Macaroni, out of Miss Bassett, by Lexington, the property of Messrs. Brown & Ward, died from inflammation of the bowels at the stable of his owners in Lexington, Ky., on December 26. He won a number of races last year and was a speedy colt.

THE most promising youngster in the string of James McLaughlin, once the most famous jockey in the country, is a California-bred filly by Sir Modred—imp. Memento. A New York paper says: "It would be hard to find a two-year-old that would be equal in her looks, and her stable folk think her as good as she looks."

THE following stable of horses are wintering at Morris Park: J. W. Rogers, 15 head; E. V. Sneeker, 7; M. M. Allen, 25; W. Smith, 8; J. McLaughlin, 22; Pulsifer & Karick, 10; A. J. Joyner (D. Gideon's string), 15; W. Oliver, 4; J. Evans, 3; T. Healey, 24; H. Simmons, 2; John Allen, 1; J. B. Brown, Oneck Stable, 12.

NEW YORK, January 22.—Jockey Tod Sloan who has been in foreign lands since last fall, riding English horses, arrived home to-day on the Campania. He wants to go back to England to ride, but Julius Fleischman said he could not agree to this, as his plans for the coming season were to a great extent based upon the riding of Sloan.

ST. LOUIS, Jan. 22.—Cap Tilles, the well-known St. Louis turfman, announced yesterday that John Rodegan had decided to abandon his intention of retiring from the turf, and he would continue to race as of yore this year. Accordingly he reclaimed from Tilles the speedy three-year-old filly Ferroll, which Tilles recently purchased from him for \$2,500.

WE have seen a letter from New Zealand which contained the pleasing information that the get of imp. Foul Shot in that country are grand lookers and likely to win many good races during the racing season. This notwithstanding few of the horses are from well-bred mares. Barney Schreiber owns the Musket horse and has him at "Woodlands," Bridgeton, Mo., near St. Louis.

A Brooklyn paper says: The latest recruit to the English turf from among American horsemen is George E. Smith, "Pittsburg Phil." It is stated on good grounds that he proposes to go to England during the latter part of the coming season, taking with him a string of handicap horses and yearlings, to be picked up during the summer, the latter to race during the following season.

JOHN MACKEY, the Rancho del Paso manager, was at the Oakland track Friday. He reports that the mares are foaling in rapid succession. He mentions with pride that the peerless Firenze has a slashing chestnut filly by Goldfinch, son of the mighty Ormonde. That great race mare, Miss Woodford, has a filly by Salvator. Stella, the dam of Sabilla has a colt by imp. Order.

BARNEY SCHRIEBER has followed the example set by Ed. Corrigan, Sam Hildeth and the other leading horsemen in California. He sent a big lot of thoroughbreds to the Brentwood Stock Farm recently, where he knows they will be well cared for and fed. Among those shipped were Sir William, Aquinas, Sorrow and Don Carillo. He will also send a number to the Elmwood Stock Farm.

John Huffman, the Illinois turfman, received a telegram Monday that Lolo would win the first race at Oakland that afternoon. The mare opened in the betting at 7 to 1, and somebody's money forced her price down to 5 to 1. It goes without saying that it was a welcome relief when the operator announced that Lolo led by four lengths at the half and supplemented this with the comforting news that she had won pulled up.

If the present Chicago city government is honest in its support of legitimate sport, as it pretends to be, it will close all the pool rooms if the services of every policeman in the city are required in the work. The greatest incentive to Puritanism among those who have the framing of legislation has been the city poolroom, for the existence of which there is not the slightest excuse, from the standpoint of true sport.—Chicago Horseman.

D. J. MCCARTHY has sold to Baron Von Schroeder the bay horse Woodchopper and a three-year old filly by Duke of Norfolk—Elaine. Terms private. Woodchopper has won fourteen races in good company, been second and third on many occasions, and is one of the few entire grandsons of imp. The Ill-Used. His dam, Bonnie Wood, by imp. Bonnie Scotland, threw the grand race horse, Phoenix, who is now a most successful young sire.

Patrick Dunne, the well-known turfman, and Miss Helen Dinneen, daughter of Mr. and Mrs. J. H. Dinneen of this city, were married at the Church of the Sacred Heart Tuesday morning. The ceremony was performed by Rev. Father Flood, assisted by Rev. Philip Byrne. A wedding breakfast was served at the Palace, and last evening the pair left for the East. Mr. Dunne is a nephew of Ed Corrigan and regarded as one of the most thorough horsemen in America.

COL. S. D. BRUCE, in the Turf, Field and Farm, of Jan. 7, announced his resignation from that journal, to take effect immediately. The Colonel's retirement, due "to increasing years and poor health," will be widely felt in the thoroughbred world, of which he has been a prominent and useful member for more than thirty years. His services to the turf as the compiler of the first six volumes of the American Stud Book have been of inestimable value, and through this great work the name of Col. S. D. Bruce will always be known in this country wherever the sports of kings exist.

POOL ROOMS are springing up like mushrooms all over the city. No wonder the "bookies" at the track complain of "light" business. There is only one way to crush these sinkholes out of existence and that is for associations to forbid any information to leave the track either by telegraph or telephone until the races end. This idea of sending in the names of jockeys and scratches before 11 o'clock will ruin racing here just as it has in every city where it has been allowed in the United States. Why don't the directors of these associations try to save their valuable properties by giving this subject a little study?

NEW YORK, January 24.—Tod Sloan is going to California in a few days. He has no intention of remaining idle unless the racing season in the East opens in April. Tod says that no jockey can expect to do good work after a period of inactivity. He will take all the mounts he can get on the Pacific Coast and keep himself in shape for a hard campaign next summer. He will keep his contract with the Fleischmann's and will not annoy them by asking for a release. The contract expires October 31st. Immediately thereafter Tod will set sail for England, and America will not see him again for a year or two.

FROM Lexington comes the announcement that Col. W. S. Barnes will reappear as an active turfman this year. For a number of seasons past he has only been known to the turf world as a breeder and race track official. The horses he will campaign are given as follows: Injury, b g, 3, by Onondaga—Feronia; Cennum, b f, 3, by Fonso—Century; Devil to Pay, b g, 4, by Jim Gore—Mischief; black filly, 2, by Jim Gore—Gondola; chestnut filly, 2, by Teuton—Feronia; brown filly, 2, by Jim Gore—Queen Bay; Lady in Blue, b f, 2, by Himyar—British Blue Blood; chestnut filly, 2, by Falsetto—by Glenelg; filly, 2, by Laureate—Nihil; filly, 2, by Tea Tray—Indians; colt, 2, by Oneka—Gadding; Royal Escort, colt, 2, by Jim Gore—Bonita Belle; colt, 2, by Jim Gore—Dolly Varden; colt, 2, by Eolo—Lannette; colt, 2, by Wagner—Falsetto.

THE non-appearance of Hamburg's name among the nominations for the Brooklyn and Suburban handicaps for 1898, which were made public yesterday, caused much discussion among horsemen, says the New York Sun. They wondered what Daly proposed to do with the colt. A great many regarded the incident as proof conclusive that he intended to send Hamburg to England. Such a belief, however, is emphatically denied by those in confidence of the colt's owner. Hamburg's future, they declare, lies entirely in this country, but just what plans have been made for him is still a matter of doubt. Hamburg has very few engagements in the stakes for three-year-olds exclusively—at least so far as the East is concerned. He is, however, eligible for the Latonia, Oakley, Kentucky, St. Louis, and Detroit Derbies, the Clark and Himyar stakes and for the majority of the other rich Western events, in winning which last year Ornament earned something over \$30,000.

FRIDAY morning Dr. Rowell was asked by Mr. Maddox at Ingleside to look at his two thoroughbreds, Ironmaster and Ashland Eclipse as they appeared to be quite sick. It did not take but an instant for the veterinarian to pronounce both horses suffering from glanders, and, further to order them to be shot. This was done, and a force of men was set to work to tear out the stalls in which the afflicted animals were and new lumber was used to replace the old which were burned. A thorough fumigation of the premises was made and all danger of the disease was dispelled. Dr. Rowell says (and it is to be supported by all leading veterinarians) that the disease is not infectious but can only be transmitted by direct contact of the virus with some other animal is through the membranes that are exposed by injury. It is a well-known fact that glandered horses have been hitched alongside of horses not affected and work for months that way without the latter getting the disease. The two horses destroyed yesterday were the first diseased ones we have heard of at either race track. Mr. Maddox has the sympathy of all horsemen on account of his loss.

THE trial of the starting machine in four races at Newmarket (Eng.) appears to have resulted more satisfactorily than generally anticipated, and touching on this the London Sportsman says: "The impression created was a better one than in the First October week, and when the jockeys get more used to the machine it will probably answer better still. At present they seem rather inclined to think they are not required to take any part in the business, but that when the button is touched everything will be done for them. The starts were not perfect, but in three cases out of the four they were practically as good as the average start with a flag, the only horses to get badly away being those ridden by jockeys who were under the impression that they had to duck their heads while passing under the webs. There were occasional jeers, but these again were from inexperienced onlookers who were probably present at the starting post for the first time in their lives, and who expected the horses to get away each time in an unbroken line and to retain it to the distance. We believe that Mr. Arthur Coventry himself was perfectly satisfied with the experiment. That the machine will be adopted straightway in England is not in the least likely, but that we shall employ it regularly a few years hence is very probable."

BIG JIM GARLAND, who recently took charge of E. J. Baldwin's large string, has thrown the older gallopers of the Santa Anita stable out of training, in order that they may take on a little flesh and be able to stand a bruising race or two without going to pieces. "Argentina, in particular, was looking bad," said Garland, "and I thought it advisable to give her a vacation. We shall not race at Ingleside for these reasons, but when we get the stable in shape we ought to be able to win some races, though we have no Hindoos. We have only a fair lot of selling platers, but to hear some people talk you would think we stabled only stake winners." The veteran trainer stated that they would ship old Rey El Santa Anita to Mr. Baldwin's famous ranch presently. With him will go a couple of others. "Mr. Baldwin had an idea that Santa Anita would race again," said he. "They tried him before I got with the stable and found that his racing days were over. He will be put in the stud and a few of the choice mares bred to him." Mr. Garland is expecting a carload of two-year-olds from Santa Anita very shortly. Ramiro has been sold to Billy Randall. The Montana trainer believes he can get the Gano horse to a race in about a month, though many trainers were of the opinion that he was a hopeless cripple.

A great many stories as to how Byron McClelland got his start on the turf have been printed. No two of them agree on the same facts, says a Lexington special. In discussing this matter today, Mr. Charles H. Voorheis, cashier of the Northern Bank of Kentucky, of this city, who was bookkeeper of the old Daily Press when Byron McClelland was mailing clerk at that establishment, tells the following, which, he says, is the true story of McClelland's advent on the turf: "Byron McClelland, while mail clerk for the Daily Press, talked a great deal about race horses, and it seemed he thought of scarcely anything else. He would save up his money from one race meeting to another, so that he would have a stake with which to bet on the horses. Although he was making but \$7 a week, he would frequently have as much as \$50 to \$75 saved to bet on the spring meetings. One day in the winter of 1877, I think it was, I asked 'Biney,' as we called him, why he did not quit the newspaper business and go on the turf and train race horses. He said he would do it if he was able, and intimated that he could train horses as well as some of those who were engaged in the business. I told him that Mr. H. T. Duncan Sr., the father of my brother-in-law, who was the editor of the paper on which we were employed, had some race horses that I believed that he could get to train. I told him that I would speak to Mr. Duncan about it, and I did so. I told Mr. Duncan that Byron seemed to be an honest boy, and that he was a perfect enthusiast on the subject of race horses, and I believed, if he would let him have some of his colts, he would win races with them. The youngsters were running practically wild on Mr. Duncan's large farm and were not bringing him a cent. Well, to make a long story short, Byron got three youngsters from Mr. Duncan and trained and raced them that year, winning \$3,000. That was the beginning of his racing career. The turf world knows what he accomplished after that. He was on the turf about twenty years, and a more honest and conscientious young man I have never known."

## THE WEEKLY BREEDER AND SPORTSMAN

WM. G. LAYNG, EDITOR AND PROPRIETOR.

The Turf and Sporting Authority of the Pacific Coast.

— OFFICE —

No. 313 BUSH ST., SAN FRANCISCO  
P. O. BOX 2300.

TERMS—One Year, \$3; Six Months, \$1.75; Three Months, \$1.  
STRICTLY IN ADVANCE.

Money should be sent by postal order, draft or by registered letter addressed to WM. G. LAYNG, 313 Bush St., San Francisco, Cal. Communications must be accompanied by the writers' name and address, not necessarily for publication, but as a private guarantee of good faith.

San Francisco, Saturday, January 29, 1898.

### A Timely Warning.

Every city has its quota of cranks, religious and otherwise. These cranks are ever on the lookout for something to "kick" about, are always watching for the appearance of some supposed evil that must be removed ere the ship of morality can make sail. The cry of the cranks is oftentimes re-echoed by those who have political axes to grind and financial fences to mend. The howl of the goody-goods, taken up by the politicians with itchy palms, blighted the racing crop in Illinois, New York, New Jersey, Pennsylvania, Connecticut and Indiana, and the wind from the East has borne the howl along until it threatens California.

The evils wrought by the running of pool-rooms have been the juiciest cuds the cranks all over the country have ever rolled under their tongues, the embezzlers, the dishonest clerks, etc., laying their downfall to keepers of sure-thing resorts. When they had begun to tire, the Civic Federations, the Societies for the Prevention of Vice, and kindred organizations eagerly took up the matter and had their howl, then the subject was agitated in the newspapers, and finally bills were framed which were to racing as a hail storm to a fruit crop. The city legislator presenting the bill might not be in favor of limiting racing or killing it altogether, but he could not afford to fly in the face of a sensational press and a cranky constituency, and the county members, representing people who thought ten times more of church and crops than racing and improving the breed of horses of the country, would to a man vote to cut the tracks into city lots or make fruit orchards of them.

It is upon the head of the pool room keeper, therefore, that the responsibility rests for killing off the sport of kings in the States mentioned. Remove the pool-room and the sport would flourish all over the country. Allow them to run and racing goes down, millions of dollars are lost to breeders of fast horses, and great sums of money taken out of the State. The pool-rooms can be closed if the jockey clubs desire, and surely they should look far enough ahead to steer the ship out of the way of the rocks which have never failed to wreck the vessel that tried to pass over them.

True, the clubs realize handsomely by allowing the Western Union Telegraph Company to telegraph information regarding entries, jockeys, scratches and results to pool-rooms. But in doing this can they not see they are jeopardizing the racing and breeding interests of the Pacific Coast? No time is to be lost. Remove the cause for complaint of the crank and racing will flourish. Allow a continuance of the present system, and it is as certain that the sport will be killed in California when the next Legislature meets as the sun will rise tomorrow.

Hon. Charles F. Reed.

In the death of Charles F. Reed, which lately occurred in Placer County, the farmers and stock breeders of this State lost one of their best and ablest friends. Mr. Reed for years was one of the largest and best ranchers in California. He had thousands of acres in grain and fields and in pasture. In the early days he brought to the State the best blooded stock of all kinds. He had high-bred horses, cattle, sheep and hogs. For many years he was a Director of the State Agricultural Society and for years its President. As a private citizen, as a legislator and as an officer of the District and State Agricultural Societies, he was the staunch and unwavering friend of the farm, the field, and the turf.

THE Colusa Jockey Club will have a good meeting this year. Every man in Colusa who subscribed last year has raised his subscription this year, and only one man in the town refused assistance and he will wish he had not before the meeting is over.]

### Interesting to Trotting Horsemen.

In response to many inquiries regarding the prospects for harness racing this year, we are pleased to announce that the Pacific Coast Trotting Horse Breeder's Association has planned to give two race meetings. The first to take place on the track of the California Jockey Club at Oakland, beginning about June 15th, and continue for one month. A Speed Committee has been appointed to prepare a programme of events for this meeting, which will consist principally of dashes of one mile. Dashes for longer distances and mile heats (2 and 3) will also be given. Classes will be made for green horses, for the 2:40 class, and for every two seconds from 2:30 down to the free for all. It is intended to give a number of dash races and one race of mile heats every day. Entries for this meeting will close about June 1st, and horses will be reclassified at the end of each week.

The regular fall meeting of the Association will be held the second week after the State Fair. At this meeting, in addition to races for aged horses, a series of purses or stakes will be given for colts.

The adoption of dash races and races of fewer heats will increase the earning capacity of the horses, as they can be started much more frequently than would be possible in 3 in 5 races.

It is the aim of this association to do all possible to "boom" harness racing this year, by adopting new methods that will make it popular with the race-going public and profitable for the horsemen. As an evidence of this intention, at a recent meeting of the Board of Directors it was ordered that all suspensions for non-payment of entrances due the Pacific Coast Horse Breeder's Association up to January 1, 1897, be released, thus relieving many of a burden of debt incurred during the period of hard times that has prevailed, and increasing the number of horses that will be eligible this year.

There is every prospect that a longer and better circuit will be given on this coast for 1898 than for years past, and with this assurance every owner should feel encouraged to train as many good horses as possible. With a good circuit this year and the prospect of more prosperous times, those interested should be encouraged to continue in the business. You are asked to do all in your power, by not only training your own horse, but by inducing those in your vicinity who have horses to train them for this meeting.

### Latonia's Great Stakes.

A large number of turfmen at present sojourning in San Francisco will race in "the Middle West" this year, and their attention is called to the splendid offering made by the Latonia Jockey Club, in the way of stake races. Following is the list, and it is assuredly one calculated to take the eye of any turfman:

The Eclipse Stakes, two-year-old fillies, \$700 added five furlongs.

The Harold Stakes, two-year-old colts, \$700 added, five furlongs.

The Sensation Stakes, two-year-olds, \$1,000 added, six furlongs.

The vCoington Spring Stakes, selling, two-year-olds, \$600 added, five and one-half furlongs.

The Ripple Stakes, three-year-olds, \$700 added, one mile.

The Latonia Spring Prize, handicap, three-year-olds, \$1,200 added, mile and a furlong.

The Tobacco Stakes, selling, three-year-olds and upwards, \$900 added, one mile.

The Milldale Stakes, three-year-olds and upwards, \$700 added, six furlongs.

The National Handicap, three-year-olds and upward, \$1,500 added, mile and a furlong.

The Cincinnati Hotel Handicap, three-year-olds and upward, \$1,200 added, one and one-eighth miles.

The following stakes are for the fall meeting of 1898: The Kimball Stakes, two-year-old colts, \$700 added, six furlongs.

The Zoo Zoo Stakes, two-year-old fillies, \$700 added, six furlongs.

The Kentucky Central Stakes, two-year-olds, \$700 added, one mile.

The following stakes are for the spring meeting of 1898:

The Latonia Derby, three-year-olds (foals of 1896) \$2,150 added, mile and a half.

The Himyar Stakes, three-year-olds (foals of 1896), \$1,500 added, one and one-eighth miles.

The Latonia Oaks, three-year-old fillies (foals of 1896), \$1,250 added, one and one-fourth miles.

Entries to all of the above close February 1, 1898, (next Tuesday). We have entry blanks on hand and will gladly supply them to any owner upon application.

All communications should be addressed to the Secretary, E. C. Hopper, Covington, Ky.

### Cincinnati to the Fore.

"In this issue we advertise the conditions to the various liberal stakes offered by the Cincinnati Jockey Club, and a long list of entries should be forwarded from San Francisco. The Oakley track is one of the fastest and best in the country. Cincinnati is a jolly city. Money is plentiful in the Ohio metropolis, and the sport is well supported at all times. Entries close February 1, 1898, and should be sent to W. R. Fletcher, Secretary, Room 303, Neave Building, Cincinnati, Ohio. Following is the Cincinnati Jockey Club's offering:

The Diamond Stakes, two-year-olds, \$1,000 added, six furlongs.

The Sapphire Stakes, two-year-olds, \$750 added, five furlongs.

The Emerald Stakes, two-year-old colts and geldings, \$750 added, five furlongs.

The Christian Moerlin Brewing Company Stakes handicap, three-year-olds and over, one and one-eighth miles.

The fall stakes of 1898 (to close Feb. 1, 1898, also) are:

The Pearl Stakes, two-year-old fillies, \$1,000 added, six furlongs.

The Garnet Stakes, two-year-old colts and geldings, \$1,000 added, six furlongs.

The Gem Stakes, two-year-olds, \$1,000 added, one mile.

For the spring meeting of 1899 (entries close February 1, 1898) the following are offered:

The Oakley Derby, three-year-olds (foals of 1896), \$2,500 added, mile and a quarter.

The Buckeye Stake, three-year-olds (foals of 1896), \$1,500 added, mile and a furlong.

The Cincinnati Oaks, three year old fillies (foals of 1896), \$1,250 added, mile and a sixteenth.

### Highland Park, Fort Erie and Windsor Stakes.

Below will be found a list of the stakes offered by the Highland Park Club lessees (of Detroit), the races to be run at Detroit, Fort Erie and Windsor:

At Highland Park, June 7th to 23d - Detroit Derby, \$2,000, 1½ miles; Michigan Stakes, \$1,000, one mile; The Brewers' Stakes, \$1,000, 7 furlongs; the Banner Stake, two-year-olds, \$1,300, 5 furlongs; The Garland Stake, two-year-old fillies, \$1,000, 5 furlongs.

At Fort Erie, June 25th to July 12th—The Canadian Derby, \$2,500, 1½ miles; the Cascade Stake, selling, \$1,000, 7 furlongs; the Canadian Sportsman Handicap, \$1,300, 1 1-8 miles; the Niagara Stake, two-year-old colts and geldings, \$1,000, five furlongs; the Queenstown Stake, two-year-old fillies, five furlongs; the Weeland Stakes, two-year-olds, 5 furlongs.

At Windsor, August 2d to 18th—The Consolation Stakes, three-year-olds, \$1,000, 1½ miles; the Essex Stakes, selling, \$1,000, 1 1-8 miles; the Merchants' Stake, two-year-old colts and geldings, \$1,000, 5 furlongs; the Hotel Stakes, two-year-olds, \$1,000, 5½ furlongs; the Belle Isle, two-year-olds, \$1,000, 5 furlongs.

The conditions to the above are advertised in this issue.

The conditions to the Montreal Stakes will appear in our next week's issue.

ALMOST without exception the country press is making a fight on the pool rooms of San Francisco and the interior towns. Of course they lay the blame for their existence on the Jockey Clubs and are thus starting a movement against racing which may cause a lot of trouble when the Legislature meets next year. As was the case in New York, Chicago, New Jersey and other eastern localities where so much legislation adverse to racing has been passed, the trouble has not come from anything done inside the race tracks, but from the gambling that goes on outside the inclosures. If the jockey clubs will shut down entirely on the sending of results by wire to poolrooms and newspapers, they will not only shut off a great cause of complaint, but will nip in the bud a movement that, however unjust and illogical, has caused great trouble and much expense to associations and owners in other localities, as people are very much alike in all parts of the United States.

## The Morris Park Stakes for May, 1898.

The Westchester Racing Association offers the following rich stakes, entries to which close next Wednesday, February 2, 1898. We have entry blanks on hand and will gladly furnish them to any turfman upon application. The Morris Park track and grounds are the most magnificent in America, and the splendid treatment accorded visiting turfmen is spoken of by all owners that ever went to this grand place.

Gaiety, two years old, conditions, \$750 added, half mile; Bouquet, two years old, selling, \$1,000 added, five furlongs; Laureate, two years old, conditions, \$1,000 added, five furlongs; Larchmont, three years old, maidens, \$500 added, seven furlongs; Baychester, three years old, non-winners of \$1,000, conditions, \$750 added, withers mile; Van Nest, three years old, selling, \$500 added, six and a half furlongs; Poncantico Handicap, three years old, \$1,000 added, mile and a sixteenth; Metropolitan Handicap, three years old and upward, \$3,000 added, Withers mile; Harlem, three years old and upward, \$500 added; Withers mile; Toboggan Handicap, three years old and upward, \$1,000 added, Eclipse course; New Rochelle Handicap, three years old and upward, \$750 added, seven furlongs; Highweight Serial Handicaps; Crotona, purse \$1,500, six furlongs; Claremont, purse, \$1,500, six and a half furlongs; Van Coarilandt, purse \$1,500, seven furlongs; Amateur Cup, Plate \$300, purse \$1,200, selling, gentlemen riders, Withers mile.

Steeplechases and Hurdle Races.—St. Nicholas Hurdle Handicap, \$600 added, mile and a half; Knickerbocker Hurdle Handicap, \$600 added, seven hurdles, mile and three-quarters; New York Steeplechase Handicap, \$750 added, about two miles; International Steeplechase Handicap, \$750 added, about two miles and a half.

Events to Close Feb. 2d, to be run in October, '98.—Champagne, two years old, conditions, \$1,500 added, seven furlongs; White Plains Handicap, two years old, purse \$4,000, eclipse course; Jerome Handicap, three years old, \$1,500 added, mile and a quarter; Municipal Handicap, three years old and upward, purse \$3,500, mile and three-quarters; Manhattan Handicap, all ages all ages, \$1,500 added, Eclipse course. Address to H. G. Crickmore, Clerk of the Course, 173 Fifth Avenue, New York, N. Y.

## Washington Jockey Club Stakes.

The Washington Jockey Club offers a number of stakes well worth winning, as a perusal of the list will show. The meeting is in April 1898, and entries close February 2d, (next Wednesday):

Arlington, two years old, conditions, \$400 added, half mile; Congressional, selling, two years old, \$400 added, half mile; Mount Vernon, fillies, conditions, two years old, \$800 added, half mile; Potomac, three years old, conditions, \$400 added, six furlongs; Federal, selling, three years old, \$400 added, six and a half furlongs; Washington Handicap, three years old and upward, \$500 added, one mile.

Hurdle Races and Steeplechases—Maiden (at starting) hurdle race, conditions, \$300 added, six hurdles, mile and a half; Maryland Hurdle Handicap, \$300 added, seven hurdles; Easter Steeplechase, conditions, \$300 added, about two miles; Bennings Steeplechase Handicap, \$300 added, about two miles and a half.

Spring Meeting, 1900—Hurd Washington Nursery, purse \$6,000, for produce of mares covered in 1897, foals of 1898. Foals dropped in January are eligible if their dams are duly entered. Four and a half furlongs.

For information and entry blanks apply at the office of the BREEDER AND SPORTSMAN. Mail entries to H. G. Crickmore, clerk of the course, 173 Fifth Ave., New York, N. Y.

If there is one thing more than another that will kill racing in California it is the pool rooms. The clubs that allow telegraphic reports to be sent from the tracks are hanging a Damocles sword over their own heads that will surely fall with disastrous results.

PERDITA II. (dam of Florizel II. and Persimmon), in foal to St. Simon, unluckily slipped a colt foal, full brother to the two noted horses mentioned above, at Sandringham, a few days ago. It is believed that a subscription to St. Simon had been secured for Perdita II. for next season, but it is probable that the Prince of Wales will give the mare a rest until 1899. The latter would seem the wiser course under the circumstances.

FRANKFORT (Ky.), January 27.—The famous stallion Norval, 2:14½, sire of Countess Eve, 2:09½, was sold to-day to J. C. Linneman of Lima, O. He was owned by the late R. P. Pepper. The price paid is not known. Colonel Pepper paid \$15,000 to the late Senator Leland Stanford of California for the stallion.

## The Last of the Lexingtons.

Uncas is dead. The last of the Lexingtons has gone the long route, and the names of the most illustrious of the families which have been born out of the bluegrass of the sunny South has passed into history and will be no more save in pedigree.

It is much to have been the last of the Lexingtons; it is much to have been a Lexington at all, no matter how distant the relationship. For, be it known, Lexington in his day was himself a king, the master of them all in that sportsman's good time when horses ran four miles, rested forty minutes and ran four miles more before they might claim the prize which waited for them at the winning post.

Lexington was a race horse, the first really great horse which America might call all its own. He met all of his day over all sorts of distances, and he always won, which is the test of a racing king. Of course, there had been Sir Henry and Eclipse and Boston and Lecompte and other great ones before Lexington, but he was the horse.

The story of his race is the tale of the grandest achievements of the American turf, and involves the names of the grandest of turfmen. It brings back poor old Richard Ten Broeck, the gallant sportsman who invaded England with his American horses and won with them, as Lorillard and Croker have done in later years. Ten Broeck was much the kind of sportsman that Lexington was a race horse, and when he died in a retreat for feeble-minded in California there passed the last of the Ten Broecks.

Lexington was a bay horse by four-mile Boston, out of Alice Carneal by imported Sarpedon. He was Kentucky born and took his name from the gem town that sits in the midst of the blue grass country. Starting as a three-year-old he was always a race horse. At one time he was the idol of the whole South. He once ran a match over the old Metairie course at New Orleans, and it was a saying at the time that the visiting Kentuckians came back home with enough gold to sink a steamboat. In his career of continuous victory he won several fortunes for Ten Broeck.

Then the saddest of all facts came to him. Through some illness or other this king went stone blind. After racing from North to South and sweeping everything before him, he saw the daylight go out, and his name was no more on the lips of the crowd. But his fame was not to die. A. J. Alexander, the far-seeing proprietor of the Woodburn Farm, near Lexington, bought the blind king, and he paid the enormous price of \$15,000 for him. Fifteen thousand dollars for a blind horse? Ridiculous. And even Kentucky laughed; but Alexander firm in his faith, said: "Laugh on, some day I will sell a son of his for more money."

Out in California lived, and still lives, Theodore Winters, swarthy, picturesque, high-fashioned and wealthy. One day his best mare was beaten in a 4-mile race by a horse called Lodi. Wroth at the defeat, Winters started East with the avowed purpose of finding a horse that would humble this Lodi to the dust. At St. Louis he saw Norfolk and loved him. He dickered with Alexander for his bay horse which looked so much like Lexington. It was a long dicker, until Alexander said, "15,000." Winters agreed to pay the price next morning.

That night Alexander thought of his Kentucky boast. When Winters came with the money next day, Alexander said he must have \$15,001. Winters, hot-headed, said no, and walked away. Jim Eoff, Winters' friend, was standing near. He seized Winters' coattails and pleaded with him. Winters said never.

"Then," said Eoff, "I'll pay the \$1 before I'll see the trade fall through." And he did; and to the day of his death he owned \$1 worth of Norfolk.

There were other sons of Lexington, nearly all of them great ones, but this Norfolk in color, size, disposition and accomplishment was easily the best one. He had a career of romance. He traveled all the way to California before the railroads were built, going by way of the Isthmus, and walking from sea to sea. He was never beaten when he met the greatest lot of four-milers in the world, and he was the cause of more than one duel when that mode of settling sporting differences was in vogue.

He met Lodi and defeated him in a sensational race at four-mile heats. There were three judges in the stand. Brave old Colonel Gift, of Tennessee, represented Winters and Norfolk. The Lodi man was a citizen of prominence. When the two selected the third man the Lodi people put up a job on Gift, and the third man was a part owner in Lodi. In the first heat Norfolk won by a good neck. Colonel Gift so decided and was amazed when the other two judges insisted that it was a dead heat.

Gift turned and left the stand. "They are robbers, Mr. Winters, and I won't stay in the stand."

"For God's sake go back and do the best you can for me," pleaded Winters.

Gift climbed back into the box and thus delivered:

"Gentlemen, because Mr. Winters has asked me to do it, I've come back here to judge this race out. But I want to say that if there is any other dead heat like that last one this stand will be cleaned out, and I'll be the last man in it."

Norfolk won the next two heats.

When it came time for Norfolk to retire, he went, like Lexington, with an unbroken record of achievement, and his sons and daughters carried his name on. Everybody knows the Emperor of Norfolk, the Prince of Norfolk, Duke of Norfolk, El Rio Rey and all that noble tribe. El Rio Rey was not beaten, though fate sent him early to the retirement of the stud.

One day Norfolk fell ill; so ill that Winters said he could

not live. He called in a hired man to put the old horse out of his misery. The man went into the stall, closed the door, waited a moment and came out. "You'll have to get some one else, Mr. Winters," he said. Another man was tried, and another, and on all that farm not one could be found who would give the merciful knock on the head to this old turf hero.

Finally a man passing in a wagon was called in. He took the ax and went in to the horse. He came out with a quizzical look on his face.

"What horse is that?" he asked.

"It's Norfolk," somebody said.

The man laid down the ax, climbed into his wagon and said: "Mr. Winters, if you've got any no-count sons runnin' round here that you want killed off, I'll do it for you and welcome, but I can't hit that horse."

The horse lingered, recovered and lived long enough to be the sire of El Rio Rey, the best of his sons.

So much of the tale of Norfolk is just to show how much was Lexington even after he had passed from the turf. His sons were race horses, but his daughters were scarcely less great. They raced well and their progeny have won for thirty years the greatest events of the American turf. The Lexington strain is the dominating one in American blood lines, the best blood in this land.

Uncas is dead. It is much to have been the last of the Lexingtons. It is much to have been a Lexington at all.—C. E. Trevathan, in New York Journal.

NOTE.—Mr. Trevathan is wrong in the claim that Lexington had an "unbroken record of Achievement." Lecompte beat him in a race, heats of four miles. Duke of Magenta is still alive and there may be still other sons of the hero of Woodburn on this side of the river.

## Racing Legislation.

The friends of high class running and trotting sport will rejoice to learn that another attempt is to be made to put it on a legal basis in the great State of Illinois. The position in that State has been for some years chaotic. As soon as the authorities of Washington Park, the greatest racing organization in the West, found that they could only race on sufferance, they promptly closed their gates. The Northwestern Association of Trotting-Horse Breeders, one of the strongest trotting organizations in the country, held two meetings without betting and with disastrous results, and then wound up their affairs and went out of existence. At the same time outside of Chicago both trotting and running meetings were held with open betting and pool-selling, public sentiment being so strong that the law was a dead letter, and last season there was a meeting held at the Harlem track which ran through without any interference. It is high time that this anomalous position of affairs should cease and Senator Fitzpatrick proposes to do it. He will introduce a bill limiting racing from May 1 to November, which will close the winter tracks and all racing must be between 12 noon and 7 o'clock P. M., and all associations will pay a tax of five per cent. We hope this law will pass. It will be a boon to the breeding and racing interests.

## He Never Sleeps.

A leading merchant was once asked how it was he had no representatives on the road. He replied, "I have the best representatives in the world. They always tell the value of my goods in plain language. They are always attentive to business. They are always polite. They never miss an appointment and they are at work from early in the morning till last thing at night. They take no holidays and work the year round. My representatives are my advertisements, and I know exactly where they are in every city and town, and I know to a cent what they cost me." At this season of the year the breeders of the country will do well to follow the example of this merchant. Their business is one that cannot be kept before the public by a commercial traveler, and the reputable journal devoted to turf sports is the best medium they can employ to bring their stallions and colts to the attention of possible patrons and buyers. If a breeder cannot afford to advertise he cannot afford to breed. No matter how small the card may be, so long as it is in the journal which commands the attention of the people the breeder wishes it to reach, it will be a representative who never sleeps.

JOHN E. MADDEN has chosen the following names for his two-year-olds: The half brother to Hamburg, by imp. Candemas—Lady Reel he calls Hapsburg; the bay colt by Order—Happy Sally is called Jolly Roger; the chestnut son of Spendthrift—Gold Coil is Artisan; the Hanover—Katrina colt, Holland, and the colt by Hindoo—Fay is Brahmin.

We received the following telegram this morning: "Memphis, Tenn., Jan. 26, 1898.—BREEDER AND SPORTSMAN, 313 Bush St., San Francisco, Cal. Those making second payment in Tennessee Derby are as follows: Eitholin, Bequeath, Libation, Bannockburn, Isabey, Swango, Goodrich, Johnny Bohan, Gallivant, Jackanapes, Chang, Druggist, Lieber Karl, Wilson, Sacket and Our Friend. M. M. McFARLAN, Secy."

Your stable is not complete without Quinn's Ointment. An infallible cure for all ordinary horse afflictions. Follow the example set by the leading horsemen of the world and your stable shelf will always hold a bottle of

**Quinn's Ointment.**

A. L. Thomas, Supt. Canton Farm, Joliet, Ill., remarks, "I enclose you amount for six bottles of Quinn's Ointment. After one year's trial must confess it does all you claim for it." For Curbs, Splints, Spavins, Windpuffs or Bunches, Price \$1.50.

Sold by all Druggists or sent by mail.

W. B. EDDY & CO., Whitehall, N. Y.

## Breeding and Stamina.

The sound thoroughbred horse—and soundness is a principal requisite—is more enduring under a crushing strain than any other horse, because he has developed capacity in this line through generations of severest tests on the track, says the Turf, Field and Farm. The higher the rate of speed the sooner the point of exhaustion is reached. One of the observations of Count Lehndorff is: "The last struggle for victory, in which culminates the exertion of the race, results from the co-operation of [the intellectual, the physical and the mechanical qualities of the horse—the development of which combined power is higher and more reliable than any that can be obtained in the same animal by other means. The combination of those three qualities forms the value of the horse destined for fast work. The mechanical, in respect to the outward shape and construction; the physical, as regards the soundness and normal development of the digestive organs and motive power; the intellectual or the will and the energy to put the other two into motion and persevere to the utmost." If the horse has not inherited the three qualities essential to success, if the intellectual, physical and mechanical qualities do not co-operate, he is more or less of a failure, notwithstanding his pedigree, and grave chances are taken in using him in the stud. The thoroughbred horse picks up an unenviable reputation for lack of stamina only when weeds are forced upon the public attention and their offspring is put through the training ordeal. The indiscriminate and wholesale use of weedy animals in the stud is one reason some thoroughbred yearlings go begging for purchasers. In the boom days there was so much of this kind of breeding as to flood the market. Here is another of Count Lehndorff's observations: "The thoroughbred is in a much lesser degree the produce of any particular locality than the cart-horse or even the halfbred; it is rather one of artificial nature, better able to withstand external influence, and capable of being transplanted to all parts of the globe, and continued without essential deterioration; that is to say, as long as its capabilities are tried in public, and as long as the best tried animals are in preference used for reproduction. The thoroughbred stands to the halfbred in the same position as the plantation tree to the wild tree of the forest—the former thrives in any locality where trees grow; the latter feels only at home where it first struck root, for, never having been transplanted, it wants those fibres by means of which to take hold and draw sustenance from the new soil." Organic disease and defects of temper are things to be avoided even when the stallion or mare has made one or more good performances on the turf.

The trotting horse is being built up pretty much as the thoroughbred was built up, by

public speed tests and careful selection in breeding. The speed rate has increased enormously in 25 years, and one reason for this is the co-operation of advanced physical, mechanical, and intellectual qualities. The maximum speed rate is still way behind the maximum speed rate of the thoroughbred, and so long as this difference exists we cannot say that the trotter, under the severest known test, is the equal in stamina of the race-horse, from whom he has absorbed so many sterling qualities.

## The Home of Bourbon Wilkes.

J. W. HUGHES: LEXINGTON, Ky., Oct. 14, 1895.

Dear Sir—I have enough experience with the Speed  
Sustaining Elixir to know that it is a sure cure for thumps. I  
used it on a horse that had one of the most severe attacks o  
thumps I ever saw, and, strange to say, it relieved him al-  
most instantly.

Yours, J. MILLER WARD.

ROCHESTER, N. Y.

ABSORBINE is a sure killer for bunches and cuts.

J. H. GLATT.

nary Sur-  
geon to  
the French  
Government  
Stud.

## SUPERSEDES ALL CAUTERY OR FIRING

Impossible to produce any scar or blemish. The Safest  
best BLISTER ever used. Takes the place of all lin-  
iments for mild or severe action. Removes all Bunches  
or Blisters from Horses or Cattle.

As a HUMAN REMEDY for Rheumatism,  
Sprains, Sore Throat, Etc., it is invaluable.

WE GUARANTEE that one tablespoonful of  
this Caustic Balsam will produce more actual results than a whole bottle of  
any liniment or spavin cure mixture ever made.

Every bottle of Caustic Balsam sold is Warranted  
to give satisfaction. Price \$1.50 per bottle. Sold  
by Druggists, or sent by express, charges paid, with full  
directions for its use. Send for descriptive circulars,  
if desirable, etc. Address  
J. E. LAWRENCE-WILLIAMS CO., Cleveland, O.

## THE GUN.

## The Game Law.

The open season for shooting quail, doves, deer and wild duck as  
fixed by the State law is as follows: Doves, 15th July to 15th Febru-  
ary. Mountain quail and grouse, 1st September to 15th February.  
Valley quail, wild duck and rail, 1st October to 1st March. Male deer,  
15th July to 15th October.

The clerks of all the Boards of Supervisors have advised us that no  
changes have been made this year, but the ordinances passed last  
year hold good if they do not conflict with the State law. The fol-  
lowing counties have not passed any ordinances that alter  
the open season as provided by State law: Amador, Butte, Inyo,  
Modoc, Mono, Mendocino, Mariposa, Nevada, Napa, Plumas,  
San Bernardino, San Diego, San Joaquin, Santa Clara, Sacra-  
mento, Solano, Sonoma, Santa Cruz, Siskiyou, Tehama, Yolo and  
Yuba.

The changes are as follows:  
Alpine—Deer, Sept. 2 to Oct. 15.  
Alameda—Rail, Oct. 15 to Feb. 15.  
Colusa—Deer, Aug. 15 to Oct. 15.  
Calaveras—Deer, Sept. 1 to Oct. 15.  
Contra Costa—Deer, July 20 to Sept. 2. (Use of dogs prohibited).  
El Dorado—Doves, July 20 to Feb. 1.  
Fresno—Market hunting and shipping game out of the county pro-  
hibited.

Humboldt—Grouse and Wilson snipe, Sept. 1 to Feb. 15. Killing of  
waterfowl prohibited between one-half hour after sunset and one-  
half hour before sunrise.

Kern—Shipping game out of the county prohibited.  
Lake—Deer, Aug. 1 to Oct. 1.  
Los Angeles—Shipping game to markets outside of the county pro-  
hibited.

Marin—Deer, July 15 to Sept. 15.  
Madera—Market hunting prohibited.  
Monterey—Deer, July 15th to Sept. 1st.

Orange—Doves, Aug. 1 to Feb. 1. Deer, Aug. 15 to Oct. 1. (Market  
hunting prohibited).  
Riverside—Shipping game out of the county prohibited.

San Benito—Deer, Aug. 1 to Sept. 15. (Market hunting prohibited).  
Santa Barbara—Deer, Aug. 1 to Sept. 14. Use of hounds pro-  
hibited. (Market hunting prohibited).

San Diego—Shipping quail out of the county prohibited.  
San Luis Obispo—Deer, July 15 to Sept. 1. Doves, July 15 to Dec. 1.  
(Use of hounds prohibited. Hunting for markets situated outside of  
the county prohibited).

San Mateo—Deer, July 15 to Sept. 1. (Use of dogs prohibited).  
Rail, Oct. 15 to Nov. 15. (Shooting from boat at high tide pro-  
hibited).

Shasta—Deer, July 15 to Sept. 1.  
Sierra—Deer, Sept. 1 to Oct. 15.  
Butter—Deer, Sept. 1 to Oct. 15. Doves, July 15 to Jan. 1.

Trinity—Deer, Sept. 1 to Oct. 15.  
Tulare—Deer, Sept. 1 to Oct. 15. Shipping game out of the county  
prohibited.

Ventura—Deer, July 15 to Sept. 1. (Market hunting prohibited).

## Empire Gun Club

The trap shoot contemplated for Washington's Birthday  
has been declared off. The club members who desire to face  
the traps on that day will attend the shoot on the Lincoln  
Club grounds.

## CARTRIDGE AND SHELL.

Quail are reported to be plentiful in the vicinity of Tulare.

Geese are very plentiful in the vicinity of Gonzales, this  
State.

L. Bolander made a bag of forty ducks at McGill's last  
Sunday.

D. Walton hunted quail at Ignacio on Sunday. He shot  
two dozen.

The Smith Bros. shot at Roses on Sunday and bagged  
forty-five ducks.

Ducks and geese are reported to be numerous in the hills  
west of Willows.

Ducks were not very plentiful at the Bridges during the  
first of the week.

The Teal Club of Haywards have had good sport on  
their grounds recently.

Billy Hynes and W. Street made a bag of sixty-one ducks  
at Suisun on Sunday last.

Sear's Point gave W. Rumpf the opportunity of bagging  
twenty-two ducks on Sunday last.

W. Price was shooting at Alvarado on Sunday. He brought  
back thirty sprig, teal and spoonbills.

Frank Vernon and C. Rudolph made a fine bag of quail  
each at Point Reyes last Sunday and Monday.

The Moscow Gun Club (Idaho) recently organized, held  
its first live bird shoot on January 22d.

The San Lorenzo Teal Club have completely fenced in  
their grounds. C. R. Vose is the game-keeper.

"Sherman" was the only Black Jack at Antioch last Sun-  
day. He brought down seventy ducks to the city.

Franzen and Sharp returned to town Sunday night with  
fifty-eight sprig and teal looped in their duck straps.

Ed Forster and E. Schultz held down Black Point Sunday,  
they bagged sixty-three and forty-two ducks respectively.

Frank Dolliver and two friends made a combined bag of  
one-hundred and fifty-seven ducks at Point Reyes last  
Sunday.

F. Parks and C. Ford were at Mowry's at the beginning of the week. One hundred and thirty ducks was the combined bag.

W. E. Murdock and H. Klevesahl hunted at Reclamation on Sunday. The combined bag was forty-two teal, sprig and cans.

J. Doe tried Ignacio on Sunday; he bagged fifty cans and teal. W. Doe had his shoot at Sear's Point and he bagged twenty cans.

L. R. Larzalere, J. R. Burfiend and J. Miles were at the Spooney Club grounds. The combined bag was sixty-one sprig, teal and spoonies.

J. L. Fishbeck, well known in the ranks of the trap shooters, has taken his departure for Seattle preparatory to an early trip to the Klondyke.

The members of the Country Club had good quail shooting the first of the week. Several fine bags were made. W. S. Kittle and J. K. Orr made good counts.

J. Shackleton tried the ground in the vicinity of Butcher-town. He shot fifteen teal. This district used to be, in the old days a favorite resort for duck hunters.

One of the hunters in the marsh at Point Reyes last Sunday allowed the tide to cut him off, he missed the train and had to wait until the next day to get to the city. He had about sixty ducks to console himself with.

The Lincoln Gun Club boys at the ark on Sunday had some pretty good shooting. They made the Alvarado shooting grounds contribute as follows: Shaw, forty-one; Klevesahl, twenty; Swan, twenty-four; Carlson, thirty-seven and Le Gal, twenty.

W. N. Wetmore and Chas. Debenham shot on the Pastime Club grounds Saturday and Sunday last. They made a fair bag of cans, teal and sprig. The ducks flew away from that section to the ponds further up the bay shore where they found shelter.

F. E. Miller and P. J. Shipley were on the Pastime Club grounds at Alviso last Sunday. They bagged about twenty birds in the morning shoot. Shipley accidentally dropped his new gun overboard. It was recovered again after being in the water several hours.

On Sunday and Monday last the hunters were out in force. Nearly everybody got plenty of ducks. The wind was strong enough to keep the "quackers" moving from point to point, in some places, though it was a toss up whether the hunters would be blown out of their blinds or not.

The members of the Olympic, Alameda, Empire, Petaluma, and Miramonte Gun Clubs who were on their respective club grounds Saturday, Sunday, and Monday last are reported to have had good shooting, the ducks were flying in every direction and the guns were all kept busy.

Billy Davis, of Yucaipa, on a recent visit to Redlands, reports that there are thousands and thousands of wild pigeons in the bog bottom there, the snow having driven them down from the mountains. Wild geese and ducks are also plenty. The Yucaipa valley is a veritable sportsman's paradise.

The Olympic Gun Club will open the local trap-shooting season on the first Sunday in March. The attraction on that day will be an open blue-rock tournament to be held on the club grounds at Ingleside. The second Sunday will be devoted to a club blue-rock shoot and an open shoot at live birds.

We regret to chronicle one of those untoward shooting accidents that happen at times in spite of all precaution. Frank Buckner took a shot at a lark, on the ground; a glancing No. 4 shot struck Otto Braunsdorf in the left eye, making a painful wound. It is feared Braunsdorf will lose the sight of his eye.

Last year, premiums were paid on only 171 wolves killed in France, as the number has been steadily decreasing. In 1890 the number was 461, in 1835 it was 900, and in 1803, the first year in which premiums were offered, 1396 were found in six departments, Charante, Dordone, Meuse, Correze, Vosges and Haute Marne.

The Wheatland Four Corners notes shooting chances in that vicinity as follows: Very little duck hunting has been done this week, though there are thousands of ducks feeding on the farmers grain, they "cannot be worked" as the hunter says. The small boy and novice still continue to find pleasure and a few ducks by ground sluicing on the creeks.

An innovation in the small arms trade has been made by the famous gun works of Krupp, which recently has produced a special steel particularly suited for gun barrels. By its use the barrels are made very light, but lose nothing in point of strength, and are particularly suitable for use with concentrated or other nitro powders.

John J. Hallowell holds the record for the longest consecutive run of breaks on inanimate targets for the year of 1897. Last September, at Portsmouth, N. H., during the second day of the Interstate Association's tournament in that city, Mr. Hallowell scored the last 154 targets in the programme events without making a single miss. The longest run that has ever been made is credited to Rolla O. Heikes, who made 180 straight at Corry, Pa., a few years ago.

The golden eagle is getting to be a scarce bird in Southern California; however, one of the beautiful birds made its appearance on the ranch of Attorney Chas. R. Gray, four miles southeast of Riverside last Saturday, and became the victim of a gun shot. C. G. Warren, who killed the bird, says it was a beauty, and measured six feet from tip to tip. The prize was brought to town, and is now in the hands of the taxidermist, who will shortly have it mounted and put on exhibition in a display window.

The Redlands Gun Club held a medal shoot at their grounds in Lugonia, Saturday afternoon, January 15th. George B. Ellis winning the gold medal and F. E. Richardson the silver one. Thirty shots were needed to decide the contest, as Messrs. Ellis, W. T. Gillis, and F. E. Richardson broke 21 each of the regulation 25 birds. Of the additional five Mr. Ellis broke four and Messrs. Gillis and Richardson

three each. Mr. Gillis waived all right to the silver medal and Ellis and Richardson will wear the tokens of skill until the next shoot. About a dozen members participated and renewed interest is being manifested in the shoot.

The Redlands Gun Club held their annual meeting on January 17th. The following officers for the ensuing year were elected: Directors, Gus Knight, W. H. Stewart, J. H. Fisher, W. T. Gillis, E. B. Mallers, and S. Williams. Gus Knight, president; W. H. Stewart, vice-president, and J. H. Fisher, secretary and treasurer.

Great preparations and plans are being made for the coming year, and a live bird tournament for all clubs in Southern California is one of the events contemplated. The end of the first year sees the club in a thriving and growing condition, there is now about thirty members on the roll.

Matters are not running smoothly in connection with the Suisun Gun Club and as a consequence the Tomassina and Pringle Ponds are being invaded daily by a large number of local hunters. This chaotic state of affairs was caused by some members disregarding the rules to an extent which induced others to announce that no objection would be lodged against outside parties hunting on the leased territory during the remainder of the season. There is some talk of reorganizing but as was stated in a recent issue, the Peyton pond has been leased for next season by an organization of sportsmen which will be governed by rules extending equal privileges to the members and will start on a firmer basis to ensure tranquility and satisfaction.

An energetic movement is on foot to organize the gun clubs of Greater New York and the clubs of Newark, N. J. and other places in that vicinity into an organization to be known as the Greater New York and New Jersey Trapshooters' League. The idea is to limit the membership of clubs to twelve, one shoot a month being held during the year, and upon different grounds each month, the clubs then acting as hosts in their turn. Yearly prizes for team shoots and for individuals will be given, and a system of handicapping will be introduced by which the weaker clubs can be placed on something like equal terms with stronger organizations. Philadelphia and Chicago have similar organizations, and in both cities much good has been done to the sport of trap shooting by the monthly sociable gatherings at the different clubs' grounds. The trap shooters of New York and New Jersey feel that they should have something of the kind, too, and are not above following a good example.

### An Exciting Adventure Between a Cowboy and a Mountain Lion.

A story of a desperate battle between a cowboy named Skelley and a mountain lion is told in the Phoenix Herald of the 18th. Skelley, it seems, was driving slowly along a trail about fifteen miles above the mouth of the Verde last Friday night about 10 o'clock. All at once his horse manifested signs of uneasiness and showed a disposition to bolt from the trail. Skelley urged him forward with his spurs, but the animal began to tremble violently and was with difficulty managed. Skelley is an expert horseman and although unable to account for his steed's strange behavior, was determined to push forward, and applied the rowels continuously.

When opposite a large rock which jutted over the trail the horse whinnied with fear and shied. There was a rushing sound through the air and the next instant the horse was borne to the ground with a mountain lion hanging to his neck. The rider was also borne to the ground but quickly regained his feet and presence of mind and pulling his revolver from its scabbard he held the weapon to the head of the lion and pulled the trigger. The beast clawed savagely at the horse's neck and expired. It was found necessary to kill the poor horse, as his neck was terribly lacerated.

It will be a long time before Skelley forgets that night's adventure and his narrow escape from death, for if the lion had leaped on him instead of the horse he would have never lived to tell the tale.

### Regarding Fish and Game in Fresno.

In his quarterly report to the Supervisors, Fish and Game Warden Ferguson, of Fresno, represents that the Board of Fish Commissioners has not yet found a screen or plan of screening to successfully shut out small fish without interfering most seriously with the flow of water into the canals. Evidently it would be an injustice to the canal companies to order screens put in at canal inlets when no successful plan of screening has as yet been brought forth. A possible way out of the difficulty suggested by him, and an experiment which will be tried, is the placing of fish ladders in all main drops to enable the fish, when the water begins to fall, to return up the canals and into the river. The details of the plan he will submit in a later report.

Reference is also made to the liberation on the Blasingame ranch, thirty-five miles east of Fresno, of the first consignment of ring-neck Mongolian pheasants. Other shipments are expected for liberation in suitable localities where different local conditions as to food, cover, etc., prevail, in order that every opportunity may be afforded for the successful introduction of this splendid game bird.

Several arrests were made for the violations of the fish and game laws. The two arrests for using seines resulted in acquittals on the showing that the seining was in a navigable waterway and therefore not under county jurisdiction.

### The Sportsmen's Exposition.

Madison Square Garden has been thronged with sports-lovers of every description since the opening of the Sportsmen's Exposition, and, in point of attendance, this year's exposition has quite maintained the enviable record made in previous seasons. In general excellence of get-up and arrangement, the present show eclipses anything of its kind ever before seen in this country. The variety of interesting exhibits presented to the looker-on is almost beyond description, and, whether one bowls, cycles, shoots, fishes, camps out, or what not, one may rest assured that some nook of the great show contains that which will please and instruct him in his specially beloved branch of sport.

### Visalia Trap Shoot.

At a complimentary farewell shoot given by E. E. McVeagh before entering the employ of Miller, Sloss & Scott, the following scores were made Sunday, January 16:

Event No. 1, 15 birds—Wild, 9; Gilmer, 10; Buckman, 9; Hunt, 9; McVeagh, 11; Weaver, 11; Chatten, 11.

Event No. 2, 20 targets—Wild, 17; Gilmer, 14; Buckman, 16; Hunt, 8; Chatten, 9; Warner, 2; McVeagh, 15; Weaver, 16; Jones, 10.

Event No. 3, 20 targets—McVeagh, 11; Weaver, 18; Wild, 10; Chatten, 11; Gilmer, 15; Buckman, 13; Hunt, 14.

Event No. 4, 20 targets—Wild, 15; Chatten, 11; Gilmer, 18; Buckman, 17; Hunt, 14; Warner, 6.

### A Good Shot.

Miss A. J. Driscoll of Mission San Jose is a nimrod whose prowess with the rifle has won her the admiration of the whole country side. A few days ago she took a shot at a lynx at 300 yards and brought the animal down at the first fire. It was a large specimen and measured thirty-eight inches from tip to tip, stood fully eighteen inches high when alive and weighed twenty-four pounds.

### Rabbit Bounty.

Riverside county, on January 6th, passed an ordinance providing for the destruction of rabbits within the county boundaries and allowing a bounty of five cents per scalp upon all rabbits killed between the first day of February and the first day of May 1898.

### Los Gatos Gun Club.

At the pigeon shoot of the Los Gatos Gun Club held recently the following score was made: Dr. Rice 17, Harry Finley 17, Mel Powell 24, F. F. Watkins 20, Dr. Knowles 18; R. L. Hutchison 21.

Jim Maynard, a popular number of the well-known Black Jacks, went up to Duttons last Saturday. Jim claims that he had an ideal shoot Sunday, he bagged fifteen mallard, fourteen sprig, one wildgeon, one gray duck and ninety-seven teal, a total of one hundred and twenty-eight ducks, with never a flock or sitting shot fired. Monday he bowled over thirty-four ducks on the rise of the tide, and then running out of shells he had to give up the game. Jim used his favorite L. C. Smith gun over ground that is frequently hunted on by C. J. Legro, who is one of the oldest and most experienced hunters in the State, and an old-time hunting comrade of Jim's.

## ROD.

### Coming Events.

Feb. 8.—Regular semi-monthly meeting of the San Francisco Fly Casting Club. Office of State Fish Commission, Flood Building, San Francisco.

### NOTICE TO ANGLERS.

Every angler is invited to drop us a line occasionally, telling us of the condition of the streams they have visited and the killing lure of the number and size of the fish caught, or any other item of interest to anglers.

Few steelhead were caught at Point Reyes on Sunday.

"Andy" landed five hookbills and "Doc," Watts only one at the Point on Sunday.

Henry Drake and Edward McMichael arrested for illegal seining in Elkhorn Slough, have been held over to appear before the Superior Court, by Justice Clark of Castroville.

"June Bug" is the champion hookbill angler. He can land more of these fish in quicker time and make a greater hurrah over the catch than any other fisher at Point Reyes.

A remarkable eel has been discovered in the Fiji Islands. It has a peculiar formation in its throat which causes it to whistle when in an excited state. The eel is fifteen feet long and several inches in girth.

A fish never renews its scales. A wound may heal up and be covered over with a thick protective skin, but nature provides the fish with only one suit of scale armor, and leaves lost out of that are never restored.

A swordfish weighing 2,070 pounds was lately brought to the market at Taiping, in the Straits Settlements. It was thirty feet long, the flesh and bones weighed 900 catties, or 1200 pounds; the fat 230 catties, the entrails 400, and the sword 30 catties.

The National Fishing Congress met at Tampa, Florida, on January 19th. This is doubtless the largest gathering of sportsmen ever assembled in the interest of fish culture, and undoubtedly a great deal of good will be accomplished in the interest of fish propagation and protection. Most all of the States are represented in this congress, and a large number of foreign delegates are also present. The Tampa Board of Trade and the city officials have arranged a programme to make the visitors comfortable in every respect.

### Russian River Notes.

The steelhead fishing on the river has been first class since the bar opened. Favorable reports have come down from day to day and accounts of fine fishing in general and individual coups in particular have kept the stay-at-homes on pins and needles for the past ten days. A special train will probably be run up to Russian River Station to-night. Capt. George Cummings was credited with being "high hook" up to the date of the latest news from the anglers.

Among the Waltonians who have been thoroughly enjoying the situation we note, Fish Commissioner A. T. Vogel-sang, Chief Deputy J. P. Babcock, Jno. Butler, Del Cooper, Al Wilson, "Doc" Simpson, Fish Commissioner Gould, Jno. Gallagher, W. D. Mansfield, Chas. Green, Capt. Geo. Cummings, Dr. Cox, and J. T. Ferry. The combined catch of steelheads has been a large one.

### They Came Not—The Coast Gentlemen Who Did Not Show up.

Deputy Fish Commissioners, J. H. Davis and H. Lowe, came up from San Francisco Saturday. They came to attend the hearing of W. E. Munsell and W. J. Thompson of Duncan's Mills, who were charged with illegal securing of fish.

The fish officers, however, did not have to testify in the case, for the men, who had given bonds for their appearance in Justice Brown's court, came not in when their names were called. Thus are their bonds become forfeit to the State.

The State officials were sorry that the fishermen did not come in, for they wished to have the trial proceed. The seines the officers seized were what are called seven and one-eighth inch mesh, while in tidewater the law prohibits them from using any nets of less than seven and one-half inch mesh—Santa Rosa Press Democrat. Thus endeth the story with two chapters.

## THE KENNEL

### Coming Events.

#### BENCH SHOWS.

Jan. 26-29, 1898—State Poultry and Kennel Club's second bench show Sacramento; Matt. Coffey, secretary.

Feb. 15—New England Kennel Club's fourteenth annual show, Boston. James L. Little, Sec'y.

Feb. 21—Westminster Kennel Club's twenty-second annual show, New York. G. de F. Grant, Sec'y.

March 9—St. Louis Kennel Club's third annual show, St. Louis, Mo. Wm. Hutchinson, Sec'y.

March 15—Northwestern Kennel Club's dog show, St. Paul, Minn. E. D. Brown, Sec'y.

Mar. 31-Apr. 1-3—Santa Clara Valley Poultry and Kennel Club—California Collie Club bench show at San Jose, Cal.; Chas. R. Harker, Secretary, San Jose, Cal.

May 19-21. San Francisco Kennel Club's bench show, San Francisco. H. H. Carlton, Sec'y.

#### FIELD TRIALS.

Feb. 7.—Alabama Field Trial Club's second annual trials, Madison, Ala. H. K. Milner, Sec'y.

#### COURSING.

Jan. 29-30—Ingleside Coursing Park. Regular meetings every Saturday and Sunday and holidays.

### Pacific Coast Field Trials.

The fifteenth annual field trials of the Pacific Field Trials Club commenced at Bakersfield last Monday, January 24th.

The sportsmen left Bakersfield at 8 A. M. for the preserve which is the property of Mr. W. S. Tevis and is distant about fourteen miles from town. An exceedingly sharp wind from the snow-capped mountains made driving anything but a pleasant pastime, and when the garden spot was reached little time was lost in settling down to business. The scarcity of birds delayed matters somewhat in the start. Col. Arthur Merriman, of Memphis, Tenn., and Judge C. N. Post, of Sacramento, a veteran sportsman, were in the saddle and officiated as the judges. Out of twenty-two entries only eight starters put in appearance for the Derby. There was a large attendance of enthusiastic sportsmen and speculation was keen as to the probable winners of the trials.

On Wednesday evening at a meeting of the club the following named gentlemen were elected officers for the ensuing year: President, Henry Keller of Pasadena, re-elected; First Vice-President, J. E. de Ruyter, San Francisco; Second Vice-President, W. S. Tevis, Bakersfield; Secretary and Treasurer, J. M. Kilgarriff, San Francisco; Executive Committee—Joseph Terry and C. N. Post of Sacramento, John Schumacher of Los Angeles, John Schreiber and Andrew Jackson of San Francisco.

#### THE DERBY.

The first brace put down was Frank Maskey's Lady Rods Chaff and Verona Antonia. Maskey handled his own dog and R. M. Dodge took charge of Verona. The ground was fairly open. The dogs ranged rather wildly at first, but soon got down to work. The Lady covered her field closely, while Verona ranged too far from her handler and ran somewhat wildly. It was some time before they found scattering birds in the sagebrush. Both flushed repeatedly. Finally the Lady drew on point, but the bird flushed before the handler got within shooting distance, and the Lady chased feather. Antonia backed well and was steady when the bird flushed. It was fully one hour before the birds were again found. Several false points were made, as the birds ran on the approach of the sportsmen, thereby puzzling the dogs. After being down one hour and fifteen minutes the dogs were ordered up.

Len Owen's pointer Glenbeigh III, handled by Allender, and Keller's setter Hope T, handled by Waters, were put down at 11:30 o'clock. Glen ranged well, but it was an hour before game was found. Hope T pointed and flushed, then Glen pointed falsely and was backed splendidly. Glen pointed again, but the bird flushed instantly, the setter backing beautifully. Glen scored another false point. After this both dogs grew wild and ran over their birds. Hope T came to a false point and Glen failed to back. The dogs were ordered up at 1 p. m., when intermission for lunch was called.

At 1:50 p. m. the pointer Alex C, handled by John E. Lucas, and Dr. Browning's Irish setter Teal, handled by its owner, were put down in tolerably heavy cover. The setter worked stupidly, ranging with head down and missing many opportunities to locate feather. Alex ranged beautifully, covering his ground well and traveling very rapidly. Runners were soon found and the pointer made several false points, but quickly brought up stance on a bird, which Lucas missed. The dogs were ordered up at 2:45 p. m.

At 3 p. m. W. S. Tevis' Cuba of Kenwood, handled by Dodge, and W. E. Chute's Patti Crototh C, handled by Stone, were put down, but birds were very few and far between. It was one hour and a half before a small bevy was discovered. The birds ran like roadrunners before the dogs reached them. Cuba pointed and flushed and Patti failed

to back. Then Patti pointed and flushed. Both dogs ranged very well. They were ordered up at 4:15 p. m.

Hope T. and Glenbeigh III, were put down a second time on scattering birds. Flushes were frequent, neither dog showing very good bird sense. They were ordered up after each had pointed and flushed.

If the birds will not lie better to-morrow the sportsmen do not expect to witness any fancy work, especially in pointing and backing.

The dogs that have been selected under the spotting system to finish the final series are: Lady Rods Chaff, Alex C. and Cuba.

BAKERSFIELD, January 25.—The first brace put down this morning in the second series of the Derby were Alex C. and Lady Rods Chaff, both handled by their owners. Alex displayed the best speed, but the Lady excelled in style and fully held the pointer's level on range. The bitch was first to find birds. She pointed, then flushed the birds, and broke in. An instant later Alex C. made a bevy point, then receded and pointed again. Lady was called up to back and herself came to a point before she reached the dog. Lady backed a point by Alex on a rabbit. Birds were flushed at a distance, and Alex stiffened on a beautiful point. Lady was called up and backed. Lucas shot without killing, and Alex stood ready. An instant later Lady whipped in a pretty point, but flushed and ran in, a performance which gained her a taste of the whip.

The dogs were ordered up at 10:40 A. M., after being down forty-one minutes. At this point the race for first honors was conceded to be between Cuba of Kenwood and Alex C.; Cuba was ordered up and ran half an hour alone. He showed good range and speed, as on the preceding day. The first birds found were running, and made a good sized bevy. Cuba ranged but was at fault in failing to locate the birds. He moved on to new ground, pointed a bird, and stood ready to shot. A bevy was found running and handler Dodge fired two barrels, hoping to cause a flush. Cuba was steady, and when ordered in hunted well until ordered up.

The deciding race between Alex C. and Cuba was commenced at 12:11 P. M., and lasted forty-five minutes. Birds were found in good style and the dogs put up some nice work, Alex C. winning on points.

There was no trouble in finding birds, and opportunity was offered for a test of speed, range, nose, and bird-finding quality, and Judges Merriman and Post had no difficulty in reaching a decision.

Alex C., the pointer dog entered by John E. Lucas of San Rafael, proved the winner. W. S. Tevis' Cuba of Kenwood, also a pointer, won second place, while Frank Maskey's English setter bitch Lady Rods Chaff came third.

The winner is a handsome liver and white dog of medium size. He was sired by Glenbeigh, Howard Vernon's famous pointer, and is out of Saddle Bags, a high class bitch owned by Alex Colvin.

The blood of Glenbeigh is also represented in Cuba of Kenwood, he being by Glenbeigh Jr., a son of old Glenbeigh. The pointer winners are both high class dogs, and in their victory Mr. Vernon will find partial compensation for the death of his own dog through, it is claimed, accidental poisoning.

Lady Rods Chaff, by winning third place, also takes the silver cup offered by Arthur Bennett as a prize for the best English setter in the Derby.

#### ALL-AGED STAKE.

The all-aged stake was next in order. After luncheon Count Harold, handled by W. O. Counts of Kenwood, met Bueno, the only pointer in the trial, which was handled by Geo. Allender. The dogs were put down at 2 P. M., on good ground, but it was some time before Bueno pointed stanchly and the Count refused to back. Allender fired and both dogs remained steady to shot. Bueno pointed again, but the bird ran and flushed after running a few yards. The Count ranged splendidly, but showed poor nose and poor judgment. The dogs were called up at 2:40.

Nimrod E., handled by Allender, and Dona Alicia, handled by Walters, were put down at 2:50, in a country profuse with sage. The birds were very unsteady and continued on the run, but Nimrod was not to be denied a place. He kept on the windward side of his game and by roading he again drew a point. Dona Alicia had also pointed in a crouching position, but the birds would not lay. Finally Dona pointed. Walters flushed and missed. Nimrod was going like an old Trojan and roaded a runner for several yards, finally pointing stanchly. Allender shot and crippled the bird. Dona again pointed and was well backed. They were ordered up at 4 o'clock.

The great event of the day came next. It was the putting down of Champion Dash Antonio, a double time winner of the International cup, run at Mitchell's Bay, Canada, and also a winner of the Manitoba all-aged stake and other important events on bench and field. He was handled by William Counts of Kenwood, Sonoma County. Hopp, a Portland dog, handled by Dyce, was his opponent. The dogs were put down on an open piece of ground with enough cover so that the spectators could see every point made. The Portland dog was first to locate birds, but after being shot over, he grew excited and ranged wildly. Scattering birds were found. Suffice it to say that Dash electrified all observers. His work was perfect. He made point after point and roaded his birds time and again fully 400 yards, pointing stanchly and holding steady to shot. The manner in which he covered ground, coming to a point like a snap when under full swing, was simply grand. The great dog made not a single mistake, scoring at least forty points while down. The critics took their hats off to him and acknowledged that he was the greatest field trial dog they had ever seen. Dash was finally lost after having roaded birds fully half a mile. He was discovered at a late hour, by one of the party who was looking him up, in a small gully stance on point and waiting for orders.

BAKERSFIELD, Jan., 26.—The third day of the field trials broke clear and cold, and the drive to the grounds was made over hard frozen ground. The start was made late, even later than yesterday, and the grounds were not reached until almost 10 o'clock, after the birds had finished feeding and had taken to cover.

At 10 A. M. the trials began, the first brace down being Verona Kennels' Gleams Ruth, handled by Dodge, and Caesar Young's Luke, handled by Counts.

Gleams Ruth was not handled with the best judgment, as Dodge cast her off directly away from the birds, some time being lost before she was sent in the right direction. In the meantime Luke roaded up and nailed another single in splen-

did style. The bird flushed wild and he was sent in and pointed out again, Ruth coming up, backed perfectly. The next point was Ruth's, which Luke backed. Dodge killed the bird, which was promptly retrieved. Luke pointed, and was backed by Ruth, after which both dogs worked toward a dry ditch where birds were plentiful.

Ruth here did a clever piece of roading, following her bird across the open to a piece of cover, where she pointed, but the bird flushed before she was reached by the handler. The fast work began to tell on Ruth, as she is quite heavy in whelp and her work grew uncertain. The old veteran kept up his task and showed the advantage of experience, following the edge of the ditch and carefully working out every piece of likely cover. His work, though not brilliant was of a snappy character, while Ruth drew into her game in a hesitating and uncertain manner. They were down one hour.

The next brace put down were J. Schumacher's Valiente and W. S. Tevis' Cuba of Kenwood, winner of the second place in the Derby. Cuba was handled by Dodge and Valiente by Walters. Both dogs went away with great speed and began quartering their ground in good shape. Valiente soon made a wide cast, then disappeared over a ridge and did not return. A halt was called and the handler was sent on horseback to search for him.

[The conclusion and proper summaries of the trials will appear in our next issue.]

### CAPABLE COURSING.

#### Dogs of Degree Running in a Big Open Stake.

This week's coursing at Ingleside embraces a notable entry from all parts of the coast and from the East. It is another open event, and the entrance fee is only \$2.50. In consequence, the conditions are more than usually numerous, and among them are the flyers. It is a hard stake to pick. The BREEDER AND SPORTSMAN will show in its daily issue of today the best of the lot and the likeliest of the winners.

Captain Morse, in his running last week, showed himself to be too old for the work cut out by the dogs at present in the game.

Carl Dewlaney's Fleetwood showed up in great form last week, but when he had annexed third money he seemed to fall to pieces. Fleetwood is both fast and clever. He should be given more stamina.

Terry Butler's Susie put up an even better run last week than has been her custom—and that has been warm. She is a bitch that can be looked on to land a stake very shortly.

Wm. McCaffrey, trainer for the famous Curtis kennel of Santa Clara county, was noticed cashing several tickets at the horse park last Tuesday and Wednesday.

Curtis & Son have Lady Campbell in the running again today. Last week she was put out by Fleetwood. Today Fleetwood would have hard work to duplicate the trick.

E. H. Mulcaster has reached the coast. "Mul" is one of the most noted trainers in America. He brought with him a string of five flyers, including Vanity Fair, Harvest Maid, King of the Hills, Hot Time and Mountain Belle.

The winning of the stake by Rosette last Sunday was very popular. Rosette and Cavalier are certainly the best puppies that have been shown on a sward for many years. They won everything in the puppy events. They are yet but little over puppy age, but they have both won over old dogs while under age, and they seem able to keep it up.

Several of the representative Sacramento leashmen have been in the city during the week, also one or two from Merced. Devine of Sacramento and Collins of Merced both met a BREEDER AND SPORTSMAN representative. Said Mr. Devine: "One day's coursing at Ingleside is worth a week's sport anywhere else." Said Mr. Collins: "The coursing at Ingleside is the acme of the sport. With Judge Grace in the saddle we know when a dog wins."

Kay and Trant are reported to have their string in the best of shape. If they are in condition they are the best that can be found in America.

J. Sexsmith's Vigilant is one of the fastest performers on the local sward. He is alleged to be of short sight and has shown himself such on one or two occasions. But look out for him at any time.

A representative of the BREEDER AND SPORTSMAN has purchased a flyer, and will hereafter trot him as a "good one." He is in to-day.

### DOINGS IN DOGDOM.

A large number of dogs, principally pugs, are dying from distemper in Santa Cruz.

W. B. Frue has been rather unfortunate in the litter of collies, by Mascot—La Creole, a dog and bitch only are left out of the twelve whelped, despite the great care and attention given the pups and bitches by Tyler Beach and Miss Della Beach.

A band of thirty-five dogs are now being trained and broken to harness at Livermore, Alameda county to convey supplies during the early spring to Dawson City via Dyea and the Chilcoot Pass. Each of these dogs is expected to drag 200 pounds of provisions.

MERIDEN, CONN., Jan. 29.  
DR. H. CLAY GLOVER—Dear Sir—In using your Distemper Cure for distemper in dogs, I have never had a failure to cure, if taken when the dog could stand on its feet, and in several cases when they could not stand. Have had nearly one hundred cases. Yours truly, J. A. THOMAS.

There will not be a dog show in Chicago this year. At a recent meeting of the Mascotash Kennel Club, Chairman Gunn reported that it was impossible to find a building suitable for holding a show this season. For past shows Battery D Hall had been used, but the recent decision of the Illinois Supreme Court prohibits the use of that building for all exhibition purposes. No other building is available in Chicago at present.

Non-winners of a sweepstake allowed 5 lbs, and if such have not won two races (selling purse races excepted) 8 lbs. **Five furlongs.**

ENTRIES TO ALL THE ABOVE STAKES TO CLOSE FEBRUARY 21st.

Stakes for Montreal Meeting, July 14th to 30th, will appear in this space next issue. Address entries to

WALTER O. PARMER, SECRETARY, 215 HAMMOND BLDG., DETROIT, MICH.

# ZOMBRO, 2:11, THE GREATEST TROTTER IN AMERICA,

Has trotted 40 heats as a three-year old better than 2:27 1-2, 31 in 2:20 or better, and 12 in 2:15 or better. Won 13 races out of 17 starts as a three-year-old, and a total of \$5,400 in his three-year-old form.

ZOMBRO, 2:11 (Registered No. 28,029), brown stallion, foaled in 1892, stands 16 hands high and weighs 1,200 pounds, and is one of the most perfect formed horses in America. His career on the turf in 1895 stamps him as one of the greatest three-year-olds the world has ever seen.

ZOMBRO, 2:11, sired by McKinney, 2:11½, son of Alcyone, by George Wilkes.

ZOMBRO, 2:11, first dam Whisper, by Almont Lightning, son of Almont 33, dam by Mambrino Pilot 29.

ZOMBRO, 2:11, second dam May Berry, by Kentucky Clay 191, whose dam is also the dam of Mambrino Patchen and Lady Thorne, 2:19½.

ZOMBRO, 2:11, third dam by Edwin Forest 49.

Whisper, the dam of Zombro, was bred and raised by Gen. W. T. Withers, of Lexington, Ky., and is a handsome brown mare, 16 hands high, weighing 1,150 pounds. She has never been beaten in the show ring, always carrying off first prize.

ZOMBRO, 2:11, won the first prize over all three-year-old stallions at the Horse Show in San Francisco in 1895.

This grand stallion will make the SEASON of 1898 at SACRAMENTO RACE TRACK, from FEBRUARY 1st to JULY 1st, 1898. Terms, \$50 cash at the time of service, with usual return privileges.

GEO. T. BECKERS.

## BREEDERS' DIRECTORY.

YERBA BUENA JERSEYS—The best A. J. C. C registered prize herd is owned by HENRY PIERCE San Francisco. Animals for sale.

## SKY POINTER

Allowed to be the handsomest son BROWN HAL has ever sired; dam SWEEPSTAKES, the greatest broodmare in the world. Full brother to STAR POINTER, 1:59½. Will stand this coming season at the stable of L. J. H. Hastings, owner, near race track gate, Los Angeles. Terms \$50. A. A. Cleveland, Manager. Address, 827 Figueroa Street, Los Angeles.

## TO LEASE.

Several promising thoroughbreds, two and three year-olds, to responsible person. For further particulars, address "L. C. F." this office.

THREE DOLLARS A YEAR

## FURTHER SUGGESTIONS.

### Another Correspondent Who Has Ideas on the Subject of Improving Harness Contests.

EDITOR BREEDER AND SPORTSMAN.—Anent the much discussed question of laying up heats, the 100 yards distance, and the many other alleged causes of long contests on trotting tracks, I would offer the suggestion that perhaps some of the trouble is due to two causes, viz: Betting on heats and too many moneys. The first has been discussed so often that there is but very little to be said on the subject. All admit that it does harness racing no good and is one of the inducements to laying up heats. The abolition of heat betting will help a little, but to remove entirely the temptation to lay up a heat for the purpose of influencing the odds in the betting, there must be no betting at all after the horses get the word in the first heat. Such a radical change from the present style of laying wagers would not be received with pleasure by the betting public or the horsemen, and consequently in my opinion is not a practical remedy for the evil.

The cutting up of a purse into four moneys was devised on that time-honored and good old principal of doing the greatest good to the greatest number. It has certainly resulted in a saving of entrance money to one more contestant in each race, but it has also induced owners to start horses against their judgment, knowing that they could not win, and simply with the hope that entrance money could be saved.

Those who have attended trotting meetings here in California during the past few years, and looked for the cause of its decline, are nearly unanimous in the opinion that the long drawn contests (unpopular except to the few who hold winning tickets) are one of the principal causes of complaint, and the laying up of heats is another. Abolish these, finish every day's sport by 5 o'clock, have five or more honestly conducted dash races each day and in my humble opinion harness racing will assume its old popularity and draw the crowds.

First, to abolish the long drawn contests abolish the heats, and reduce the number of moneys. Here is a sample of how I would fix it.

Trotting, 2:25 class, purse \$250, of which \$50 to second and \$25 to third—dash of one mile. No entrance. If there are more than eight entries the association reserves the right to divide the horses and make two races at \$250 each.

Second, to assure honest contests, have a presiding judge employed by the association who is thoroughly competent and trustworthy, a starting judge also employed by the association who understands his business, and a Board of Stewards composed of members of the association whose duties it shall be to devote their entire attention to making the sport clean and upright in every particular and with power to investigate all charges and complaints filed in writing, and signed by owners, drivers, or parties interested in any way in the result of a race.

These are certainly radical changes, but if they assist materially in inducing drivers to get their horses to the wire first, and when the fellows who don't do it are brought up with a round turn by the presiding judge or the board of stewards and are set down or ruled off, there will be a boom in trotting and pacing circles that will place the sport back in the position it once occupied, viz: The best and most popular of all American outdoor amusements.

Respectfully,  
A LOOKER ON.

A MARYSVILLE subscriber, who evidently has good reason for being indignant, sends us the following: "The trainer or driver or groom who has horses under his care and throws a little hay or grain to them at half-past four or five in the evening and never sees them again until after six and sometimes seven in the morning, and then jerks them out to work before they have had time to finish eating, should have a shovel or an axe taken to them by the owner. They are more numerous than many imagine." To keep horses in health there is nothing like late and early feeding. The long night fast, which is unnatural to the horse, who is a nocturnal feeder, is bad, and the going immediately into hard work on a full stomach is worse. The man whose horses look the best in condition, brightest in their skins and coats, and enjoy the greatest freedom from disease, is the man who is at the stable early in the morning—a full two hours before the horses are brought out to work.

## The Blood of Glencoe.

Mr. C. Bruce Lowe advances the opinion that without the blood of Glencoe, Lexington would have been a failure as a sire. In view of this statement a condensed history of Glencoe may prove interesting. Glencoe was bred by Lord Jersey in 1831, and was by Sultan, son of Selim, son of Buzzard, dam Trampoline, by Tramp, out of Web, daughter of the famous Waxy. Tramp was a bay horse, who ran successfully in England, and he sired many horses that won distinction, such as Barefoot, Zinganez, Lottery, Liverpool and Dangerous. His temper was vicious in his old age, and he was difficult to handle. At Howland Bridge, Yorkshire, in December, 1835, he was destroyed. Glencoe stood 16 hands and was a beautiful chestnut, with hind legs white half way up to the hock and a large star in forehead. His head was rather large, with Roman nose, his shoulders oblique, his hips broad and very muscular, and he had a good barrel with plenty of bone and substance. One of his victories on the English turf was the Gold Cup, at Ghywood, July 31, 1834; another was the Gold Cup, at Ascot, June 18, 1835. He started nine times and won seven races, and the value of his prizes was \$33,000. He was withdrawn from the turf after the race for the Gold Cup at Ascot, and shortly afterward was purchased by Mr. James Jackson, of Florence, Ala., and brought to this country in 1837. He remained in the South until 1848, when he was taken to Kentucky, having been purchased by Mr. Frank Harper. In the summer of 1857 Mr. Harper sold Glencoe for \$3,000 to A. Keene Richards, of Blue Grass Park, Georgetown, Ky. Mr. Richards explained at the time of the purchase that he desired to mate with him Margrave and Leviathan mares. Soon after the transfer of Glencoe to Blue Grass Park, the horse was made sick by a feed of sour oats, and he died of colic. This was in August. Previous to his death he was apparently full of vigor, although his back was badly swayed. He was ridden every day for exercise. He literally died on his feet, and was buried in the garden of Blue Grass Park by the side of Peytona, his famous daughter. One of his daughters earned great fame in England. Pocahontas produced Stockwell, Ratanplan and King Tom. Conspicuous among the get of Stockwell were Lady Augusta, Achievement, Lord Lyon, Blair Athol, Caller On and Doncaster. Stockwell, Mr. Lowe remarks, was curiously inbred to the best family in the Stud Book, and no surprise is expressed that he "stands out conspicuous among his contemporaries as a splendid exponent of both sire and running strains, which was the real secret of his being so catholic in his matings." From the loins of King Tom came Kingcraft, Great Tom and Phœnix. The two latter were imported to this country and are highly successful in the stud. Among the products, daughters of Glencoe in America we may name Reel, Magnolia, Topaz, Nebula, Novice, Rhoda, Fanny King and Nannie Lewis. War Dance, the best producing son of Lexington, was out of Reel, daughter of Glencoe. Conspicuous among the sons of Glencoe were Vandal, Star Davis and Wild Irishman. The latter ran second to Lexington in the mile heat race at the 1853 Spring meeting of the Kentucky Association and behind him were Vandal, Blonde and Hebron. This was the first time that Lexington ever started. Wild Irishman was foaled in 1850, his dam was Mary Morris, by Medoc. Mr. A. B. Conger purchased him after the war and placed him in his trotting stud, Waldberg, near Haverstraw. His fee was fixed at \$100, but owing to his surroundings, very few thoroughbred mares were bred to him. He left a number of highly formed sons and daughters out of trotting mares, but Mr. Conger was more theoretical than practical and they failed to achieve anything important in his hands. The career of this good son of Glencoe was hampered by environment. Without doubt Glencoe was one of the best horses ever imported to this country and one of his most noted descendants is Hamburg, who was got by Hanover, son of Hindoo, son of Virgil, son of Vandal, son of Glencoe. Previous to the fire that destroyed the library and picture gallery of the Turf, Field and Farm, a painting of Glencoe looked down upon our visitors and attracted much attention. It was painted by Troye a short time before the stallion died, and it represented him in the aere and yellow leaf. Any one looking at would say that Mr. Richards got a little the worst of the bargain when he paid \$3,000 for the horse. The ribs showed plainly through the tightly drawn skin and the back had a rainbow curve.

## A Supervisor's Excuse.

EDITOR BREEDER AND SPORTSMAN:—Crossing on the ferry to Oakland one day last week I chanced to meet one of the Supervisors of this city, and in the course of a chat with me I brought up the subject of the new ordinance to prohibit poolselling and bookmaking lately introduced into the body of which he is a member, and asked him whether he favored any such ridiculous scheme. To my surprise, he said he did favor it, and gave me his reasons. "No man," said he "is a greater lover or admirer of the sport of kings than I, but when I see the poolrooms running all over the city and the debauchery resulting therefrom, I would not be true to myself or my constituents if I did not vote and work to suppress them." I argued that an ordinance preventing the selling of pools or making wagers on races, except within racetrack enclosures, would be effective enough and would close up all the poolrooms, but my Supervisor friend did not agree with me. "You have not investigated this evil as I have," he said. "If the jockey clubs would be content with the business at the tracks and not be a partner of the down town bookmaker, there would be no trouble. But there seems to be an endeavor on the part of the clubs to do everything in their power to assist the poolrooms instead of preventing them from getting the news and information on which they lay the odds and pay the bets. I am besieged by business men every day to do something that will stop this gambling in town. One man told me that he was not afraid of his clerks betting his money on the races at the tracks, because they cannot do it without attending the races, and that is impossible unless they get permission to be absent from the store, but they can step out for a few moments and run around the corner to a poolroom without his knowledge of it. Another said that if pool rooms are permitted, he favored the licensing of faro and all other games of chance, as they were much fairer than these sure thing down town bookmakers. Now, as the jockey clubs will not lend their assistance to close the pool rooms by shutting off their telegraphic news, the Supervisors have come to the conclusion that heroic treatment is necessary, and a sweeping ordinance that will stop the whole game has been prepared. The clubs have only themselves to blame. The Board is not opposed to legitimate racing, but it intends to stop the down-town gambling by stopping the cause of it. If the track managers will do all in their power to stop the pool room evil they will find that the Board is not an enemy of legitimate racing."

When my Supervisor friend had finished he had me about convinced that he was right. I regret that our city legislature cannot find some way to suppress pool rooms without closing up the race track, but I agree with them that if there is no other way to close the vile dens, let the axe fall, though it should kill the entire tree. I am an ardent lover of racing, and I hope to see it flourish, but it can never have a healthy, vigorous growth so long as the pool-room parasite is allowed to exist.

A HORSE OWNER.

SAN FRANCISCO, January 30, 1898.

## Brighton Beach's Great Stakes.

The prosperous Brighton Beach Association is out with its list of stakes (which will be found advertised in this issue), and they are very tempting to turfmen. Entries close with Racing Secretary Chas. V. Sass, 215 Montague street, Brooklyn, N. Y.

The two-year-old stakes are the First Attempt, Distaff, Spunster, Rising Generation, Undergraduate, Electric Handicap and Winged Foot Handicap, \$1,000 added in most cases.

The three-year-old events are the Nautilus, the Sea Gull Handicap and the Saratoga, for three-year-olds (latter for fillies).

The Brighton, Test and Flight Handicaps are for three-year-olds and upward, also the Brighton Cup. Then there is the Punchestown Steeplechase and Chantilly Hurdle Handicap, latter one and one-half miles.

## Ingleside Races.

WEDNESDAY, JANUARY 26.

First race, seven furlongs, maiden four-year-olds, purse \$350. Sandown (Conley, 110), first, driving by one and one-half lengths. Claudiana (C. Sloan, 110), second, by three-quarters of a length. Rafaela (Clawson, 105), third. La Fontera, Ray del Diablo, Santa Clara, Malpasquet, and Mangrum finished as named. Durward was left. Time, 1:30½.

Second race, six furlongs, selling, three-year-olds and upward, purse \$350. Daily Racing Form (Gray, 106), first, driving by a nose; Benamela (Conley, 106), second, by a nose; Hermoso (Spencer, 106), third. Novia, Glenover, Valencienne, Roulette Wheel, R. Q. Bang, Sing Wing, and Milesio finished in the order named. Time, 1:15½.

Third race, sixteen furlongs, selling, three-year-olds and upward, purse \$350. Zamar II (Conley, 106), first, driving by a neck; Mainstay (H. Martin, 112), second, by six lengths; Highland Ball (Gray, 92), third. Midnight and Hardly finished as named. Morinel fell. Time, 1:14.

Fourth race, one mile and a quarter, selling, four-year-olds and upward, purse \$400. The Batchelor (H. Martin, 110), first driving by a head; Tulare (Thorpe, 104), second, by eight lengths; Our Climate (Conley, 109), third. Little Cripple, Rufalba, and Nonchalance also ran. Time, 2:08½.

Fifth race, steeplechase, short course, four-year-olds and upward, purse \$400. Lord Chesterfield (Heuston, 136), first, easily by two lengths; Mester (Peters, 150), second; Una Colorado (Kelly, 140), third. Reno fell but finished, Volt fell, and Presidio ran out. Time, 4:07.

Sixth race, one mile and an eighth, selling four-year-olds and upward, purse \$350. Don Clarencio (Spencer, 111), first, driving by one length; Can't Dance (H. Martin, 110), second, by a head; Gallant (Conley, 108), third. Veragua, Peter II, St. Angoon, and McNac finished in the order named. Time, 1:57.

THURSDAY, JANUARY 27.

First race, one mile, four-year-olds and upward, purse \$400. Satsuma (Thorpe, 116), first, easily by one length; imp Tripping (Clayton, 108) second by three and one-half lengths; Judge Denny (Clawson, 110) third. Garland Barr also ran. Time, 1:42½.

Second race, six furlongs, selling, three-year-olds, purse \$350. Official (Gray, 106) first, driving by a nose; Chihuahua (Thorpe, 106) second by two lengths; Good Friend (Conley, 109) third. Go obed, Tenrica, Formella, Aluminium and Midian finished in the order named. Time, 1:15½.

Third race, one and one sixteenth miles, selling, four-year-olds and upward, purse \$400. Joe Ullman (Clayton, 107) first, cleverly by one length; Palomacita (Thorpe, 107) second by six lengths; Meadow Lark (H. Martin, 109) third. Coupon III, Donation, Wawona, Heidelberg, Atticus and Hacienda finished in the order named. Time, 1:48½.

Fourth race, one mile and a quarter, handicap, three-year-olds and upwards, purse \$500. The Roman (W. Martin, 119) first, driving by a nose; Morellito (H. Martin, 103) second by one half length; 'Oatler Joe (Tuberville, 119) third. The Bachelor and Osric II. also ran. Time, 2:07½.

Fifth race, one mile and a sixteenth, selling, four-year-olds and upward, purse \$400. Myth (Spencer, 110) first, cleverly by a neck; Fashion Plate (Clawson, 102) second by three and one-half lengths; Personne (Thorpe, 107) third. Lena, O'Fleeta, Red Glenn, Dick Behan and Hermanita finished as named. Time, 1:47½.

Sixth race, six furlongs, three-year-olds and upwards, purse \$350. Maxello (Clayton, 107) first, driving by one length; Dr. Sharp (Clawson, 112) second by one and one-half lengths; Lord Marmon (Thorpe, 112) third. Prince Tyrant, Libertine and Charmion finished in the order named. Time, 1:14½.

FRIDAY, JANUARY 28

First race, three furlongs, maiden two-year-olds, purse \$350. Sainly (Spencer, 107) first, easily by one-half length; Olinthus (Shields, 111) second by four lengths; Malay (Clayton, 116) third. Frank Ireland, Milton Young, Gold Scratch, Prince Will, Sir Urian, Canace, Santello and Cambest finished in the order named. Time, 0:36½.

Second race, six furlongs, selling, four-year-olds and upward, purse \$350. Treachery (Shields, 111) first, cleverly by one and one-half lengths; Silver State (H. Brown, 103) second by a nose; Jack Martin (Stevens, 104) third. Charlemagne, Harry Gwynn, Sea Spray, Palmerston, Don Gara, Starling, Paul Pry, Pleasanton, Gov. Budd, Soniro and Uua Que Amo finished in the order named. Time, 1:16½.

Third race, one mile, four-year-olds and upward, purse \$500. Fleur de Lis (Thorpe, 107) first, with great ease by two lengths; Buck Massie (H. Martin, 116) second by four and one-half lengths; Rubicon (C. Sloan, 114) third. Time, 1:40½.

Fourth race, six furlongs, purse \$350. Kamsin (Macklin, 109) first, driving by one-half length; Benamela (A. Martin, 107) second by a nose; Amelia Fonso (Gray, 107) third. Miss Ross, Scotch Rose, Olive, George Muller and Triumph finished in the order named. Time, 1:42½.

Fifth race, one mile, selling, three-year-olds and upward, purse \$400. Marplot (J. Woods, 88) first, handily by three lengths; San Marco (Thorpe, 108) second by 10 lengths; Don Clarencio (Conley, 105) third. Harry Thoburn, Donator and Cromwell finished as named. Los Prietos was left. Time, 1:41½.

Sixth race, seven furlongs, three-year-olds, purse \$400. Torsida (H. Martin, 120) first, driving by one-half length; Linstock (W. Martin, 111) second by two and one half lengths; Eddie Jones (Thorpe, 125) third. Glorian, The Dipper, Hermoso and Bow and Arrow finished as named. Time, 1:23½.

SATURDAY, JANUARY 29.

First race, one mile, selling, four-year-olds and upward, purse \$400. Soniro (Thorpe, 104) first, handily by three-quarters of a length; Claudiana (H. Martin, 102) second by three-quarters of a length; Wawona (Clayton, 109) third. Sardou, Tom Anderson, Rafaela, Gov. Budd and The Dragon finished in the order named. Time, 1:43½.

Second race, seven furlongs, three-year-olds and upward, purse \$350. George Lee (Clawson, 96) first, cleverly by a head; Fortunate (Conley, 107) second by one length; Cabrillo (C. Sloan, 111) third. King William, Hardy, Highland Ball, Mistletoe and Elidad finished in the order named. Time, 1:28½.

Third race, one and one-half miles, over six hurdles, four-year-olds and upward, purse \$400. Veragua (Heuston, 134) first, easily by six lengths; Monito (Murphy, 124) second by four lengths; J. O. C. (Peters, 154) third. Silverado, Billy

McCloskey and Gallant finished in the order named. Presidio refused. Time, 2:50½.

Fourth race, one mile and a half, three-year-olds and upward, the Lakeside Stakes, value \$1,000. Collins (Thorpe, 104) first, all out, by two lengths; Garland Barr (Conley, 106) second by two and one half lengths; Wheel of Fortune (W. Martin, 111) third. Judge Denny, Don Clarencio, Personne and Cromwell finished in the order named. Time, 2:34½.

Fifth race, six furlongs, selling, three-year-olds and upward, purse \$350. Kamsin (Thorpe, 105) first, driving by three-quarters of a length; Mainstay (H. Martin, 114) second by three-quarters of a length; Chihuahua (Clawson, 97) third. Miss Ross, Roulette Wheel, Dr. Bernays, Jack Martin and Morinel finished as named. Time, 1:14½.

Sixth race, one mile, selling, four-year-olds and upward, purse \$400. Joe Terry (Conley, 112) first, easily by three and one-half lengths; Palomacita (Thorpe, 107) second by a head; Fashion Plate (H. Martin, 102) third. Triumph, Red Glenn, Hermanita, Little Cripple, Kaiser Ludwig and Foremost finished in the order named. Time, 1:41½.

MONDAY, JANUARY 31.

First race, three and a half furlongs, for two-year-olds, purse \$350. Olinthus (Shields, 118) first, driving by a head; Gold Scratch (Thorpe, 114) second, by three lengths; Milt Young (Clawson, 114) third. Sir Urian, Also Ran II, Prince Will and Semicolon finished in the order named. Acoma Cambist and Stevens were left. Time 0:43.

Second race, seven furlongs, four-year-olds and upward, purse \$350. George Miller (Spencer, 105) first, easily by one and a half lengths; Treachery (Shields, 108) second, by five lengths; Jack Martin (Stevens, 105) third. Benamela, Charlemagne, R. Q. Ban, Little Cripple, Coupon III, Doyle, Atticus, Queen Saffie and Charmion finished in the order named. Time, 1:28½.

Third race, seven furlongs, selling, four-year-olds and upward, purse \$350. Meadow Lark (Spencer, 105) first, all out by a head; Polish (H. Martin, 108) second; by three lengths; Olive (E. Jones, 111) third. O'Fleeta, Silver State, Amelia Fonso and Peril finished as named. Walter J. and Kamsin were left. Time 1:29½.

Fourth race, four-year-olds and upward, purse \$400. Geyser (W. Martin, 109) first, easily by one length; Libertine (Shields, 114) second by a neck; imp Tripping (Thorpe, 106) third. Time, 1:41½.

Fifth race, seven furlongs, handicap, three-year-olds, purse \$500. Glorian (Thorpe, 105) first, driving by a nose; Official (Gray, 105) second by two lengths; George Lee (McNichols, 98) third. Blarney Stone, Marplot, Gotched and Los Prietos finished in the order named. Time, 1:28½.

Sixth race, one and one sixteenth miles, selling, four-year-olds and upward, purse \$400. Myth (Spencer, 107) first, easily by two lengths; Hazard (H. Martin, 104) second by one and a half lengths; Tulare (Clawson, 104) third. Osric II, Rey del Tierra and The Dragon also ran. Time, 1:48½.

TUESDAY, FEBRUARY 1.

First race, six furlongs, maiden three-year-olds, purse \$350. Musculado (O'Donnell, 107) first, driving by a head; Nibau (H. Brown, 105) second by eight lengths; Forest Guard (Spencer, 107) third. Ordago, Defiant, Rio Frio, Aprona, Contado, Tom Specier, Approbation, Louise Hooker, Indomenus and Minuke finished in the order named. Oahu fell. Time, 1:18½.

Second race, five furlongs, three-year-olds and upward, purse \$350. Montgomery (W. Martin, 113) first, driving by a neck; Briar Sweet (E. Jones, 101) second by three-quarters of a length; Oscarian (Clawson, 112) third. Eddie Jones, Lucky Dog, Jerilderio and Lucky Man finished as named. Time, 1:01½.

Third race, six furlongs, three-year-olds and upward, purse \$350. Bow and Arrow (Gray, 97) first, driving by a nose; Roche (Clawson, 105) second by three and one-half lengths; Roulette Wheel (McNichols, 95) third. Claudiana, Hacienda, Charmion, Pasha, El Roca and Perugia finished in the order named. Time, 1:17½.

Fourth race, one mile, selling, three-year-olds, purse \$400. Dr. Bernays (H. Martin, 106) first, easily by four lengths; The Dipper (E. Jones, 109) second by five lengths; Mistletoe (Thorpe, 109) third. Li Hong Chang and Tenrica also ran. Time, 1:44½.

Fifth race, one and an eighth miles, selling, four-year-olds and upward, purse \$400. Can't Dance (W. Martin, 111) first, readily by one length; Fashion Plate (Clawson, 102) second by one length; Lena (H. Martin, 104) third. Rufalba, Alvin E, Fred Gardner and Donation finished as named. Tom Anderson was left. Time, 1:56½.

Sixth race, one mile, four-year-olds and upward, purse \$500. 'Oatler Joe (Thorpe, 114) first, easily by six lengths; Buck Massie (H. Martin, 124) second by twelve lengths; Libertine (W. Martin, 113) third. Time, 1:42½.

## A Day at the San Mateo Farm.

Whilst the present dry season causes many great uneasiness there are many ways to forget the troubles caused thereby amongst which a visit to Mr. William Corbitt's San Mateo Stock Farm, at Burlingame, will be found as pleasant a remedy as any. The present is a busy time on the farm all hands being engaged in getting ready for the annual sale as fine a lot of youngsters as ever this famous stock farm shipped East for either sale or circuit. It is only necessary for the visitor to be a judge to be satisfied that, when the oldest hands on the farm tell him "this is the best lot they have ever had," that they are strictly truthful. It seems too bad that such a fine lot of horses cannot find a market in the State, for many of these youngsters are destined to become famous either as race horses or in the ranks of sires or matrons. There are some sixty head from which Mr. Corbitt will select about forty-five of the best or three car loads, to be shipped to P. C. Kellogg & Co., New York, so as to reach there on or about March 8, 1898. This number will include Oro Wilkes who obtained a record of 2:11, as a four-year-old also some of the farm's famous brood-mares, including Mary Best, 2:11½.

The track at the farm is never without one or more horses receiving their work or regular exercise and buyers fortunate

enough to select some of this consignment will find a great deal of work already finished for them, for the same care is being exercised in preparing these colts for the sale as would be used in getting them ready to compete for some of the rich stakes.

Amongst the first seen on the track is Oro Wilkes 2:11 now 8 years old and upon careful examination found to be the same as the day he was foaled. He is certainly a perfect horse, possessed with, if such a thing is possible, more speed now than ever, having the timber in him to stand a season's campaign or several of them. He showed as a four-year-old that his limit was much faster than his present record, for he made his competitors trot much faster to beat him. I am satisfied that if put in racing order it will take heats considerably faster than his record, to keep him from getting the decision. He is in excellent health and condition right now, being perfectly fit for active training or stud duties. His future owner will secure a gem both as a race horse and as a sire of race horses. The former is proven and to be satisfied of the latter it is only necessary for the visitor to watch his progeny work. His oldest colts are now two-years-old, four of them being in this lot to be shipped and all being work-d, each of the four can show a 2:30 gait, doing it in a manner to satisfy the most critical. I would like to enumerate the good qualities of each one as I saw them but time forbids this and I can only speak of them in a general way, giving the list composing the shipment as near as I could receive it at the present time, for the time between now and the date of shipment may cause some changes. There is a very promising three-year-old a black gelding by Sable Wilkes 2:18 dam by Ruby 2:19½ (a full sister to Stamboul, 2:07½), that is amongst the most promising. He is entered in Kentucky's great Futurity and from the way he can step a quarter now makes one think he ought to be very near first money if started for this valuable stake. The other three-year-olds in the consignment will probably consist of:

Bay colt, by Guy Wilkes—Hannah Price, making him a full brother to Lena Wilkes, 2:09.

Black filly by Guy Wilkes—Sable. This filly is a full sister to Sable Wilkes, 2:18.

Bay gelding, by Sable Wilkes—Menlo Belle 2:30. Here is a trotter of the right sort able now to show a 2:20 gait. This fellow is of right size and disposition to make a successful campaigner.

The oldest in the lot of colts to be shipped are two four-year-olds—both by Sable Wilkes and having good dams. One is a brown gelding, a trotter, whose dam is Mamie Kohl by Stoneway. He has shown a mile to trot better than 2:30 and a quarter latched the same way in 0:33½. He is ready now and will make his purchaser a valuable campaigner this season. The other four-year-old is a black gelding whose dam is Flora Grande, by Le Grande. This is a pacer, having much speed and the right way of showing it. He has shown a quarter in 0:31½ and is also ready for this season's active work. The two-year-olds consist of the following:

Bay colt by Oro Wilkes—Roseate, by Guy Wilkes.

Black colt by Oro Wilkes—Sabling, by The Moor.

Black colt by Oro Wilkes—Aneseeia, by Sable Wilkes.

Black filly by Oro Wilkes—Kate Arthurton, by Arthurton.

Black filly by Guy Wilkes—Atlanta, by The Moor.

Bay colt, by Guy Wilkes—Directress, by Director.

Chestnut colt by Guy Wilkes—Vixen, by Nutwood.

Brown filly (p) by Guy Wilkes—Chantilly, by Nutwood.

Bay filly by Guy Wilkes—Blanche, by Arthurton, a full sister to Hazel Wilkes, 2:11½, and Una Wilkes, 2:15, and just as promising.

Bay filly by Guy Wilkes—Signal, by Del Sur.

Bay filly by Guy Wilkes—Sylvia, by Le Grande.

Brown filly (p) by Sable Wilkes—Annie G., by Le Grande.

Bay colt (p) by Sable Wilkes—Flora Grande, by Le Grande.

Brown filly by Sable Wilkes—Dorathia, by Harold.

In this lot of fifteen two-year-olds all are trotters excepting three marked "pacers." I could speak of each and all and refer to their many good points, but would find it hard to pick out the best, all being so invariably good. The pacer by Sable Wilkes, dam Annie G., one of the farm's great broodmares, is extra good, having already shown better than a 2:20 gait, and the same can be said of the trotting filly by Guy Wilkes, dam "Blanche." She will undoubtedly be as good as either of her full sisters.

The consignment of yearlings will include the following:

Black colt by Oro Wilkes—Mary Best, by Guy Wilkes.

Black colt by Oro Wilkes—Roseate, by Guy Wilkes.

Black colt by Oro Wilkes—Susie Hunter, by Arthurton.

Brown colt by Oro Wilkes—Huntress, by Arthurton.

Brown filly by Oro Wilkes—Flora Belle, by Alcona.

Bay filly by Oro Wilkes—Lucina, by Regal Wilkes.

Bay colt by Oro Wilkes—Laura Drew, by Arthurton.

Brown filly by Oro Wilkes—Hettie, by Tilton Almont.

Brown colt by Oro Wilkes—Atlanta, by The Moor.

Black colt by Oro Wilkes—Deborah, by Sable Wilkes.

Black filly by Sable Wilkes—Hanna, by Le Grande.

Bay filly by Sable Wilkes—Eva, by Le Grande.

Black colt by Guy Wilkes—Rossie, by Sultan.

Chestnut filly by Guy Wilkes—Muscova, by Alex Belmont.

Bay filly by Prince Airlie—Macola, by Le Grande.

Bay filly by Sable Wilkes—Auntie, by Dawn.

All of these yearlings are being driven in front or led by the side of a saddle horse, and it is a sight worth seeing to notice the youngsters stick to their gait, whilst it keeps the saddle horse busy to keep up.

Of this lot of sixteen there is but one pacer, it being the black colt by Oro Wilkes out of Deborah; all the balance are trotters in the true sense of the word and calculated to make anyone loving the horse wish they could keep track of each race.

The Mary Best colt by Oro Wilkes is very promising and so is the bay filly by Sable Wilkes out of Eva. Prince Airlie, one of the present young stallions on the farm, shows that he is also destined to be a producer, for his bay filly out of Matilda by Le Grande shows as well as any, but as I have said before they are all good. A noticeable feature in the produce of Oro Wilkes is their color. There are four two-year-olds and ten yearlings, the dams of which are principally bay and chestnut. Eight of the number are black, three browns and three bays, showing Oro Wilkes is destined to produce principally his own color from all colors of mares. A walk through the fields will show the brood mares all in excellent condition, in fact everything you see seems to be arranged for the successful breeding and training of the light harness horse and it is a great pity that the farm is so soon to retire from the ranks of the successful ones.

ABNAREZ.

## SPECIAL DEPARTMENT

EDITED AND CONDUCTED SOLELY BY  
JOSEPH CAIRN SIMPSON.

**THE ETHICS OF SPORT.**—Somewhat apprehensive that ethics is hardly the proper word to use in connection with sport, though it is employed in so many different situations that it will not be amiss when applied to the main kinds of recreation the BREEDER AND SPORTSMAN seeks to uphold. Thus we are told that "ethics originally meant that which relates to character; the treatise of Aristotle's, however, to which the term was first applied is not considered simply as character, but with its good and bad qualities." That will do. There are some who claim that any moral code is out of place when applied to sporting subjects, and it may be that at this time of the world the doctrine that people should be governed by a "higher law," than that which compels submission, is altogether too old fashioned for the present generation. Still I cannot subscribe to any such a heterodox doctrine. I have known so many instances of men connected with horses, both gallopers and trotters, who not only were governed by strictly moral principles, but also by the nicest sense of honor, and who would not deviate knowingly from the course that was marked by scrupulous integrity any more than they would commit an infamous crime. Plenty of men of that high character yet though, unfortunately, people are prone to judge that all who are termed sportsmen are of the same pattern as the black sheep of the flock. There would be no necessity for punitive laws on the turf or track were all who participated therein of the real sterling stamp. Merely a code which would cover points necessary for uniform government, one which would contain directions for equitable management all that is required to conduct racing and trotting contests.

I am inclined to the belief that there is a greater portion of the people engaged in coursing who are animated by motives of honor than is found in the horse departments of sport. In a measure compelled to be straight, as the noble animal cannot be made parties to fraud in the same way that jockeys and drivers can be influenced, and while dogs could be coured when out of condition, or, perhaps, given a deleterious potion to prevent them from winning, without having personal knowledge to justify an opinion I am under the impression there is an *esprit de corps*, a pride in the performance, that is a guard against predetermined defeat, among the coursing folk.

One of my earliest recollections is of a seat on the croup of a horse, a cousin rode, to watch the greyhounds in their training. Stationed on the summit of a hill the man who assisted took them to the top of an elevation some distance away, and when horse and dogs broke from the starting point there was plenty of excitement for the wee callant. And an occasional spin after a hare was a far more satisfactory entertainment, and even from these very early lessons and the recollections of that long, long ago, I can imagine that he would be a base churl, indeed, who would plan losing a course.

As some of those who control horses do not recognize moral promptings, and are as far as can be from being governed by the "code of honor," it is an absolute necessity that there should be laws to compel them to observe an ethical standard, and still more necessary that these laws shall be enforced and the penalties for violation be sternly inflicted.

The prominent Jockey Clubs of the country are worthy of the highest commendations for the thoroughness of their work in that direction, and the effectiveness of their discipline. I say the jockey clubs of the country as the very limited experience I have had of late years, outside of California, has been so well supplemented by information from those who are so well qualified to impart knowledge, that it is more than safe to make the assertion. And when it has been given such close attention here, it is also well within bounds to suppose that there is a similarity between our California Jockey Clubs and those of other sections, so that my observations of modern racing management on the Bay District, at Ingleside and Oakland will apply to other clubs of like standing. My opinions have been reached after careful scrutiny and with all the advantages that are offered by being an occupant of the judges' stand (privileged to be there so as to be in a position to obtain correct knowledge of the management) and free to visit every part of the grounds. Have heard the reports, to the judges, of paddock and patrol judges, messengers, consultations with president and stewards and careful analysis of previous races, to condense, a comprehensive system covering all the grounds, taking all the points into consideration to ensure square racing. No necessity for me to reiterate the anxiety felt that harness-racing officials follow their example, and adopt their methods of management, and am "hugely" pleased that there is an assurance that the same care will be observed by the officials of the Pacific Coast Trotting Horse Breeders Association to ensure honest, straightforward contests. That will have a powerful effect to induce like management all over the State, and the result, popularity and prosperity.

In awarding "unintended praise" to the Jockey Clubs of the whole country for the measures taken to keep the "sport clean," it would be gratifying, indeed, were there no cause for adverse criticism, and there is surely one phase of the question that cannot be discussed without condemnation. That is the contract with the Western Union Telegraph company, permitting sending intelligence by wire from the grounds. Concise accounts of the races as they progress, and other information that enables "city betting rooms" to present their patrons with an epitome of them, a vivid representation of what is going on at the course, from the "scratches" to the "parade" and while the horses are running the instruments are clicking off the story to eager audiences, assembled in towns and cities in all sections of the country, from San Francisco to New York, from Portland to New Orleans.

Ordinances are passed, laws are enacted to "stop the evil," without avail. Citizens protest, civic and moral federations organized, even police, when stimulated by being denounced as grossly inefficient, "the dens" flourish, those who are in charge of them acutely ingenious in framing measures to evade the law.

Too much to expect that people who have profited so largely by these practices will surrender the privilege without a determined struggle.

Driven from one locality they emigrate to more genial

soil. Little trouble to move; their paraphernalia a simple collection outside of the blackboard, which any country carpenter can fabricate, desks and railing, a few bundles of tickets, a show of money though "dummies" would answer every purpose, the profits are sure, and they are ready for business which is also certain to follow them in their forced wanderings.

How very easily these practices, which have wrought such immense injury and which threaten still greater to legitimate sport, could be squelched. Let us suppose that it is beyond the power of the Jockey Clubs to put an end to these menaces to their interests, and even if they refuse to supply the information it will be surreptitiously obtained. What then? Indict the active partner in these illegal transactions. The chief officers of the Western Union Telegraph Company are the parties that make possible these nefarious proceedings. Ready to plant their instruments in every nook, however shady, ready to do their part of the dirty work, ready and willing to put it in the power of others to transgress the law, and still readier to demand their part of the "wages of sin."

Some poor and obscure schemer who essays to use the mails for a purpose that the postal laws interdict is promptly dealt with. Suffer he must and his flesh made to pine in captivity if found guilty, and it does seem to a "layman" that by far the more heinous offense of supplying information to, and being the most active partner in, these betting rooms should not go unpunished.

Still joint action by the reputable jockey clubs of the country would go a long way towards breaking up practices that depend on correct information regarding the status of the races before and during the time of running, and however anxious the officers of the Western Union might be to steal the intelligence, they could not obtain by purchase, the theft would not be productive of commensurate profit.

There is little question but that the betting rooms in San Francisco diminish the attendance at the races on both the racecourses. Something outside of my personal knowledge though creditable people tell me that rooms are thronged as soon as "the fields" can be known accurately, and intelligence from the racecourses obtained. That, however, is a secondary consideration, of so little importance when put in comparison with the greater danger, that it can be entirely eliminated from the discussion.

Determined opposition from those who do not oppose, in fact approve, such race meetings as those conducted by the two California Jockey Clubs. The benefits many, nothing to reprehend further than other "legitimate field" of speculations present. Can any one with any pretensions to common sense afford to advance the claim that there is anything compensatory in the betting rooms, the smallest advantage gained for the manifest evils that cannot be denied. Swelling the dividends on the stock of the Western Union evidently sufficient compensation in the estimation of the men in high standing who control its affairs, to become partners in a business, that even the most lax of all ethical codes cannot sanction.

And in connection with this question in all the strife and turmoil consequent upon the establishment of "city betting rooms," not a word of censure of the prime villain in the play. Legislators ready to pass laws that would break up all kinds of racing, the strongest argument in favor of interdicting the time-honored recreation being these proteges of the Western Union not a word from press, pulpit, hustling, or legislative hall, of reproach against the big devil of the confederacy.

Hopeless, I suppose, to expect that the "soulless incorporation" will change from its own volition, and therefore the only apparent chance of averting the dangers is through the action of the Jockey Clubs. Should the American Jockey Club and The American Turf Congress unite in a resolution to refuse all the information within the power of the various clubs to control, the end would not be far off. Doubtless the great company would employ tools to steal when it could not purchase, but if even the stigma of robbery did not prevent hawking its stolen wares, the profits would be so much reduced that the hazardous business would have to be abandoned.

**HARNESS-RACING PROSPECTS.**—There are "fond expectations," rosy hopes, a feeling of confidence that Dame Fortune will smile when it is not easy to give any very good reasons for the belief. And yet there are times when optimism dominates and there is a consciousness that good luck is soon to come. Few who speculate who have not been influenced by the hidden monitor and when there are impressions, be they good or bad, the outcome is likely to be in accordance with the promptings of the inexplicable power.

But it is easily explained why the prospects for harness-horses are so much better than they were a few weeks ago as it is well within the bounds of reasonable belief to state that measures will be carried through that cannot fail to work advantageously. In the first place it is a "moral certainty" that a programme will be adopted by the P.C. T. H. B. A. that will attract.

The novelty in the first place will have an effect to stimulate curiosity, and in addition to embracing comparatively an untried system of races for harness horses, gives promise of proving a welcome change from old methods to newer practices. An incorporation of dashes and heats, when the single effort plan will secure the only real trial that has ever been awarded it in this country, can hardly fail to interest.

I cannot recall any harness-racing meeting in the United States, at which dashes formed as great a part of the programme, as the one held by The Breeders in the spring of 1893 on the Bay District Track. Sixteen races in all, and some specials for records, seven of them dashes, one at one mile for two-year olds, four one mile and an eighth, one at one and one-sixteenth and one at one and five eighths. That meeting opened on the 27th of May and continued to June 3d, the next which commenced July 22d and held until July 29th.

Twelve races at the second meeting only one dash of two miles, all of the heat races at both meetings two in three. At the fall meeting of that year held on the Oakland track, there were nineteen races, two or three dashes, three miles and five miles, and in place of 2 in 3, 3 in 5, two for two-year-olds and one for three year olds being the exceptions. But a heat had to be won, or a dead heat made, in three heats to stay in the race, and the greatest number of heats six in one race and five in another. The changes in the programmes proved than neither dashes or 2 in 3 were thought to be as

good as the 3 in five, and the next year there was a return to the old plan. But it does not follow that there will be a like result in 1898. Conditions have changed materially, and in place of dash racing being confined to seven races during the meeting, dwindling to two at long distances, it is now proposed to make them the prominent part of the programme. Twenty-four of them in each week, and this will surely give horses a chance to secure a prize or prizes, without a very arduous task to perform. This programme of mainly dashes, and two in three races will inaugurate a different system of training from that which has heretofore been pursued. No necessity for these long-drawn-out "work-outs" when the best part of an afternoon would be occupied in giving the number of heats the trainer deemed an absolute requirement to live through a 3 in 5 race. The aim of trainers will be to develop all the speed that can be got without reference to an amount of endurance sufficient to stand the strain of a 3 in 5 and with more than a probability of broken heats to add to the labor. The Palo Alto plan, short and rapid brushes, will grow in favor, and it is a warranted expectation that the races will be decided in faster time than when governed by the old conditions. Surely owners will be better pleased when the dangers of injuries are lessened, and if the public takes kindly to the new departure then all connected with harness horses can hail the change with fervent acclamations.

And while it may seem an absurd assertion, in my opinion, that feature of dash racing which has elicited the strongest objections, will prove the greatest magnet to attract the public, especially that portion of racegoers who are fond of speculating, viz., the decision of the race in one heat.

A dash; it is claimed, gives the driver and opportunity to throw the race at his pleasure. The conditions specifying that when the length of the designated course is made that shall end the race, it must be ended, unless in the case of a dead heat, when only the horses can start for retrial that made the dead heat. What then will you do when it is evident that one or more horses have not been allowed to win.

As the code to govern harness racing is silent in regard to such a case as that would be, the only mention of such racing, so far as I can remember, being that which governs when the distance is not specified, "yearlings a mile dash," "two-year-olds mile heats," all other ages 3 in 5. Without arguing what should be done in the hypothetical case now, the advantages of placing so much power in the hands of the judges as must be granted are plainly apparent. They can insist that every driver shall do his best, not only to win the race, but also to secure the best position it is in power to obtain, regardless of excuses which would be valid under the rule as it now stands.

The plea that his horse will be unfitted for another heat, if driven at his best speed, after he has broken, or an unfavorable start or been interfered with will not avail as that one completion of the distance named for the length of the race is all that is required. Should bookbetting be permitted the running system of laying against horses "straight, place, and show" will probably also prevail, but even without wagering of any description when dash racing is on the bills there can be no compromise, the struggle must be continued to the end of the race. The good results attending when it is absolutely compulsory for every driver to get the best place it is possible for him to secure, will prompt like management of the heats, and unless there is an excuse such as rule 28 makes valid, no laying up then.

I am certainly justified in the estimates made, and so far as I have heard others express opinions mine is not the only rosy prophecy—"As sure as eggs is eggs" there are brighter prospects for harness horses than have been shown for some years past. A brightly colored and full arch, resting over this section of the country, a full bow of promise, a substantial token of regeneration, an augury of better times and happier days for those connected with harness horses.

**PLASTIC ACTION AGAIN.** A bit troubled over the term that I took a fancy to a couple of weeks or so ago. It may be that it is too plastic to have any meaning, but yet it is a fine term. Nothing "clumsy" about it if open to the objection of being on the finished line. How shall we be enabled to tell when the action is plastic? If it means that the quality has to be discovered after due trial.

No harm done, however, and if anyone has been lured into the use of a word that is not satisfactory on my approval it readily can be dethroned, though if unfit for week days, sunshiny Sundays will come in. Never mind being nonplussed when some knowingsome cuss asks you to elucidate, to tell what plasticity of motion means, answer easily spread. If a "big spread" is synonymous with good cheer then a spreading extension of the legs of a colt a token that his sire is endowed with the great quality of perpetuating "plastic action."

**GEORGE EFFNER.**—A real pleasure to meet the gentleman who, it is quite safe to say, has a greater personal knowledge of the old-time trotters, than almost any other man, at the Occidental Horse Exchange, last Thursday. Mr. Effner commenced his career as a pilot of fast horses fifty odd years ago and rode and drove some of the highest celebrities. The original "Jack Rossiter," formerly Tom Carnley, and Lady Jane being quite at the top of the heap, the last named was gaining victories in the "forties." Lady Jane beat Jack Rossiter, five consecutive races, and according to correct report in Chicago many years ago, her owner, H. Graves, cleared off an indebtedness due the owner of Jack, Mr. Myrick, on eighty acres of land now in the heart of Chicago. She beat Lady Suffolk twice or oftener, and finished her career in California. The office of Mr. Effner's livery stable in Buffalo was headquarters for horse and visiting horsemen, and the school, as it was called, graduated many high-class scholars, among them C. J. Hamlin.

Twenty-six years ago is the last time I met Mr. Effner before the meeting of Thursday last, and even among the turmoil of the sale ring hugely enjoyed. Glad to learn, too, that Mr. Effner is delighted with California, and it did not require arguments from me to sustain the position that good as it was for all ages it was superlatively beneficial to those who knew the horses of half a-century back.

JOS. CAIRN SIMPSON.

THE most valuable stimulant as well as the most needful to keep horses in condition is the celebrated Red Ball brand Manhattan Food. Thousands of horsemen claim it is the best that they have used and the fact that they use it extensively is the best proof of its efficacy that can be found.

## TURF AND TRACK.

## THE SULKY.

Now is the time to advertise stallions for service.

JAVELIN, 2:08½, with hoppers, has been a mile in 2:11 without them.

THERE were 10,051 horses exported from the port of Montreal last season.

A MEETING for local horses is to be held at the Lemoore track Washington's Birthday.

THE yearling colt, by McKinney, 2:11½, out of Wanda, 2:14½, by Eros, is called The Roman.

FRANK LOOMIS will handle the Forbes horses this season. It is about time to hear from the Nancy Hanks filly.

DID any one ever hear of a man making any money by running down his neighbor's horses to prospective buyers?

IN the future all American trotters which have marks slower than 2:20 will be regarded as green on European tracks.

BERT SHELDON has started in 581 races in nine years and won 206 of them. It is said that his feet and legs are still sound.

"KNAP" MCCARTHY says hoppers ought to go—three-quarters of the horses trained with them would go better without them.

THE yearling brother to Ethel Downs 2:10, by Boodle 2:12½ out of Nutwood Wilkes, by Nutwood, has been named Gen. Montgomery.

IT is reported that Ed. Geers has said that it costs \$700 per month to keep the 48 trotters "Village Farm" has in training at Selma, Ala.

A DRIVER is as proud of the horses he puts in the 2:30 list as an evangelist is of the sinners he draws to the mourners' bench during a protracted revival.

DRAFT horses have sold at the Chicago yards the past week for more money than has been paid for similar animals during the past four seasons.

ST. JOE, Mo., will hold two meetings in 1898, a summer meeting will be held July 4 to 8, and an old fashioned fair August 22 to 27, Palmer L. Clark, Secretary.

THE black colt, by Directum 2:05½, out of Impetuous 2:13, has been named Hardwick, and the bay filly by Directum out of Ethelwyn, Impetuous' dam, is called Immaculate.

ONE can best appreciate the scarcity of high-class horses in the East after learning that Charles Marvin has recently been to Montana to buy a lot of carriage horses for Miller & Sibley.

JAMES A. MURPHY says he is willing to match Emily, 2:11, against any trotter not having a record faster than 2:11, for \$5,000 a side, the race to be trotted some time next summer.

BREEDERS intending to make a public sale this spring should begin at once to put their stock in condition. Single drivers, well mated pairs, and carriage teams will command good prices.

THE last foal of the famous brood mare Sprite, dam of Sphinx, Egrotist and Electrite, was a chestnut filly, foaled in 1896, by Monaco, 2:19½, son of Electioneer. She has been named Esparita.

ALTHOUGH John Shepard, the celebrated Boston road driver, is said to be willing to pay \$10,000 for a satisfactory mate for his favorite road mare Reina, 2:12½, the talk of cheap horses goes right on.

PEOPLE who have a right to know insist that Directly, 2:07½, will probably be one of the sensational pacers of 1898. He last year showed a half in one minute, and in a race at Columbus, O., paced a mile in 2:04.

ON the first day of August, 1884, Jay-Eye-See trotted the first mile ever trotted in 2:10 at Providence, R. I. Since that time, nearly fourteen years ago, no other horse has ever accomplished that feat in the State.

ELECTIONEER will probably have another 2:10 trotter before the close of the coming season in Peko, who scored 2:11½ last year. She is now ten and is the dam of a very fast filly, a three-year old, by Dexter Prince.

THE horsemen in Kentucky will ask the Legislature of the State to pass a law, which will require all horseshoers to undergo an examination as to competency and take out a license before being allowed to work at their trade.

HERR W. SCHLESSINGER, a prominent and exceedingly popular member of the trotting clubs of Vienna and Baden, Austria, as well as one of the most extensive buyers of the European contingent, died recently at his home in Vienna.

THE eight-year old stallion, Pathmont, 2:09½, by Altamont, has but seven living foals, and only two by him have died. This gives a total of nine foals only begotten by him during his career in the stud, which is a most extraordinary showing for so fast a horse.

THE handsome stallion Ed Wilkes, by Red Wilkes, out of Nellie, by Vindex, sire of Etta 2:28½, will make the season of 1896 at Petaluma. On his dam's side this stallion carries a great deal of Blackhawk blood which is much in favor in the east among those who breed horses for the road.

J. D. STIMSON, one of the wealthiest business men of Southern California, died in Los Angeles January 31st. His son, Willard D. Stimson, well known on the Pacific Coast as a breeder, trainer and driver of harness horses, is thus made one of five heirs to an estate that is rated up in the millions.

JOHN MACKEY, Superintendent of J. B. Higgin's Rancho del Paso, owns the great young pacer Anaconda, 2:08½, who, in company with Searchlight, 2:09½, will be taken East to race by Thomas Keating next summer, and he thinks that either one of the pair will be able to hold his own against all the Eastern pacers, bar Starr Pointer.

THE Terre Haute Trotting Association has elected the following new officers: W. P. Ijams, president; John Beggs, vice president; R. G. Watson, secretary; G. A. Schaal, treasurer; directors, W. P. Ijams, John Beggs, W. L. Kidder, Frank McKeen, Marx Myers, Jno. F. Regan and R. G. Watson.

THE wagon which Ellore pulled when she placed the world's trotting record at 2:10 was canoe-shaped, had pneumatic tired, ball-bearing wheels and its total weight was but 73 pounds, which is considerably less than the old-time sulkies that Lady Suffolk, 2:29½, and Flora Temple pulled when they made champion world's records.

THE Gentlemen's Driving Club of Santa Ana will hold races on May Day and July Fourth for local horses only. The membership fee has been reduced from \$1 to 50 cents per month, and the following officers elected: Pres., W. S. Derby of Orange; Vice Pres., D. E. Smeltzer of Westminster; Sec. and Treas., C. A. Riggs of Santa Ana.

PRESIDENT IJAMS, of the American Trotting Association, referring to the changes in the trotting rules proposed by the Kentucky Breeders' Association, says: "This is a free country, and the Kentucky Association is one of the strongest, if not the strongest in the country. Let it set the example. If it is a good one other associations will follow it."

SAN DIEGO horsemen have arranged for a meeting to be given February 22 at the Corona racetrack. There will be a 2:38 trot, a 2:40 pace, a trotting race for green colts under four years and a running race, quarter of a mile dash. The races are open to all horses owned in San Diego county on January 15. Entries closed with Charles Kelly on February 1.

MR. ED A. TIPTON, representing Mr. Marcus Daly, has shipped from Kentucky to Hamilton, Mont., Red Cherry, 2:14½, by Red Wilkes; Roderiva, by Red Wilkes; Frances Maze, by Red Wilkes; a sister to Baronet, by Baron Wilkes; Martha Louise, by Wilton; Mira P., by Wilton; Annie Foushee, by Red Wilkes, and Maria Sanchez, by Happy Medium.

THE subject of stamina has been much discussed of late, and in looking over the records one is impressed by the three-mile record of Nightingale. She trotted the dash of three miles in 6:55½, and although we have no record of the time by quarters, it is a wonderful performance. About 2:18 to the mile for three miles is a most excellent record, and one that few, if any, trotters that ever lived, could do.

A few years since it was difficult to convince a man that breeding roadsters and carriage horses would eventually prove more profitable than attempting to raise a 2:10 performer. There was a possibility of making a William's hit, and men are anxious to take the chance. At present, you will hear the same men telling a friend: "That in order to succeed, it is necessary to breed for size, style, quality, and general appearance, as well as for speed."

CONCERNING the renewal of the \$10,000 Charter Oak Stake by the Hartford Association, Secretary Wilson of the Kentucky Breeders Association, recently said: "Kentucky horsemen are much pleased at this enterprise and they will certainly support it. It adds materially to the possible earning capacity of a good trotter and fits in nicely between the Detroit M. and M. Stake and the Transylvania here. A horse that could win these three events would be worth big money."

WM. LAKELAND, the well known trainer of thoroughbreds, says that he has seen a number of thoroughbreds show decided trotting action. He instances Monitor by imported Glenelg, and Emma C. by Darebin, as horses that would trot in their work. There are quite a number of thoroughbreds now in training at Ingleside and Oakland that show splendid trotting action, and some that are pacers, as has been referred to in this journal heretofore by Mr. Jos. Cairn Simpson.

BEN WALKER, the Indian reinsman, who drove for Monroe Salisbury last year, has declared his opposition to hoppers. Walker used to think it was a great scheme to tie horses' legs together to make them go fast, at an artificial gait, but his notions changed one day when he got up behind a hopped pacer at Freeport, Ill. The straps broke and that was the last thing he knew for seven hours. He says he has been opposed to the use of hoppers ever since he regained consciousness.

JOHN H. SHULTS will this year try to capture the team record of 2:11½, which Belle Hamlin and Hooest George established at Independence, Ia., in 1892. He has taken up Lillian Wilkes 2:17½ by Guy Wilkes and with the Wilton mare Town Lady 2:13½ as her mate thinks he stands a good chance. Lillian Wilkes is a fast mare. She defeated Sunol as a three-year-old and trotted in 2:17½ to a high-wheeled sulky. Town Lady made her record last season the first year out, and is extremely fast.

IT is very easy to win where one has five seconds reserve, and the winner may seem to be a remarkable horse, when in reality when pitted against those of about the same flight and more class he goes down in ignominious defeat, says "Iconoclast." There were several pacers out last year that could go the first half very close to one minute, yet how easily a horse like Guinette could beat them. Class in a fast horse is greatness and without it your prospective world beater will not get first under the wire many times if he is in first class company.

JOSEPH NIGHTINGALE, of Cordelia, Solano county has purchased the stallion Prince Almont 2:13½ and will place him at the head of his breeding farm. Prince Almont was a good campaigner and won many hard fought races. He obtained his record at Le Mars, Iowa, in 1893 in a five heat race which he won, obtaining the record in the fourth heat, every one of the five heats being better than 2:16. Mr. Nightingale recently purchased several well bred mares from the Palo Alto farm and has the nucleus of a breeding farm that contains some of the best blood to be found anywhere.

T. W. MOORE of Santa Barbara has sold his thoroughbred and trotting-bred horses to Mr. Pendle, a gentleman from Philadelphia, who recently located in that county. The thoroughbreds include the horse Surinam and twenty yearlings and two-year olds of his get. Among the trotters are Hope Wilkes, by Guy Wilkes, out of Veronica. Maggie E. by Nutwood and a daughter of her by Eros, besides several Sydneys, Directors and Directs, all registered at the best. Nearly all these mares are in foal to Hope Wilkes. Santa Barbara is certain to be heard from in a few years as a place where first-class trotters and thoroughbreds are raised.

HORSEMEN in Salt Lake City, Utah, are enthusiastic about their city being represented at the grand circuit of 1898 by Hal W. Brown's fast trotters, Altoka, 2:13½, and Thorn, 2:14. The Salt Lake Tribune recently published a portrait of Thorn that would certainly give Mr. Brown good grounds for an action of libel, but the reading matter that accompanied it was so complimentary that it shows how very much interested the inhabitants of that far western city are interested in Mr. Brown's trotters and their success when they shall be pitted against the best of their age in the country. That they will not get very much of the worst of the transaction their speed and racing ability seems to guarantee beforehand.

MR. SMILEY CALDWELL can take a just pride in being the owner of the stallion Senator Rose, for during the coming year eight of the get of this sire may enter the list. This is something out of the ordinary, especially when the colts show up so finely as do these of Senator Rose, says the Chillicothe, O., Gazette-Leader. A colt coming five years old which he sold to Capt. A. B. Dickey, who, in turn, sold him to a horseman, has gone a mile in 2:14½, and is practically a green horse. He made this remarkable showing on the mile track when it was covered with dust last fall, and he had only been trained from June on. This colt is known as Rose Boy, and the coming racing season is expected to develop him into a phenomenon. Mr. Clark W. Story's mare, Viola, is another of the get of Senator Rose and who promises well, and Mr. Story has set a figure of \$5,000 on her. Besides these two there are six others, and Mr. Caldwell believes that all of them will enter the charmed circle.

"REALLY good saddle horses are becoming scarce," writes a Missouri reader, "and while your paper is not especially devoted to animals of this class, I presume that a large number of readers are interested to a greater or less extent in this variety of the American horse of pleasure. I am not referring to the bob-tailed, gallop and trot style found in Eastern stables, or exhibited at Eastern Horse Shows, but have in mind the typical Missouri saddler, who is the counterpart of his distinguished relatives in Kentucky and Tennessee. I believe that no class of horses have held their own so well during the dull periods from which we are now emerging, or that are so much sought after at present, as the well-mannered saddle horse that can go all the gaits. I learn that horse-back riding is growing in favor among the young people of St. Louis, Kansas City and St. Joe, while I know from observation that in the interior of the State this form of exercise is becoming more popular this season. I find that many are giving up their wheels and taking to the saddle, and the only obstacle that prevents many others from doing likewise is a scarcity of suitable mounts."—Western Horseman.

ONE of the advocates of hoppers suggests that if it had been the practice to tie legs together in Smuggler's day Charles Marvin would have been spared many anxious moments in developing the speed of that horse. Probably, and yet how would posterity have been benefited? Smuggler was a double-gaited horse and heavy shoes and heavy weights had to be worn when he was entered in trotting classes. His greatest race was with Goldsmith Maid at Cleveland, in July, 1876, when he defeated the aged queen, but the honors he then gained did not make him a success at the stud. Colonel Russell gave him every opportunity, but he was not bred right nor built right for a sire of uniform speed. He has but 12 in the list, and not one of them ever trotted as fast as he did. A mixed gaited horse has no value for the road, and whether you use hoppers or toe weights in confining him to one gait is a small matter. He is not the type that we are after or seek to perpetuate, and the sooner he begins to earn his oats outside the gates of trotting tracks the better it will be for the breed of light harness horses. The hopple is a hasty expedient in a campaign stable, and as it does not produce the kind of horses that we want for the stud or road, let it be ruled out of classes in which pure-gaited horses compete.

THE Village farm shipped eighteen head of trotting-bred horses to New York, on Wednesday, January 19, in charge of Henry Smith, formerly superintendent of the old Buffalo driving park. They left for Hamburg, Germany, on Saturday, the 22d, on steamer Pennsylvania. The lot consists of Silvery Chimes, bay stallion, brother of Almy Chimes, sire of Silver Chimes, 2:08½; Charmer, dam of Carillon, 2:16½, and Charming Chimes, by Mambrino King—Windsweep, dam of Passing Belle, 2:08½, etc.; Ada, dam of King's Protector, 2:18½, by Almont, Jr.; Henrietta, 2:17, by Mambrino King—Bay Hambletonian, dam of three; Pansy, 2:17½, by Almont Jr.—Barbara, dam of Emily, 2:11, etc.; Empress, dam of Hawley, 2:23½, by Mambrino King; Quadroon, dam of Intrepid, 2:26½, by Sherman, 2:32½, Persis, sister of Excellence, 2:19½ now owned by Austrian government; Lady Leontine, by Rysdyk—Leontine, 2:23; Dolores, sister of Hollister, 2:17½, by Almont Jr.—Miranda, by Mambrino Patchen; The Duchess, sister of Chimesbrino, 2:28½, by Chimes—The Countess; Daisy King, by Mambrino King—Rosebud, sister of Justina, 2:20, etc.; Gulnare, dam of Era Chimes, 2:18½, by Mambrino King; Gala Day, sister of Gulnare; Katrina, by Mambrino King—Kathleen, sister of Globe, 2:14½ and Ilona, sister of Dr. Bishop, 2:29½, by Mambrino King—Corinne, by Almonarch. On the same steamer, C. H. Du Bois, Bradford, Penn., shipped the two trotting stallions Roleo, 2:23, by Nephew—Camma, by Norway, and Prose, by General Washington—Sonnet, by Jay Gould. Prose has been a most consistent performer over half mile track and should be a winner on the other side. His dam Sonnet is also the dam of Poem, 2:11½, and Stanza, 2:22½. Roleo made his record of 2:23 as a two-year-old. He is a fine, 16 hand stallion, with a world of speed. The winter of 1896-1897 he was in the stable of W. J. Andrews at the Jewettville covered track, and trotted a mile in March in 2:18, last half in 1:06. He was not campaigned in 1897h.

## THE SADDLE.

GALEN BROWN has purchased Cau't Dance of Ed Corrigan, and the consideration is said to have been something like \$1,000.

ROBERT BONNER, who recently won a mile and a quarter race at New Orleans, is a half-brother to Judge Denny, but by imp. Rossington.

SOUP PEAKINS, formerly a popular rider, is hanging around Lexington, with no prospect of a job this season. Soup has lost out completely.

GENERAL JACKSON, the owner of the celebrated Belle Meade farm, says the racing season of 1898 will be the most brilliant since 1892.

Why did the Chief of Police have the pool room in the Parrott building (on the third floor) closed, and allow others all over town to be kept open?

NEW ORLEANS, La., Jan. 27.—Dr. H. Riddle, who owns Lexington Pirate and Dunster, will sell the two horses Saturday and has signed to train for J. J. McCafferty.

AS THE result of advertising a first-class article it is noticeable that the only plug cut tobacco used at the race track is Piper Hiedsieck. Users claim it is the best they have ever tried.

MANY complaints are being made as to the manner the poolrooms downtown are being conducted. The complainants have good cause for complaint if all the stories told to us are true.

SALVOR, a six-year old by Salvator—Vandalite, won a seven-furlong race at Singlerly, Md., January 24th. Salvator was the King of the American turf in his day, Vandalite the queen in her's.

TEN of the Avondale mares will visit Himyar's paddock this season, including Ida Pickwick, Soncy Lass (Southe's dam), Wildflower (White Frost's dam), Bracelet (Bangle's dam) and Charmette, by Darebin.

MAXELLO is a grand-looking colt and apparently as good as he looks, judging by his two easy wins. His sire, Maxim, was one of the greatest race horses ever foaled in New Zealand, while his dam, Daniella, was a real good one.

BEFORE going to New Orleans Michael F. Dwyer engaged Johnny Lamley to ride at light weight for him this year. Poor health has kept the boy from riding much during the past two years, but when in good condition he is an excellent jockey.

R. E. M. PORTER, who for several years was known to turfmen as the betting agent for Byron McClelland, will have a string of horses this season of his own. He has just claimed the name of Al Sirat for his two-year-old bay colt by Bersan—Katherine Bassett.

JOHN A. MCKERRON has completed the handsomest horse blanket ever seen in California. The blanket was manufactured for the California Jockey Club, which will present it to Louis H. Ezell, owner of Buena Ventura, winner of the first two-year-old race in California in 1898.

APPARENTLY Lieber Karl, Plaudit, Isabey, Bannockburn, Marcato, Don Quixote, Sir Rolla and Good Friend are the pick of the public performers that will contend for the St. Louis Derby. The dark division does not promise much and it is probable that the winner is on the list named.

MISTAKE and Centella, J. B. Chase's famous mares, have been bred to A. B. Spreckels' Eolo, own brother to St. Saviour, Eole and Eon. Mistake is the dam of Glen Ellen, Kildare, Gilead and others of note. Centella was a great winner and her oldest foal is now two years of age.

MUSCULADO and Niihau, one-two at the finish in the first race Tuesday, were sold at the recent Spreckels sale. Several of the horses sold that night have won, notably Olive, Torsion and Imperious, while Gallant, Pat Murphy, Florimel and now Niihau have earned money for their owners.

BILLY SHORT is training three two-year-olds and Maxlone for Cy Mulkey, Superintendent of the Spreckels farm at Napa. Maxlone, who has only recently arrived, has been given a careful preparation in the country and is said to be cherry ripe. He is a three-year-old by Maxim from Abilene.

APPLEGATE stayed on his block in the last race, holding out Ostler Joe and laying the biggest odds in the ring against Buck Massie and Libertine. Amongst those who came against him were: Caesar Young who bet him \$100 on Buck Massie at 11 to 10, and Coleman who contributed \$200 on Libertine at 5.

THE daily bulletins in front of the Examiner and Call should be suppressed. W. J. Martin, formerly with the Western Union Telegraph Company, who is the new business manager of the Call, does not like the BREEDER AND SPORTSMAN to refer to these guide posts as the road to ruin for the young and old. He has our sympathy.

THE "Call", fearless and bold, has at last awakened to the fact that downtown poolrooms are disgraceful and dangerous to the young and old. If the telegraphic reports for the track were suspended the poolrooms would close inside of three days for lack of the information which make them so popular. Why don't all the papers point out the remedy?

IN fixing bookmakers May and Carroll \$100 each for fighting in the betting ring the Stewards of the New Orleans track took commendable action, and in fixing Carroll \$50 more for offensive language to would-be customers they did still better. The only mistake they made in the case was in not making the latter fine \$500 instead of \$50.

TOM KEHOE, the big cattle man of Idaho and Utah breeder of Gold Bug and Gold Leaf, and well known in this city, attended the races Tuesday. Since he was in San Francisco last (about three years ago) Ingleside track has been built. Mr. K. was much in love with what he saw. He left this morning for the San Simeon ranch belonging to Mrs. Phoebe Hearst.

AMONG the notable horses entered at Louisville this year are the following: Ornament, Hamburg, Presbyterian, Macy, Plaudit, Bannockburn, Simon W., Bangle, White Frost, Buck Massie, Flora Louise, Dr. Black, Gallivant, Algol, Taluca, Performance, Ulysses, Ramino, Boanerges, Alleviate, Elusive, Counter Tenor, Sackett, Isabey, Rosinante, Carnero, Burlesque, Lieber Karl, Eitholin and Frank Thompson.

JOCKEY HENRY SHIELDS was suspended by Starter Caldwell for not getting away with Kamsin Monday. The horse opened at 8 to 5 and went back to 5 to 2 in the ring. On his recent races he looked an even-money chance and very many thought something was doing. Of course, if such is the case Shields is not the only one interested and the Judges may take a hand in the game and punish Shields' associates if they can find them.

ED GAINES in an interview says that the English betting people bet pounds where we bet dollars. "Why, a man apologizes over there if he offers a bookmaker less than \$25. Poor men owning horses are exceptions to the rule in England. It is very different from what it is here. The majority of people who own horses here are poor folks, the rich are the exceptions. But I am pleased to say this state of affairs is improving here every year."

JEFFERSON CITY, Mo., February 1.—Division No. 2 of the Supreme Court to-day dismissed the writ of error in the cases of St. Louis pool room keepers on the ground that the State has no right to appeal to this court in misdemeanor cases. The court did not pass upon the constitutionality of the Breeders' law under which the pool room men were prosecuted. The decision of Judge Murphy of St. Louis releasing the pool room violators therefore stands.

ASTELL, by Lexington—Mary Churchill, died at the home of her owner J. B. Viley, Woodford County, Kentucky, last week. She was 25 years old and it is probable that her death makes Sultana the sole surviving daughter of Lexington. Astell was a prolific broodmare but none of her produce achieved distinction on the track. Her daughter, Miss Nailer, by Longfellow, was a very good producer, however, throwing Ten Penny, winner of the Kentucky Oaks, Caldwell Kentucky Lady and other good performers.

W. L. STANFIELD is in tough luck all round. The Sheriff and others have been worrying him for some time, and he gave a mortgage recently to clear off some of his indebtedness. After winning a race yesterday with George Miller he was called into the stand to explain the improved form of his old sprinter, who has about two sound legs. Incidentally the Judges are also inquiring into the running of the other horses in his stable, notably Castake, who runs some peculiarly good races at long intervals.

COL. ERNEST MARX, the famous photographer who is on a professional visit to the Bluegrass, has a scheme for employing the X rays in the service of breeders. The plan is by the use of the rays to permit a breeder to look at his colt long before it is foaled and thus observe its sex, color, markings, etc. It would also be exceedingly useful in discovering whether a mare was in foal at all or not. Col. Marx declares the plan is perfectly feasible, and that such use of the rays will be no more than looking at a mare herself by ordinary electric light.

"COUNSELOR BILL" BRIEN, who is known on every race track in America for the last twenty years, has sold out his stable to W. H. Laird and is going to the Klondike with W. H. Devalle, who returned from the Yukon country this winter with a snug sum and has been playing the races here. Brien trained for "Lucky" Baldwin when Rey el Santa Anita won the American Derby [This is a mistake, we believe, for if memory serves us young McDaniels trained him] and last season trained the horses of B. J. Johnson of Chicago.—New Orleans dispatch, Jan. 28.

DR. J. D. NEET of the Kindergarden Stud, Versailles, Ky., has sold to Gus Straus, Lexington, Ky., the chestnut colt full brother to Hastings, by Spenthrift, out of imp. Cinderella (dam of Foreigner, Ferrier, Handsome, Hastings, and Plaudit); also chestnut colt full brother to La Creole and Penury, by Spenthrift, out of imp. Tarantella; also bay colt by Burlington, out of Guile (half-sister to Badger) by Deceiver. Price private. These are grand colts in their individuality and breeding, and Mr. Straus is to be congratulated on the purchase of such thoroughbred gems.

TRAINER JIM GARLAND has received seven highly bred two-year-olds from the Santa Anita ranch, and judging from their appearance they should earn more laurels for the celebrated Baldwin ranch. The youngsters are: El Astro by Lord Chesterfield from La Cienga, dam of Estac; Los Medanos, by Lord Chesterfield—Janova; Reina de Cuba, by Emperor of Norfolk from Cuban Queen, dam of Ramiro; Altenago, sister to Rey del Carreres (Americus in England), by Emperor of Norfolk—Clara D; El Durazno, by Amigo, out of Clara S; Ocorano, by Amigo from St. Cecilia, sister to Volante, and Rey del Rio, by Rey el Santa Anita out of Magdalena.

WE were yesterday shown a list of horsemen who timed the Fleur de Lis—Buck Massie race, and as the list was such an imposing one and the watches clicked at from 1:40 1-5 to 1:41, we reckon those that said they caught the mile in 1:41 1-2 were soliloquizing through their sombreros. It is not our desire to be unjust, hence make the correction. But at the same time we still adhere to our belief that 1:40 1-2 should not have beaten Buck Massie, in view of his prior performances and the condition the brown horse had shown himself to be in just a few days before. It is our opinion that Fleur de Lis was never in the same class with Buck Massie. Few horses in the country are.

THE sensation to-day at Singlerly was the discovery of an electric battery on Jockey Heinrichs after he had won with Leigh. The horse was well backed and won easily. On being searched, a tiny battery incased in canvas was found sewed to the boy's undershirt under the arm pit and wires were strung through, making connection through the boot. P. MacMahon, who owns the horse, claimed he knew nothing of the battery. He was exonerated and Heinrichs ruled off. The latter said the battery was fixed by him some time ago. He thought it hard to be ruled off when batteries are used by others in nearly every race.—Philadelphia dispatch, Jan. 24th.

THE following is a list of the two-year-olds in training in the strings of Barney Schreiber, Atkins & Lottridge, and J. MacManus: Barney Schreiber—Racivan, ch g, by Racine—Evangeline; Rosebeau, b f, by Flambeau—Fairy Rose; Loyabella, gr f, by imp. Loyalist—Belle D.; bay gelding, by Tenny—imp. Fun. Atkins & Lottridge—Baby King, b c, by imp. Islington—Visalia, chestnut gelding, by imp. Islington—Nellie Van; bay filly, by imp. Gold Finch—Hinda Dwyer; brown colt, by imp. Midlothian—Angeline; black colt, by imp. Duncombe—Victress; bay filly, by Emperor of Norfolk—The Truant. J. MacManus—St. Apollonaris, ch c, by St. Carlo—Glenlivet; bay colt, by imp. Watercross—Geneva; brown filly, by Apache—Play Toy.

THE California Derby of 1898 should be a great race. The field last year was a good one, but this season it threatens to be better. The likely candidates are Traverser, Napamax, Count of Flanders, Morellito, Dr. Sharp, San Antonio, Fonso-vannah, Maxello, Martha, Recreation, St. Cuthbert, Torsida and Borgia. There are some thirty-five others eligible, but with the exception of five or six that have never yet faced a starter none have shown to be of Derby caliber. Though Traverser is the fastest colt seen here in many a day, whether he will like a Derby route or not is another question. Count of Flanders, Morellito and Torsida all seem to like a long journey, especially Morellito, whose mile and a quarter of last Tuesday, when he was just nosed out in 2:07 1-2, is not to be discounted. Recreation might round to and be a hard one to beat, too.

THE dates for the following stakes have been decided on by the Pacific Coast Jockey Club: California Oaks, mile and an eighth, February 22; Malowanky Stake, one half mile; February 26th; Ocean View Stake, one-half mile, March 2d; Crocker-Woolworth Bank Stake, two miles March 5th; Occidental Stake, four and one-half furlongs, March 21st; Androus Stake, four and one-half furlongs, March 24th; Evergreen Stake, one mile heats, March 26th; Olympic Stake, four and one-half furlongs, March 28th; J. F. Ullman Stake, three miles, March 30th; California Derby, one and one-quarter miles, April 2d; Schrieber Stakes, five-eighths of a mile, April 2th; California Steeplechase, April 23d; Corrigan Stake, five-eighths of a mile, April 27th, and Ingleside Stake, four miles, April 30th. The Thornton Stake at four miles has been reopened and entries will be received up to February 4th.

THE dates allotted by the stewards of The Jockey Club to the various Eastern tracks are as follows: Washington Jockey Club—Spring meeting, April 11th to 23d. Queens County Jockey Club—Spring meeting, April 25th to May 5th; summer meeting, August 15th to 20th; autumn meeting, October 24th to November 8. Westchester Racing Association—Spring meeting, May 7th to 26th; autumn meeting, October 1st to 22d. Brooklyn Jockey Club—Spring meeting, May 28th to June 16th; autumn meeting, September 13th to 29th. Coney Island Jockey Club—Spring meeting, June 18th to July 4th; autumn meeting, August 23d to September 10th. Brighton Beach Racing Association—July 6th to August 9th. Saratoga Association—July 28th to August 27th, all dates inclusive.

THE following is a list of the dates so far decided upon at the different tracks in the West for the season's racing: Little Rock, Ark., March 30th to April 7th; Nashville, Tenn., April 1st to April 9th; Newport, Ky., April 9th to May 3d; Memphis, Tenn., April 9th to April 30th; Lexington, Ky., April 9th to May 3d; Louisville, Ky., May 4th to May 20th; Oakley, Ohio, May 21st to June 7th; Highland Park June 7th to June 23d; Latonia, Ky., June 9th to July 9th; Fort Erie, June 25th to July 12; Montreal, July 13th to July 30th; Windsor, August 2d to August 12th. The dates allotted to Windsor may be changed, providing the Detroit Jockey Club decides to give a meeting in August. The Harlem, Washington Park and Hawthorne associations, who expect to race this season in Chicago, have not yet announced their dates. The Montana circuit, under the management of Ed A. Tipton, will race at Butte from July 2d to August 6th and at Anaconda from August 11th to September 10th. Additional meetings will probably be held at Hamilton and Helena.

JOCKEY DORSEY will be seen in the saddle in California this or next week. He has been reinstated by the Detroit Jockey Club and the license committee of the American Turf Congress has decided to issue a license to the jockey, but he is to be restricted to riding for the stable of B. J. Johnson, the owner of Rudolph, Serena, Paul Griggs and a score of other horses. The Dorsey case attracted widespread attention all over the United States. Dorsey rode Outgo a race in the mud over the Detroit track and Judge Reed ruled the boy off, as the ride appeared to be suspicious. The friends of Dorsey were very much dissatisfied over the ruling and evoked the aid of the law, getting out an injunction. The matter came up in the courts several times. The American Turf Congress took cognizance of the matter and enacted rules covering such cases by punishing owners and trainers who attempted to ride boys ruled off a Turf Congress track. Thinking that Dorsey had been sufficiently punished, the Detroit club has reinstated him at the urgent appeal of B. J. Johnson, and he will ride for that veteran turfman in the future.

A CAR load of brood mares, comprising some of the best in Kentucky, were shipped to Boston, Mass., recently to be bred to imp. Meddler. They were as follows: Property of John E. Madden, Amanda V. (half sister to Hamburg); Peg Woffington (dam of Kitty Clive, Bracegirdle and Madrilene). Pearl Thorne (dam of Pearl Song, Counter Tenor, etc). Property of James R. & F. P. Keene—imp. Onshat, by Hermit, out of Stockdove by Stockwell; imp. Sylvabelle (half-sister to St. Gatien), by Bend Or, out of St. Edithal by Kingley Vale; imp. Marvounsen, by Barcaldine out of Gaydene, by Albert Victor. "Billy" Lakeland's mare Kildare, who holds the mile record 1:37 1-2 for a straight course, was also sent out to be bred to Meddler. Shipmate (dame of First Mate and in foal to Fonso, First Mate's sire), who was recently purchased by W. H. Forbes, owner of Meddler, was shipped with the other mares and will of course be bred to Meddler also. As Meddler is by St. Gatien, it would seem very close inbreeding for him to serve Sylvabelle a half sister to St. Gatien. It is a family, however, of which Bruce Lowe's book says the best results have been obtained by intense inbreeding.—Thoroughbred Record.

# THE WEEKLY BREEDER AND SPORTSMAN

San Francisco, Saturday, January 29, 1898.

## A Pedigree Mystery Cleared Up.

According to the American Stud Book, the great Wagner, champion race horse of his day, a winner of many four-mile heat races, the possessor of unquestionable ability to stay, had but six dams of known breeding. Other great winners of this family were Modesty, winner of the American Derby; True Blue and The Banshee, best long-distance racers of their time; Balloon (who won races at one meeting of mile, two-mile, three-mile and four-mile heats); Parachute, Margaret Wood, Heraldry, Maria West and in late years Bright Phoebus, winner of the Realization Stake, one mile and six furlongs.

E. I. Robinson, a well-known attorney who loves to delve into the mysteries of the stud book, has made a discovery which, to our minds, demonstrates conclusively why the supposed comparatively short-bred Wagner and others of the same family so dearly loved a long route. In short, they all trace to the Burton Barb mare.

Wagner's dam was Ella Crump, by imp. Citizen, registered in Vol. 1, American Stud Book, page 381. Her dam was by Huntsman, second dam by Symme's Wildair, third dam by imp. Fearnought, fourth dam by imp. Janus. There it stopped, so far as the Stud Book compiler knew. But if one will turn to page 435, Vol. 1, A. S. B., it will be observed that there are two Fearnought mares whose pedigrees have a bearing in this case. The first is the one bred and owned by Josiah Scott, of Virginia, and registered as by imp. Fearnought, first dam by imp. Janus, second dam by imp. Jolly Roger. The second mare, also registered on page 435, was bred and owned by Mr. Temple Gofrey, of King William County, Va., and by imp. Fearnought, first dam by imp. Janus, second dam by imp. Jolly Roger, third dam an imported mare. On page 562, vol. 1, A. S. B., will be found a Jolly Roger mare that was bred to Janus and foaled a horse well-known as Baylor's Janus. Her dam is given as imp. Mary Gray, registered on page 106, vol. 1, A. S. B., imported to the United States by Mr. Crofts in 1746. She was by Roundhead, first dam Ringbone by Crofts' Partner, second dam by Crofts' Bay Barb, third dam by Makeless, fourth dam by Brimmer, fifth dam by Dicky Pierson, sixth dam the great Burton Barb mare. The stud book compiler, after going on to give four of imp. Mary Gray's foals, says at the bottom of the page: "Mary had seven fillies by imported Jolly Roger." On page 130, vol. 2, will be found registered Nancy, by imp. Jolly Roger, dam imp. Mary Gray. Among Nancy's foals will be discovered a filly by imp. Janus which is not indexed, of which the mare on page 562, vol. 1, is undoubtedly a duplicate.

Looking at the breeding on the dams side of these two Fearnought mares, therefore, and the Jolly Roger mare, is it not almost a certainty that Wagner, Bright Phoebus Modesty, Balloon, et al. traced to one of these seven Jolly Roger fillies from imp. Mary Gray, in all probability the gray mare Nancy? We believe it is almost a similar case to that of imp. Diamond or Duchess, where the mystery of her breeding was cleared up after many years. And it is declared on good authority, that the breeding of Wildidle, Spendthrift, Miser, Rutherford, Fellowcraft, Idlewild and the host of famous ones that only trace a few generations on the mother's side to a mare by imp. Medley will some day be extended and found to go to one of the great tap-root mares found recorded in the English Stud Book.

Mrs. John M. Clay, undoubtedly the greatest woman writer on the horse in America, and a breeder of many race horses of great note, will be interested in the extension of the pedigree of Bright Phoebus, Modesty, Wagner, et al., and we hope, through Mr. Robinson, that we have been instrumental in clearing away a mystery of many years' standing.

## The Black Pool-Room Cloud.

It was many years ago that Patrick Henry of Virginia made a speech in which he stated the future could only be judged by the past. Owners of valuable racing plants in the vicinity should study the words uttered by the statesman from the Old Dominion. Pool-rooms have wrecked the racing ship in the States of Illinois, Indiana, New York, New Jersey and Connecticut. The existence of pool-rooms threatens the life of racing in California, Missouri and Kentucky. Our racing clubs should therefore use their every endeavor to make the running of these pitfalls for soft-headed men and fearless boys unprofitable.

The Supervisors, for reasons not as yet explained, have seen fit to pocket the proposed pool-room ordinance. But with no information regarding jockeys, scratches or results coming from race courses until after the last race is over there will not be enough of a play to keep the room-keepers in cigar money. With the closing of the pool-rooms the opportunity of the trusted employee to sneak around a corner and lose the money belonging to his employer is lost, also the opportunity of the crank to harp upon the evils of racing, as seen through spectacles dark with ignorance. If the pool-rooms do not run, the crank cannot cite cases of young men going to the bad by the pool-room route, there will be no sermons delivered by sensational preachers, no articles written by sensation-hunting reporters, and the sport of kings and the breeding of race horses will not become a thing of the past and millions of dollars will then be kept in the State that would go to some other commonwealth where there are fewer cranks and more liberal laws.

We are informed that pool-rooms are flourishing in private residences in this city, also in one of the largest buildings in the city, the latter being exclusively for women. In short, betting rooms are being fitted up in many part of the city, the patrons of which will be foolish women, beardless boys, reckless clerks that handle the money of business men and bring discredit upon the racing game when they turn up missing some day. Will the racing clubs here have the good sense to scatter the cloud that is gathering and which will surely ruin everything if actions are not taken looking to its dispersal?

Breeding race horses is now a great industry in California, but if the managers of racing here do not profit by the lessons of the past taught in the States mentioned above the value of their thoroughbred horseflesh will be depreciated about 800 per cent in less than two years' time, or until the Legislature can meet and enact laws that will kill the sport, as was done in Illinois and elsewhere. The beautiful racetracks, on which over a million dollars have been expended, will be cut up into town lots and not a tithe of the sums laid out will be realized for the property. Take heed of our warning ere it is too late, O you racing men of California, and by your wise actions place the sport upon a plane where the finger of scorn can never point, forestalling the crank and those who have not in their hearts any feeling for man's noblest friend, the horse, no admiration for his achievements.

## The Handwriting on the Wall.

THE BREEDER AND SPORTSMAN is not striving to derive any special benefit for itself from the single-handed battle it is making against the associations for allowing the Western Union Telegraph Company to furnish telegraphic reports to every poolroom in the land, from which the company collects hundreds of thousands of dollars annually. This journal is making this fight to protect the best interests of the thoroughbred horse breeders and owners located in California who have millions invested here. It is making this fight for the visiting horsemen who bring thousands of dollars, as well as their horses and employees thousands of miles to this coast. It is making this fight to keep the evening newspapers from making every day a "Derby Day," for through their efforts in disseminating the news every morning from the track they keep those "festering sores" in a business community (the poolrooms) always open. It is making this fight for the benefit of the stockholders of both tracks who have spent over a million dollars in giving us the best tracks in the United States in the best country in the world. It is making this fight to protect them from Legislative interference. It is making this fight in order that the racing question will not become as notorious as a murder mystery, as it appears every afternoon on the bulletin boards of the daily newspapers and fills pages of the afternoon dailies

crowding out valuable items of news. It is making this fight to keep the sport of kings healthy and vigorous and not make it nauseating in the opinion of every property holder in this State. It is making this fight to close the pool-rooms in the leading cities in the interior because public attention is being so strongly drawn to them through the influence of press and pulpit that at the next legislature it will be a difficult task for the associations to stem the current of public opinion which is increasing in volume every day because of the many acts of wrong-doers which are ascribed to the running of the pool-rooms and the race track evil.

This journal has on its exchange table the largest number of turf journals of any publication in America, and for years its editors have watched the disastrous effects of the existence of pool-rooms and the powerful influence exercised by that great monopoly (the telegraph company) in keeping these places in existence, even after the gates of every race track were closed and the stockholders of the best racing associations rendered almost penniless. The disgraceful scenes enacted at the closing of some of these tracks will ever remain as a blot upon the history of racing in America.

If, at the next session of the California Legislature, laws adverse to racing are passed, it will be because the sure-thing gamblers who run pool-rooms, aided and abetted by the jockey clubs and the daily newspapers, have made racing disreputable and a stench in the nostrils of honest men. A few days ago one of the prominent San Francisco papers that under a new management has prided itself on its pure intentions and high moral tone, announced with a flourish of editorial trumpets that such items as those pertaining to the notorious Dr. Brown will henceforth be religiously kept from defiling its virtuous columns. While engaged in this highly commendable business, it might give evidence of its consistency and honesty in its moral war by taking from its windows the flashy cards which announce by telegraph the results of the races at the track, together with the names of the jockeys and the odds that were to be obtained when the horses went to the post. This news is simply sent and published for the benefit of the cheap tin-horn gamblers and others who patronize the pool-rooms. There is not a particle of newspaper enterprise in this matter. There is no demand among the respectable portion of the community for the alleged news. It is simply a cheap advertisement which panders to the desires of young men, boys and women whose only interest in racing is the chance of winning a few dollars. The breeding and the running of thoroughbreds is a grand pursuit and one that has attracted the attention of some of the greatest minds the world has ever seen, but it was never intended to be the substitute of the dice box or the counterpart of the shell game. The journalism that devotes columns to the gamblers and refuses a few lines to legitimate enterprises is simply aiding and abetting all that is vicious in racing, and while posing as a moralist is really a wolf in the clothing of a lamb and an enemy to morality and good government.

THE future of racing in California, whether good or bad, rests with the management of the two race tracks. From these places will come the sentiment which is to make or unmake that form of amusement in this State. If that sentiment is favorable, racing will continue to form one of the delightful out-door sports of California life, but if it should prove to be unfavorable (as many horse-lovers think it will), the present season will prove to be the last. To say that the men who have invested their money in these tracks to the amount of hundreds of thousands of dollars would knowingly invite that end would be a travesty upon their intelligence, and yet that is what they are doing when they permit evils to exist which bring nothing to the association but public odium. The chief among these evils is the down town pool-rooms. It is here that the seed of an adverse racing sentiment is sown. Here it is that the youth and the unsophisticated are relieved of their cash, first through the promise of profit and next through the fear of the police. If, by some miscalculation of the operator, the patrons of these joints should be credited with a winner, he is robbed of his savings through the very law that was intended to crush the robber. The law that was designed to stamp out this most insidious vice, is actually employed for its protection. Whether this state of affairs is made possible by the negligence of the police or the endorsement of the racing associations, or both, we are not prepared to state, but there is one thing that we feel bound to say as the representative of horse-breeders, and that is that it must be stopped, or racing will soon be a thing of the past in California. The practices and practitioners which have made racing odious in other states, cannot escape the penalty in this one. THE BREEDER AND SPORTSMAN does not want to see racing stopped in California, as it has been in Illinois, New Jersey and other states, and for this reason we are opposed to the methods which invite it.

THE all-absorbing topic among the devotees of harness racing in California at present is the dash system of races. Before the agitation in this paper which resulted in the proposal by the Trotting Horse Breeders' Association to give the system a trial, there was an indigence in the harness horse atmosphere, and now there is life and action and the hope that springs eternal in the breast of every man that ever drove, trained or admired a good horse. During the past week this office has been visited by many owners and trainers and all have invariably given the new plan their endorsement. Some have been more enthusiastic than others, but all expressed the opinion that dash races should be given a fair trial, and there was no doubt in the minds of any but the system will greatly benefit horsemen provided the public take kindly to it and endorse it by their patronage, and that they will do this is at the present time more than probable. The dash race will of course favor the level-headed and good acting trotter and pacer, and the honest drivers and owners who desire to win money by getting to the wire first. It will offer no inducements to "laying-up" and this alone should make it popular with all who have the interest of the American light-harness horse at heart. Of course there are many other improvements and amendments to the old order of thing necessary to establish harness racing on a substantial basis, such as expert judges and starters, condition races, and other plans by which all the good of the old rules may be retained and ideas in keeping with advancement taken advantage of, but a forward step in the right direction has undoubtedly been made, and success is certain if intelligence and vim are put into the movement. Every owner, trainer, driver and person interested in any way in the light harness horse should do everything in his power to make the season of 1898 a success. If you have any ideas in regard to the management of meetings, or preparing programmes, put them in writing and send them to us. In a multitude of counsel there is wisdom and when all are actively interested there will certainly follow results that will benefit the majority.

#### At the Starter's Post.

Jockey "Tod" Sloan has been a very extensively interviewed personage since his arrival from England last week. Columns have been published in the New York newspapers giving his impressions and opinions wise or otherwise. No doubt he has been made responsible for much that he did not say. However, Sloan was impressively successful in England, and being an intelligent man, has been amply qualified to present some really interesting and instructive descriptions of features of the English turf. One point he made in connection with English racing was this:

"While right on this line, I want to say a word as to the general high class of the racing officials in England. Everything is on a thoroughly square and fair basis, and there is no question of decision in any event. The starter is a gentleman and that means a good deal more over there, so far as the general interest is concerned, than in America. There is no argument or squabble with the jockeys at the post, as seen here. There is no cutting across and far fewer fouls that we have in America.

"I suppose the discipline in England is more strict, but everything works so smoothly that it does not appear to be so at all. The matter of starting is conducted so easily and harmoniously that it is a revelation to an American racing man. The starter has absolute control of the jockeys, and to give an example there was not a jockey fined or suspended in all the time I was riding there. I did not even hear a jockey's name mentioned by the starter, and when one's name is called it usually means a fine there. The horses are not at the post over five minutes as a usual thing, and there is no 'monkey business' at all."

It is regrettable that the same commentary cannot be made on the starting department of racing in this country, but a starter who does not fine and suspend jockeys, scold and scold jockeys, and now and then swear at and apply foul epithets to jockeys, nay, even lash an occasional offending boy, is in truth a rare bird in our land. It is true that the more extreme actions enumerated are generally reserved for the back stretch and other starting points remote from the immediate vicinity of the great mass of spectators. But no one who is intimately familiar with the details of our system of racing can fail to be plainly aware of the really scandalous look of dignity and ordinary courtesy that characterizes nearly all our starters when discharging their functions at the starting post. To this is due the other well-known facts, that the majority of our jockeys are unruly, disrespectful and, as a rule, seek to obtain unfair advantages, while at the post. Although the situation here is one as widely variant from that depicted by Sloan as can be imagined.

It is not a situation beyond cure, however. Some day we will have rule-makers who will provide the remedy. For one thing owners who instruct their jockeys to "get off in front," regardless of the starter's authority, will be heavily fined or suspended forthwith regardless of their degree of importance or wealth. For another, jockeys who are disobedient or ill-behaved, will be punished with absolute certainty, whether stable boys or high-salaried celebrities. And for still another, starters, who do not conduct themselves with dignity in the discharge of their duties, will be provided with successors who will.—Daily Racing Form.

#### Some of Mr. Daly's Horses.

An Eastern turf writer who has been inspecting the division of Marcus Daly's horses now in charge of Wm. Lakeland has this to say of Hamburg's stable mates:

"In addition to Hamburg, Lakeland has the following horses belonging to Mr. Daly: Ogden, 4; Isidor, 4. The last named is an imported horse by Amphion, the sire of Horoscope, which he resembles, being on the same pattern, but a bigger bone and more powerful horse. Ogden has let down and furnished a bit since he was turned out of training and as he is sound and alright, he may come back to his two-year-old form. It is certain that "Matt" Byrnes tried him very highly last spring, and to him the horse's poor showing was a mystery, although on one occasion at Brooklyn Ogden deliberately cut it when pulling over his field. But as a change of treatment and new surroundings often works wonders, Ogden may be at different horse in his four-year-old career.

"The two year-olds in the string are: Gold Car, ch c, by Goldfinch—Carina; Crocker, b c, by Tammany—Belinda; Larva, ch c, by Inverness—Butterfly; Red Coat, ch c, by Montana—Petticoat, by Doncaster; Ilithyia, ch f, by Tammany—Isis; Wambar, br f, by Inverness—Walnut.

"Gold Car, which cost \$8,000 at the Rancho del Paso sale, has come on wonderfully since he was shipped to Montana, and is an exceptionally handsome, well-furnished youngster; Being out of a mare that has produced such good class horses as St. Carlo, St. Julien, and Prince of Monaco, this youngster was none too dear; and while he may not come to hand so early as some, he can hardly fail to have a class to him.

"Crocker is a full brother to Grand Sachem, which won several races in the Montana circuit before being brought East last season. He is a much more able-looking colt than Grand Sachem. In color he is a bay, with the blaze face of his dam, which is a Kingfisher mare bred in the Nursery Stud. He has a good shoulder, is deep through the heart, has a great back and loins, with powerful quarters and good, clean limbs. He is not so remarkable for quality, still there is a lot about him I like. He has a tough, game, bulldog look to him, and, as he showed fairly well as a yearling, I expect to see this sturdy-looking son of Tammany prove a credit to his sire.

"Red Coat is a lengthy, big-framed colt of the same type as his sire, Montana, but is better balanced and shows more quality. Larva, like all of the get of Inverness, is on the big-boned, powerful order. Ilithyia in color and conformation takes a good deal after her sire. Her dam, Isis, is a royally bred one, being by Bend Or (Derby-winner), out of Shotover, a Derby-winner, she by Hermit, also a Derby-winner, and it is also worthy of mention that on both sides of the house Isis goes to Stockwell in the third generation (Bend Or, Doncaster, Stockwell), Hermit, Toxophilite, Stockwell."

#### Combination Trotting Sale.

The attendance at the Combination Sale of trotting stock on Thursday at the Occidental Horse Exchange was larger than has been seen at any sale of its kind in years. There were many farmers and horse-breeders in the crowd, but the long spell of dry weather and consequent scarcity of feed for stock deterred many from purchasing, although it was hard to resist the temptation. Algor, 2:11, was sold the day before the sale for \$750, and Rayanette, 2:27, for a fair price. There being only one bid on a number of horses, Mr. Layne would not allow them to be sold. Everything about the sale was conducted in an able manner. Wm. Fitch, the silver-tongued auctioneer, assisted by Mr. McCarthy, of Lexington, formed a good team. Following are the names, prices, and to whom the horses were sold:

Double team by Menlo Falls: K. O'Grady.....	\$ 125
Ether C. b f by Sidmoor, 2:17; Chas. Johnson.....	110
Corlone Blinn, b f by Geo. Dexter, 2:18; Chas. Johnson.....	140
Maud Murray, ch f by Hambletonian Wilkes—Anna Belle, 2:27; F. Newlands.....	390
Joe, b g by Hambletonian Wilkes—Belladonna, 2:34; H. Hall.....	75
Maggie N. b f by Hambletonian Wilkes—Kitty Elmo; H. Pierce.....	55
Uranian, b f by Hambletonian Wilkes—Urania, 2:40; J. W. Wilson.....	70
Bay filly by Hambletonian Wilkes—Otto; H. Pierce.....	55
Geo. Wiley, b c by Prince Red—Calypso; H. Llador.....	85
Stanley W. b g by Chas. Derby—Flora.....	200
Silver Bell, b m by Silver Bow—Young Fanny Wickham; H. Hall.....	210
Bay filly by Egyptian Prince; Ed L. Fitts.....	70
High Pariff, bay stallion by Silver Bow—Lionette.....	125
Bay mare by Dexter Prince—Anteros; C. Molero.....	90
Bay filly, (5 mos.) by McKinney; E. M. Callendine.....	75
Belladonna, b f by Datus—Belle Medium; R. Mulligan.....	135
Bay mare by Disk—Addie May; C. Johnson.....	50
Mount Hope, bay stallion by Sable Wilkes—Lizzie; F. Campodocino.....	375
Kitty, ch m by Dick Patchen; H. Crausen.....	35
Novato, grey gelding by Datus; H. Rookart.....	115
Swift Wind, b g by Aptos Wilkes; W. H. Levy.....	65
Mabel Leigh, b f by Dexter Prince, Jr.—Adelina Patti; C. Woodruff.....	95
Junco, g m by Mountain King; T. L. Rogers.....	80
Felix Holt, b g by Alex B. Itton—Adelina Patti; J. Doran.....	65
Viola J., br m, by Direct, 2:05; Addie S.; T. Cresswell.....	190
Bob Roy, b g, by Piedmont; F. E. Kingsbury.....	65
Jasper, ch g, by Chas. Derby, S. T. Cool.....	65
Saddle horse by Imp. Socrates; Chas. Johnson.....	50

#### TWO FINE YOUNG STALLIONS FOR SALE.

One a trotter and the other a pacer, bred in the most fashionable strains. The trotter is one of the finest individuals and GRANDSTREET BRED horses on the coast, and a great stock horse, as his produce show. For particulars, pedigree, etc., address, G. W. STIMPSON, V. S., 698 24th St., Oakland

#### A Shining Exception.

Not long ago a noted turf writer promulgated the opinion that "Scientific breeding is a failure in nine of a given ten cases," at the same time citing various instances of "full brothers" (and sisters) that proved ignominious failures. One swallow, however, does not make a summer; neither do a few stray instances make a broad theory universal in its application. There are so many exceptions to the rule quoted that it would be the winter's work of a statistician to list them. But there is one that comes readily to mind as so forceful a disprover that it is worth being pointed out at this opportune moment.

One of the greatest of the great Woodburn brood mares was Waterwitch. She produced notably by several horses, but her great nick was with Belmont. She produced nine foals by him, and each and all of them have achieved fame or distinction. The first was Fairy Belle, dam of Nymphia, 2:26; Tuscarora Sea King (sire of Lou's Victor, 2:10), etc.; the second was Sprite, of whom more anon; the third was Watersprite, a double producer; the fourth was Naiad, trial 2:30; also a producer; the fifth was Wavelet, another great brood mare; the sixth was Warlock, sire of three 2:15 trotters; the seventh was Viking, 2:19; a noted race horse and sire; the eighth was Waterloo, 2:19; another; the ninth was Warbler, 2:29.

Here were nine trials; had there been ten, and granting the tenth a failure, there would have been nine successes to one failure, and not one success and nine failures as the writer spoken of claims is the case.

We omitted any extended mention of Sprite in speaking of Waterwitch's produce above. In reference to her let us now say that she became one of the most famous of Palo Alto's brood mares. To the cover of Electioneer she produced four foals that lived. The first was Sphinx, 2:20; the second was Slight, 2:28; the third was Egotist, 2:22; the last was Electrite, 2:28. Here were four trials and no failures—every one a success. Slight, after being used as a brood mare for several years, proved barren, was taken up and easily given her record. Egotist is the sire of The Conqueror, 2:12; and many others and The Conqueror is the sire of The Merchant, yearling record 2:29. Electrite is a phenomenon; last year, at the age of nine years, he put twenty-two performers into the standard list—a feat without precedent in breeding history. As for Sphinx, he is the most radiant star in the galaxy. At fourteen years he stands at the head of all sons of Electioneer as a sire, with fifty-four 2:30 performers, sixteen 2:20 performers and five 2:15 performers to his credit, while his sons and daughters are also already beginning to produce, and there promises to be an established "Sphinx family" at no very far distant day. He is a triumph of systematic, scientific breeding, as are all his brethren.

#### The "Breeder" Complimented.

EDITOR BREEDER AND SPORTSMAN:—I see you have decided that the pool-rooms must go, and when the BREEDER starts in on any proposition it generally gets there. Keep up the good work. As a breeder who does not race I am interested in keeping up the prices of thoroughbreds. Nothing, in my opinion, will do more to destroy the value of my horses than these pool rooms, as they make racing disreputable in the eyes of the public. I consider the breeding of horses is one of the grandest pursuits a farmer can be engaged in, but if these iniquitous pool rooms remain open the inevitable result will be that a thoroughbred horse will be looked upon as a companion to the shell game and the dice box. Keep up your fight, Mr. Editor, and more power to our pen. Racing in California would never have reached the high plane it now occupies were it not for your labors for the past ten years, and every subscriber of your reliable paper understands why you are striving to prevent its downfall. We know you have made a life-long study of the subject and know whereof you speak. Your outspoken demand for the abolishment of all telegraphic and telephonic communications of every nature from the race track to the city should be heeded by the associations which have almost a million dollars invested in valuable property, which will certainly be destroyed unless the pool rooms are closed.

J. D.

In 1895 there were nine living foals sired by Torso, seven of whom were winners and the remaining two were reserved for breeding. His winners were Torsons, Joe Rogers (Alarm), Torello, True Love II., Una Que Amo, Torston and Myrtle H.

In 1896 Torso had five foals, three of which were raced three of which were raced and were winners, viz: Our Johnny, Restless and Sweet Liberty.

During 1897 Torso had nine starters, Torstenson, Sister Ella, Torsida, Solution, Hears, Sculptor, Torchdance, Cosina and Odds On. Torsida was one of the best fillies in the West and Odds On is still unbeaten. Nearly all the others won.

This horse will make the season of 1898 near Sacramento. See advertisement in this issue.

CURBS, SPLINTS, SPAVINS, WINDPUFFS,  
—and all enlargements, absolutely removed by—

## QUINN'S OINTMENT.

*It has the unqualified endorsement of our leading horsemen and veterinarians.*

MR. C. E. DINEHART, Cashier State Bank,  
Savoy, Minn., says:  
"One bottle cured a very bad case of blood spavin on a mare for which I have since been offered \$800. I would not be without it if it cost \$5.00 a bottle."  
We have hundreds of such testimonials.

Price \$1.50 per Package. Ask your Druggist for it. If he does not keep it we will send prepaid on receipt of price. Address W. E. EDDY & CO., Whitehall, N.Y.

### Sustained Speed in Trotter and Runner.

Mr. Morris J. Jones, the owner of Alix, recently informed us that the mare was timed a quarter in 28½ seconds at Indianapolis. This was in 1897. The fastest half mile claimed for Alix is 1:01½, and it was on the prepared track at Galesburg against time. The best mile of the mare was 2:03½, also on the fast track at Galesburg. A quarter in 28½ seconds is at the rate of 57 seconds for the half, and of 1:54 for the full mile. Accepting the idea that the highest speed rate is the measure of stamina, Alix weakened 4½ to the half-mile pole, and 9½ to the mile pole. The fastest quarter of a running horse is 21½ seconds, by Bob Wade, four years old. The fastest half mile is 46 seconds, by Geraldine, four years old. The fastest mile is 1:35½, by Salvator, four years old. A quarter in 21½ seconds is at the rate of 1:25 for the mile. A half mile in 46 seconds is at the rate of 1:32 for the mile. The falling off in the speed rate, as fixed by the quarter of Bob Wade, and the mile by Salvator, was 10½ seconds, a wonderfully small reduction when we consider the severe tax put upon the organs of respiration and circulation in 21½ seconds. The difference between this quarter and the best quarter of Alix is 7½ seconds, which means at a corresponding rate 29 seconds for the mile. It is the extreme exertion that tells. You can completely pump a trotter in a full long and make a runner stagger in going the same distance. The decline in the rate fixed by Geraldine for a half mile and Salvator for a mile is but 3½ seconds. The gait of the runner is easier for him than the gait of the trotter is for the trotter, but this is due to the fact that his conformation has been improved by generations of selections based upon track tests. The Oriental horse, to which we trace the thoroughbred had not the size nor the low clean action essential to high, sustained speed. By selection in breeding based upon track tests we are improving the physical lines of the trotter, strengthening his organs of respiration and circulation, and when he shall be so truly balanced that nerve force will not be wasted upon faulty action, we may look for him to develop a higher rate of speed than has yet been shown in harness and to carry it for a greater distance. But not until then.—Turf, Field and Farm.

THE Rocklin Driving Club has opened a stake for foals of 1896 to be trotted over the Rocklin track July 4th, 1898, one-half mile heats, three in five, entrance \$25, in five equal payments. The club will add \$50 to this stake. The money will be divided 60, 25 and 15 per cent. Entries close February 15th with J. M. Hackett, Secretary, Rocklin, Cal.

LEWIS G. TEWKESBURY, of New York, owner of the crack pacers, John R. Gentry and Robert J., at last has decided to use Robert J. for speedway driving this year, while John R. Gentry will be raced and exhibited by E. R. Browne. Robert J. is the fastest harness gelding in the world, holder of the mile and half mile track record for a gelding, a horse that has gone more miles below 2:10 than any other horse that ever lived, to say nothing of being one of a team that holds the world's record to pole. Robert J. should form one of the most notable figures of the New York road brigade and Mr. Tewkesbury is doing the most honorable and humane act of his life in retiring the champion. All honor to him.

### Names for Foals of 1896.

Following are the names claimed with the Jockey Club by turfmen now in California for the foals of 1896, and taken from the Racing Calendar:

By "Butch" Fisher.—Gold Garter, ch c, by imp. Golden Garter—Miss Pickwick; Ed Lanigan, b c, by Flood—imp. Cornelia; Buck Taylor, ch c, by El Rio Rey—Nellie Post, By P. Siebrecht.—Racine Murphy, rn f, by Racine—Maggie R.

By D. Gideon.—Touraine, ch c, by Himyar—Lady Agnes Katisha, br f, by imp. Darebin—Yum Yum.

By John Mackay.—Chrysoe, ch f, by imp. Golden Garter—Sister Warwick; The Saint, b or br c by imp. Midlothian—Angelique; Starboard, br f, by imp. Watercress—Oceanica; Lavator, ch c, by Salvator—Hot Spring.

By J. B. Haggin.—Santello, br c, by imp. St. Andrew—Lorlia.

By Farrar & Turberville.—Complimentary, b f, by Apache—My Bad; Alice Rix, ch f, by Flambeau—Gerhardine; Racebud, b f, by Racine—Rosebud; Calvados, br c, by imp. Calvados—Virginia Dare.

By T. G. Ferguson.—Distance, b c, by Prince Royal—Press Oward; Anchored, b c, by Prince Royal—Homeward Bound; Prince Farewell, b c, by Prince Royal—Minnie Williams; Royal Tar, ch c, by Prince Royal—imp. Tartarine; Sweet Cakes, br f, by Prince Royal—imp. Undercrust; Wheat King, br c, by imp. St. George—Lucretia; Master Lee, br c, by imp. St. George—Levee.

By C. Oxx & E. J. Shipsey.—Senior Deacon, b g, by imp. Sir Modred—Whisban.

By J. B. Haggin.—Sombre, blk f, by imp. Midlothian—Miss Woodford; The Mute, b f, by Tyrant—imp. Silence; Vivette, ch f, by imp. Sir Modred—Bedotte; Guiliaua, ch f, by Tenny—Guilia; Torrid, ch f, by imp. Sir Modred—Tulare; Ventura, br c, by imp. Golden Garter—Ventura; Warble, b f, by imp. Darebin—Carolina; Mossbrae, br c, by imp. Watercress—Shasta; Iscara, ch f, by imp. Islington—Carissima; Lovellette, b f, by Uncle Jess—Amourette; Grille, b f, by imp. Islington—Rosa G.; Released, b f, by imp. Darebin—Repressa; Daramba, b f, by imp. Darebin—Lambayeque; Cerulea, ch f, by imp. Golden Garter—Blue Grass; Circlet, b f, by imp. Golden Garter—Easter; Zepha, ch f, by Fitzjames—Typhoon; Bellane, b f, by Tenny—Bella B.; The Light, ch f, by Uncle Jess—Barbary Maid; Rurilia, b f, by Tyrant—Maid Marian; Vineyard, br f, by Fresno—Fortuna; Vita, b f, by imp. Prestonpans—Vital.

### The Brooklyn Stake Entries.

The Brooklyn stakes closed with the following number of entries, the number received for the same events in 1897 also being set forth:

#### FOR THREE YEAR OLDS AND UPWARD.

	1897.	1898.
Brooklyn Handicap (guaranteed).....	31	44
Brookdale Handicap; \$1,000 added.....	22	37
Parkway Handicap; \$1,000 added.....	26	43
Myrtle Stakes; \$1,000 added.....	28	47
Patchogue Stakes; \$1,000 added.....	33	53

#### FOR THREE YEAR-OLDS

Broadway Stakes; \$1,500 added.....	15	45
Preakness Stakes (guaranteed).....	44	41
Falcon Stakes; \$1,000 added.....	38	43
May Stakes; \$1,000 added.....	36	51

#### FOR TWO-YEAR OLDS.

Clover Stakes (guaranteed).....	54	83
Manhasset Stakes (guaranteed).....	57	78
Hanover Stakes; \$1,000 added.....	60	75
Bedford Stakes; \$1,000 added.....	65	87

#### STEEPLECHASE AND HURDLE.

Greater New York Steeplechase Handicap (guaranteed).....	16	30
Kensington Hurdle Handicap; \$750 added 16		35

The increase in the steeplechase and hurdle race events announced is most gratifying to lovers of cross-country sport and indicates a great advance in its popularity.

### A Reliable Remedy.

Mr. E. H. Salisbury of Traverse City, Mich., writes "The package of Quinn's Ointment which you sent me has cured two cases of cracked heel and several other sores of long standing. It is the best remedy I know of." For Curbs, Splints, Spavins, Windpuffs and all Bunches use Quinn's Ointment. Price, \$1.50 per package. If you cannot obtain it from the druggist or dealer, address W. B. Eddy & Co., Whitehall, N. Y. For sale in San Francisco by Messrs. J. A. McKerron and J. O'Kane.

PITTSFORD MILLS, VT.  
ABSORBINE is ahead of anything I ever used for the removal of windpuffs and all soft bunches.

F. H. HOLDEN.

"It's no use; I've tried dozens of places and it's simply impossible to get good tobacco for five cents."  
"Good cigars, you mean. If you'd invest your nickel in Piper Heidsieck you'd get the best piece of tobacco you ever put between your teeth."

Judges of good tobacco everywhere are unanimous in their praise of

**PIPER HEIDSIECK PLUG TOBACCO**

(CHAMPAGNE FLAVOR)

It is not only the best chewing tobacco on the market, but since the recent increase in size (making the new plug nearly half as large again as the old) it is positively the biggest piece of good tobacco ever sold for five cents.

### The Owner of the Great Wilton.

CIRCLEVILLE, O.

Dear Sir—The Speed Sustaining Elixir is a compound that is invaluable in resisting fatigue in a horse while undergoing excessive physical exertion. I have found it beneficial this season in several instances. In a word, it does all claimed for it.

W. E. LEWIS.

Horse Owners Should Use  
GOMBAULT'S

**Caustic Balsam**

THE GREAT FRENCH VETERINARY REMEDY  
A Safe, Speedy and  
POSITIVE CURE.

Prepared exclusively by J. E. Gombault, ex-Veterinary Surgeon to the French Government Stud.

### SUPERSEDES ALL CAUTERY OR FIRING

Impossible to produce any scar or blemish. The safest best BLISTER ever used. Takes the place of all liniments for mild or severe action. Removes all lumps or blemishes from Horses or Cattle.

As a HUMAN REMEDY for Rheumatism, Sprains, Sore Throat, Etc., it is invaluable.

WE GUARANTEE CAUSTIC BALSAM will produce more actual results than a whole bottle of any liniment or spavin cure mixture ever made.

Every bottle of Caustic Balsam sold is warranted to give satisfaction. Price \$1.50 per bottle. Sold by Druggists, or sent by express, charges paid, with full directions for its use. Send for descriptive circulars, 10 timonials, etc. Address THE LAWRENCE-WILLIAMS CO., Cleveland, O.

## THE KENNEL

## Coming Events.

## BENCH SHOWS.

Feb. 15.—New England Kennel Club's fourteenth annual show, Boston. James L. Little, Sec'y.  
Feb. 21.—Westminster Kennel Club's twenty-second annual show, New York. G. de F. Grant, Sec'y.  
March 15.—Northwestern Kennel Club's dog show, St. Paul, Minn. E. D. Brown, Sec'y.  
Mar. 31-Apr. 1-3.—Santa Clara Valley Poultry and Kennel Club—California Collie Club bench show at San Jose, Cal.; Chas. R. Harker, Secretary, San Jose, Cal.  
May 18-21. San Francisco Kennel Club's bench show, San Francisco. H. H. Carlton, Sec'y.

## FIELD TRIALS.

Feb. 7.—Alabama Field Trial Club's second annual trials, Madison, Ala. H. K. Milner, Sec'y.

## COURSING.

Feb. 5-6—Ingleside Coursing Park. Regular meetings every Saturday and Sunday and holidays.

## LIFE AMONG THE LEASHMAN.

## Two Days Coursing Again at Ingleside This Week.

The demands of the leashmen have necessitated two days coursing again, this week. There are two stakes to be run, commencing at 1 P. M. to-day and at 11 A. M. to-morrow. The chief stake is for the cracks at \$4.00 entrance and the management have added no less than \$350.00. The other is for puppies with \$75.00 added. The puppy event has brought out some youngsters never before seen and there are likewise some "new ones" amongst the more experienced performers.

The best liked will be found in a column of to-day's daily BREEDER AND SPORTSMAN.

Messrs. Curtis & Son were in the city this week playing the bang-tails. They broke to the good.

The Interstate Coursing Club held its regular monthly meeting last Tuesday night. Routine business was the order of the evening. The protest filed against Mike Welch's Tipperary Lass was taken up. Welch alleged that the pedigree of his bitch was correct as he first gave it and as it had always been accepted prior to the protest. The grievance committee cross-examined him to some extent and wound up by taking the matter under consideration for another month.

Several new members were elected to the Interstate Club last Tuesday. Their names are as follows: H. A. Hinkleman, Geo. J. Panairia, Hugh Lynch, John Maher, and John Keenan of San Francisco, and Jos. Goldman and J. J. Griffin of Merced.

Coursing at Sacramento suffered a hard blow last Sunday. A kick against a decision of the judge resulted in something like a riot. The crowd attempted to pull the judge from his horse. The result was a sale of the fences, etc., etc., and there will be a cessation of coursing in the capitol city for several months.

The Los Angeles coursing men should adopt a system of registration. In their running last Sunday there were several bounds named after the most noted San Francisco flyers. Such work is not creditable to the southern city, and, moreover, leads to misunderstanding. With coursing at its present height in Los Angeles, a club could easily be formed and credited by the American Coursing Board.

Terry Butler's Susie still continues to improve. She landed the stake last Sunday in a manner that shows her to be a crack among cracks.

White Chief showed up last Sunday in poor form. Victor put him out in his first course with comparative ease.

Senorita also ran sulkily last Sunday. Ordinarily she should beat Harkaway every time.

S. E. Portal was in the city during the week. Portal expects to have Lightning in high-class shape on her next performance.

George Whitney came up from Campbells last Sunday. He played the horses Wednesday with Santa Clara success.

The winner of this week's stakes will pull down the value of a good dog of any breed.

## Sacramento Bench Show.

The dog show at Sacramento closed last Saturday. While the entry list was not as large as last year the classes were of far better quality. Mr. C. D. Nairn of Ballston, Or., judged all classes and is credited with having given general satisfaction. The following is the list of awards:

MASTIFFS—1st, A P Scheld's Duke.

GREAT DANES—Free for all class—1st, J. Harmon's Marco.

Puppy and Novice Class—1st, C G Saxe's Defender.

ST. BERNARDS (Rough Coated)—Novice Dogs—1st, Mrs C G Saxe's King Menelek; 2d, Miss Weil's Prince Albert.

Novice Bitches—1st, C A Smart's Princess Scheherezade; 2d, A E Muenther's Queen of the Joaquin.

Free-for-all Bitches—1st, Mrs E F Beck's Montana Queen; 2d, C A Smart's Princess Scheherezade; 3d, Orangedale Kennels, Los Angeles, Lady Bute II.

Junior Dogs—1st, Mrs C G Saxe's King Menelek; 2d, Dr. W R Cluness' Reglov, Jr.

Junior Bitches—1st, Mrs E F Beck's Montana Queen; 2d, A E Muenther's Queen of Joaquin; 3d, Orangedale Kennels, Lady Bute II. special, H A Wegener's Ramona W.

Senior Dogs—1st, Hubert White's Roxie Savage Taylor. ST. BERNARDS (Smooth Coated), Puppy dogs—1st, L J Romer's Duke of Klondike.

Puppy Bitches—1st, G B Borchers' Smudge.

Novice Dogs—1st, Mazzini Bros' Pluto I.

Junior Bitches—1st, Mazzini Bros' Vienna.

GREYHOUNDS, Puppy Bitches—1st, Fred Kaufman's Tea Rose.

Novice Dogs—1st, O'Connell & Flaherty's W J Bryan.

Free-for-all Bitches—1st, P W Sheehan & Son's Eva S.

POINTERS—Puppy Dogs—1st, H A Wegener's Bummer W; 2d, D H Cox's The Kid.

Puppy Bitches—1st, Geo Neale's Pattie N; 2d, J J Mackey's Bessie M.

Junior Dogs—1st, Kimball & Upson's Jack; 2nd, H A Wegener's Bummer W; 3d, Fred C Yoerk's Joe Freckles; 4th, F B Adam's Doctor.

Novice Dogs (under 55 pounds)—1st, H A Wegener's Bummer W.

Novice Bitches (under 55 pounds)—1st, Geo Neale's Pattie N.

Free-for-all Dogs—1st, Kimball & Upson's Jack.

Free-for-all Bitches—1st, Geo Neale's Queen N; 2d, W E Miller's Lady Glenbeigh.

ENGLISH SETTERS—Puppy Dogs—1st, F G Parker's Joe.

Novice Dogs—1st, W W Wood's Prince.

Novice Bitches—1st, W L Willis' Snow.

Free-for-all, Bitches—1st, Phil Wand's Flora W.

Junior Bitches—1st, Phil Wand's Flora W.

GORDON'S SETTERS—Novice Dogs—1st, Steve Ehret's Prince.

IRISH SETTERS—Novice Dogs—1st, Shift, Pierce and Simpersel's Swift; 2d, C L Ecklon's Bobby; 3d Mrs Aug Haynke's Ralph.

Novice Bitches—1st, Miss E G Creagh's Queen of Kildare. COLLIES—Puppy Dogs—1st, O J Albee's Goldfine; 2d, and 3d, Stewart and Sons' Daouil Dhu, Daouil Roy.

Puppy Bitches—1st, Beach Hill Kennels' Loufra; 2d, Stewart & Son's Chummie; 3d, O J Albee's Clifton's Bonnie.

Novice Dogs—1st, J W Minturn's Rob Roy; 2d and 3d, Stewart & Son's Daouil Dhu, Ivighter.

Novice Bitches—1st, Stewart & Son's Schmorat.

Free-for-all-dogs—1st, Beach Hill Kennels' Spartan; 2d, O J Albee's Alto Clifton; 3d, J W Minturn's Rob Roy.

Free-for-all, bitches—1st, Beach Hill Kennels' Pensarn Ora; 2d, O J Albee's Clifton's Bonnie; 3d, Stewart & Son's Iris.

Junior Dogs—1st and 2d, O J Albee's Alto Clifton, Major Welton; 3d, J W Minturn's Rob Roy; 4th, Beach Hill Kennels' Goldstut II.

Junior Bitches—1st, Beach Hill Kennels' Pensarn Ora; 2d, Stewart & Son's Iris.

BULL TERRIERS—Puppy Dogs—1st, E M Simpson's Royal Flush.

Free-for-all Dogs—1st, J H Sammi's Scaldy Mike.

COCKER SPANIELS—Black (under 28 pounds)—Free-for-all Bitches—1st, E C Plenne's Portia Pastime.

Junior Dogs—1st, C Leonard's Buzz Silk; 2d, H A Wegener's Dufferin Pastime; 3d, F B Adams' Hi.

Junior Bitches—1st, H A Wegener's Polly Pastime; 2d, H A Wegener's Peg Woffington; 3d, E C Plenne's Portia Pastime.

COCKER SPANIELS—Other than Black (under 28 pounds)—Novice Dogs—1st, Geo E Gibson's Ben Harrison.

Novice Bitches—1st, H A Weaver's Dot E.

Junior Bitches—1st, H A Wegener's Tootsie W.

Senior Bitches—1st, Miss E G Creagh's Rallette.

FOX TERRIERS—Puppy Dogs—1st, Royal Kennels' Golden Chimes; 2d, L B Nicholls' Demon.

Novice Bitches—1st, O A Bauer's Daisy Belle; 2d, T J Townsend's Daisy.

Free-for-all, Dogs—1st, Wm G Godfrey's Golden Dirk.

Junior Dogs—1st, Royal Kennels' Warren Crack; 2d, Wm Halley's Our Joe; 3d, Wm B Godfrey's Golden Dirk.

Senior Dogs—1st, J B Martin's Golden Flash.

Senior Bitches—1st, Mrs E M Simpson's Golden Restless.

JAPANESE SPANIELS—Free-for-all, Bitches—1st, H A Wegener's Yum Yum.

ENGLISH WHIPPETS—Dogs and Bitches (under 25 pounds)—1st, Mrs J P Atkin's Fox.

FIELD SPANIELS—Other than Black, Senior Dogs—F C Gifford's Rex Gifford.

## SPECIAL AWARDS.

Best Mastiff—A P Scheld's Duke.

Best Great Dane—J Harmon's Marco.

Best rough-coated St. Bernard—Mrs C G Saxe's King Menelek.

Best smooth-coated St Bernard—Mazzini Bros' Vienna.

Best greyhound—O'Connell and Flaherty's W J Bryan.

Best pointer dog owned in Sacramento—Kimball & Upson's Jack.

Best pointer in the show—Kimball & Upson's Jack.

Best English setter—Dr W Wood's Prince.

Best Irish setter—Miss Ethel G Greagh's Queen of Kildare.

Best collie dog—Beach Hill Kennels' Spartan.

Best collie bitch—Beach Hill Kennels' Pensarn Ora.

Best bull terrier dog puppy—E M Simpson's Royal Flush.

Best bull terrier—J H Sammi's Scaldy Mike.

Best pointer puppy—George Neale's Patti N.

Best black cocker spaniel—H A Wegener's Polly Pastime.

Best cocker spaniel, other than black—Miss Ethel G. Creagh's Rallette.

Best fox terrier dog—Royal Kennels' Warren Crack.

Best fox terrier bitch—Mrs E M Simpson's Golden Restless.

Best English setter bitch—Phil Wand's Flora W.

Largest number of entries by a lady—Miss Della Beach of San Jose.

Best California-bred collie dog—Beach Hill Kennels' Spartan.

Second best California bred collie dog—O J Albee's Alton Clifton.

Third best California-bred collie dog—J. W. Minturn's Rob Roy.

Best California-bred collie bitch—Stewart & Son's Schmorat.

Second best California-bred collie bitch—O J Albee's Clifton's Bonnie.

Third best California bred collie bitch—Beach Hill Kennels' Loufra.

## Pacific Coast Field Trials.

## (CONCLUSION)

## ALL-AGED STAKE.

BAKERSFIELD, January 26.—The judges ordered Countess K handled by Dodge, and Alex C, first prize winner of the Derby and handled by Lucas, put down at 11:25 A. M., they went off at a merry gait, but it was one hour before the birds, which were found in the timber, flushed to open ground. Alex was first to draw on point, stopping suddenly in front of a small sagebrush when traveling at high speed

Lucas kicked the bird out and shot, but instead of keeping a close eye on his dog he watched the spot where the bird fell. Alex broke and ran, and after covering fifty yards of ground he pointed again and Lucas shot and killed. This time Alex was steady to shot, and held his position until ordered on.

While Alex was accomplishing good work Countess K was ranging several yards away and going over birds which were afterwards flushed by the teams. Alex finally put up a hare and chased it a short distance, but stopped on a signal from the handler. After quartering some distance Alex again found birds which he roaded several yards, bringing up to a stylish point and was backed nicely by the Countess. The birds flushed before the handler arrived.

Alex again drew on point and was well backed, but the birds were running and the pointer roaded them until he reached the timber and heavy undergrowth, when the judges ordered the dogs up at 12:55 o'clock.

The Countess must have been off badly in nose, as she failed to score a single point on birds during the heat.

At 1:30 o'clock Valiente handled by Walters, and Cuba handled by Dodge, were again put down. After traveling some distance Cuba ran into birds and dropped flat on his stomach, but the birds, alarmed by the approach of the hunters, had moved. Cuba found his mistake, and leaving his point roaded some distance and again pointed and was beautifully backed. The handler, on finding no game, ordered Cuba on. Valiente, who was ranging to the left of his opponent came to a point and was also beautifully backed. Cuba also pointed, but soon discovered that the bird had left. Again he drew on and his tail stiffened. Valiente backed nicely and the bird was flushed by the handler. Both dogs steady to shot. Valiente ranged some distance away from Cuba and stiffened out. He was steady to shot and retrieved well.

It was some time before a new covey was flushed from the trees. When they scattered among the sagebrush Cuba pointed well and was nicely backed. Valiente was next to point and Cuba rushed in and flushed the birds. Cuba was now excited and flushing birds, but a good talk from his handler steadied him. Valiente again attempted long distance racing and was severely whipped by the handler. The hiding had cowed him and his work after this was poor, the dog having lost his dash.

The dogs were ordered up at 2:35 o'clock and Iroquois Chief, handled by Dodge, and Peach Mark, handled by Allender, were cast off at 2:40 o'clock. Peach ranged well and quartered her ground beautifully, but was rather slow compared with other dogs. Peach made some very pretty points and was invariably steady to shot. The Chief acted very poorly, paying no attention to his handler, who annoyed the other dog by shouting and whistling at the headstrong Chief, who paid more attention to fur than to feathers. The only redeemable feature in the Chief's work was a stanch point he made on a bird when the trial was drawing to a close. His handler was compelled to drag him away from the beautiful position he had taken, and it was with the greatest reluctance that his highness cast himself away to other parts of the field where long-eared rabbits were numerous. The dogs were ordered up at 3:25 p. m.

Sadie Hopkins, a Portland (Or.) bitch, handled by Guise, had a bye with Lucas' Wicklow. The dogs were put down at 3:40 p. m. Wicklow was out of form and accomplished very poor work. He was ordered up after being down half an hour, and Sadie, single-handed, so to speak, worked her ground very stylishly. She flushed some birds which were lying close, but after being down some time she redeemed herself by a display of good judgment in locating running birds and pointing stanchly. She is a very pretty little bitch and very stylish when in action, but her pose is not the best. She was called up at 4:25 p. m., and this finished the day's trials.

Dogs that are put down in the morning and evenings have a great advantage over those that are ordered down in the middle of the day when birds are wild and hard to locate.

BAKERSFIELD, Jan. 27.—This was the warmest day since the inauguration of the field trials meeting, and the dogs that were ordered down in the forenoon suffered in consequence. The contests were opened on new grounds, but they did not prove any better than the territory traversed yesterday.

It was 9:15 A. M. when Nimrod, handled by Allender, met the ranger Valiente, handled by Walters. When put down Valiente cut out a fast pace, covering much ground and finally disappearing from view of his handler. He never returned. He was on a race to no particular spot on earth and may be going yet. The judges gave him half an hour in which to return, but the dog which may prove to be a brilliant star on the plains of Nebraska failed to put in an appearance.

The judges ordered the next brace down at 9:55 A. M. Luke, handled by Coatts, and Cuba of Kenwood, handled by Dodge, were put down in a sage country. After traveling half a mile Mr. Pyle of Bakersfield flushed a good-sized bevy and the birds scattered on nice open ground. Cuba was first to locate and point. He was nicely backed. Both steady to shot. Cuba again pointed and the bird flushed. The quails were lying close and acting well. The dogs made several stops on birds that had moved from their positions, but discovered their mistakes in good season. So far as points were concerned the dogs scored about equal. Cuba flushed two birds, for which an excuse could not be offered. Neither of the dogs showed good nose, running over birds that should have been pointed. Cuba was certainly the most stylish ranger and better worker. Dogs ordered up at 10:55 A. M.

Donna Alicia, handled by Walters, and Peach Mark, handled by Allender, were put down at 11 A. M. Donna proved to be a very merry worker, covering ground fairly fast, but lacking good bird sense. She was first to locate a bevy in a field of stubby willow and light cover. The birds were runners, and the little bitch roaded them several yards. In the meantime, Peach Mark pointed, and Donna, rounding to a turn, backed beautifully. Both dogs were steady to shot. Donna again drew on point, but the bird flushed. The handlers then passed from the field into higher ground, where scattered birds were found. Peach came to a steady point. The bird was shot by Allender and retrieved quickly. The dog was steady to shot. Returning to the ground where the birds were found, Donna came to a pretty point, dropping on her stomach. She was nicely backed by Peach. Both steady to shot. Donna, after roading some yards, pointed falsely. Passing over a mound, Donna roaded and pointed, and Peach ran in and flushed, for which she was chastised by

her handler. Peach, ranging out into the field, pointed beautifully, and was handsomely backed. Allender shot and killed. Peach retrieved quickly. Dogs ordered up at 12 o'clock.

After luncheon the great Dash Antonia, handled by Counts, and Alex C., the young and dashing Derby-winner, handled by Lucas, were put down at 1 P. M. Dash quartered and ranged over considerable territory in a short space of time. His beautiful stride and handsome appearance when in motion were much admired, but Dash paid not the least attention to his handler, and whistle as the latter may, Dash kept on going till he ranged out of sight. As he did not return in good season Nimrod was ordered down with Alex C. at 2 P. M. After forty minutes of hunting, birds were found on high ground, where the sagebrush was low and thick.

Both dogs showed poor nose, but considering the heat of the day and the exceedingly dry nature of the soil, some excuse was due to them for their poor behavior. Passing into lower land, where Luke scored several easy points on the previous morning, Nimrod came to a stance point on a bevy and was stylishly backed. The birds were running and Nimrod broke and roared slowly. The pointer rushed, passed him and came to a grand stand, Nimrod backing in good style. Both dogs now started to road, and finally they pointed side by side on birds that were hiding in a dry ditch. It was a very pretty picture as setter and pointer stood almost touching each other.

The dogs were next ordered by their handlers into a field covered with low sagebrush. After working it carefully for considerable time they were ordered up at 3:35 o'clock. Alex C. was down two hours and thirty-six minutes. He had the hardest work of any dog in the trial and was invariably put down in the heat of the day, but his beautiful style in the field combined with his fast ranging ability and good bird sense gained him numerous admirers. In fact, he was selected by many who had no interest in the dogs as a competitor for first or second money.

Cuba of Kenwood and Peach Mark were the next and the last brace put down. They located birds after a long run, and although they had the cover of the evening their work was of the most ordinary kind. They were on birds not more than ten minutes when the judges ordered them up, resulting in the finish of the trials for 1898.

On returning to Bakersfield the judges consulted and decided on giving Peach Mark, now the property of Emmet V. Sullivan, first prize; Cuba of Kenwood, the property of Mr. W. S. Tevis of Bakersfield, second prize, and Luke, the property of C. Young, of San Francisco, third prize.

#### St. Louis Bench Show Abandoned.

There will be no dog show in St. Louis this year. This was decided at a meeting of the Board of Directors of the St. Louis Kennel Club held January 25th, despite the fact that the Exposition Coliseum had been engaged, dates announced, and other arrangements made. The reason is very simple. The club had met and overcome many obstacles and was to be under heavy expense. This the club could stand if the show was a good one, but then came the rub. It was announced that Chicago had decided against holding a show. This meant that the great Eastern and Northeastern kennels would not come West. So the club reluctantly decided against holding the show.

#### A Klondike Dog Livery.

There are many ways of making money in the Klondike country other than hunting for gold and one of these is the project which is being entered into by a veterinary surgeon and his financial backer. James H. Ingram of New York and Thomas Wilson of London are on their way to the metropolis of the gold fields for the purpose of dealing in dogs. They will buy and sell dogs, and also do a dog livery business. They expect to take in a large quantity of supplies with the 200 dogs which they have already shipped to Skaguay. They will arrive in Dawson about April 1. Not only for the purpose of doing a freighting business will the dogs be used, but they will also be rented for pleasure sleighing. Business can only be done in the winter time, but the experimenters hope to be able to get such rates as to enable them to take a vacation in the summer. As the use of dogs is practically the only means of freighting in the country they feel confident that their stock will be kept busy.

#### Miramonte Kennels.

During the progress of the field trials at Bakersfield, Mr. Emmet V. Sullivan, purchased from Robt. K. Gardner, the lemon and white English setter bitch, Peach Mark (Mercury - Betsey Marks). Peach Mark was the winner of the all age stake last year and won first in the all-age last week besides winning the Verona Kennels' silver cup for the best English setter in the all-age and also the Western Sports-silver cup for the winner of the all-age stake this year. The sale was negotiated by Geo. T. Allender, the well-known handler and trainer. Allender handled Peach Mark at the trials last week. It is reported the price paid was \$250. It has been announced that Mr. Sullivan has engaged the services of Allender and that he will have charge of the Miramonte Kennels in the near future.

#### Poisoning of Glenbeigh.

Howard Vernon is not yet satisfied as to the nature of the poison which caused the death of his great pointer, Glenbeigh. Chemist Barrington some days ago reported that he had found in the dog's stomach several pieces of meat containing arsenic. The presence of arsenic immediately lent strength to the theory that the poisoning of the dog had been intentional, from the fact that strychnine is the only poison put out in the Bakersfield country for the poisoning of coyotes.

In order to guard against any mistake Vernon has placed the stomach and its contents in the hands of another chemist, with instructions to make a careful analysis with the view of determining not only the nature of the poison, but also the amount used.

#### Hounds in Training.

Tony Neal, Nick Bernal and George Jackson of Pleasanton are training their hounds preparatory to entering them in the Newark coursing matches. They own some very fleet dogs and feel confident of carrying off some of the prizes.

#### DOINGS IN DOGDOM.

Modesta leashmen have in contemplation a big meet at Brule's ranch near Modesto, on Sunday, February 5th. There is also talk of organizing a new club and leasing and fencing the race track for coursing.

Chas. Dresser has been doing a fairly good business in the sale of large dogs for use in the Klondike. Among recent sales were two Newfoundland dogs each, to J. Davis, 927 Sutter street and A. Barrington, of this city.

A very exciting coursing match was held on Sunday, January 16, just west of Yuba City, in which the hounds of P. Kerrigan, McGrath and Geo. and Mark Pease took part. Several good races were run and the rabbits and most of the points were secured by "Fleet," owned by Geo. Pease. Quite a number of Marysville citizens were out to see the sport.

#### CHARLESTON, S. C.

DEAR SIR:—I used Glover's Vermifuge on my two puppies that were troubled with worms. It completely cured them, and the tonic brought them up to health in a short time. They were the only two saved from a litter of seven, the others dying of worms and other sickness in other hands.

J. ALWYN BALL.

Mr. McFee, of Los Angeles, has, in Dauntless Sensation (Ch. Warren Safeguard—Blemton Spinaway), one of the best fox terrier bitches bred in California and it is his intention to exhibit her in all the classes she will be eligible to compete in at the bench shows during the coming season. The old winners will have their work cut out to best her. Mr. McFee has a litter brother to this bitch who will also make his debut this season—he will make a very strong bid for a blue ribbon.

Chas. Bone of 1614 Steiner street was arrested last week on complaint of J. C. Fredericks, a neighbor, who charged him with poisoning valuable Maltese cats. Bone, it is stated, objected to the frequent trespassing of the cats on his garden, and he killed them by placing poisonous food in the garden. When the case came up for trial on Thursday, Bone demanded a jury trial. The case was set for trial before Judge Campbell on the 17th of February.

#### Kentel Registry.

Visits, Sales, Whelps and Names Claimed published in this column free of charge. Please use the following form:

##### VISITS.

T. H. Williams' (Oakland) fox terrier bitch Dauntless Creole (Le Lago—Hillside Gandy) to J. B. Martin's Warren Sage (Ch. Warren Safeguard—Warren Duty) January 24, 26, 1898.

J. B. Martin's fox terrier bitch Ch. Golden Jewel (Blemton Reefer—Ch. Blemton Brilliant) to Geo. H. Gooderham's Ch. Veracity (Visto—Violet de Vere) January 24, 1898.

##### SALES.

Humboldt Kennels sold a R. C. St. Bernard bitch (Brian G.—Laura Alton) whelped June 13, 1897, to D. S. Sullivan, Pioneer mine, Placer county, Cal.

Humboldt Kennels sold a R. C. St. Bernard dog pup (Rhoderic Dhu—Royal Francis) to A. T. Thomas, San Francisco.

##### WHELPS.

Chas. Dresser's Great Dane bitch Orchard Trilby, 40,265, whelped February 1st. 10—8 dogs to R. Roma's Czar.

## THE GUN.

#### The Game Law.

The open season for shooting quail, doves, deer and wild duck as fixed by the State law is as follows: Doves, 15th July to 15th February. Mountain quail and grouse, 1st September to 15th February. Valley quail, wild duck and rail, 1st October to 1st March. Male deer, 15th July to 15th October.

The clerks of all the Boards of Supervisors have advised us that no changes have been made this year, but the ordinances passed last year hold good if they do not conflict with the State law. The following counties have not passed any ordinances that alter the open season as provided by State law: Amador, Butte, Inyo, Modoc, Mono, Mendocino, Mariposa, Nevada, Napa, Plumas, San Bernardino, San Diego, San Joaquin, Santa Clara, Sacramento, Solano, Sonoma, Santa Cruz, Siskiyou, Tehama, Yolo and Yuba.

The changes are as follows: Alpine—Deer, Sept. 2 to Oct. 15. Alameda—Rail, Oct. 15 to Feb. 15. Colusa—Deer, Aug. 15 to Oct. 15. Calaveras—Deer, Sept. 1 to Oct. 15. Contra Costa—Deer, July 20 to Sept. 2. (Use of dogs prohibited). El Dorado—Doves, July 20 to Feb. 1. Fresno—Market hunting and shipping game out of the county prohibited.

Humboldt—Grouse and Wilson snipe, Sept. 1 to Feb. 15. Killing of waterfowl prohibited between one-half hour after sunset and one-half hour before sunrise.

Kern—Shipping game out of the county prohibited.

Lake—Deer, Aug. 1 to Oct. 1.

Los Angeles—Shipping game to markets outside of the county prohibited.

Marin—Deer, July 15 to Sept. 15.

Madera—Market hunting prohibited.

Monterey—Deer, July 15 to Sept. 1st.

Orange—Doves, Aug. 1 to Feb. 1. Deer, Aug. 15 to Oct. 1. (Market hunting prohibited).

Riverside—Shipping game out of the county prohibited.

San Benito—Deer, Aug. 1 to Sept. 15. (Market hunting prohibited).

Santa Barbara—Deer, Aug. 1 to Sept. 15. (Use of hounds prohibited. (Market hunting prohibited).

San Diego—Shipping quail out of the county prohibited.

San Luis Obispo—Deer, July 15 to Sept. 1. Doves, July 15 to Dec. 1. (Use of hounds prohibited. Hunting for markets situated outside of the county prohibited).

San Mateo—Deer, July 15 to Sept. 1. (Use of dogs prohibited).

Rail, Oct. 15 to Nov. 15. (Shooting from boat at high tide prohibited).

Shasta—Deer, July 15 to Sept. 1.

Sierra—Deer, Sept. 1 to Oct. 15.

Sutter—Deer, Sept. 1 to Oct. 15. Doves, July 15 to Jan. 1.

Trinity—Deer, Sept. 1 to Oct. 15.

Tulare—Deer, Sept. 1 to Oct. 15. Shipping game out of the county prohibited.

Ventura—Deer, July 15 to Sept. 1. (Market hunting prohibited).

#### A Sea Shikari.

Methven had spent the last five years of his life in bringing up jute to Calcutta, and it was on board of his ridiculous flat-bottomed steamer *Queen of Serampur* that I elected to pass a fortnight to recruit my health and see the beauties of the Sunderbunds. It was a very lazy life, I sprawled on the upper deck in a long chair the whole day long and read Kipling, while the *Queen of Serampur* with two flats lashed to port and one to starboard threshed slowly through muddy water mid little green islands and rank with vegetation—picturesque yet beautiful. Sometimes at dusk when the anchor had been dropped and the day's work was over, Methven would sprawl next me sipping his peg, and drawing strange stories of perils and shipwreck at sea. Occasionally I too, would trot out my own more modest experiences, but the man had been trading in the South Seas and risking his life on the lower deck of a Valparaiso battleship while I was still in knickerbockers, and he listened to me, amused and tolerant. One day I spoke to him of shikar. He was experienced yet ignorant. He had shot almost every species of animal known in the Sunderbunds, but was unable to distinguish between *sambur* and *cheetal*. They were merely "different sorts of deer" to him.

"Done any tiger shooting?" he asked.

I told him of exciting drives on elephants in Nepal Teria and of lonely night watches on *machans* in the Dun.

"Pooh," said he, "I take no count of tiger shootings but on foot. I have shot seven tigers so in these parts. They are as common here as adjutants in the Salt Water Lakes."

I lifted my eyebrows in mild expostulation.

"It is so," he repeated. "Ask the Captain of any Sunderbund steamer. Even the marine surveyors who rarely move out of the Hughli know it. They have all shot tigers."

"Of course," I said, "I knew that there were a good many tigers in these parts, but I didn't think they were as plentiful as all that."

"Well then, learn from me. Look here, in my five years on board this blooming *Queen of Serampur* I have shot seven tigers on off evenings like this, and Lord knows how many I've wounded. Bless me! If man made a system of tiger shooting in the Sunderbunds, every coolie in Calcutta would have a fur coat. The market would be flooded."

"I'll start a syndicate as soon as I get back to town."

"You think I am joking, it's a sober fact. There are seven tiger skins in my drawing room at Garden Beach to bear witness if I lie." Methven set his peg down on the deck with a thump.

"Mind you don't spill your whiskey. Of course I don't deny your seven tigers, but surely—"

"If I wasn't in such a hurry I'd just stop here a day and show you. Look at that Island."

"Tigerish place, isn't it? That's where I got my first one."

"Really?"

"Rather. And I shot another from this very deck three months ago. But I'll tell you about the first one. I dropped anchor here about four in the evening, June or July, 1893. It is a good safe anchorage in the monsoons. I had a new gun, and off I made for the shore with a handful of shot cartridges and two ball. We scrambled about the brushwood for a while—I and the Serang, Abdul Gunny, the same as I have with me still—but devil a bit of deer or bird was there to be seen, and I went along using bad words."

"No wonder you didn't see anything, if you went about making a row."

"Don't know. I always make a noise when I'm out shooting, and I've shot a good few things in my life. Presently, just as I was about to give up in disgust I saw two wicked eyes looking at me out of a bush fifteen yards off. 'Bagh, sahib, bagh,' says the Serang, gripping me by the shoulder. 'No bagoing for me, I stay,' said I, making a joke of it. And with that I changed my cartridges for ball, for I was loaded with shot, put the gun to my shoulder, and fired, bang, bang, one barrel after the other in the direction of the bush."

"Well," said I, "that is one method of tiger-shooting."

"Ah, but I hadn't quite got him. Well, when the smoke cleared off the wicked eyes had disappeared. I ran forward to the bush, there was nothing there but blood! The whole place was covered with blood. I and Abdul Gunny followed the tracks for some distance, but as it was getting dark, we finally lost them and had to return to the steamer."

Methven stopped and pensively sipped his peg.

"Well," said I, disappointed, "is that all. I thought you said you had got the tiger."

"So I did, so I did. I wasn't going to lose that tiger—my first—not much. Next morning I didn't weigh anchor. I told Abdul Gunny that the tiger was on the island and must be found. So all the lascars and servants were mustered. I forget how many there were, but they were a goodly company, as Bunyan says. They were armed with hatchets, crowbars, hammers and other musical instruments. Abdul Gunny carried an oar from the long boat—a terrible weapon in his strong hands. My kit had a carving knife stuck in his belt, and the cook brought the kitchen chopper. Oh, we were going to make it warm for that tiger if he were still alive."

"Carving knives and hammers! Ye gods!"

"I've shot seven tigers," said Methven quickly. "How many have you? I pause for a reply as the poet says."

"Oh, go on, go on. I didn't know you did it like that in Bengal."

"Learn from me and be wise then, my son. We landed, three boat loads of us, on the island. I put my men in the form of a wedge, myself being the what d'ye-call it—the apex. Then we drove right through the center of the island yelling and shouting. You never saw such fun in your life. The noise was enough to wake the dead. The tiger was nearly dead and it awoke him. Suddenly above the shouts of the others I heard a shrill yelling to my left rear. 'Bagh, bagh, mar soor,' and worse words. I scrambled back through the brushwood as fast as I could, and presently a strange sight came to view. There was Abdul Gunny thrown on the ground and the tiger, with the oar jammed between its teeth, standing on his chest and glaring at the other lascars who yelled and danced frantically round it. I pushed into the middle of them and fired a bullet into its head. And that was the end of Joshua."

"And Abdul Gunny?"

"Oh he was all right. You see as the tiger sprang at him he had the presence of mind to thrust the oar between its teeth. The shock of the spring, however, knocked him down."—The Asian.

## In Defense of the Mongolian Pheasant.

Various articles and communications have appeared from time to time in the State journals, intimating to the farmer that the pheasant will be a nuisance to crops, orchards and vegetable gardens. C. A. Loud in a letter to the Santa Barbara Press has the following to say:

"I was amused in reading an article warning the people against the Ring-neck Mongolian Pheasant, saying they would devour the potato crop and harvest the fruit crop.

Now I do not think that there is a person who has studied the habits of this bird more carefully than myself. Several years ago when a resident of Corvallis, Oregon, and before I had seen much of them, I wrote several articles for the BREEDER AND SPORTSMAN from hearsay. Since I became acquainted with this noble game bird, I find them to be not only one of the finest for table food but also one that can take good care of himself. It is true they are fond of wheat fields and what game bird is not? Do not our California quail invade the grain fields? I have never known them to injure fruit though. In fact they are never seen in a fruit orchard in Oregon and as for potatoes they never touch them in any way. They are fond of cabbage and will sometimes enter a vegetable garden and help themselves to a square meal, but they prefer to be out in the woods seeking bugs, grasshoppers and worms. They very seldom light on a tree, and all this talk about their destroying the crop is nonsense. Like all other game birds they must have something to live upon, the meat they furnish repays what they eat tenfold. The Oregon people where they are so plentiful, have ironclad laws to protect them and woe to the man that enters an enclosed field and kills a pheasant, he had better be caught killing domestic chickens. We cannot get too many pheasants in the country."

## Ed Bell in Trouble.

The Suisun Republican of recent date has the following: W. H. Bryan has caused the arrest of Ed Bell last Sunday on a charge of petit larceny. Two San Francisco hunters who were guests at the Arlington hotel went on a hunting trip, one of them being under the guidance of Bell. Quite a number of ducks were secured, and upon the return of the hunters, were left behind the counter in the hotel office. Mr. Bryan having engaged the services of Bell, told the visitors he would settle with him. As this did not suit Mr. Bell he carried off the ducks, hence his arrest. The case came up in Justice Maynard's court Monday but was postponed to a later date.

[The case was dismissed, through the magnanimity of one of the hunters, who refused to prosecute. Subsequently most of the ducks were shipped to their owners in this city through the efforts of Mr. Bryan. A fine duck strap was missing, and, by dint of persistent effort was finally recovered, but somewhat mutilated. Several loops had been apparently cut deliberately. Mr. Bell has recently taken to writing letters. One of his communications appeared in the Call.]

## Club Match at the Traps.

The Empire Gun Club has received a challenge from the Garden City Gun Club for a team shoot at blue-rocks. The match will probably be held at San Jose on Washington's Birthday.

## Live Bird Match.

Otto Feudner, of this city, the well-known crack of the Olympic Club has accepted the challenge of Henry Stelling Jr., of Davisville. The match will be at 100 live birds for \$100 a side, the winner to take all the stake money and 60 per cent. of the gate receipts, the loser paying for the birds. Stelling named Washington's birthday as the date for the match and Sacramento as the place. The amount of the stake has already been deposited by both parties with J. M. Morrison, Esq., Chairman of the Sacramento Board of Supervisors. Feudner has offered to make a side bet of \$100 to \$75 that he will win. Stelling suggested that L. S. Upson, the well-known Sacramento sportsman be selected as umpire. It is probable that Feudner will agree to the selection of the umpire named, as he has readily accepted all the other condition of the match which have been submitted by Stelling.

## The Wing Shooting Club.

The Monterey Wing Shooting club at its annual meeting re-organized for the season of 1898, elected the following officers: Ed. Ingram, president; Chas. Carr, vice-president; R. Few, secretary-treasurer; C. Carr, Chas. R. Few and William Varien were elected delegates to the Board of Governors of the California Inanimate Target association, and Chas. Carr captain.

## Encinal Gun Club.

The members of the Encinal Gun Club will hold a meeting on Tuesday evening, January 8th, at Jno. Walker's residence in Alameda. The election of officers for the ensuing year will be held, arrangements made for fixing up the club grounds and plans of general preparation for the coming trap shooting season.

## A Warm-Up.

Clarence Nauman and Ed Forster had a practice shoot at blue-rocks on the Lincoln Club grounds last Sunday. Nauman tried out his new Clabrough gun and was well satisfied with its work. He made two runs of twenty-six straight and shot well at doubles, singles and a varied assortment of trick pulls worked by Forster. Ed says, of his own shooting, that he has his "same old gait" on the mud saucers.

## Lincoln Gun Club Shoot.

Considerable interest is being shown in the opening shoot of the season, to be held by the Lincolns on the 22d. Among the events on the program we note, a 15 bird event, entrance \$1.00, three moneys; two events at 20 birds, entrance \$1.50, four moneys; three events at 20 birds, entrance \$1.50, four moneys; four events at 20 birds, handicap, \$10 added, four moneys, ties divided; five events at 15 birds, \$1.00 entrance, three moneys.

## CARTRIDGE AND SHELL.

Geese are reported to be very plentiful in the vicinity of Woodland.

Target shooting has taken a strong hold among the marksmen in Honolulu, H. I.

H. L. Van Ness killed nine white swans at one shot while out hunting on the San Joaquin on Wednesday January 19th.

At Hamilton, Ontario, in the live bird tournament, Jack Fanning made another good record. Fanning was placed on the 32-yard mark. During the three days he shot at 51 birds, losing only 1.

A wildcat measuring three and a half feet in length, was killed Sunday, January 16, in the foothills back of Redwood City by Robert Chatham. It was the largest ever seen in San Mateo County.

The lagoons in the vicinity of Santa Cruz are teeming with ducks.

O. Swanner made a bag of sixteen quail at Milbrae on Sunday last.

A. Schueneman bagged nineteen quail on a recent trip to San Mateo.

B. Sherock was shooting at Newark last Sunday. He bagged eleven ducks.

Jno. K. Orr managed to make a bag of thirty ducks near Point Reyes on Sunday.

Ducks are reported as quite plentiful at present in the vicinity of Castroville.

Wild pigeons are reported to be quite plentiful on Ben Lomond mountain near Santa Cruz.

Pete McKae bagged two dozen sprig at Mt. Eden on las Sunday. Pete uses a Smith gun.

F. Schultz was one of the lucky hunters on Sunday. He bagged twelve sprig at Mt. Eden.

W. E. Murdock and H. Klevesahl were at Reclamation on Sunday and bagged twenty-eight ducks.

Lyman Green bagged a fine lot of ducks on the Petaluma Gun Club preserve last Thursday afternoon.

Ducks were few and far between on the marsh at Point Reyes on Sunday. The day was warm and calm.

Harry Hosmer and a friend enjoyed a duck hunt on the Olympic Club grounds last Sunday. The bag made was fair for the day.

Jules Bruns and John Karney still draw feathered dividends from Sears Point. Twenty-two sprig and teal was the bag last Sunday.

E. W. S. Van Slyke made a good bag, principally "cans" last Sunday morning, during an hour or two shooting near the mouth of Little Coyote.

I. G. Rodolph and Frank Vernon were at Point Reyes on Sunday. They report that quail are getting somewhat shy and scarce, they bagged three dozen, however.

"Sherman" and Mike Hennessy were on the Black Jacks' grounds last Sunday. The ponds in the tules were covered with a film of ice which spoiled the game, and only a small bag was the result of the shoot.

Coyote scalps are being daily offered at the Sonoma county clerk's office. The bounty paid is five dollars per scalp and from indications it would appear that the Sonoma people are enabled to harvest a fairly good crop of coyotes.

Few bags were made on the ponds, bay shore, or marsh between San Leandro and Alviso last Sunday. Many hunters were out, but there was no flight, the weather and tide were against the sportsmen. The birds were all out on the bay.

"Hello" and "Bill Nye" took their portable chilled lead distributors to the Pringle ponds last Sunday. They got a few teal and also made a big string of "snipeys" with several flock shots. "Hello" says he will never go shy on a chance at a bunch of snipe.

Phil B. Bekeart, L. R. Larzalere, J. Miles and J. R. Burfield were at the Spooney Club grounds on Sunday. Ducks were not very plentiful, although each of the hunters, excepting Burfield, got a few birds, the latter had German luck, he bagged "nein" ducks.

A number of hunters came down on the train last Sunday night from the Antioch and Stockton shooting grounds, but their game bags were, as rule, very light. The only exception was in the case of a sportsman who had been hunting near Bethany, he made a good bag of ducks.

Al. Sharp and Al. Peterson bagged sixty-five sprig, teal and spoonies near Decoto on Sunday, January 23d. They intended to take the train back to the city next day, but there was no train on Jubilee day, so they had to foot it to Alvarado, ten miles, to enable them to catch a train for the city. The ducks were very heavy.

The Lincoln ark at Alvarado was the rendezvous Saturday and Sunday last of the usual number of regulars. The individual bags were as follows: G. Franzen twenty-eight ducks, C. Shaw, ten; E. Klevesahl, fifteen; D. Ostrander, sixteen; C. Carlson, thirteen; and W. S. Swin, seventeen. The ducks were principally sprig, teal and "shovellers."

Ducks were reported to be very plentiful on the Suisun marshes last week. A party consisting of Messrs. James Keys of Suisun, Grant Chadbourne, Lew Percy and Ed Hilborn of Vallejo, went down to the mouth of the Suisun lough and got two hundred fine specimens, principally teal, mallard and widgeon. Tom Robinson, the under sheriff, went home with forty birds. Other hunting parties have done as well.

The next match of any great importance is the one between C. W. Budd of Des Moines, Ia., and R. O. Heikes of Dayton, O., for the Cast Iron medal, one of the three trophies claiming championship honors. The match will be shot at Dayton, on the grounds of the Buckeye Gun Club, on Feb. 22d, Heikes as the holder of the trophy, having the privilege of naming the grounds. It is felt to be almost a certainty that, should Budd fail to win the trophy, Gilbert will at once be pitted against Heikes, with the idea of trying to gain for Iowa the record of holding every championship emblem in sight.

Frank Mulvein of Los Angeles, while hunting in the mountains back of Sierra Madre recently, fired a shot at a large eagle that was flying from crag to crag. The shot took effect upon the eagle sufficiently to stun and cause it to fall to the ground. Mulvein rushed to the spot and secured the great bird after a struggle, during which his face was severely scratched. The eagle was an old fellow and a big one, measuring eight feet from tip to tip of wings. Mr. Mulvein brought the bird to town and he now occupies a window of a store at the corner of Temple street and Beaudry avenue. The "bird of freedom" looks sadly dejected, but is a very fine specimen and attracts much attention.—Los Angeles Herald.

The growth and popularity of wing-shooting is best evidenced by the number of really good shots who come to the front every now and then. Fred Gilbert was "found" in 1826; at about the same time San Francisco sent a champion East in the shape of J. S. Fanning, a native of the Pacific Slope. Mr. Fanning is short of stature, but he is extremely stockily built and is all muscle. Like Gilbert, Fanning never drinks or chews tobacco; but he does smoke, and the chewing gum man has a good customer in the San Francisco shooter, for "Jack Sharkey," as his friends call him, from his similarity in breadth of beam to the California pugilist, cannot get along without a wad of gum in his mouth when he's shooting. As a wing-shot, there are very many good judges who think that Fanning is the equal of any man living when it comes to live pigeons. Should he go up against Gilbert he would not lack backers, and the result of the race might be a toss-up. Last fall he scored 99 out of 100 pigeons in a match with a St. Louis wing-shot who was backed against him. He has shot in five twenty-five-bird races recently and has scored either his 24 or 25 each time; most of his lost birds in those matches where he scored 24 were dead out of bounds.—N. Y. Advertiser.

## ROD.

## Coming Events.

Feb. 8.—Regular semi-monthly meeting of the San Francisco Fly Casting Club. Office of State Fish Commission, Flood Building, San Francisco.

## NOTICE TO ANGLERS.

Every angler is invited to drop us a line occasionally, telling us of the condition of the streams they have visited and the killing lure of the number and size of the fish caught, or any other item of interest to anglers.

## Fishing at Duncan's.

Just at present the Russian river, near Duncan's Mill, is the point toward which all lovers of angling are casting long eyes, and every man of them who can get away from business is planning to take a hand in the great steelhead pull now in progress. The bar has closed again. It has been opened several times this season by a crew of men who have been put at the work by order of President Stetson of the North Pacific Railroad, but the heavy winds and swell of the ocean has closed it each time. Those who are on the river now and the sportsmen who have been pursuing the gamey steelheads for the past two weeks are the envy of the rod wielders here in the city. C. Precht, F. Gilbert and others made good catches last Sunday. John Gallagher, the champion of Oakland, has been indefatigable in his devotion to the sport. John Butler betook himself to the tryst of the angler last Wednesday morning. Al Hall on Friday of last week landed a beautiful buck salmon weighing twenty-four pounds. This fish was followed up by a female of nearly eighteen pounds weight. A number of anglers went up to Duncan's on the train this morning. The river is pretty high now from the back water and doubtless the most of the fish have gone up the river.

Lobsters cannot be persuaded to grow up together peaceably. If a dozen newly hatched specimens are put into a aquarium within a few days there will be one—a large fat and promising youngster. They also can smell as well as animals that live upon the land. A piece of decayed meat suspended in the water in the locality where lobsters are abundant will soon be completely surrounded by a greedy fighting crowd.

Two Santa Rosans, who were in Knights' valley Sunday last report that dynamite has been used to kill fish in the creek and that thousands of dead fish were floating in the water, says the Republican. The dynamiters gathered the larger fish and left suckers, hardmouths and small fish of other varieties.

"Andy" caught a sixteen-pound steelhead at Point Reyes last Sunday. Frank Dolliver used "June Bug's" rod and caught a large hookbill with a spoon. "June Bug" could catch nothing but water, so he and his friend gave up the sport and "were lookers on in Venice."

"Doc" Watts is reported to have caught several fine steelhead a week ago last Sunday at the Point.

### San Jose Race Track

TROTTING TRACK PICNIC GROUNDS RUNNING TRACK

The beautiful, convenient and popular grounds  
known as AGRICULTURAL PARK,  
San Jose, has been leased by

O. F. BUNCH and A. HABLES,

Who are putting the same in suitable condition for  
the accommodation of picnics and other attractions.  
The attention of horsemen is called to the fact that  
both the trotting and running tracks will be kept in  
first-class order. The numerous box stalls are roomy  
and well ventilated. The San Jose Race Track must  
soon become a popular resort for horsemen, if good  
treatment, moderate charges and first-class accommo-  
dations are appreciated. Address,  
C. F. BUNCH, Agricultural Park San Jose.

### BOYD'S LIGHT TREAD TURF SPRING

This spring is the only device that has ever been  
invented that will prevent horses from going lame  
from coming in contact with hard tracks. This  
spring will not only break the concussion, but it  
will prevent bowed tendons, corns, quarter cracks  
and contraction. It will also help a tired horse to  
finish strong at the wire. The springs can be put on  
a 4-oz. to a 24-oz shoe, and are so simple that any  
country horse shoer can put them on. Full direc-  
tions given with each set. These springs are guar-  
anteed to take off 450 pounds' concussion, and will  
save you from \$50 to \$75 per year for leg wash. Mr  
Boyd is known by all knights of the sulky from the  
east to the west as an artist at his profession. Apply  
to

W. H. BOYD, Salt Lake City, Utah.

# ZOMBRO, 2:11, THE GREATEST TROTTER IN AMERICA,

Address,

Has trotted 40 heats as a three-year-old 8 than 2:27 1-2, 31 in 2:20 or better, and 12 in 2:15 or better. Won 13 races out of 17 starts as a three-year-old, and a total of \$5,400 in his three-year-old form.

ZOMBRO, 2:11 (Registered No. 28,029), brown stallion, foaled in 1892, stands 16 hands high and weighs 1,200 pounds, and is one of the most perfect formed horses in America. His career on the turf in 1895 stamps him as one of the greatest three-year-olds the world has ever seen.

ZOMBRO, 2:11, sired by McKinney, 2:11 1/4, son of Alcyon, by George Wilkes.

ZOMBRO, 2:11, first dam Whisper, by Almont Lightning, son of Almont 33, dam by Mambrino Pilot 29.

ZOMBRO, 2:11, second dam May Berry, by Kentucky Clay 194, whose dam is also the dam of Mambrino Patchen and Lady Thorne, 2:18 1/4.

ZOMBRO, 2:11, third dam by Edwin Forest 49.

Whisper, the dam of Zombro, was bred and raised by Gen. W. T. Withers, of Lexington, Ky., and is a handsome brown mare, 16 hands high, weighing 1,150 pounds. She has never been beaten in the show ring, always carrying off first prize.

ZOMBRO, 2:11, won the first prize over all three-year-old stallions at the Horse Show in San Francisco in 1895.

This grand stallion will make the SEASON of 1898 at SACRAMENTO RACE TRACK, from FEBRUARY 1st to JULY 1st, 1898. Terms, \$50 cash at the time of service, with usual return privileges.

GEO. T. BECKERS.

## BREEDERS' DIRECTORY.

YERBA BUENA JERSEYS—The best A. J. C. C. registered prize herd is owned by HENRY PIERCE San Francisco. Animals for sale.

## SKY POINTER

Allowed to be the handsomest son BROWN HALL has ever sired; dam SWEEPSTAKES, the greatest broodmare in the world. Full brother to STAR POINTER, 1:59 1/4. Will stand this coming season at the stable of L. J. H. Hastings, owner, near race track gate, Los Angeles. Terms \$50. A. A. Cleveland, Manager. Address, 827 Figueroa Street, Los Angeles.

## TO LEASE.

Several promising thoroughbreds, two and three year-olds, to responsible person. For further particulars, address "L. C. F." this office.

### FOALS OF 1896.

Finanza..... Both dead  
Merry Lass.....

During his two years of turf career, Torso won nearly \$45,000. His full sister, Aurelia, was one of the best mares of her day, winning \$23,385, and her first foal was last season's capital two-year-old performer, Aurelian. Their dam, imp. Santa Lucia, also threw the winners, Tasso and Aureole. She is a daughter of the triple event winner, Lord Lyon, and through him obtains the potent blood of Paradigm, who produced Achievement, and two of whose granddaughters are the dams of Ladys and Giare, two of the best two-year-olds in England in 1892.

Algerine, the sire of Torso, was a superior race horse, winner of the Belmont Stakes, etc., and is by Abd-el-Kader, out of Nina, by Boston. Abd-el-Kader (a full brother to the good four-miler, Abd-el-Koree), although badlyhipped, was a fine race horse at all distances. He won a dash of four miles at Saratoga, in 1869, in 7:31 1/4, a very creditable performance. Nina, the dam of Algerine, was one of the best race mares of her day. She was a winner at all distances, from one to four-mile heats, in good time, and produced Planet, one of the best horses in the country at all distances, and a successful sire, also Echequer, Ninette, Eclipse, etc.

Torso was a brilliant two-year-old. He won the first of the Double Events from a field of nine and also the second Double Event with a five-pound penalty, making his weight 123 pounds. In the Surf Stakes he beat Cayuga, St. James and four others, and in the Flatbush he defeated Reclaire, Onaway, Burlington and three others.

At three years of age he won the Lorillard Stakes, 1 1/4 miles in 2:36 1/4, from Tournament, Banquet, Radisha, Devotee, St. John, Burlington and Protection, a high-class field; was second to Burlington for the Brooklyn Derby, in front of Tournament, Padisba, Lisimony, Kenwood and four others; was second for the Equinoctial Stakes to Reclaire, beating Tournament and others, and carrying nine pounds more than the winner, and was third for the Omnibus Stakes, 1 1/2 miles, carrying a penalty of five pounds.

## TERMS \$50 THE SEASON.

SEASON CLOSES JUNE 1, 1898. All bills payable not later than that date. Good pasturage at \$5 per month.

Address all letters to

## THE STANDARD-BRED TROTTING STALLION

### MONTEREY, 2:13 3-4,

WILL MAKE THE SEASON OF 1898 AT ALAMEDA  
(Cor. Arbor St. and Eagle Ave., end of Speed Track.)

MONTEREY, 2:13 3-4	Sidney, 2:19 3-4	Sire of 20 in 2:20 and better and 10 in 2:15 and better. His sons and daughters also breed on.	Santa Claus, 2:15	Sire of Claus Forrester, 2:11 1/4 Wm. Penn., 2:07 1/4 and 15 others.	Strathmore 402	Sire of Elenor, 2:11 and 75 others in the 2:30 list.
	Sweetness, 2:21	Dam of Sidney, 2:18 3-4	Com. Belmont 4340	Sire of Meteor, 2:17 1/4 Cora Bell, 2:23	Lady Thorn Jr.	Dam of Navidad, 2:22 1/4 Volunteer 55
	Hattie	Dam of Monterey, 2:13 3-4 Montana, 2:16 1/4 three-year-old record 2:30 winner of the Occident Stake in 7 heats.	Iago, 2:11	and six others.	St. Julian	Sire of and 24 others.
			Barons	Dam of Hattie	Lady Merritt, by Edw. Everett Belmont 64	Sire of Maud S., 2:08 1/2 Miss Gratz (by Commodore)

If Monterey begets colts like himself he will prove to be the poor horse-breeder's friend, for it will cost but little to get them to a race. Monterey had only four and a half months' training prior to starting in his first race, which he won in 2:21, and won his last race in 2:13 3-4, all training and racing inside of five months.

He was injured last season in shoeing. The day before he went an easy mile in 2:11 1/4 in the presence of three thousand people. He seems all right, and I predict Monterey will soon hold the harness record. If he gets the record I expect his colts will be very valuable.

MONTEREY has a bold and square way of going, such as is now in demand for road horses. He is thoroughly game; in fact, I never drove a gamer horse; is level-headed; legs as clean as a yearling's, and has the strongest foot I ever saw on a horse. He is a chestnut, 15.3 in height, and weighs 1,200 pounds. Come and see him.

TERMS, \$50, With Usual Return Privileges.

SEASON CLOSING JUNE 1, 1898. All bills payable not later than that date. Address all letters to

P. J. WILLIAMS, ALAMEDA, CAL.

HO! FOR THE LAND OF GOLD!

Alaska Electric Exploration and Mining Co.  
OF SAN FRANCISCO.

Capital Stock \$1,000,000!

(Organized Under the Laws of California.)

Here's a Chance for You!

We want a few good men to join us in the BEST planned enterprise yet organized for Alaska and Klondike gold fields. To these we offer very favorable terms.

Business is dull and money is scarce, so go with us to the land of gold, make your fortune and return to California and enjoy your wealth.

A limited amount of stock for sale at "ground floor" rates. It is pronounced the most liberal offering yet made, and will bear the most thorough investigation. For further particulars call at office or write.

ROOM 1, 3d FLOOR, MILLS BUILDING.

Every Stockman Should Use

**MANHATTAN**  
STOCK FOOD.  
**RED BALL BRAND.**

Awarded Gold Medal  
At California State  
Fair 1893.

Every horse owner who values his stock should constantly have a supply of it on hand. It improves and keeps stock in the pink of condition.

For Sale.

The Finest Horse or Dairy Ranch near San Francisco.

The Moreland farm at Milpitas, Santa Clara County, containing 258 acres. Formerly owned by the late D. J. Murphy. Has been taken under mortgage, and we are now in a position to sell same at the extremely low price of \$20,750.

The land is all in the valley. Abundance of grass, clover and alfalfa. Scattering shade trees in pastures. Four large flowing wells. Farm is fenced and cross fenced. Half a dozen paddocks of five acres. Large barn and sheds. Stallion box stalls. String of box stalls for horses. The improvements are substantially built. A regular three quarter mile race track, pronounced by horsemen to be one of the best.

Only half a mile to railroad station. First-class blacksmith and horse-shoeing shop stores, postoffice, etc. Seven miles from San Jose.

The farm was occupied by Mr. Murphy until his death as a trotting horse ranch. For the past three years it has been rented for a cash rental of \$1,300 per annum to a dairyman. THIS IS AN OPPORTUNITY SELDOM OFFERED.

JAMES A. CLAYTON & CO., Agents, San Jose, Cal.

SUBSCRIPTION  
THREE DOLLARS A YEAR

## ST. NICHOLAS.

(Trial (3) 2:27½.)

Sired by the Great Sydney, 2:19 3-4, sire of 76 in the 2:30 list; dam, Towhead (dam of Tho, 2:23), by Echo 462 (sire of 16 in 2:30, 9 producing sires and 15 producing dams); second dam, Silvertail.

There are few sons of the great Sydney in the stud in California, and among them the stallion whose likeness adorns this page is among the handsomest. Standing full 15.3 hands in height, a rich dark bay, with two hind ankles white, star in forehead, with the best of legs and feet, a pure gaited trotter with the very best of dispositions, St. Nicholas is pronounced by all to be an unusually stylish and well formed individual.

In regard to Sydney, the following will show what kind of a sire he is. He sired the following: Oddity, 2:10½; Sidmont,

2:10½; Gold Leaf, 2:11½; Adonis, 2:11½; Faustino, 2:12½; Lena N., 2:12½; Thistle, 2:13½; Edna B., 2:13½; Monterey, 2:13½; Lillian S., 2:14½; Lady H., 2:15; La Belle (2), 2:14; Sidwood, 2:16; Dr. Leek, 2:15½; Sidwena, 2:15½; Montana, 2:16½; Moor, 2:16½; Sidworth, 2:16½; Ramon, 2:17½; Mephisto, 2:17½; Sidmoor, 2:17½; Cupid, 2:18; Lister, 2:18½; Hummer, 2:18½; Fleet, 2:18½; Lea, 2:18½; Longworth, 2:19; Rosedale, 2:19½; Maysie Sidney, 2:19½; Cassie, 2:20; Ethel C., 2:20, and 45 others in the 2:30 list. His sons have sired Joe Wheeler, 2:07½; To Order, 2:12½; General, 2:16½; Teddy the Roan, 2:17½; Oriole, 2:20; Samaritana, 2:20½; Della S., 2:21; Marchioness, (2), 2:29; Dave Hyland, 2:20. His daughters have

produced Meridian, 2:12½; Simeta, 2:17½; Twilight, 2:19; Royal Sid, 2:24½. His grandsons have sired Sandy, 2:23½; Jeremiah, 2:23½.

As to St. Nicholas, his get are uniformly of good size, good looks and fine open action, and the challenge issued by his owner last year to race them against the get of any other California horse was not accepted by any of our breeders, which is evidence that a wholesome respect was entertained for the speed and gameness of the get of this grand looking horse. St. Nicholas is owned by A. G. Gurnett of 308 Pine street, San Francisco, and will make the season of 1898 at Sulphur Spring Farm, Walnut Creek, Contra Costa county.

## Ingleside Races.

WEDNESDAY, FEBRUARY 2.

First race, three furlongs, maiden two-year-olds, purse \$350. Santello (Macklin, 111), first, all out by one length; Mitt Young (Clawson, 115), second, by two lengths; Odd Eyes (Thorpe, 115), third. Formero, Sir Urian, Sevens, Frank Ireland, Royal Fan, Acoma, and Cambist finished as named. Harry Whitman was left. Time, 0:37½.

Second race, seven furlongs, selling, three-year-olds and upward, purse \$350. Kamsin (Thorpe, 107), first, easily by two lengths; Plan (Clawson, 92), second, by one and one-half lengths; Morinel (McNichols, 102), third. Highland Ball, Daily Racing Form, Harry Gwynn, and Durward finished in the order named. Time, 1:28½.

Third race, one mile, selling, three-year-olds and upward, purse \$350. George Lee (Clawson, 95), first, easily by three-quarters of a length; Polish (O'Connor, 110), second, by two and one-half lengths; Miss Ross (Spencer, 107), third. Olive, Red Glenn, and Argonaut finished as named. Dr. Bernays lost. Time, 1:42½.

Martin, 119) first easily by three lengths; Judge Denny (Clawson, 110), second by three quarters of a length; Linstock (Gray, 95) third. Imp. Tripping and Marplot also ran. Time, 1:57½.

Sixth race, seven furlongs, three-year-olds and upward, purse \$300. Ed Gartland II. (O'Connor, 92) first, easily by three-quarters of a length; Orimar (Thorpe, 107) second by three and one-half lengths; Los Prietos (Gray, 92) third. Morinel, Elidad and Triumph finished as named. Time, 1:30½.

## Oakland Races.

MONDAY, FEBRUARY 7.

First race, three and a half furlongs, selling, two-year-olds, purse \$350. Gold Scratch (Thorpe, 105) first, driving by a neck; Clarando (Clawson, 102) second by one-half length; E. Come, (Conley, 110) third. Buena Ventura, The Miller, Rancier, Prince Will, Master Buck, Amoltepec and La Condis finished in the order named. Time, 0:43½.

Second race, six furlongs, three-year-olds, purse \$400. Sybaris (Thorpe, 112) first, driving by one length; Catawba (Cameron, 114) second by twelve lengths; Midian (Clawson, 107) third. Melvin Burnham and Approbation also ran. Time, 1:17½.

Third race, one and a half miles, free handicap, three-year-olds and upward, purse \$500. Judge Denny (Thorpe, 115) first, easily by one and one-half lengths; Collins (E. Jones, 100) second by seven lengths; Marplot (J. Woods, 85) third. Lof Prietos also ran. Time, 2:39.

Fourth race, seven furlongs, all ages, the Foliabsee Handicap, purse \$1250. George Miller (Spencer, 102) first, easily by three lengths; Imperious (Woods, 93) second by one-half lengths; Buck Massie (Conley, 124) third. Traverser, Col. Dan and Flashlight finished as named. Time 1:29.

Fifth race, one and a sixteenth miles, three-year-olds and upward, purse \$400. Mercutio (Conley, 106) first, driving by three-quarters of a length; Osric II (Thorpe, 104) second by one and one-half lengths; Harry Thoburn (Clawson, 101) third. The Dipper also ran. Time, 1:51.

Sixth race, five and a half furlongs, three-year-olds and upward, purse \$350. Napamax (Thorpe, 111) first, easily by five lengths; Highland Ball (Gray, 98) second by three quarters of a length; Hermoso (R. Narvaez, 118) third. I Don't Know, Florimel, Rio Frio, Koenig and Lucky Dac finished in the order named. Time, 1:10.

TUESDAY, FEBRUARY 8.

First race, five furlongs, selling, three-year-olds and upward, purse \$300. Al (Conley, 107) first, easily by three-quarters of a length; La Mascot (McDonald, 105) second by one-half length; Moringa (Devin, 102) third. Milesio, San Durango, Himera, D. J. Tobin, Red Spinner, Loumont, Bonita R, Fallen Princess, St. Angelo, Sherburne Sands, Tom Smith. Notice Me and Ockturuck finished in the order named. Time, 1:04½.

Second race, seven furlongs, four-year-olds and upward, purse \$350. Alma (Thorpe, 105) first, driving by three lengths; Miss Ruth (O'Neil, 105) second by a head; Adam Andrew (Clawson, 107) third. Heritage, George Palmer, Stentor, Harry Gwynn, Blue Bell, Plessaton, Tom Anderson, Heidelberg, Sea Spray, Major S., Fanny E., Allahabad and Outgo finished in the order named. Time, 1:33½.

Third race, one and one-sixteenth miles, selling, four-year-olds and upward, purse \$400. Wawona (Clawson, 109) first, easily by three lengths; Hazard (Thorpe, 109) second by one and a half lengths; Perseus (Spencer, 109) third. Sardou, Little Cripple, Foremost and Mamie G. finished as named. Time, 1:53.

Fourth race, six furlongs, selling, three-year-olds upward, purse \$350. Mainstay (Thorpe, 106) first, driving by one and one-half lengths; Midnight (O'Connor, 96) second by a nose; Al Koran (Clawson, 93) third. Aluminium, Thelma, Dick Behan, R. Q. Ban and Lo Lo finished in the order named. Time, 1:17½.

Fifth race, five furlongs, selling, three-year-olds and upward, purse \$300. Distinction (Conley, 105) first easily by one and one-half lengths; Durward (Feighery, 107) second by a head; Mt. Roy (Mooney, 107) third. Charmi.n, Mary Meyer, Kummel, Sandow III, Lillian M., Rebekah, Santa Catrina, Indomenus, Zipata, Rosa, Paso Tempo, and Mt. Air finished as named. Time, 1:05.

Sixth race, seven furlongs, selling, three-year-olds and upward, purse \$350. Red Glenn (Clawson, 107) first, driving by a neck; Lena (Conley, 106) second by four lengths; Coda (Spencer, 105) third. Olive, Walter J., Paul Pry, Rufalba, Ricardo, Lucky Star, Howard and Alvin E. finished in the order named. Kaiser Ludwig was left. Time, 1:32.

## Hints on Training.

As we are too far north to enjoy the balmy breezes of the Southern climate, and not being favored with any of the advantages of the covered track, consequently, as a rule, we begin preparation for active training about February 1. So you see that our horses are allowed a "let up" from November to February, at which time I begin to jog them over the road and continue to give them from five to eight miles each day until the weather settles, which is generally about April 1st. Therefore, I never make any calculations on going to the track before the first of April.

The first thing I do after I am once located at the track is to get a veterinary dentist to examine the horses to be trained and see that their mouths are in good condition, as no horse with a bad mouth will act well. After this has been looked after I commence jogging, with an occasional brush to cart, rarely hitching to the "bike" before the middle of May. After that time I step them miles in the following manner: Let them step over to the eighth pole pretty sharply, then ease back till I reach the three-quarter pole, at which point I again quicken the pace and try to send them home at about the same clip I sent them away. This plan, I think, teaches them to go away good and finish good, even if he does lose the balance of the mile—he is a pretty sure candidate for a piece of the money. Above all, I try to keep them steady, as no horse is a race horse that isn't level-headed, and this quality I think can be cultivated largely by not trying to drive him beyond his speed.

In repeating, I generally give from three to four heats, the first heat easy, the second a bit faster; then step them all they can do easily for the third, giving the fourth only as a "blowing-out" heat.

After a work-out my plan of "doing up" is as follows: When the harness, boots, etc., have been removed and the mouth sponged out, I then, if the sun shines warm, lead the horse outside in the sun, scrape him off, and then go over body with a good warm "wash," rubbing well into the skin. Then I scrape this out and give a bath of warm water, scrape again and return to the stable, rub the water out and bandage with wet bandage. Then I commence to walk the horse, continuing to do so with an occasional rubbing until he is thoroughly cooled out, return him to the stall, give him a bunch of hay and steam out with dry steamers. In about one hour and a half remove the steamers, sponge off the legs and rub downward with rubbing rag until dry.

I always feed a warm (not hot) well cooked bran mash, with a tablespoonful of Buchu leaves added, the next feed after a repeat. I also paint the legs of all horses in my care every Wednesday and Saturday night with equal parts of iodine and spirits of camphor. It not only removes fever, but has a tendency to harden.

There are numerous cures for galls, cracked heels, etc., but the best one I have tried is: Take one ounce of pulverized alum, half ounce tannin, one drachm carbolic acid, and one quart of soft water, mix and dampen the heels every night and morning. It is also a splendid remedy for hopple galls, as it heals and toughens.

I occasionally get a horse that doesn't sweat sufficiently to reduce the inner fat. In such cases I feed a cold bran mash every other night, and also give one tablespoonful of pulverized saltpetre in the drinking water at night, and so continue till the desired effect is produced.

J. B. HALL in Stock Farm.

## Shall Racing Be Stopped?

If racing in California is to be saved from the fate which has been meted out to it in other States some steps must be taken at once to check the sentiment which demands its abolishment. It will not do for those interested to say that this end is sought only by a few straight-laced members of the community, because it has already gone beyond these bounds. It is now asserting itself in the pulpit. This feeling is not the result of racing itself, but the evils which have attached themselves to it. Chief among these are the downtown poolrooms. This feature has already been made the subject of a tirade against racing, which threatens to spread. Unless it is checked at once by the closing of the offending dives a general crusade against racing may be expected. The end of such a course can easily be imagined. Its history is written upon the statutes of every State where it has been attempted. In every one of these cases it had its origin in the poolrooms, where youth was debauched just as it is here. The vultures who conduct these places mistook public apathy for public approval. Just as they are doing in San Francisco, and the result was prohibitive legislation. There is but one way to close up these places effectively, and that is, shut off the track information upon which they operate; the power to do that rests with the associations: An order from the Ingleside and Oakland track directors, forbidding telegraphic or other messages to be sent to these places until after the races were over for the day, which they have a perfect right to do, would close every broker shop in the city within three days, and at the same time remove all opposition to legitimate racing. Will they do this, or will they wait until an outraged public sentiment demands the closing of all places? The BREEDER AND SPORTSMAN hopes that for the general good of the State that they will not.

## Australasian Notes.

In the race for the Auckland Cup, two miles, December 27th, Antares, by Castor—Hilda, won, and St. Paul and Nestor, both by St. Leger, ran second and third. Eleven started, and the time was 3:36. Antares carried 109 lbs., St. Paul 126, Nestor 126 lbs.

Medallion is proving wonderfully successful at the stud in New Zealand. He threatens to press St. Leger and Castor pretty close, judging by the numbers of winners that were sired by him. He has sired the winner of the Great Northern Foal Stakes of the past two years.

I remarked recently that Waiuku, next to St. Hippo, was perhaps the cheapest horse ever purchased for racing purposes in New Zealand. There have been numerous instances of good horses having been purchased cheaply, and I was reminded last week that Tambourini, who was certainly a very useful gelding, and who won such races as the Canterbury Cup, Jockey Club Handicap, Wellington Cup, and Dunedin Jockey Club Handicap, and measured 11-ides with the best of his day, besides winning over hurdles, was sold before he raced for £7 10s—New Zealand Referee.

## The Wonderful Speed Sustaining Elixir.

(Western Horseman, July 12, 1895)

It is now little less than one month since the Speed Sustaining Elixir was first placed upon the market, and in that time enough demonstrations have been made in its behalf to fully and permanently place it in high favor with horsemen. Its work on the sixteen-year old gelding Five Ply at Bowling Green is in itself an endorsement of the Elixir. Five Ply is by old Blue Bull 75, is a new member of the 2:30 list, and was trotting in the 2:40 class. He won his race in 2:27½, 2:27½ and 2:27½. "Pop" Lemon says the Elixir helped the old fellow.

BOWLING GREEN, O. June 24, 1895.

Speed Sustaining Elixir Co., Indianapolis, Ind.—Gentlemen,—I used your Speed Sustaining Elixir on my Horse Five Ply during the progress of the 2:40 trot at Lima, O., last week, and take pleasure in saying it does all you claim for it, and I shall continue to use it in all my races.

Yours, etc., J. M. LEMON.

WEST WINFIELD, N. Y.

I have used ABSORBINE with good results.

ALBERT M. LAUGHLIN,

## SPECIAL DEPARTMENT

EDITED AND CONDUCTED SOLELY BY

JOSEPH CAIRN SIMPSON.

**HARNESS RACING IN NEW ZEALAND.**—As nearly as I can form an opinion from the accounts in the N. Z. Referee, trotting horses are fairly well appreciated in that part of Australasia. Somewhat difficult to understand, however, as there is a wide difference in the antipodean methods of conducting the sport from those which are followed here. For instance this is the opening of the account in the New Zealand journal:

THIRD DAY—THURSDAY, DECEMBER 30.

The third and concluding day of the Auckland Trotting Club's Summer meeting came off to-day at Potter's paddock. The attendance was about 2,000. The sum of £3289 10s in 10s tickets went through the totalizator. Following are results:—

Trial Trot Handicap (in saddle), of 30sovs; second 50sovs from stake. One mile and a half.

24½. Mr. R. S. Henry's gr g New Year, aged, scr (Owner)  
24½. Mr. W. Craig's br g Mibangi, aged, 6sec (E. Murfit)  
24½. Uric 6sec, 48 Fair Neil 14 sec, 5 Popinjay 20sec, 2½ Barbette 20sec, 11½ Tommy II, 20sec, 11½ Bugler 20sec, and 24½ Lady Relford 20sec, also started.

Won easily by three lengths. Time, 4min 17sec. Dividend, £4 12s

Not much trouble to understand the description though the figures which precede the name of the owner are something of a puzzle. A corresponding number in the "form charts" of our running races in the index figures to locate the horse in previous races, but the fractions attached to so many of them forbid that explanation. Easily understood that the winner, New Year, started from the scratch, but whether the second, Mibangi, was sent away six seconds before or held until New Year had got six seconds the story is not so clear. Our New Zealand contemporaries will consider this very stupid on my part, through a person who is not *au fait* in the foreign management of trotters may be pardoned for his ignorance.

The account of the second day of the Canterbury Trotting Club's Summer Meeting shows that there was a liberal apportionment of money, and plenty of racing, and now when our people are endeavoring to fix upon a course that will attract the public, a careful study of New Zealand systems may prove advantageous, if even there is a bizarre appearance connected therewith. The opening reads: "New Year's day of 1898 will be remembered by holiday makers in Canterbury as one of exceedingly oppressive character on account of the hot and muggy weather. Though there were many counter attractions there was a large crowd to witness the second day's trotting at the Canterbury Trotting Club's grounds."

Not at all surprising that a large attendance marked the day as eight races were billed, all of them dashes, three at one mile, four at two miles, and one of three miles, with purses running from 50 to 130 sovereigns, an average of about \$375. Eight dash races is little more than an equivalent of two 3 in 5 events, or three when the limit is 2 in 3, and any programme that embraced less than six dashes, or four dashes and one of heats, two in three in an afternoon, is not likely to be satisfactory. In all probability that will be the minimum at the proposed meeting, with additional events on Saturdays. But the most difficult problem to solve is the distance, and the great necessity is to meet the wishes of owners and trainers, and also present the most attractive card to the public.

As stated in the BREEDER AND SPORTSMAN last Saturday when the trial of dash-racing was made in 1893 most of them were at a mile and an eighth. That gave a more favorable point to start from, as there was rather more than a furlong of "straigh going" after the word was given. There is a decided preference among spectators, however, for starting from the stand, and therefore one mile, or its multiples, must be adopted if that desire is gratified.

Long races are the most powerful magnets to "draw" the people, and as one of two miles is nothing like as severe as when heats are broken in a 3 in 5 race, that distance should not deter owners from participating. Apart from that one objection heretofore mentioned, viz., starting from other points than the judges' stand, there are advantages. Variety has certainly a charm, and if it has, through common consent, been characterized as "the spice of life," it certainly gives "flavor" to racing. A horse may succeed in beating his competitors when once around the track is the test, when a furlong, a quarter, a half, etc., is added, there is another question to be decided.

The paramount question, the main requirement, the first grand consideration is to secure the largest possible attendance. In the first place conditions must be acceptable to those who have horses in charge. Without "fields" that give promise of well contested races the public will not come out in force, but as "gate money" should be the best source of revenue, then conditions which will ensure the largest amount from that part of the income ought to meet the approval of owners and trainers. Evidently the New Zealanders are favorable to races "over a distance of ground," and that those who control the horses are ready to provide the most popular sport. In the New Year's Handicap at Canterbury, three miles, there were eighteen starters, the largest field of the meeting. Again I am puzzled with what we would call "the summaries" as follows:

"NEW YEAR'S HANDICAP (in harness) of 130 sovereigns, second 26 sovs., and third 13 sovs. from the stake.  
86½. Mr. T. Honeybone's b m Ipswich by Fleur de Lys, aged, 30 sec. (J. Munro) 1.  
26. Mr. W. T. Oliff's g h Hazeldean, aged, 37 seconds, (owner) 2.

Then follow sixteen others, printed in close order, with numbers before the names, and the allowance in seconds after. From seven to forty seconds, and while in all the other summaries (except one, beside the N. Y. Handicap) the horse at scratch is given, in the big race that is omitted. It may be that the horse given that position did not start, but that does not elucidate. It might be that "clocking" commenced at the will of the starter, seven seconds then after Sam Slick was sent off, at the expiration of twelve seconds, Three Cheers was given the word, two were handicapped thirteen seconds, two sixteen seconds, three twenty-eight seconds, three thirty-six seconds and one at forty seconds, the others at intermediate points. The time, 8:02, and if that last supposition were correct the time of the winner would be thirty seconds slower. But on reading the short account appended to the summary it is learned: "The order in the first round was Camisea, Hazeldean, Mary Belle, Topsy Irvington and Explorer. In the end of the next Camisea, Hazeldean, Ipswich, Explorer, and Tracy Belle was the order. Ipswich

passed Camisea at the end of the first mile and a quarter, and Hazeldean ran into second place, and from thence out the race was a procession; Ipswich going on at a 2:40 gait to the finish and winning by 100 yards."

Had that been carefully read before writing the previous hypothesis the error would not have been made as it is tolerably clear that Camisea with 40 seconds was sent off first, three seconds after Hazeldean, and ten seconds after Ipswich, while Sam Slick had to wait thirty-three seconds, after the leader was started. In place of striking out the evident mistake it may serve to save others from a like error.

If I do not blunder again that kind of apportionment will do away with the tribulations of scoring. The horses marshaled according to the figures. "Go," Camisea, Hazeldean, ready, go! three are started when Camisea has been four seconds out; and so on. To make it still clearer, however, the list to govern the starters would be sounding like this—

Camisea, 40 seconds; Hazeldean, 37 seconds, 3 seconds; Barwood Bess, 36 seconds, 4 seconds; Macy Belle, 38 seconds, 4 seconds; Collector, 36 seconds, 4 seconds; Explorer, 33 seconds, 7 seconds; Colonial, 32 seconds, 8 seconds; Ringston, 29 seconds, 11 seconds; Heather Dew, 28 seconds, 12 seconds; Topsy Irvington, 28 seconds, 12 seconds; The Baron, 28 seconds, 12 seconds; Experience, 16 seconds, 24 seconds; Ascot, 16 seconds, 24 seconds; Ilam, 13 seconds, 27 seconds; Brookholm, 13 seconds, 27 seconds; Three Cheers, 12 seconds, 28 seconds; Sam Slick, 7 seconds, 33 seconds.

The second column would give the seconds marked by the timer when the horses from No. 2 to No. 18 should be started.

This may be far from the New Zealand method of handling, and clumsy as it may appear to those accustomed to our simpler system, nothing will be lost by securing a correct account, and something may be gained by giving it a trial. I will consider it a personal favor if The Press and Referee will publish a brief description of handicapping and handling trotters according to New Zealand practice, and whether the handicapper gauges the allowances from personal knowledge or public records. It appears to me that in the opening of the season records obtained the year before would mislead and that the system cannot be successfully administered until the present form of the horses is better known. Still our method of classification is no better; in fact, not so good when the intention is to equalize horses so far apart in speed as 11 seconds to the mile, the difference in Canterbury New Year Handicap between Sam Slick and Camisea.

The New Zealand plan comes nearer to securing the benefits that accrue from differentiation of weights to be carried in running races than other methods of bringing horses together in trotting races. When the system of handicapping pedestrians and cyclists is adopted, that of stationing the men stated distances apart and when the signal is given all to start, the trouble with horses will be to retain them in position, but with the plan under discussion, that difficulty is, at least, partly overcome by the opportunity to keep in motion. Rigid rules must govern and also strict enforcement, and from the account published of the last race of the second day at Canterbury, when Stonewall Jackson offended, care is taken to enforce them and punishment inflicted.

The account is copied:

Final Handicap (saddle), of 75 sovs; second 15 sovs; third 7 sovs. One mile.

22½. Mr. F. Mulholland's ch g Scrutineer, by Electioneer—Trissie, 3 years (W. Kerr) 1

116½. Mr. R. Day's b m Gazelle, aged, 1sec (Owner) 2

8. Monte Carlo, scr; Colonel, 1sec (inc, 2sec pen.), 21½. Stonewall Jackson, 2sec (declared distanced); 20½. Jessie, 5sec; 107½. Mascotte, 7sec; 94½. Isabel, 9sec; 74½. August, 9sec; 129. Kentucky Maud, 12sec, also ran.

Kentucky Maud had hardly got the word and moved off, when August started, and Stonewall Jackson likewise offended. Colonel, Gazelle and Monte Carlo apparently losing ground through the starters attention being directed to Stonewall Jackson. Meanwhile August broke up Kentucky Maud, and going down the back went in the air herself. Scrutineer, Mascotte and Jessie being in front at the home turn, Stonewall Jackson ran up to his horses after passing the stand, and heading Scrutineer, led to the finish, winning by thirty yards; Gazelle, who came last, being just about the distance. Time of Stonewall Jackson, 2min 31sec; that of Scrutineer not officially taken. Dividend, £25 4s.

Stonewall Jackson was declared distanced for starting before his time, but an appeal was lodged against the decision of the club on behalf of his owner.

Again in a quandary, and will be obliged to seek still another thread for a guide through the labyrinth, Kentucky Maud 12 seconds was the first starter and hence the order of starting must be as follows:

Kentucky Maud 12 seconds; August 9 seconds, 3 seconds; Isabel, 9 seconds, 3 seconds; Mascotte, 7 seconds, 5 seconds; Jessie, 5 seconds, 7 seconds; Stonewall Jackson, 2 seconds, 10 seconds; Colonel, 1 second, 11 seconds; Monte Carlo, scratch, 12 seconds.

"You pays your money and makes your choice," but I am done with surmises, and until some one who is competent to give the information, explains methods that are followed in New Zealand, give up the conundrum. Very likely the answer is as simple as the one given by Columbus, though I knew one man who could make an egg stand on its end without crushing the shell, but no telling how many hours he practiced before acquiring the rare skill. But even in the hoick-potch of ideas as to what the account may mean, I am quite well satisfied that something of the kind can be incorporated in our programme with good results.

Australasia has conferred a boon on the racing world by inventing the starting gate, and though we are prone to believe that anything "we-uns" do not know about the trotting and pacing microcosm—I beg pardon the big world in the East anyway—is not worth knowing, those of greater wisdom will not disdain the acquirement of more erudition.

"Back home," at least in most sections of the country, lying east of the Missouri and north of Middle Tennessee, there is not the overwhelming necessity for changes in methods and management as prevail here, and while so happily situated, in the future it may be found beneficial to adopt innovations that have been first tried on this side of the continent, another experience similar to that of the barrier."

One part of the account I can explain. "Stonewall Jackson ran up to his horses after passing the stand, etc." "Served him right to distance him for a run of that kind," will be the comment of a "Yankee" reader, but as Englishmen invariably call trotting running it means that he overhauled the leading horses at the legitimate gait. Had galloped been the term used it would carry the same meaning to readers on both sides. "Inconsistent running" is a favorite ground on the other side for protests, and probably has the same meaning as is covered by Rule 30 N. T. A. "Horses Breaking," or, perhaps, in-and out work.

\* \* \*

"PARLOUS."—Were I questioned in regard so the greatest danger which threatens the sports of the Turf and Track in California my answer would be "THE FOREIGN BOOK." The only real danger in my opinion of adverse legislation, is that which has obtained that name, covering, however, all

kinds of wagering on races outside of racecourse enclosures.

Just as dangerous when betting rooms are used in San Francisco, Sacramento, San Jose and Los Angeles to supply an opportunity for betting on races at Ingleside and Oakland, as on contests in New York or New Orleans; in fact, more so, as those who would fain speculate have a better knowledge of the form of the home horses than of those which are at a distance. And this study of "form" has a powerful fascination for all who engage in that mental occupation. Old and young, male and female, pore over guides and charts, memorizing, tabulating, building fanciful theories, conning over "systems" that promise the acquisition of heaps of "sure money." Text books, concordances, encyclopedias, all at their command in the columns of the daily papers, that only need to be systematized to present an array of useful knowledge that will form a treatise, a practical guide and safe instructor, more than that, an absolute predictor of future winners. This information is also supplemented by that which the army of touts impart, and when horses have lost their form or when not "meant," plenty of railbirds to report. All this knowledge and happily secured intelligence is of no avail were visits to the racecourse necessary to obtain the reward, as these are prohibited by circumstances that effectually bar them from that arcanum. Sending money to invest in "the ring" is not fancied after a few trials, as there are suspicions of being purposely misled, of "phony" tickets, of many other ways of being swindled. Far better to accept shorter odds at the betting rooms, and the lunch hour can be utilized for that purpose. The Call of Wednesday of last week had an account of school boys betting at a pool-room on Ellis street, and in the same issue a "leading" editorial in relation thereto, urging the suppression of these places, but strangely enough overlooks the part the Western Union Telegraph Co. plays in the game. This I made the subject of an article in the paper of last week, so that it is unnecessary to pursue it further, especially as I hear a rumor that the P. C. J. C. and C. J. C. are considering measures that will debar the Telegraph Co. from obtaining as full information as is needed to enable the betting room to operate.

The evening papers secure the scratches by noon of the day on which the races are decided. The betting rooms, of course, can also obtain the same intelligence and are ready to operate at the only time when so many of the small bettors can leave their work.

Safe to say that if all the incidents connected with racing were withheld until the close of the day's sport, there would be an increased attendance, in all probability an augmentation of the number of spectators, that would more than compensate the clubs for the diminution of the receipts through the loss of the Western Union business. When in place of making the journey to the racecourse and paying an admission fee to the grounds, they can learn the starters at a cost of five cents, for five cents more, if at some distance from the betting rooms, they can reach a place where their money can be invested, and if not desirous of waiting in a place that may bring discredit to their standing, bulletins at the newspaper offices will disclose the winners a few minutes after the announcement is made at the track. Should these facilities be denied them a trip to the racecourse would be the only means of gratifying their sport-loving propensities, and it is a just inference that all of this class who have the leisure would embrace the chance.

But present pecuniary considerations are not of as much force as the bearing on the future well-doing of racecourses and trotting tracks. The capital invested in the two magnificent racecourses adjacent to the metropolis is large, and when to that are added the amounts that other tracks have cost within the boundaries of California, the aggregate, if known, would reach a sum that would startle even those who are fairly conversant with the subject. When that is augmented with the value of the breeding establishments, horses and their equipments, the sum total will present a value which is an important factor in the resources of the State and the revenue therefrom in taxes quite prominent in the "budget." Still the taxes are a minor sum when all of the advantages of well-conducted races are considered. Not only to the large number of those connected with the horses and tracks, the "people at large" being also benefited. Winter racing is confined to New Orleans, Ingleside and Oakland, the two California race courses attracting the largest number of Eastern owners of race horses and Eastern visitors. Hundreds of visitors apart from those directly engaged in the business and those of a class that bring large amounts of money and are profuse in their expenditures. Some of them become residents and those who return to their homes in the colder regions of the continent, tell what a wonderful contrast there is in climate and surroundings that the enjoyments of life are heightened, and health promoted by the salubrity of the climate. Hundreds have visited California who would not have made the long journey if winter racing had not been the attraction, and so long as that is conducted in the manner that now prevails, there will be an increase in the number of visitors as the years roll by.

The Kentucky Legislature has proposed a law restricting speculation on races to the enclosure in which the racing is conducted. Were a similar enactment in force in every state in the Union it would be vastly beneficial, but the danger lies in combining other clauses which would be detrimental to California racing interests. When agitations of questions which incite violent prejudices is once inaugurated consequences are difficult to foretell. When the issue is presented in the California legislature—and it is sure to be raised at the next session—there will be an attempt made to pass laws that will surely be seriously detrimental to all kinds of sport, at least those which horses take part in, and now that coursing is becoming so prominent that will also be included. A law that will restrict wagering to the inclosures in which the contests are decided without other restrictions, should receive the hearty support of every Jockey Club, every Trotting Association, and every fair in the State. If the Jockey Clubs take initiatory measures and forbid the transmission of intelligence from their grounds there is a much stronger plea for the passage of such a law, than if the act is delayed until it is compulsory upon them to take that course. With betting rooms in San Francisco, Sacramento, San Jose, Fresno and Los Angeles and Sausalito in the summer season, there cannot fail to be intense opposition. When it is evident that

(Continued on page 103.)

## TURF AND TRACK.

## THE SULKY.

COACH HORSES sold readily at Indianapolis last week at \$300 to \$700.

CHARLES MARVIN has been out in Montana buying driving horses for Millers & Sibley.

TWENTY-EIGHT new members were admitted to the Philadelphia Turf Club at a single meeting last week.

THE Trotting Association of Vienna, Austria, will give \$120,000 in purses for the season of 1898.

JAMIS L. 2:09½, by Dexter Prince, is wintering in the stable of Elmer Stevens, in New York City.

WASHINGTON'S State Fair will be held at North Yakima September 26th to Oct. 1st inclusive this year.

CALIFORNIA and New York have each ten tracks over which miles have been paced in 2:10 and better.

THE five-year-old mare Cecile A., by Advertiser 2:15½, out of Cecil, by Gen. Benton, died recently en voyage for Europe.

KING ALBERT 2:16½, trotting, by King Nutwood, will be out as a pacer this year. He has shown 2:14½ at the lateral gait.

MR. H. SIMPKINS and R. M. Tobin will soon be seen on the road with a magnificent four-in-hand of polo ponies and brake.

PENDLETON, Oregon, has subscribed \$7000 towards building a race track and fair grounds. Work will be commenced at once.

A FILLY by Direct 2:05½, out of a mare by Robt. McGregor, is among the very fast ones worked over the Pleasanton track.

SCAPEGOAT, by Heir-at-Law, out of the dam of Nightingale 2:08, is counted the best green pacer in Geer's winter stable.

THE Polo games will commence at Burlingame March 1st. Major J. L. Rathbone is now the president of the Burlingame Club.

THERE are 490 horses at Village Farm, and 100 mares are with foal there. John Bradburn has been superintendent there for twenty years.

A. T. KYLE, Great Falls, Mont., is now the owner of Bonner Maid, dam of W. W. P. 2:05½. He says that she will henceforth be used as a broodmare only.

THE world's ice record was broken at Orilla, Ont., recently by Mr. McAvoy's gelding, going a mile in 2:21½. The track was nine feet over a mile, and very wet and sloppy.

PRESIDENT CRUIT, of the British Trotting Union, has campaigned several trotters on the continent the past season, and won \$6 222 on the German turf and \$4,210 on the Austrian.

THERE seems something odd about it when you come to think that eleven stallions have paced in 2:05 and better, but no mare, while two mares have trotted in better than 2:05, but no stallion.

MODESTO has a new driving club which is composed of the leading horse-owners of that town. It will hold race meetings at stated periods. There are some good horses owned in Modesto.

CAVEL RODRIGUEZ, of Salinas, has the gelding Shelby, by Wilkemoor, in his stable and is getting him ready for the summer campaign. Shelby is expected to get a mark of 2:15 or better this year.

THE new Year Book will be ready for delivery about March 10th. It will contain 800 pages and is full of the most valuable information to breeders and owners of trotting and pacing horses.

DIRECTLY 2:07½ in George West's hands this year, is likely to prove a star. In him, Giles Noyes 2:07½ and Sherman 2:08½, the clever Chicago trainer has a formidable trio for the fast pacing classes.

ANGUS McDONALD has matched his brown mare May Ayers against E. W. Runyon's bay horse Lee West, the race to take place over the Red Bluff track some time in March. The amount of the stake is \$500. Both horses are now in training in Red Bluff.

THE six-year-old pacing mare, Ella T. 2:08½, commenced to race when thirteen months old. She has started in over sixty races, and has seventy-three winning heats in 2:25 or better to her credit. She was never behind the flag, and was behind the money only seven times.

JAY BIRD, twenty years old, was sold for \$2,600 at the Lexington sale this week. He was purchased by W. R. Bacon, of Paris, Kentucky. William L., seventeen years old, and sire of Axtell, 2:12, brought \$125 at the same sale. The average for the lot sold was \$400 per head.

THE green horses in Ed Geers' stable down in Alabama are already stepping miles in 2:20, which is pretty glib for the first of February. Still, they must be sampled for the great stake events, and there is only one way to do that and that is go at 'em. You can't make speed around a straw-stack.

JAMES SULLIVAN is back at the Willows track after a few weeks sojourn in San Francisco, and will soon begin working a string of trotters and pacers, among them several green ones that are very promising. There are few drivers in the country who handle horses with greater success than Mr. Sullivan.

C. F. EMERY of Cleveland, one of the big breeders of the country, states that he has received more inquiries recently relating to catalogues and animals for sale as well as those kept for breeding purposes than at any time during the past three years, and that he feels greatly encouraged as to the future prospects of the breeding business.

THE attention of owners of good broodmares is called to the advertisement of the splendid stallions in our business columns. There never was a time in the history of the light harness horse industry when horse owners were as sure of a profit as the present.

ALTHOUGH it is too early for safe predictions, it is now thought that the prominent performers of the Hamlin stables this year will be Emeline Chimes, by Chimes, dam Emily 2:11; Kate Chimes, by Chimes; Seven Pines, by Rex Americus, and Scapegoat, by Heir-at-Law, dam Minnequa Maid dam of Nightingale 2:08.

MR. COLEMAN, of Los Angeles has bought from Mr. Frank Thwaits of Oakland a bay three-year-old colt by Direct, first dam by Sidney, second dam by Lynwood, son of Nutwood, third dam by Electioneer, fourth dam by Billy Cheatham, fifth dam by imp. Hercules. He is a big fine-looking fellow, and had a marvelous rate of speed.

THE old pacer, Cyrus, 2:14½, by Capt. Webster, is now an inmate of the Monarch Stables, 332 Bush street, and in spite of his bowed knees is able to hold his own with some of the best roadsters driven on the Park speed track. He made his record at the State Fair in 1893, and though as fast as a bullet could never come home fast enough to be a success as a campaigner.

THERE is a three-year-old chestnut stallion by Diablo 2:09½, out of Electrina 2:20 (trial 2:16), by Richards Elector; second dam Stenwinder (2:30½), (dam of Directum 2:05½, Directina 2:16½ and Electrina 2:20), by Venture 2:27, etc., which is said to be the finest-looking and purest gaited promising trotting youngster ever seen at the Pleasanton race track. We believe he is for sale, too.

THE horsemen of Santa Rosa are agitating the question of holding a race meeting there during the coming season. They will probably lease a track for a term of years, or may possibly form a joint stock company and construct a new race track. There is a great revival of interest in the horse-breeding industry in Sonoma county, and horsemen think that prices will soon be equal to the profitable figures of six years ago.

AN agreement has been reached between President Paterson of the Kentucky Agricultural and Mechanical College, and Col. William L. Simmons, whereby the bones of George Wilkes are to be disinterred, articulated and placed in the museum of the Natural Science Building which was dedicated recently. An investigation showed that the bones of the great stallion though lying in the ground for sixteen years, are still in good condition.

THE time is ripe for activity on the part of stallion owners, for everything points to the fact that horse breeding must inevitably revive in this country. We frankly admit that conditions during recent years have not held out inducements for stallion owners to make such effort to bring their stallions to the front, but conditions are entirely different now, and those who make bids for public consideration will get it if they have a stallion up to present day requirements.

JUDGE GREENE, of Oakland, has a bay two-year-old Diablo colt that ought to prove a good one if there is anything in speed lines. His first dam is by Richard's Elector; second dam by Nephew (dam of one with a record of 2:12 and another 2:22 at two years); third dam, the dam of Beaury Mc, 2:14½, and granddam of Myrtle, 2:19½, by Gen. McClelland 1:43; fourth dam by Norfolk; fifth dam by Jack Hawkins; sixth dam by imp. Glencoe. All the Diablo's are as fast as bullets and can go to the races, too.

LADY SALISBURY is the name of a four-year-old filly, by Directum 2:05½, out of Lady Thorne, by Dexter Prince, is now being worked at the Pleasanton track and showing remarkable speed. This filly was taken east in the Salisbury string last year, but went wrong and was not started. She is entered in over \$50,000 worth of stakes and if she reaches the other side of the Rockies in good condition this year will surely bring back new laurels to this coast and to her great young sire, the king of trotting stallions.

MR. THOS. WEEKS, of Santa Cruz, Cal., who bred Ethel Downs 2:10, still owns her dam, Nutwood Weeks by Nutwood, and several of her produce. The yearling by Boodle is called Gen. Montgomery. There is a black filly two-years-old also by Boodle, a chestnut stallion four years old by Silver Bow, a bay mare, 6, by Henry Patchen, and several others. Mr. Gordon of San Jose owns a five year old colt by Silver Bow out of this mare. Nutwood Weeks is a fine-looking mare. He dam was by Williamson's Belmont, and is the dam of Bismark 2:29½.

THAT grandly bred horse Waldstein 2:22½, sire of Jack W. 2:12½, Humboldt Maid 2:13½, Lady Waldstein 2:15, and many other fast ones, will make the season of 1898 at Eureka Humboldt county, Cal. Four of Waldstein's get could have entered the 2:10 list last year, and there are several others now in training in this State that can show miles better than 2:20. Being by the great campaigner and sire of campaigners, Director, out of an Electioneer mare, Waldstein, is not only a great trotter himself, but a great sire as well, and his opportunities at the stud have thus far been very limited.

THE trotting horse breeders of Yolo county will have the opportunity of booking their mares to two well bred and fast stallions. They are Arthur L. 2:15, a son of Direct 2:05½, out of Nellie by Geo M. Patchen, Jr., 2:27, and Toots, a grand-looking young stallion by Monbars 2:11½, also out of Nellie. These horses will be in charge of David Herspring, a young man well known to the people of Yolo and a thorough horseman. With these representatives of the great Director and Wilkes families located in their midst, Yolo breeders will not lack for the opportunity to improve their stock.

AN extraordinary instance of the ruling passion strong in death is mentioned in The Sporting Times, London, in connection with the late Dr. Freeman, of Bath, the noted breeder of thoroughbreds. He was a man of very large practice and more than skilled in his profession. He knew the desperate state of his own case, and that his hours were numbered. Notwithstanding this, reading an advertisement of a Hampton mare with a very tempting pedigree for sale, he said, "This is a chance that I cannot afford to miss," and he had a cheque sent to secure the mare by the next post. He was dead before she could be delivered.

A TELEGRAM to the BREEDER AND SPORTSMAN from Dr. Powell Reeves of Spokane, states that Guycisca and Clatawa have been matched to trot May 17th this year for \$1,000, and the money has been placed in the bank. The dispatch does not state where the race is to come off or its conditions. Guycisca is a bay horse, foaled 1891, by Guy Wilkes, out of Francisca by Almont, and was bred by F. D. Myers, of Oakland, Cal. He has a record of 2:26. Clatawa was foaled in 1888, and has a record of 2:21. He is by Daly 2:22½, out of Nelly by Gen. McClelland. The race will doubtless attract a large attendance of the Washington horseman, and be a hotly contested affair.

THE proposition made by Ed Tipton to match a half-dozen two-year-olds, the get of Marcus Daly's Prodigal, against the get of any other trotting sire for \$5,000 a side has led to a great deal of talk about a sweepstake race for the get of named stallions. W. E. D. Stokes, the owner of Onward and Patchen Wilkes, asked Tipton whether his challenge would hold good for yearlings by Prodigal as well as for two-year-olds. "Yes," said the Montana man, "it goes for three-year-olds, two-year-olds, yearlings or colts foaled this year." Stokes said that he would confer with his partner, Peter Duryea, about the matter, and intimated that a race might perhaps be arranged.

ONE of the greatest drawbacks to the success of trotting meetings in California is the late announcements of meetings given on the interior tracks. In the East dates are claimed in January and February on all the circuits, and horse men know before the first of March just what they may expect in the way of purses, etc. If the district associations of this State would simply announce early in the season their intentions of giving meetings, claiming dates therefor, it would cause a stir among the owners and trainers of trotters that would not only result in much good but in all probability lead to the training of an increased number of horses.

HERE is something absolutely unique in the line of world's records. W. B. Taylor, Sharon, Pa., is the owner of the chestnut gelding Allie A., 2:19½, pacing, by Allie Wilkes, 2:15, dam Lady A., by Atlantic, 2:21. Two world's records are claimed for this gelding, and it is not likely that any one will rise to dispute either one of them. He is the only living horse that ever won a race with a leg broken in that race, finishing the third heat from the three-fourths pole to the wire on three legs. He is the only horse, it is also claimed, that ever started again and reduced his record in a race after his leg had been broken. His record, before he broke his leg, was 2:20, and was afterwards reduced to 2:19½.

CONCERNING his offer to match Planet against Bumpo or Guinette, Barney Demarest issues the following, under date of Jan. 29: "In the New York Sun and Philadelphia Record there appeared an item relative to a proposed match which I hasten to correct before the turf journals copy it. My proposition was and is simply this: Believing that Planet, 2:04½, can beat any pacer at two-mile heats, if the purchaser of that stallion at the coming New York sale will put the horse in my hands. I will match him in that kind of race for \$2,500—Star Pointer, John R. Gentry and Joe Patchen not excepted. Or, I will bet \$2,500 against \$2,000 that he can beat Guinette or Bumpo, two miles and repeat, at Charter Oak Park Fourth of July next."

BECAUSE a few horses have been sold in the United States to go to Japan for breeding purposes, some of the eastern correspondents are referring to Japan as one of the "great" markets for American horses. This is misleading. The Japanese market is very limited and the prices are not high. While there is a demand at reasonable prices for finely formed, powerful and active horses for export, the demand is not so great as some of the turf writers, as well as breeders, would like. Booms founded on false demands do more than anything else to injure the horse business, and breeders who are led to incur great expenses in the hope of making a profit from exports to Japan, should not make their investments on mere newspaper talk.

JOHN SPAN speaks of the horse market as follows: "Everything in the horse line here looks encouraging. The market for general purpose and harness horses is better than it has been in years. Any animal with merit for use either in this country or Europe is eagerly sought after at a fair price. People are getting educated up to the point of sending their good things to the sale ring instead of the bad ones. Formerly they kept the good ones and sent the bad ones. Our December sale was a success in every way. We sold 300 horses at an average of \$250 apiece, and when you take into consideration that many of them were young and unbroken things, and shown to the end of the halter, that looks like a fair average."

SANTA ROSA horsemen have been doing lots of driving during the past month of dry weather, and on the track at that place quite a number of good ones are being exercised. The Rose Dale Farm will have Diana, the Daly filly out again this year. This mare did not get a record last year, but trotted a good deal better than 2:20 in some of her races. Bertha R., full sister to Digitalis, 2:25½, will also be trained. At the Rose Dale, Daly, 2:15, Digitalis, 2:25½ and St. Whips will be the stallions in service this year. Frank McGregor of Santa Rosa is jogging Cock Robin, a handsome three-year-old by Robin, out of Jessie, by Illustrous and L. theel, a two-year-old by Gossiper out of Mabel by Redwood. J. R. Leppo has a handsome horse by Montana Wilkes that he calls Banner Wilkes and he draws a road wagon better than a 30 clip. Thos. Hehir, one of Sonoma county's most enthusiastic horsemen owns quite a number of promising colts, one by Robin that he thinks very much of. W. H. Lumsden has two promising trotters, one especially that should be among the tip-toppers, as it is by Gossiper, out of Myrtle, 2:19½, by Anteo, second Luella, by Nutwood. A bay four-year-old colt by Illustrous and out of a Tilton Almont mare is being worked by Mart Rollins, and is very seriously afflicted with speed. George Campion's Guy Wilkes stallion, Lynwood, is looking exceptionally fine. Mr. Campion will have a number of fast ones out this year. C. C. Belden, the well-known harness dealer has a pair of handsome blacks that can "pace your eyes out" as the swipes say and he has passed everything on the road so far except the fast passenger trains and F. J. Yaudie's black filly, by Secretary and he hasn't run up against her yet. Santa Rosa county contains more enthusiastic horsemen than any city or its size in the State, and if a meeting is held there this year it will be a success beyond a doubt.

## THE SADDLE.

CHARLEY THORPE rode four winners Monday.

DAVID and Arrezzo, horses that raced here last winter, won at New Orleans Monday.

Is understood that an effort will be made at Columbus, Ohio, this winter to obtain some more liberal legislation relating to speculating on racing.

MR. ROHMIG, owner of Vitringa, arrived February 4th at Ingleside track from Helena, Mont., with several flyers Vitringa has been fired and turned out.

THE first and third races at Slingerly, Md., February 2d, were won by Earn and Rossman, sons of imp. Woodlands (sire of Sister Mary, &c.)

HENRY OF NAVARRE has made a good record for his first season in the stud. Last spring he served 34 mares, 27 of which are said to be surely in foal.

THE foals out of the mares sent to France in 1895 by Mr. W. K. Vanderbilt are now two years old and will race this season in his colors on the French turf.

SAMUEL BISHOP, cashier of the Louisville Turf Exchange, died at his home in Louisville on January 30th. Mr. Bishop was well-known among Western turfmen.

WILLIE MARTIN was last Saturday suspended for one week for fighting on the track last Friday. A stranger accused Martin of pulling Hazard and Martin knocked him down.

SISTER STELLA, own sister to The Butterflies, won a mile and seventy yard race at New Orleans, February 3d. Springtime was second. Brother Fred, by Volante—Lizette, won the last race of the day.

W. J. FITZPATRICK, jockey and starter, known on every track in the United States and Canada, died February 4th at Saratoga, N. Y., of pneumonia. He was born at Mount Holly, N. J., thirty-six years ago.

BERNARD CORRIGAN, a brother of Edward, visited the Ingleside track Saturday. Mr. Corrigan, who is one of the solid men of Kansas City, was delighted with the surroundings, and has never had any interesting in racing.

ED CORRIGAN sold three horses this week and two are already winners—Rio Frio and Can't Dance. The big turfman is not lamenting. He says that he needs room for his two-year-olds and will sell a few more winners cheap.

W. H. LAUDEMAN, Lexington, Ky., has purchased of H. L. Martin, Versailles, Ky., the bay colt Frank Thompson, 3, by Linden, dam Verbena, by Virgil, price said to be \$1,500. The colt was sent to Memphis, Tenn., to be trained.

JAMES R. KEENE shipped six race horses to England on the Atlantic transportation liner Minnawaska to-day, says a New York dispatch of February 7th. They were all three-year-olds—Cock Robin, Easter Gift, Nautch Girl, Blushing Bride, Maid of Erin and a bay filly.

LOU BRAMBLE and Sir Vassar have been sent to New York. Lou Bramble has been turned over to J. W. Rogers, to be trained for the Brooklyn and Suburban, while Sir Vassar has been sent to Westbury, L. I., where he will be given strong work over the jumps.

JOHN E. MADDEN has invested \$30,000 of the wealth he accumulated last year in a blue grass farm. It contains 236 acres and is located on the Winchester pike a mile and a half distant from Lexington. Here he will try to produce some duplicates of Hamburg of his own raising.

AT New Orleans, Saturday, several horses well known on Chicago tracks changed owners at auction. Lexington Pirate went to John J. McCafferty for \$400; Dunster to H. H. Stover for \$300; Evanatus to J. H. Smith for \$430; Little Music to J. R. Hand for \$209 and Little Ocean to J. H. Smith for \$130.

M. F. DWYER was second in the list of Eastern winning owners last year with \$60,675 to his credit, of which previous earned \$18,845, Ben Brush, \$15,195, and Cleophus \$10,155. Fourteen horses started in his colors during the year and were first 53 times, second 33, third 25, and 52 times unplaced.

THE notorious pool-rooms of Lew Myers located in Du Page county just outside of the Cook county line in Illinois were raided one day last week by the Sheriff of Du Page county and the entire party started off in sleighs. The rooms were operating on information furnished by the Western Union monopoly at the usual rate of \$50 per day.

SIXTEEN great broodmares from A. B. Spreckels' stock farm arrived at the Occidental Stock Exchange Monday evening in charge of Cy Mulkey, and this morning were safely placed on the cars en route for the Menlo Stock Farm, where they will be bred to St. Carlo and Ormonde. A finer looking lot of mares has never been seen in this city.

GEORGE MILLER was fairly thrown into the Follansbee Handicap at 100 lbs., and the chances are the big horse could have won with 115 lbs. up. He made Traverser, Col. Dan et al. look very yellow. The race was full of surprises, including Miller's out-running of Traverser from the start, Imperious' good showing, George Miller's great superiority and Buck Massie's grand race.

"ALGOL has wintered better than almost any horse in the Schorr stable," said President Robert Aull, of the Fair Association. "I saw him two weeks ago and he certainly impressed me greatly. He never was a large, big horse, but he has broadened and thickened so much since I saw him in St. Louis last summer that I failed to recognize him when he was led out of his stall for inspection."—St. Louis Republic.

JOCKEY DORSEY made his reappearance in the saddle Wednesday, but finished outside the money on Serena, who was an even money favorite. Dorsey is the jockey who was ruled off over a year ago, and he has been striving through the courts to get reinstated ever since. He was granted a license this year, and is riding now for B. J. Johnston, who backed him up in his fight against the racing authorities.

SOME doubt is expressed as to whether there will be any racing at all at Saratoga this spring. According to the schedule arranged by the Jockey Club, only five days are allowed the Spa when no other meeting is going on. As the dates have been arranged, the Saratoga Association will have to race against Aqueduct, Brighton Beach and the Coney Island Club, if it determines to go ahead with its meeting.

SAM BRYANT, who became famous several years ago as the owner and trainer of Proctor Knott, has five horses at the Louisville track. Bryant says he has nearly lost interest in the racing game. "A certain lot of people have nearly destroyed the sport in the West," he said, "and I hope they will hurry up and finish the job so that we can wipe out and start out right again. We must get things in the same shape here that we have them in the East."

A GENTLEMAN who recently returned from New York states that Harry Payne Whitney, son of ex-Secretary Whitney and son-in-law of Cornelius Vanderbilt, has bought the Brookdale Farm and will establish a stud of thoroughbred horses there which will restore all of the old glories of Brookdale. Incidentally it may be mentioned that Messrs. L. S. & W. P. Thompson have by no means given up their interest in horses. They have thirteen two-year-olds in training for the approaching campaign.

MONROE SALISBURY, the horseman, was discharged from insolvency on Monday, by Judge Hall of the Superior Court at Oakland. The insolvency proceedings forced the Pleasanton Stock Farm into liquidation and caused a great deal of litigation in the Alameda county courts over disputes among creditors, who claimed that the insolvent had tried to prevent them from realizing upon assets by interpolating fraudulent liabilities. The Court sustained the larger debt—one of Julius Reis on a \$25,000 mortgage against Salisbury and the Pleasanton Stock Farm.

GOLD SCRATCH, winner of the initial event Monday, is the first of the get of imp. Gold Finch to race in America, as well as being the first victorious one by the great son of Ormonde and Thistle. Gold Finch, a superb race horse, that was retired young owing to an infirmity characteristic of the Agaes family, of which his sire was a member, cost Mr. Haggin something like \$19,000 in England, and was evidently a bargain, considering the high average brought by his sons and daughters when put up at auction. Marcus Daly paid \$8,000 for a colt by Gold Finch out of Carina.

THE first of the get of Henry of Navarre was foaled at the Nursery Stud last Monday. It is a brown colt out of imp. Yseult by Tristan. Twenty-seven out of the thirty-four mares which Navarre covered at the Nursery Stud last year (his first season) in the stud are in foal. Mr. Belmont, however, had bad luck with the mares which he sent to imp. Top Gallant last year. Out of the ten mares which he sent to Top Gallant only three proved to be in foal. Lady Margaret (dam of Margrave and Lady Marian and one of Mr. Belmont's pet mares) slipped her foal last October.—Thoroughbred Record.

MR. GUS STRAUS, the well known turfman, and one of the leading merchants of Lexington, purchased on Thursday from the estate of A. M. Hawes the Overton Farm, consisting of 237 acres, for \$30,000. This farm is beautifully situated 3½ miles from Lexington on the Winchester turnpike, and is one of the best breeding establishments in the country, having all modern improvements, splendid stabling and nicely arranged paddocks. Mr. Straus is very popular among breeders, who gladly welcome him to their ranks. He will make his residence at Overton Farm during the summer months.—Thoroughbred Record.

FOR twelve two-year-olds Bromley & Co., of this city, have registered the following names: Disturber, b c, by Exile—Meddle; Rosebud, b c, by Duke of Montrose—Violet; Faustile, b c, by Exile—Faust Rose; Falseban, ch c, by Deceiver—May Ban; Kinglete, ch c, by Kingstock—Complete; Kingrica, blk or br c, by Kingstock—Enrica; Kingmaker, blk c, by Kingstock—Fate; Blaisedora, b f, by St. Blaise—Fedora II.; Monletta, b f, by Duke of Montrose—Burletta; Nike, b f, by Duke of Montrose—Virginity; Anitra, b f, by Duke of Montrose—Miss Mattie; Onondaga's Pride, b f, by Duke of Montrose—Frederick's Pride.

THE Board of Stewards of the Pacific Coast Jockey Club met Tuesday night at the Palace Hotel to review the cases of several horsemen whose horses brought them into disrepute at the last Ingleside meeting. In the case of the mare imp. Trance, whose trainer and the mare were ruled off and Jockey George Snider indefinitely suspended some weeks ago, no action was taken. W. J. Spiers, the owner of the two-year-old Santello, had his sentence of sixty days' suspension reduced to thirty days. The sixty days' suspension of Nolan & Tall, owners of Also Ran, was also reduced to thirty days. Steeplechase Riders Madden and Maynard applied for reinstatement, but their cases were deferred for further investigation.

JIMMY McLAUGHLIN is training nineteen horses at Morris Park, fourteen of them being two-year-olds. The horses older than that are: Premier, 5; King T., 5; Hi Daddy 4; Demagogue, 3, and Torstenson, 3. His two-year-old lot includes the much heralded Sir Modred—Memento, filly and is as follows: Classique, br f, by Order—Longolette; Surrender, b c by Order—Hannah; 18 Carat, ch c, by Golden Garter—Mollie Walton; Diminutive, b f, by Sir Dixon—Merdin; Prosaic, b f, by Sir Modred—Prose; bay colt by Sir Modred—Nonage; bay colt by Chevalier—Alice Vincent; bay colt by Order—Fancy; chestnut colt by Order—Coots; bay colt by Tremont—Exile; chestnut colt by Tenny—Katie Fletcher; bay filly by Sir Modred—Memento; bay filly by Watercross—Parthenia; chestnut filly by Order—Miss Saxon.

There are some dollars which the respectable paper cannot afford to invite within its coffer, one of these is the dollar which carries with it the debauchery of the youth. This was the purpose of the law which makes it an offense in nearly every state in the Union to offer a certain New York publication for sale. The offense does not consist in some particular article which has or may appear in that paper, but in the effect it has upon the morals of the youth. It is anticipatory rather than real, and yet the law has seen fit to crush it. If this principle of law is true in the case of a paper which has but a struggling subscriber here and there how much more potent is it in a case where hundreds of boys and girls and women are daily debauched by the fetid atmosphere of the poolrooms where the dime of the baby and the dollar of the bawd are placed side by side.

W. M. MURRY, the slender Sacramento turfman, has sent four mares to St. Carlo for this season, and judging from their reputation and breeding, should be well repaid in the produce. They are Jessie C., dam of Circe and Michael; imp. Elise, Wilda, by imp. Brutus, and Conchita, by imp. Friar Tuck, out of Pink, a half-sister to Henry of Navarre. Murry's other mares will be bred to Abalanzar, a young stallion by Bramble, out of Flotilla. Murry says that Michael can beat any young horse in the East over a distance of ground, and expects him to do great things this year for Mr. Dwyer, to whom he sold him. Circe ran a mile over the old Bay District track in 1:40½ and many other fast races. Jessie C.'s two-year-old this season is by Three Cheers, and though a little backward, bids fair to be as good as, if not better than his relatives.

RACING CRITICS FRANK SKINNER and Henry Forsland rode the winner and the second horse in the gentlemen's race, and were by odds the most artistic knights of the pigskin of the half dozen that had mounts in the third race. Mr. Skinner, who piloted the winner, is one of the proprietors of Daily Racing News, and made a reputation here as a clever rider several years ago, when, representing the BREEDER AND SPORTSMAN in a race exclusively for horses ridden by newspaper men, he put Broad Church first over the plate, the son of Leinster and Tibbie Dunbar being at a long price. Afterward he rode Flashlight and others to victory in races for gentlemen riders. Henry Forsland likewise made a name as a rider some years ago at Bay District track, when he steered Gilead and Lonnie B to victory in good shape. Mr. Forsland has for some time past been the representative of Daily Racing Form and the Spirit of the Times, and is one of the keenest form students in the country.

WIRE tappers still exist, and in the hope of getting rich 'ast by swindling the poolroom keepers, take long chances of getting into jail. Some birds of this feather caused the Roby, Ind., poolrooms to lose \$1,500 one day not long ago. They were caught at their work, however, and arrested. The men gave their names as Richard Kilder, Edward Stedley and Walter Watkins. The police believe that their operations have netted them several thousand dollars from the Roby bookmakers, but it is not thought that they have been working their plan any length of time. Their discovery was due to the Pennsylvania railroad operator at South Chicago, who noticed a wire running out of a barn. He informed the police and the officers surrounded the place and arrested the men. Their alleged scheme was to secure the result of the races being telegraphed to Roby and hold them in the barn until a message had been sent to the confederate at the Roby stands. After the bets had been placed the results were then allowed to proceed.

MR. AUGUST BELMONT has seventeen horses in training for the campaign of 1898, with Merry Prince at the head of the older division. The full list is as follows: Merry Prince, ch h, 5, by Prince Royal—Merry Nelly; Don d'Oro, ch c, 4, by Rayon d'Or—Bella Donna; Octagon, ch c, 4, by Rayon d'Or—Ortega; St. Bartholomew, b c, 4, by St. Blaise—St. Bridget; Firearm, br c, 3, by Rayon d'Or—Fides; High Priest, ch c, 3, by Magnetizer—Princess; Songster, ch c, 3, by St. Blaise—Soubrette; Lady Marian, ch f, 3, by Rayon d'Or—Lady Margaret; Sundream, b c, 2, by Rayon d'Or—Bliss; Catapult, b c, 2, by Magnetizer—Kate Allen; Filon d'Or, ch g, 2, by Rayon d'Or—Fides; Fulminate, b g, 2, by Rayon d'Or—Feu-Follet; Ordeal, ch g, 2, by Rayon d'Or—Ortega; Fly by Night, ch g, 2, by Candlemas—Flibbertigibbet; Merry Friar, ch g, 2, by St. Blaise—Merry Nelly; Lady Madge, ch f, 2, by Rayon d'Or—Lady Margaret; Lady Onward, blk f, 2, by Onondaga—Lady Kidbrook.

WHY don't the two associations combine against the scheme of sending telegraphic or telephonic news from the race tracks until the races end each day. The "Call" and "Examiner," quick to appreciate the good advice offered by the BREEDER AND SPORTSMAN regarding the bulletin boards displayed in front of their offices every afternoon, have removed them, and in doing so have done more to injure the effectiveness of the down-town pool-rooms than all the ordinances yet devised. Now they have another good work, in which they will receive the thanks of every business man, every property owner, every city official, every parent and everyone interested in the thoroughbred interests on this coast, and that is to call the attention of the associations (as we are striving to do) to the terrible harm being done by allowing telegraphic and telephonic news to be sent from the race tracks every morning in order to have it published in the noonday edition of the three evening papers, thus furnishing material to keep alive the pool-rooms and bucket shops.

JAMES TODHUNTER SLOAN, better known as "Tod" Sloan, arrived Sunday night from New York. Since the "midget man" left here early last spring he has achieved fame as a rider on two hemispheres and is probably the most popular jockey in the world to-day. Sloan's style of riding was new to the English and they criticised it severely, but his success made the newspaper and other critics acknowledge that it was of the get-there order. After having made the best winning average of any of those that rode in England "Tod" repaired to Monte Carlo and won \$5,000. After taking in Nice, Naples, Paris, and other European points of interest, the now famous Kokomo lad returned to New York. Sloan now comes back to San Francisco which he regards as his home, and will soon be seen in the saddle here—probably as quickly as the track dries up, for even before he had made a great reputation "Tod" was not in love with muddy tracks. The little Indian rider for Fleischmann & Son during 1893, and after that England will probably catch him.

FOLLOWING are the weights fixed by Handicapper W. S. Vosburgh in the Suburban, \$10,000, to be run Saturday, June 18, 1898: Ben Brush, 5, 129; Ornament, 4, 128; Ben Holladay, 5, 123; Requit, 5, 122; On Deck, 4, 120; Tillo, 4, 119; Dr. Catlett, 4, 118; Havoc, 6, 117; Howard Mann, 5, 116; Sir Walter, 8, 116; Don De Oro, 4, 115; Lehman, 7, 114; Typhoon II, 4, 114; Buddha, 4, 113; Fleischmann, 4, 112; Scottish Chieftain, 4, 111; Tragedian, 4, 110; imp. Royal Stag, 5, 110; Peep O'Day, 5, 110; Maceo, 4, 109; Loki, 4, 109; Senator Bland, 5, 109; Ogden, 4, 109; Byron McClelland, 5, 109; Ben Eder, 5, 109; Meadowthorpe, 4, 108; The Roman, 4, 107; Algol, 4, 107; Plaudis, 3, 106; imp. Isidor, 4, 106; Semper Ego, 5, 106; Counter Tenor, 6, 105; Merry Prince, 5, 105; Macy, 4, 105; Lou Bramble, 4, 104; Connoisseur, 6, 104; Fleur de Lis, 4, 103; Poetess, 4, 103; Dr. Sheppard, 4, 102; St. Bartholomew, 4, 100; Handball, 3, 100; Box, 4, 100; imp. 4, 98; Michael III, 3, 97; Great Bend, 3, 95; George Keene, 3, 95; Caldron, 4, 95; Murillo, 3, 92; Sly Fox, 3, 90.

THE WEEKLY  
**BREEDER AND SPORTSMAN**

WM. G. LAYNG, EDITOR AND PROPRIETOR.

The Turf and Sporting Authority of the Pacific Coast.

— OFFICE —

No. 313 BUSH ST., SAN FRANCISCO  
P. O. BOX 2300.

TERMS—One Year, \$3; Six Months, \$1.75; Three Months, \$1.  
STRICTLY IN ADVANCE.

Money should be sent by postal order, draft or by registered letter addressed to Wm. G. LAYNG, 313 Bush St., San Francisco, Cal. Communications must be accompanied by the writers' name and address, not necessarily for publication, but as a private guarantee of good faith.

San Francisco, Saturday, January 29, 1898.

**A Note of Warning.**

The "Call," in its vigorous denunciation of the down town pool rooms, has demonstrated that it is not only the champion of morality but the true friend of legitimate racing. With a degree of courage that is positively refreshing in these times of police and journalistic lethargy, it goes to the root of the evil which is not only corrupting the youth of the city, but overshadowing one of the great industries of the State.

The pool room is in no sense a part of the races. It is the barnacle which attaches itself to it. It brings nothing to the racing association but public indignation. These agencies are responsible for the suspension of racing in no less than ten states in the Union, and unless some action is taken to suppress them here, California will be added to that list. If unchecked in their work of pollution, the down-town pool rooms will kill both racing and breeding in this State.

When the "Call" says that "the youth of the city must be protected at any cost," it lays down a principle which none dare dispute. If that cost should bring with it the complete suspension of racing and incidentally that of breeding, the penalty would be a severe one, but there would be nobody to blame for it except those who have refused to listen to the true friends of racing. No one familiar with the racing history of this State would charge the "Call" proprietor with being unfriendly to racing, because the turf of California has had no more loyal patron than Adolph Spreckels. It must be admitted, therefore, that any criticism of the track from that family is one of friendship.

THE CALL, like the BREEDER AND SPORTSMAN, believes that the best way to serve the interests of an institution dependent upon public favor is to respect the public opinion, from which it derives both its rights and its revenue. That opinion demands the closing of the dead-falls of this city, where the youth of both sexes are daily lured to ruin—not as patrons of racing, but as patrons of a cancerous growth which has uninvitingly attached itself to racing.

In demanding the suppression of this vice, even though the tone be firm, we feel, as the "Call" evidently does, that we are advocating the best interests of racing. There is but one way to put a stop to this evil in the absence of police power, and that is for the associations to refuse to give out any information from the tracks until after the day's races are over. Without this information the bucket shops could not live.

**Lessons of the Pool Room.**

The trail of the pool-room has been the trail of the serpent. Wherever this monster has made its appearance prohibitive legislation has followed. The statute books of more than ten States of the Union tell its story by grass-covered race tracks and bankrupt brood farms. Palatial structures bear silent witness to public wrath in nearly every great city of the country, as the result of this evil. While its work of destruction has been marked in all cases, there is probably no city where it was so complete or so widespread as it has been in Chicago. As the result of an adverse racing sentiment worked up by these leeches, tracks which cost millions of dollars are to-day found serving no purpose but that of pasture age.

Strings of horses that would have sold at public auction for thousands of dollars in the halcyon days of racing in Illinois to-day go begging at hundreds. This was not due to any change of public sentiment in that city with reference to racing itself, but to the presence of the down-town pool-rooms. At the time of the passage of the anti-racing law in that State there were

more than one hundred of these places in existence in Chicago. Their service came from the telegraph companies and their patronage from the school-room and the slums, just as it does here. Its fruit was suicides, murders and defalcations almost without number.

The evil became so pronounced that the press and the pulpit joined in demanding its suppression. This protest, directed as it was to a thing entrenched behind a police "pull," went unheeded until the legislature convened, and then it went out of business. But the race tracks went with it. The extremes of society came together, and, as is customary in such cases, drastic measures were adopted. Race track owners were made to suffer for the evils of a business in which they had no interest whatever. They were made to suffer for the greed of the telegraphic monopoly which derived thousands of dollars daily from this system of debauchery. The owners of these tracks where thousands of the best people of the State congregated daily had no more interest in the down-town bucket shops than the owners of the Ingleside or Oakland tracks have in the hell holes of San Francisco, but they permitted the telegraph company to furnish the information upon which they were conducted, and they paid the penalty. The people of the State of Illinois declared that the pool-room evil should be stopped, even at the cost of racing. This they subsequently did by raiding the tracks with squads of police. The history of these tracks will become the history of California tracks if this method is permitted to exist.

**To Trotting Horse Men.**

There are hundreds of thousands of dollars invested in purses for the breeding and development of the light harness horse in California. From Siskiyou to San Diego there is not a county but is represented in this industry to a greater or less degree, and in some of them the assessed valuation of trotting-bred stallions and mares amounts to more than any other investment except real estate. The men who have invested their money in this enterprise are, or should be, deeply interested in every movement that is designed to increase the selling value or the earning capacity of the harness horse. They are, as a general thing, men of some means and can afford to devote some of their time, if not a large amount of money to the advancement and betterment of the horse-breeding interests. A movement has been started by which it is hoped that harness-racing will receive a new impetus in California this year, and should the plan succeed, every standard-bred horse in the State will have its value increased and all the markets for animals of this class will regain some of their former life and stability. Such being the case it is the duty of every horse owner to lend his aid to this movement. It will not do for many of them to act as they have in the past—sit down, and while twirling their thumbs, sigh over the decadence of trotting races, and bemoan the fact that they cannot realize anywhere near the amounts they paid for their track horses, stallions or broodmares. They cannot expect the public to show a very lively interest in something which they themselves seem to have neglected. They must come to the front, show that they are alive and have confidence in the future. When meetings of the Breeders Association (to which they nearly all belong) are called, let them show enough interest to attend, and thereby prove to the public that the industry and those who have their money interested in it are not relics of the dead past. Suppose at the next meeting of the P. C. T. H. B. A. the following gentlemen should be present: Wm. Corbitt, D. E. Knight, J. J. Crooks, Prof. E. P. Heald, John F. Boyd, Col. J. P. Moorehead, Wm. Vioget, H. W. Crabb, E. Callendine, C. A. Winship, F. Wickersham, A. B. Spreckels, Chas. Hug, Alex. Brown, A. G. Gurnett, Martin Carter, A. C. Severance, Thomas Green, Charles F. Neal, Henry and Ira Pierce, Dr. Finlaw, Rudolph Spreckels, Harry Wise, K. O'Grady, A. Hirschman, Geo. H. Fox, E. H. Jones, J. Phippen, L. A. Richards, Frank W. Covey, P. J. Williams, A. L. Whitney, J. N. Nelson, C. Lapham, Harry Agnew, F. F. Moulton, Park Henshaw, Jos. Cairn Simpson, Walter Hobart, C. Griffiths, Thos. Keating, Thos. Smith, V. Tryon, C. Durfee, John Mackey, B. F. Rush, Samuel Hoy, Kelly Briggs, J. B. Iverson, Jesse D. Carr, R. S. Brown, C. Z. Hebert, Walter Maben, C. F. Bunch, Thos. Montgomery, G. Bollinger, James Rea, R. D. Fox, J. Gordon, S. H. Crane, L. Shafer, A. B. Rodman, Clarence Day, and a hundred more whose names do not come into our mind at the present moment. If all these gentlemen were gathered together with the avowed purpose to do something for the harness-horse industry does anyone for a

moment doubt but the success of the movement would be assured. They have it within their power to do something to protect the money they have already invested and add to the value. If they will but lend their presence there will be plenty of willing workers who will do the rest. There is to be an annual meeting of the P. C. T. H. B. A. in April next. Let there be no let up between now and then, but let every man interested in any way in the light harness horse begin right now and do something to make the meeting the best attended and the most enthusiastic in the history of the Association.

**Of Importance to All**

Notices to all our delinquent subscribers have been mailed this week with the hope that they will be the means of adding to our exchequer. Thousands of dollars are owing us, and as no individual sums are higher than six dollars, we believe our appeal for this, which is due, will not go unheeded.

Aside from the subscription, every owner of a good horse or mare on the Pacific Coast realizes that the BREEDER AND SPORTSMAN is, and always has been, doing more than any turf journal in America to keep up the prices of fine horses. Mainly through its influence races were held throughout California in 1897, even though everybody interested predicted it would be impossible. Its labors are far from being ended, for it has laid out a system of races for 1898, which will do more to enhance the value of light harness horses than anything yet devised. With this good season of racing the danger will be passed, for this fall there will be an election for Governor in which the BREEDER AND SPORTSMAN will make a hard fight to have the candidates pledge themselves regarding appropriations for district fairs, a question so vital to farmers and horsemen that all others are dwarfed in comparison.

It is not much for every subscriber to pay what he owes; the sums are small, nevertheless, they will be of great assistance to us. We need money, and need it badly, and only look for that which we honestly earn and are entitled to. Times are looking brighter for farmers and horsemen, and it is not expecting too much to ask of these good friends that they brighten the pathway of their champion through prosperity and adversity, the BREEDER AND SPORTSMAN. Hence, we again ask that everyone receiving a notification will kindly send us a postal order, draft, or the coin, on receipt of the same, and merit the thanks of the proprietor of this journal.

**The Octopus of the Track.**

The Western Union Telegraph Company is to the racing world what the Police Gazette is to the sporting. While professing a friendship through the dissemination of news, it has brought racing into disrepute. This is not due to the fact that public sentiment has undergone any change in the matter of racing, but to the disreputable methods of this octopus of the track. Instead of confining itself to the transmission of the legitimate news of the track, which was all that was ever contemplated or authorized by the terms of its franchise, it has branched off into the business of debauching the morals of the youth. It is the author of the down-town pool room in every city in the land, and consequently the author of all laws which have been enacted against racing. Under the pretext that the pool-room system was part of the racing system, it has gone on catering to the tastes of the depraved and corrupting the morals of the young, until it has made racing all but odious. Protest after protest has been made to it by those who have the best interests of racing at heart, but to no purpose. Its greed knows no bounds. It draws no line between the dime of the baby and the dollar of the burglar. All dollars that enter its coffers are standard dollars. It matters not where they come from, or at what cost they have been obtained. Like its prototype, the Police Gazette, it caters to the depraved element of the sporting world. That element makes no distinction between the dollar that contains the imprint of justice on one side and the eagle of freedom upon the other, and the one that is clothed with the image of the sire and the bird of prey. All dollars are good dollars with those who traffic in human souls. The fact that the patrons of the down-town pool rooms may have obtained these dollars at the cost of manhood or of womanhood makes no difference with this side partner of the "tout" and the "tinhorn" gambler. It is to this agency alone that racing must charge the present public indignation. If the managers of the two most popular tracks in America would save them from the wrath of outraged decency, which is now asserting itself in this city, they must throttle this monster of the track.

WHEN many of the Klondikers return loaded with gold dust, about the first things they will be purchasing will be fine trotting stock, and many a good one will be sold in this city in May and June.

#### Stallion Owners, Attention!

The season for breeding mares generally commences this time of the year, and owners of good ones who read the account of sales of horses of all kinds are carefully scanning the turf journals in order to see what sires are advertised. They have no other means of knowing anything about these stallions.

The present demand in thoroughbred circles for the services of thoroughbred stallions is unprecedented in the history of these "Children of the Winds," and several stallion owners have concluded to insert advertisements in this journal next week.

The light harness horse industry has a brighter outlook than at any time in its history. Many wealthy men who bought horses at fabulous prices because they were bred well, have retired from the business because they knew little or nothing about it, and had no time to devote to the breeding problem; and as they saw they had bought on a rising market and had come to the conclusion they had "got in wrong," they held dispersal sales and drew out of the business the very easiest and quickest way possible. A few of these gentlemen, however, had become infatuated with the business and are determined to remain in it. They have weeded out their bands of mares and retained those which they considered worthy of producing horses that would sell. These men have also outgrown their notions (which almost approached the bigotry line) about breeding to their own stallions. They are willing to breed to those owned by their neighbors and are anxious to see if their judgment in this great study is correct. Consequently, through their influence, many "small" breeders, or what may be more correctly called "select" breeders, have been greatly encouraged. Many a valuable sire will prove a "Klondike" for these men, for very choice mares will be bred and the produce trained by men of wealth who have given the breeding problem due consideration.

There will be a class of horses sold or destroyed hereafter which may accidentally appear even on the largest as well as the smallest stock farms. Heretofore, they have been retained on account of their pedigrees. This class has neither speed, conformation nor the dispositions to be worth raising. The work of the ecraseur cut out of existence thousands of these representative nondescripts or scrubs and its good work will continue undiminished.

Owners of stallions need have no cause for doubting the worth of any mare booked to their horses. The only thing they must do is to advertise their horses in the BREEDER AND SPORTSMAN at once. The industry is in a better condition than ever, and the man who will succeed in making money in it is the one who breeds judiciously and holds on to his colts and fillies for a year or two longer. The eastern turf journals all speak in the most hopeful terms, and so does every horseman who has kept a close watch on the supply and demand in trotting-horse ranks.

#### Public Confidence and Private Snaps.

If horse racing is to continue as one of the attractive sports of California, due consideration must be given to the two elements which make it possible. The first of these is the public, the next is the breeder. Side shows and "snaps" may be a good thing in their place, but it must be borne in mind that their place is behind, and not in front, of the public. The dollar that comes from the sale of privileges is not the dollar that makes the "mare go" at the race track, any more than it is at the theater or any other place which is dependent upon public patronage. The "fakir's" dollar is the last to enter the track and the first to leave it when public confidence is shaken. This is the history of all race tracks. California will prove no exception to the rule.

THE rains of the past week have insured an excellent hay crop. Feed of all kinds is just springing out of the ground. One inch of rain in February is worth four in December, and the best years, speaking from an agricultural standpoint, were those which were noted for late rains. The year 1898 will be the best ever known in the history of California.

H. BURKE is not connected with the BREEDER AND SPORTSMAN in any capacity and is not authorized to transact any business for this paper.

It will not do for the two jockey clubs to say that their inability to shut off the track news upon which the down-town pool-rooms exist, grows out of some contract they may have made with the telegraph companies because the law does not countenance the enforcement of contracts which are against public policy.

THE general interest which is taken in racing in this State must not be mistaken for that of licensed debauchery. There is a difference between racing and robbery, one takes place at the race tracks—the other at the down-town pool-rooms.

THE speed programme for the Summer meeting of the P. C. T. H. B. Association will be acted upon by the Board of Directors before March 1st. As outlined, it is the most unique, and we believe, will prove to be the most popular ever offered.

ENTRIES to the Highland Park Stake events will close February 21st. Read the advertisement in our business columns.

(Continued from page 99.)

the Jockey Clubs are determined to put a stop to these indefensible institutions, so far as that can be accomplished by the governors of racing, the battle can be fought under far better generalship. There is little doubt that should the P. C. J. C. and the C. J. C. request the clubs of the East to forbear allowing the Telegraph Co. to transmit intelligence to Sausalito the request would be granted though it does seem that good sense would mark such a course without solicitation. The people who avail themselves of the opportunity to make money are not so blamable as the great company which has done its best in the past to render nugatory the action of the clubs when attempts were made to stop telegraphic communications. It may be that like efforts will be rendered abortive by the same tactics, still I would like to see it tried again.

A GOOD EXAMPLE.—In a conversation with one of the most successful trainer and driver of harness racers in California, a few days ago, the talk drifted into various channels. Enquiries about a gentleman who resides in the Southern part of the State brought fervent encomiums among other praises, that the relator had driven his horses for several years, and always with the same instructions, "win every heat you can." Commenting on that charge Mr. D— said, "how much better for everyone engaged in the business if every owner followed that example. As" in the now celebrated Preston case there are, undoubtedly, many instances when a driver is commanded to forego winning heats, when his own judgment, his own idea of the proper course to pursue, are directly contrary.

Very many drivers are forced to surrender their right to follow plans that their judgment and inclinations mark, and were rule 48 made to cover such cases as that of Preston, it would be well received by drivers as well as attendance at the races.

JOS. CAIRN SIMPSON.

#### Answers to Correspondents.

F. P. L., SPOKANE—Odd Fellow was a gray horse, foaled 1858 and was by Jack Hawkins (son of Boston) out of Lolo Montez, by Grey Eagle; second dam Corinna, by Trumpator; third dam Directress, by Director, etc.

AMONG the two-year-olds on the Eastern tracks the veteran, Charles Littlefield has nine in hand and has claimed the following names for them: Fast Black, blk f, by Watercress—Abilene; Saccharine, ch-f, by Sir Modred—Glorianne; Albertina, b f, by Darebin—Kathleen; Rosanna, b f, by Sir Modred—Rosemarry; La Penitente, br f, by Watercress—Rosalind; Peace, ch f, by Midlothian—Turmoil; Courtly, ch f, by Spendthrift—Victoria IV; Florator, b f, by Salvator—Flora Dare; Peppergrass, b f, by Watercress—Sabrina.

TOD SLOAN was given a royal reception yesterday at the Oakland track; it was second only to that which greeted "Longshot Conley" as he finished ahead of the world's crack jockey on a 40 to 1 shot.

Asthma and Bronchitis cured. No pay until cured. At Dr. Gordin's Sanitarium, 514 Pine street, near Kearney, San Francisco, Cal.

THE down-town pool-room operator draws no line between the dime of the baby and the dollar of the burglar. Everything that comes into his net is "fish." He does business with "suckers" alone.

#### TWO FINE YOUNG STALLIONS FOR SALE.

One a trotter and the other a pacer, bred in the most fashionable strains. The trotter is one of the finest individuals and GRANDEST BRED horses on the coast, and a great stock horse, as his produce show. For particulars, pedigree, etc., address, G. W. STIMPSON, V. S., 698 24th St., Oakland

#### Conquering Conley's Day.

(Air—"Old Uncle Ned.")

Dar was a race horse ridah  
And his name was Toddy Sloan,  
He was bo'n in Kokomo long ago,  
He had a reputation  
As wide as civilization  
And he counted his admiraahs by the sco'.

Take down the boss shoe from de do', do', do',  
Blow hot air in de balloon,  
For its mighty rough and ha'd on po' ole little Tod  
To be beaten twice in one day by a "coon."

#### The "Post" Protests.

In speaking of the down-town pool-room evil the "Post" says: "The pool-room swindle is merrily at work debauching the youth of the city. Under the existing condition of affairs any one can do a bookmaking business who can find dupes to part with their money. Not only gamblers, but cigar dealers, shop foremen and even peddlers and pawn-brokers are making books on the races. It requires no stock in trade beyond an elastic conscience, a pencil, a sheet of paper and a few fools to work on. The city gets no revenue from the business, for the license law is evaded, and those who patronize the swindler gets no returns, for the odds are juggled until it is impossible to win.

The old pool rooms in the tenderloin are running openly and any one who has any money to throw away is given every opportunity. All that is necessary is for him to give it to the bookmaker, and as a matter of form name a horse. Nothing is said of odds, and if the better happens to pick a winner he gets just what the bookmaker chooses to give him and no more. There is nothing to prevent the bookmaker keeping all, for there is no law to protect the gambler.

The law against the infamous swindle has been sustained by the courts and it is the duty of the police to arrest every violator. The police cannot and should not control the courts. So long as the police do their duty it is none of their business what the courts do. The responsibility for any miscarriage of justice will then rest solely on the courts. If no arrests are made the police will be held responsible."

[The course adopted by the "Post" in this matter is a most commendable one, but it carries with it one element of weakness, and that is that the Post, assisted by the other evening papers, through their noon-day editions, furnish the pool-rooms a very valuable part of the information upon which they operate.

Without this information, for which the racing clubs are responsible, there would be no down-town pool rooms. The police may not have been as aggressive in the matter as they should be, but the blame does not rest with them alone.]

#### HOOF-BEATS.

THE Chronicle this morning says: "It is expected that an order will soon be issued to prohibit the sending out of scratches, jockeys, etc., from the tracks. This contemplated act has been made necessary on account of the growth of poolrooms and handbooks down town." It is about time the "live daily" published this. The evening papers which claim to publish news hours ahead of it have managed to hypnotize the jockey clubs and keep them in that condition while they did all in their power to encourage the opening of down town pool rooms, where they could sell their papers, which contained the only information which could keep them alive. The morning dailies, with the exception of the "Call," have been silent as the tomb on this question. They publish form charts, track gossip, etc., and criticize the officials at the race tracks, but do not dare say one word against down town pool rooms, which will sooner or later destroy one of the greatest and best industries in California. The Western Union Telegraph Company is an all-powerful monopoly, and like a mighty octopus, it has squeezed the life out of every jockey club and race track in the ten leading States of America. California will be the next to feel its deadly influence if it has not already come under its shadow.

THE BREEDER AND SPORTSMAN is looking out for the best interests of the jockey clubs in California and in its endeavors to call the attention of these organizations to the fate which is in store for them if they continue to allow the telegraph companies to crush them out of existence as it has in all the other leading States, it arouses the indignation of a few who are interested in the existence of these pool-rooms we cannot help it, and, what is more, we do not care. For fifteen years we have labored to see racing placed where it is in California but not to see pool-rooms created which will kill this great sport. The courts and the police are powerless to crush them out of existence and if the jockey clubs do not heed our warning and stop all information from leaving the track prior to the close of the races Ingleside will be closed next year and State laws will be passed to close Emeryville. It is not pleasant to remind our best friends of this, but it is the truth, and they know it. We urge them by all the lessons of the past to try and save themselves, their property, and the great industry while they can. One word to the telegraph company will do it.

## QUINN'S OINTMENT

### FOR HORSES

stands at the head of all veterinary remedies. Such troubles as Spavins, Curbs, Windpuffs, Splints, Bunches have no terrors for a horse if the master keeps and applies Quinn's Ointment. All well-known horsemen speak of it in the highest terms:

Miller & Sibley, of Franklin, Pa., owners of St. Bel, brother of late Bell Boy, write, "We have used Quinn's Ointment with great success and believe it fulfills all claimed for it. We cheerfully recommend it to our friends." For Curbs, Splints, Spavins or Bunches, it has no equal.

Price \$1.50. Sold by all druggists or sent by mail.

W. B. EDDY & CO., WHITEHALL, N. Y.

**TRY IT.**

## STATE AGRICULTURAL SOCIETY.

Extracts from the Annual Report of the Board  
Made to the Governor Last Week.

At the meeting of the State Board of Agriculture held in Sacramento February 1st, the annual report of the Board to the Governor was read by Secretary Smith and adopted. It comprises a careful review of the industrial conditions of 1897, and is a valuable addition to the established literature of the State. In regard to the horse breeding industry with which the readers of this journal are particularly interested, the report says in part:

"Rapid has been the stride in the production and improvement in certain breeds of horses in America, superinduced by, we might say, a 'fad' on the part of those whose means justified the investment for the advancement made in the breeding-up of the American trotter. The fabulous prices paid by a prominent man in the earlier days of the business for speedy trotters for advertising purposes was an unfortunate error for the permanency of the horse industry based upon the natural conditions of trade.

This act attracted the attention of breeders to one class of animals, and immediately created a rivalry among the wealthier class for the production of the fastest animals at this gait. We have about reached the goal, and the rivalry has abated, followed by the retirement of men of means, as a rule, thereby annulling the demand at fancy prices for fast animals.

In the accomplishment of their desires, the country has been filled with a numberless lot of high-class trotting bred horses that were of no use as trotters, and were thrown upon the market in direct competition with other classes, thereby causing a slump of seventy-five percent in values in the past two years, as the output of the great breeding establishments of our country flooded the market.

The result is a curtailment in breeding, so that in a few years we will have adjusted ourselves to the legitimate demand, and the good prices for the horse will return. The small breeder was the principal sufferer during the 'fad' season, as he hoped to breed and raise a trotter that would be purchased for a small fortune, and to that end neglected other classes of horses for which there was a steady demand.

We must begin anew, and produce a variety of breeds for which there is and always will be a steady demand. We note with satisfaction that the United States Department of Agriculture has taken up the question of horse breeding, and is gathering facts in relation to the foreign export trade. We can raise horses as cheap as cattle, and the latter is being exported in great numbers. Now, then, if we but know the requirements of purchasers abroad and cater thereto, we will create a new demand for this valuable animal, and infuse new life into the industry.

But no hap-hazard methods of making one class answer for another can be employed. The breeds must be distinct and full of quality.

There must be devoted the same attention to improvement as was given the trotter in California, which State ranked as one of the leaders in the production of high-class animals. Azote still holds the gelding record of 2:04½, while Directum (2:05½) is the king of stallions, and both are California bred.

As shown by recent statistics, there are but five States in the Union that have bred three or more 2:10 trotters; California is second in the list, with a credit of thirteen. In the great table of speed producers, the illustrious California sire, Electioneer, shows parentage to the greatest number (forty-two) of 2:20 trotters given the American turf.

In regard to the system of judging live stock the report says: "Since our experiment of 1896, when we obtained the services of Major H. E. Alvord, Chief of the Dairy Division of the United States Department of Agriculture, to judge our milk-breed classes of cattle at the State Fair of that year, we are more than ever convinced that the employment of experts thoroughly familiar with the requirements of prize animals is the proper method of deciding their superiority. The decisions made by Major Alvord were accepted without murmur on the part of the defeated competitors, who bowed to his knowledge and profited thereby.

"We are impressed with the ideas of an Eastern Superintendent of Fairs, recently quoted in some of the agricultural press, that these exhibits should be made an educational study for the breeder, so that he may become enlightened on the necessary points in the different animals that make them superior. There should be a bulletin board in the ring, and oral explanations of why decisions are so made should be given by the judge in concise language, so that exhibitors and spectators may hear and understand the various qualities or defects of the animal judged.

We hope with the opening of our new park grounds, to provide an ample amphitheater with seats for the audience together with all the improved methods bearing upon the judging of all classes of live-stock, to the end that increased interest may be taken in our annual exhibitions, and the decision of our judges add value to the prize-winners.

The movement is now under way to sell the old Agricultural Park at Sacramento, and purchase a new site further out, on which to build a new racetrack and buildings are thus referred to:

Our present park grounds, now situated in the heart of the residence portion of the city of Sacramento have long been inadequate for the uses intended. Located and established more than a third of a century ago, we have outgrown their limited dimensions, and are restrained from extension thereof by reason of city streets and valuable home property adjacent thereto.

The demands made upon us for the accommodation of live stock for exhibit and racing purposes requires us to rent buildings and construct each season about 100 stalls on lots outside the grounds. We are hampered for room for the placing of dairy cattle away from the noise and tumult during the milk tests, as well as for proper buildings for examination of stock. We find that there is no other way to obtain the necessary room than by sale and removal to more extensive grounds.

The State, by general law, has provided for sales of property of this kind and the investment of funds received thereby, which property when acquired, shall be in sole ownership of the State. We are now perfecting our title to this property, with the object of complying with said law. A considerable portion of this land has been acquired by purchase by this board, and are owners in fee thereto. Our title is

given also that the State may acquire a valuable property for the uses of agricultural fairs.

Such imperfections of title as may be are now in process of curing, and we are pleased to say that not one individual or heir who might have had some revisionary interest has refused to deed us their title. We do not anticipate any trouble in perfecting the title and sale of this land as the uses to which we are to put the funds insures to this State the permanent establishment of a modern fair grounds that will be a credit to this commonwealth, and wherein may be shown with pride the achievements of her citizens in the production of high-class stock of all breeds.

With the auxiliary to our present commodious agricultural pavilion, we hope to have quarters of sufficient magnitude for the uses of the California State Agricultural Society for another forty-five years of existence.

E. F. SMITH, Secretary.

C. M. CHASE, President.

## THE WINSHIP STABLE.

The Owner's Reasons Why His Horses Went  
Wrong in the East Last Year.

The well-known correspondent "Yarrum" of the Chicago horse Review, writes the following interesting gossip about about the Winship stable of trotters and pacers that went East last summer.

The proposed invasion of the East by many of the California stables this season recalls to mind a bit of unwritten history that will prove interesting reading to such of the California horsemen as have had no experience campaigning this side of the mountains. At the Denver meeting early in June the past season I saw Mr. Chas. A. Winship's stable of California trotters and pacers open their Eastern campaign by winning six races during the meeting. Among the lot were several very high-class horses that were well entered through the grand circuit. These horses performed with credit to themselves, at St. Joseph, Mo., and Holton, Kan., the two meetings following Denver, and showed conclusively that they could race with the best, but from that time on not a horse in the stable raced as he was capable of racing, and the entire lot lost form to such an extent that they were shipped back to California without completing the campaign.

In a personal letter to me Mr. Winship divulges to me a few facts bearing on that campaign that I took the liberty of quoting: "The Holton rainstorm left my horses standing in water for over ten hours did the trick; not one of those eight well-ordered horses ever recovered until many weeks after our return to the 'land of the living.' So in flesh dejected in spirit, in Peoria they appeared a changed and altered stable; intense humid heat by day and night sapped their remaining vitality. Eight fine, vigorous, young horses thoroughly seasoned for a hard campaign, never before off their feed, all refused to eat and none would lie down at night. This condition of affairs continued until the Columbus meeting found them all thin, weak and tottering, even unfit to jog. You, who had seen them a few weeks previously, would not have known them. There was nothing else to be done, so I paid all my entries at Fort Wayne, Independence, Terre Haute, Lexington and Louisville, and took them home by easy stages by passenger train. We went through, as usual, on the same train. Some of them revived soon, our cool nights and ocean breezes quickly restoring their appetites. Others were very slow to recover. A fine, shady pasture by day, and the best of box stalls and choice California hay every night, finally brought them all around. Ottinger, Agitator, Aster, Gazelle and Lady Waldstein are in the pasture yet. It is at the race track, so I see them every day. They are now all well and sound as colts. It is my intention to campaign a good stable on the coast next season. If I were to go east again, which may be some time, I would ship very early direct to some central point, perhaps Columbus, give my horses their spring preparation there, and begin with the Grand Circuit. It is not the hot days that do the work, nor is it the warm close nights, though that combination is indeed very severe on California stock, our nights being cool always, but horses are tough and can be accustomed to severe strains. But it is jumping from the cool, bracing mountain air of Denver to the hot, sultry, humid weather of the Missouri river section that kills. Horses cannot endure this sudden change. Did any of them stand it? My horses are domiciled in my regular stalls at the track. We are driving them all on the road, single and double as fast as they are taken up. I intend beginning on them all at once. Ottinger and Lady Grace are my old pole team. When I tell you the mare is Ottinger's equal in appearance, style, speed and behavior you will perhaps excuse the boast, if I say no living pair of trotters can beat them, and the beauty of the pair is, they never pull and drive like one. Gazelle, Lady Waldstein and Vernie McGregor are all heavy in foal to Zombro, 2:11. They are due to foal in March, and let the times be ever so dull and prospects for the trotter dim, the man who handles the lines over any of the colts from those three mares shall pay well for the privilege. The mighty Zombro, by the great old race horse McKinney, must prove a sire. He is here now and I still entertain the opinion that he is the equal of any."

If Lady Grace is a mate for Ottinger they must indeed make a great pair. Ottinger can brush as fast as trotters ever go; he is a pure-gaited horse, never makes a break, is not afraid of anything, works equally as well on either side of the pole, and is, withal, one of the most desirable trotters in America for the road.

## Names Claimed.

The following names have been claimed by turfmen now in California for thoroughbred foals of 1896 and the same accepted by The Jockey Club: By T. E. Latta--Ray Hooker, ch c, by El Rio Rey--Ogalena; by James Neil, Wrinkles, b f, by Flambeau--Phoebe Anderson. By Louis H. Ezell, Don't Tell, b f, by Luke Blackburn--Secret; Marco Polo, b c, by Jim Gore--Helene; Practice, blk f, by Burlington--imp. Across the Sea; Leo Vertner, b g, by Leonatus--Rosa Vertner; Espirage, b f, by Inspector B--Sunmaid. By John Harney, Flametia, ch f, by Flambeau--imp. Amalia. By Zeke Abrahams, Miss Fitz, br f, by Fitz James--Alesia.

## Blood Stock Sales in New Zealand.

## WELLINGTON PARK YEARLINGS

AUCKLAND, January 4.

Despite the wet weather there was a very large attendance at the annual sale of the Wellington Park yearlings to-day. Among those around the ringside were Mr. Stead of Christchurch, Mr. Lowry of Napier, Messrs. N. King, F. Watson, J. J. Russell and R. H. Nolan of Thraiki, Hon. H. Mossman, Mr. I. Foulsham (Melbourne), Mr. W. H. Herries, of Te Aroha, and most of the local racing men. Bidding was very slack to begin with, and lot 1, a shapely filly, but standing over at the knees, by Hotchkiss, from the St. Leger mare St. Mary, only reached 20 gs. The popular secretary of the Auckland Racing Club got the second lot, the Maid of Athol filly, very cheaply at 26 gs. A few more lots having been disposed of at small prices Mr. Philson decided to break the order of the catalogue, and called for the Frailty colt. The last of Frailty's produce entered the ring when the rain commenced to descend its hardest. The rain, however, did not damp the spirits of those anxious to procure the near relation to the illustrious Trenton. Mr. Stead commenced the bidding at 500gs, and he ran up rapidly in 50's to 850gs, when the Canterbury sportsman dropped out of the running. Messrs. Lowry and Mossman nodded some time longer, but Mr. J. Rae, acting for Mr. Foulsham, stayed longest and secured the colt at 1,000gs. A handsome colt he is, a loose fellow just at present, but he is sure to make up into a fine horse. He has much of the Trenton character, and it is to be hoped Mr. Foulsham has secured in him another Malua. Several of the choice lot followed the Australian purchase into the ring. No handsomer colt has been raised at Wellington Park than the whole chestnut brother to True Blue. He was keenly competed for, but Mr. Stead was not to be denied and secured him at 775 gs. The Canterbury sportsman also secured the Cissey colt, who started at 500 gs, Mr. Foulsham being one of the last bidders for him. The half-brother to Day Star and Altair is an exceedingly well grown and powerful colt, and many thought him quite the pride of the collection. The brown colt, from Lady Cureton (by Goldsbrough), her first foal, a truly shaped, elegant youngster, who, after some spirited bidding, secured by Mr. Foulsham, who also took the Bianca filly, so he takes back with him to Australia a valuable collection. Mr. Lowry was not to be denied in getting the half-sister to Strathmore, who, at 500 guineas, became his property. He should be well worth all the money given. The last lot put up was the Hilda filly, a half-sister to the Cup winner, Antares. Bidding rapidly mounted up to 400 guineas, and in fact reached 425 guineas, when there was a disputed bid. Mr. Stead at once said he would take the filly at the price, and she was knocked down to him, to the chagrin, it is said, of the disputants. The total of the sale reached 5,072 guineas, or an average of 211½ guineas. The sale was on all sides voted the most successful held for many years. The New Zealand Cup winner, Waiuku was offered, but 600 guineas was the best offered, and as 150 guineas was the owner's reserve, he did not change hands. Details:

## A. B. Spreckels' Mares.

Following is a list of the handsome mares sent Wednesday to Menlo Stock Farm to be bred to St. Carlo. It was Mr. Spreckels' intention to breed some of them to Ormonde, but we believe he will not do so: Headflower, Griseldis, Carnation, Irene E. Victory, Geraldine, Folly, Annie Buckingham, Alma Dale, Pique, Piquante, Therese, Chantreuse, Frisa, imp. Candid and imp. Atosa. These are all due to foal between now and April 10th.

Horse Owners Should Use  
GOMBAULT'S

Caustic  
Balsam

THE GREAT FRENCH VETERINARY REMEDY  
A Safe, Speedy and  
POSITIVE CURE.

Prepared  
exclusively

## SUPERSEDES ALL CAUTERY OR FIRING

Impossible to produce any scar or blemish. The Safest  
and Best BLISTER ever used. Takes the place of all treat-  
ments for mild or severe action. Removes all humors  
or Blemishes from Horses or Cattle.

As a HUMAN REMEDY for Rheumatism,  
Erysipelas, Sore Throat, Etc., it is invaluable.

Every bottle of Caustic Balsam sold is Warranted  
to give satisfaction. Price \$1.50 per bottle. Sold  
by Druggists, or sent by express, charges paid, with full  
directions for its use. Send for descriptive circular.

J. B. LAWRENCE-WILLIAMS CO., Cleveland, O.

THE two-year division of the Horse Review Stakes will be decided at the grand circuit meeting at Fort Wayne next August. The trotters will compete for \$7,500 and the pacers \$2,500.

Twenty-eight colts, two and three year olds by Sidney, have recently been sent to Millard Saunders, Ypsilanti, Mich., by W. J. Hammond of Pontiac, Mich.

THE Central New York Trotting Circuit will be stronger than ever this year. Lyons, Geneva, Binghamton, Elmira, Rome, and other cities will be in line, making a double circuit which will last from June to October.

MR. F. P. KENNEY, for eight years associated with the management of the Kentucky Trotting Horse Breeders' Association, has been elected Secretary of the Louisville Fair and Driving Association. He is courteous, understands the business and will make an excellent Secretary. Mr. George Janderberger resigned in order to give more of his energy and time to his private affairs.

WE understand that the grandly-bred stallion, Dictatus, has been sent to Woodland where he will make the season of 1898. Dictatus is, without a doubt, destined to be one of the greatest sires ever brought to California. His colts and fillies being noted for their size, gait, disposition, and speed. His blood should nick well with the descendants of Waldstein, Alexander Button, etc., that are around Woodland.

LOUIS M. NEWGASS, of the firm of Splan & Newgass, has started a movement in Chicago which would probably result in the organization of a new driving club. The new club proposes to have a track where owners of fast horses may meet and drive, and weekly matinees will be a prominent feature. The interest of the following prominent men has been engaged: Messrs. Arthur Caton, Frank S. Gorton, W. J. Davis, J. A. Murphy, Clarence W. Marks, C. K. G. Billings, C. Fred Kimball, John A. Logan, Jr., and Frank Fowler.

Too much emphasis cannot be laid on the favorable outlook for farmers to breed good horses. While the country is not at present suffering on account of a scarcity of horses, the business is circumscribed, because of the inferior quality. There is no profit in breeding a poor horse of any class, and the laws of heredity are inexorable that to produce a choice animal of any type good sires and dams must be used. Too many farmers have followed the "pennywise and pound foolish" policy of using inferior sires because of low service fee, but absolutely no improvement can be achieved by this method. To use scrub sires and cast-off dams for breeders is a suicidal experiment that only brings disappointment and loss with the business. It is

the good horse that brings the big price, and the low grade animals are a drag in all the markets. It is a good time for the farmer, before the breeding season opens, to examine the stallions in his county and select the nearest ideal animal for use, regardless of the trifling additional cost to breed to the best. In this way he will soon raise horses that will attract buyers to his place, and he will have no difficulty in selling, at an early age, all the horses he can raise.—Drivers' Journal.

## WANTED.

Young man who thoroughly understands the care of harness horses would like position. Was with last employer two years. Will give references. Address, L. Y. BREEDER AND SPORTSMAN Office, 313 Bush Street, San Francisco.

## A. F. ROOKER

GENERAL AUCTIONEER

## "TATTERSALLS"

Salesyards, 721 Howard St.,

### Coming Events.

#### BENCH SHOWS.

Feb. 15.—New England Kennel Club's fourteenth annual show, Boston. James L. Little, Sec'y.

Feb. 21.—Westminster Kennel Club's twenty-second annual show, New York. G. de F. Grant, Sec'y.

March 15.—Northwestern Kennel Club's dog show, St. Paul, Minn. E. D. Brown, Sec'y.

Mar. 31-Apr. 1-3.—Santa Clara Valley Poultry and Kennel Club—California Collie Club bench show at San Jose, Cal.; Chas. R. Harker, Secretary, San Jose, Cal.

May 19-21. San Francisco Kennel Club's bench show, San Francisco. H. H. Carlton, Sec'y.

#### CLUB MEETINGS.

Pointer Club of America's annual meeting, Madison Square Garden, New York, February 21; W. R. Brush, secretary.

National Greyhound Club's annual meeting, Madison Square Garden, New York, February 21; R. F. Little, Jr., secretary.

Collie Club's annual meeting, Madison Square Garden, New York, February 22; J. Watson, secretary.

#### COURSING.

Feb. 12-13—Ingleside Coursing Park. Regular meetings every Saturday and Sunday and holidays.

### Pacific Coast Field Trial Summaries.

#### THE DERBY—FIRST SERIES.

Verona Kennel's black, white and tan English setter bitch Verona Antonia, (Tony Boy—Lady of Verona),

with

Frank Maskey's blue belton English setter bitch Lady Rod's Chaff, (Rod's Chaff—Cressida).

Len D. Owens liver and white pointer dog, Glenbeigh III, (Glenbeigh—Jill),

with

H. W. Keller's black and white English setter dog, Hope T., (Eugene T.—Maiden Mine).

J. E. Lucas' liver and white pointer dog, Alex C., (Glenbeigh—Saddlebags),

with

Dr. C. S. Browning's Irish setter, Teal, (Finglas Jr.—Del Paso Maid).

W. S. Tevis' liver and white pointer dog, Cuba of Ken-

wood, (Glenbeigh Jr.—Stella),

with

W. E. Chute's liver and white pointer bitch Patti Croxteth C., (Upton of Blythe—Cricket of Croxteth).

#### SECOND SERIES.

Lady Rod's Chaff with Alex C., Cuba of Kenwood, a bye.

#### THIRD SERIES.

Alex C., with Cuba of Kenwood.

#### RESULT.

First—Alex C.

Second—Cuba of Kenwood.

Third—Lady Rod's Chaff.

#### THE ALL-AGE—FIRST SERIES.

Wm. Schreiber's lemon and white pointer dog, Bueno (Sankey—Francisca),

with

Webster Jones' white and lemon English setter dog, Count Harold (Harold—Countess Noble).

Captain A. C. Jones' black and white English setter bitch, Donna Alicia (Eugene T.—Beyrl),

with

J. C. Edwards' white and tan English setter dog, Nimrod E., (Sportsman—Stephanie).

Emmett V. Sullivan's black and white English setter dog, Dash Antonio (Antonio—Lady Lucifer),

with

E. B. Davis' black and white English setter dog, Hop, (Hickory Rod—Addie Gladstone).

Verona Kennel's black and white English setter bitch, Gleam's Ruth (Gladstone IV—Gleam's Maid),

with

Cesar Young's black and white English setter dog, Luke (Toledo Blade—Cambriana).

W. S. Tevis' liver and white pointer dog, Cuba of Kenwood (Glenbeigh Jr.—Stella),

with

John Schumacher's black and white English setter dog, Valiente (Eugene T.—Maiden Mine).

John E. Lucas' liver and white pointer dog, Alex C. (Glenbeigh—Saddlebags),

with

Verona Kennel's English setter bitch, Countess K., (Stamboul—Gladys Gladstone).

Verona Kennel's black, white and tan English setter dog, Iroquois Chief (Antonio—Can Can),

with

Emmett V. Sullivan's white and tan English setter bitch, Peach Mark (Mercery—Betsy Mark).

H. Hopkins' black, white and tan English setter bitch,

Sadie Hopkins (Winfield Noble—Lady Hopkins), a bye.

#### SECOND SERIES.

Nimrod E. with Valiente.

Luke with Cuba of Kenwood.

Donna Alicia with Peach Mark.

Dash Antonio with Alex C.

Valiente and Dash Antonio were both disqualified for ranging away during this series.

#### THIRD SERIES.

Alex C. with Nimrod.

Peach Mark with Cuba of Kenwood.

#### RESULT.

First—Peach Mark.

Second—Cuba of Kenwood.

Third—Luke.

### A Ringer at Los Angeles.

In our last issue we advised the Los Angeles leasman that a club organization and proper system of registration, etc., under recognition of the American Coursing Board would be to the positive benefit of the sport in that vicinity. We also called their attention to the fact that dogs were being run under false names. Last Sunday the entry of San Pedro was a case in point, this dog being none other, it is claimed, than the crack, Imported Chit Chat. Suspicion was soon created when the dog was presented at the coursing track and after a little inquiry the facts were ascertained.

### American Kennel Club.

The annual meeting of the American Kennel Club will be held at the Madison Square Garden, New York, on Wednesday, February 23, 1898. Immediately following, the Executive Board, A. K. C., will hold a meeting at the same place and date. The Membership Committee, A. K. C., will hold a meeting at the office of the club on Saturday, February 19, 1898, for the purpose of receiving and acting upon applications for admission to the club and for approving the credentials of delegates, whose names will be submitted to the club at the annual meeting.

## To Be or Not To Be?

EDITOR BREEDER AND SPORTSMAN.—Is there any desire on the part of the Pacific Coast fanciers to break away from the American Kennel Club, and is the American Kennel Club merely a menace to the dog interests of this coast? From certain articles appearing in a contemporary it might seem so. One of the principal cries against the American Kennel Club seems to be (according to your contemporary) "Czarism," "taxation without representation" and sundry other gross injustice.

Now let us see how far those statements apply to the Pacific Coast interests. In the first place, the A. K. C. some years ago, sent their representative out here because we asked some changes in the rules. Finding our desires reasonable, they even went so far as to divide the United States into two show sections in order to abolish the 500 dog and \$500 prize rules. They went further, they gave us the Pacific Advisory Board, composed of one delegate from each club on the coast, and as I believe, their recommendation in every case has been accepted by the A. K. C. Besides this representation, every club on the coast is entitled to a delegate to the A. K. C. itself. This does not look like non-representation. No, fanciers, if you allow any rules to pass the A. K. C. which are not to your liking, blame yourselves, your lack of interest, and nothing else. Every club receives a copy of the American Kennel Club Gazette, and the new rules were published therein a month before they were passed, and every club was given ample opportunity to have the Pacific Advisory Board recommend amendments, and to have instructed its delegates to vote for the same. How many clubs did? I will venture to say, not one. That being the case, take your medicine like men, and do not kick. I don't mind a man kicking when he has something to kick about, and this our friend of Countess Noble fame certainly has. He is disqualified; his winning setters are disqualified, and their pups are disqualified. This means a great deal to him, and the only way he can get around it, is to try and persuade the coast fanciers that the A. K. C. is an undesirable ruling body, get then to cut loose from it, start an organization here, and give him a chance once more to show and sell his dogs.

Is this the milk in the cocoanut? Every sporting organization in the country has a national governing body, and if we do not have the A. K. C. we must have the local head. Do past events in the history of the kennel world of the Pacific Coast give any indication that a local organization could be maintained on any more harmonious lines than the present A. K. C.? I think not. It might be possibly a little cheaper to run our kennel clubs locally, saying this, you have said all. If you have ever bought a dog which was misrepresented to you, or have sold a dog and have not received the money promptly, you will appreciate the powers of the A. K. C. discipline. The purity of kennel matters would certainly never be maintained by any local organization even if such an organization were practicable, which I emphatically deny. Now in regard to these terrible rules that are to destroy all dog shows and the dog interests of the coast. Let us look into them for one moment. They consist of, 1st, the Puppy Class, same as we have always had; 2d, the Novice Class which remains unchanged; 3d Junior Class, corresponding essentially to our Open Class; 4th, Senior Class, a good revision of our Challenge Class; 5th, the Free-for-All Class, which prevents a dog after getting into the Challenge Class, keeping out of the way of better specimens until he has reached the Champion. We have had the Free for All Class right along, only we got a special prize, but the win did not count. Now the win does count.

Rule 6, I must say does appear to be somewhat of a repetition and could well be included in Rule 5. The winner in the Free-for-All must of necessity win in the Winners' Class I may be wrong in my interpretation of this last rule and if so, possibly some of the fanciers who are posted will explain what the difference is between Classes 5 and 6. If I am right, would it be out of place to request the President of the Advisory Board to have his Secretary notify the delegates that there will be a special meeting of the Board say February 21st, and let the notice request every delegate to notify his club that there will be a special meeting of the Advisory Board for the purpose of discussing the new rules and their bearing on local shows. This will give each club ample time to call a special meeting, discuss the matter, and furnish its delegates with instructions as to its ideas and necessities. The delegates could then get together on the 21st of February and in a short time pass such resolutions as the case might demand. After such recommendations as the Board decided upon had been forwarded to the A. K. C., each club could then instruct its Eastern delegate to vote for such amendments to the new rules as had been decided on by the Advisory Board. Now, to start the ball rolling in place of Classes 5 and 6:—How would a class something like this do? Class 5—All shows shall be empowered to provide a winners' class, for dogs which have won the first prizes in said classes, and the winner of four first prizes in such winners' class one of which shall have been won in a class of at least three competitors, will thereby become a champion of record and be so registered by the A. K. C. No class winner can be withdrawn from competition in the winners' class. This will give the smaller shows, who are unable to offer cash prizes, an equal chance with the larger ones and at the same time a champion will win the laurels by competition rather than by winning in a show where cash prizes happen to be offered. For my part I never could see why the amount of money offered by a club in prizes should have any bearing upon the standing or record of a winner. Hoping some of the fanciers on the Coast will give their views of this subject in the near future. I remain respectfully, CANINE.

SAN FRANCISCO, February 9, 1898.

[The Rules Committee of the A. K. C. propose certain changes in Rule 5. The report of the committee appears in the January number of the A. K. C. Gazette, which was received too late for publication in this issue.—Ed.]

## The Greyhound.

In an interesting article in Good Words it is said that at the end of the reign of Henry VI. the "lady prioress" of the Nunery of Sopwell, near St. Albans, was Dame Juliana Berners, described somewhere as a "second Minerva in her

studies and another Diana in her diversions." Let this be as it may, she wrote, among other works, a "Book of Hunting" (better known, perhaps, as the "Boke of St. Alban's"), in doggerel verse, and there is probably no passage in all the literature of the dog more hackneyed than her description of the "Greboun." "But as no article on the breed can be considered 'complete without it' (and as I have actually something quite new to say about it), I give the first six lines out of the twenty.

A greyhound shold be heeded lyke a snake,  
And neckeyd lyke a drake,  
Footed lyke a catte,  
Taylyd lyke a ratte,  
Styled lyke a temer,  
And shynyd lyke a beme.

Now it is a fact, and a very curious one, that out of all the people who have criticised this description, there is not one, as far as I know, who has understood the second line. They nearly all praise the simile (than which none could be worse if "drake" meant "mallard"), which some make bold to suggest that goose or swan would, perhaps, have been better! But Dame Juliana, we may be sure, never suggested that a greyhound should have a roly-poly neck the same size all the way down like a water fowl's. When she wrote "drake" she meant dragon. I doubt, indeed, if the word drake for a heduck was known in the Fifteenth century. And it is certain that Shakespeare a century later never used the word. To say that a greyhound should have the neck of a mallard is ludicrous. To say that it should have the neck of a dragon—a familiar beast enough in the days of Henry VI., but now unfortunately extinct—is to describe it precisely, namely, tapering to the throat and widening to a great depth at the chest. Whether the sporting priores really wrote the lines herself, or was merely quoting current doggerel; who shall say? But in Wynkyn de Worde's 'Treatise on Hawking, Hunting, etc.' published in 1496, very soon after the dame's work, the passage occurs without any acknowledgment of her authorship, and with the (excellent) alteration in the sixth line of reading 'bream' for 'beam.' This looks very much as if the worthy Wynkyn were quoting from memory, and his omission altogether of two lines goes to confirm the idea."

## St. Bernard Club at the Mining Fair.

A novel and striking feature at the Mining Fair now being held at the Mechanic's Pavilion, will be a dog show under the auspices of the St. Bernard Club on Monday and Tuesday next. The club members will have an extemporaneous bench show that will not only reflect credit on the organization but will make an interesting and spirited addition to the many exhibits at this successful exposition. The St. Bernard dog is looked upon as a coming and important factor in the destinies of many a proposed Klondike venture this season, and visitors and the general public will no doubt find the exhibition one well worthy of more than passing attention. Roxie Savage Taylor, Reglov, Jr., Diablo Major McKinley, and all the other well-known cracks will be there. Not the least interesting will be Doris with her litter of ten beautifully marked dog puppies. Spratt's Patent will do the feeding and benching and that means everything in the nature of perfection in this particular line.

## Sacramento Bench Show Notes.

The refusal of the Secretary and Bench Show Committee of the recent show at Sacramento to have a winners' class judged in all the breeds represented, has caused a great deal of comment and several who had dogs at the show that were not judged in the above named class are considering the advisability of appealing to the American Kennel Club, but we are in doubt as to whether the mistake can be remedied, if not, then a positive injury has been done to the owners of those dogs.

The rules are very plain upon this matter and as this Club had stated positively at the end of its premium list that a winners' class would be provided for each breed we are at a loss to understand why it failed to carry out this provision.

## DOINGS IN DOGDOM.

Collies will be a feature in the New York show.

Mrs. Lee of Alta Kennels, has recently lost the smooth coat Rex Watch (imp. Watch—Sunrise.

The arrangements for the San Jose bench show are actively progressing and the outlook for a fine show is more than favorable.

Tom McDonald, of Cronin & McDonald, has a fine blue greyhound pup, about eight months old, by St. Lawrence—Buenretiro that he wishes to sell. The pup is a coming crack.

One of the most famous collies in England, Ormskirk Bluch r, has just arrived at the Rancho Benito kennels of Stewart & Son, and will make his debut at the San Jose Dog Show. Ormskirk Blucher is a direct descendant of the great Ormskirk Emerald, recently sold for \$7,500, and in the opinion of good judges is the best collie ever brought to this State.

Mr. R. Canfield, a prominent lawyer of Santa Barbara, has been on a visit to this city and embraced the opportunity to visit some of our fox terrier kennels, he being a great admirer of the breed. Mr. Canfield has a bitch by Warren Sage, and is negotiating for a young dog from the kennels of the Messrs. Rutherford. He will get one by Claudian or Warren Safeguard.

This winter has been a very severe one upon pups in this city and vicinity. Distemper has carried off a very promising St. Bernard owned by G. A. Mudgett; also a good fox terrier dog pup by Warren Sage—Mission Idol, owned by T. Watson; also the pick of the St. Bernard litter by Champ. Grand Master—Beauty, owned by W. P. Strachan. J. B. Martin has lost by pneumonia one of his Veracity—Jewel pups. Mr. Richard's fox terrier pup by Warren Sage—Stiletto, has also succumbed to distemper.

## McKEESPORT, PA., JANUARY.

H. G. GLOVER, Esq.—Dear Sir:—I have used a great deal of your Mange Cure, and it has never failed in a single case though some of them were very bad. And furthermore, all the cases I have cured none have had the mange since I have had a great many dogs in my hands all my life, and have used many mange cures, and find yours the best I have ever used. I feel it my duty to let the public know that it is a certain cure.

JOHN FAWCETT.

## THE GUN.

## The Game Law.

The open season for shooting quail, doves, deer and wild duck as fixed by the State law is as follows: Doves, 15th July to 15th February. Mountain quail and grouse, 1st September to 15th February. Valley quail, wild duck and rail, 1st October to 1st March. Male deer, 15th July to 15th October.

The clerks of all the Boards of Supervisors have advised us that no changes have been made this year, but the ordinances passed last year hold good if they do not conflict with the State law. The following counties have not passed any ordinances that alter the open season as provided by State law: Amador, Butte, Inyo, Modoc, Mono, Mendocino, Mariposa, Nevada, Napa, Plumas, San Bernardino, San Diego, San Joaquin, Santa Clara, Sacramento, Solano, Sonoma, Santa Cruz, Shastiyon, Tehama, Yolo and Yuba.

The changes are as follows:  
Alpine—Deer, Sept. 2 to Oct. 15.  
Alameda—Rail, Oct. 15 to Feb. 15.  
Colusa—Deer, Aug. 15 to Oct. 15.  
Calaveras—Deer, Sept. 1 to Oct. 15.  
Contra Costa—Deer, July 20 to Sept. 2. (Use of dogs prohibited).  
El Dorado—Doves, July 20 to Feb. 1.  
Fresno—Market hunting and shipping game out of the county prohibited.

Humboldt—Grouse and Wilson snipe, Sept. 1 to Feb. 15. Killing of waterfowl prohibited between one-half hour after sunset and one-half hour before sunrise.

Kern—Shipping game out of the county prohibited.

Lake—Deer, Aug. 1 to Oct. 1.  
Los Angeles—Shipping game to markets outside of the county prohibited.

Marin—Deer, July 15 to Sept. 15.  
Madera—Market hunting prohibited.

Monterey—Deer, July 15th to Sept. 1st.

Orange—Doves, Aug. 1 to Feb. 1. Deer, Aug. 15 to Oct. 1. (Market hunting prohibited).

Riverside—Shipping game out of the county prohibited.

San Benito—Deer, Aug. 1 to Sept. 15. (Market hunting prohibited).

Santa Barbara—Deer, Aug. 1 to Sept. 14. Use of hounds prohibited. (Market hunting prohibited).

San Diego—Shipping quail out of the county prohibited.

San Luis Obispo—Deer, July 15 to Sept. 1. Doves, July 15 to Dec. 1. (Use of hounds prohibited. Hunting for markets situated outside of the county prohibited).

San Mateo—Deer, July 15 to Sept. 1. (Use of dogs prohibited).

Rail, Oct. 15 to Nov. 15. (Shooting from boat at high tide prohibited).

Shasta—Deer, July 15 to Sept. 1.

Sierra—Deer, Sept. 1 to Oct. 15.

Sutter—Deer, Sept. 1 to Oct. 15. Doves, July 15 to Jan. 1.

Trinity—Deer, Sept. 1 to Oct. 15.

Tulare—Deer, Sept. 1 to Oct. 15. Shipping game out of the county prohibited.

Ventura—Deer, July 15 to Sept. 1. (Market hunting prohibited).

## AN ALASKAN MONARCH.

## Spread of the Magnificent Antlers, 73 1 4 Inches.

It is claimed the largest moose head ever taken—one which breaks by two and three-quarters inches the world's record of 5 feet 10 1/2 inches of antler spread—hangs in all the perfection of the taxidermist's art on the wall of C. F. Periolat's fur establishment in the Masonic Temple, Chicago. It was purchased by a Chicago man, who paid some hundreds of dollars for it.

The moose which bore this head proudly over the glaciers and through the primeval forests of Alaska was killed by Kusketan Tyone, an Indian, in the Copper river country in November of 1896. The head was placed for three months in a tree, out of reach of wolves, and was then brought down to Cook's inlet, 300 miles, on a sled. It was shipped to Mr. Periolat by C. D. Ladd (well known to coast sportsmen) a fur trader who has been buying Alaskan skins for the Chicago market for more than ten years. It was in excellent condition when it reached its destination. There was not a hole as large as a pinhead in the heavy hide, and not one of the many points on the antlers had been blunted or broken in transit, although the packers of that section are notoriously careless.

It is difficult to convey in words an idea of the enormous size of the head. It so far transcends any yet taxidermized that comparisons are useless. It weighs now, filled with papier mache, 261 pounds. When worn by the animal it weighed much more than 300 pounds. From the ears to the tip of the nose is not less than thirty inches. The neck looks to be two feet in thickness. The massive horns have a spread of six feet one and one-quarter inches. The "shovels," as the solid spread portions of the horns are technically known, are more than an inch thick.

Moose have been killed whose antlers approached the spread of these, but they all lacked the excessive massiveness that makes of the Periolat pair a wonder and a delight to sportsmen. The head is really worth whatever a collector can afford to pay for it. There is no other like it in the world. Periolat was offered \$300 advance on the purchase price within an hour after the sale was made. It could be sold in New York or Boston for \$1,500 without the least trouble. Put up at auction it would bring probably \$5,000.

Naturalists who have seen it have been lost in admiration and wonder at its proportions. They deduce from the size and graining of the antlers that the animal could not have been less than 150 years old when slain by the cheap rifle of a cheaper native. They estimate that his height could not have been less than ten feet at the shoulder. Mr. Eberhardt, the first superintendent of schools that Chicago ever had and an old pursuer of the moose, says that he has killed them weighing 1,500 pounds, but not one of those which fell to his

gun could have compared in size with the Alaskan monster. He thinks that it must have weighed all of 2,000 pounds.

Professor Wood, a naturalist from Rochester, N. Y., whose reputation is international, spent a rapt hour in contemplation of it. He walked around it and viewed it from all standpoints, felt of the dark shaggy hair that depends from its throat and carefully inspected the horns.

"The animal to which this pair of antlers belonged," he said, "was so tall that he could feed only when kneeling down. You may be certain of that. These horns, when held properly, must have been twelve feet from the ground. What such an animal could be capable of accomplishing if only slightly wounded or if angered in the hunting season I leave you to imagine. I would not like to have been in front of it when it charged. Many men have been killed by an enraged moose, and this fellow in his 150 years of wanderings doubtless had more than one murder on his conscience, supposing him to have had such a thing as a conscience. Every now and then there appears among animals one which by enormously superior size or superior intelligence is a phenomenon. This moose was a phenomenon. Probably there is no one like him in all Alaska to-day. There may never have been one. The possessor of this head is to be congratulated. It makes no difference what he paid for it—he is to be congratulated."

Let in to the base of the panel in which the head is fastened is a photograph of the Indian who shot its owner. He is a very ordinary Indian with an ordinary wife and an ordinary baby, but his name ought to be changed by his tribe to "Man Who Bagged the Boss Moose." That is what he has done. There are sportsmen in these United States who would have cheerfully given thousands to stand in his shoes that cold day in November more than a year ago. The shot and the way in which it was accomplished would have been talked about by his great grandchildren.

It seems the irony of fate that this most magnificent of all his tribe, this king of the snow field and the mountain, this mighty wanderer who sent his proud challenges rolling over glacier and crevasse long before Napoleon the Great was an infant in arms, decades before tea was chucked into Boston harbor, long anterior to the coming of Byron and Scott, before the smoke of a single steamer defiled the air of the ocean, before matches were invented, before men stopped swearing "S'dearth!" and "By'r Lady!" should have been slain by an unwashed, untaught, oily, decayed fish-eating, copper-colored, whiskey-drinking, heathenish, unappreciative, lazy, son of a Siwash, worth not more than 25 cents a dozen and no demand for them at that.

#### Wild Turkeys.

An effort has recently been made to prostrate wild turkeys in Oregon, the following notes may be of interest to our many northern readers, as well as to local sportsmen:

There are few game birds more interesting or that afford better sport than the wild turkey. Indians call them the "wits of the woods." It is the most difficult of game to approach. The most scientific method of killing it is by "calling"—imitating its cry. This is most efficacious in the spring, when the gobblers call to the hen incessantly in the early morning and at intervals all through the day. The sound may be either a love note or challenge to a male. In either case if well done by the hunter it will prove effective in bringing the word near to its hidden foe. The best turkey call is made of the wing bone. Sometimes it consists only of a bit of slate and a smoothed twig. The twig when drawn across the slate gives a wonderful imitation of the bird's "cheep." To call successfully requires long practice. Some men become so expert that they need only a broad leaf held between the thumbs and applied to the lips. The "challenge call" is made in this way.

The gobbler tries hard to prevent the hen nesting. He wants all her time and attention. He must have an audience for his strutting. After many attempts to escape and more than one beating she will suddenly go violently lame, with a broken wing and queer leg. This is a favorite trick with gallinaceous females. The quail does it often to lure marauders from her young. The gobbler has no use at all for a lame wife. After prancing around her for a little while and savagely striking her with his wing he hies himself away into deepest woods, heart-whole and happy.

His patient spouse then makes her nest in peace. Her foes are active and she needs all her wonderful power of secretiveness. Crows and snakes are fond of her eggs. The crow, if he discovers the nest, will wait until the mother vacates it in search of water and food and then carry away the eggs, one at a time. While nesting the hens many times fall victims to foxes, wild cats, leopard cats, lynxes, and coyotes. The brood when hatched must be guarded first of all from the parent gobbler. If he finds it he will decapitate the chicks one after another with his strong beak. This is jealousy. Caught in an open space by a hovering hawk the chicks, at the sound of a peculiar cluck, will stretch themselves upon the ground as if dead, while the mother flees to the undergrowth. The hawk will not eat flesh he thinks is carrion. At a signal from the mother the little ones rise and scamper to her. The hawk is then out of sight.

#### Olympic Gun Club Entertainment.

The entertainment to be held under the auspices of the Olympic Gun Club at Native Sons' Hall, on Monday evening next, promises to be an event that will live long in the memories of the members and friends of this prominent and popular club. Messrs. W. J. Golcher, C. F. Grant and Al Borlini are the committee of arrangements. This is sufficient to guarantee an amusement and social function of the highest order. Those always welcome and unrivalled fun-makers the Olympic Minstrels will give a high-class burnt cork performance and the Western Addition Literary Society will present the dramatic part of the programme. A hop will wind up the evening's fun.

The 1st of March is close at hand, the quail and ducks will be soon left to their own resources and the shot-gun brigade will then turn their attention to the smashing of "mud saucers" so as to keep in practice for the next season's hunting.

#### Who Lost the Carrier?

The owner of a carrier pigeon having on one of its legs a ring inscribed "W 1121," can have the bird by applying at 606 Lombard street. The bird was in that vicinity for several days, being evidently lost or strayed.

#### Empire Gun Club.

The regular monthly meeting of the Empire Gun Club will be held next Tuesday evening, February 15th at Washington Hall, No. 35 Eddy street. A large attendance of members is expected as business of importance will be transacted.

#### Feudner-Stelling Match.

In making arrangements for the match with Stelling, Otto Feudner has allowed the challenger to have his own way in every respect. In getting permission from the Sacramento Supervisors for a shoot inside the city limits to be held at Snowflake Park, where an admission fee will be charged, there seems to be a mercenary spirit pervading the matter which is entirely unwarranted. The Pelican Gun Club have written to Feudner as follows: "The Directors of the Pelican Gun Club are opposed to any shoot where an admission fee is charged and consider it unsportsmanlike. We offer you our grounds gratis and will see that everything is conducted properly." This is as it should be, the Sacramento gentlemen have adopted the correct standard in the matter, we know Feudner is in accord with these views as he will insist on shooting under the American rules and does not propose to lose his standing as an amateur. Side money can be covered to a larger amount by far than any gate would reach.

#### CARTRIDGE AND SHELL.

F. Berges and son bagged twelve ducks at the Point on Sunday.

B. Sherrock bagged an even dozen ducks at Mowry's on Sunday.

The Lincoln Gun Club shoot on the 22d promises to be well attended.

At the Bridges and around Alviso the shooting was somewhat off last Sunday.

H. T. Smith bagged forty ducks on the Olympic Club grounds last Sunday.

Frank Dolliver bagged twenty-five ducks at Point Reyes on Saturday and Sunday.

The special train Saturday evening last took about twenty-five sportsmen to Point Reyes.

C. Cate, R. Wenzell and F. Parks bagged two dozen sprig and teal on Sunday at Mowry's.

A large number of hunters were on the other bay last Sunday. Few good bags were made.

John K. Orr and W. S. Kittle made a fair bag of duck and snipe at the Point last Sunday.

W. E. Murdock tried Sear's Point Saturday and Sunday. He bagged fifty-five teal and spoonbill.

Chas. Young and a friend had fairly good luck with the steelheads Saturday and Sunday at Point Reyes.

P. Souther and friend shot near Newark on Sunday. The bag was thirty-seven ducks and twelve rail.

Frank Vernon and Dr. Payne were duck hunting at Point Reyes Saturday and Sunday. A fair bag was made.

John Benn and Louis Lamon went to Inverness and then to the "sand spit" on Sunday. Benn caught codfish, too.

Ed. Forster and W. Rice their guns on the Black Point hunting grounds last Sunday, and bowled over thirty-six cans; teal and sprig.

J. Shackleton last Sunday proved again that the San Bruno ground is not shot out. His bag was twenty-three teal, sprig and spoonies.

The storm last Saturday at Point Reyes made the creek raise and there was a good cleaning out of weeds, etc. The fishing should be good now.

E. Klevesahl, C. Shaw and C. Carlson made a combined bag of fifty-two teal and sprig, at the Lincoln Shooting ground near Alvarado last Sunday.

Pete McRae, A. Priest, Jim McDonald, Joe Bickerstaff, F. Schultz, and Charley Cook, were at Mt. Eden last Sunday. The weather was too fine for good shooting results and comparatively small bags were made.

The Salinas sportsmen are strongly advocating the appointment of a game warden for Monterey county. This county is one of the few where a game warden has not been appointed, and the fact is now patent that such an officer is strongly needed.

Messrs. Blodget, Reed, Stoner and Lightner, of Bakersfield, killed 286 ducks, down in the Artesian belt Saturday and Sunday. None of the birds were shipped out of the county. Their friends appreciated the skill of the hunters.

John Bergez's dog gave himself an outing last Sunday. He followed Charley Precht down to the boat and afterwards took the train for Point Reyes. He came back to town in good condition and proved to the regulars that he was able to take care of himself.

Chas. Precht was somewhat careless on the marsh at the Point last Sunday. The result was he fell overboard, gun and all. In drying himself at Rochefort's afterwards, the bosom of his pants and the fire had a collision and the textile fabric came out second best. That is the story Bergez's dog brought back.

## ROD.

#### NOTICE TO ANGLERS.

Every angler is invited to drop us a line occasionally, telling us of the condition of the streams they have visited and the killing lure of the number and size of the fish caught, or any other item of interest to anglers.

#### Ask Ananias.

The Copper Kettle Society is making superhuman efforts to educate the angling fraternity [of the "tight little isle"] and also the world at large in the science of handling, in wholesale lots, an ancient commodity known as "veracity." As that most excellent English sporting journal Rod and Gun is sponsor for the organization, the following triangular mosaic designed for the base of the contemplated figure of an oft quoted, and it is admitted, lovely female, who is addicted to the habit of holding aloft a looking glass, may be of some little interest to our local anglers. The vice-chairman of the society is the architect, as follows: "A story told last week reminded me of an incident that happened to myself when salmon fishing on the Spey. I was using a well-known Spey fly called the 'black dog,' and toward evening rose a good fish in a pool near a bend in the river. After running out sixty or seventy yards of line he became stationary. I knew the fish was still on, as he occasionally showed himself and leaped frantically into the air. I saw at once what was wrong—the line had become twisted round a sunken snag, and the salmon, being well hooked and the tackle strong, could not escape. I was in a dilemma, as the water was deep and I could not swim, and bailed with delight the appearance of a shooting friend, accompanied by an old retriever, who was going down to an adjacent loch for a shot at the ducks at flight time. Stating my difficulty, he, being a slow methodical man, first of all proposed a drink [he was all right!] and began to pull out an enormous flask; and this becoming entangled with other things in his pocket, he carelessly laid down his gun on the river bank, so as to be able to use both hands. Just then the salmon again leaped, attracting the attention of the dog, and my friend at once asked what fly I was using. When I told him a 'black dog' he said, 'the matter is easy enough; my dog is a most sociable animal, and will probably attempt at once to make friends with his namesake.' I noticed an intelligent look in the dog's eyes as he crouched close to the gun, and as the fish again jumped we were startled by a loud report, and immediately afterwards the dog swam quietly out to where the fish was last seen, dived, brought up the dead salmon—which had been shot through the head—twisted the gut round his neck and deliberately bit it through and then came to us with the fish in his mouth. My friend took the salmon from him, and the dog then, entering the water again went across to the farther side and retrieved a rabbit which had been killed by the same shot. The owner of the dog said that he had no doubt whatever that the dog saw both the rabbit and the salmon, and had waited until they came in line, enabling him to kill both with a single shot. That dog is not for sale, and it is said that his master asserts, when his tongue wags freely at the club, that Carlo will, whenever the gun is placed on the ground and rabbits are out feeding, take a pot shot at them, and seldom misses. To me the incident appeared most unusual, but if anyone doubts the accuracy of the statement they can be shown the exact spot where it occurred.

#### Fly Casting Club.

Last Tuesday evening the regular meeting of the San Francisco Fly-Casting Club brought forth a large and interested attendance of the members and their friends. After general and routine business had been transacted, the gentlemen present were more than pleasantly entertained by Captain H. C. Benson, whose theme was a descriptive and illustrated lecture on the fish and propagation of fish in the streams of the Yosemite National Park. Captain Benson for several years has been with the Fourth Cavalry, U. S. A., on patrol duty in the Yosemite, and from a sportsman's love of it has taken a prominent part in planting fish in many of the lakes and streams of the park, and his talk was interesting and instructive to anglers who have the time and means to visit that splendid pleasure ground. He told of the great difficulties of transporting the young fish on pack animals over precipitous mountain trails; how the high temperature of the water in places had played havoc with fish, and how after experimenting with indifferent results at last success had attained the efforts of himself and associates. The club now numbers eighty members, and interest in its objects is constantly increasing.

#### Russian River Notes.

The fishing for steelhead in the river has not been overly good for the past week, the bar was closed which made the water high and muddy. A number of anglers went up on the special train last Saturday, their luck was nil on Sunday. Fish Commissioner A. T. Vogelsang was the only successful fisherman on Sunday. John Butler gave it up Friday and went down to Point Reyes. John must have caught cod fish judging from the thirst he had at the Point. John Gallagher gave up the game early this week and is now nursing his job on Oakland wharf again. All indications point to the end of the famous run of steelhead this season, the rod-wielders are now waiting a few weeks for the run of the smaller fish.

#### Salmon Creek.

The bar at Salmon Creek is open, and it is reported that the steelhead fishing is good there at present. Seining for steelhead has been stopped since February 1st. Mrs. Colby has made arrangements to take care of anglers at the Walter Deane country house. Gentlemen who have stopped there are unstinted in praising the good cheer and other comforts.

Al Cumming left for Salmon creek yesterday morning for a few day's fishing.

# ZOMBRO, 2:11, THE GREATEST TROTTER IN AMERICA,

Address,

Has trotted 40 heats in a three-year-old form than 2:27 1-2, 31 in 2:20 or better, and 12 in 2:15 or better. Won 13 races out of 17 starts as a three-year-old, and a total of \$5,400 in his three-year-old form.

ZOMBRO, 2:11 (Registered No. 28,029), brown stallion, foaled in 1892, stands 16 hands high and weighs 1,400 pounds, and is one of the most perfect formed horses in America. His career on the turf in 1895 stamps him as one of the greatest three-year-olds the world has ever seen.

ZOMBRO, 2:11, sired by McKinney, 2:11 1/4, son of Alecy-one, by George Wilkes.

ZOMBRO, 2:11, first dam Whisper, by Almont Lightning, son of Almont 83, dam by Mambrino Pilot 29.

ZOMBRO, 2:11, second dam May Berry, by Kentucky Clay 194, whose dam is also the dam of Mambrino Patchen and Lady Thorne, 2:18 1/4.

ZOMBRO, 2:11, third dam by Edwin Forest 49.

Whisper, the dam of Zombro, was bred and raised by Gen. W. T. Withers, of Lexington, Ky., and is a handsome brown mare, 16 hands high, weighing 1,150 pounds. She has never been beaten in the show ring, always carrying off first prize.

ZOMBRO, 2:11, won the first prize over all three-year-old stallions at the Horse Show in San Francisco in 1895.

This grand stallion will make the SEASON of 1898 at SACRAMENTO RACE TRACK, from FEBRUARY 1st to JULY 1st, 1898. Terms, \$50 cash at the time of service, with usual return privileges.

GEO. T. BECKERS.

## THE THOROUGHbred STALLION TORSO

Will Make the SEASON of 1898 at the Parkview Stock Farm  
(HALF MILE EAST OF SACRAMENTO.)

Chestnut horse, foaled 1886. Bred by Hon. W. L. Scott, Algeria Stud, Pa.

TORSO	Abd-el-Kader.....	Imp. Australian .....	West Australian
	Algerine .....	Rescue .....	Imp. Emilia
	Nina .....	Boston .....	Berthune
	Lord Lyon.....	Imp. Frolicsome Fanny	Alice Carneal
	Imp. Santa Lucia.....	Stockwell .....	Timoleon
	Lady Margarette .....	Paradigm .....	Sister to Tuckahoe
		Honiton .....	Lottery
		Retreat .....	Sister to Catterick
			The Baron
			Pocahontas
			Paragon
			Ellen Horne
			Stockwell
			Flax
			Orlando
			Flight

Torso sired the following winners: Torsina, Joe Roger, Torello, True Love II., Tortosa, Una Que Amo, Torsion, Torsolene, Myrtle H., Tortenson, Sister Ella, Solution, Hearse, Torsida, Sculptor, Torchdance, The Shrew, Vaux, Odds On, Cosina, Caricia, Restless, Our Johnny, Sweet Liberty, Tosa, Finanza (dead) and Merry Lass (dead).

During his two years of turf career, Torso won nearly \$45,000. His full sister, Aurelia, was one of the best mares of her day, winning \$20,385, and her first foal was last season's capital two-year-old performer, Aurelian. Their dam, imp. Santa Lucia, also threw the winners, Tasso and Aureole. She is a daughter of the triple event winner, Lord Lyon, and through him obtains the potent blood of Paradigm, who produced Achievement, and two of whose granddaughters are the dams of Ladas and Glare, two of the best two-year-olds in England in 1892.

Algerine, the sire of Torso, was a superior race horse, winner of the Belmont Stakes, etc., and is by Abd-el-Kader, out of Nina, by Boston. Abd-el-Kader (a full brother to the good four-miler, Abd-el-Koree), although badly hiped, was a fine race horse at all distances. He won a dash of four miles at Saratoga, in 1869, in 7:39 1/4, a very creditable performance. Nina, the dam of Algerine, was one of the best race mares of her day. She was a winner at all distances, from one to four-mile heats, in good time, and produced Planet, one of the best horses in the country at all distances, and a successful sire, also Echequer, Ninette, Ecliptic, etc.

Torso was a brilliant two-year-old. He won the first of the Double Events from a field of nine and also the second Double Event with a five-pound penalty, making his weight 123 pounds. In the Surf Stakes he beat Cayuga, St. James and four others, and in the Flatbush he defeated Reclaire, Onaway, Burlington and three others.

At three years of age he won the Lorillard Stakes, 1 1/4 miles in 2:36 1/4, from Tournament, Banquet, Radisha, Devotee, St. John, Burlington and Protection, a high-class field; was second to Burlington for the Brooklyn Derby, in front of Tournament, Padisha, Lisimov, Kenwood and four others; was second for the Equinoctial Stakes to Reclaire, beating Tournament and others, and carrying nine pounds more than he winner, and was third for the Omnibus Stakes, 1 1/2 miles, carrying a penalty of five pounds.

**TERMS \$50 THE SEASON.**

SEASON CLOSES JUNE 1, 1898. All bills payable not later than that date. Good pastures at \$5 per month.

Address all letters to

**JOHN F. CAVANAUGH,**

602 I STREET, SACRAMENTO

## BOYD'S LIGHT TREAD

## TURF SPRING

This spring is the only device that has ever been invented that will prevent horses from going lame from coming in contact with hard tracks. This spring will not only break the concussion, but it will prevent bowed tendons, corns, quarter cracks and contraction. It will also help a tired horse to finish strong at the wire. The springs can be put on a 4-oz. to a 24-oz. shoe, and are so simple that any country horse shoer can put them on. Full directions given with each set. These springs are guaranteed to take off 450 pounds' concussion, and will save you from \$50 to \$75 per year for leg wash. Mr Boyd is known by all knights of the sulky from the east to the west as an artist at his profession. Apply to

**W. H. BOYD, Salt Lake City, Utah.**

ENTRIES TO ALL THE ABOVE STAKES TO CLOSE FEBRUARY 21ST.

Address entries to

WALTER O. PARMER, SECRETARY, 215 HAMMOND BLDG., DETROIT, MICH.

## THE STANDARD-BRED TROTTING STALLION

**MONTEREY, 2:13 3-4,**

WILL MAKE THE SEASON OF 1898 AT ALAMEDA

(Cor. Arbor St. and Eagle Ave., end of Speed Track.)

MONTEREY, 2:13 3-4	Sidney, 2:19 3-4	Sire of 20 in 2:20 and better and 10 in 2:15 and better. His sons and daughters also breed on.
	Hattie	Dam of Monterey 2:13 3-4 Montana 2:16 3-4 three-year-old record 2:30 winner of the Occident Stake in 7 heats.
	Santa Claus, 2:15	Sire of Claus Forrester 2:11 3-4 Wm. Penn. 2:07 3-4 and 15 others.
	Sweetness, 2:21	Dam of Sidney 2:18 3-4
	Com. Belmont 4840	Sire of Meteor 2:17 3-4 Cora Bell 2:23
	Iago 2:11	Dam of Barona 2:16 3-4 Hattie 2:18 3-4 Montana 2:16 3-4
	Strathmore 402	Sire of Elenor 2:11 and 75 others in the 2:30 list.
	Lady Thorn Jr.	Dam of Navidad 2:22 3-4 Volunteer 55
	St. Julian 2:11 3-4	Sire of Lady Merrit, by Edw. Everett Belmont 64
	Maud S. 2:08 3-4	Sire of Miss Gratz (by Commodore)
	Woodford Mambrino, 2:21	Sire of Abbottsford 2:21 3-4 and 13 others. By Alexander's Norman 25

If Monterey begets colts like himself he will prove to be the poor horse-breeder's friend, for it will cost but little to get them to a race. Monterey had only four and a half months' training prior to starting in his first race, which he won in 2:21, and won his last race in 2:13 3-4, all training and racing inside of five months.

He was injured last season in shoeing. The day before he went an easy mile in 2:11 3-4 in the presence of three thousand people. He seems all right, and I predict Monterey will soon hold the harness record. If he gets the record I expect his colts will be very valuable.

MONTEREY has a bold and square way of going, such as is now in demand for road horses. He is thoroughly game; in fact, I never drove a gamer horse; is level-headed; legs as clean as a yearling's, and has the strongest foot lever saw on a horse. He is a chestnut, 15.3 in height, and weighs 1,200 pounds. Come and see him.

**TERMS, \$50, With Usual Return Privileges.**

SEASON CLOSES JUNE 1, 1898. All bills payable not later than that date. Address all letters to

## DIRECTUM!

### The Trotting King! A Sketch of What He Has Accomplished.

It is the good fortune of the horse-breeding interests of the Pacific Coast to have DIRECTUM, the trotting king of ALL stallions and the racing king of ALL harness horses, back at his old home again for the season of 1898. For five years this black whirlwind of the track has worn the stallion crown; won it as a four-year-old. As a race horse he was unapproached and unapproachable. All horsemen will remember his great race as a three-year old at Nashville in the presence of 15,000 in 1892. Kentucky Union, the great daughter of Aberdeen and the "pride of Kentucky," had been unbeatable through the whole season, and the people who swear by "old Kaintuck and my kin folks" never dreamed that she could have been beaten by any three-year-old that wore iron.

Directum had just rounded into form when the word "Go!" was given, the "black rascal," as Salisbury called him, shot to the front from the outside and went with Kentucky's favorite to the quarter pole in 32½ seconds, a terrific clip from the extreme outside to the half they went lapped in 1:04½. Around the upper turn the speedy mare clung to him, but fast as she was, and with all the gameness inherited from that great mare, old Widow Machree, the dam of Aberdeen, she had found a speedier and gamier antagonist in the "black rascal," and at the head of the stretch she made a heart-broken break and gave it up.

After the first heat Directum had it all his own way, as all the other youngsters were simply killed. In the third heat he was sent along alone and he finished in the then unequalled race time for three-year-olds of 2:11½. This was the greatest three-year-old race ever won up to that time and placed Directum at the head of all trotting three-year-olds, without a competitor. It proved that he had more speed and more gameness than any horse ever foaled.

In his four-year-old form Directum trotted in the all aged classes through the grand circuit without meeting one that could extend him through a full mile. This was made apparent at Old Fleetwood when in the free-for-all he met and beat to a stand still the best of the trotters one after another in each heat. It had been arranged that a fresh horse should rate him a heat and carry him as fast as possible and thereby it was hoped to kill him off. He was carried to the half down the hill at a killing rate, close up to a two minute gait, but when it came to the hill in the third quarter the little fellow broke all their hearts and made them stop. Doble, who was in the combine watching the effort to kill off the "black rascal," timed him up the hill. After he had been carried to the half in 1:00½, and when he made that killing quarter in 32 seconds he said "he is unbeatable by God!" and so he was. At Lexington, Ky., that year in the free-for-all he came to the post tuned up for only one fast mile. He won the first heat, but in the second Pixley beat him, and owing to his want of condition it looked as if the "black rascal" was gone and his friends, especially those from California, rushed to the books and pool boxes to hedge, and hedge they did, but they did not know the wonderful recuperative powers and the indomitable will and courage of Directum, for he came out and trotted that great race mare to a stand still in the next two heats.

This was Directum's year. It was at the end of the season that he was matched against the cream of the pacing brigade and beat them away off. At the end of his four-year old season Directum could have beaten any horse at any gait that wore harness. He had more speed than any of them and could carry that extreme speed farther than all of them. George Starr, that incomparable trainer and fitter, trained and drove him in some of his races knew, and he him well. Speaking to Starr about Directum's ability to carry his brushes so far, Starr said: "I don't know about how far he can carry his brush, I don't know as I ever saw him brush, for when he was going at a two-minute gait if I called upon him he could go right away still faster!" Alix has the fastest heat record to her credit but Pamlico trotted her to death in two heats at Buffalo and only the kindness of the judges in putting the time forward an hour saved her. Directum, in condition, could trot over the top of Pamlico, and

with him until the following September and was about to give him up, when, one day, as he was driving him on the road, the colt became frightened at a band of sheep in a field close by, and started, and Alviso says trotted faster than any horse he ever rode behind. He took him on the track the next day and gave him a good drilling, and after that he continued to improve. When Mr. Salisbury returned from his Eastern campaign that fall he saw Mr. Alviso driving "Greeny," as he was then called, and asked how he was doing. Alviso replied that he was the "boss," "the coming horse," "and that he could beat them all." Salisbury laughed at him and said he was joking. Alviso told him to get in and drive him around the track once. After much persuasion he did so. When he got out of the cart Alviso asked him how he was. "Pretty fair, pretty fair." He immediately went and saw the owner and leased him for the following year and immediately put him

in training that winter and spring, and in July shipped him over East with the balance of his horses; the balance you know. His owner was often asked to put a price on him, but he never would. He always said he wanted a fast horse and thought that he now had one. When he returned to Pleasanton in the fall of 1893 he was met at the depot by a large crowd of people from the surrounding towns and country; also delegates from San Francisco and Oakland, headed by the Livermore Brass Band, was taken off the cars to the tune of, "See, the Conquering Hero Comes," and a wreath of laurels placed around his neck and was paraded through the streets at the head of a large procession, as every one felt proud of "their horse."

Directum started in eleven races in 1892, as a three-year-old, winning nine firsts and one third moneys, and was distanced once, by twisting a shoe and being pulled up, at Terra Haute, getting a record of 2:11½, in the third heat of a race at Nashville, Oct. 18, 1892. In 1893, as a four-year-old, he started in four races, free-for-alls, won every race, and got a record of 2:05½, at Nashville, Oct. 18, 1893. Started against time five times, getting a mark of 2:06½, at Chicago, Sept. 15, 1893; also beat Mascot (p), 2:04, a match race in straight heats, at New York Nov. 7—best time, 2:08, and beat Saladin (p), at Philadelphia, Nov. 27—best time, 2:10½, winning second, third and fourth heats. As a four-year-old he won all his races, losing but four heats, two to Walter E. and one to Saladin, making an average of 2:09 9-10 for 26 heats in

speed him and outstay him. The following is a summary of the performances of The Black King, Directum, 2:05½, was foaled in April, 1889, on the Amador Rancho, at Dublin, Alameda county, California. He is by Director, 2:17, by Dictator, dam Stemwinder, 2:30½, by Venture, by Belmont; second dam Kate, by Roodhouse's St. Lawrence, 2:32½; third dam Quien Sabe, by Belmont; fourth dam, Polly, by Duroc. His third and fourth dams were thoroughbred. Venture was a thoroughbred, with a trotting mark of 2:27. He was bred and owned by John Green, lately deceased. As a yearling he was broken to harness and handled for five weeks and then turned out; was taken up and stabled in the winter, and the following April, 1891, was sent to Monroe Salisbury to handle. Salisbury, after having him two months advised his owner to take him home and have him castrated and make a buggy or plow horse out of him, as he was no good and never would make a trotter. His owner thought different and placed him in J. M. Alviso's care, who was handling some colts for Mr. Salisbury, at Pleasanton, California. Alviso worked

with him until the following September and was about to give him up, when, one day, as he was driving him on the road, the colt became frightened at a band of sheep in a field close by, and started, and Alviso says trotted faster than any horse he ever rode behind. He took him on the track the next day and gave him a good drilling, and after that he continued to improve. When Mr. Salisbury returned from his Eastern campaign that fall he saw Mr. Alviso driving "Greeny," as he was then called, and asked how he was doing. Alviso replied that he was the "boss," "the coming horse," "and that he could beat them all." Salisbury laughed at him and said he was joking. Alviso told him to get in and drive him around the track once. After much persuasion he did so. When he got out of the cart Alviso asked him how he was. "Pretty fair, pretty fair." He immediately went and saw the owner and leased him for the following year and immediately put him

Following is a list of mares bred to Directum at Lexington, Ky:  
Ethelwyn, 2:33½, by Harold (413)—by Pilot Jr. (12).  
Impetuous, 2:13, by Dictator—Ethelwyn, by Harold.  
Shimmer, by Dictator—Gossamer, by Princepo (556).  
Sainovar, 2:28½, by King Rene (1276)—Carrie, 2:24½, by Volunteer (55)

**DIRECTUM, 2:05 1-4.**

THE CHAMPION TROTTING STALLION OF THE WORLD.

Hazel, by Hambletonian Prince—Noxie, by Daniel Lambert.  
Fancy, by Favor Wilkes—by Mambrino Patchen.  
Ole Moore, by Onward (1411)—Nellie Time, by Mambrino Time.  
Cicely, by Mansfield, 2:26 (1350)—by Hambletonian (10).

Mary L., by Red Wilkes—by Sultan.  
Valley Wilkes, by Wilkes Boy—by Geo. Wilkes.  
Servia, by Alcyon, 2:27 (732)—by Alexander's Abdallah (15).  
Sister Red, by Red Wilkes, dam not given.  
Fedora, by Newcom, son of Nutwood—by Orphan Boy.  
Pearl McGregor, by Robert McGregor, dam not given.  
Virgie Wilkes, by Geo. Wilkes—by American Clay.  
Twinkle, by Dictator—by Geo. Wilkes.  
Miss Allen, by Clay—by Red Wilkes.  
Ina Wilkes, by Red Wilkes—by Bushwhacker.  
Fuga, by Geo. Wilkes—by Clark Chief (89).

Mares bred to Dictum at Detroit:

Marie, by Nugget—by Cuyler.  
May Day, 2:18½, by Abdallah Mambrino—by Messenger Chief.  
Viola, by Carver, son of Onward—by Western Fearnot.  
Bon Bon, by Bayard, son of Pilot, Jr.—by Edwin Forrest.  
Carrie Blackwood, by Blue Bull, dam not given. She is the dam of Atlantic King, 2:09½; Major Centhrie, 2:10; Mary Centhrie, 2:12; Carrie Strathmore, 2:18½.  
Mary Centhrie, 2:12, breeding not given.  
Lu Wilkes, by Coronet (1035)—by Mambrino Patchen (58).  
Jenny West, by Allie West (225)—by American Clay.  
Regale, by Strathmore (404)—by Mambrino Patchen.  
Pearl Wilkes, by Bonnie Wilkes, son of Geo. Wilkes—by Beverly's Abdallah.  
Daisy Cuyler, by Cuyler (100)—by Mambrino Champton.  
Lulu, by Axtell—Daisy Cuyler, by Cuyler (100).  
Content, by Onward—by Challenger.  
Tootsie A., by Javan (5157)—by Wm. Reynolds (2509).  
Adelle, by Brown Wilkes, son of Geo. Wilkes—by Wedgewood.  
Celia V., by Hambletonian Wilkes, son of Geo. Wilkes—by Marker (591).  
Matt, 2:30, by Louis Napoleon, son of Volunteer—by Waseman Chief.

The breeding of Dictum is as good as his performance. He is the brightest star in the Dexter-Dictator constellation and that is the highest praise, as the Dictator family has furnished the cream of harness horses. Dictum was the "Racing King of his Time." Phallas and Jay-Eye-See held the world's record, Nancy Hanks was the "Trotting Queen" for years. Dictum was the harness champion and so was Dictum, and he still holds the world's record. The Dictators are also campaigners and money-winners and that is what all breeders are after.

Dictum is distinctively a Dictator and he is backed up by the stoutest blood on his dam's side. Stemwinder, his dam, was by Venture, a thoroughbred trotter, and she was a trotter, and in competent hands could have been low in the teens. She is a great broodmare and threw speed from three different sires. The second dam was by a half-bred son of old St. Lawrence, a sure enough trotter in his time, and his third dam was by Langford, a four-mile son of Williamson's Belmont. These two crosses of stout old Belmont explain how Dictum made Kentucky Union stop in the third heat of their race, and how he could kill his fresh opponent on the hill at Fleetwood. That he will be a great sire is sure. Such will, resolution and courage will enable him to inspire his progeny with the same high qualities. It is too early to speak of what his produce have done. Here in California only one of his get have been given a show, and that one has been pronounced by Salisbury as "the best one he ever saw, and that he would rather own her sire than any other horse in the world."

Dictum has been in the stud in Kentucky one season one season in Michigan, and during that time he has been mated with the best blooded and best producing mares of those sections. His produce there will be in competent hands and will show his high quality as a sire of speed and gameness, and they will advertise his get or give them a reputation which will make them sought after and valuable. This holder of nearly all trotting records and certainly the best trotting race horse ever seen in America, should get the best mares of the Pacific Coast. He was the undoubted champion of his time—his produce will as certainly be the champions of their times.

### Oakland Races.

WEDNESDAY, FEBRUARY 9.

First race, three furlongs, maiden two year-olds, purse \$300. Clarendo (Clawson, 105) first, easily by two lengths; San Augustine (C. Sloan, 118) second by a nose; Malay (Thorpe, 108) third. Vioris, Villmar, Prince Will and Ellen Wood finished as named. Wrinkles pulled up and Complimentary was left. Time, 0:37½.

Second race, seven furlongs, selling, three-year-olds, purse \$350. Estro (Spencer, 112) first, easily by four lengths; Elidad (Tuberville, 112) second by two and one-half lengths; Mistletoe (Thorpe, 112) third. Rio Frio, Bow and Arrow, Musculado, Brambella, Socialist, El Moro, Kaiserin, Miss Alice, Searchlight and Irrigator finished in the order named. Time, 1:32.

Third race, one and a sixteenth miles, selling, three-year-olds and upward, purse \$400. Palomacita (Thorpe, 105) first, driving by three-quarters of a length; Roche (Clawson, 110) second by three-quarters of a length; Rey del Tierra (Gray, 105) third. Serena, Flandes, Don Daniel, Bobolink and Little Chris also ran. Time, 1:15½.

Fourth race, one and one eighth miles, all ages, the Emeryville Handicap, purse, \$1,250. Buck Massie (Conley, 115) first, easily by one and one-half lengths; Eddie Jones (Thorpe, 104) second by a nose; Los Prietos (Gray, 97) third. Flashlight also ran. Time, 1:56½.

Fifth race, one mile, selling, three-year-olds and upward, purse \$400. Morinel (McNichols, 85) first, driving by a nose; Dr. Bernays (Woods, 85) second, by six lengths; Gonito (Gray, 93) third. Dolore, The Dipper and Gotobed finished as named. Outright pulled up and Greenleaf was left. Time, 1:43.

Sixth race, six furlongs, three-year-olds and upward, purse \$350. Fortunate (Conley, 104) first ridden out by three-quarters of a length; Lost Girl (Clawson, 99) second, by two and one-half lengths; Major Cook (Spencer, 104) third. Spry Lark, Highland Ball, I Don't Know, Charlotte M., Diabla, Hermoso, Robbins, Emma D. and February finished in the order named. Time, 1:15.

THURSDAY, FEBRUARY 10.

First race, seven furlongs, selling, three year-olds and upward, purse \$300. La Mascotta (McDonald, 105) first, handily by one length; Moringa (Davis, 94) second by two lengths; Eroica (O'Connor, 90) third. Draught, Agnes Tobin, Rockefeller, Oahu, Himeria, St. Aigoon, Mrs. Shade, Sylvester, Santa Catarina, Defiant, La Fontera and Milesio finished in the order named. Time, 1:30.

Second race, three furlongs, two-year-old colts and geldings, purse \$350. Sainly (Clawson, 113) first, easily by one-half length; Gold Scratch (Thorpe, 113) second by four lengths; Anchored (Gray, 106) third. Master Buck, Rey Hooker, Magno and Irlandais finished as named. Time, 0:37.

Third race, one and one-eighth miles, selling, four-year-olds and upward, purse \$400. Coda (H. Brown, 100) first, driving by a nose; Heidelberg (Wainwright, 95) second by a neck; Walter J. (McDonald, 104) third. Pleasanton, Sardon, Widow Jones, Miss Ruth, George Palmer and Fred Gardner also ran. Time, 1:59.

Fourth race, one and one sixteenth miles, free handicap, three-year-olds and upward, purse \$500. Marplot (J. Woods, 85) first, easily by two lengths; Morellito (Thorpe, 107) second by two lengths; Lincoln II (Clawson, 105) third. Myth, Garland Barr and Thelma finished in the order named. Time, 1:48.

Fifth race, one and an eighth miles, selling, four-year-olds and upward, purse \$400. Our Climate (Conley, 109) first, driving by two and one-half lengths; Wawona (T. Sloan, 105) second by three lengths; Mamie Scott (O'Connor, 103) third. Sly, Hazard, Adam Andrew and Paul Pry finished as named. Time, 1:56.

Sixth race, six furlongs, three-year-old and upward, purse \$400. Libertine (Conley, 105) first, driving by three-quarters of a length; May W. (T. Sloan, 104) second by two lengths; Tea Rose III (Clawson, 99) third. Montgomery, Olive and Blarney Stone finished in the order named. Peixotto was left. Time, 1:14½.

FRIDAY, FEBRUARY 11.

First race, six furlongs, selling, four-year-olds and upward, purse \$300. Sea Spray (Conley, 107) first, easily by two lengths; McFarlane (McNichols, 107) second, by a head; Blue Bell (E. Jones, 105) third. Charles A., Mahogany, Stentor, Florimel, Lillian M., Charmion, Pollock, Don Gara Durward, Diabla and Heritage finished in the order named. Metaire was left. Time, 1:15½.

Second race, three and a half furlongs, selling, two-year-olds, purse \$350. Humidity (Thorpe, 106) first, easily by two and one-half lengths; Royal Fan (Gray, 93) second, by three and one-half lengths; Amoltepec (O'Connor, 98) third. Master Buck, Semicolon, Wrinkles, Ranier, La Candisa, Stone J. L. and Toluca finished as named. Time, 0:42½.

Third race, six furlongs, three-year-olds, purse \$350. Midian (E. Jones, 110) first, easily by one and one-half lengths; Yule (Spencer, 103) second, by one-half length; Woodford filly (Clayton, 105) third. Socialist, Duke of York II and Glen Ann also ran. Time, 1:14½.

Fourth race, one and a sixteenth miles, selling, three-year-old and upward, purse \$400. Serena (Gray, 91) first, driving by a neck; Roche (Clawson, 99) second by one and one-half lengths; Highland Ball (Holmes, 87) third. Argentina, Palomacita, Mamie G. Alvin E. and Lorena II. finished as named. Time, 1:48.

Fifth race, six furlongs, selling, four-year-olds and upward, purse \$400. Refugee (H. Brown, 113) first, easily by two lengths; Lucky Star (McNichols, 104) second by a nose; Midas (Tuberville, 110) third. Sir Richard, Satyr, Pat Murphy, Amelia Fonso, Plumeria, May R. and Spry Lark finished in the order named. Time, 1:15.

Sixth race, six furlongs, selling, three-year-olds, purse \$350. Melvin Burnham (Conley, 105) first, driving by three quarters of a length; Ravalette (Devin, 105) second by one length; Flandes (E. Jones, 105) third. Little T. G., Lee Kyo, Ludomonus, Scintillate, Midrica, P. A. Finnegan, Kummel, Contado, Forest Guard and Eppinger finished in the order named. Time, 1:15½.

SATURDAY, FEBRUARY 12.

First race, six furlongs, selling, three-year-olds, purse \$300. Morinel (Spencer, 105) first, gamely by one-half length; Good Friend (Conley, 105) second by two lengths; Blarney Stone (H. Martin, 112) third. Valenciennne, Chihuahua, Dr. Bernays, Bow and Arrow, Watomba, Abina, Catawba, Miss Remsen, Royal Prize, Kaiserin and Ideal finished in the order named. Time, 1:14½.

Second race, three and one-half furlongs, two-year-olds, purse \$350. Sainly (Clawson, 110) first, easily at the end of two lengths; Buena Ventura (Conley, 107) second by eight lengths; Foxey (O'Connor, 107) third. Odd Eyes, Rey Hooker, Ellen Wood and Magdalenes finished as named. Time, 0:42.

Third race, six and one-half furlongs, three-year-old fillies, the Flirtation Stake, value \$1,000. Napamox (Thorpe, 109) first, driving by one length; Torsida (Conley, 112) second by one length; St. Calatine (T. Sloan, 107) third. Allie Bell also ran. Time, 1:21.

Fourth race, one and one-sixteenth miles, all ages, the Gunst Stake, value \$1,250. Fleur de Lis (T. Sloan, 109) first, easily by one-half length; Traverser (Clawson, 94) second by three and one-half lengths; Ostler Joe (Tuberville, 112) third. Libertine also ran. Time, 1:46½.

Fifth race, two miles, selling, three-year-olds and upward, purse \$500. Judge Danny (Thorpe, 105) first, ridden out by three lengths; Marplot (Woods, 83) second by thirty lengths; Collins (E. Jones, 112) third. Dick Behan also ran. Time, 1:04.

Sixth race, one mile, three-year-olds and upward, purse \$400. Paul Griggs (Dorsey, 101) first, driving by one length; Lincoln II. (T. Sloan, 101) second by one-half length; Los Prietos (Gray, 90) third. Flashlight, Prince Tyrant, Draught and Little Chris finished in the order named. Time, 1:41.

MONDAY, FEBRUARY 14.

First race, six furlongs, three-year-olds, purse \$300. Hurly Burly (Thorpe, 103) first, driving by three-quarters of a length; Woodford filly (Clayton, 107) second by four lengths Yule (Conley, 105) third. Ravalette, The Ace, Glen Ann and Joe Levy finished in the order named. Eppinger was left.

Second race, three and a half furlongs, selling, two year-olds, purse \$350. Amoltepec (Conley, 107) first, driving by two and one-half lengths; Clarendo (Clawson, 107) second, by a neck; Vioris (Mathews, 109) third. Buena Ventura, Owyhee, Master Buck, Magno and Loyalie finished in the order named. Time, 0:42½.

Third race, six furlongs, selling, three-year-olds, purse \$350. Dr. Marks (H. Martin, 104) first, driving by a nose; Abina (E. Jones, 102) second, by two lengths; Town Topics (Conley, 105) third. Valenciennne, Estro, Al Koran, Bow and Arrow, Novia, Watomba, El Moro, Lee Kyo, Magnus and Brambella finished as named. Time, 1:14½.

Fourth race, one mile, Free Handicap, three-year-olds and upward, purse \$500. Flashlight (Tuberville, 105) first, driving by a nose; Paul Griggs (Dorsey, 105) second by four lengths; Lincoln II. (Thorpe, 104) third. Argentina, Highland Ball, May W., Imperious and Scarborough also ran. Time, 1:40.

Fifth race, one and a sixteenth mile, selling, three year-olds and upward, purse \$400. Treachery (H. Martin, 104) first, driving by a nose; Dr. Bernays (J. Woods, 83) second by two lengths; Wawona (Thorpe, 103) third. Mercutio, Metaire, imp, Devil's Dream, Serena, Adam Andrew and Pleasanton finished in the order named. Time, 1:47½.

Sixth race, seven furlongs, selling, four-year-olds and upward, purse \$400. Roche (Clawson, 110) first, driving by one and one-half lengths; Myth (Clayton, 110) second by one and one-half lengths; Montallade (Conley, 107) third. Kamsin, Judge Ssoulfer, Newgatherer and Lost Girl also ran. Time, 1:27½.

### Prodigal, Most Wonderful of Racers.

Readers may remember that some time since, when we were discussing the ages at which horses have won races, some one sent me an account of a horse named Prodigal, who kept on winning for a phenomenal period. Some one else then wrote to me to declare that my original correspondent was wrong, and there was a merry little controversy. It would be waste of time to republish the statement and contradiction; but it happened that the Notes on the subject were read by Commander Cummings of H. M. S. Dreadnought; when a midshipman in Australia twenty years ago, the Commander often rode Prodigal himself; three years since he visited the good old horse's grave, and he has very kindly indeed taken the trouble to write to Prodigal's late owner, Mr. J. T. C. Ranken, to ask for information. He is good enough to send me the reply. Mr. Ranken, who usually finds himself in paragraphs referring to the horse described as "the late," denies being dead, and says that most of the references to his horse are as incorrect as the allegation that he himself does not still exist. Here we have an authentic record, and the subject is of quite sufficient interest to be revived, for it is an amazing thing that a horse of all work, as Prodigal most undoubtedly was—Commander Cumming's own personal testimony comes in here if it be needed—should have been put into training and should have not only run against, but won from, well-known thoroughbred horses when he was twenty-two years of age!

I take this to be a record. Prodigal, for so many years the property of Mr. J. T. C. Ranken, "a gentleman well known throughout the length and breadth of Central Queensland," whose letter is before me as I write, was by an Arab sire called Beeza; his mother was an Antelope mare, daughter of the imported boase, Sir John. After the horse came into the possession of Mr. Ranken he was used for almost every purpose (except harness), from a lady's hackney to a pack-horse. At the local unadvertised race meetings in the "back blocks" of the Mitchell District, Prodigal was a terror, beating all sorts and conditions of horses, trained or untrained, scoring more wins than can be remembered. When old Prodigal had reached the ripe age of twenty-two years he was taken by his owner to Goulburn, in New South Wales, driving store bullocks, and in 1872 made his debut as a trained racer, winning the Tirranna Picnic Cup and Bachelor's Bag in an easy manner. At Goulburn, soon after, he won the Maiden Plate, defeating the celebrated horse Dagworth, and also Clansman. Of Dagworth's merit there can, I believe, be no doubt. Prodigal continued on the turf till 1876, when he was twenty-six years of age, and was pensioned off. He died at Mr. Ranken's father's place, Lockyersleigh, on the 3d of April, 1880, at the advanced age of thirty years. Many good offers were refused for this wonderful horse, but Mr. Ranken would never part with his equine friend. Prodigal was never "physicked" during his training, his owner being rigidly opposed to such treatment, and to this cause he attributes, in a great measure, the horse's wonderful stamina at such a time of life. Prodigal was trained on the principle of plenty of work and plenty of feed. The following is a list of Prodigal's performances in New South Wales, starting, as already stated, in 1872, when he was twenty-two years old: Won Tirranna Cup and Bachelor's Bag; won Goulburn Maiden Plate and County Handicap; won Autumn Stakes and Forced Handicap at A. J. C. Autumn Meeting, at Randwick. 1873—Won Tirranna Cup and Bachelor's Bag; won Goulburn County Handicap; won Berrima All-aged Stakes and Town Plate; won Yass Publican's Purse and J. C. Handicap. 1874—Won Tirranna Cup. 1875—Won Tirranna Cup and Bachelor's Bag 1876—Beaten at Tirranna and Goulburn and retired to a well-earned rest. Thus we have a record of Prodigal, winner no fewer than sixteen important races after he had passed the great age of twenty-two years. It only remains to add that Mr. Ranken continues to cherish the memory of his famous steed with all the ardor of the true sportsman.—From an article printed in the BREEDER AND SPORTSMAN in 1892.

### The Great Four-Mile Race.

The four-mile race announced to take place at Oakland to-morrow promises to be the most exciting contest of horseflesh that has ever taken place on the Pacific Coast. The great four-mile race which took place at the old Ocean House track in 1873, between Thad Stevens, True Blue, Joe Daniels and Mamie Hall, on which over \$2,000,000 changed hands in this city alone, and which was witnessed by 26,000 people, promises to be equalled both in interest and point of attendance. That race, as it will be remembered by old horsemen, was for a purse of \$20,000, and was won by Thad Stevens, the California horse. He was the first California, bred horse to achieve an international reputation. In that contest he met the best long-distance horses in the world.

[If brute strength instead of intelligence is to be the qualification of police officers, as was evidenced yesterday by the arrest of one of the best known publishers in the city for simply standing in front of his own building, we would advise the commissioners to take advantage of the depressed condition of the mule market and stock up with that kind of material. The only objection that might be offered to this is the present high price of hay, but this might be overcome by feeding them on the "left over" racing editions of the evening papers. Such stupidity as that displayed in this case should be rewarded by at least a six months' rest in an alfalfa field.]

## SPECIAL DEPARTMENT

EDITED AND CONDUCTED SOLELY BY

JOSEPH CAIRN SIMPSON.

**A SOLID OBJECTION.**—Conversing a few days ago with a gentleman who, it is safe to say, has had a longer experience and been more prominent in the racing world for the past thirty-five years than any other person still actively engaged in racing, he objected strongly to the demand of the jockey clubs that the jockeys must be named by 10 A. M. of the day on which they were to ride. That this mandate, he argued, gave the opportunity to corrupt the jockeys, and if the employer had even a fair share of confidence in the integrity of the jockey selected, so long as they were subjected to temptation there would be uneasiness, and if the riding was at all suspicious almost a certainty of wrong-doing. If the first public announcement were delayed until the names appeared on the annunciator these misgivings would be allayed, if not entirely overcome.

This conversation was not suggested by any allusion to "down-town pool-rooms," or reference to that or cognate subjects, Mr. W.—introducing the topic and treating it entirely from the point of view of an owner. There is still another argument in favor of extending the time for naming jockeys from 11 A. M. to 1 P. M., that being three hours longer to make selections for those who have to employ them on short notice. It might be that there are good reasons for preferring another to the one first chosen, and with additional time to fix upon a choice a far more satisfactory arrangement the result. Few owners who would not prefer the proposed extension of time, probably not one, as there cannot be any advantage to them in being forced to name their jockeys four hours before the first race of the day is called. The bookmakers should not object, as there will be ample time for them to commence operations after the hour mentioned, 1 P. M., with sufficient allowance to place the names on the annunciator.

As the jockey clubs are not benefited and, it may be, positively injured by the publication of the names of the jockeys and the "scratches" in San Francisco and Oakland some two hours before the races commence, and, consequently, that intelligence conveyed to the pool-rooms, compliance with the wishes of owners will be advantageous to the clubs.

The change may be distasteful to jockeys who are not averse to being bought, to the papers which publish and the pool-rooms that thrive from obtaining the information so cheaply, though with such a preponderance of interests that will be benefited by the suppression of that intelligence over the few who gain by its promulgation, the change should be made.

\* \* \*

**TWO GRAND COLTS.**—While the second place was the best that Traverser and Marplot could obtain in the races on last Saturday, when all the circumstances are taken into consideration it can safely be said that never before has the performance been equaled by three-year-olds so early in the season. In six weeks after they ranked as two-year-olds to be close up in a mile and a sixteenth race in 1:46½ and two miles in 3:26½ is a startling feat, and as both races were run from "end to end," with the colts in the lead until the journey was nearly accomplished, their gameness was established as well as their speed.

The man who made famous the words quoted, "Uncle" John Harper, laid the foundation for both, as on the maternal side both of them trace to matrons of the Nantura stud. And both of similar breeding, their sire imported Rossington (by Doncaster from Lily Agnes, dam of Ormonde), the dam of Marplot, Marjorie, by Longfellow, and the dam of Traverser, Betsy Broeck, by Ten Broeck, second dam Mary Owsley, by Longfellow. Traverser therefore has two strains of Nantura, Uncle John's prime favorite, dam of Longfellow and grandam of Ten Broeck. Plenty of the genuine "old-fashioned, hard bottomed" stock in the "native" strains in the pedigrees, Lexington, Boston, Wagner, Grey Eagle, American Eclipse, all tried four-milers, and when these are coupled with the very best in the English Stud Book, not at all surprising that the "nick" should be the right one, whatever the "figures" may say.

Had Judge Denny carried four pounds more than he did, which would have been the same reduction from the rule weights as Marplot was allotted, still closer the struggle, perhaps the championship transferred to the youngster.

\* \* \*

**JOCKEY CLUBS VS. TELEGRAPH CO.**—The settlement of the city betting-room question would not be difficult if the Western Union would exert its power. It may be that the Jockey Clubs could also put an end to them, notwithstanding the efforts of the W. U. T. C. to render futile whatever might be done in the way of withholding information, though when trials of that kind have been made there was only a partial success. And one of the most singular features in connection with the evil is the course pursued by the daily papers. Editorial after editorial exposing and denouncing those establishments; fervent appeals to those who have the power to pass ordinances to adopt enactments of sufficient stringency to put an end to the nefarious business, and castigating the officers of the law for allowing the dens to flourish. Not a word of arraignment of the criminal-in-chief, not a line of matter, not a sentence of criticism or a word of reproof for the company that supplies the information that enables the keepers of these places to corrupt and debauch the people of the cities in which they are permitted to ply their business. Here is one paragraph from an editorial in a morning paper of last week:

A striking illustration of the extent to which the corruption of youth is permitted in San Francisco by practices in violation of law is to be seen in the multitude of downtown pool-rooms where young men and boys, and occasionally even young women, are enticed to gamble away their earnings, and tempted to steal in order to gamble more. A city ordinance forbids the running of such places. To maintain one is to violate even if none but grown men resorted to it. Nevertheless they are more than tolerated by the community and its officers. The nefarious trade is carried on without any pretense of concealment, with insolence as well as infamy.

The toleration of the "community and its officers" is no more to be compared to the participation of the Western Union in the pursuit than a wild apologist of slavery was to those who stole the "human chattels," made them endure all the torments of the "middle passage," and sold them into a bondage that would include generations of their descendants.

For all this it is idle to expect that the daily press will utter a word of disapproval when the result might be an advance in the price of telegraphic news, and so the only hope of relief, the only chance to avert the danger attendant "on downtown pool-rooms" is from the jockey clubs.

If I am correctly informed the Western Union pays so much per day to the clubs, a small sum in proportion to what it receives from the rooms, and when the clubs refused to sell them the information was stolen. Try it again. Let our clubs flatly refuse to become partners in downtown pool-rooms, and then the odium will rest where it properly belongs.

It may prove that the pecuniary loss will be overbalanced by additional revenue, not only from increased attendance but also a larger sum from legitimate privileges. At all events the refusal to supply information that can be used to the serious detriment (and it may be to the criminal danger of all kinds of sport), will bring its reward in the shape of strong support where there is only toleration.

\* \* \*

**ANOTHER OBJECTION.**—It may appear that when conversations discussing certain questions are held that the topic was introduced by one of the conversationalists who had been giving a good deal of attention to the subject. But in the report published in the DAILY BREEDER AND SPORTSMAN on Tuesday last the subject was brought up by the owner without previous talk on that or cognate questions, and again some days later another owner brought up the same topic and that also without preface. And the last person to enter objections against the practices condemned by Mr. W.—is also of the class that has had a great deal of experience concerning racing affairs both in this country and England, and there is another similarity, that being plenty of sound sense to govern their opinions. The last objector found fault with the ruling that prevents an owner from changing the jockey after his name has been given to the official of the club, unless he can satisfy the judges that there are the strongest reasons for suspicion. It is manifestly proper that after a jockey has been selected, his name made public and betting been opened so that wagers have been made, a change should not be permitted, as whichever way the shifting tended, from good to inferior, or from inferior to good, there would be some different features. The public, at least that large portion of race-goers who bet on the contests, must be awarded the protection of fulfillment of contracts. Their speculations are partially based on the skill and standing of the jockey. One horse is supported for the reason that the jockey billed to ride is the preference of the bettor, and another is betted against for a contrary opinion. Were the riders changed at the last moment, when there was no further opportunity to wager, that would be far from justice. But when an owner is compelled to name a jockey at 10 A. M., four hours before the first race of the day is to be run, and two hours from the time of naming, is aware that the information has been published and is within the reach of anyone who has five cents to pay for a paper, there must be some uneasiness. In that mood he sees something, trivial perhaps, scarcely sufficient to impress the judges or lead him to believe that they will countenance a change, and he is forced to abide by a contract he would fain revoke, if even he had to pay a double fee. Were the time extended for naming the jockey to 1 P. M., as suggested in the previous note, and then not made public until the betting opened, his objections would not have so much force, in fact, practically annulled, as there would be little opportunity to tamper with jockeys when their names were first made public on the annunciator.

That owners need protection as well as bookmakers and bettors is beyond successful contradiction, and anything that will further their interests (especially when that will also increase the attendance) is certainly a wise move on the part of the jockey clubs.

\* \* \*

**N. T. A. CONGRESS.**—Well pleased, highly gratified, in fact delighted over the action of the Congress the National Trotting Association held in New York February 9th. While nearly all the amendments proposed by the Committee on Rules, (nearly can be omitted from the hurried examination made) are satisfactory, my greatest interest was that section 5 of rule 28—now numbered 27—should not be abrogated, and

therefore, the information that the only change is the wording of the first sentence which makes the meaning plainer. In the section adopted two years ago the opening sentence read: "Every heat in a race must be contested by every horse in the race; an honest endeavor on the part of every driver to win," and the last clause now reads: "and an honest endeavor made by every driver to win." Section 5 has been called the "Simpson rule" inasmuch as I presented it and was instrumental in securing its endorsement by the Committee on Rules and its adoption by the Congress. Section 6 of the same rule has been replaced by a far better section, strengthening the preceding section, by making the duty of the judges much clearer and at the same time recognizing the principle embodied in Section 5, whereas in the previous code there was some chance for a conflict of opinion. I fully realized that at the time of the 1896 Congress, but was afraid that to ask too much then would jeopardize the adoption of Section 5.

"Riders and drivers" is the caption of Rule 28 as it now stands, and a very important addition it is to the code.

The main feature is licensing drivers and there is an imperative mandate embodied that every driver who competes on the track as a member of the N. T. A. must obtain a license. This is assuredly a good law, as has been proved by the jockey clubs, and in New Zealand the trotting association follows suit.

Hoppies are legislated out of races, but not to take effect until January 1, 1899. The "distance" was not disturbed, and it was "write your own ticket" when the question was asked, what are the odds against a thirty-yard distance?

As stated before the whole work of the late Congress has been eminently satisfactory and hereafter I will have a good deal to say about the newly incorporated statutes.

\* \* \*

**"INCONSISTENT RUNNING."** The racing folk of the "Island Continent," and the "North and South Island," or at least that division of them that patronize the trotting side of the horse world, use phrases that are queer to us, and, without much doubt, many of our terms, which may be called slang of the track, are incomprehensible to them.

If the words used for the side head of this article were not made the grounds of protests in trotting races the acceptance would be that it was identical to "in-and-out running" here, but if a protest can be sustained when the charge is that the horse had shown entirely better form in the race protested than in previous contests, the rules in force on the other side of the world must be different from those of the N. T. A. or A. T. A.

But it is not in connection with trotting affairs that I bring it forward for discussion now.

The two-year-old races that have been seen, so far in 1898, have engendered differences of opinion, and in two cases have brought people into trouble from the inconsistent running of the youngsters, and the question comes up are colts of that age more likely to run out-and-in than older horses. I have heard one man of much experience in racing affairs claim that two-year-olds were more consistent performers than older horses, but, in my opinion, that is not verified by the records, especially when the contestants are as young as they must be in the January of the year which establishes their age.

However well "schooling" they can only be rated as kindergarten pupils, and while some members of the class are gifted, "old heads on young shoulders," will march up to the blackboard with all the confidence of veterans, large majorities are abashed and cannot demonstrate the simplest therein. A colt of the last mentioned kind may create a false impression and get his managers into trouble while innocent of anything more than starting him before he was in the least qualified for the race. For instance, a colt is started in his first race; he gets off last in a field of ten, runs last all the way, odds long and as the betting progresses still longer. His second race is of the same character and the odds fall back from 20 to 50 to 1.

The third race he gets off in the lead and wins all the way, the odds shortening from 21 to 8 to 1. When so much is expected of the judges in the way of securing straight racing they would seem to be guilty of gross delinquency were they to overlook that which smacks so strongly of crookedness. The races were not far apart and it seems the height of inconsistency to imagine that a few days could make such marvelous improvement. And yet there may be plausible reasons for the changes of form without being of sufficient weight to warrant an entire reversal of the verdict. The only foundation on which racing can be sustained is confidence in the judges, and a well-grounded belief that every effort will be made by them to protect the interests depending. While contrary to the maxim, "that a man must be held innocent until he is proved guilty," should there be suspicious circumstances the judges are warranted in acting upon them. "Better that one hundred guilty men escape than one innocent man should suffer," may be good logic when the life of the innocent is put in jeopardy, but when applied to the turf the reasoning is faulty.

Better that an innocent man suffer than the whole fabric be overthrown, which, beyond any question, would be the result of slack methods of government in the racing world.

[Continued on Page 119].

Your stable is not complete without Quinn's Ointment. An infallible cure for all ordinary horse affections. Follow the example set by the leading horsemen of the world and your stable shelf will always hold a bottle of

**Quinn's Ointment**

A. L. Thomas, Supt. Canton Farm, Joliet, Ill., remarks, "I enclose you amount for six bottles of Quinn's Ointment. After one year's trial must confess it does all you claim for it." For Cures, Splints, Spavins, Windpuffs or Bunches,

Price \$1.50.

Sold by all Druggists or sent by mail.

W. B. EDDY & CO., Whitehall, N. Y.

## TURF AND TRACK.

## THE SULKY.

THE Year Book will not be out until March 10th.

FOUR mares were booked to Dictatus as soon as he arrived at Woodland.

EVERY horse sale in the East shows an improvement over the prices of last year.

A LARGE shipment of American horses sailed from Boston for England on January 20.

"WHAT is the matter with having classes for hobbled horses?" asks the Mirror and Farmer.

THOS. KEATING, Chas. Griffith and Andy McDowell will go to Denver with their trotters and pacers this year.

THOSE three good sons of George Wilkes, Jay Bird, Guy Wilkes and Adrian Wilkes, were foaled the same year, 1878.

THOS. KEATING has Owyhee and Klatawah. These two young horses were sent him from the Oakwood Park Stock Farm.

HON. JESSE D. CARR of Salinas has sent his favorite mare Nina B., by Electioneer, to San Jose, to be bred to Boodle, 2:12½.

AT twenty-two years of age Onward and Red Wilkes each had 127 performers, Nutwood ninety-two and Electioneer sixty-two.

WM. VOIGET has a number of grand-looking young trotters and pacers by his stallion, Wildboy, out of royally-bred mares.

THE daughters of American Star have six descendants and the daughters of Pilot, Jr., four, that have sired thirty and more performers.

CHARLES B. DAWSON has sent his (Carr) Mambrino mare, the dam of Valentine, 2:30, as a two-year-old to San Jose, to be bred again to Boodle.

COL. JOHN DINUE brought fifteen head of choice trotting mares from the Aptos Stock Farm to be bred to Dexter Prince at the Palo Alto Stock Farm.

By the last mail we received a club of twenty subscribers from Tokio, Japan. The BREEDER AND SPORTSMAN is read by people in all parts of the world.

PRESIDENT ALFRED DE CORDOVA of the New York Driving Club says that New York will have a trotting track worthy of the second city in the world.

MR. J. PARROTT, of San Mateo, recently sold a team of bay carriage horses to Mr. George A. Pope. They were perfectly matched. The consideration was \$1000.

H. DUTARD has Algreor, 2:11, and there are few, if any, pacers on the speed track that can pass him. Algreor would be a good horse in the dash races this year.

OVER one hundred thoroughbred mares will be bred to the trotting stallions at Rancho del Paso this year. From the produce a number will be selected as carriage horses.

CLARK ARCHER of Stockton is driving a three-year-old colt by Cherokee Prince (son of Dexter Prince) out of a mare by Dexter Prince that is the queen of Stockton's pacing brigade.

TRAINER JOHN KELLY will have out this season from the East View Farm, Baron Crisp, 2:12½; Annie Allerton, 2:15½; Gayton, 2:18½; Intact, 2:19½; Ed. B. Young, 2:22, and Directum Kelly, 2:23½.

THERE will be good racing at Honolulu, March 17th, May 1st, and June 11th. There are at least twenty-five trotters and pacers in training there now. Our Boy 2:12½ will be a hard one to beat there.

LAST Monday, the fine big trotting mare Bet Madison, 2:30, by James Madison, was sent by A. C. Severance of Los Angeles, in care of Chas. Durfee, to the Oakwood Park Stock Farm to be bred to Chas. Derby, 2:20.

THE fight the BREEDER AND SPORTSMAN is making against the pool rooms, although not supported by the leading dailies of San Francisco, is being upheld by every newspaper and prominent horseman in California.

THOMAS HOLLER, Skaneateles, N. Y., has bought the stallion, Guy Line, 2:19½, by Guy Wilkes, dam by Del Sur, from J. G. Gallagher, Auburn, and will campaign him down the line of the Central New York trotting circuit of 1898.

JOHN A. MCKERRON has received a new line of veterinary medicines. He has had quite a big demand for these veterinary supplies as well as race goods this winter. He keeps nothing but the best, while his prices are lower than ever.

GEO. Y. BOLLINGER, President of the Santa Clara Valley Agricultural Society, owns the most prominent yearling ever seen around San Jose. He was sired by Boodle, 2:12½, dam Hattie P. (dam of Our Boy, 2:12½). Mr. Bollinger has again bred his mare to Boodle.

THOMAS KEATING is rapidly regaining his former health, and has a string of very fast pacers and trotters at the Pleasanton track. He has a McKinney there, out of Grace Kaiser, by Kaiser, that will lose all the Searchlights in America this year. He is a wonder.

A POOL BILL has been introduced into the Kentucky Legislature, by Senator Bronston, limiting racing to two meetings a year, on any one track, of fifteen days each. The bill provides that pool selling may be conducted on the race track during the actual progress of the meeting.

FLORA H. dam of Thompson, 2:15, owned by Mr. J. B. Bonetti of Santa Maria, has been sent to Boodle, 2:12½. Among the fine mares already served by Boodle, 2:12½ this year is Signa by Sidney, full sister to Maggie McDowell, 2:21½.

THE most valuable stimulant as well as the most needful to keep horses in condition is the celebrated Red Ball brand Manhatta Food. Thousands of horsemen claim it is the best they have ever used, and the fact that they used it extensively is the best proof of its efficacy that can be found.

MOLLY ALLEN, one of the most valuable mares of the Santa Rosa Stock Farm, gave birth to twin colts Tuesday. Both foals died soon after birth. The loss is quite considerable as much was expected from the colts. Mollie Allen is by Mambrino Wilkes—Lady Allen, and has a track record of 2:20½.

SHERWOOD STOCK FARM, Sheldon, Ia., has sold to C. X. Larrabee, Fairhaven, Wash., the two good broodmares, Hermione, by Hespodar, and Reka M., by Montevideo. Hermione is the dam of Kappa 2:18½ and Hermitage, sire of Miss Gatewood 2:18½ and Virgil P. 2:16. Reka M. is out of Hermione.

A TROTTING circuit is to be formed in Virginia for April, to follow the North Carolina one that will extend through March, beginning the last day of February at New Berne. This will carry the game along until the opening of the season in the early part of May at the Gentleman's driving park, Baltimore.

ENTRY blanks for the Spring races of the Colusa Jockey Club have been issued and as the race meeting takes place during May 10, 11, 12, 13 and 14, entries for which close April 15th, owners will have plenty of opportunities for racing their horses over the splendid track there. We wish this club every success.

IN Russia, two miles is the minimum distance trotted in a race, and the horse that cannot do the distance in six minutes does not rank as a trotter. The racing career of the Orloffs begins at three years of age, and continues till they are twelve or fifteen years old. They obtain their maximum speed at eight years.

HULDA, 2:08½, safely in foal to Cupid, 2:18, has been sent by A. B. Spreckels from his Aptos Stock Farm to the Palo Alto Stock Farm to be bred to Dexter Prince. The produce should be the most perfect-gaited youngster in the world, for no one ever saw better-gaited ones than this great sire and wonderful trotting mare.

SUENO DE ORO (Dream of Gold) is the name claimed for a gray filly foaled last year at the Voigt Stock Farm. It is claimed she is the fastest trotter bred in Santa Clara County. Her sire is Wildboy (son of Gen. Benton out of Wildflower) and her dam is Abbie S., by Abbottsford 2:19; second dam Sweetbriar 2:26, by Eugene Casserly.

A COMPLETE change in the membership of the San Francisco Driving Club is contemplated. Great things in the way of good racing is promised by this club this year. It is hoped some of the jobbers who tried their jockeying tactics at the Breeders meeting last year will be dropped with a thud from the membership roll at once.

AN Eastern exchange says sententiously that "crackerjack road horses cannot be bought for \$300 or \$400." There is nothing truer. Those people who are busily engaged in angling for "something for nothing" are fast finding it out, also. The market is rising every day, prices are improving, and good horses are selling every day at higher values.

THE finely-formed broodmare Steinola by Steinway, 2:25½, out of Phacola by Silverthreads, second dam Minnehaha, will be bred to Directum, 2:05½, the champion trotter of the world. Steinola when bred to Directum, 2:17, (sire of Directum, 2:05½), produced that good race mare Lena Holly, 2:17½, so this idea of keeping in the successful line is a good one.

SPACE is so valuable on the steamships and sailing vessels bound for the Klondike that very few horses have been shipped from San Francisco. Every available inch of space has been utilized for berths for passengers. Over six hundred horses and burros that orders have been received for from the people in Dyea and Skaguay are awaiting shipment.

THE Johnson brothers, James, D. F. and Mike, have purchased Lady Director of Warren & Rice. The price paid is not made public, but is rumored to be over \$2,000. Lady Director has a record of 2:19½, and she will be put in harness with Barbara C., owned by the Johnsons, with a record of 2:21½. This is undoubtedly the swiftest pair of flyers in Montana State.

A GOOD authority says that notwithstanding the demand for good horses and the fact that such horses are so scarce that hardly 75 per cent. of those in the hands of the farmers are marketable, there seems to be scarcely any movement on the part of farmers to change or improve their methods of breeding. In the meantime the export demand is rapidly exhausting the present small supply.

T. J. DRAIS of Farmington is the proud owner of a coal black colt by McKinney 2:11½, out of a mare by Guy Wilkes 2:19½, second dam by Onward 2:22, third dam Lady Blanche (dam of the great Alcryon 2:15) by Privateer 2:58; fourth dam Jennie Lind by Alexander's Abdallah. This youngster is the finest-looking one Mr. Drais has ever seen and it would take considerable money to buy him.

SCOTT HUDSON, who came over from Lexington to attend the sale, says there is a fine outlook for the horse business. He says there is an absolute scarcity of good young stock for training and racing, and that the best of the aged animals for breeding purposes appear to have been taken out of the country. From now on any sound individual of medium promise will bring a good price.—Dalville, Ky., Advocate.

NOW is the time to advertise stallions. The scarcity of good or even fair horses which is sure to come inside of two years should stimulate breeders to patronize the best stallions advertised. A horse that is not deemed by its owner worthy of being properly advertised is not worthy of breeding to. It is a gratification to any owner of a mare to know he has bred her to a horse that is well and favorably known.

THE handsome stallion, Wild Nutting, by Wildout—Helena 2:11½, by Electioneer; second dam Lady Ellen by Carr's Mambrino (son of Mambrino Patchen); third dam Ida May, Jr., by Owen Dale; fourth dam Ida May, by Williamson's Belmont; fifth dam by Red Boy, has been leased by John S. Phippen (formerly of Palo Alto) from Wm. Voigt and will be seen at the California circuit this year. The horse may stand for a few mares this season at the racetrack at San Jose.

A NUMBER of years ago there was an emigrant team from Missouri stopping at Stockton and among the horses the emigrants had was a roan mare called Roan Kit. She was claimed to be of Copperbottom and American Eclipse blood and was sold to the Ladd Brothers of Stockton. She won running races from quarter miles to three miles, and never was beaten. She was placed in the breeding ranks and produced Granger, Cora (dam of Corette, 2:19), Hettie Morse and Brownie (dam of Alto Genoa 2:14½ and Cherokee Prince 2:22½) and a fast pacer belonging to A. B. Spreckels known as Cherokee Princess all by Dexter Prince.

F. J. BERRY, Union stock yards, Chicago, will give a tour of lectures through the far west. His subject will be the up-to-date horse and export demand. His first address will be at Pendleton, Oregon, February 16, after which he will go to Portland and St. Lake City and four or five other places on the Pacific Coast. Mr. Berry hopes to stimulate breeders to raise better horses with larger size, and of a more salable kind. The kind that are the most salable in our American markets today are also in demand in all the foreign markets, and Mr. Berry will show the difference between a market horse to-day and five years ago, as a salable horse of five years ago would not be a salable horse in our market to-day. The use of the horse is being revolutionized and the grade raised every year. Dealers demand a higher class of horses with more quality, and the up-to-date horse for the export demand, he claims, is the very same horse that is the most salable in our American market.

OVERLAND PARK trainers are now working their horses for the spring meeting. Jas. C. Wallace has in his string Carbonate, pacer, 2:09; Roberts, pacer, 2:11½; Lottie Smart, three-year-old, pacer, 2:15½; Ellbells, by Chimes, two-year-old trotter; Winnemucca, by Roswell, two-year-old pacer; Koy W., 2:31 trotter; Glen Allie and others. Frank Loomis has Mabel Jefferson, trotter; Orville Wilkes, pacer, and a son of Red Hood, trotter. Lewis Hincley has a son of Onward, a very promising trotter, and eight or nine other good prospects. Jas. Anthony has the fast pacer Quicksilver and eight or nine other good ones. Next in line is Dick Tilden, with Respond, 2:24½; the very fast pacer, Athal Wilkes, 2:19½, and other good ones. Next comes the owner of E. S. and Lady Beaumont, with the fast trotter King Holliday, Allie and others. And last, but not least, is the old-timer, Mr. Johnson, with a string of fifteen good ones. The prospects are very bright for a fine spring meeting in Denver, beginning June 11th.

THE export movement of horses from the Union Stock Yards, Chicago, was the largest for the last week in January, of any in the history of the trade. Since the first of the month the volume of exportation steadily increased until the last week 748 horses were shipped direct to various markets in Europe and Mexico. Ellis Bros., York, England, forwarded a consignment of 42 head of coach horses that averaged \$400 per head, that were pronounced one of the grandest collections of high-class drivers ever exported from the Chicago market. There was shipped to London, by J. Phillips, 80 head; A. Hawks, 40 head; J. Dainty, 100 head; William Roberts, 60 head; W. F. Lee, 5 head. To York, England—By Ellis Bros., 42 head. To Liverpool—By M. Tichenor & Co., 40 head; A. Meredith, 21 head; Miller & Co., 60 head. To Paris—By B. Melleret, 21 head; P. Olff, 40 head. To Antwerp—By A. Dufour & Co., 106 head; Max Rosenberg, 56 head; S. Cozzens, 21 head; Remi Dejonckheere, 20 head. To the City of Mexico—by A. Gaudet, 21 head.

EX-SECRETARY ED. A. TIPTON says that Marcus Daly has not made any more matches with Messrs. Harriman and Forbes that he knows anything about, but he thinks Mr. Daly would be willing to do so. "I will make this proposition, however, on behalf of the Prodigal two-year-olds," said he. "There are just six of them out at Bitter Root ranch. I will bet \$5,000 or \$500, play or pay, on that little bunch of two-year-olds against the get of any other trotting sire in America. I don't care how many the other fellow may have to pick from. If he has forty against the six, the bet goes at even money just the same. We will put up the money now; trot the race next fall on any good track that can be agreed upon, and name our starters the night before the race. The winner to take the pot, or if it doesn't suit, we will divide the money the same as at Goshen last year in case two or more breeders come in." Mr. Tipton's challenge will be regarded as a liberal, sportsmanlike proposition, and it is pretty certain to bring out a response from the owners of such trotting sires as Chimes, Stamboul, Arion, Baron Wilkes, Delmarch, Direct, Onward, Patchen Wilkes, and a score of others.

THE grand Circuit of 1898 will in all probability be longer than it has been any year during the past three or four. There seems to be a well defined impression among horsemen generally that the stewards should be liberal when they meet in Detroit, and extend membership to any applying association, for which suitable dates can be found, and which can furnish satisfactory assurances that the required forty-five hundred dollars per diem of purse money will be forthcoming when it is won. The tendency among owners and drivers now is to patronize circuits in which they may race their horses for a good many weeks, with short shipments and consequently low transportation charges. There will be, as we understand at this time, applications from a number of associations that have never heretofore been represented in the grand chain, and so long as these associations can, as suggested, furnish satisfactory assurances, and will be content with the dates allotted to them the circuit should be increased at "both ends and the middle." Then, with the circuit enlarged and arranged, the officers should at once proceed to do their utmost to secure reduced rates for the transportation of the horses, men, and traps from one city to another. This, we believe, may be done in many cases. If the reduction is not greater between some of the individual points, it will mount up in the aggregate, and in the end operate to greatly reduce this most important item in the annual campaign accounts.—Horseman.

## THE SADDLE.

A BROTHER of Frank Brown, the well-known trainer, was buried in this city Wednesday.

RUSSELLA, raced in California last season, won a mile and a sixteenth at New Orleans Wednesday.

BURNS & WATERHOUSE will mate Palomacita, Sweet Faverdale and others with the splendid Altamax this season.

IMP. SAIN, Marjorie, Charmion and several others will be sent to Barney Schreiber's "Woodlands," Bridgeton, Mo., in a few days.

HUMIDITY, the easy winner of the two-year-old race Friday, is an own sister to Mabel Glenn, Dungarven and Catalpa.

VICTORINE, the dam of Ornament, now at Elmendorf Stud, is undoubted with foal to Order. She is due to foal on March 29th.

THE two-mile race won by Judge Denny and contested by Marplot will go down into history as one of the greatest races of the world.

ASTELLE, by Lexington, died on the 23d ult. at the Stone-wall Farm, Midway, Ky. She was the property of J. Breckinridge Viley and was 28 years old.—Thoroughbred Record.

HENRY MCDANIELS is training the horses belonging to W. Showalter at the Kentucky Association Track, Lexington. In the lot are the speedy colts Box, Teucer, and six others.

R. W. WALDEN & SON have claimed the name Cherry Pit for a two-year-old, full brother to Morello, by Eolus—Cerise. The same firm owns a full brother to Russell, by Eolus—Tillie Russell.

A. J. LEVY and John Coleman are to sail on the Gaelic the latter part of this month for a tour of Japan. They will be accompanied by their wives and will be away from America three months.

H. T. GRIFFIN has sold to the Kittleman Bros. (who are getting together a large and excellent string) the bay two-year-old filly Vioria, by imp. Duncombe—Detrix. Consideration private. She ran third on Monday with a stable boy up.

STARTER J. B. FERGUSON has purchased the mares Fig Leaf and Decision and will send them to his Kentucky stud farm, where they will be mated with St. George. Fig Leaf is by Martenhurst—Orange Leaf and Decision by Wagner—Fleta by Hurrah.

FIVE thousand enthusiastic people witnessed the breaking of the world's record for two miles by Judge Denny at the Oakland track last Saturday. This race was conceded by all to be the greatest contest of horse flesh that ever took place in California.

THE Willman Bros., owners of Morello, have a very handsome yearling colt by Del Norte, out of Miss Cromwell, and he's a better individual than his half-brother. If he's as good a race horse as Morello the popular racing firm will be happy indeed.

CHARLES BOYLE, the trainer of J. A. Seagram, the well known Canadian turfman, spent last Monday in Lexington en route to Cincinnati, where he signed R. (Tiny) Williams to ride for the Seagram stable during the coming season.—Thoroughbred Record.

THE Saratoga officials have, after long hesitation, concluded to accept the dates apportioned to their track by The Jockey Club, and will forthwith announce their stakes. This decision will please Western owners, with whom "Horse Haven" is a popular place.

THE entry of Midian will be refused in future on account of his inconsistent running, and incidentally the judges are inquiring into the ownership of the horses. Speakman has a bill of sale from Pat Dunne, but the officials think jockey Willie Martin has an interest in the horse.

TURNER BROS. will take their horses to New York about March 15th. Besides Dr. Catlett they have the three-year-olds Swiftmas and Rinaldo and five Candelmas two-year-olds. One is a full sister to Dr. Catlett. The others have for dams Nell Swift, Landlady, Puritan Lass and Nannie D.

REPORTS from San Francisco are to the effect that if Atkin & Lottridge do not make an Eastern racing campaign this year they will probably release Jockey Dick Clawson to Jimmy Rowe who is desirous of the boy's services. Clawson is no doubt one of the very best light-weights riding.—Daily Racing Form.

MR. C. E. COWDIN arrived in Lexington from New Orleans last night. He confirms the report of the purchase of the celebrated horse Requitall. The horse will be retired from the turf and will arrive in Lexington next Wednesday. He is absolutely as sound as the day when foaled.—Thoroughbred Record.

EUROPEAN governments contribute considerable money toward the horse breeding interest. Last year France appropriated \$435,755; Germany, \$961,000; Austria, \$850,000; and Hungary, \$165,000. In addition to the above amount the French government contributed about \$500,000 for premiums at exhibitions.

EVERYONE will be pleased to hear that Gaston Ashe of the Santa Anita Farm, near Hollister, is able to be up and around again after his recent severe accident. Mr. Ashe, it will be remembered, was severely burned while impersonating Santa Claus at a Christmas tree at his ranch given for the benefit of the children of his tenants.

FLEUR DE LIS equalled Salvado's time in the mile and a sixteenth race Saturday when she won the Gunst Stakes in 1:46½ with 109 lbs. up. The first mile was run under 1:40 and the coast record have been put at 1:46 or better had the great Maxim mare been forced out. Salvado, also an easy winner, carried 107 lbs. when he ran the distance in 1:46½.

RAINIER who finished up a strong third in the two-year-old race Wednesday, is the rat-tailed Orizaba—Nadavis colt in the Kerr consignment that we fancied so much. Nadavis is an own sister to Mabel Glenn, Catalpa, Dungarven and Humidity, being by Hindoo—imp. Calphurnia by Julius.

AN attempt will be made to amend the racing bill now pending before the Kentucky House of Representatives so as to increase the time limit to twenty days for each of the two meetings per annum allowed by the bill or, that failing, to provide that any association not requiring the whole time, allowed by the bill may lend their unused days to other associations.

MARTY BERGEN is thinking of going to England in the spring, and in a recent letter says that he may not come to California this winter. If he continues in the same frame of mind he will go to England in May. Marty is one of our best jockeys and is peculiarly English in his style, so that he will not have to face the adverse criticism that Sloan had on that account.

SIR EXCESS, winner of the World's Fair and other rich stakes, by imp. Sir Modred, dam Dixianne, fell in the Brookside Steeplechase at Plumpton, England, on January 15th, and injured his back so badly that he was destroyed. He was sent over to England by Richard Croker, but at the time of the accident was owned by Mr. Waters. Sir Excess was bred in California.

REINART, Porter Ashe's great horse, will not be able to go to the post this spring. He seemed to be going well, but the leg that gave him trouble last season began to fill, and all hopes of his racing this spring have been given up. The superb son of St. Carlo and Queen Alta will be mated with a few mares, and later he will be taken up an attempt made to get him ready for the fall races.

GEORGE HANKINS, owner of the once famous Garfield Park track of Chicago, and George W. Leiby, a well known turf operator of the Prairie State, have obtained some valuable racing privileges from the Venezuelan government. California horsemen should not overlook the fact that San Francisco is the gate way to the two Americas of the South and that racing there is growing in favor.

A DISPATCH from Caracas says the American-bred horse Allerae, by Greenland—Callera, the property of H. H. Hunn of this city, which arrived in Venezuela only three weeks ago, has won an important race—the Cleveland prize. Among the beaten horses were those running in the colors of President Crespo and the American entries, Hustler, Trayline and Mobawk Prince.—New York Herald.

JIM NEIL and Al Coney lost their bread-winner, Crtawbr, Wednesday, through an accident that occurred on the far turn. Some horse ran into the son of Flambeau, throwing him down, and he was so badly hurt that he was put out of his misery with a bullet. No less than \$1,200 was refused for him last week. Messrs. Neil & Coney have the sympathy of all the racing men in their hour of misfortune.

THE BREEDER AND SPORTSMAN'S suggestion] that Chief Lees detail an officer to stand in the doorway of the downtown pool room dives has been acted upon with good effect. While the police have not succeeded in closing these places, through the adverse influence of the evening papers and the telegraph companies, they have diminished the attendance, as few women care to run the risk of arrest. For this the police deserve credit.

AMOLTOPEC, winner of the two-year old race Monday, is by Amigo out of Belinda, dam of Venus. The last-named is in Honolulu. The scoundrel who circulated the report that the Baldwin youngsters offered at the Occidental Horse Exchange on Dec. 23d last were "culls" should be arrested. We claimed they were a superior lot, and the running of Formero, Magdalenas, Amoltopec, and in fact all that have run, shows that we told the truth.

THE members of the Overland Trotting and Running Association have arranged the programme for the meeting to be held at Overland Park June 11th to 25th inclusive, excepting Sunday, June 19th. There will be no less than two harness, two running one a handicap, each day. The handicap purses will be \$300, the other races \$200, the trotting and pacing \$500 and \$1,000. For the gentlemen races there will be special prizes.

THE Queen's County Jockey Club will institute a handicap at its summer meeting, to be known as the Greater New York Handicap. At least \$1,000 will be added to the subscriptions, and in 1899 the event will be made to compare from a purse standpoint favorably with the Metropolitan, Suburban and Brooklyn Handicaps, sufficient money being added to make it interesting to the owners of the best class of stake horses.—New York dispatch, February 13th.

A SAN FRANCISCO letter makes the statement that Tom Williams has asked Judge John J. Carter to remain on the Coast through the coming summer to act as presiding judge on the California circuit, and that he may conclude to do so. The circuit consists of Sacramento, Woodlands, Fresno and Los Angeles, with a possibility that San Jose or Stockton may be included. The Sacramento spring meeting begins directly after the close of racing in San Francisco.—Daily Racing Form.

A STRIKING illustration of what the down-town poolrooms are doing for the jockey clubs is shown by the fact that Wm. B. Sink Jr., the American Handicapper, who paid a large sum to the association for the privilege of selling his handicap figures, has gone out of business. He is a victim of the evening papers, which have never paid a cent for the privilege, and when the time comes will do their level best to close the race tracks, for they lose money every time they issue a racing edition, and must get revenge.

AN English exchange says: "Mr. Horatio Bottomley paid a visit to Mr. John Porter at Kingsclere recently, and concluded the purchase of Hawfinch, by Goldfinch—Chalk-Hill-Blue, the winner of the Dewhurst Plate, and engaged in this year's Derby. The price paid was \$25,000, with a contingency in the event of the colt winning the Derby." As Goldfinch is now quartered at Rancho del Paso and is already the sire of a winner in America (Gold Scratch), the above sale will greatly interest lovers of thoroughbreds in this country.

THE Aqueduct race track is to be extensively improved and modernized before racing is resumed there next spring. The old grand stand has been torn away and the ground in its rear extending back to the railroad has been secured and a new grand stand will be built at an angle which will make it possible for all the spectators to see the run through the long homestretch. The changes contemplated will give a great deal more room between the grand stand and the track, and this space will be cemented, a great improvement over the old, slanting, slippery board walk well known to habitués of the Aqueduct track.

JUDGE DENNY last Saturday broke the American two-mile record by Ten Broeck nearly twenty one year ago to the extent of a full second. The black son of Fouso and Belle of Nantura carried 105 lbs., Ten Broeck 110. Denny's time was made in a race, Ten Broeck's against time on a specially prepared course. Newton ran it in 3:27½ also, but his was in an actual race with 107 lbs. in the saddle. The best previous Coast record was 3:29½. Monte Christo ran it in 3:30, Marigold 3:30½. 3:30 for two miles has not been beaten half a dozen times in American turf history. The best two miles ever run was Carbine's 3:28½ with 145 lbs. up, his win of the Melbourne Cup. Dunlop ran it in 3:28½ the year he won Australia's greatest racing event. McWhirter's 3:30½ was our race record for some time.

No reason is assigned why owners are forced to have jockeys engaged to ride on a certain day by 10 A. M. and give such information to the evening papers via the Western Union Telegraph Company, unless it is the desire of the clubs to ruin a large proportion of the youth of the land in the den of the sure-thing man, the pool-room keeper. If the racing clubs of the country allowed no information regarding jockeys, scratches or prices to be given out, at least seventy-five per cent. of the pool-rooms throughout the United States would have to close up. But that powerful disseminator of information that throttles racing and brings it into disrepute, the Western Union Telegraph Company, say they must have the list of jockeys, scratches, prices, etc., and they come pretty close to getting what they want.

It is not to be wondered at that Fleur de Lis is the great mare she is, considering her breeding. Her sire, the dead Maxim, son of Musket, was the best race horse of his day in the Colonies, and many think his superior as a racer was never foaled in New Zealand. They do not even except the mighty Carbine Maxim's race record goes far to bear them out. That record is eight wins and two seconds out of ten starts, and one of his defeats was from Abercorn (who defeated Carbine twice) when Maxim had traveled many hundreds of miles and had just been taken off boat and train. The dam of Fleur de Lis, Fleurette, is an own sister to Firenzi, certainly the best race mare of her day in America. The second dam was Florida by Virgil. The third dam was Florence, dam of the mighty Hindoo. In the case of Fleur de Lis blood certainly tells.

THE recent visit of Ed. Tipton to Avondale Farm has given currency to a rumor to the effect that Mr. Marcus Daly is trying to buy Bangle and White Frost. Bangle is in splendid condition and looks all over a Derby colt. He has been given a lot of slow work at the farm during the last month or two, from ten to fifteen miles a day being about the limit. Bangle is entered in the Kentucky Derby, the Latonia Derby of the West, and the Realization in the East. His dam will be bred to Himyar this spring. White Frost is given from eight to ten miles a day, and it will not take her long after reaching Memphis to get into racing form. Her dam will also be bred to Himyar. Ida Pickwick is due to foal this month to Quicklime. She will be bred to Himyar. Souffle's dam will also be bred to the sire of Domino.—Nashville Cor. N. Y. Spirit.

FLEUR DE LIS is certainly the pick of all Pacific Coast bred horses of her age, and has beaten every Eastern horse that she has met with on heavy tracks. She is a very strongly built filly, with good back and immense hips. The only other filly anywhere near her was Rowena B., also by Maxim. She died at two years old, and Ab Stemler's filly has been the undisputed queen of California ever since. Fleur de Lis is named after the famous English mare owned by King William IV., the "sailor king" of sixty odd years ago. She was by Bourbon, and hence her name. In 1826 she carried 115 pounds and won the Doncaster Cup, then two and three-quarter miles, beating Mulatto and Humphrey Clinker; and the next year Mulatto and Mennon both beat her in the same race. The Ascot Cup was then called the Drawing Room Stakes, and for that event she ran third to Bobadilla and Souvenir. In 1829 she won the Goodwood Cup with 129 pounds, beating Mameluke Varna. In 1830 she carried 135 pounds and won it again, beating Zingane 136, and The Colonel, 139. In 1831 she was pulled to let Priam win, and stewards of the jockey club not only disqualified her and her rider but also ruled her royal owner off the British turf. That is the way that Gen. Wade Hampton of South Carolina came to get hold of Sovereign.—Capt. T. B. Merry in Los Angeles Phoenix.

IF you want to see race horses, you should see some of those at Montgomery Park. The stables belonging to J. W. Schorr & Son, C. J. Patterson, J. C. and Abe Cain, T. P. Hayes and others are in the very pink of condition. Ornament, looking better than ever, has worked a quarter in 25½; Meadowthorpe in 26 and Algol, his stable companion, in 24½ and of course the talk is all Algol. But it was the same last spring. He could work a quarter or a half faster than anybody's horse, yet did nothing. Knowing ones say he is purely a sprinter and will not go a route. Ornament is the horse. Charley Patterson makes no complaint about the weights in the Brooklyn and Suburban Handicaps. He says he always thought his colt would get the top weight. He has received offers from different parties who wish to buy Ornament and says he can be bought at his price, although he is not anxious to sell. J. M. Murphy's Carnero looks good and is taking his daily gallops. Streamer, the Topgalant colt is also doing remarkably well. Mr. Murphy will ship from San Francisco about March 1. Andy Blakely ships the jumpers Capt. Peirals, Southworth and Col. Weightman in the same car. Captain Rees tells me he will go to San Francisco about March 1 to resume his position as presiding judge at Ingleside. John J. Carter will probably leave there when Captain Rees arrives, as he will preside at Nashville when they open April 1.—Memphis Cor. Daily Racing Form.

THE WEEKLY  
**BREEDER AND SPORTSMAN**

WM. G. LAYNG, EDITOR AND PROPRIETOR.

The Turf and Sporting Authority of the Pacific Coast.

— OFFICE —

No. 313 BUSH ST., SAN FRANCISCO  
P. O. BOX 2300.

TERMS—One Year, \$3; Six Months, \$1.75; Three Months, \$1.  
STRICTLY IN ADVANCE.

Money should be sent by postal order, draft or by registered letter addressed to WM. G. LAYNG, 313 Bush St., San Francisco, Cal. Communications must be accompanied by the writers' name and address, not necessarily for publication, but as a private guarantee of good faith.

San Francisco, Saturday, February 19, 1898.

To Our Friends.

It is with a deep sense of regret that we feel called upon to remind our delinquent subscribers that we need money. The work of publishing such a paper as the BREEDER AND SPORTSMAN has been and will continue to be, costs money; that cost must come from those who profit by the perusal of its columns. We believe that we can say, without a shadow of egotism, that the BREEDER AND SPORTSMAN is the author of more good racetrack legislation, and the fountain of more fruitful information upon the question of breeding than any other paper in the State. If our friends throughout the country concur with us in this opinion (as we know they will) we hope that each one will make an effort to remit to us at once. The sum due from each is small, but in the aggregate it is large. This money we need. We hope that our friends will respond to this appeal without delay, as they have already been notified.

A National Anti-Pool Room Law.

The BREEDER AND SPORTSMAN learns from a reliable source that Senator Mason, of Illinois, is to introduce a bill in the Senate prohibiting the telegraphic transmission of racing results except to newspapers of general circulation and admissible as such to the mails. The purpose of the measure is to keep the Western Union Telegraph Company from furnishing news to the thousands of pool-rooms scattered throughout the country. The author of the bill is a lover of legitimate racing, but, like thousands of others, he does not want to see it either killed by the influence of these dead-falls or maintained at such a terrible cost. As the octopus of the track (which is responsible for these hell-holes) derives its rights and powers as a common carrier from the general government, national legislation is the only thing that can reach it. The right of the government to regulate the transmission of news by wire is as clearly established as its right to regulate the transmission of mail matter. The unwritten law which declares that anything which is against public policy or public good is unlawful brings the telegraphic monster within its per-view.

The law which excludes the Police Gazette from the mails on the ground that its influence is debasing and therefore against public policy applies with equal force the metallic scavenger. With this principle of law firmly established, and a public sentiment behind it such as comes from the great State of Illinois, which has so long been the seat and the home of the notorious downtown pool-rooms, there can be little doubt of the passage of this measure. If Senator Mason succeeds, as we firmly believe he will, in placing this bill upon the statute books of the nation, he will not only have earned the gratitude of millions of anxious parents, but that of all true lovers of the blooded horse.

As we are about to go to press we received a long communication from F. W. Kelley relative to the proceeding of the National Trotting Association Congress. The final paragraph is to this cheering effect:

"The Congress was a success and was attended by the prominent horsemen and breeders throughout the United States. The prospects are good for harness racing in the in East this year. The prices of horses have increased fifty per cent, and there is now more interest manifested than for several years past and a great number of horses will be trained."

The Octopus Lives.

It is the earnest wish of everyone, bookmakers, horse-owners, trainers, and the public generally, that the sending of information from the tracks prior to one o'clock each day be suppressed. There is too much publicity given to the racing game as matters stand at present, and this publicity becomes obnoxious to everyone who has taken an interest in the perpetuation of racing as well as to business men who are beginning to look with horror on the existence of bucket shops or pool-rooms in such close proximity to their places of business.

The bookmakers who pay heavily for the privilege at the race tracks, as well as the men who pay for the programme privilege, have just cause for complaint, for almost as good odds are offered in the pool-rooms as may be had at the tracks, while the frequenters do not have to pay for carfare or tickets of admission.

Men, women and children frequent these places, and if for no other than the morals of the community these dens should be closed. The three evening paper proprietors publish daily racing editions at 10:30, sell them to newsboys at the low price of three for five cents, and the army of children engaged in selling them, when they should be in school, shows to what straits these papers are resorting in order to get some return for their investments.

The wrong we have pointed out is so great that words fail to express how deeply rooted it is, and how seriously its present existence will affect the future of this industry. Many men of wealth have brought their horses from the East and others have purchased horses here since last November. Our books show that over \$70,000 was paid to the breeders of thoroughbreds in California in six weeks. If this idea of allowing the telegraph company to send the news about the race tracks to this city prior to one o'clock, as well as to every other leading city continues, we tremble for the great industry which has made this State famous, and feel that all who have invested thousands in improving and beautifying as well as building our race tracks, will be in the same condition, financially speaking, as those who were interested in the race tracks in every one of the leading states of the Union which were rendered useless by the work accomplished by the octopus of the track and its feeders, the Western Union Telegraph Company and the downtown poolrooms.

The BREEDER AND SPORTSMAN, for fifteen years, has devoted its columns to inducing horsemen to come here, and so far its mission has been very successful. There never was a horse that started in a race here or in any part of the world that has not received a notice in its columns during all that time, while the daily press on account of limited space, has only been able to make a few notes of the most famous ones. Its power has been felt everywhere, and it is with pride we take a retrospective view of what it has accomplished for the good of the turf, track and breeding interests, and see what it has advocated and accomplished.

We advocated among other things: Winter racing in California many years before we had any; the purchase of new tracks and better accommodations; paid officials; the lowering of judges' stands; rearrangement of the grand stand so that the public could have an unobstructed view of the races; the adoption of numbered saddle cloths; the use of the Australian starting gate; the introduction of the annunciator; long-distance racing; the naming of stakes and inducing hotels and individuals to subscribe for these after the stakes were named for them; employment of patrol judges, and paid handicappers whose identity should be known; raising the scale of weights so that jockeys could remain longer in the business and become more proficient in the art. The only thing we have advocated which the two jockey clubs have not adopted is the introduction of an electric timing clock. Now that racing has been placed where we have always hoped and claimed it would be, we hate to see the magnificent structure made to wither and decay by the insidious actions of a selfish monopoly that cares nothing for the sport for sport's sake, but only for the dollar it can take from the associations and the people. That monopoly is "The Western Union Telegraph Company."

To Trotting Horsemen.

The interest being taken this year in the breeding problem by all owners of good mares augers well for the future of light harness horses in California. These owners are educated and know that there is a demand for good horses, a demand that comes not only from

European buyers, but also from those in America. The events that have left their impression on the light harness horse of America during the past five years have not been forgotten by those who have retained their interests in this industry. The tin-cup records, high prices received, promiscuous breeding for pedigrees alone, the disgust of those who purchased nondescript animals which had nothing else to recommend them, the over-supply of horses and introduction of electric motors and bicycles which had the effect of lowering prices, and the dispersal of so many large holdings of fine horses among the leading stock farms of America, have had the effect of scattering good horses where their value is appreciated and relegating the poor ones to the peddler's wagons and the bone yard. Thousands of stallions have been "added to the list," or, in other words, "gelded," leaving only those that had merit to perpetuate the race. Owners of mares have become more careful regarding the breeding of them to good horses, as stated above, they are educated. They know what they want and what they have every reason to believe they will have if they breed their mares. Stallion owners who advertise in the BREEDER AND SPORTSMAN are astonished as well as delighted to receive letters from all parts of this Coast asking further particulars regarding them. The conclusion arrived at is that more mares will be bred this year than for any for any other season since 1891. A man who owns a good stallion and does not advertise him will regret it, for those who have done so are more than pleased. A word to the wise is sufficient.

A Sovereign Remedy.

If one was to ask any noted horseman what is the most useful and effective remedy for removing bunches from horses and live-stock the answer will be: "Gombault's Caustic Balsam." It has stood the test of time and has proven to be the most invaluable one discovered. On one of our pages is a list of testimonials from a few picked up at random from among thousands, and they furnish information which is worthy of the careful perusal of every horse owner not only in America but in the world. There never was a remedy like it, it is unapproached and unapproachable. Here in California where over one thousand horses are raced throughout six months of the year, every trainer keeps a supply of this balsam on hand and swears by it. If any of our readers has a horse that has any ailments for which this balsam was made to cure we take pleasure in recommending it. One trial will prove its efficacy.

It is a serious question and one which appeals to every farmer, every breeder, every merchant and every taxpayer in California. We have discovered the disease which destroyed the confidence of the public in this great industry and in our columns have pointed out the only remedy. Will it be used? No time is to be lost. If anything is to be accomplished it must be done now! The longer this disease is allowed to progress the more difficult it will be to cure. We do not wish to dictate to the jockey clubs what their duty is. We have every reason to believe that they are managed by men gifted with more than ordinary keen business acumen. Men who have become noted in California and the East for their sense of justice and fair play; men who have devoted their time, energies and wealth toward making these tracks famous and we earnestly believe they will not hesitate to protect their interests when such dangers seen and unseen surround them.

The American Shearer Company has made a horse clipping and cleaning machine which is superior to all others manufactured. For simplicity, strength and durability it stands at the head of all others, and should form part of the paraphernalia of every well regulated stable in the land. The price is remarkably low, and as they are on exhibition at Baker & Hamilton's large store corner of Pine and Davis, a cordial invitation is extended to all to inspect them. It is the only high grade ball-bearing machine manufactured.

The Saratoga Association advertises its list of stake events in this issue, entries for which close March 1st. No horseman can afford to overlook Saratoga this year. Splendid purses are offered and the conditions are very liberal.

"The California Nugget," issued by the Mechanics' Fair, is about the rankest fake that has ever made its appearance in San Francisco. This is saying much, but much can be said of this thing, not on what it contains, but on what it does not contain. The only good feature about it is its limited circulation.

REMEMBER entries for the Highland Park, Fort Erie, Windsor, and Montreal Stake will close next Monday, February 21st. The stakes are valuable and the conditions most favorable. Horsemen who contemplate going East this spring should not overlook these splendid meetings.

THE big trotting meeting to be held at Highland Park, Detroit, commencing July 11th, promises to be of grand circuit proportions. The track is one of the finest in the United States, climate is unsurpassed and management perfect.

#### Spring Races at Overland.

The members of the Overland Trotting and Running Association met last Monday afternoon and arranged the programme for the meeting to be held at Overland Park, June 11th to 25th inclusive, excepting Sunday, June 19th. There will be no less than two harness, two running and a handicap race each day. The handicap purses will be \$300, the running races \$200, trotting and pacing \$500 and \$1000. For the gentlemen riders there will be special prizes. The prizes for these races are commencing to be received. The principal one will be a gentlemen's speed wagon, given by the Neff Brewing Company, now being built by Edward Matthews.

The association desired to have three ladies' days, Wednesday, the 15th, Tuesday, the 21st, and Friday, the 24th.

The American Turf Congress rules will prevail throughout the meeting. All the running races will be overnight events, the races being made in conformity with the horses in the paddock.

The members of the association are members of the Trotting Association, which is a guarantee that the races will be equal to those run on the Eastern tracks. The association is also a member of the Western circuit, which opens at Colorado Springs on May 30, continuing until June 4. Then comes the Denver races, June 11 to 25; Omaha, June 28 to July 2; St. Joseph, Mo., July 4 to 8. Directly after the Omaha harness races there will be two weeks of running races. The association has rented room 50 in the King Block, over the Western Union Telegraph Office, which will be the headquarters until after the races. The programme is as follows:

Saturday, June 11—2:09 class, pace, \$500; 2:25 class, trot, \$1,000.  
Monday, June 13—Two-year-old pace, \$500; 3:00 trot, \$500.  
Tuesday, June 14—2:30 class pace, \$500; two-year-old trot, \$500.  
Wednesday, June 15—Ladies' Day—3:00 class, \$500; road wagon race, \$500; 2:15 class, trot, \$500.  
Thursday, June 16—2:12 class, pace, \$500; 2:45 class trot, \$500.  
Friday, June 17—2:19 class, pace, \$500; 2:20 class, trot, \$500.  
Saturday, June 18—2:25 class, pace, \$1,000; free-for-all trot \$1,000.  
Monday, June 20—2:45 class, pace, \$500; Three-year-old trot, \$500.  
Tuesday, June 21—Ladies' Day—2:15 class pace, \$500; pole team trot, special prize; 2:30 class trot, \$500.  
Wednesday, June 22—Three-year-old pace, \$500; 2:12 trot, \$500.  
Thursday, June 23—2:22 class, pace, \$500; 2:10 class, trot, \$500.  
Friday, June 24—Ladies' Day—Road race, special prize; 2:35 class, pace, \$500; 2:32 class, trot, \$500.  
Saturday, June 25—Free for-all pace, \$1,000; 2:28 class, trot.

THE retirement of T. C. Anglin from the breeding ranks is bringing to the front a lot of interesting bits of breeding history. When he began breeding he owned a daughter of Mambrino Chief, called Pickles, and he bred her to Dr. Herr's stallion Mabrinio Patchen, securing a filly he called Betty Brown. When Betty Brown was old enough to breed, Mr. Anglin sent a negro boy with her to Dr. Herr's farm, with the request that she be mated with the best sire there, supposing that Dr. Herr would know the filly was a daughter of Mambrino Patchen. Dr. Herr, not recognizing the filly, mated her with her own sire, and the produce was a filly that was named Kitty Patchen. This Mambrino Patchen mare, when bred to George Wilkes, produced a black colt that was sold to Henry C. Jewett when a two-year-old. The Buffalo man named it Patchen Wilkes, now one of the most beautiful of our light harness stallions, and the sire of Joe Patchen 2:0 1/4.

#### SATURDAY'S STAKE-WINNERS.

Both Were Daughters of the Dead Maxim and Bred at Rancho Del Paso.

NAPAMAX, b f	Imp. Maxim	Musket	Toxophilite .....	Longbow
			Daughter of .....	Legerdemain
			Vespasian .....	West Australian
			Hopeful Duchess .....	Brown Bess
			Imp. Leamington .....	Newminster
			Lida .....	Vesta
Napa	Enquirer	Realization	Imp. Bonnie Scotland .....	The Flying Dutchman
			Evadne .....	Espoir (never beaten)
			Fifth dam, Vandal's dam, by imp. Tranby .....	Faugh-a-Ballagh
			Trampator—7th dam, Lucy, by Orphan .....	Daughter of Pantaloon
			by Robin Grey, and on to the 21st dam, the Montague mare.	Lexington
			Napamax comes by her racing qualities honestly, her sire and dam being stake-winners, while she traces to the same source on her mother's side as did Salvator, The Bard, Leonatus, Luke Blackburn, Volturino, Ornament, etc.	Lize

FLEUR DE LIS, b m.	Imp. Maxim	Musket	Toxophilite .....	Longbow
			Daughter of .....	Legerdemain
			Vespasian .....	West Australian
			Hopeful Duchess .....	Brown Bess
			Citadel .....	Newminster
			Babta .....	Vesta (by Stockwell)
Fleurette	Imp. Glenelg	Realization	Virgil .....	The Flying Dutchman
			Florence .....	Espoir (never beaten)
			Fifth dam by Irish Birdcatcher—6th dam, Colocynth, by Physician—7th dam, Camelina (sister to Camel), by Whalebone, and on to the 19th dam by Bustler (son of Helmsley Turk).	Stockwell
			Fleur de Lis is by the practically undefeated Maxim out of Fleurette (sister to Firenze) and the dam of Flurry and Silver II. Her third dam, Florence, was the mother of the great Hindoo and the stake-winner, Mollie Walton, while the fourth dam, imp. Weatherwitch, threw Fonso, winner of the Kentucky Derby, etc., etc. She has a large number of Tramp crosses, and this is the scarcest good blood we know of.	Sortie

#### Special Department.

[Continued from Page 155]

Grant that the plea of the person who was punished for the least divergence of form displayed by his colt in three consecutive races and within so short a period as seven days is in the main correct, and still be guilty of starting him when he was totally unfit to take part in a race. Knowing from the work given that he was not in condition, or from natural lack of speed, that the "odds were justified" before the first race, and in that giving proof that he needed schooling in the way of practice at the barrier, which also warranted the still longer odds on his second essay, he could not expect that the judges would do otherwise than inflict punishment when the third race showed such a surprising reversal of form, an anticipated reversal as the betting conclusively demonstrated.

A great many critics will refuse to accept exculpatory evidence, of any kind, in opposition to the testimony presented by the races and the sheets of the bookmakers, and hence if permitted to pass, without being punished, an injury inflicted that would be seriously felt in the future.

JOS. CAIRN SIMPSON.

Barney H. Demarest, Baltimore.

I am not certain that the Speed Sustaining Elixir does all claimed for it, but I think it does. If I had to pay \$100 for it instead of \$5, you would get the \$100 before I would do without it.

I have used the Speed Sustaining Elixir and know it to be all right. I cheerfully recommend it. DICK WILSON.

#### TWO FINE YOUNG STALLIONS FOR SALE.

One a trotter and the other a pacer, bred in the most fashionable strains. The trotter is one of the finest individuals and GRANDEST BRED horses on the coast, and a great stock horse, as his produce show. For particulars, pedigree, etc., address, G. W. STIMPSON, V. S., 698 24th St., Oakland

#### HOOF-BEATS.

OUR Honolulu letter was crowded out this issue. Light harness horse racing will "boom" there this year.

INFLAMMATOR, by imp. Brutus, won a mile and a quarter race in the mud at New Orleans Thursday. He is one of the few by Brutus fancying a heavy course.

CHAS. W. MOORE, has purchased from Milton Young, McGrathiana Stud, the bay mare Basque (full sister to Ren-saller), by Hayden Edwards—The Belle, by Rayon d'Or.—Thoroughbred Record.

BARER & GENTRY have sold to Edwards & Arnold, of Virginia, Calculator, ch c. 4, by Harry O'Fallon—Fleta, and Margie E, b f, 3, by Harry O'Fallon—Virgie Johnson. Price private.—Thoroughbred Record.

H. L. FRANK, the Montana turfman, had two entries Thursday (El Mido and Senator Bland), and both were favorites and won in fine style. Trainer Johnny Campbell had them fit to run for a large-sized kingdom.

ALL the horses at the Walnut Grove Stock Farm including Prince Ansel are doing splendidly. Feed is plenty and the stock is fat as butter. We expect to see considerable money won by the youngsters from this farm this season.

STARTER FERGUSON was very much elated Thursday over a piece of news he had just received, which was to the effect that Marie Jansen, own sister to Duchess (Clifford's dam) had foaled a fine bay colt by imp. St. George, sire of St. Lee, George Lee, Schiller, &c.

MR. D. T. PULSIFER, of New York, arrived in Lexington Thursday on a visit chiefly to his old favorite, Tenny, and the broodmares which he has at Beaumont Stud. Mr. Pulifer has a couple of Tenny two-year-olds in training in the East which he thinks are likely to prove almost as great race-horses as was their sire.

OUR BOY, 2:12 1/2, has changed his residence to Honolulu and now his owner Wm. Cunningham has changed his name to "Wela Ka Hao." How would Brother Bunch get his tongue around that name if he had to lift this horse in under the wire in a close finish. Its dollars to doughnuts he would yell: "Hi Ky!" Pure San Jose English.

SALLIE CLIQUOT, five years old, by Salvator out of Widow Cliquot (sister of Dry Monople), by imp. Glenelg, has been retired from the turf. She arrived in Lexington on Tuesday and will join the band of broodmares at Elmendorf. Sallie Cliquot is owned by J. B. Haggin, but was raced very successfully by G. B. Morris, who has had her running qualities.—Thoroughbred Record.

THE Pacific Coast Jockey Club announces that in future two-year-olds must be thoroughly schooled at the schooling gate before starting in a race. The assistant starter will be in charge of this gate to render such assistance as is necessary and only upon a favorable report from him will entries be accepted. No entry will be accepted from any stable not provided with a trainer's license.

K. K. ALCOCK has left Lexington, and returned to the scene of his former triumphs—New York. It is rumored that he will probably sail for France in the spring to take charge of the stable which a prominent American will own. Few trainers in America have handled more great horses than Mr. Alcock. Among them are Harold, Louissette, Thackeray, St. Augustine, Sir Hugh, Lou Lanier, Annie Augusta, and hosts of others.

THERE was as many as 200 people in attendance at the Mining Fair last Wednesday night. This thing, which was launched upon the public with a flourish of trumpets as a mining exhibit, is meeting with the fate it deserves. The purpose for which it was inaugurated was a laudable one, but the purpose for which it has been used is one that merits public condemnation. Mock marriages and catch penny side shows are not to the liking of San Francisco people.

THE jury in the case of Sidney Perry and William Dunn, charged with making book on races, failed to agree yesterday afternoon in Police Judge Low's court, and the case will be retried. Police Sergeant Davis and Officers Tyrrell and Naylor testified that he had visited the pool-rooms at No. 204 Stevenson street with a search warrant and had obtained pool tickets and letter-heads of Dunn & Perry. These were introduced as evidence, together with photographs of the place. Sergeant Davis testified that previous to this a boy was given 50 cents, which was paid Dunn for a "straight" ticket on the horse Fortunate. The police subsequently visited Dunn in citizens' dress. Prosecuting Attorney Reynolds asked the Court to allow the jury to visit the premises, but an objection from the defendants was sustained. The jury was out half an hour, but could reach no agreement, and was discharged.

#### Do You Want a 2:10 Trotter?

# BOODLE, 2:12 1/2

The Only stallion with a Fast Record in California that has Produced a 2:10 Trotter. This he did the First Time.

—SIRE OF—

ETHEL DOWNS, 2:10 (first foal); THOMPSON, 2:15 (second foal); VALENTINE (2), 2:30, AND OTHERS

BOODLE will be on the turf again this year and every year until he makes all horsemen realize that

"Trotters may come, break down and go,  
But the Boodle's train on forever."

If you don't breed to BOODLE, you will not get a BOODLE Colt. Send for tabulated pedigree.

**TERMS, \$100, Payable at Time of Service.**

## Brentwood Stock Farm.

Those who haul their grain to Babbo landing during the 70s will remember the appearance of the place then—the unpainted domicile, the primitive and unthrifty appearance of the place, with naught to please the eye save the sweep of vision, magnificent in its distances, or the rank, green growth of sage and tule, with a few tilled acres of potatoes or alfalfa.

But a radical change has come to the old landing. No longer are the long lines of wheat-laden teams enroute to the Embarcadero to be seen. The railroad has stopped that long ago. But the ranch has been put to other uses and presents, under the changed conditions, a lively and greatly improved appearance.

Mr. Dutard, the enterprising commission merchant of 125 Davis street, into whose hands the property has passed, is utilizing it for a stock farm—more properly a pasturage and hospital farm for the care and keeping of race horses. The soft, yielding soil of the tule land has been found beneficial to the horses' feet or strained tendons, while the change from stable feed to the young and growing alfalfa renovates and rejuvenates them, so much so that owners, after their stock has been "out" at the farm for a short time hardly recognize them.

In the furtherance of this plan Mr. Dutard has placed the ranch under the competent management of Frank Nugent, and has built a beautiful modern dwelling, with windmill and tank complete, located near the head of the canal. He has moved the old house and thrown up an entrance roadway, skirted on both sides with palm, orange and other trees, and has built three commodious barns, one on the easterly side of the ranch near the Gordon line, one on the large knoll where the burnt house stood, and the other near the old barn. He has also constructed a building of oval form, composed of large, roomy stalls, double lined, probably twelve feet square, with projecting roof that affords a protecting shade all round the building; and also large paddocks, double lined, with plank ten feet high, to insure safety of the thoroughbred stallions and other animals entrusted to his care. He has also constructed cross fences; in fact divided the whole 320 acres into small fields, into which to transfer or keep separate the horses when running loose upon the growing alfalfa. The buildings, with the many paddocks and sub-divisions, have the appearance from a distance of a colony, with its segregated fields.

Water has been conducted into each of these enclosures from the canal, and drain ditches with a substantial fence on each side conduct the drainage water to a pumping station, where a stationary engine lifts it over into the canal.

From appearances, no money has been or is being spared to make this an ideal place for the tired racer, the broodmare, the yearlings or the stallion—in fact a stock farm that will have, when completed, no equal in California.

There are at present 185 head of horses on the place, but facilities will be offered for treble that number.

Another improvement is a telephone line connecting Brentwood and the main line with the ranch. We noticed also a gasoline launch, out on the bank for repairs, evidently for the use and pleasure of the proprietor, or visitors desiring a spin on the river or a raid on the striped bass that are found plentiful in their seasons in the waters. We expect, in the course of events, a training track will be added for the education of the youngsters, and then the Dutard farm will come to the front as one of the leading objects of interest and resort of Contra Costa county.—Antioch Ledger.

## Australasian Notes.

St. Cuspin, winner of the Great Northern Derby in New Zealand, is by St. Leger out of Tingara, and belongs to D. Stewart. G. G. Stead's ch c, Gold Medalist, who ran second, won the Royal Stakes two days afterward, St. Cuspin finishing second. This was at six furlongs. H. T. Gorrie's McZol, by Turquoise, won the Auckland Steeplechase and D. McKinnon's Picklock, by Flintlock—Pikau, the Newmarket Handicap.

Old Clo, winner of the Tattersall's Cup, two miles, in 3:32½, 117 pounds up, at Randwick (Sydney) is by Lochiel—Tatters. She will be sent to England. Levar, Lochiel—La Valette, won the Perth Stakes (126 pounds) and the Perth Cup (133 pounds). A Lochiel (Loch Marie) won the Carrington Stakes, six furlongs, in 1:13½, carrying 123 pounds. She also won the Pace Welter in 1:15 flat, carrying 163 pounds. How's that for a performance over a turf course, in a field of nineteen? Cherry, by Lochiel (by the way a son of Prince Charlie) won the New Year's Gift in 1:14. Duddington, by Lochiel—Dainty, won the Welter Handicap.

R. Lewis heads the list of winning jockeys in Victoria by a long margin with 28 wins, 15 seconds and 15 thirds out of 109 mounts.

Lucky Dog, a bay colt by Martini Henri—Uralla, therefore brother to Utter, won the Nursery Stakes at Randwick with 119 pounds up, time 1:02½. Tom Payten, who used to train for the Hon. James White, owns Lucky Dog.

## To Horsemen!

CHICAGO, February 10, 1898.

EDITOR BREEDER AND SPORTSMAN:—F. J. Berry, Union Stock Yards, Chicago, Ill., would like to say to the people through your valuable columns that they need not have the least fears of any prohibitory movement by Germany against importation of our American horses for the following reasons: First, they are short of horses, and can buy American horses very much cheaper than they can raise them, as their land is so scarce and dear. It is true they hate to see one to three millions of their money leaving their country for American horses, and are willing to give a pretense to exclude them on influence, and if this movement should prove prohibitory the importation of American horses to Germany would not make the least difference to us, as the export demand is so strong, and there are so many foreign countries buying our horses in large numbers that the German market will make no difference to us whatever. We already have a very strong export demand from England, Ireland, Scotland, Belgium, France, Norway, Denmark, Sweden, and some of our horses go to Italy, Africa, Mexico and South America, and we could sell for the export demand three times the amount of American horses that we do sell if we had them good enough for the export demand. The exporters take only the good kinds and these good classes of horses have already begun to get very scarce and are getting higher, and there is no reason why they will not get scarcer and higher every year for many years to come, as it takes five years to breed and raise horses for service, and unless our people go immediately to raising and breeding horses, there must be a shortage in this country in a few years at the most, we have a plenty of the small, lower grades which are very unsalable and they will remain cheap with us.

In addition to the export demand, we have a very strong American demand, and all American markets want good horses, and this with our export demand will make a very heavy call upon our American supply of good horses which is reduced about three millions since 1894, and a much larger per cent in quality than they are in number. Fifty thousand American horses were exported in 1897, and there will be a much larger number this year.

The objection to American horses on account of influenza is all fictitious, and a pretense without any foundation. Horses that are shipped from one place to another, even in this country, the change of air and climate always brings on a cold, or acclimated fever called influenza, and I very much doubt if there is anything contagious about it, and when a horse is once shipped in about seven to twelve days it is liable to make its appearance, although a large per cent of them escape this sickness, and sometimes it is called catarrhal fever or acclimated fever or distemper or influenza, and I doubt very much about its being contagious, as I have made this a study all my life, and I would just as soon stand a valuable horse right beside the one that had the distemper, it is the result of the change and usually comes from a cold while shipping, and should a horse have it when he left this country, he would either be over it by the time he arrived in Germany unless it proved fatal, and not one horse in 100 distemper. It is easily taken care of as a cold in a person by a little good care, and acconite will bring drops or attention from the veterinary surgeon and will bring him through all right. Our American horses were never more healthy than are at present, there can be no objection to our horses on account of sickness and disease, it is a trumped up charge, either by ignorance or maliciousness, but as far as trade is concerned does not make any difference, for we have a very strong American and foreign demand, which gives us the strongest kind of a demand, and it is believed by our best judges that there is going to be a scarcity and a great shortage of good horses upon us in a few years at the most.

## Never Found Its Equal.

Mr. A. M. Stewart, prominent merchant at Liberty, Ohio, writes: "Enclosed find order, for which send four bottles of Quinn's Ointment. I have used it myself and never found its equal for curbs, lumps and puffs." Use Quinn's Ointment for Curbs, Splints, Spavins, Windpuffs and all bunnies. Price, \$1.50 per package. For sale in San Francisco by Messrs. J. A. McKerron and J. O'Kane. If you cannot obtain it from druggist or dealer, address W. B. EDDY & Co., Whitehall, N. Y.

## REPORT OF CONSTITUTION AND RULES COMMITTEES.

NEW YORK, January 24th.—To the American Kennel Club, Gentlemen: Three amendments to the rules were recommended by Mr. James B. Blossom; notice of two of them was given at the meeting of the A. K. C. of December 16, 1897, and referred by that meeting to this committee. The third notice was presented to this committee at one of its sessions—By-laws, Section 3, Rule 12, Class 6. After the words, "one of which must be in the free-for-all class," add the words, "and one in the senior class," and after the words, "No class winner can be withdrawn from competition in the winners' class," add the words, "except those dogs which have already won their championship." Also an amendment to abolish the puppy classes. These amendments are not approved by your committee, as will appear later in this report.

The amendment recommended by Mr. G. M. Carnochan at said December meeting, and also referred to this committee, reads as follows:

"That at all bench shows dogs having won a prize in any class shall not carry the ribbon showing such win in any subsequent class at the same show."

Your committee believes that the object of the above amendment is a good one, but disapproves of its adoption upon the ground that it would not be practical, and the inability to enforce such a rule would make it a dead letter.

The objections to the new classification that are now found to exist, and the presumed hardships, as have been claimed by correspondents, that would hamper and discourage clubs from holding shows, cannot be blamed to your committee, and it most decidedly declines to assume the responsibility of the cause that has led to the present opposition to said classification. Your committee did not in any sense initiate the change, and as it has no personal motive in attempting to maintain the classification, nor is it at all wedded to it, therefore it will at the coming annual meeting recommend a change that will, in its opinion, remove all cause of complaint by both show committees and exhibitors. The committee feels that in justice to itself it should make the following explanation of its action, and place the blame, if any exists, just where it belongs.

Early last spring a decided desire was expressed by several of the delegates that a new classification should be adopted, following more closely in the lines which govern English shows; that the old classes were misnamed and therefore misleading; that through and by a little good management mediocre dogs were winning championships by virtue of non-competition in the challenge class, and that the increased interest in dogs and increased number of shows demanded a new set of classes, properly named and in keeping with the general advance of kennel affairs in this country. English classifications were obtained from abroad and sent to your committee, which was urged to recommend a similar classification. The classes and their definitions certainly appealed to the judgment of the committee, and after a number of sittings the present classification was evolved, the names of the classes being Americanized. That the work entailed a vast amount of labor should be obvious to all thinking persons.

After completing its labors and before publishing the report in the Gazette, one proof copy of the report was sent during July to the Pacific Coast Advisory Board and one to the then existing Canadian Advisory Board, with a request to said boards to consider the rules carefully and recommend any changes that might be deemed necessary for the best interests of this particular territory over which they had jurisdiction. During the visit of your secretary, who is a member of this committee, to San Francisco in August following, he, at a meeting of the Pacific Advisory Board, at which a large number of members of specialty clubs, breeders and exhibitors were present, requested a discussion on the subject of the then proposed rules, no one, with but one exception, evinced any interest whatever in the proposition, and did not respond in any way to the invitation. At no time during the stay of your secretary in that city was he given to understand that any objection to the rules existed. In the meanwhile the agreement with Canada was annulled, and therefore no recommendations on the subject of rules were expected from that quarter. The report of your committee was published Aug. 31, and when the rules finally reached your body for final action at the September meeting they were adopted with but a few minor changes.

To show further, each club knew, or ought to know, just what was being done, and by their silence and failure to instruct their delegates to suggest changes, or vote against the measure, practically gave consent and indorsed the rules. It would be well for you to remember that the proposed rules were published in full in the Gazette, and a copy of them was duly mailed to each delegate, and an additional copy to each

club, through its Secretary, and therefore, with all the publicity given to the matter, it naturally became a fair inference that no objection existed to their acceptance and final adoption. Further discussion was invited by several of the sporting papers, but none of any account was had. Private letters have been received of late from men holding office in clubs objecting to the rules as they now exist, and suggesting certain changes and modifications. One of the leading Pacific Coast clubs believes that the money qualification demanded for winners' class will handicap the shows on that Coast, and suggests that an exception be made for that territory. One of the leading Eastern clubs expresses dissatisfaction, while, on the other hand, the rules are highly commended by many. Undoubtedly many wrong impressions exist, interpretations of rules that appear simple are asked for, and they appear generally to be misunderstood.

The greatest objection, as it appears to your committee, is the cash prizes that must be given in three classes, in order to prove a winners' class. This is a very small matter, if it is understood. Your committee, foreseeing, that to specify any amount might be a hardship, purposely left the amount to be determined by the clubs according to their means and location. The sum of \$1 per class, in three classes, would comply fully with the rule, and therefore your committee cannot believe that such qualifying clause can have a very great effect upon any club or in any location. The object in holding shows should be to improve the dog; to improve the dog competition is required, and although a dog may win its championship in less time under the new classification than under the old, yet it demands a better dog to do it. Your committee believes that the present rules are a marked advance over the old ones, and having now plainly stated the facts that led up to the adoption of the present rules, and reiterating the statement made earlier in this report, that it has no personal motive for attempting to maintain these rules, but on the contrary is anxious to meet the evident wishes of gentlemen who are and have been closely connected with the holding of shows for years, is ready to submit, and do hereby submit, for your consideration a new classification which it is hoped will meet with the approval of the show holding members of your body, and would recommend the adoption of the same at the annual meeting of the club to be held February 23d next. Ample time is now given to every club to instruct its delegate, if it desires or cares to suggest any changes.

CLASSES.

1. The puppy class shall be for all dogs over six months and under twelve months of age. No entry can be made or accepted of one under six months of age, or whose date of birth is unknown.
2. The novice class shall be for all dogs never having won a first prize at any recognized show, wins in the puppy class excepted.
3. The limit class shall be for all dogs never having won four first prizes at any recognized show, wins in the puppy and novice classes excepted.
4. The open class shall be for all dogs of any age over six months.
5. The winners' class shall be open only to the winners of first prizes at any show, giving at least three of the before-mentioned classes, one of which must be the open class, and the winner of three first prizes in this class will thereby become a champion of record, be so registered by the American Kennel Club, and will be entitled to an American Kennel Club champion medal. Before awarding "reserve" in this class, the dog or dogs having been placed second to the winner in any of the regular classes must be brought before the judge for competition with the remaining dogs in said winners' class. No class winner can be withdrawn from competition in the winners' class, and no entry fee shall be charged for said competition in this class. A dog that has already won one or more first prizes in the late challenge classes shall retain these wins to its credit toward becoming a champion of record, the remaining qualifying wins to be gained in the winners' class. The winners' class can be divided by sex, provided the required three classes are also divided by sex.

The above classifications to go into effect at once. Your committee would further recommend that Article XIII, section 4, constitution, be amended by striking out the entire section. The reasons for such recommendation are, first, that it is found to be impossible to create enough interest to be able to secure a quorum, and as a consequence no meeting has been held since August last, notwithstanding the fact that matters are in its hands that should have been attended to promptly; second, it is the opinion of a number of members of Pacific coast clubs that the existence of such a body on the coast is not necessary. It has been for months practically a dead letter, and its abolishment is recommended.

Finally, if such recommendations as above referred to are adopted, it will be necessary to strike out in the rules, following the classes, all references to the classes that have ceased to exist.

H. K. BLOODGOOD,  
Chairman for Committee.

NOTE.—The above report of the constitution and rules committee was mailed to the secretary of each club on the Pacific Coast on January 26, 1898, together with following questions to be answered and reason for asking such questions:

TO PACIFIC COAST MEMBERS.

What are your wishes regarding the continuance of the Pacific Coast Advisory Board?

If you are in favor of its continuance, in what manner would you desire its formation?

The reason for asking these questions is that several members of the Pacific coast clubs have expressed a wish for its abolition.

Further than that, no meeting of the advisory board has been held since August last because of lack of a quorum, and important business that cannot be acted upon by the A. K. C. until reported upon by the advisory board is thus delayed.

Meanwhile as no alteration of the constitution can be made except at the annual meeting, and of which notice has been published in the January issue of the Gazette, the committee has paved the way for any desired change by giving notice of an amendment to do away with the advisory board altogether. If nothing is heard from the receipt of this notice the presumption will be that the member favors the abolition of the board. All suggestions will be presented as amendments at the annual meeting by the committee on rules if the member is not represented by a delegate.—January A. K. C. Gazette.

French Bull-Dogs

The controversy which started a year ago about the qualifications and points of French bull-dogs has culminated in the withdrawal of the French Bull-Dog Club from co-operation with the Westminster Kennel Club. Now a separate show, for French bull dogs only, will be held in the "Sun Parlors" in the Waldorf-Astoria. The French Bull-Dog Club has withdrawn all its special prizes offered for competition at the bench show. Its members will also refuse to officiate as judges at the latter show.

The Sporting Review in a recent issue notes the question in the following style: "Reader, how art thine ears? Round? Square? Ovoid? Protuberant? Shell-like? Whatever their shape, is it safe to assume that they trouble thee not? They hear well, wear well, and worry thee not, say'st thou? But then, thou art human; thou art not a French bull dog! Think of the possibility of having been born a French bull-dog! Look at thine ears and shudder!

To be a French bulldog is to be surely loved by some one, and detested by some one else. If a French bulldog have "straight" ears, he may be sure of a "coddling" at the hands of some fair worshipper of the straight-eared type of French bull-dog, and of being kicked by some brutal admirer of the "rose-eared" variety, of "the ugliest thing that ever wore hair—or ate bon-bons!" Have you, gentle reader, ever seen one of these French bull-dogs "in the life?" They resemble nothing else in the world but a conglomeration of dog, bat and some rare species of Chinese fish, which we have seen hanging on the wall of a laundry. The ears of one "type" like two cakes of the kind which we, in our childhood, called "lady's fingers," possibly because they were so toothsome, stuck erds-on to the head of an over-grown bat. Their face looks like the mussed-up side of a kitchen mop, and the rest of their make up is "accordin'." Such an animal could not originate outside France, where, for instance, the frog is worshipped, and the inhabitants have never recovered from their appetite for rats, mice and other vermin—which they were forced to acquire because of the rudeness with which William's soldiers hemmed them in. We could imagine a man dining on any kind of frog, filet of rat, or ragout of mouse, drowning the whole in wormwood, and then designating a creature approaching somewhat to the French bull-dog. But it would only approach it.

Meanwhile, while we write, Dogdom is shaken to its deepest depths by the controversy raging over the question of "straight" or "rose" ears as appendages for patrician bull-dogs of French nativity. As yet the arguments have been confined to dog circles, but there is no knowing how far the discussion may spread unless speedily settled. The French Chamber is already boiling over, and, should an inkling of the grave crisis reached in French bull-dog affairs in greater New York reach the deputies, there is no knowing what scenes of riot and anarchy might result. We, at home here, are too level headed to allow an angry passion to be inflamed by our prejudices in favor of one or the other of important brands of "dog." The worst that can result from the present ebullition is the splitting up into factions of organizations devoted to dogs; and unless fresh fuel is added to the already hot fire, we do not see how the issue can be made a national one in 1901, along with free silver, free trade, free rum, free bread, free love, and other gratis propositions upon which the American public will sooner or later be forced to register their approval or disapproval.

Bow-wow!"

Coursing at Dixon.

The initial coursing meet held at George Ehmann's new coursing park at the racetrack at Dixon, Solano County, last Sunday, was a decided success. The weather was clear and warm as a day in June, and it had its influence upon the spirits of the crowd, which was the jolliest and at the same time the most orderly gathering of the kind ever assembled at the park. The attendance was very large, Sacramento, Davisville, Winters, Vacaville and Port Costa all sending good-sized delegations. The Sacramento contingent chartered a special car and brought their wives and sweet-hearts along.

The list of races was a long one, and the dogs were very speedy. The only disappointment of the day was the hares, which, notwithstanding the infinite pains that Mr. Ehmann took to secure the best, were rather a poor lot. A number, however, were unusually active and afforded rare sport.

The officials in charge of the match were very efficient and were much complimented. J. Kenealy as Judge and J. K. Heenan as Slipper gave great satisfaction in their difficult positions. C. H. Sevenning officiated as Slip Steward and B. Baumann as Field Steward.

San Jose Bench Show.

All indications up to date for a very successful and great bench show in the Garden City are more than reassuring to the ladies and gentlemen who are so energetic in the management and preparation of the coming show. The premium list will be issued about March 1st, this delay is unavoidable as the show will be held under the new rules of the A. K. C., which will be adopted on the 23d inst. Prospects for a fine entry of high quality could not be brighter. C. D. Nairo, of Ballston, Or., will judge all classes. The list of valuable special prizes is growing daily an every effort will be made to please exhibitors who enter their dogs at the San Jose show. Spratt's patent will do the entire benching and feeding. Nearly all of the most noted dogs on the coast have been booked for this bench show, and the number of promising new candidates for blue ribbon honors that will be entered, is also going to be larger, judging by the lively interest taken in the show by fanciers in all parts of the State. Chas. R. Harker, Esq., is the secretary of the club and will be pleased to answer all communications addressed to him.

Ingleside Coursing Park.

The attendance at Ingleside Coursing Park was large and enthusiastic last Sunday. Several surprises were sprung during the day and the talent was hit hardly on a few good things. The day was a beautiful one, and the sport lively up to 5 o'clock, when a thick fog set in from the sea and in a

short time became so dense that Judge Grace declined to go on, though there were but three courses to run to finish the stake. The first, second and third moneys were divided between Diana, Connemara and Susie. Mialmo won the Consolation Stake easily, Benalon being the runner up.

On Washington's Birthday and Wednesday following the third annual meeting of the Interstate Coursing Club will be held at Ingleside Coursing Park. There will be three events, The John Grace Challenge Cup, all-aged stake, with \$400 added; the Derby Puppy Stake, with \$150 added, and the Belle Brandon Cup, Sapling Stake, with \$100 added. The drawing for these stakes will take place this evening at Pythian Castle, 909 Market St.

Union Coursing Park.

The opening of the new coursing park, work on which is progressing favorably, will be under the auspices of the Interstate Coursing Club, of which I. F. Halton is President and Roy Scott is Secretary. On Saturday, February 26th, the initial day's coursing will commence and will be finished on the next day. Good purses will be added to entrance moneys. For information in regard to events, etc., we refer our readers to the announcement which appears in the advertising columns today in the WEEKLY AND DAILY BREEDER AND SPORTSMAN.

The St. Bernard Club Show.

The bench show of this popular and strong organization at the pavilion on Monday and Tuesday last was the best and most interesting feature shown to date in what has otherwise been a rather tame and ordinary exhibition purporting to be in the interests of mines and mining, but which has been bolstered up from day to day with all sorts of fake and pettifogging schemes to draw quarters from the pockets of a susceptible and unsuspecting public.

DOINGS IN DOGDOM.

The St. Bernard Lord Baassy, who is said to be the largest dog in England, will be on exhibition at the Westminster Kennel Club show.

We acknowledge with thanks the receipt from Curtis & Son of a fine photograph of Cavalier and Rosette, two of the good ones in the Santa Clara kennels.

We note with regret that the fine cocker spaniel, Major McKinley, owned by Mrs. J. H. Sammi, which was entered for the recent bench show at Sacramento, died by poisoning five days prior to the show.

Chas. Dresser has been doing a good business recently in the sale of dogs for use in the Klondike region. Among the sales we note, to J. Barrington, 8; O. A. Johnston, 1; Swain Bros., 1; J. M. Cobb, 1, and G. Kovistra, 1.

Dr. Theo. Rether's St. Bernard bitch puppy Bessie (Grand Master—Ramona W) attracted a great deal of attention and her markings and fine form was commented on favorably at the St. Bernard Club exhibition at the Pavilion.

SCHENECTADY, N. Y.

Sir:—One week ago to-day my Irish setter dog was taken very sick with the distemper. I sent for your Distemper Cure and used part of one bottle, and to-day my dog is as well as ever. I send you this, for I think I owe it to you. Yours truly, GEO. A. ROSA, 228 Union St.

J. B. Martin's fox terrier bitch Ch. Golden Jewel has just returned from her second visit to Toronto, Canada, where she has been bred to George H. Gooderham's Veracity. This dog, although only two and a half years old, has already proved his worth as a sire; the sensational winner of the recent show at Derby, England, Mr. Tinne's True, is by Veracity, also Bramcote Violet another winner at the same show.

It is reported that a very amusing and unusual thing happened during the third course at the new Dixon coursing park last Sunday. A young greyhound belonging to a party in Dixon started after a hare, and as the dog was new at the business his antics were such as to let the hare know that his enemy was not of a ferocious nature. They had not gone far when the hare quickly turned on his pursuer and chased the dog all around the course until the greyhound, seeing no way to escape, jumped over the fence. This information is given by a reliable citizen of Sacramento, and he says it was the first occurrence of the kind he has heard of in twenty years.

Kennel Registry.

Visits, Sales, Whelps and Names Claimed published in this column free of charge. Please use the following form: SALES.

Chas. Dresser (San Francisco) sold a Great Dane dog pup (Czar—Orchard Trailby, 40,365) to L. Douglas Truckee.

THE GUN.

NOTICE TO SECRETARIES.

If secretaries of gun clubs will send us the full scores of their regular monthly shoots we will be pleased to publish them; but we must receive the copy on Wednesday to insure its insertion that week.

The Grand American Handicap.

As the season for trap shooting is close at hand the interest and attention of sportsmen is already directed toward the coming events on the coast and incidentally to a number of the Eastern events, among which latter, the sixth annual Grand American Handicap, under the auspices of the Interstate Association, is the one at present of greatest prominence. This shoot will be held at Elkwood Park, Long Branch, N. Y., March 22-24. We quote from Shooting and Fishing the programme announced, as follows:

FIRST DAY, MARCH 22.—Elkwood Park Introductory—Seven birds, \$5 entrance, birds extra, 30 yards rise; three moneys, 50, 30 and 20 per cent; ties will divide. Nitro Powder Handicap—Fifteen birds, \$10 entrance, birds extra, handicaps 25 to 33 yards. The handicaps contestants receive for the Grand American Handicap will govern in

this event. This event must be finished the same day; therefore, should the entries be so numerous that it will be impossible to finish by adhering to the "three misses out," the association reserves the right to change the rule for this event, at any time it may be deemed necessary to do so, and drop all who have missed one or more birds. The number of moneys into which the purse will be divided will be determined by the number of entries received, as is fully explained elsewhere in this programme.

Brunchport Sweepstake—Ten birds, \$7 entrance, birds extra, 30 yards rise; four moneys, 40, 30, 20 and 10 per cent.

**SECOND DAY, MARCH 23**—The Grand American Handicap—Twenty five live birds, \$25 entrance, birds extra, not class shooting, handicaps 25 to 33 yards, 50 yards boundary with a dead line at the 33-yard mark; \$1,500 divided among the three highest guns—\$600 to first, \$500 to second, \$400 to third; all money in the purse in excess of \$1,500 will be divided among high guns other than the three first; the number of parts into which the surplus money will be divided will be determined by the number of entries received; \$1,500 guaranteed by the Interstate Association and all surplus added. In addition to first money, the winner will receive a sterling silver trophy, presented by the Interstate Association. Regular entries must be made on or before March 17, 1898, and must be accompanied by \$10 forfeit. The remaining \$15 may be paid up to the time the last man fires at his second bird. Penalty entries may be made after March 17, up to the time the last man fires at his second bird, by paying \$35. Entries will be received at the New York office, 44 48 Cedar street, P. O. box 605, by John L. Lequin, secretary-treasurer.

Should there be more than 60 and not exceeding 70 entries, all money in the purse in excess of the \$1500 will be divided 60 and 40 per cent to the 4th and 5th highest guns; 70 to 80 entries, 40, 30, 20 and 10 per cent to the 4th to 7th highest guns; 80 to 90 entries, 30, 20, 15, 13, 12 and 10 per cent to the 4th to 9th highest guns; 90 to 100 entries, 25, 20, 15, 12, 10, 8, 5, and 5 per cent to the 4th to 11th highest guns; 100 to 110 entries, 22, 18, 14, 11, 10, 8, 5, 4 and 3 per cent to the 4th to 13th highest guns; 110 to 120 entries, 20, 16, 13, 10, 9, 7, 6, 5, 4, 3 and 2 per cent to the 4th to 15th highest guns; 120 to 130 entries, 18, 15, 12, 10, 9, 7, 6, 5, 4, 3, 2, 2 and 2 per cent to the 4th to 17th highest guns; 130 to 140 entries, 16, 14, 11, 9, 8, 7, 6, 5, 4, 3, 3, 2, 2 and 2 per cent to the 4th to 19th highest guns; 140 to 150 entries, 15, 13, 10, 8, 7, 6, 5, 4, 3, 3, 2, 2, 2 and 2 per cent to the 4th to 21st highest guns; 150 to 160 entries, 14, 12, 9, 8, 7, 6, 5, 4, 3, 3, 2, 2, 2, 2 and 2 per cent to the 4th to 23rd highest guns; 160 to 170 entries, 13, 11, 9, 7, 7, 6, 5, 4, 3, 3, 2, 2, 2, 2 and 2 per cent to the 4th to 25th highest guns. Should there be more than 170 entries, all surplus over and above \$4250 will be divided into ten equal parts, and added to the different amounts due the first ten high guns.

Briefly summarizing the foregoing, it will be noted that the purse will be divided in accordance with the number of entries received, the three high guns receiving respectively \$600, \$500 and \$400. By this division two places are created for every ten entries over sixty. It is not possible for fourth money to exceed third, and the moneys would seem divided in such manner as to be just to all. For instance: If there are 70 entries, fourth gun would be entitled to \$150, while fifth gun would receive \$100; if 100 entries, fourth gun would receive \$250 and the eleventh \$50; if 146 entries (the number last year), fourth gun would get \$322.50 and the twenty-first gun \$43.

**THIRD DAY, MARCH 24**—The Grand American Handicap, if not finished the previous year.

Consolation Handicap—Fifteen birds, \$10 entrance, birds extra, handicaps 25 to 33 yards. Winners of money in the Grand American Handicap will have one yard added to their handicap.

Auld Land Syne Sweepstake—Ten birds, \$7 entrance, birds extra, 30 yards rise; four moneys, 40, 30, 20 and 10 per cent.

Miss and Out—Time permitting, miss and out events will be arranged to suit the shooters.

The association being familiar with the requirements of such an event as the Grand American Handicap tournament, has deemed it best to make all events high guns to win. This method of dividing gave such general satisfaction last year that we feel confident the decision to again adopt it this year will meet with the hearty approval of a great majority of those who contemplate taking part in the tournament.

In the 15 bird handicap events a system will prevail somewhat similar to that adopted for the Grand American Handicap—the total amount of the purse being divided in accordance with the number of entries received, as follows: One to 10 entries, two moneys, 60 and 40 per cent; 11 to 20 entries four moneys, 40, 30, 20 and 10 per cent; 21 to 30 entries, six moneys, 30, 20, 15, 13, 12 and 10 per cent; 31 to 40 entries eight moneys; 41 to 50 entries, ten moneys; 51 to 60 entries, twelve moneys; 51 to 70 entries, fourteen moneys; 71 to 80 entries, sixteen moneys; 81 to 90 entries, eighteen moneys; 91 to 100 entries and over, twenty moneys.

Briefly summarizing the foregoing, it will be noted that two places are created for each ten entries or fraction thereof up to 100.

In the 10 bird events it will be high guns pure and simple the total amount of the purse being divided into four moneys 40, 30, 20 and 10 per cent.

In the 7 bird events it will also be high-class pure and simple, the total amount of the purse being divided into three moneys, 50, 30 and 20 per cent.

The Interstate Association's rules (Hurlingham rules revised) will govern all points not otherwise provided for. No guns larger than 12 gauge allowed; weight of guns limited to 8 pounds. In order to expedite the shooting, a contestant missing three birds in any event, except the Grand American Handicap, must drop out, with the privilege of reentering in case he has a chance to win any portion of the purse. In the Grand American Handicap it will be five misses out with the same privilege.

Shooters calling, "No bird," before seven balls have been thrown at birds slow to start will be charged for same; after seven balls have been thrown it is no bird at the expense of the management. Shooters must supply themselves with no bird tickets, which can be obtained at the cashier's office. These tickets are also good for byes or tie birds. Unused no bird tickets are deemed for cash at the cashier's office.

Winners of money in any event must apply to the compiler of scores for orders on the cashier for money due them. No money will be paid out by the cashier except on receipt

of such an order. Shooters who have rebates coming to them for birds not shot at must apply to the compiler of scores for rebate tickets, which will be redeemed for cash at the cashier's office.

Rule 13 of the Interstate Association rules, relating to the time limit for gathering a bird, and rule 19, which permits a man to gather his own bird or to send a man for it, have been abolished. All birds will be retrieved by dogs, the dog being released the moment the bird touches the ground. All ties that will be shot off will be miss and out, and the original distances contestants stand at will govern. All contestants will shoot their scores at the same traps. Birds will be extra in all events. When entering for any event the shooter must pay for all birds called for in that event, in addition to the entrance fee. Money will be refunded for all birds not shot at on application to the compiler of scores, who will furnish rebate tickets that will be redeemed for cash at the cashier's office.

Messrs Jacob Pentz, of Shooting and Fishing; Edward Banks, of Forest and Stream; W. K. Park, of Sporting Life, and Elmer E. Shaner have been appointed a handicapping committee, and will handicap all contestants from 25 to 33 yards. Half yards will be given wherever such course is deemed advisable. In order to place all contestants on an equal footing, handicaps will not be announced until the evening of March 19th, the day on which the committee meets.

The manner of shooting the Grand American Handicap this year (and, in fact, all events scheduled for the tournament) is as follows: Shooters will be called to the score in turn, shooting their first bird at No. 1 set of traps; as soon as a shooter has shot at his first bird, he passes on to No. 2 set and shoots at his second bird on that set; he then shoots at another bird at No. 3 set and passing into the building through the right wing, waiting until it is time for him to go out and shoot at his fourth, fifth and sixth birds, and so on. A contestant missing five birds must drop out, with the privilege of re-entering in case he has a chance to win any portion of the purse.

To facilitate shooting and to prevent delays at Nos. 2 and 3 sets of traps, a shooter who happens to score his fifth miss on either No. 1 or No. 2 set of traps must finish that round of three birds, irrespective of the fact of his having five misses to his credit.

Every shooter will be numbered, each entry being known by his number when called to the score. A small tag will be affixed to each shooter's back, giving his number on the shooting list, and also his handicap in yards. This will enable the referee to see at a glance if the shooter is at his right mark; and will also enable shooters, spectators and scorers to tell who is at the score by merely referring to the list of entries numbered in shooting order. Each contestant must supply himself with five no bird tickets.

In case the Grand American Handicap entries are so numerous that it is impossible to finish in good light on March 23d, the referees shall stop the shooting at any time they may deem it necessary; in this case the shooting will commence at 10 o'clock sharp Thursday, March 24th. Positively no entry will be taken, nor shooting up allowed, after the last man has shot at his second bird. The Interstate Association reserves the right to refuse any entry.

An admission fee of 50 cents will be charged each day. All contestants in the Grand American Handicap will receive a badge, which will admit them to the park free during the entire tournament. Any shooter who is not a contestant in the Grand American Handicap will have the 50 cents paid for admission refunded (at the cashier's office) upon his making entry in any sweepstake event.

Every shooter will be furnished with a key to a locker upon payment of 50 cents, the 50 cents being refunded to him on the return of the key. This charge is made simply to insure that the key will not be carried off, thus necessitating a new lock. Each of these lockers is amply sufficient to accommodate the belongings of two shooters, and no two lockers have the same key—all Yale locks. As there are two keys to each locker, the accommodation in this respect will be ample for at least 150 shooters.

#### Feudner-Stelling Match.

At the practice shoot on the Olympic Club grounds at Ingleside last Sunday, Feudner showed up in fine form, killing seventy-four out of seventy five live birds, the last bird dropping dead just out of bounds. Peter Murphy and Clarence Nauman set the pace and made the work warm. Nauman has expressed his intention of challenging the winner of the match next Tuesday. Otto says he prefers Stelling to Nauman. Mr. Stelling has written Feudner that he is willing to have the match take place under the auspices of the Pelican Gun Club. This being merely an individual match it will be more in the proper line of sport to have the shoot come off under the direction of sportsmen, than as a public show and with the gate money as one of the side issues. It is probable that either Len D. Owens or Mr. Murphy, known as "One Barrel Pete," will act as Feudner's best in the country on various occasions. Considerable interest in this contest is being shown among trap-shooters, and there will be plenty of Feudner money in sight to back up judgment as to the outcome.

#### Reliance Gun Club.

At the meeting of the Reliance Gun Club, held Wednesday evening, February 16th, the following officers were elected for the ensuing year: J. O. Cadman, President; Col. S. I. Kellogg, Vice-President; W. H. Seaver, Captain; R. C. Elder, Secretary; H. A. Tubbs, Treasurer. Executive Board—J. O. Cadman, W. H. Seaver, H. A. Tubbs, G. E. Gross, W. D. McArthur, E. A. Olsen, and G. E. Schreiber. The club will hold a shoot once a month on the first Sunday of each month, commencing in March and ending in September.

#### Lincoln Gun Club.

The programme outlined by the Lincolns for 1898, is one that will be interesting to trap-shooters. \$150 cash will be divided into five classes, the four best scores to count, no chance to fail for place. There will also be a high average medal for the best six scores.

#### Inanimate Target Association.

A meeting of the Board of Governors of the California Inanimate Target Association will be held this evening at 8 P. M. in the parlors of the Olympic Gun Club, on Van Ness avenue. The date and place for holding the annual tournament will be determined. The choice of location lies between Alameda Point and the grounds at Ingleside, with the latter place a strong favorite.

It is more than probable that favorable action will be taken in the nature of an amendment to the constitution in that—the day and selection of place for each annual trap shooting tournament will be agreed upon, for the following year, at each and every yearly tournament.

#### Olympic Gun Club.

The Olympic Gun Club gave a pleasing entertainment at Native Sons' Hall last Monday evening to a large and select audience. The programme consisted of comic selections by Thomas Eggert, Richard I. Whelan and W. T. Hobson, followed by the comedietta, "What Tears Will Do," in which the characters were cleverly sustained by Alfred A. Borlini, William G. Ogilvie, William A. Wallace, Miss Elsie A. Duncan and Miss Mae Roberson. The stage was under the direction of A. W. Jones. Dancing followed the performance.

#### Klondike Supplies.

The best and most practical Klondike outfits to be purchased on the coast can be found at E. T. Allen Co.'s, 416 Market street, or Clabrough, Golcher & Co., 538 Market street. These goods have been made under the direction of experienced and trained trappers, sealers and miners who are familiar with the needs of people who intend locating for any length of time within or near the confines of the Arctic circle.

#### Hunter Arms Co.

We are in receipt of a cordial invitation, through Mr. Phil B. Bekeart, from The Hunter Arms Co., to examine the latest in L. C. Smith guns at Spaces 73 and 74, New England Sportsmen's Exhibition, Boston, March 14th to 26th. Some good Smith guns can be found at any dealers on the coast and particularly at either E. T. Allen Co.'s or Clabrough Golcher & Co., this city.

#### CARTRIDGE AND SHELL.

Harry Hosmer bagged thirty-eight teal and sprig at San Pablo last week.

At the eastern traps recently DuPont Eagle Duck has made a strong showing in the scores.

Fred Briggs and Dr. Cooley left Wednesday evening for a duck hunt on the Olympic Club grounds.

H. H. White and Merton C. Allen were shooting in the Olympic Club grounds last Sunday. The bag was fifty teal, sprig and spoonys.

The Petaluma marsh last Sunday afforded a chance for the following bags to H. Fritch, twenty-four spoonbill; W. Price and Ed Forster, twenty teal, cans and spoonys.

The Alvarado hunting ground gave a chance for fair shooting last Sunday to Geo. Frauzen, who bagged thirty-seven teal and sprig, and C. Shaw and E. Klevesahl, sixteen birds.

The Empire Club boys out last Sunday were J. Shafer, Wm. Trebel, W. Lambert, J. Sweeney, H. Newton, W. R. Nelson, F. Gray and Doc Davis. Teal, sprig and widgeon in fairly good numbers comprised the bags.

## ROD.

#### Coming Events.

Feb. 23.—Regular semi-monthly meeting of the San Francisco Fly Casting Club. Office of State Fish Commission, Flood Building, San Francisco. [Postponed Meetings].

#### Fish Commission Notes.

The Board of Fish and Game Commissioners will locate an experimental station, for the taking of rainbow trout spawn, at Sims, on the Sacramento river. Chief Deputy Jno. P. Babcock visited Sims on the 4th instant and perfected arrangements for the placing of traps in Mears and Hazel creeks, both emptying into the Sacramento near Sims. The Commission hope to increase their output of rainbow trout materially by this new venture. Many anglers contend that the Sacramento river produces the gamest members of this trout family. Sportsmen generally are cordial in their wishes for the success of the new station.

From Sims, Mr. Babcock was called to Los Angeles owing to the sudden change in the condition of Arthur G. Fletcher, the Clerk of the Board, whose passing away on the 14th inst. we chronicle with sincere regret.

#### Fly Casting Club.

The regular meeting of the San Francisco Fly-Casting Club will be held on Monday evening, February 23th, instead of Tuesday evening next.

The first of the series of fly-casting contests for this season will take place at Stow lake, commencing to-day at 2 P. M. and tomorrow at 10 A. M. An enthusiastic attendance of club members and their friends is anticipated.

Fishing has not been good on Russian river during the week past, though the bar is now open the water has been high and muddy. The river is rapidly going down and indications point to fair fishing to-day and to-morrow.

Deputy Fish Commissioner M. L. Cross seized four nets last week in Russian river. The total number of illegal nets seized this month, to date, is sixteen.

## CURED RINGBONE AND BLOOD SPAVIN.

Big Wausaukee, Wis., March 5, 1896.  
The Lawrence-Williams Co., Cleveland, O.:  
In regard to Caustic Balm, would say that I have used it according to directions, and it has done wonderful work on ringbones, curing in three applications, and blood spavin in three applications.  
PETER SHALLAN.

## HAS DONE WONDERS.

Cotuit, Mass., March 4, 1896.  
The Lawrence-Williams Co., Cleveland, O.:  
I have used two bottles of your Balm, and find it the best and simplest remedy to remove capped hocks and bunches of any kind; also I have tried it on several other people's horses in this place, and it has done wonders in every case.  
W. A. NEUELL.

## "THE BEST BLISTER I EVER USED."

White Rock, Huron Co., Mich.,  
Sept. 14, 1897.  
I have used Gombault's Caustic Balm for ringbones, spavins and curb, and I think it is the best blister I ever used, as it doesn't destroy the hair, and it is an excellent remedy for the above ailments.  
FRANK MUNFORD.

## IT NEVER FAILS TO CURE.

Sinkin, Mo., Nov. 10, 1897.  
The Caustic Balm you sent me is the best I have ever used. It is all that you claim for it. I have tried it on horses and my family have used it, and it never fails to cure. I do not intend to be without it, but people are afraid of it.  
[No occasion to be afraid, as it is absolutely a safe and reliable remedy for any one to use.—L. W. Co.]  
EUGENE STEERS.

## AN EXCELLENT REMEDY.

Fiat Ridge, Va., Oct. 12, 1897.  
I used Gombault's Caustic Balm for scratches, and have never seen anything to equal it. I find it to be an excellent remedy for human flesh, when used on bruises, etc.  
A. B. ROBERTS.

## TOOK OUR WORD AND WAS SUCCESSFUL.

Hunt's Corners, N. Y., Sept. 14, 1897.  
I used Gombault's Caustic Balm for a bog spavin that just began to show, and it killed it. I put on seven applications; was bound to cure or take the leg off. You said it would cure, and I took your word for it and was rewarded with a permanent cure. I have recommended it to others, and thus far all have been satisfied that used it. Many thanks for your advice in its use.  
WM. E. HUNT.

## GOOD FOR SWEENEY AND POLL-EVIL.

Centralia, Ia., March 5, 1896.  
The Lawrence-Williams Co., Cleveland, O.:  
With pleasure I testify to the merits of Caustic Balm. It prevented poll-evil for me with one application after the swelling was as large as a hat crown. In another case it prevented fistula with swelling equally large. I know of its use on spavins with good results on both bog and bone. It is also good for sweeney. It is the nearest to what it is recommended of any medicine I ever saw.  
A. F. REYNOLDS.

## REMOVED CURBS BY RECOMMENDATION OF V. S.

Springfield, Mass., Feb. 1, 1896.  
The Lawrence-Williams Co., Cleveland, O.:  
Please send me one of your books of testimonials. I was to learn by the experience of others. I have a bad case of stifles, caused by getting on to something. Called the best veterinary surgeon in the city. He advised me to use Caustic Balm. I have put on two applications. I had a colt that had two curbs, caused by getting into the snow. It took them off. I have used it for three years.  
J. H. JORDAN.

## 50 MILES PER DAY NOT SLOW.

Syracuse, N. Y., Sept. 13, 1897.  
I have just returned from a carriage drive to and from Connecticut, covering about 700 miles. The first day, in the afternoon, my horse was taken with a lameness. I had him examined, shoes taken off, etc. We finally reached Norwich, where we had recommended to us Gombault's Caustic Balm. I put it on my horse's foreleg, and gave it a good rubbing. The next morning the leg was badly swollen and very feverish. I followed the printed directions as nearly as I could; gave the leg a good rub, bled and went on. I rubbed my horse morning, noon and night. He did not limp, after the first day, during the whole trip. We averaged 50 miles per day. So you see that it was not slow driving that cured him. I left the booklet that came with the Balm in Connecticut. Kindly send me another, for I cannot be without it as long as I keep a horse. I think the Balm is the best and most remarkable remedy that I ever heard of.  
L. A. WORDEN.

## "GIVES SPLENDID SATISFACTION."

Harrison, Ark., Sept. 16, 1897.  
I would be pleased if you would send me a good supply of advertising matter for Gombault's Caustic Balm. I am selling some, and it gives splendid satisfaction.  
L. A. SAFFER.

## USED SUCCESSFULLY.

Howell, Mich., April 17, 1897.  
I have used your Balm for bone spavin and hard bony growths very successfully. I think it a great medicine when properly used.  
FRANK BAILEY.

## ENTHUSIASTIC OVER ITS USE.

Charleston, W. Va., Oct. 21, 1897.  
I have used Gombault's Caustic Balm with excellent results on a quarter crack and abscess on shoulder, and I am enthusiastic about the use of it here. Please tell me what you sell it for at wholesale. I think I can sell several bottles. The people in Charleston have no idea what an excellent medicine it is.  
NOBLE BARTON.

## VETERINARIANS KNOW OF ITS USE.

Pomona, Cal., June 7, 1897.  
Since I have practiced my profession (Veterinary Surgeon) in this place I have had occasion to prescribe your Gombault's Caustic Balm, contrary to my usual method of practice, which is to avoid the use or recommendation of any proprietary medicine, but experience has shown me its value. When I came here in '93 the remedy was unknown. I think if I can make some arrangement with you for an exclusive agency for this community I can push the sale of the same in a way that will be highly satisfactory to you and profitable to myself. If you will come to some understanding with me, please advise me of the terms you are willing to give.  
WALTER P. KELTY, V. S.

## WHAT A DRUGGIST SAYS.

Pinckard, Ala., April 4, 1897.  
I saw your ad. in the "Pharmaceutical Era." Kindly send me a supply of your "Pictures of Famous Horses." I recommend your liniment very highly, knowing of some wonderful cures it produced, especially in sweeney and spavin.  
CHAS. ROEHLIG.

## THE RESULTS WERE EXTRAORDINARY.

Wapella, N. W. T., Feb. 13, 1897.  
I keep your Gombault's Caustic Balm in stock. I have sold it for the last three years. I have been in the drug business in Ontario and this country, but it is not known to the majority. I sold a bottle which I saw used under my own supervision, which gave most universal satisfaction. The results were extraordinary. I sell it here at \$1.50 per bottle. I am quite a horseman, and would be pleased to use any picture of the noted racers of the day to our mutual benefit.  
J. A. MACDONALD.

## USED WITH SUCCESS FOR COCKED ANKLES, ETC.

Angola, Ind., June 22, 1897.  
Wish to use Gombault's Caustic Balm on an outside splint, and as our dealer has no printed instructions, I would be thankful if you would mail me a pamphlet. Have used the above remedy with success on cocked ankles, curbs and enlarged glands, but want some instructions on this splint, as the patient is one of my favorite driving mares.  
F. W. KINNEY.

## USED WITH GOOD RESULTS.

Steeleville, Ill., June 16, 1897.  
I see in a circular which I received with a bottle of Gombault's Caustic Balm that you will send special information for special cases. I have the medicine to doctor a horse with fistula, and it is not broken out yet. Your circular does not say how to treat such cases. Please let me hear from you as to how to use it. I have used the medicine before with good results.  
JOHN MCCOY.

## GOMBAULT'S CAUSTIC BALM DID IT.

Mowcow, Pa., Sept. 15, 1897.  
In reply to your inquiry in regard to Gombault's Caustic Balm, would make the following statement: I had a mare with a very bad bone spavin, on which I used for some time several different kinds of blisters, under direction of our best horse-men, without avail, and by three applications of your Balm was entirely cured. I also used it on another horse for the same ailment, with like results.  
H. G. SIMPSON.

## "IT WILL DO WHAT YOU CLAIM."

Belleville, Ill., Sept. 23, 1897.  
I have used your Gombault's Caustic Balm with very satisfactory results on different occasions and for different causes, and find that it will do what you claim for it.  
CHAS. HERTEL.

## "THE BEST EVER USED."

Sparta, Ga., Oct. 2, 1897.  
Gombault's Caustic Balm is the best thing of the kind I ever used. I cured a bad case of bone spavin with it. For blistering it has no equal.  
W. J. HORLEY.  
Proprietor Woodside Stock Farms.

## PRICE ALL RIGHT.

East Cambridge, Mass., Sept. 13, 1897.  
Have used your Caustic Balm with very good results. We like everything but the price.  
CHAS. W. DAILEY.  
\*Price is low when you get a safe and sure remedy.—L. W. Co.

## IT WILL CURE FISTULA EVERY TIME.

Dale, Tyler Co., W. Va., Sept. 16, 1897.  
I have used Gombault's Caustic Balm for fistula with good success. It will cure fistula every time if properly applied, before breaking, without any bad effects. For enlarged joints and sprains it has no equal. Every horse owner should keep it constantly on hand.  
A. L. MCINTYRE.

## THE BEST REMEDY WE EVER USED.

Westover, Md., July 31, 1897.  
I have recently bought a bottle of Gombault's Caustic Balm, and have misplaced the directions for its use. Will you kindly send me directions? I consider it one of the best remedies we have ever used on our horses.  
ALBERT SUDLER.

## THINKS IT GOOD.

Russellville, Tenn., Sept. 11, 1897.  
The bottle of Gombault's Caustic Balm I bought of you did what I got it for principally, and that was to remove a lump or knot on a mare's leg, caused by a kick, though it took several weeks with attention to do it. I think it a good Balm to keep on hand for such cases. Will need more soon.  
C. G. NENNEY.

## CURES SPLINTS, SPAVIN AND SORE THROAT.

Wadena, Ia., Oct. 22, 1897.  
I received one bottle of Gombault's Caustic Balm. With it I cured splints, spavins and sore throats, and with good results. I have used it in many counties, and have it in constant use, and will soon send another order. I recommend it very highly.  
THOMAS GIBBONS.

## A MINISTER CAN AFFORD TO RECOMMEND IT.

Coal Creek, Tenn., Sept. 6, 1897.  
Having read one of your pamphlets and used some of your Caustic Balm on my stock, I find it a very useful and valuable medicine—something I can afford to recommend to my people; and if you have no agent at Coal Creek I would like to be your agent at this place and sell your medicine. Please forward me one dozen bottles C. O. D., as I have sold some, which has caused a great demand for more.  
J. W. REED.  
Pastor of First Baptist Church.

## A VETERINARY SURGEON SAYS:

Smicksburg, Pa., June 2, 1897.  
Please send me, as per ad. in "American Druggist," your series of horse pictures. I have been using your Caustic Balm for several years in my practice, and in no case yet has it failed where its use was indicated.  
JAMES B. WEIR, V. S.

## GOOD FOR ENLARGED TENDONS.

St. John, N. B., April 29, 1897.  
The bottle of Caustic Balm you so kindly sent me in November, 1896, I have used on my horse for enlarged tendon, and found it to work to my entire satisfaction, and would recommend it to all horsemen instead of using the firing iron, as it has even a better result.  
R. O'SHAUGHNESSY.

## REMARKABLE RESULT FROM ONE APPLICATION.

Germantown, Pa., May 6, 1897.  
Replying to your favor of March 29th, after awaiting the results of the application of Caustic Balm to a bad strain on my trotting horse Samuel T. (back tendons on hind leg), I am pleased to report the lameness entirely gone and the limb as good as before. I am well repaid for my patience and trouble in securing such remarkable results from one application of your Caustic Balm. This horse trotted on a half-mile track on Friday last week in 2:20. Thanks for your interest in this case.  
CHAS. CHIPMAN.

## THE GREATEST REMEDY HE EVER USED.

Townsend, Mass., Nov. 2, 1897.  
Please send me half a dozen bottles of Caustic Balm, and send a horse. It is the greatest remedy that I ever used on a horse in my life.  
J. L. FARRAR.

## "BEST THING ON EARTH."

Linden, Mich., Oct. 11, 1897.  
I see you have some pictures for druggists. Wish you would send me some. Never had any advertising for Gombault's Caustic Balm; have a steady sale on same. Balm is the best thing on earth.  
B. L. LANGWORTHY.

## "GAVE GOOD SATISFACTION."

Lorena, Tex., Sept. 10, 1897.  
Enclosed please find money order for \$1.50. Send me one bottle of Caustic Balm. The bottle I bought some time ago gave good satisfaction. Please be prompt as I need it at once.  
J. W. WHITSITT.

Also, all obstructions in circulation and imparts new life and vigor. It is a peerless remedy for all Throat and Bronchial Troubles.

Not Only See What Others Say of it, but Satisfy Yourself by Trying it.

THE LAWRENCE-WILLIAMS CO., CLEVELAND  
OHIO

SOLE AGENTS FOR THE UNITED STATES AND CANADA.

## CURES SIDE BONES AND SPLINT.

Wales, N. Y., Aug. 1, 1897.  
I have used your Caustic Balm with good success on side bones and splints, but I have a horse which is lame in the shoulders. Can you give me any special directions for its use in such a case?  
H. H. EVANS.

## THE KING OF REMEDIES.

Gombault's Caustic Horse Balm is known as the king of remedies, and every owner of a lame or unsound horse should not despair in effecting a cure until he has given this great stable remedy a fair trial. It has won its good name after some twelve years of exhaustive tests in the treatment of curb, splint, sweeney, capped hock, strained tendons, founder, wind puffs, skin diseases, thrush, pink eye, etc., and to-day stands without a rival as a curative agent for the ills that equine flesh is heir to. The Importers, the Lawrence-Williams Company, Cleveland, O., claim that it is safe and speedy in its effects, and guarantee that a single tablespoonful will produce more actual, honest results than a whole bottle of any liniment or spavin cure now on the market. Every bottle sold is warranted. Horsemen should see to it that the Caustic Balm is included in their stable outfit, particularly during the coming hot campaign, when accidents are liable to happen at any moment, and when such a remedy may be needed for immediate use. Write for full descriptive circular, testimonials, etc.

## USED SUCCESSFULLY.

West Point, Tenn., April 14, 1897.  
I bought a bottle of Gombault's Caustic Balm two years ago for a spavined horse. I cured him without any trouble. Have since cured a horse of poll-evil.  
E. W. GRAVES.

## A BLESSING TO OUR FRIENDS.

In one of Shakespeare's plays he says: "Is this the Balm which a usurious Senate pours into a Captain's wounds?" Of course, the healing properties of balm were well known long before Shakespeare's day, but the wonderful combination in Gombault's Caustic Balm could only have been made by modern science. So well known are the results that follow the use of this great prescription that it is to be found in every stable, large or small, in which prejudice has given way to knowledge. There is nothing in any way its equal for the cure of spavin, splint, bunches, and so on. It does its work beautifully, and leaves no mark on the finest skin. Lawrence-Williams Company, of Cleveland, O., are the makers, and they have issued a circular telling a great deal more about what it has done and about the horsemen who always credit that we have space to devote to the subject, interesting though it is. You should be able to get Gombault's Caustic Balm at any druggist's but if you can't, drop a line to the Lawrence-Williams Co., as above. —Editorial, "Spirit of the Times," March 31, 1894.

# ZOMBRO, 2:11, THE GREATEST TROTTER IN AMERICA

Address,

Has trotted 40 heats as a three-year old better than 2:27 1-2, 31 in 2:20 or better, and 12 in 2:15 or better. Won 13 races out of 17 starts as a three-year-old, and a total of \$5,400 in his three-year-old form.

ZOMBRO, 2:11 (Registered No. 28,029), brown stallion, foaled in 1892, stands 16 hands high and weighs 1,200 pounds, and is one of the most perfect formed horses in America. His career on the turf in 1895 stamps him as one of the greatest three-year-olds the world has ever seen.

ZOMBRO, 2:11, sired by McKinney, 2:11 1/4, son of Alcyone, by George Wilkes.

ZOMBRO, 2:11, first dam Whisper, by Almont Lightning, son of Almont 33, dam by Mambrino Pilot 29.

ZOMBRO, 2:11, second dam May Berry, by Kentucky Clay 194, whose dam is also the dam of Mambrino Patchen and Lady Thorne, 2:18 1/4.

ZOMBRO, 2:11, third dam by Edwin Forest 49.

Whisper, the dam of Zombro, was bred and raised by Gen. W. T. Withers, of Lexington, Ky., and is a handsome brown mare, 16 hands high, weighing 1,150 pounds. She has never been beaten in the show ring, always carrying off first prize.

ZOMBRO, 2:11, won the first prize over all three-year-old stallions at the Horse Show in San Francisco in 1895.

This grand stallion will make the SEASON of 1898 at SACRAMENTO RACE TRACK, from FEBRUARY 1st to JULY 1st, 1898. Terms, \$50 cash at the time of service, with usual return privileges.

GEO. T. BECKERS.

## BREEDERS' DIRECTORY.

VERBA BUKNA JERSEYS—The best A. J. C. registered prize herd is owned by HENRY PIERCE, San Francisco. Animals for sale.

## SKY POINTER

Allowed to be the handsomest son BROWN HALL

has ever sired; dam SWEEPSTAKES, the greatest

broodmare in the world. Full brother to STAN

POINTER, 1:59 1/4. Will stand this coming season

at the stable of L. J. H. Hastings, owner, near race

track gate, Los Angeles. Terms \$50. A. A.

Cleveland, Manager. Address, 827 Figueroa

Street, Los Angeles.

## TO LEASE.

Several promising thoroughbreds, two and three year-olds, to responsible person. For further particulars, address "L. C. F." this office.

## Leading Sire of 2:10 Performers

# ALTAMONT 3600

BY ALMONT 33

Dam SUE FORD (dam of three producing sons), by Brown Chief 4445; second dam by Imp. Hooton; third dam by Bertrand; fourth dam by Imp. Buzzard.

Sire of Chebals, two miles, 4:19 1/2, the Champion Two-mile Harness Horse.

Grandsire of Klamath, 2:07 1/2, the Champion Trotter of the Pacific Coast.

Sire of Altas, 2:09 1/4, the Champion Trotting Stallion of the Pacific Northwest.

Sire of Seven new 2:20 Performers for 1897.

Sire and Grandsire of all the 2:10 Performers ever Produced in Oregon and Washington.

WILL MAKE THE SEASON OF 1898 AT

Alameda, at \$100 the Season.

(WITH USUAL RETURN PRIVILEGES.)

LIMITED TO TWENTY-FIVE MARES.

ALTAMONT shares championship honors with Baron Wilkes, a horse of great opportunities. In having six 2:10 performers to his credit. He has taken a leading position among the foremost trotting sires of the country under such conditions that phenomenal ability alone has saved him from oblivion. A very small proportion of his progeny has been trained, and an extremely small number of these by competent men. As a partial illustration of his meagre advantages, it may be stated that he has never produced a colt from a pacing-bred mare or from one with a fast record. Nor until 1897 had he ever been crossed with a descendant of George Wilkes, Electioneer, Dictator, Sidney or Dexter Prince. Oregon and Washington have produced seven 2:10 performers, and EVERY ONE of these are ALTAMONTS.

ALTAMONT is a horse of iron constitution, and at twenty-three years of age is in the full vigor of his prime, sure foot-getter, and, except for his blindness—the result of an accident—is without blemish. He has never sired a sorrel, all of his colts having been solid colors—bays, browns or blacks.

NOTE—Bessie Rankin, by Altamont, sold November, 1897, brought the highest price obtained for a harness horse at public auction in California during the year. Address

BAY STREET STATION.

J. M. NELSON, Cor. St. Charles and Eagle ave., Alameda, Cal.

## THE THOROUGHBRED STALLION

# TORSO

Will Make the SEASON of 1898 at the Parkview Stock Farm  
(HALF MILE EAST OF SACRAMENTO.)

Chestnut horse, foaled 1886. Bred by HON. W. L. SCOTT, Algeria Stud, Pa.

TORSO	Algerine.....	Abd-el-Kader.....	Imp. Australian.....	West Australian
		Nina.....	Rescue.....	Imp. Emilia
	Lord Lyon.....	Imp. Santa Lucia.....	Boston.....	Berthune
			Imp. Frolicsome Fanny	Alice Carneal
	Lady Margarette.....		Stockwell.....	Timoleon
			Paradigm.....	Sister to Tuckahoe
			Honiton.....	Lottery
			Retreat.....	Sister to Catterick
				The Baron
				Pocahontas
				Ellen Horne
				Stockwell
				Flax
				Orlando
				Flight

Torso sired the following winners: Torsina, Joe Roger, Torello, True Love II., Tortosa, Una Que Amo, Torsion, Torsolene, Myrtle H., Tortenson, Sister Ella, Solution, Hearso, Torsida, Sculptor, Torchdance, The Shrew, Vana, Odds On, Cosina, Caricia, Restless, Our Johnny, Sweet Liberty, Tessa, Finanza (dead) and Merry Lass (dead).

During his two years of turf career, Torso won nearly \$45,000. His full sister, Aurelia, was one of the best mares of her day, winning \$20,385, and her first foal was last season's capital two-year-old performer, Aurelian. Their dam, imp. Santa Lucia, also threw the winners, Tasso and Aureole. She is a daughter of the triple event winner, Lord Lyon, and through him obtains the potent blood of Paradigm, who produced Achievement, and two of whose granddaughters are the dams of Ladas and Glare, two of the best two-year-olds in England in 1892.

Algerine, the sire of Torso, was a superior race horse, winner of the Belmont Stakes, etc., and is by Abd-el-Kader, out of Nina, by Boston. Abd-el-Kader (a full brother to the good four-miler, Abd-el-Koree), although badly hipped, was a fine race horse at all distances. He won a dash of four miles at Saratoga, in 1869, in 7:31 1/2, a very creditable performance. Nina, the dam of Algerine, was one of the best two mares of her day. She was a winner at all distances, from one to four-mile heats, in good time, and produced Planet, one of the best horses in the country at all distances, and a successful sire, also Echequer, Ninette, Ecliptic, etc.

Torso was a brilliant two-year-old. He won the first of the Double Events from a field of nine and also the second Double Event with a five-pound penalty, making his weight 123 pounds. In the Surf Stakes he beat Cayuga, St. James and four others, and in the Flatbush he defeated Reclaire, Onaway, Burlington and three others.

At three years of age he won the Lorillard Stakes, 1 1/2 miles in 2:36 1/4, from Tournament, Banquet, Badisha, Devotee, St. John, Burlington and Protection, a high-class field; was second to Burlington for the Brooklyn Derby, in front of Tournament, Padisha, Lelimony, Kenwood and four others; was second for the Equinoctial Stakes to Reclaire, beating Tournament and others, and carrying nine pounds more than he winner, and was third for the Omnibus Stakes, 1 1/2 miles, carrying a penalty of five pounds.

TERMS \$50 THE SEASON.

SEASON CLOSES JUNE 1, 1898. All bills payable not later than that date. Good pasturage at \$5 per month.

Address all letters to

JOHN F. CAVANAUGH,

602 I STREET, SACRAMENTO

## Vioget Stock Farm

LAWRENCE, SANTA CLARA COUNTY, CAL.

HOME OF THE GRANDLY BRED STALLION

# WILDBOY 5394.

—SON OF—

GEN. BENTON and WILDFLOWER, 2:21, by ELECTIONEER; second dam, MAY FLY (dam of MANZANITA, 2:16, etc.)

# WILD NUTLING 2867

—SON OF—

WILDNUT (sire of El Ramil, 2:14; Beau Brummel, 2:14 1-2; Jasper Paulson, 2:16 1-4; Bedworth, 2:22 1-2, and Ariel, 2:27 3-4) and HELENA, 2:11 1-4, by ELECTIONEER 125; second dam, LADY ELLEN (dam of 4 in the list), by CARR'S MAMBRINO; third dam, IDA MAY JR., by OWEN DALE; fourth dam, IDA MAY (second dam of MAGGIE E., 2:19 1-4), by WILLIAMSON'S BELMONT; fifth dam, MARY, by RED BIRD, etc.

WILD BOY will make the SEASON of 1898 at the above Stock Farm. TERMS, \$50. Address all communications there Care WM. VIOGET.

WILD NUTLING has been leased by John F. Phippen, who will stand him at the San Jose Race Track. TERMS, \$50.

WILD NUTLING'S season will close JULY 1st, as it is Mr. Phippen's intention to race him. He has more speed than any horse this great driver has ever handled.

EXCELLENT PASTURAGE, and the best of care taken of mares. Some very fine trotters and pacers for sale. Address, WM. VIOGET, as above.

# SARATOGA ASSOCIATION

## THE FOLLOWING EVENTS TO CLOSE MARCH 1, 1898

TO BE RUN BETWEEN JULY 28th and AUGUST 27th.

**THE GRAND UNION HOTEL—(DOUBLE EVENT).**—A Double Event—\$8,000 for two-year-olds (foals of 1896), of \$100 each, or \$50 if declared out by June 1, 1898. Starters to pay \$100 additional, which shall entitle them to start for both events. The Grand Union Hotel to add the amount necessary to make the value of the two events \$4,000 each. In each event the second to receive \$750 and the third \$250. Conditions of the First Event, to be run about the 6th of August, during the Saratoga meeting, 1898: Winners of two races of \$2,000, or one of \$3,500, 7 lbs extra. Maidens never having been placed second for a race of \$1,800 allowed 5 lbs. The produce of mares or stallions which have not produced a winner prior to January 1, 1898, if maidens at time of starting, allowed 3 lbs; or both, 5 lbs additional. The winner to receive \$3,000, the second \$750 and the third \$250. Five and a half furlongs. Conditions of the Second Event, to be run on or about the 18th of August: Winners of three races of \$2,000 or of one of \$3,500, or of the First Event, 7 lbs extra. Maidens never having been placed second for a race of \$1,400 allowed 10 lbs. The produce of mares or stallions which have not produced a winner prior to Jan. 1, 1898, if maidens at time of starting, allowed 3 lbs; or both, 5 lbs additional. The winner to receive \$3,000, the second \$750 and the third \$250. Six furlongs.

**THE G. H. MUMM & CO. HANDICAP.**—For two-year-olds; \$50 each, \$20 forfeit, with \$1,000 added by the champagne firm of G. H. Mumm & Co., of which \$200 to second and \$100 to third. Weights to be announced three days before the race. Six furlongs.

**THE CONGRESS HALL.**—For two-year-olds; \$30 each, half forfeit, with \$750 added by the proprietors of Congress Hall, of which \$200 to second and \$100 to third. Winners of \$2,800, 4 lbs extra; of \$3,800, 7 lbs extra. Non-winners of \$800 allowed 8 lbs; of \$350, 15 lbs. Five furlongs.

**THE PEPPER.**—For two-year-olds; \$50 each, \$20 forfeit, with \$1,000 added by J. E. Pepper & Co., of which \$200 to second and \$100 to third. Winner of \$2,400, 4 lbs extra. Non-winners of \$1,200 allowed 4 lbs; of \$90, 8 lbs; of \$350, 12 lbs; maidens, 18 lbs. Five and a half furlongs.

**THE WORDEN HOUSE.**—For two-year-olds; \$50 each, half forfeit, with \$750 added by proprietors of the Worden House, of which \$150 to second and \$100 to third. The winner to be sold at auction for \$2,000. If entered for \$1,500, to be allowed 5 lbs; if for \$1,000, 12 lbs. If for \$500, 20 lbs. Selling price to be named through the entry box at the usual hour for the closing of entries on the day preceding the race. Winners of \$1,400 to carry 10 lbs additional. Five furlongs.

**THE HAMBURG.**—For three-year-olds; \$50 each, \$20 forfeit, with \$1,000 added by Mr. J. E. Madden, of which \$200 to second and \$100 to third. Non-winners of \$5,000 in 1897 allowed 7 lbs. One mile.

**THE UNITED STATES HOTEL.**—For three-year-olds, \$50 each, \$20 forfeit, with \$1,000 added by the proprietors of the United States Hotel, of which \$250 to second and \$150 to third. Winner of the Belmont, Brooklyn Derby, Realization or any race exclusively for three-year-olds (handicaps excepted) of the value of

\$3,800 to carry 5 lbs extra. Non-winners in 1898 of \$1,700, if non-winners of \$2,500 in 1897, allowed 10 lbs; of \$700 if non-winners of \$1,200 in 1897, allowed 14 lbs. One mile and a furlong.

**THE HENDRIE.**—For three-year-old fillies; \$50 each, \$20 forfeit, with \$750 added, of which \$150 to second and \$100 to third. Weights, 121 lbs. Non-winners of \$2,000 in 1897 or 1898 allowed 3 lbs; of \$1,500, 5 lbs; of \$1,000, 7 lbs; of \$750, 12 lbs; of \$350, 18 lbs. One mile and a sixteenth.

**THE SPENCER.**—For three-year-olds and upward; a handicap; \$50 each, \$20 forfeit, with \$1,250 added by Mr. R. A. Canfield, of which \$300 to second and \$200 to third. Weights to be announced three days before the race. One mile and a quarter.

**THE CITIZENS' AND MERCHANTS'.**—For three-year-olds and upward; a handicap; \$50 each, \$20 forfeit, with \$1,250 added by the citizens and merchants of Saratoga, of which \$300 to second and \$200 to third. Weights to be announced three days before the race. One mile and a furlong.

**THE KEARNEY.**—For all ages; \$50 each, \$20 forfeit, with \$1,000 added by Hon. Edward Kearney, of which \$200 to second and \$100 to third. Weights, 8 lbs below the scale. Winners in 1898 of any race (excepting those exclusively for two-year-olds), value \$1,800, 5 lbs extra; of \$7,000, 10 lbs extra. Three-year olds or upward, non-winners in 1898 of \$700, if no non-winners of \$1,900 in 1897, allowed 6 lbs; of \$400, 10 lbs. Six furlongs.

**THE CANADIAN CLUB.**—For all ages; \$50 each, \$25 forfeit, with \$1,000 added by Messrs. Hiram Walker & Sons, Limited, of Walkerville, Canada, of which \$200 to second and \$100 to third. Weights, 5 lbs below the scale. Winners in 1898 of \$1,800, 7 lbs extra; of \$2,800, 4 lbs extra; of but \$1,500 allowed 3 lbs; of \$800, 6 lbs; of \$400, 12 lbs. One mile.

**THE KENSINGTON HOTEL.**—For three-year-olds and upward; a handicap; \$50 each, \$20 forfeit, with \$1,000 added by the Messrs. Bangs (proprietors of the Kensington Hotel, Saratoga and Sturtevant House, New York), of which \$200 to second and \$100 to third. Weights to appear three days before the race. One mile.

### STEEPLECHASE.

**THE BEVERWYCK STEEPLECHASE.**—A sweepstake of \$50 each, \$20 forfeit, with \$1,000 added by Hon. M. N. Nolan, of which \$200 to second and \$100 to third. Weight for age under the Steeplechase rules. Horses which have never won a steeplechase allowed 10 lbs. Full course, about two and a half miles.

N. B.—The foregoing events will be run without conflicting with Sheepshead Bay's Fall Meeting.

## MONTEREY, 2:13 3-4,

WILL MAKE THE SEASON OF 1898 AT ALAMEDA

(Cor. Arbor St. and Eagle Ave., end of Speed Track.)

Santa Claus, 2:15.....	Sire of	Strathmore 402
Claus Forrester, 2:11 1/4.....	Sire of	Elenor.....2:11
Wm. Penn., 2:07 1/4.....	Dam of	Lady Thorn Jr. and 75 others in the 2:30 list.
and 15 others.		
Sidney, 2:19 1/4.....	Sire of	Navidad.....2:22 1/2
20 in 2:20 and better and 10 in 2:15 and better. His sons and daughters also breed on.	Dam of	Volunteer 55
Sweetness, 2:21.....	Sire of	St. Julian.....2:11 1/4
Sidney.....2:18 1/4.....	Dam of	Lady Merrit, by Edw. Everett Belmont 64
Com. Belmont 4340.....	Sire of	Maud S.....2:08 1/2
Meteor.....2:17 1/2.....	Sire of	Miss Gratz (by Commodore)
Cora Bell.....2:23.....	Dam of	
Iago.....2:11.....	Dam of	Woodford Mambrino, 2:21
and six others.	Sire of	Abbottsford.....2:21 1/4
Barona.....2:13 1/4.....	Dam of	and 13 others.
Hattie.....2:16 1/4.....	Dam of	By Alexander's Norman 25
Monterey.....2:13 1/4.....	Dam of	
Montana.....2:16 1/4.....		

If Monterey begets colts like himself he will prove to be the poor horse-breeder's friend, for it will cost but little to get them to a race. Monterey had only four and a half months' training prior to starting in his first race, which he won in 2:21, and won his last race in 2:13 1/4, all training and racing inside of five months.

He was injured last season in shoeing. The day before he went an easy mile in 2:11 1/4 in the presence of three thousand people. He seems all right, and I predict Monterey will soon hold the harness record. If he gets the record I expect, his colts will be very valuable.

MONTEREY has a bold and square way of going, such as is now in demand for road horses. He is thoroughly game; in fact, I never drove a gamer horse; is level-headed; legs as clean as a yearling's, and has the strongest foot I ever saw on a horse. He is a chestnut, 15.3 in height, and weighs 1,200 pounds. Come and see him.

TERMS, \$50, With Usual Return Privileges.

SEASON CLOSES JUNE 1, 1898. All bills payable not later than that date. Address all letters

P. J. WILLIAMS, ALAMEDA CAL.

## Oakwood Park Stallions

## ALTAMONT.

King of Sires of 2:10 Performers—One of the Greatest Progenitors of Extreme Speed in America.

"A stallion cannot rise above his surroundings." This is an axiom of the horse-breeding world, but it has been signally refuted by the success of Altamont, that has risen to a prominent position among the greatest trotting sires under conditions that would probably have consigned any one of them to obscurity. His success, which, as one of our exchanges put it, "borders on the marvelous," attracted so much attention through the performances of his progeny, that many sketches of Altamont, more or less accurate, have been published. With a view of obtaining an authentic account of the salient points of Altamont's career, we have gathered from his owner, Mr. Jay Beach, the following facts of his history:

Mr. Beach purchased him in the early spring of 1877 of the late Gen. Wm. T. Withers, then proprietor of the famous Fairlawn Stock Farm, Lexington, Ky. Altamont was shipped early in March in charge of R. S. Withers, reaching the terminus of the Oregon Division of the Central Pacific at Redding, Cal., after a trip of twenty-one days. He had stood on his feet during the entire trip but his clean, hard limbs, which he still has, and for which his family are so noted, evinced no signs of the severe tests which they had undergone. A still further distance of 250 miles over rough mountain roads completed the journey to Fort Klamath, where Altamont was as completely exiled from the trotting horse world as if his location had resulted from an edict of proscription. He was broken when three years old and showed probably a 2:35 gait

that season. During that year Capt. C. W. Werk brought from Jacksonville, 100 miles away, the dam of Morookus, sire of Klamath, 2:07½, and bred her, and in the following year Morookus was foaled. Many who have seen the few colts which Morookus left, believe that had Morookus lived, he would have proved a successful sire. The country contiguous to Fort Klamath was a large Indian reservation, and even that outside of the reservation was an unsettled, mountainous country, absolutely barren of anything like trotting-horse blood. Altamont was first started in a race at Yreka, Cal., when five years old, winning his race and a record of 2:44. In March, 1885, he made his present record of 2:26½ to a wagon weighing 115 pounds. He had then trotted twenty races, winning seventeen of them, and getting second place in the others. He trotted some other races that season when out of condition without adding to his credit as a trotter. He was always a remarkably level-headed horse, and while trotting in California during the one winter that he was kept there, earned the sobriquet of the "bull dog," from his endurance and determination. Many competent men, John Goldsmith among the number, have expressed the opinion that with professional training Altamont would have made a great trotter.

In the fall of 1883 Mr. Beach moved to Dilly, Or., and three years later to Vancouver, Wash., where Altamont's career may be said to have really begun with the season of 1887.

His fastest performers are the pacers Chehalis, 2:07½, Del Norte, 2:08, Ella T., 2:08½, Doc Sperry, 2:09, Pathmont, 2:09½, and the trotters Altamont, 2:09½, and Klamath (grandson), 2:07½.

Compare the maternal blood lines of these performers with those of an equal number possessing this extremely high rate of speed, that were sired by any other one horse and it will be found that the history of the light-harness horse furnishes no parallel for what Altamont has accomplished. Though Klamath was his grandson, Altamont alone of all his ancestors has ever produced a respectable trotter. Many of Altamont's earlier colts would have been fast pacers but they were not allowed to pace. In this connection it is pertinent to state that Altamont has never produced a colt to a pacing-bred mare, or a mare with a drop of Wilkes blood, or from one with a fast record. One of the features of his stud career was an offer of several years standing to refund the service fee whenever Altamont sired a sorrel foal. This offer brought to him a number of sorrel mares, many of which, it was thought, could be depended upon to bring sorrel foals, but none ever came.

The effort to compare Altamont's opportunities with those of other horses of his rank, quickly develops a striking contrast. These horses have been located in favored climes, their progeny, from mares of richest lineage, has been skillfully handled and pushed through tin-cup and other routes for records, while, on the other hand, a horse bred to mares of all kinds, a few of his colts, without training, show so much speed that they are given amateur work, are raced out of condition over slow tracks where their drivers are trying to avoid records, yet they make such a showing as to attract world-wide attention. Such in brief outline are the conditions under which Altamont at twenty-one years of age, has become the sire of six 2:10 and thirty-eight standard performers, with the end not yet in sight.

Each successful step in the contemplation of Altamont's work, and of the conditions which have confronted him, has served to strengthen the conviction that he is possibly the greatest light-harness sire that has yet appeared. He is one of the select few that have achieved greatness, and that will live as the founder of a family.

### SIRES OF FOUR OR MORE IN THE 2:10 LIST.

NAME.	Trotters.	Pacers.
Altamont.....	1	5
Baron Wilkes.....	2	4
Mambrino King.....	2	3
Onward.....	1	4
Aleyone.....	3	1
Chimes.....	2	2

### THE DAMS OF ALTAMONT'S 2:10 PERFORMERS.

NAME.	DAM.	SIRE OF DAM.
Chehalis.....	Tecora.....	Cassius M. Clay Jr. 22
Del Norte.....	Tecora.....	Cassius M. Clay Jr. 22
Ella T.....	Daisy Dean.....	Unknown
Doc Sperry.....	Kitty Kisbar.....	Young Kisbar
Pathmont.....	Sally M.....	Oregon Pathfinder
Altamont.....	Sally M.....	Oregon Pathfinder

Cassius M. Clay, Jr., was one of the great broodmare sires. He was foaled in 1853, kept most of his life in Kentucky, was quite a prolific horse; many of his mares had good dams, and were quite largely bred to Kentucky's choicest sires. Yet Chehalis and Del Norte are the fastest performers from his daughters.

Daisy Dean, dam of Ella T., is of unknown breeding and without speed. She was bred to Altamont but once.

Young Kisbar was an Oregon-bred son of Kisbar 1273, son of Hambletonian 10. He is entirely unrepresented in the standard lists except through Doc Sperry.

Sally M., dam of Altamont and Pathmont, produced six foals to one son and three grandsons of Hambletonian 10, and one foal to Noonday. Of these seven foals, Pasco has a pacing

record of 2:41. She produced three foals to Altamont, and two of them are in the 2:10 list. Oregon Pathfinder, her sire, has two representatives in the 2:30 list, and has attracted some attention through having sired the dam of Altamont and Pathmont.

When Mr. Beach brought this horse to California, last year, he had no trouble in getting some of the finest bred mares in this State to breed to him, but as he limited the number to twenty-five he was compelled to refuse some. Of the twenty-five mares bred, it is positively asserted by the owners that only two failed to get in foal to this great horse and the mares were of a far superior class to any ever booked to him. The marvelous work done by the few Altamonts that were started has made these owners happy and many of them have decided to breed their mares again to this horse. That they will get horses that will be invaluable as race horses and roadsters is a foregone conclusion.

Mr. Beach will remain with Mr. Nelson and with two such able horsemen to look after all mares sent to this stallion, owners need have no fear their mares will not receive attention.

As Altamont's advertisement in our business columns we earnestly hope that it will not pass unheeded, but that all who have mares to breed will remember that the opportunity to breed to this horse now will not be overlooked for by-and-by many a breeder who has not done so will regret it.

### Down With the Poolrooms.

The municipal authorities of St. Louis have been for some time engaged in waging war with the poolroom gamblers in that city, and, as might be expected, have the hearty support of the entire press of the city. The Republic, in calling attention to the state of affairs which has ensued after the equitable breeders' law was declared unconstitutional, published the following editorial, taking a position which is perfectly tenable and which should be endorsed by every one who has at heart the weal of the turf. Though published some weeks ago, the declaration made is so spirited and to the point, and the facts are so clearly stated, that we have much pleasure in reproducing it. It would be well if every community in which a poolroom is doing business would take the same stand. The Republic says:

Public sentiment in St. Louis will not approve of abandonment of the fight against the pool-room sharks because of Judge Sidney having followed the precedent of Judge Murphy in declaring the breeders' law unconstitutional. Even if those decisions should be supported by the supreme court of the State, there would be no good reason for a surrender of St. Louis to the malign influence of pool alley. Legal grounds are still left that would warrant the raiding of the poolrooms and the prosecution of the cheap gamblers who are now boasting of their victory over the law-abiding classes of the city. Under the ordinance against nuisances, every pool-room in St. Louis is subject to raid and the proprietors thereof to punishment for maintaining public nuisances. The raids should be made and the bookies punished. Under the common law against public nuisances, in the event of the statute not being sufficient, it is the opinion of ex-Attorney General Walker that the pool-rooms may be raided and closed. The rulings of the supreme court of Missouri, New Jersey, Kentucky and Illinois justify proceedings against pool-room proprietors for maintaining public nuisances. These proceedings should be instituted. Raid the pool-rooms and prosecute the proprietors until those moral cesspools have been permanently closed and the sharks who profit by their traffic have been driven out of town or until the resources of the law have been exhausted in vain. Pool alley is making this a fight to the finish. The people of St. Louis look to the police board and the police department to again take up the challenge and prosecute the fight to the finish. A surrender of pool alley now means a surrender of St. Louis to the gamblers. Gamblers are not good men to be given the upper hand in a great city. In St. Louis the situation has now reached a crisis where the gamblers must be decisively whipped and driven from town to save the youth of the city from moral degradation and ruin. Whip 'em and drive 'em out of town if there's law enough in the State of Missouri to do it.

Yes, by all means drive 'em out, whip 'em out—anything, only wipe the pestiferous pool-room out of existence. It has been proved that whenever public prosecutors and judges have had the courage of their convictions and have been beyond the influence, political and otherwise, of the gamblers, the pool-room could not exist. Pestilential and degrading in their influence, the pool-room dives do more to harm the cause of racing than all the efforts of the long-haired men and short-haired women who pose as reformers and seek to gain notoriety in attacking legitimate sport. The pool-room is the worst enemy the horseman and the association have, and to its baneful influence may be traced more than half the ills that have befallen the sport. Surely in self-protection the associations should do something to put a stop to this damaging of the sport and wipe out this menace to their very existence. It has been shown that without the assistance of associations the pool-room cannot flourish, and surely one would think that the associations might forego their little profit derived from sending their reports to the rooms for the sake of the sport at large. If the associations will not act of their own volition, let the horsemen force them to it; but, alas! history shows us that most horsemen and associations care only for the present, and are blinded by the dollar before them to the thousands that may be slipping surely away from them a little distance beyond. Nevertheless, the fact remains that the pool-room has caused the death of racing in many a place before, and history never fails to repeat itself; but if those most interested will not raise a hand to help themselves, who, indeed, can be expected to fight their battles? Let us hope, however, that the police of St. Louis may drive the pool-room from the mound city. As nuisances, these dives have been abated before, and as nuisances they should be abated wherever and whenever they are opened. But, as stated, it is only a question of the public prosecutor and the Judges doing their full duty. If the pool rooms continue to flourish, the people of St. Louis will know who to blame. The police can only do so much; the higher officials must do the rest.—Horseman, February 15th.

### Pedigree of Briar Sweet, Winner of the California Oaks.

### Oakland Races.

TUESDAY, FEBRUARY 15

First race, six furlongs, selling, three-year-olds and upwards, purse \$300. (Thorpe, 107) first, easily by three lengths; Veragua (Spencer, 104) second by three and one-half lengths; Tulare (E. Jones, 101) third. Won't Dance, King William, Sutton and Nic also ran. Time, 1:44.

Sixth race, six furlongs, three-year-olds and upwards, purse \$350. Blarney Stone (H. Martin, 107) first, driving by one length; Prince Tyrant (E. Jones, 102) second by six lengths; Trolley (Clayton, 114) third. Hurly Burly also ran. Time, 1:36.

TUESDAY, FEBRUARY 22

First race, seven furlongs, selling, four-year-olds and upwards, purse \$450. Jack Martin (Stevens, 105) first driving by a head; Charles A. McDonald, 105 second by seven lengths; Schmitz (Spencer, 105) third. Benamela, Gallant, Silver State, Coupon III and All Smoke finished in the order named. Time, 1:32.

Second race, six furlongs, selling, three-year-olds, purse \$350. Hermoso (McIntyre, 112) first, galloping by five lengths; George Lee (W. Martin, 106) second by a nose; Dr. Bernays (H. Martin, 109) third. Allie Belle, The Dipper, The Ace, Plan, El Moro and Al Koran finished in the order named. Time, 1:17.

Third race, one mile, selling, four-year-olds and upwards, purse \$350. Pat Murphy (Spencer, 109) first all the way by twenty lengths; Foremost (Conley, 109) second by a nose; Stentor (H. Martin, 106) third. Charming and Startling also ran. Time, 1:47.

Fourth race, one and an eighth miles, three-year-olds and upwards, purse \$2,000. Briar Sweet (Clayton, 117) first, easily by three and one-half lengths; Naxos (Thorpe, 117) second by three lengths; Torsida (H. Martin, 112) third. Bonito, Martha and Recreation finished in the order named. Time, 1:58.

Fifth race, seven furlongs, four-year-olds and upwards, purse \$400. Geyser (W. Martin, 112) first, cleverly, by a nose; Oester Lee (H. Martin, 115) second by five lengths; Howard Mann (Spencer 115) third. Senator Blarney also ran. Time, 1:30.

Sixth race, seven furlongs, selling, four-year-olds and upwards, purse \$350. Refugee (H. Brown, 111) first, easily by five lengths; Red Green (Gray, 110) second by seven lengths; Lena (E. Jones, 101) third. Don Fulano, Kamsin, Amelia Fonso and Humberg finished as named. Time, 1:31.

### The Telephone and the Pool-rooms.

In ordering the wires removed from the Ingleside racing grounds, the Pacific Coast Jockey Club did everything in its power to close the notorious downtown pool-rooms, but these sinks of iniquity, while they have been checked by this action, have not been entirely crushed. If the act of taking dimes and quarters from their demented patrons can be called business, it may be said that they are still doing business at the old stand.

The work of debauching the youth still goes on, not of course to the full extent it did when the full report was sent in by the Western Union Telegraph Co., but in a slightly modified degree as the result of the telephone service, which has been substituted for that of the telegraph. For this defiance to public decency and the public demand the telephone company alone is responsible. At its door alone must be laid the blame of perpetuating this insidious vice.

It will not do for this creature of a public concession to say that it has no power to prevent the transmission of racing news from the track or places adjacent to the track to the downtown pool-rooms, because it has. That power was not only conferred upon it in its legislative creation, but the exercise of that power is made a duty. The privileges of erecting poles and stringing wires within the limits of San Francisco county carries with it no right to violate either the laws of the city or those of public decency. This it is certainly doing when it permits its wires to be used for the transmission of track results to the dives which have been placed under the ban of the law. In doing this it becomes a participant in the offense against society from which it derives its rights.

Its position in this matter cannot be defended on the ground that it has no right to tell its customers what they shall or shall not send over the wires, because it has the right just as clearly as it has the right of existence. It can confer no right upon its customer that it does not itself enjoy, and the right to use its wires for a purpose at variance with that of public good was neither contemplated by its creator nor embodied in its charter. It has the power to remove its transmitter forthwith from the premises of any customer who insists upon using it for unlawful purposes; to do this is its plain legal as well as moral duty.

The BREEDER AND SPORTSMAN does not believe that the telephone company will insist upon neutralizing the good work of the Pacific Coast Jockey Club by doing a thing that is destined to kill racing in this State, but if it does so, there is but one recourse left, and that is to place it in the same category with its dive customers and suppress it under the general head of a nuisance. The power to do this rests with the police, just as it does in the case of any menace to public health or public morals, and we hope if a last resort becomes necessary that it will be exercised. The BREEDER AND SPORTSMAN, as the organ of the horse breeders of this State, is determined that that industry shall not be throttled by that other monster, the pool-room octopus.

THOMAS H. WILLIAMS, President of the California Jockey Club, left for San Francisco last Friday night after a week's sojourn in the land of sun and flowers. He made a pretty thorough examination into matters about here, and has given it out officially that there will be three (and perhaps four) weeks' racing at this place in June under the auspices of his club, to take place immediately after the close of the Sacramento meeting. As there are nearly six hundred horses (including two-year-olds) at the northern track, that are owned within the State, there will be no lack of good sport. Most of the Eastern horses will have returned to their homes across the Rockies by that time, and so the home stables will have things to themselves. Mr. Williams does not expect his club to make any big money out of the meeting. His object is to familiarize the Los Angeles public with metropolitan racing and, to get that once fairly established, he will be satisfied if the initial meeting pays current expenses. He sees, however, as every one else must see, that this is destined to become a great racing city.—Capt. T. B. Merry in Los Angeles Phoenix.

QUITE a number of big stables now racing at the San Francisco tracks will race at Oakley this spring. Among the most prominent owners that have made entries in the stakes at the Cincinnati track, and will probably spend a part of the season in the vicinity of Cincinnati are Ed Corrigan, Burns & Waterhouse, Tom Ryan, James Whitten, Mason & Co., J. M. Murphy, J. T. Stewart, Barney Schreiber, Louis Zell and several others.—Cincinnati Enquirer.

### TWO FINE YOUNG STALLIONS FOR SALE.

One a trotter and the other a pacer, bred in the most fashionable strains. The trotter is one of the finest individuals and GRANDEST BRED horses on the coast, and a great stock horse, as his produce show. For particulars, redigree, etc., address, G. W. STIMPSON, V. S., 698 24th St., Oakland

### Ingleside Races.

MONDAY, FEBRUARY 21

First race, four furlongs, selling, two-year-olds, purse \$350. Formero (H. Brown, 110) first, easily by one length; Frank Ireland (Spencer, 105) second by three-quarters of a length; Foxey (E. Jones, 102) third. Illuminating, Don't Tell, Reina de Cuba, Racevan and Odd Eyes finished in the order named. Time, 0:51.

Second race, six furlongs, three-year-olds and upwards, purse \$350. Lord Marmion (H. Martin, 113) first, easily by one length; Triumph (Spencer, 117) second by a neck; Mainstay (H. Martin, 112) third. Highland Ball and Canillo also ran. Time, 1:17.

Third race, one and one-eighth miles, selling, four-year-olds and upwards, purse \$400. Collins (E. Jones, 109) first, easily by five lengths; Can't Dance (Shields, 111) second by a head; Little Cripple (Conley, 109) third. Adam Andrew, Perseus, Paul Pry and Presidio finished in the order named. Time, 1:54.

Fourth race, five furlongs, maiden three-year-olds, purse \$350. Ping (Clayton, 112) first, easily by one and one-half lengths; Roulette Wheel

SPECIAL DEPARTMENT

EDITED AND CONDUCTED SOLELY BY

JOSEPH CAIRN SIMPSON.

WRITE THE STORY!—After the great race on Saturday last in reply to laudations of the race Judge C— said: "Write the story in the old-fashioned way. Mr. S—, Commence it as soon as you get home while everything is forcibly impressed on your mind, all the shifting scenes vividly remembered."

An easy task from one point of view, plenty of material, not only a "foundation of facts," but a series of truths to construct the tale upon, plenty of incidents for as long a chapter as Wm. T. Porter took to give his history of the meeting between Wagner and Grey Eagle nearly sixty years ago, a chapter that will be read with interest as long as the "high-mettled race-horse" is kept in remembrance. But if that past-master of horse literature could have witnessed the California race, in some respects far superior to the battle fought on the "dark and bloody ground," and was in his very best form, endowed with all of his former capacity to portray the scenes, as graphically as words could picture, would scarcely feel the enthusiasm necessary to reproduce his masterpiece which has never been excelled, in fact never-equalled in all the years of race reporting.

Enthusiasm not entirely absent, it is true, but not of the kind that inspired the cheers that caused "women to faint and strong men shed tears" when the pride of Kentucky was beaten. "Not a Kentuckian on the ground laid a dollar on Wagner," writes the "Tall Son of York," and it is safe to say that there was a more potent stimulant than the excitement of money wagered, the desire to see the "home horse" victorious, a sorrow over his defeat that money won could not ameliorate.

Then again there is the feeling that long descriptions of races that were read with avidity in the "long, long ago," are not relished in this utilitarian age, and hence the practical has the call over the sentimental, business the motto nowadays, a straight story preferred to an embellished narrative.

There is one point, however, that was applicable sixty years ago that is not yet out of date, and "description and pedigrees" of the contestants is a part which a few of the modern race-goers will relish, and, consequently, that part of the old practice can be retained.

The description will have to be postponed as not foreseeing Judge C—'s request the only one of the contestants I had even a brief look at was Judge Denny. After his great run of two miles the Saturday before I could not understand how the "tipsters" and reporters, and such a large majority of the "talent" repudiated his chances. Enquiries brought out the response "he cannot carry weight" but as the weight was only 115 pounds and that on a five-year-old that did not suffice, in my estimation to thrust him aside. Therefore I watched him "warm up" and followed him with the saddling paddock. Just the right action to "go the route," and, so far as could be told by the eye, in good condition.

His record race had no bearing; useless to call attention to the little distress exhibited after two miles in 3:26½, the same refrain "he cannot carry the weight."

Marplot figured well in the calculation, but even under the weight estimate that was not enough to turn the scale, so three pounds additional on a three-year-old in the month of February, will hardly justify the belief that the five-year-old with ten pounds more, will be at a disadvantage when the distance is doubled, and that from two miles to four.

And now for the pedigrees. There might be something in the genealogical lines to warrant the disparagement of Judge Denny, a faint-hearted near cross, perhaps, that would exert a malign influence.

JUDGE DENNY	Fonso	King Alfonso	Imp. Phaeton
		Capitola (by Vandal)	Weatherbit
	Belle of Nantura	Imp. Weatherwitch	By Birdcatcher
		Jils Johnson	Longfellow
MARLOT	Imp. Rossington	Miss Helen	Fanny Wells
		Doncaster	Endorser
	Marjory	Lily Agnes	Ellen Swigert
		Longfellow	Stockwell

Cousins then, the first and second in the Thornton Stakes, dams seven eighths of the same blood, grandsons of Miss Helen and her sister, granddaughters of the Wagner that defeated Gray Eagle. No soft spots in either of these tables, and certainly nothing on the side of the dams to give preference to either.

Fanny Wells, the interpolator on the side of Judge Denny, should not deteriorate the blood, as she was by imp. Sovereign, her dam Reel by Glencoe, and there comes in the stoutest lines of blood, Sovereign, the sire of La Vrie Reine and Prioress, who won the Caesarawitch after a dead heat with Ed Hakim and Queen Bess, and Reel, a winner at heats of four miles and the dam of Lecomte, who beat Lexington, heats of four miles, Starke a winner in England, her last foal, War Dance.

The sire of Judge Denny, Fonso, is almost as English as the sire of Marplot, and those of the tried long distance sort.

As for the youngster he has done what no colt of his age ever accomplished. In the two miles he ran well inside of the previous record, and was so close up in the four miles that he must have made 7:21, or within a fraction of that mark.

Doubtful if any colt of the age of Marplot, actual age, ever started in a four mile race before. I have an indistinct recollection that Pete Whitstom it was claimed won a four mile race when he ranked as a two-year-old, when age was measured by the first of May, but the records I have do not show it. He started in a race at New Orleans, April 7th, when he rated as a two-year-old. The race was won by Wagner in 7:44-7:57 and in it Wagner is classed as a three-year-old, though in his subsequent races of that year, 1838, he is given as a four-year-old.

In the general apotheosis of time there is a somewhat strange over-looking of the merits of an actual race. A few were sanguine enough to predict that 7:11 would be beaten, and notwithstanding 7:20½ is the third fastest on record it was held as an inferior performance. Had the first mile been run in about 1:48, the second in 1:50, the third in 1:48, it is quite probable that the fourth would have been made in the same time as it was on Saturday which would aggregate 7:14½. The difference between 1:43½ and 1:48, that mile requiring the light jockey on Marplot to exert all of his strength would more than counterbalance the good of the second mile in 1:53, and the third in 1:55½. And in this connection it will not be out of place to suggest the adoption of a rule which will forbid the horses trained in the same stable, or under the same management, starting in a race when the distance is more than one mile.

That it was "two pluck one" in the Thornton stake no one at all candid will deny, and though in my opinion the race would have ended the same had Wawona been out of it, the victory more honorable to the winner, far more satisfactory to the owner of Marplot, and the large majority of the spectators.

\* \* \*  
"HEAD, HANDS AND SEAT.—In all probability Englishmen will continue to claim that in this trio of requirements for a first-class jockey their famous knights of the racing saddle excel in every point. Throw out the first named and at the same time admit that in many respects it is worthy of the first place, there are good grounds to deny the assertion that the "English seat" is the best there is for successful riding in races. Furthermore, I am ready to acknowledge that "hands" are likely to be better when the jockey sits in a position that will afford him a more free use of his arms, and then comes the question: Does the American seat give advantages which overbalance inferior hands? Tod Sloan opened a gate to a wide field of discussion by his riding in England, and his marvelous successfully justified the claim that his manner of riding was the best.

Twenty victories in an aggregate of fifty "mounts" are convincing proof that he was the superior of his English competitors, and to give additional supplies to the claim that the American seat was the prime factor in his success, on his return to this country, one win to five mounts is the record. There he met jockeys who rode in the orthodox English style, while here he had to contend with pupils of the same school. Conley, who rides with a still shorter stirrup and full as much forward slope, rode against Sloan in four races, three of which he was in front, but to illustrate by the races in which either were winners, the first time they met was on February 10th, when Conley won on Our Climate at odds of from 15 to 30 to 1. Sloan on Wawona second at odds of 8 to 5 and 2 to 1.

The same day Conley won on Libertine at 3 to 1, Sloan second on May W. 8 to 5 and 6 to 5. February 12th Sloan won on Fleur de Lis at 1 to 1 and 4 to 5, Conley fourth on Libertine, the odds 8 and 9 to 1.

The odds, of course, were partially based on the celebrity of the "Prince of Jockeys," though it also proves that the horses were thought to be of nearly the same class, with the exception of Our Climate. Rather presumptuous to claim that if an English jockey had been on Our Climate and Libertine Sloan would have won these races, and yet the difference in the style of riding would warrant that assertion, due consideration being awarded to the races in both countries.

Many of the English critics claim that Sloan's success was mainly due to getting well among the score, but that should not have figured in so many races. After a few defeats accredited to the Yankee getting the "bulge" it will not be logical to say that the English riders were so obtuse as to let him play a lone hand at that sort of game continually. Until Sloan so firmly established his superiority on the other side of the Atlantic I was a firm believer in the superiority of the English system of riding. Now that faith is shaken, if not entirely upset, and in order to sustain my present belief will endeavor to discover the reasons why the American style should be the best. On the right track, I think, but before giving publicity will bestow a good deal closer study on the subject.

JOSEPH CAIRN SIMPSON.

The Poolroom Press.

With but two exceptions, the papers of San Francisco have refused to lend their support to the downtown poolroom dives by attempting to furnish them information after the Jockey Club had shut off its source; one of these papers is the Bulletin; the other is the Report. For the few paltry nickels they obtain by the sale of these noonday papers, these two sheets, (one of which boasts of its respectability), continue to pander to an element which has been placed under the ban of the law. With what appears to be an utter disregard of the common amenities of decent journalism, these two papers continue to insult public decency by playing the part of poolroom guides. Whether this is due to the stress of circumstances or to a spirit of indifference to the public wishes we are unable to say, but there is one thing certain, that they were both discovered in time, and that is that the business men of this city are not seeking trade in the fetid atmosphere of opium joints or the downtown poolrooms, where

these noonday editions are sold, when sold at all. People who are too poor to go to the race track are too poor to purchase anything of greater value than a poolroom guide. That class of trade can be handled by the police to much better advantage than it can by the business man. The Post, which was the first to branch off into the noonday racing edition business, discontinued it when the Jockey Club declared that the poolroom evil was a menace to legitimate racing, and went back into the regular field of journalism; but the other two, with less regard for public decency and a greater need of the nickel than their shrewd competitor, have continued to get out "fake" editions. The "Breeder and Sportsman" is inclined to think that the Post took its unsuspecting competitors upon a snipe-shooting expedition and then left them holding the sack while it went off to drive in the snipe—in the form of legitimate advertising. When this feature of the case dawned upon the publishers of the Bulletin and the Report they will fall all over themselves in an effort to get back into the band wagon, and will most likely demand that racing be stopped entirely.

The Kentucky Racing Bill.

And all this calls for a few words anent the racing bill now before the Kentucky Legislature. Secretary Gratz Hanly, of the Newport club, who is now here, showed me a telegram to-day from Manager Frank Fowler, of that club, which read something like this: "It is safe to predict that the Kentucky racing bill will go through."

Although the measure passed the Senate where it originated, without objection, press dispatched from Frankfort say it will be stoutly resisted in the House, the Kentucky breeders bringing considerable pressure to bear in opposition to the bill. By nearly general consent the clause putting a quietus on the pool-rooms is considered a good and wholesome one, albeit the operation of pool-rooms in the State is in violation of an existing law. As stated last week, the State authorities have suppressed the Covington and Lexington pool-rooms, while those in Louisville are allowed to run without let or hinderance. While the pool-room clause in the new bill is very sweeping and stringent, the existing law on the subject is sweeping enough to close the rooms in some localities, while powerless elsewhere.

As for the feature of the new bill limiting race meetings to fifteen days, the drift of Kentucky sentiment is probably against such limitation, and it is safe to say the bulk of the breeders are opposed to that clause. President Davidson, of the Lexington Club, makes the point that the breeders favor a fifteen days bill, which, I judge, is assuming entirely too much. Speaking in a general way, the breeders are not opposed to extended meetings, and for the simple reason that such meetings tend to enhance the value of yearling thoroughbreds. If there is a surfeit of racing here or there, though, with abuses thrown in, so as to invite hostile legislation, then the breeders, as well as owners and racing clubs, would be the sufferers. But as the three Cincinnati clubs have agreed on curtailed details as compared with last year, and as there will be no foreign book nor cold weather racing, existing conditions hardly call for new or repressive legislation. Lexington has a grievance, and a reasonable one at that; still, it is hardly of a kind to afford a real pretext or cause for upsetting the present racing laws of the State.—"Broad Church" in N. Y. Spirit of the Times.

PRESIDENT LABOLD, of the Oakley Club, sent me the following telegram the other day, says "Broadchurch" in the New York Spirit of the Times: "Oakley entries, which close February 1st, breaks all records, with a total for ten stakes of eighteen hundred and fifty. The Merlin Handicap has one hundred and six subscriptions, first-class horses, including the sensational Ornament." The conditions attached to entering the stakes were of such an inviting kind that it is little wonder Oakley succeeded in breaking all records. Well, this is a feather in the cap of the Oakley management, and of course it means great racing at the Oakley track. From causes referred to more than once recent meetings about Cincinnati were not financially successful, but these causes will not be in force this season, and different results can be reasonably expected. The racing will not be overdone there; the clubs will act in concert, while the hard times will measurably be a memory. The three Cincinnati Clubs are deserving of success, for while they give clean and wholesome racing, they contribute largely to the benefit of the horsemen, not forgetting the interests of the breeders as well.

THE Chicago, Union Pacific and North western line, with its daily service of through Pullman and Tourist Sleeping Cars, to all Eastern points, and all meals served "a la carte" in dining car, offers "comforts in travel" nowhere reached in a higher degree of perfection. Passengers leaving San Francisco on the 6 P. M. train arrive in Chicago in 3½ days, and avoid the necessity of changing cars en route. For tickets and sleeping car reservations call on or address R. R. Ritchie, General Agent, No. 2 New Montgomery street, Palace Hotel, San Francisco, Cal.

A BILL was introduced in the Senate at Annapolis, Md., February 11th, by Senator Westcott, prohibiting betting at any race track in Maryland. It practically prevents racing of any kind, except for premiums at county fairs, when there shall be trials of speed, and these will be permitted only ten days in the year. A similar measure, applying only to Cecil county, passed the Senate three days previous.

Advertisement for Quin's Ointment and Jay-E-E-See. The ad features a starburst graphic with the text "QUIN'S OINTMENT" and "JAY-E-E-SEE". It includes testimonials and claims of effectiveness for various ailments.

TRY IT. W. B. EDDY & CO., Whitehall, N. Y. Ask your druggist for it. If he does not keep it we will send you one on receipt of price. Address: W. B. EDDY & CO., Whitehall, N. Y.

It is the best preparation I have ever used or heard of. I heartily recommend it to all Horsemen. We have hundreds of such testimonials.

Quin's Ointment. It cures all kinds of sore shins, cuts, bruises, and all other ailments of the horse. It is a sure cure for all the above mentioned ailments. It is a sure cure for all the above mentioned ailments. It is a sure cure for all the above mentioned ailments.

JAY-E-E-SEE. It is a sure cure for all the above mentioned ailments. It is a sure cure for all the above mentioned ailments. It is a sure cure for all the above mentioned ailments.

## TURF AND TRACK.

## THE SULKY.

JAMES L., 2:09½, by Dexter Prince, will be campaigned again this year.

JOHN S. PHIPPEN has a good string of trotters at the San Jose race track.

RINCONADO, 2:17, has been put to pacing and will be seen on the circuit this year.

THREE hundred horses selling at an average of nearly \$350 is encouraging to breeders.

ADONIS, 2:11½, and Flying Nig, 2:19½, make the fastest pole team in Providence, R. I.

HON. B. D. MURPHY has booked his good mare Silver (dam of Marin, Jr., 2:13) to Boodle, 2:12½.

VISALIA, 2:12½, by Iris, was recently purchased by a Pittsburg gentleman from M. R. Swift of Cleveland, O.

MANY race meetings were held in California on Washington's Birthday, accounts of which will appear in our next issue.

DAN Q., 2:08½, sold for \$2,000 at auction last week. He was sired by Simmocolon, out of Ypsilanti Belle, by Montgomery.

J. M. NELSON of Alameda has added ten box stalls to his row of buildings near the race track and has nearly all these engaged.

CHAS. MARVIN, who lately bought a carload of horses in Montana for the eastern market, lost several by pneumonia in transit.

A NUMBER of fine mares have been booked to the various stallions advertised in the BREEDER AND SPORTSMAN. It pays to advertise.

OLONIUS, sire of Page 2:09½, although twenty-five last year, covered fifty-two mares and is said to have gotten most of them with foal.

FRANK ROCKEFELLER has decided to use his fast filly, Fanny Foley, 3, 2:19½, by Redwood, at the Cleveland matinees next summer.

ATHANIO, 2:10, is in the stable of Trainer Clayton in Vienna, Austria. Clayton is the man who raced Prince Purdy, 2:15½, in this country.

The heavy rain this week insured plenty of pasture, and with one or two more storms, our stock men can rely upon having plenty of hay and grain this year.

THE BREEDER AND SPORTSMAN has closed all the pool-rooms in California. Its influence is all powerful, and it never starts in to make a fight but it wins.

IAGO, 2:11, was a disappointment to the Cleveland gentleman who bought him a year ago, but has now become thoroughly acclimated and promises to be a great horse this season.

THE Dexter Princes at Palo Alto are faster than any youngsters ever seen at this famous place. The blood of Electioneer blends well with this sire of frictionless-gaited horse.

ADVERTISE your stallion in the BREEDER AND SPORTSMAN if you desire to get the very best mares for him. More mares will be bred this year than for any time during the past four years.

THE last colt Beautiful Bells had is called Monbell, and its sire is the grandly-made Electioneer stallion, Monaco, 2:17. Beautiful Bells will be bred to this sire again this year.

THE farmers and stock-breeders of Solano are to be congratulated on having the handsome horse, Prince Almont, 2:13½, near Cordelia as a stock horse. He should be well patronized.

THE San Mateo Stock Farm trotters, forty-two head in all, led by Oro Wilkes, 2:11, were placed in three cars at Burlingame last Thursday, and shipped to P. C. Kellogg & Co. New York.

JOHN A. McKERRON, the well-known horse-boot manufacturer reports, business brightening, and a greater interest being taken in light-harness horses than at any time during the past three years.

THE mare Anita S., by Sable Wilkes, that F. B. Rockefeller, of Cleveland, bought and then sold as of no account, showed a mile last fall in 2:13½. She is now owned by W. P. Murray, of Cleveland.

ALL the stallions, broodmares, colts and fillies left at the San Mateo Stock Farm will be sold by public auction at the Occidental Horse Exchange about May 1st. Mr. Corbitt is to retire from the business.

ADONIS 2:11½, the Sidney gelding once a star performer in Orrin Hickok's hands, for some years since a road horse in Providence, R. I., has changed hands in that city, Ezra Perkins buying him of Harry McDonald.

JOHN E. MADDEN has recently sold the fast mare Barnetta 2:12, by Barnhart 2:22½ (brother of Allerton), dam Orianna 2:24½, by Onward, to Frand Work, the well-known road rider of New York City. Reported price, \$2,800.

SPHINX, 2:20½, the fifteen-year-old Electioneer stallion, will probably be sent to Europe, as an agent named G. Spear purchased him at the W. B. Essig sale last Monday for \$2,500; a remarkably low price for such a sire.

THERE will be a "boom" in trotting and "pacing" circles this year. From all portions of the United States comes most encouraging news to breeders and owners. California will also take its place among the best this season.

A SPECIALLY built wagon has been ordered by Gus Wagner, of Cleveland, for Derby Princess, 2:08½, and she will tackle Ellore's "record" of 2:10 next summer at the matinees. The big black mare ought to be a great wagon trotter.

AS FOR the general indorsement of trotters in France in 1895, the trotters received in purses \$313,903, \$336,410, the year following and \$349,682 in 1897, and the trotting fraternity look for some \$400,000 worth of purses during 1898.

MONROE SALISBURY is busy buying up Montana horses of the pack train variety. His intention is to take them to Alaska and go into the freighting business. Mr. Salisbury knows more about this business than any man in America, and will, no doubt, be successful.

"DID Electioneer sire pacers?" is a subject that is kept alive in certain quarters just as though it were a matter of some importance, and one in which the public is interested. Suppose Electioneer did sire a pacer or two—he will not "do it again," and hence should have a rest.

CHAUNCEY CAIN is doing well at the Mokelumne Stock Farm with the youngsters by Silver Bow. We understand Mr. Fox, the owner of this farm, refused \$1,500 for the three-year-old pacer (no record) Dædalion, son of Diablo, 2:09½ and Grace (dam of Creole, 2:15), by Buccaneer.

THE talk about races to saddle at the Breeders meeting is finding favor among all horsemen. A few good races between our best pacers with such men as Lafferty, Sullivan, McDonald, Shaner, Weber and other light-weight drivers up would be good "drawing cards." It is worth trying, anyway.

A NUMBER of improvements are to be made in the grand stand and paddock at Overland Park, Denver. Brad Du Bois, Charles Roberts, Edward Gillard and Edward Chase, the promoters of the coming meeting, propose to give the Denver patrons of the turf the best racing they have witnessed in years.

C. W. WILLIAMS has taken a lease of Highland Farm, Lexington, Ky., formerly owned by W. C. France, and the home of Red Wilkes, and will move Allerton and his entire breeding stud there, from Galesburg, Ill. Allerton's fee this year will be \$100, and Mr. Williams also expects to breed him on shares.

SILKWOOD, the famous Orange county pacer, will again be seen on the turf this year. Mr. J. H. Williams, an experienced horseman, has leased him for this season, and will at once begin training him. He states that the injury in Silkwood's leg is entirely well, and expects him to do some good work this year.

WE earnestly urge all who have received subscription notices to pay up. If the money is not forthcoming there is one alternative; the name of the delinquent subscriber will be erased from our books. Is there a subscriber who can afford to do without the BREEDER AND SPORTSMAN? We hope not, and trust that this admonition is not made in vain.

"FARMER" BUNCH has in training Boodle 2:12½, and Ethel Downs 2:10, Thompson 2:15, Valentine (2) 2:30, all by Boodle. Mr. Bunch thinks so much of the Boodles that he has leased from Vendome Stock Farm, the black mare "Twenty third" sired by Director, first dam Nettie Nutwood, (dam of Hillsdale, 2:15), by Nutwood, second dam by Ethan Allen Jr., third dam by Williamson's Belmont, for the purpose of mating her with Boodle.

WHEN first introduced into Australia the trotting horse was not much of an attraction, and trotting races were not very largely patronized by the public in the colonies. The last ten years, however, have produced wonderful changes, for there are now several large breeding farms, a splendid mile track, and several half-mile tracks. In the trotting races in Australia the winners of the first and second heats race for first money.

M. W. DUNHAM, of Wayne, Ill., the leading importer and breeder of French Coach horses in America, has sent us his catalogue of the Oaklawn stud. It is one of the most complete and elaborate ever issued, and if the breed of horses which is so well illustrated was introduced in California we believe the horsemen here would have no trouble in filling the orders they receive for high class carriage horses. There is not a French coach horse in California and very few know anything about them.

It seems to be the general opinion of every horseman in the country that there will be a big increase in breeding this season over that of the past four years. Still the owners of stallions in all sections are somewhat backward in making their announcements for 1898. Judicious advertising has always been profitable, and the man who owns a good stallion, one that has proven its merit, is bound to be benefited by placing this stallion permanently before the readers of the horse journals. The most successful business men in any line are the men who advertise.

F. J. BERRY, one of the leading horse auctioneers of America, while visiting Oregon on a lecturing tour, the subject being "The Horse," made a flying trip to this city this week and was most enthusiastic over the prospects breeders of light harness horses have in America. A few years ago there were twenty-four States that were supplying other States besides their own with horses. This number is reduced to eight, while buyers from all parts of Europe are eagerly buying up the best horses and paying good prices for them. Mr. Berry returned to Portland this morning.

THE scare over the threatened decree against further importation of American horses into Germany ended almost as soon as it begun. The authorities over there announced early this week that there would be no embargo. In so deciding they were eminently wise, for their people must have horses and America is the best place to buy them. It is a question of quality and price. In both respects the American product offers the best inducements, and so long as it does the bulk of general purpose horses used in Germany will be bought in the land of the free and the home of the brave.

SPEAKING of Beautiful Bells calls to mind the fact that she is barren this year, for the first time since she produced Hinda Rose, her first foal, in 1880. Every season since, up to this, she has produced a foal—eighteen in all—of which the ill-starred Bell Boy is the only one not now living. In a recent letter to the writer, Superintendent Covey, of Palo Alto says: "The old mare is now twenty-six; she looks older, now that she is barren, than she does when in foal, but is still active and stout. She will be bred this year to Monaco, 2:19½, (son of Electioneer and Mano, by Piedmont.) Her dam, Minnehaha, had a foal, I believe, when twenty-nine years old, by the race horse "Nomad." It is to be hoped that Beautiful Bells has not yet become permanently barren. But should she never produce again, her fame as a brood mare could scarcely be enhanced. Comparatively speaking, she has, as a matron, "no more worlds to conquer."

AT Pierce Bros.' track, Santa Rosa, Frank S. Turner is jogging several that may enter the elite circle this year. Au Revoir, by Guy Wilkes, dam the grand By-By, a three-year old, is one of them. She is entered in the Occident stakes. Dolly D., by Sydnea Dillon, out of the dam of Daly, 2:15, is another good one Mr. Turner is jogging. Daly's dam was Dolly by the noble Electioneer, primate of trotting sires. This one is "going" very well and is in good form. Bonsileen, a five-year-old, by the great Stamboul, once the trotting king, her dam Bon-Bon, by Simmons, one of George Wilkes' greatest sons, is the apple of Mr. Turner's eye, one only excepted. The exception is his youngster, Frank S. Turner, by Valotta, he by Geo. Norval. The youngster's dam was by Phallas. Mr. Turner has others in his string he is moving regularly. Tricars, by Guy Wilkes, dam by Director, is one of these. Then there is the four-year-old by Paola, a full brother to Palo Alto, also once king of the turf and one of Electioneer's most famous sons.

FROM every direction comes the same uniform and cheerful report: "The horse business is decidedly on the up-grade in this vicinity. Prices are better, supplies are running low, demand is decidedly active, people are talking about breeding, demand is springing up for breeding stock, and horsemen generally are pricking up their ears and taking new courage." It makes no difference whether the writer lives in Kansas or Canada, the same story of the revival in the local and general horse business is told. A more reliable evidence of the return of prosperity to the trotting horse industry than the expressions and experiences of horsemen living in various sections cannot be had. "Seeing is believing," and believing is, to a great degree, the "real thing." In the immediate past horsemen had to do a great deal of "whistling to keep their courage up," but of late it is courage and encouragement that keeps the "whistling" up. In other words, things are what they seem, and the situation in the harness horse world is really greatly improved, and daily getting still better.

PRICES at the Woodard & Shannon sale, held at Lexington, Ky., last week, averaged fairly well, while the animals sold brought from \$15 to \$3,600, a wide divergence. Wilkes Boy, 18 years old, brought the highest price, \$3,600, and remains in Kentucky, having been bought by Mr. R. C. Estill. That very great broodmare, Kincora, by Mambrino Patchen, dam Kitty Tranby, by Mambrino Tranby, although 16 years old, brought \$2,300, and goes to Mr. J. M. Forbes of Boston. Jay Bird, 20 years old, brought \$2,600, and his son, Eagle Bird, only 16 years old, was sold for but \$700, perhaps the best bargain of the sale. Young horses and extra well-bred mares were in great demand. Mr. William Simpson paid \$1,000 for Amaryllis, blk m, 10, by Director—Maud S, 5, by Gov. Sprague, and \$1,600 for her three-year-old daughter Amaryllis, by Liberty Bell. All the produce of the Amaryllis sold well, although none of her get have reached the list as yet. Alta Vista, b h, 6, by Guy Wilkes—Amaryllis, brought \$975, and Amaranth, blk c, 2, by Bow Belle—Amaryllis, \$810, a total of \$5,385 for the mare and three of her offspring. There were many other notable features of the sale which was, as a rule, very satisfactory.

OF the thirty-six head to be sent to William B. Essig & Co.'s March sale, New York, from the Palo Alto Stock Farm we notice the following: Adbell, brown horse (the world's champion), by Advertiser, 2:15½; dam Beautiful Belle. Pazote, chestnut horse (3), by Whips, 2:27½; dam Sallie Benton; this is a good future prospect. Local, Brown horse, 2:19½, by Wildout, dam Ladywell, 2:16½, by Electioneer, a good race horse, faster than his record as a three-year-old. Anselor, bay horse, 2:21½, by Electricity, 2:17½, dam Anselma, by Ansel, 2:20; a winner last year, faster than his record; winner of the State Futurity. Astrea (3), bay filly, by Azmoor, 2:20½, dam Ashby (dam of Alterna and Arca), by General Benton. Prince Russell, bay colt (3), by Dexter Prince, dam Gertrude Russell (sister to Palo Alto), by Electioneer; great individuality, a natural pacer. Agus Dnee (3), brown gelding, by Dexter Prince, dam Sweet Water (2), 2:26½, by Stamboul; a great mare. Amanar (3), brown gelding, by Dexter Prince, dam Amanda, by Electioneer. Saloma (3), bay filly, by Whips, dam Sonnet, by Bentonian; a great prospect. Alarida (3), chestnut filly, by Dexter Prince, dam Aldena, by Electioneer; a high class filly. Consolador (2), brown colt, by Altivo, 2:18½; dam Consolation (dam of Utility, 2:13), by Dictator.

HINDA ROSE was the first trotter to attract national attention to Beautiful Bells. She was got by Electioneer out of Beautiful Bells, and trotted in 1881 as a yearling in 2:36. This was regarded as a marvelous performance, and large offers were refused for the slashing filly. As a two-year-old Hinda Rose trotted in 2:32, and as a three-year-old she made the then champion record of 2:19½. After Hinda Rose came that wonderful trot and trot-producing family group, Alta Belle, St. Bel, Rosemont, Chimes, Bell Boy, Palo Alto Belle, Bow Bells, Electric Bell, Bellflower, Bell Bird, Dav Bell and Abdell. The latter holds the yearling record—2:23. Hinda Rose entered the stud, but the best of fortune did not attend her there. Her only living foal is the bay horse Lee Rose, five years old, by Langton, 2:21½, son of Alfred and Laura C., 2:29½, by Electioneer. Alfred has a record of 2:25 and he is by Gen. Benton (a great brood-mare sire), out of Alice by Almont, second dam Norma, dam of Norval, 2:14½; 3d dam by Todhunter's Sir Wallace, and fourth dam Eagletta by Gray Eagle. The dam of Laura C. was Fannie Lewis, a thoroughbred by imp. Buckden, second dam by Bay Dick, son of Lexington, and so we have in the son of Hinda Rose the best of the action-giving blood supported by the best speed-giving blood.—Turf, Field and Farm.

## THE SADDLE.

THE BREEDER AND SPORTSMAN is entitled to all the credit for calling the attention of the associations to the best means to close the poolrooms.

MRS. NETTIE HARRISON, the well-known dermatologist, who has decided to establish a racing stable, was among the purchasers at the Burns & Waterhouse sale last Saturday.

THE Pacific Coast Jockey Club Board of Stewards met Monday night and refused the applications for reinstatement of Jockeys Earl Cochran and Maynard.

JAMES B. GRAY, of Galen fame, has arrived at Memphis from Sturgeon, Mo., with ten horses. The Canadian contingent left Toronto last Sunday and are daily expected at the track.

JOHN MACKEY, the veteran Superintendent of Rancho del Paso, was at Ingleside Tuesday. He reports that the best foal on the grant in the last few days is by Goldfinch from Aurelia.

HORSES bred at Rancho del Paso were very much in evidence Tuesday. Hermoso won the second by a block. Bitter Sweet, Napamax and Torsida were one-two-three in the stake while Geyser and Ostler Joe were one-two in the fifth race.

THE BREEDER AND SPORTSMAN has never lost a battle it has undertaken. No other newspaper in California can boast of such a record. It is devoted to the best interests of the turf and track, and since 1882—sixteen years—it has been in the lead.

BARNEY SCHREIBER will send a carload of thoroughbreds to St. Louis this week. Charmion and a few recent purchasers, including imp. Sain, will go to the Schreiber farm. Osric, Attainment and Marquise will be shipped along with the Schreiber mares.

ROCHE broke down Feb. 18th on the last turn, otherwise he would assuredly have finished inside the money. He has been a good race horse, and as he is bred in the purple, should make a good sire at Rancho del Paso. J. B. Haggin has owned him for four years or more.

"CLASS" in the Eastern timber topping division will apparently be decidedly raised to a higher standard this year since such useful race horses on the flat as Loki, Maurice, Challenger, Dutch Skater, Sir Play, Ben Brown and Haphazard are to be schooled over the jumps, besides a number of lesser lights.

THE Western Union Telegraph Company had no terrors for Mr. Corrigan and his contrerers, and the company's wires will probably grow rusty out at Ingleside and the pool-room sharks throughout the country yearn for "infy" from San Francisco. They will have to wait until the races are over for Ingleside results.

W. C. DALY's useful race horse Volney, 5, by The Sailor Prince—Vestabella, died at Gravesend track last Monday of influenza. Volney was third to Howard Mann and Lake Shore in last year's Brooklyn Handicap, and but for his infirm forelegs, would probably have ranked well up in the records of horsemanship.

ITS "amoosin'" to say the least, to see some of the daily newspapers claiming that cutting off of the telegraph wires at the track was predicted by them. With the exception of the "Call" there was not a word said against down-town pool rooms since the BREEDER AND SPORTSMAN commenced its crusade single-handed and alone against these dens.

THE stewards of the California Jockey Club, at a meeting held Tuesday night, ordered the horse Midian suspended for thirty days from date of last race, which was February 11th. The case of Jockey Clawson against his employers, Atkins & Lottridge, was heard and the jockey was instructed to resume his duties and fulfill his obligations to his employers.

"CURLY" BROWN will do the starting at the Newport track, although as yet the directors of the Queen City Jockey Club have not selected the officials for the meeting. Secretary Hanley is authority for the statement that the Tennessee Breeders' Association wants Brown to do the starting at their meeting, which conflicts, however, a week with Newport.—Cincinnati Commercial Tribune.

LATEST reports from England say Wildflower is favorite for the Two Thousand Guineas at 8 to 1 and Hawfinch for the Derby at 6 to 1, though no heavy betting has been done. Mr. Keene's St. Cloud II. is second choice for the Lincolnshire Handicap at 18 to 1; a large commission, supposed to be stable money, having been placed on his chances. The American colts Uriel and Bridgroom II. are among those talked about as having Derby form.

MAGDALENAS, winner of the Elmwood Stakes Saturday, is a beautiful filly by Emperor of Norfolk from Espirito Santo. She was sold privately at the Occidental Horse Exchange, some scoundrel having circulated the report that the Baldwin youngsters had been tried out and that all those offered were "culs." Humidity, the runner-up in the stake, was credited with being the warmest article of two-year-olds in the B. & W. barn, and Magdalenas beat her with ease.

A PECULIAR fact about the chief contestants for the Thornton Stakes last Saturday is that the dams of the winner (Judge Denny) and second horse (Marplot) are nearly full sisters in blood. Denny's dam, Belle of Nantura, is by Jils Johnson (son of Longfellow) out of Miss Helen, by Endorser; second dam Ellen Swigert, by Bulwer, &c. Marplot's dam (Marjory) is by Longfellow, out of Grey Helen, by Endorser; second dam Ellen Swigert, by Bulwer, &c.

THREE times 7:21 has been beaten in races of four miles or four-mile heats—by Fellowcraft, who ran it in 7:19½, with 108 lbs.; by De Muth, who made it in 7:20 with 104 lbs.; and Judge Denny, in 7:20½, with 115 lbs. The last-named pair are from Belle of Nantura, but one of the Belles is by Longfellow, the other by Jils Johnson, son of Longfellow. The dams of these mares were Grey Helen and Miss Helen, both by Endorser from Ellen Swigert by Bulwer (latter son of Grey Eagle.) There were a few Bulwer mares owned in California in the early sixties.

FORMERO and Ach, first and second in the fifth race Wednesday, were bred near Los Angeles and sold at the Occidental Horse Exchange recently. The first was in the Baldwin lot, given a black eye by some discharged employee, the latter in the Oneonta (Reed) sale.

In addition to names already published, Bromley & Co. have selected the following for an additional batch of their two-year-olds: Flying Scotchman, ch c, by Macduff—Lizzie C; James Tod, b c, by Strathmore—Colleen Rhue; Composure, b c, by Wagner—Miss Barnes; La Cheviot, b f, by Cheviot—Elsie S.

GIDEON & DALY have chosen the following names for eight of their two-year-olds: Lumiere, ch c by His Highness—Luminary; High Invite, b c by His Highness—Inverarite; Little Indian, b c by His Highness—The Squaw; Rare Perfume, b c by His Highness—Early Blossom; High Degree, ch f by His Highness—Nettie; Flossie Clark, by His Highness—Dear Louise; Royal Maiden, b f by Ludwig—Taranella; Crotchety, ch f by Ludwig—Vage.

THE Maryland outlaw tracks will soon be in the realm of has-beens. The bill prohibiting pool-selling or other forms of betting in Cecil county, where they are located, is now a law and only awaits the Governor's signature to go into effect. What is to become of the owners and horses who have found these tracks a welcome haven of refuge for so long is a conundrum. For the present, at least, they are certainly landed high and dry on a rocky shore.

FOR ten two-year-old candidates for equine fame and fortune C. Littlefield, Jr., claims these names: Sandy Hook, ch c, by Kismet—Allanah; Obeance, ch f, by Order—Fonsetta; Arbor, ch f, by Sir Modred—Trellis; Garniture, b f, by Fresno—Garnet; Darebelle, b f, by Darebin—Hirondelle; Missy, br f, by Midlothian—Miss Hooker; Effervescent, b f, by Islington—Mollie; Patter, b f, by Golden Garter—Patty; Ricabar, b f, by The Bard—Rica; Golden Days, b f, by Goldfisch—Suscol.

CHARLEY QUINN, the handsome young plunger from Kentucky, is credited with winning at least \$15,000 Tuesday. He made a good start with Hermoso, is said to have quit \$6,000 to the good over the victory of Pat Murphy in the mile race, following up with "killings" on Geyser and Refugee. This is the first big win noticed here in over two months. "Plunger" Ed Purser, out of luck for several weeks past, has taken a trip to the Southern part of the State to see if he cannot tempt Dame Fortune to smile upon him again.

DIVISIONS of Ed Corrigan's horses are so widely scattered that his gallopers will have half forgotten acquaintances to renew when they are all brought together again. Besides his lot in California and his band of two-year-olds in charge of Trainer Headley at Little Rock, he has the following seven in care of Trainer C. N. Gates of Toronto, Ont. Reddington, b g, 5, by Emperor of Norfolk—Angelique; Ruler, b g, 4, by Riley or Montana Regent—Connie B.; Agnes C, b f, 3, by Riley—Innovation; Sir Andrew, b g, 4, by St. Andrew—Gypsy; Sister Adele, ch f, 4, by Riley—Sisterly; Jezebel, ch f, 4, by St. Saviour—Sardonyx; Idolator, b g, 3, by Riley—Idol.—Daily Racing Form.

JUDGE DENNY's time (7:20½) has been beaten in a four-mile race on but two occasions. Fellowcraft, with 108 lbs., ran it in 7:19½ at Saratoga as far back as 1874, while De Muth went the route in 7:20 in 1892 at Sheepshead Bay, carrying 104 lbs. As Denny took up 115 lbs., his performance is a shade better than Fellowcraft's—in fact, the best race ever run at the distance. Imp. Star Ruby held the California race record, which was 7:23½, made at Bay District track in 1896 with 109 lbs. up. Imp. Candid ran it in 7:24½ over Ingleside track with 97 lbs. in the saddle. As Ingleside track is at least one and a half seconds slower to the mile, than the Oakland course, that was equal to 7:17½—a very meritorious performance.

TEN 2-year-olds, bred at Rancocas, were sold at the American Horse Exchange Tuesday of last week. Fair prices were realized. Details are as follows: Brown filly (sister to Ramapo), by Pontiac—Annie F., W. Doerr, \$310; Brown filly, by Sensation—Alexina, W. Karwick, \$200; chestnut gelding by Pontiac—Lima; W. Doerr, \$400; brown gelding, by Locohatchee—Hope, W. H. Clarke, \$425; chestnut gelding, by Locohatchee—Saarg, M. M. Allen, \$650; brown gelding, by Simon Magus—Persistence, J. O. Gray, \$150; brown filly, by Simon Magus—Desire, J. P. Dawnes, \$175; brown filly, by Simon Magus—Portia, W. Oliver, \$175; chestnut filly, by Locohatchee—Golden Valley, G. Moore; brown filly, by Sensation—Tiara, W. C. Daly, \$90.

It is said that Barney Schreiber, the well-known penciller, has bought the imported horse Sain, by St. Serf, who is the best son of St. Simon up to date. The colt is one of the highest bred horses that has ever left England and will be particularly apt to make his mark on Mr. Schreiber's mares. That gentleman owned the English horse Woodlands, who was a female-line horse and whose daughters must necessarily become great matrons. His next purchase was Foul Shot, a son of the immortal Musket. As the Duke of Portland is mating his St. Simon mares with the son of Musket (Carbine) it will be seen that Mr. Schreiber will do the same thing, but reverse the sexes. We expect great things of imp. Sain, whose third dam produced La Fleche, the best three-year-old filly that has run in England during the past thirty years.—Capt. T. B. Merry in Los Angeles Phoenix.

A ST. LOUIS scribe thinks that there are others besides the only Tod and has this to say about two rising lights of jockeydom: "Take Tommy Burns and 'Long shot' Conley for example. Burns is without doubt the coming jockey of the country, and in the tight pinch of a driving finish is to-day less liable to lose his head than any boy (Sloan not excepted) in the business. Burns has excellent hands, gets away with Archer-like celerity, is a good judge of pace, and he finishes with Garrisonesque determination. Conley, who has grown into the affections of the 'pickers,' owing to his ability to land long shots, is a loose jointed, ebony-hued, devil-may-care boy who appears to have the knack of getting the very last ounce out of his mount. Conley can get through as small a knot hole as Felix Carr and Frank Jordan ever could in their very best days, and has as little appreciation of danger as a two-year-old child. It is true that Conley has not his rival's artistic pose, but he gave the extensively-advertised Tod a severe 'jolt' last Thursday (February 10), at the Oakland track, when in two successive races he beat Sloan on the favorites with a 25-to-1 shot and 3-to-1 second choice."

OUR JOHNNY, in the Brooklyn Handicap this year at 88 lbs., looks to be fairly "chucked in" says the local handicapper, Rattenberry. This horse, bred at Rancho del Paso, out of 32 starts in 1897, won 10 races, was second eleven times and third twice. He ran a mile in 1:40 at Fort Erie, 107 lbs. up; mile and 50 yards in 1:45½, 116 lbs., Fort Erie mile and a sixteenth in 1:47½, 109 lbs., at Fort Erie; ran second, 110 lbs., beaten half a length in 1:53½ for 1 1-8 miles and with 115 lbs. ran second, beaten three lengths in 2:07½ for a mile and a quarter. This should give him a royal chance in the Brooklyn with only 88 lbs. up.

KILLIP & Co. sold at public auction Saturday morning in the paddock at Oakland the following horses, the property of Burns & Waterhouse: Caspar, \$400, Dan Honig; Alma, \$300, Mrs. Nettie Harrison; Mistletoe, \$200, Charles Boots; Sing Wing, \$40, Billy McGrane; Orric, \$1,100, Dan Honig; Lo-sette, \$20, W. Gardner; Blitz, \$20, J. Hegarty; Prince Blazes, \$175, W. Reilly; Cozenza \$25, H. Jones; Sybaris, \$1,175, Dr. Rowell; B. & W., \$325, P. Romeigh; Glacier, \$50, W. Chapelle; Bulletin, \$55, A. F. Withe; Salisbury, \$375, Dan Honig; Cocina, \$50, Jim Neil; Malay, \$80, Charles Lind. Orric was bought for C. C. Maffit, President of the Turf Congress, and will be sent to St. Louis and placed in Baker's hands, who already has Gibraltar, Fireside and other useful horses under his charge.

THE Prince of Wales has signed Watts, the English jockey for first call on his services for the coming season. The Prince of Wales now has nine horses in training at Newmarket, five of which are two-year-olds, bred at Sandringham, in the royal stud. It will be upon his two-year-olds that the Prince will have to depend in the main this season on the turf. Sandringham, the brother of Persimmon, who has been retired to the stud, is said to be a splendid colt. He will probably be seen at the Ascot meeting, but his debut may be delayed until the July meeting at Sandown Park, where he is engaged for the 5,000 guineas, which is the richest two-year-old event of the season. He is also entered for the Prince of Wales' Post Sweepstakes at Goodwood. The Prince has also a yearling brother to Persimmon and Sandringham, of which much is expected.

SAN FRANCISCO will soon have Sunday pony-racing. An Australian projector who has had a large experience as a manager of pony meetings in the Colonies has secured ground on which to build a half-mile track in or near the city, and has ample capital at his back with which to erect suitable grand stands, stables, etc. The racing of ponies in the Colonies is now a big thing. There they run the stunted thoroughbreds nearly every day in the year and the prices for good ponies nearly equals those for 16-hand race horses. In California there are many ponies that would be made worth four or five times what they are now. The prime mover in this pony-racing scheme evidently knows his business and hinted that the most reputable men possible to be secured would act in official capacities. We understand a totalizator will be put into operation and several other new features introduced.

NUMERICALLY the Stanton & Tucker string is one of the strongest at Memphis and is also likely to prove strong in point of quality, especially since one of its members is the prominent Derby candidate Isabeey. The stable list is as follows: Paul Kauvar, b c, 4, by Pirate of Penzance—Spirit; Peacemaker, b g, 7, by Onondaga—Jocose; Isabeey, ch c, 3, by Strathmore—Belle of the Highlands; Eleanor Holmes, ch f, by Candlemas—My Own; Irwin, b g, 3, by Julien—Mattie Irwin; Lady Irene, b f, 3, by Ben Strome—Bravura; Deering, ch c, 2, by Sir Dixon—Vassar; Great Pride, b c, 2, by Great Tom—Pride; Zeloick, b c, 2, by Loyalist—Fantine; Revenna, b c, 2, by Tremont—Ella T; The Stag, b g, 2, by Tremont—La Danseuse; Vannena, b c, 2, by Clarendon—Goldie; The Geezer, ch g, 2, by St. Leonards—Lady Invercauld; Elizabeth T., ch f, 2, by Iroquois—Rosa; Miss Meade; b f, 2, by Inspector E.—Bonnie Meade; Amelia T., b f, 2, by Iroquois—Bassue; Gay Parisienne, b f, 2, by Tournament—Princess Iskra; Toneze, b f, 2, by Jim Gore—Bamboo.

IN answer to "Wangoom" (Warrnambool) The Australasian says: "Mr. Ernest M. Smith has furnished us with the following heights of the fences at Flemington: The log wall 8ft. 10½in.; two stone walls, 4ft. 1½in.; palings, 4ft. 1½in.; the first open fence before the palings, 4ft. 1½in.; the second open fence before the palings, 4ft. 1in.; all other fences are four feet. The measurements are taken from where the horses take off, which has been made up by filling in hoof marks after each race meeting to the extent of from 2in. to 3in. during a number of years. The fence, which is now 4ft. 1 in., used to be the highest on the course when first erected. We do not know the exact height of the highest fence in 1883. At one time there were two big fences in the training ground, but for some years the steeplechase track has not taken in the training ground." Verily it is not to be wondered at that the ambulance wagon follows the gallopers in the jumping races and picks up many an unfortunate fellow, for it be known that the fences and walls are solid. A mistake there means serious injury or sudden death.

MR. WILLIAM KELSO's luck on Boxing Day was continued at Randwick on New Year's day, when Loch Marie showed that in her present form no weight in reason will stop her in sprinting company. We had Loch Marie with us in the spring, and, although she should have won the Railway Stakes, and did win several races at suburban meetings, she must have been fully 21lb. below her present form. The improvement made in Loch Marie since November recalls recollections of Tempe, only in the case of Tempe the improvement was even more marked. Before the V. R. C. Spring meeting of 1895 Tempe was working with Nordfeldt and the early visitors to Flemington came to the conclusion that at the weights she was getting more than one of the handicaps would fall to her share. She started almost first favorite in [the Coburg Stakes, but never made a show. We had over estimated her form at that time. But going back to Sydney she came front at the summer meetings, and won the Summer Cup, the Tattersalls' Cup, ran second for the Carrington Stakes, and a little later on cantered in for the Anniversary Handicap. The improvement in Loch Marie has been marked, but it pales before that of Titan's dam in the season of 1885-6. On Saturday in the Carrington Stakes Loch Marie carried 8st. 11lb., and there were thirty-eight starters—two more than ran in the Royal Stakes which Sedition won under 9st. 5lb., two months after she won the Newmarket Handicap. Considering the field, Loch Marie went out at a very short price, and she ran the distance in 1min. 13½sec.—The Australasian.

# THE WEEKLY BREEDER AND SPORTSMAN

WM. G. LAYNG, EDITOR AND PROPRIETOR.

The Turf and Sporting Authority of the Pacific Coast.

— OFFICE —  
No. 313 BUSH ST., SAN FRANCISCO  
P. O. BOX 2300.

TERMS—One Year, \$3; Six Months, \$1.75; Three Months, \$1.  
STRICTLY IN ADVANCE.

Money should be sent by postal order, draft or by registered letter addressed to WM. G. LAYNG, 313 Bush St., San Francisco, Cal.  
Communications must be accompanied by the writers' name and address, not necessarily for publication, but as a private guarantee of good faith.

San Francisco, Saturday, February 26, 1898.

As a number of subscribers have been notified that they are delinquent for nearly a year and have paid no attention to the bills sent, we beg to inform them that their names will be erased from our books on March 1st. The BREEDER AND SPORTSMAN is battling hard to uphold the turf and track interests of California, and those who are most deeply interested therein, are hereby notified that if they wish to read this paper they must pay for it hereafter.

## The Benefits of Continuous Racing.

It is generally acknowledged that "times" are better when money is kept in circulation. It may be compared to the blood of the human being. When it is clogged the individual soon becomes affected with fever or has some complaint of the liver or kidneys. Just so with monetary affairs. If there is a feeling of insecurity no money is to be had, unless at ruinous rates, there is a congestion, as it were, but if it is generally believed that all is well, everyone has a good chance to thrive. The benefits to be derived in a community from a meeting of say six months' duration are so far-reaching that they must be manifest to every thinking man.

The industry most affected by continuous racing is the breeding of thoroughbreds. In a campaign of six months' such as we have here, perhaps 250 horses are broken down and become worthless as racing machines. It is an old saying that "a bad race horse can't be killed off." It is to be assumed, therefore, that those broken down in a period of six months are good race horses, and such being the case, we will put their average value down at \$400. This means that \$60,000 worth of horses must be raised each year to take the place of those broken down. This, in itself, is quite an item.

Were there not six months of racing here the number of horses placed in training would be reduced at least 50 per cent. That would mean that there would be no practical use for 500 horses. And then there is the money that racing brings to the State.

It is estimated that the number of turfmen, helpers, bookmakers and clerks that come to California from the East every season is 800. They all have to pay railroad fare going and coming and live when they are in the Golden State. The bookmakers, their clerks and the turfmen live high and put a lot of money into circulation in a period of six months that would otherwise find its way into the pocket-books of people at the East. The racing game is the sport of the rich, and it is the wealthy who pay most to the fiddler.

There are from 1,000 to 1,100 horses in training at the Ingleside and Oakland tracks at the present time, and the market for thoroughbreds was never much better than it is to-day. This is due entirely to the demand created by continuous racing in California. Good material seldom fails to bring a good price here. But the benefits are legion, and it would take columns to specify the various ones that come to our minds as we write. Therefore we will only generalize in the following table, which is made to take in a period of six months:

MONEY BROUGHT DIRECTLY INTO CIRCULATION IN SIX MONTHS THROUGH CONTINUOUS RACING.

Wages of 1,000 men and boys employed around race tracks at \$1.50 per day (cash) each, exclusive of board, furnished by employers	\$273,750
Board of 1,000 men and boys in private kitchens and public restaurants at tracks at \$3.50 per week each, 26 weeks	91,000
Paid for hay (1,000 horses), average \$16 per ton	160,800
Paid for straw (1,000 horses), estimated	65,000
Paid for grain (1,000 horses), estimated	125,000
Paid for plating (1,000 horses), \$4 per month per horse	24,000
Paid for accoutrements and liniments, \$6 per month per horse	36,000
Paid for veterinarians, at \$2 per month per horse	12,000
Sixty-four bookmakers from East and their clerks, estimated they will spend at least \$5 per day each for 185 days	59,200
Local bookmakers and clerks sixteen, estimated they will spend \$5 per day each, 185 days	15,650

Bookmakers' supplies—stationery, tickets, etc., at \$4 per day, 20 books	12,480
Benefits to breeders—150 horses broken down in six months, worth \$400 each, to be replaced	60,000
Keeping tracks in order at \$20 per day, 182 days	3,640
Purses and stakes, average \$2,500 per day, 156 days	486,000
Salaries of judges, say \$100 per day, 26 days per month	15,600
Salaries of those employed in Secretary's office, \$10 per day	6,240
Salaries of starter and assistants, \$10 per day	6,240
Salaries of policemen, at \$3 per day, average	5,616
Jockeys' fees, \$325 per day for 156 days	50,700
Transportation of 800 horses by rail every two weeks from track to track for 6 months, at \$1 per head	9,600
Transportation from the East and return of 800 persons (benefits to S. P. R. Co.), say \$40 each	32,000
Care of all kinds, 2,000 rides per day at 35c	97,200
Advertising and printing of racing associations, at \$100 per day, 156 days	15,600
Visitors (outside of bookmakers and those connected with racing), men of means, speculators, etc., 300, who will spend \$5 per day each for say 182 days	273,000

Total amount (estimated) brought into circulation by having continuous racing for six months, irrespective of the millions wagered at the tracks \$1,614,486 |

And, notwithstanding this showing—one that will open wide in amazement the eyes of hotel-keepers, merchants and artisans—there are those who will croak and cry out "woe" and "ruin" in the face of the showing that \$1,614,486 is brought into circulation in and around San Francisco by six months of continuous racing—money that would otherwise remain at the East, of no practical use to anyone. Continuous racing benefits a multitude of people, from the poor stable boy to the dignified and wealthy breeder, and the above facts and figures will go far to hush the howl of the calamity-crying crank and cause the legislators with "cinch bills" in their pockets to burn them up forthwith.

## Encouragement Everywhere.

The heavy rains which have fallen this week have cheered every farmer in California, likewise every stockman. There never was a year since the rainfall in California was first registered that rain did not fall in March and April, and one inch in those months was worth three in December. The winter has been backward; the frosts, however, which were so prevalent a month ago, while keeping the fruit trees from blossoming, destroyed all insect pests, thus insuring, in a measure, a heavy yield of fruit this year.

The northern and central portions of California have not suffered for the want of this rain, but it was welcome nevertheless. In the counties adjoining the San Francisco Bay these storms filled a long felt want, while in San Joaquin valley, as well as in the valley of Salinas, the presence of this rain gladdened the hearts of everyone, where hay has been bought by them for \$20 per ton, and the farmers who failed to save their straw have learned a lesson it is hoped they will never forget. One winter like this furnishes plenty of object lessons for the tiller of the soil, and Dame Nature generally makes her lessons lasting in other States, but in California her generosity has been imposed upon until "patience ceased to be a virtue." But every lesson has a moral. This rain has been received by our farmers in the spirit in which it is given. No complaints have been heard, for the immense tracts of land devoted to pasture will now furnish sustenance for thousands of sheep and cattle, while good horses that are becoming more and more valuable every day will thrive.

The future is full of hope for every horseowner as well as stockbreeder in California. Mr. F. J. Berry, the leading pioneer horse auctioneer of America, who visited California this week for the first time, in an interesting chat had with the BREEDER AND SPORTSMAN, said: "We have passed through the valley of the shadow of depression and are coming out into the sunlight of prosperity. Fifteen years ago there were twenty-four States in the Union which were raising more horses of all kinds than they could use, and were selling the surplus at fair prices. Today there are only eight, while the market is limited only by the borders of civilization. Europe, Asia, Africa, Australia and South America are receiving thousands of our horses annually, and the day is not far distant when every breeder of a good horse will get prices that will pay him one-hundred-fold better than he could get to-day. The law of supply and demand governs prices in the horse world as well as everywhere else."

The large sales in the East this winter prove conclusively that good horses are becoming scarcer, and the man who wants to make an excellent return on his investment will engage in the business of breeding such horses at once. Prices of horses will never be lower than they are now, while the class is far superior to what it was a few years ago. The "boom" in trotting is founded on a different basis, and seekers after good horses want individuality as well as "speed." New race tracks are being made all over the United States, and boulevards and driveways are as essential to the large cities as the public parks. In Greater New York, which is really the best market we have for light harness

horses, choice horse talk is the leading topic of the day, and by a letter received from our correspondent in New York we learn that it was settled definitely on Tuesday at a meeting of the New York Driving Club that they will have a track for racing purposes. Mr. De Cordova was elected president; John H. Shults, vice president; James McClanahan, treasurer, and Frederick Dietz, secretary. Mr. De Cordova says: "We intend to give the new city a driving track that will be a credit to it. The grand stand and stable will be as commodious as any in the country, and when the track is completed the horsemen will see old Fleetwood rise Phoenix-like, only the new track will be greatly superior to the old. We will take the most available site, and we will begin work on it as soon as we secure the ground. We have already gone so far as to draw plans for the proposed mile course, and as for the expense, the men of the club are wealthy enough and ardent enough for the sport to raise among them enough money to build the track. We intend, however, to float some bonds, but I can name four or five of our own members among whom \$150,000 could be raised at a moment's notice." The club at present occupies temporary headquarters on One-hundred-and-seventy-fifth street, overlooking the entrance to the speedway.

Everything looks bright for the light-harness horse fraternity and when the system of light harness horse races is inaugurated at the Breeders meeting in Oakland next June there is every reason to believe that a new era is about to dawn upon this great American industry.

## The Future Trotting Horse.

While the trotting horse industry has not been what we would like to have seen it during the past few years, we find some consolation in the fact that it might have been worse. This line, in common with all other branches of trade, has suffered, not because people care less for the trotter either upon the track or the driveway than they did in former years, but because of a business depression which has been as widespread as the universe itself. The horse in this case was dispensed with not because he was no longer wanted, but as the result of enforced economy. In the city of San Francisco alone it is safe to say that there are hundreds of men who once drove their own roadsters through Golden Gate Park who are now but mere onlookers. This change was not the result of choice, but that of necessity. This has been more or less the experience of all cities. The causes which have produced this are in no way related to the horse himself, he has simply been made to conform to his surroundings. He has gone down in the general shrinkage of values in company with real estate, diamonds, railway stocks, and all other forms of property. His decline is not due to displacement, but to depression.

But now that the low water marked in these several lines has been reached it is but fair to presume that the horse, particularly the high-bred trotter, will go back to his former place, with them. But hard as these years have been, they are not entirely without their compensating results. From out of the wreck of congestion there will come a better horse, and on the whole better prices. The roadster of the future will be the offspring of standard sires alone; this is as it should be. Under the alignment which is certain to follow the new order of things, the indifferently-bred horse will go to the plow or the milk wagon, while the progeny of the best families will find profitable place in private harness. There will be less horses in the stud and these will command better prices. Viewing the question from this standpoint which we believe is the correct one, we see no reason for complaint upon the part of those who own good horses. To those who do not happen to have good horses of that class, and yet expect to remain in the business of breeding, we would advise an immediate change. There will be no middle ground hereafter in the horse world, the horse that does not come into the first-class, will go into the common one—this means the plow, the horse, car, or the delivery wagon. There is no money in breeding trotters for these places.

The man who owns a well-bred mare cannot afford to accept a stud service simply because it is cheap. In doing so he first throws away his mare's time, and finally his own trying to make a trotter by hand. It is better to start right even though it costs a little more.

THE attention of all horsemen is called to the advertisement of the Saratoga Association. The various stake events included therein should receive many entries from California, as the meetings given at this famous resort are second to no other in America. Entries will close next Wednesday, March 1st, and blanks may be obtained at this office as well as from our representative at the Ingleside race track.

No greater proof of the power the BREEDER AND SPORTSMAN wields can be shown than the successful battle it waged against the down-town pool-rooms and their sponsor, "The Western Union Telegraph Company"—the largest monopoly in the United States. In other columns of this journal are to be found articles showing what was accomplished. We congratulate the associations who have the best interests of racing at stake, upon the decisive steps they took to crush out these dens. With the exception of our best daily, "The Call," there was not a line in any other metropolitan journal in favor of closing the pool-rooms, and we take pleasure in giving that able family paper the credit it deserves.

WM. B. FASIG, the famous auctioneer, may well say the consignment of horses to be sent from Palo Alto Stock Farm is the best ever shipped East from this famous establishment. The names and pedigrees of these grandly-bred ones are no indication of their individuality, and we believe it would be a difficult task to induce Senator Stanford, if he were alive, to part with these choice ones. The management of this farm does not let sentiment interfere with their endeavors to suit purchasers. Nothing is too good for buyers, and when this lot is led into the ring at Madison Square Garden, New York, there will be nothing but the highest praise expressed for this aggregation of royally bred ones.

#### A New Stock Farm.

During the past six years many extensive horse breeders in California have retired from the business and as a consequence the market supply for roadsters and general-purpose horses has almost become exhausted. The effect of the shortage has caused quite a demand for good young horses, and prices have already shown a marked advance.

At the end of two or three years from this time the demand for good road horses will be keen, and well bred animals will find ready sale. Appreciating the general conditions and being a thorough horseman, Jos. B. Nightingale has concluded to convert part of his fine ranch in Green Valley into a horse breeding establishment, and in the future it will be known as the Green Valley Stock Farm.

Mr. Nightingale already owns three fine stallions, all highly bred, speedy animals and producers of the class of colts that find ready sale.

Oaknut—A standard trotting stallion, stands fully 16 hands high, and in his seven-year-old form weighed 1240 pounds. He has a record of 2:24 (to high-wheel sulky) and has made a trial mile in 2:17. He is by Dawn, 2:18½, and his produce are all fine animals.

Combination—Also a standard-bred trotter with a record of 2:31½, and trial mile in 2:27½ with very little training. As a sire, his progeny from all classes of mares are noted for their size, style, symmetry, pure trotting action and excellent dispositions, showing that for quality they are unexcelled.

The latest addition to the Green Valley Stock Farm was Prince Almont, pacing record 2:13½. This fine stallion is royally bred and traces to the great Hambletonian family through both sire and dam and is known throughout the State as a grand campaigner. He is a handsome mahogany bay, beautifully dappled, is 16½ hands high and weighs 1250 pounds.

With such horses as those above named, Mr. Nightingale begins on a sound basis. On his fine farm he has an abundance of feed for pasturage and has competent men employed to take care of stock entrusted to them. In addition to the breeding establishment, a half-mile track has been made, and people in that vicinity will appreciate the accommodation afforded them by their neighbor. While Mr. Nightingale will have a training department on his farm, he will stand aloof from horse racing, and none of his horses will be seen on the circuit.—Cordelia Sun.

ROBERT C. WORMS has arrived at Roby with this pair of two-year-olds: Queen's Pawn, b f, by Pontico—Onaetta; chestnut gelding by Wawekus—Audrey. Within two or three days he expects the following additions to his string: Bay filly, 2, by Bradford—Don't Know; bay gelding, 2, by Bradford—Amelia; bay filly, 2, by Wawekus—Allum.

#### Alameda Track Notes.

The Executive Committee of the Alameda Driving Association held a meeting last evening and decided to put the association track in shape.

The track was raised last year and the straightaways have therefore been uneven. This will be remedied.

Interest in the association's track is reviving and quite a number of trainers are expected over this summer.

Peter Williams, owner of the horse Monterey, has rented the stables kept by Mr. Chapman, last year, and Ed Lafferty, the well-known trainer and driver, is also among those whose horses will be quartered at the track.

It is expected, too, that C. A. Durfee, owner of McKinney, will bring that speedy animal over.

At Nelson's stables are found quite a number of fine horses, some of which have but recently arrived in this city. Among the latter is Hijo Del Diablo, son of Diablo, a three-year-old which made a record of 2:11½ last year at Chico. He also has another fine three-year-old pacer, I Direct, son of Direct.

Mr. Beach, owner of the great stallion Altamont, the king of 2:10 sires, has leased that animal to Mr. Nelson, as he expects to leave shortly for the Klondike.

The election of officers of the Driving Association will be held on the first Monday evening next month, at H. P. Moreau's real estate office. It is believed that all the old officers will be re-elected, with the exception of the presidency held at present by Dr. C. George Bull, who, it is said, desires to retire from office.

Work will soon be commenced on the track. It will be harrowed and leveled and put in proper shape for the summer.

#### A Stock Farm Enterprise.

The Ruinart Stock Farm Company is the name of a new corporation that has been formed to breed blooded stock in Sonoma Valley.

The incorporators are R. Porter Ashe, William L. Ashe, Henry H. McPike, George B. Keane Jr., and E. L. Rhodes. The capital is \$25,000, fully subscribed by the directors, and the object for which the concern is formed is the establishment of a stud farm, with Ruinart as the principal stallion. The horse has been disposed of to the syndicate by its owner, R. Porter Ashe, who figures as one of the principal stockholders. A lease has been secured of the Beltane ranch, near Glen Ellen, from its owner, Mrs. Theresa Bell, for five years. It is a beautiful property, containing 1855 acres, and is eminently adapted to an up-to-date stock farm.

The wine-cellars and outbuildings on the farm are to be turned into box-stalls, and a number of blooded mares will be purchased and put to Ruinart. Their get will be trained on the ranch, and a new mile track has been carefully surveyed and is in course of construction. The Ruinart Stock Farm is the first institution of its kind that has been incorporated in this State.

#### HOOF-BEATS.

MR. DIGGS, of Woodland, Cal., breeder of Diggs, Sutton, Arbaces and Olinthus, has been attending the races for several days.

GREEN MORRIS' Lobengula won a mile and a quarter race, at New Orleans Thursday, and Indammator, by imp. Brutus, finished up third.

SATYR, winner of the fourth race Thursday, is by Lew Weir. The latter is now at Charley Kerr's Antrim Stock Farm, Bakersfield.

ACCORDING to the Times of Ceylon, Lord William Beresford sold Keenan, ch b, 6, by Lisbon—Patrimony, to his present owner, the Maharajah Aga Khan, for \$20,000.

JOCKEY ALFRED BERGER died at Singlerly race track Wednesday night from concussion of the brain, caused by a fall while riding the horse Periodical in the last race of that day.

MESSRS. HONIG, Stanfield and Stanford have been ordered to appear before the Pacific Coast Jockey Club stewards Monday evening, and are suspended from racing until further action is taken.

TOD SLOAN acquitted himself most creditably Thursday, riding three winners and three seconds out of six mounts. His win with Traverser was a masterly piece of work. He clearly outrode Conley, who bestrode Trolley.

IN France 2 per cent. of the betting in mutuels goes to public charitable institutions, and in 1897 amounted to 3,936,177 francs, about \$797,235. The total amount of betting in the mutuels for 1897 was 196,808,845 francs.

SEVERAL saloon-keepers were arrested Thursday for violating the ordinance against selling pools or making books on races. Their names are: F. J. Corbett, two charges; H. Burke, Dan Crowley, Henry Kloker and George Cook. Chief Lees issued instructions to bring them in without securing warrants.

WILLIE MARTIN will ride no more in San Francisco this season, and perhaps will never sport silk again here. He thinks Judge Murphy "has it in" for him, and will not give him a chance to keep on the ground any longer. Martin has a good job with Pat Danne, who wants him in Louisville by the 15th of March. The clever Canadian horse pilot thinks there's nobody like Pat Danne, and the latter has a grand string of race horses.

THE Stanfield and Honig stables are suspended pending further investigation into the running of the various horses in their charge. Stanfield has George Miller, Castake and others, none very reliable. Honig has a big stable, including Our Climate, Zamar and Ed Gartland, and Our Climate and Ed Gartland have turned some of the most sensational form somersaults ever seen here, greatly scandalizing the club under whose auspices the races occurred. George Miller is a cripple, therefore his poor showing at times can be understood, but Climate and Gartland are not cripples, and therefore the need of an explanation to the officials and the public.

THURSDAY afternoon, after the mile and a furlong race had been run and won by Morinel, with Howard Mann and Ostler Joe close up, Howard Mann was blanketed, and Kelly, a light boy, thrown up and told to trot him to the stable. Howard was feeling well and got frightened at the blanket, which was flapping around him. He jumped a couple of times and then bolted. After running about three miles and a half he dodged through an opening in the track fence and fell in the ditch. Every one supposed horse and rider would be killed, but the horse was soon hauled out, not much worse for the shaking. The boy was badly, but not seriously bruised.

THE New York Journal of February 24th says: Jimmy Michael, the world-famed bicycle rider, had a conference yesterday with Philip J. Dwyer, President of the Brooklyn Jockey Club and owner of a big racing stable. The interview did not result in any contract being made, but the little Welshman is started, nevertheless, on his new career as a jockey. After the conference Michael said: "Yes, I am going to make the experiment. I have not signed any papers, but Mr. Dwyer has agreed to give me a chance and I am going to start at once. I have ridden horses a good deal, though never a race horse, so that I am not altogether green. Of course, I shall have to learn the business, and I am very hopeful of succeeding." Mr. Dwyer, while not in any way overconfident, said: "It will certainly be a great advantage to the turf if a lad like Michael makes a success as a jockey. I hope that he will do so. I see no reason why he should not." Michael is not too old to begin, and he told me to-day that he only weighed ninety-eight pounds.

THE following circular has been issued by the Saratoga Association and is addressed to all the leading horsemen in the United States: Dear Sir:—We beg to call your attention to the announcement of the stakes of the Saratoga Racing Association, which are now being published in all the turf papers of the country. Fifteen stakes with an average of \$1,000 added money to each stake, are now open, to close March 1st. The only guaranteed stake is one called the Grand Union—a double event of the same nature as the Double Event run at Sheephead Bay's June meeting. The Grand Union is of the guaranteed value of \$8,000. We especially desire to call your attention to the fact that this year the Saratoga Racing Association, in addition to reducing the starting fee more than 30 per cent., as compared with last year, also adds an average of more than 30 per cent. of added money to each stake, as compared with last year. Thus, owners are very nearly 60 per cent. better off in the matter of stakes and added money than they were last year. Such being the case, the association respectfully urges you to bend every energy to make each and every stake a success. The management will be well satisfied if last year's average number of entries to each stake is equaled. But the reduced starting fee and increased added money ought to help swell the entries at least 25 per cent. Entry blanks may be obtained at the office of the BREEDER AND SPORTSMAN or its representative at the Ingleside race track or of Secretary F. H. Green.

# OUR NEXT EVENT

## MARCH 22, 23, 24,

# MADISON SQUARE GARDEN

### NEW YORK

A ROYAL CONSIGNMENT, 36 in number from the renowned PALO ALTO FARM, including the Champion ADBELL and others quite as notable. The most valuable lot ever shipped East by that famous establishment. MR. E. J. TRAVIS, Phoenix, Arizona, sends a grand lot of DIRECTORS and RED WILKES, from famous dams. No better consignment ever entered a salesring.

Negotiations in Progress for Sensational Consignments

POSITIVELY LIMITED to 250 Select Animals and none others need be offered. Address,

WM. B. FASIG, American Horse Exchange, Broadway and 50th Street, New York.

## CHANGES IN TROTTING RULES.

## Drivers Will Be Licensed—Hopples to be Barred in 1900.

Special Correspondence.]

The Eighteenth Biennial Congress of the National Trotting Association was held in New York City on the 10th inst. Members from all parts of the country sent representatives or proxies, as the meeting was expected to be a lively one on account of several important changes in racing rules having been suggested by the horse papers and the associated members.

The first business taken up was the election of officers, and the President appointed a Nominating Committee, consisting of C. H. Page, R. L. Allen, F. W. Kelley, H. W. Wilson and W. B. Fasig. The following were put in nomination by the committee and unanimously elected by the Congress: President, Major P. P. Johnston, Lexington, Ky.; Vice-President, David Bonner, New York; Second Vice-President, N. T. Smith, San Francisco; Board of Review, Eastern District: Chas. Dana Palmer, Lowell, Mass.; Morgan G. Bulkeley, Wm. Christie, Toronto, Can. Atlantic District: George W. Archer, Rochester, N. Y.; J. C. Sibley, Franklin, Pa.; Frank Bower, Philadelphia. Central District: Colonel W. Edwards, Cleveland, O.; W. Russell Allen, St. Louis, Mo.; V. L. Kirkman, Nashville, Tenn. Western District: V. C. Blake, Cedar Rapids, Ia.; John L. Mitchell, Milwaukee, Wis.; F. S. Gorton, Chicago, Ill. Pacific District: E. P. Heald, A. B. Spreckels and C. M. Chase, all of San Francisco.

The Rule Committee had been at work for two days previous to the meeting making changes and corrections, which were not in the main material and largely consisted in simplifying the phraseology of the text of the rules. However, much work was done, and several important changes and two rules were the result of their efforts. The rules were taken up seriatim. Recommendations from several associations were presented, one of which was that horses wearing hopples should not be permitted on the track. Some of the Committee were for the immediate abolishment of hopples, and much argument was presented for and against the rule going into effect this year, which finally resulted in the committee unanimously recommending to the Congress a rule that would permit the use of hopples in races up to January 1st, 1899, after which they will be barred.

Rule, formerly No. 28, Section 6th, was changed to read as follows:

If the judges believe that a horse is being or has been ridden or driven in other respects improperly at any time during the continuance of a race, with a design to prevent his winning a heat or place which he was evidently able to win, or to perpetrate, or aid a fraud, they shall have the power to perpetrate or substitute any competent and reliable rider or driver for the remainder of the race, who shall be paid at the discretion of the judges not more than 50 per cent of the amount awarded the horse in the race, and the member may retain the amount paid from the purse, if any, which said substituted rider or driver may win, and if the result of the race shall demonstrate that a fraud was being perpetrated, all guilty parties so implicated shall be expelled. The judges may waive distance (except for fouls), as to any horse for which they have substituted a rider or driver.

The old rule made it possible as it was sometimes construed, to deprive a perfectly innocent horse of the deciding heat, should the judges suspect that some horse behind had not been honestly raced.

The rule proposed for licensing drivers, was an innovation that met with considerable opposition, but was finally passed by a vote of 23 to 14. The Rules Committee, it may be added, had been unanimous in favor of the licensing system, believing that the identity of the driver should be established as well as that of the horse. This rule is much more needed in the East than on the Pacific Coast, as there are many more ringers and the great number of small meetings afforded better opportunities to race a horse under a disguise throughout the Middle and Eastern States, than in the West, where there are fewer horses and those that are raced are better known. When this rule was presented to the Congress, there were many speakers on each side; and for over an hour the members argued for and against passage of this measure. Finally the rule was passed as follows:

"SECTION 1. No rider or driver will be allowed to compete on the grounds of a member until he shall have obtained a license from the Secretary of the National Trotting Association. Such license must be applied for annually. Each applicant must give the full name and address of the applicant, witnessed by an officer of the association or the postmaster at the place where he resides, and must be accompanied by two photographs of applicant.

"Sec. 2. In case of emergency a member may permit a rider or driver to compete pending action on an application for license, but in all cases the winnings of the horse or horses driven by him shall be withheld until the license is issued or notice received from the Secretary of the National Trotting Association to pay the premium. If at the end of thirty days the license is not procured, the premium retained shall be distributed among other horses under the rules.

"Sec. 3. A license can be revoked by order of the president of the National Trotting Association, subject to appeal to the Board of Review, and be suspended until penalties imposed by order of a member are provided for.

"Sec. 4. A license will be issued free of charge to all riders or drivers against whom there are no claims on the books of the National Trotting Association when application is filed.

"Sec. 5. Riders and drivers must provide and wear their own distinguishing colors, and shall not be allowed to start in a race or other public performance unless in the opinion of the judges they are properly and neatly dressed.

"Sec. 6. No licensed rider or driver can, without good and sufficient reasons, decline to be substituted by judges as required by Rule 27, Section 6. Any rider or driver who refuses to be so substituted may be fined or suspended, or both, by order of the judges.

"Sec. 8. A rider or driver shall not ride or drive in a race a horse without personal knowledge as to the eligibility of the horse to compete in said contest. A rider or driver violating this section shall be subject to the penalty, if any, that follows the horse.

"Sec. 9. Where any member or association confines its entries and riders and drivers absolutely to its members, then no license for such riders or drivers shall be required."

In the discussion of this rule, so as to provide for the man who wished to drive his own horse at a country fair or other meeting, without becoming a professional driver, it was decided that the premium could be paid, upon notification by wire or otherwise from the Secretary of the National Trotting Association, that the driver is not under suspension. As the National Association has a Secretary on the Pacific Coast, the eligibility of the driver in such cases in this section can easily be determined without delaying the payment of the purse longer than is necessary to send a telegram.

A change was made in the last section of rule three, which provides that Secretaries shall give nominators seventy-two hours notice of any class failing to fill.

In mixed races, that is, races for both trotters and pacers, a horse may be eligible at both gaits.

Among other business transactions the salary of the President was increased from two thousand dollars to two thousand five hundred dollars.

The changes mentioned above, together with many minor amendments, many of them relating only to former grammatical errors, were adopted.

The subject of changing the distance flag, over which there has been so much talk, was not brought before the Congress. It was discussed by the Rule Committee, but the opinion prevailed that it was best to leave this rule unchanged and permit members who wished to shorten or lengthen the distance to do so at their discretion, by making special provisions in their advertised conditions.

The subject of betting on heats, the prohibiting of which has been advocated by many, was not considered to be a proper matter to appear in the Rules of the National Association, as betting is illegal in some States.

The Congress was a success and was attended by the prominent horsemen and breeders throughout the United States. The prospects are good for harness racing in the East this year. The prices of horses have increased about 50 per cent., and there is now more interest manifested than for several years past, and a great number of horses will be trained.

## The Thornton Stakes, Four Miles.

Two stake races were decided at Oakland last Saturday—the Elmwood, for two-year-olds, half a mile, and the Thornton, for three year-olds and upward, four miles. Magdalenas, a daughter of Emperor of Norfolk and Espirito Santo, won the first in easy fashion, while Judge Denny, the black Kentucky-bred son of Kentucky Derby winner, Fonso, managed to capture the latter from the baby racer, Marplot. Denny was helped along by his stable companion, Wawona, for about a mile and a quarter, then The Bachelor, of Ed Corrigan's string, took a run at the youngster, making it interesting to the final quarter. Here Judge Denny, hard-riden by a sturdy pilot, Thorpe, got up and won in the fastest time ever made in a race of four miles in California or the Pacific Coast—7:20½. Judge Denny carried 115 pounds, and had it not been understood that Wawona was in the race merely to kill off Barney Schreiber's game young Marplot, the beautiful black horse and his rider would have been accorded a much more cordial greeting upon their return to the scale. The story of the four-mile race is easily told. They were sent off with Marplot about a length in the lead, the others closely aligned. Wawona ran up close to the three-year-old leader, and the first mile, run in the killing time of 1:43½, was finished with Marplot in front, Wawona at his neck, The Bachelor and Judge Denny together, a dozen lengths away. After a mile and a quarter had been traversed, Wawona, having accomplished his mission, began dropping to the rear and The Bachelor to move up. The second mile was much slower. As they went by the judges' stand it was Marplot first by six lengths, The Bachelor second by five, Judge Denny six in front of the "helper," Wawona. The second mile was run in 1:53, making the two miles in 3:36½. The Bachelor now moved up, and at the next quarter (2½ miles) was galloping at Marplot's heels. The third mile was slower still (1:55½), and Marplot still led by one and one-half lengths, The Bachelor second, five before Denny, who had closely hugged the rails, saving every inch of ground. Wawona had been pulled down to a walk and completely out of the race. When three and one-half miles had been run Willie Martin called on The Bachelor, and he moved up closer and closer to the game young son of Rosington. Shouts went up for Corrigan's horse as he got to the youngster's neck, but on the final turn Marplot went away from him and the big, lumbering chestnut was plainly done for. Judge Denny was now coming very fast. About a sixteenth from home he got up to the tired but brave Marplot, and Thorpe fairly lifted the black horse along, Judge Denny winning driving by two lengths in 7:20½, Marplot second, about forty lengths before The Bachelor, who was as tired as a horse could well be. Thorpe and the gallant and exceedingly handsome Judge Denny were greeted quite enthusiastically upon their return to the scale, then President Thomas H. Williams smilingly and gracefully placed the floral horseshoe upon the neck of the winner, who was led proudly to the paddock by his happy and successful trainer, Sam Hildreth, the band struck up an appropriate air, and the race for the Thornton Stakes of 1898 was but a memory of a grand turf achievement, the victory of a Kentucky-bred horse on California soil and of the superb showing of Marplot, barely three years of age, struggling against odds that would have defeated any older horse; of the well-judged pilotage of Charley Thorpe, of the excellent efforts of little Johnny Woods, who rode beautifully, but made the mistake of allowing Wawona to carry him too fast the first time round the course. The time by miles was as follows:

One mile.....	1:43½	First mile.....	1:43½
Two miles.....	3:36½	Second mile.....	1:53
Three miles.....	5:32	Third mile.....	1:55½
Four miles.....	7:20½	Fourth mile.....	1:48¾

Following is a table of the winners and runners-up in the Thornton Stakes since it was instituted, together with the sire of the successful one each year and the weight the victorious one carried and the time that was made. Star Ruby's race record was the best California one until Judge Denny beat it three full seconds:

Winner, Age and Weight.	Sire of Winner.	Second Horse.	Time.
1895—Gilead, 4, 109.....	St. Saviour.....	Hawthorne.....	7:32½
1896—Imp. Star Ruby, 4, 109 Hampton.....	Gilead.....	Gilead.....	7:28¾
1897—Schiller, 4, 109.....	Imp. St. George.....	Thornhill.....	8:04¾
1898—Judge Denny, 5, 115. Fonso.....	Marplot.....	Marplot.....	7:20½

Run over heavy track.

It is a peculiar fact that Barney Schreiber has owned either the winner or the second horse in three of the four runs for the Thornton Stakes. They were Hawthorne, Schiller and Marplot.

## Four-Mile Races in California.

As far back as 1852 there was long-distance racing in the Golden State. The gray mare Lola Montez won the first four-mile heat race ever run here, as far as we can find out. Her best time was about 8:00, or a mile every 2:00. There were no very notable long-distance races until 1859, when Ashland beat Owen Dale. Shortly thereafter a son of Belmont (Langford) evened up matters by easily defeating Ashland, one of the heats being in 7:43¾. There were many

races in this section at two and three-mile heats, but few at four-mile heats. The famous races between Norfolk and Lodi in 1865 were at two-mile heats and three-mile heats.

Thad Stevens, son of Langford (Ashland's conqueror) was the first California-bred horse to attract a great deal of attention to this section as a horse-breeding country. At Oakland, Oct. 18, 1873, with 115 lbs. he beat the three-year-old Ballot Box, by Norfolk, a second heat of four miles in 7:30, which is to this day a record. The following month Thad beat True Blue, Joe Daniels and Mamie Hall in the memorable race at the Ocean House track, Joe Daniels winning one heat and True Blue breaking down. No fast time was made. That track was not one to make world's records over.

In 1874 (November 14, to be correct) A. S. Gage's Katie Pease, by Planet—Minnie Mansfield, won the large end of the \$25,000 purse for "the McDaniel confederacy," and a large amount besides. Her time was 7:43½, 7:36¾. Henry Walsh's br c Henry was fifth and second, Hardwood third in both heats, Thad Stevens 4, 4, Joe Daniels and Hock Hocking distanced in the second heat, Alpha drawn in the second heat.

In 1875 Wildidle won the Wise Plate, four miles, in 7:25½, a record that has stood for many years on the Pacific Slope. In 1876 Foster won from Rutherford and others in slow time, and the decision declaring Hock Hocking and others distanced almost killed racing in California. There was racing at four miles in the State in 1883, May D., by Wildidle, carrying 120 pounds, beating Ella Doane (by Wildidle), with 121 pounds, and Lucky B. (by Rutherford), 101 pounds, in 7:36. The next four-mile go in the State was in January, 1893, when Marigold, with 112 pounds up, over Bay District track (the course a trifle slow) ran in 7:28½. January 14, 1893, against time, she did the distance in 7:20½, the fastest time ever made by a mare.

The Thornton Stake was established in 1895, and Gilead, a grandson of Katie Pease, won it 7:32 with 109 lbs. up, track about three seconds slow to the mile. The next year (1896) imp. Star Ruby won the stake in 7:23½, carrying 109 lbs. of Jockey Bill Martin and imp. Candid captured the Spreckels Handicap at Ingleide for A. B. Spreckels in 7:24½, 97 lbs. up. Little Bob won the four-mile race at Ingleide in 1897 in 7:25½, with 100 lbs. in the saddle, and Schiller won the Thornton Stake at the new Oakland track in 8:04½, with 10½ lbs. up, the track being deep in mud. This is the history of racing at four miles, and four-mile heats in California, and as the Oakland track is one of the fastest in the world and in prime condition, we shall be disappointed if a new race record is not established this afternoon.

## The End of the Poolrooms.

The down-town poolroom evil, against which the BREEDER AND SPORTSMAN has been fighting for weeks single handed, has at last been throttled. The monster which threatened to do for racing in this State what it has done for it in ten other States received its death blow yesterday at the hands of the Pacific Coast Jockey Club. At a meeting of the Board of Directors of that association held yesterday afternoon, a resolution was adopted declaring that the telegraphic transmission of scratches, riders and results was not only a source of loss to the association in point of attendance, but that the use to which the information was put was a menace to racing itself, and ordering its immediate discontinuance. As the result of their deliberations, all connection with the city was shut off, and the poolroom operators who have been doing a thriving business at the expense of the associations found themselves, like Othello—out of a job. The news of the shut-off, which spread over the city rapidly, created consternation among the operators, but it was received with great favor by all decent lovers of track sports. The experience of yesterday demonstrated the truth of our claim that these places could not exist without this information, and while we feel flattered over the fact that our position has been sustained, we believe that too much cannot be said in favor of those who made its demonstration possible. The BREEDER AND SPORTSMAN has been confident from the start that such men as Henry J. Crocker, S. N. Androus, B. Schreiber, Ed Corrigan, Walter Hobart, F. H. Green, John Malowansky and the other gentlemen who comprise this association, as well as Thomas H. Williams of the California Jockey Club, would not tolerate anything calculated to lower the high standard of racing in this State. We must confess, in view of the powerful opposition that the relief came in a more complete form than was expected. They not only prohibited the transmission of results, but the names of the jockeys and the scratches upon which bets were made, thus leaving both the poolroom operators and the evening papers completely in the dark. If the evening papers will now display the same regard for public decency that the Pacific Coast Jockey Club has, and the police will do their part by enforcing the vagrant ordinance, the poolroom nuisance will be a thing of the past.

The attendance at the track yesterday was light, as the down-town contingent expected to get the results, as usual, through the pool-rooms, but the effect of closing these places will be felt to-day in the form of an increased attendance.

## The Downfall of Racing.

The BREEDER AND SPORTSMAN—which, by the way, is the oldest as well as the best turf advocate on the Coast—deserves no end of credit for the vigorous fight it is making against what is known as the down-town pool-rooms. Instead of attacking the police, who are powerless to prevent them under the law, it has gone to the root of the evil, which is the Western Union Telegraph Company, assisted by the Post, Bulletin and Report. This thing, which the BREEDER AND SPORTSMAN fittingly terms the "metallic news scavenger," is responsible for the closing of race tracks in nearly every State in the Union, and it bids fair to do so in this one unless stopped in its present work of public debauchery. In protesting against this insidious enemy of society, the BREEDER AND SPORTSMAN has demonstrated that it is the friend of both the public and the horse-owner. The suspension of legitimate racing in this State, which is the home of the blooded horse, would do for the breeding industry what prohibition would do for the grape. Penny Press is in favor of racing, but it draws the line at robbery. If the track owners of this State desire the continuance of this sport, they must put a stop to the practices which have brought it under the ban of the law elsewhere.—S. F. Penny Press.

## The Octopus Crushed.

As a result of the labors of the BREEDER AND SPORTSMAN during the past three months, in fact ever since the California Jockey Club allowed the Bulletin, Report and Post the privilege of furnishing information to the down-town pool-rooms and kept them posted as to the work being done at the tracks, the Pacific Coast Jockey Club ordered the "Octopus of the Track" to take their telegraphic instruments from Ingleside yesterday morning, and when the aforesaid newspapers did not receive the exclusive information there was greater consternation among them than there would be if war was declared with Spain. The copies containing "faked" information littered the floors of the pool-rooms, where crowds gathered, unable and unwilling to wager their money on "things" they were not so "sure" of. The proprietors felt glum, for the amount of business they did every day was enormous. Over thirty of these dens were known to exist in this city. Ten of them had direct communication with the race tracks, the other twenty existed on information gleaned from the noon editions of the three evening papers and what they stole from their rivals.

Thos. H. Williams Jr., President of the California Jockey Club, was in full sympathy with the fight we were making to close these dens, and from what we can learn there will be no wires from his track when the racing begins there. The two associations will work together and as every bookmaker, every visiting horseman, every breeder and stock farm owner as well as every farmer and merchant in this State is delighted with the work accomplished we take great pleasure in congratulating the President and Directors of the Pacific Coast Jockey on the firm stand they have taken. The fate of the down-town pool-rooms is assured. Now it is in order for Chief Lees to station policemen wherever these dens are in existence and get the names and descriptions of visitors. The associations have done their share, now let us see the proper authorities do theirs.

Following is an account of the good work which was accomplished yesterday as the Chronicle saw it:

It was originally intended to shut out all information to California poolrooms, but the Western Union claimed that, as common carriers, it must accept all messages offered. There was a long consultation between the officers of the Pacific Coast Jockey Club and Superintendent Jaynes of the Western Union. The Jockey Club offered to assume any responsibility that might be incurred, and Secretary Green addressed the following letter to the Western Union:

"I have been instructed by the directors to lock up the downstairs telegraph office at Ingleside, and only keep open the office in the press stand. We do not care to take the wire out of the grounds entirely, but will be forced to do so if the above plan does not operate in keeping information from the downtown poolrooms."

Superintendent Jaynes sent the following reply:

"I am instructed that we cannot continue a telegraph office at the track subject to conditions proposed last evening. Can the service be rendered to-day without change pending the further discussion to-night, or shall I close office without notice?"

The Jockey Club decided that the change had to be made and this explains why the poolrooms throughout the country were shut off yesterday. The present move is chiefly directed against the downtown poolrooms, which have been springing up on all sides, and which are regarded as a menace to racing. It will take some time to crush out the poolrooms, but the business is sure to take a decided tumble, inasmuch as they will not be able to pay off after every race and thus keep the money in circulation throughout the six races.

## A Victim of the Poolrooms.

The story of the causes which led up to the suicide of J. J. Livernash, as furnished by his own pen, is a study in sociology. Although the suicide declares, in his dying breath as it were, that he was not insane, and abhors the thought that such a thing may be charged to him, he furnishes unmis- takable proof of that fact in the statement that he had lost all his money in the downtown poolrooms. Here was a man endowed with talent sufficient to earn a livelihood through his pen, and yet lacking in that particular trait which directs the footsteps away from the pitfalls of the city.

Mr. Livernash belonged to that numerous class which society is bound to care for, not as dependents, but by the exercise of the police power which minimizes the dangers that surround them. The purpose of law is not to protect the strong, either physical or mental, because they are able to protect themselves, but to protect the weak. Much as Mr. Livernash tries to make it appear that he does not belong to his class, it is very evident that he belongs to no other. He was one of thousands or tens of thousands who never would have become a charge upon the community or the subject of a tragedy if it were not for some evil which the community has permitted to exist. In this instance it was the downtown pool-room. The extent to which society is to blame for this tragedy can only be determined by the power it had to suppress the cause. If that police power were present, and society failed to exercise it by closing the dives, it is morally responsible for the death of Livernash. If society has not the power to do this, then the responsibility rests with those who take advantage of the defects of law to fatten upon its helpless subjects. It is known that the police have at least made an effort to close the downtown poolrooms, but so far they have not been able to combat the powerful influence of the Western Union Telegraph Company, which insists upon furnishing the information. This metallic monster continues to ply its work of destruction regardless of the protests of such papers as dare oppose it, and it will continue to do so until the track-owners deny it the privilege of the grounds. The moral responsibility of Livernash's death lies between society and the telegraphic company. We do not believe it belongs to society.

## Robbing the Race Tracks.

As a sample of the extent to which the town-town pool-rooms are patronized, it may be said that four men, each with a sack of coin, left one of the bucket shops on the corner of Market and Fourth streets last Saturday at 12:30 for the Oakland track. Out of this money, which represented the wagers of probably a thousand different people, the jockey club, which hung up purses for that day to the amount of \$6,000, received the paltry sum of four dollars. If it had not been for the presence of these dives, it is safe to say that the track receipts would have been increased to the extent of a thousand dollars at least.

## C. C. Maffitt's Racers.

With such good young horses as Gibraltar and Fireside added to his string, the popular St. Louis turfman, Mr. C. C. Maffitt, should reap his fair share of racing success this year. Concerning his horses the St. Louis Republic says:

"The most improved looking race horse in Mr. C. C. Maffitt's string is a handsome big chestnut colt by Glenelg—Keepsake, called Lord Neville. He is one of the band of two-year-olds that Mr. Maffitt let Tommy Sayers train for him last season. The colt was sick all spring, but rounded to in the fall and won a fair race at three-quarters of a mile defeating Sir Joseph Lister, the pride of Dr. Bernays stable, is a big gallop. Lord Neville was turned out last fall with the rest of the Maffitt horses. He has spread and developed nicely and now looks like he might make a real good horse. He is certainly bred right. The Glenelgs, as a rule, are hard horses to break down. They're noted for being able to stand any amount of racing, and if Lord Neville is of any account, Mr. Maffitt need have no scruples about ordering his trainer to race him frequently. Sir Rolla, the chief bread winner of the Maffitt string last season, seems to have grown smaller, if anything. He is a chunky little horse, with abnormally big legs. Pat Grogan trained him for Mr. Maffitt last year and the veteran is proud of the record he made with the colt. Sir Rolla finished in the money nine times out of twelve starts. His best race was when he ran third to Eitholin and Libation in the Ozark Stakes at three-quarters of a mile and closed like a giant. Cousin Lizzie and Little Lucille are both small, but racy looking. The big Abana colt, Sir Wann, looks like a winner, but Colonel Baker, Mr. Maffitt's trainer, is afraid of his legs. Gibraltar and Fireside, the Eastern additions to the stable, are looking exceedingly well. Fireside is a full sister to those two sterling performers, Sweet Faverdale and Preston.

"She is a well-made mare, very wide in front. Gibraltar is magnificently developed in his hindquarters, where the driving power comes from. His record as a two-year-old justified Jimmy McCormick's remark that he was the cheapest good horse sold last year. Mr. McCormick was surprised when he learned of the colts sale to a westerner. Mr. McCormick trained Gibraltar for the Messrs. Thompson last fall and it was on his advice that the colt was started in the Futurity. The stable won this stake with L'Alouette. Gibraltar and Henry of Navarre's brother, The Huguenot, ran unplaced. Lydian, who ran second in the Futurity, was beaten by Gibraltar at Saratoga before both were shipped to Coney Island to be started in the Futurity.

## From a Good Ohio Driver and Trainer.

TIFFIN, O., July 17, 1895.

J. W. Hughes, Secretary Speed Sustaining Elixir Co.:

DEAR SIR—I gave the horse Altar, 2:15, your Speed Sustaining Elixir here to-day during the 2:15 trot, and am pleased to say that it is the most wonderful aid to race horses I ever tried. He finished good and strong every heat, and came out of the race in fine shape, not being in the least distressed, something he never did before, and I shall not be without a bottle of the Elixir in the future. I cannot say too much in favor of the Elixir. Yours, J. E. ROTH.

THE Union Pacific Railroad Company has recently built some very fine resting stables, with box-stalls and other modern conveniences, including an outside paddock, at Ogden, Utah, for the free use of horse-owners shipping by this old and popular route, which will be highly appreciated. The "Overland Limited" leaving San Francisco daily at 6 P. M. for Chicago is now the finest and fastest train in the West composed of Pullman latest improved double drawing-room sleepers, dining cars and composite buffet smoking library cars, between Ogden and Chicago, also through tourist sleepers for the accommodation of passengers holding second-class tickets. For tickets and sleeping car accommodations call on D. W. Hitchcock, General Agent, No. 1 Montgomery street, San Francisco, Cal.

EAST TAWAS, Mich.

I find ABSORBINE to be an excellent remedy for cuts and swellings.

Yours truly,

HOWARD & EMERY LUMBER CO.

JOCKEY ALF STANFORD and the horses under his charge are suspended by the Ingleside judges on account of the ride on Silverado Wednesday, which they deem a strange one, to say the least.

Horse Owners Should Use  
GOMBAULT'S  
**Caustic Balsam**  
The GREAT FRENCH VETERINARY REMEDY  
A Safe, Speedy and  
POSITIVE CURE.

**SUPERSEDES ALL CAUTERY OR FIRING**

Impossible to produce any scar or blemish. The Safest best BLISTER ever used. Takes the place of all liniments for mild or severe action. Removes all Bunches or Blisters from Horses or Cattle.

As a HUMAN REMEDY for Rheumatism, Sprains, Sore Throat, Etc., it is invaluable.

**WE GUARANTEE** that one tablespoonful of GOMBAULT'S CAUSTIC BALSAM will produce more actual results than a whole bottle of any liniment or spavin cure mixture ever made.

Every bottle of Caustic Balsam sold is Warranted to give satisfaction. Price \$1.50 per bottle. Sold by Druggists, or sent by express, charges paid, with full directions for its use. Send for descriptive circulars, testimonials, etc. Address

J. E. LAWRENCE WILLIAMS CO., Cleveland, O.

## THE GUN.

## NOTICE TO SECRETARIES.

If secretaries of gun clubs will send us the full scores of their regular monthly shoots we will be pleased to publish them; but we must receive the copy on Wednesday to insure its insertion that week.

## The Game Law.

The open season for shooting quail, doves, deer and wild duck as fixed by the State law is as follows: Doves, 15th July to 15th February. Mountain quail and grouse, 1st September to 15th February. Valley quail, wild duck and rail, 1st October to 1st March. Male deer, 15th July to 15th October.

The clerks of all the Boards of Supervisors have advised us that no changes have been made this year, but the ordinances passed last year hold good if they do not conflict with the State law. The following counties have not passed any ordinances that alter the open season as provided by State law: Amador, Butte, Inyo, Modoc, Mono, Mendocino, Mariposa, Nevada, Napa, Plumas, San Bernardino, San Diego, San Joaquin, Santa Clara, Sacramento, Solano, Sonoma, Santa Cruz, Siskiyou, Tehama, Yolo and Yuba.

The changes are as follows:  
Alpine—Deer, Sept. 2 to Oct. 15.  
Alameda—Rail, Oct. 15 to Feb. 15.  
Colusa—Deer, Aug. 15 to Oct. 15.  
Calaveras—Deer, Sept. 1 to Oct. 15.  
Contra Costa—Deer, July 20 to Sept. 2. (Use of dogs prohibited).  
El Dorado—Doves, July 20 to Feb. 1.  
Fresno—Market hunting and shipping game out of the county prohibited.

Humboldt—Grouse and Wilson snipe, Sept. 1 to Feb. 15. Killing of waterfowl prohibited between one-half hour after sunset and one-half hour before sunrise.  
Kern—Shipping game out of the county prohibited.  
Lake—Deer, Aug. 1 to Oct. 1.  
Los Angeles—Shipping game to markets outside of the county prohibited.

Marin—Deer, July 15 to Sept. 15.  
Madera—Market hunting prohibited.  
Monterey—Deer, July 15th to Sept. 1st.  
Orange—Doves, Aug. 1 to Feb. 1. Deer, Aug. 15 to Oct. 1. (Market hunting prohibited).

Riverside—Shipping game out of the county prohibited.  
San Benito—Deer, Aug. 1 to Sept. 15. (Market hunting prohibited).  
Santa Barbara—Deer, Aug. 1 to Sept. 14. Use of hounds prohibited. (Market hunting prohibited).  
San Diego—Shipping quail out of the county prohibited.

San Luis Obispo—Deer, July 15 to Sept. 1. Doves, July 15 to Dec. 1. (Use of hounds prohibited). Hunting for markets situated outside of the county prohibited.

San Mateo—Deer, July 15 to Sept. 1. (Use of dogs prohibited).  
Rail, Oct. 15 to Nov. 15. (Shooting from boat at high tide prohibited).  
Shasta—Deer, July 15 to Sept. 1.

Sierra—Deer, Sept. 1 to Oct. 15.  
Sutter—Deer, Sept. 1 to Oct. 15. Doves, July 15 to Jan. 1.  
Trinity—Deer, Sept. 1 to Oct. 15.

Tulare—Deer, Sept. 1 to Oct. 15. Shipping game out of the county prohibited.

Ventura—Deer, July 15 to Sept. 1. (Market hunting prohibited).

## Washington Trap Shooters.

The members of the Walla Walla Gun club, assembled at the fair grounds Wednesday afternoon, February 9th, spent several hours in shooting at both live pigeons and blue rocks.

Three live bird events were participated in, the first of eight birds, the second of six and the third of five. One ten bird blue-rock match was also shot after the conclusion of the live bird events.

The following are the scores made in the several contests:

First event—H. Balderston 4, Justice, 5, Rogers 2, Osterman 4, Campbell 5, Dovell 3, A. Balderston 4, J. Sharpstein 4. The first prize was divided between Campbell and Justice and second honors were given to Harry Balderston.

Second event—H. Balderston 5, Justice 3, Rogers 2, Osterman 3, Campbell 5, Davell 3, A. Balderston 5, J. Sharpstein 4, F. Sharpstein 4, Hungate 4, Straight 6. Straight won first prize and second money was divided between H. Balderston and Campbell.

Third event H. Balderston 5, Justice 3, Rogers 3, Osterman 2, Campbell 5, A. Balderston 3, F. Sharpstein 2, Hungate 3, Straight 3, Keeney 3. First prize was divided between Campbell and H. Balderston, A. Balderston winning second.

Blue rock event of 10 birds—A. Balderston 9, Hungate 4, Straight 6, J. Sharpstein 6, Osterman 6, Keeney 7, Rogers 2.

## He Fooled the Hunters.

Recently the residents of Maine, N. Y., have been much excited by the footprints of a bear that had been wandering about the farms, evidently coming from the woods in the direction of Choconut. No depredations had been committed by bruin, but the children were badly frightened and the women of the village declined to go out after dark. Hunter armed with all kinds of guns scored the woods in all directions, but invariably after following the trail for half a mile or so it would mysteriously disappear.

Henry Wilbur determined to solve the mystery, and, procuring an ancient bear trap, set it in the path that had on several occasions been pursued by bruin. The spot was not far from Mr. Wilbur's house, and he was startled shortly after supper to hear shrieks of pain and cries for help. Seizing his gun, he hurried to the spot, to find his captive a small boy named Wilson, who was fast in the trap. He had a pair of ancient bear's paws tied on his feet, with which he was making tracks in the snow.

When released and asked why he had perpetrated the joke the lad declared that he wanted to earn some money, and had by the ruse obtained over \$8 in tips given him by the Binghamton hunters to show them the spot where he last saw the bear.

## Mongolian Pheasants.

The people in the northern part of the State are familiar apparently with the Mongolian pheasant and always have a good word for the bird. A Red Bluff paper recently had the following comments: Many sportsmen think that the pheasant of the Mongolian kind will in a few years succeed the quail as the popular American game bird. The pheasant has not only its toothsome qualities to recommend it, but its beauty in waving plumage of ravishing hues, and therefore will prove a prize that every sportsman will endeavor to secure when the season is open for its shooting. It has attracted the attention of our sporting men for many years consequence of its successful introduction on the Pacific slope, and now many eastern states are introducing the Mongolian birds into their domains.

Mongolian pheasants are well worth all the expense and care that may be expended upon them. They evidently rank next to the birds of paradise in beauty, and, in fact are too handsome to be made targets of.

BUILDINGS OF THE UNION COURSING PARK.  
THARP & HOLMES: ARCHITECTS S.F.C.

THE GRAND STAND AT UNION PARK COURSING FIELD.

ROD.

Pleasant Recollections.

I kin see the shimmerin' sunshine still a-dancin' 'fore my eyes  
An' the shadders in the water whur the res'less willers rise;  
I kin see the dragon flies a-stealin' swee ness ez they could,  
An' a-laughin' at the bees that worked so hard for others' good.  
An' the river, as it hurried, kep' a singin' songs to me  
'Bout the streamlet in the mountain an' the breakers in the sea;  
I'm dreamin', like a hungry man o'er some remembered dish,  
'Bout the day I went a-fishin' an' I didn't ketch no fish.

Nothin' for ter interrup' yer dozin' ez ye lie,  
Weth yer idle thoughts a-drifin' like the clouds thet cross the sky!  
An' the big trees hide the sun, thet goes a-smilin' on h s way,  
Like it feared thet you might worry if you knowed the time o' day;  
An' the line hangs slack an' useless in a way thet goes ter prove  
Thet they're dozin' under water same ez you are up above—  
My ambitions for the future can't find any better wish.  
Than the day I went a-fishin' an' didn't ketch no fish.

—Washington Evening Star.

Fly-Casting at Stow Lake.

The first of the season's series of fly-casting contests by the San Francisco Fly-Casting Club was commenced on Saturday, February 19th, and continued on Sunday, February 20th. There was a large and interested attendance on both occasions. The following is a summary of the events in their regular order.

Long distance casting.

SATURDAY.		SUNDAY.	
W. D. Mansfield.....	106 feet	110 feet	
H. C. Golcher.....	99 "	99 "	
Dr. E. N. Lowry.....	101 1-2 "	96 "	
W. E. Bacheller.....	101 "		
F. S. Daverkosen.....	93 "		
F. H. Reed.....	92 "		
C. G. Young.....	89 1-2 "	89 1-2 "	
A. E. Lovett.....	88 1-2 "		
H. E. Skinner.....	86 1-2 "		
H. F. Muller.....	86 "	83 "	
J. S. Butler.....	86 "	86 "	
E. A. Mocker.....	81 "	82 "	
J. P. Babcock.....	80 "	72 1-2 "	
C. F. Grant.....	76 "	80 "	
H. Smyth.....	76 "	79 "	
J. S. Turner.....	76 "	78 "	
W. J. Golcher.....	76 "	76 "	
A. Everett.....	71 "	71 "	
H. Battu.....	69 "		
R. E. A. Isenbruck.....	62 "		

Distance and Accuracy casting at buoys 50, 55 and 60 feet distant, five casts at each buoy.

SATURDAY.		SUNDAY.	
W. D. Mansfield.....	91 1-3 per cent.	93 1-3 per cent.	
F. H. Reed.....	92 2-3 "	91 1-3 "	
W. E. Bacheller.....	92 1-3 "		
J. P. Babcock.....	90 1-3 "	85 1-3 "	
H. F. Muller.....	89 2-3 "	80 "

H. F. Muller.....	78 2-3 "	80 1-6 "	
J. P. Babcock.....	77 5-12 "	74 1-12 "	
E. F. Daverkosen.....		76 "	
C. F. Grant.....	74 2-3 "	72 1-6 "	
H. Battu.....	73 2-3 "		
W. J. Golcher.....		71 1-2 "	
A. Everett.....		70 1-2 "	

Much interest is being taken in the fly-casting tournament to decide the championship of the world, which occurs at Stow Lake in September. It will be a fight of the East

against the West and both sides are very confident. Walter D. Mansfield, President of the San Francisco Fly-Casting Club, is the Western champion, and Reuben C. Leonard, of New York, the man on whom the hopes of the East center. Previous to the casting tournament at Chicago last fall, Leonard held the world's championship with 102½ feet, and although Mansfield and others of the local club had exceeded this their figures were not allowed, because they had not been made in a tournament. At the Chicago meeting, however, Mansfield cast his line 111½ feet, establishing a new world's record and also winning the championship. Recently Leonard reached 120 feet in an indoor tournament at New York, and this was thought by the Eastern people likely to remain permanent. But Mansfield during practice is accredited with having easily gone over the 120 foot mark. Leonard will probably be a competitor in the coming tournament and then the question of supremacy will be settled.

After the regular events were finished the members tried their skill at bait or lure casting, a new style of work which is to be on the programme next month. This casting is done with a short and stiff rod the line being controlled by thumbing of the reel. This event in the coming contests promises to be a great favorite.

Coming Events.

Feb. 28.—Regular semi-monthly meeting of the San Francisco Fly Casting Club. Office of State Fish Commission, Flood Building, San Francisco. [Postponed Meeting].

March 19.—Regular Saturday contest of the San Francisco Fly Casting Club, 2 P. M., Stow Lake, Golden Gate Park.

March 20.—Regular Sunday contest of the San Francisco Fly Casting Club, 10 A. M., Stow Lake, Golden Gate Park.

L. M. Smith tells the Ferndale Enterprise that among the large number of salmon hatched at the Price Creek hatchery recently are several "curios." One fish has three eyes, one is a double fish, having two heads and two bodies, joined together near the tail, also two eggs with two fish to each egg.

Salmon are reported to be in plentiful numbers in Monterey Bay. Some fine catches have been made lately.

Few fish were caught at Duncan's Mills last Sunday. The storm raised the river and made the water muddy.

There was a plenty of anglers at Point Reyes last Sunday, but very few fish were caught.

THE KENNEL

Coming Events.

BENCH SHOWS.

March 15.—Northwestern Kennel Club's dog show, St. Paul, Minn. E. D. Brown, Sec'y.

Mar. 31-Apr. 1-3.—Santa Clara Valley Poultry and Kennel Club—California Collie Club bench show at San Jose, Cal.; Chas. R. Harker, Secretary, San Jose, Cal.

May 19—21. San Francisco Kennel Club's bench show, San Francisco. H. H. Carlton, Sec'y.

CLUB MEETINGS.

March 14.—Regular monthly meeting of the St. Bernard Club at the office of Dr. W. R. Cluness, 406 Sutter street.

COURSING.

Feb. 26-27—Ingleside Coursing Park. Regular meetings every Saturday, Sunday and holidays.

Feb. 26-27—Third Annual Enclosed meeting of the Interstate Coursing Club, I. F. Halton, President, at Union Coursing Park.

Union Coursing Park.

Today the inauguration of the new coursing park at Colma, San Mateo county, will take place. The opening meetings will be run today and tomorrow under the auspices of the Interstate Coursing Club, I. F. Halton, Esq., President. Three rich stakes will be competed for, aggregating in amount \$1,980, the largest purses ever offered in America—the John Grace Challenge Cup, the Union Park Derby and the Belle Brandon Cup—the draw for which events was held last Wednesday and is published in today's DAILY BREEDER AND SPORTSMAN. The San Mateo Electric or S. P. R. R. Co. will land visitors at the park. The first pair of dogs will be shipped at 11 A. M. each day.

Ingleside Coursing Park.

The attendance at the Ingleside Park last Saturday and Sunday was up to the average. There were fifty-eight dogs in the stake and the sport was keenly enjoyed by the visitors.

On Washington's Birthday and the day following the wing of the Interstate Coursing Club presided over by Dominick Shannon, Esq., gave two days' coursing for the John Grace Cup, the Derby Puppy Stake and the Belle Brandon Cup, with \$650 added money. There was a large attendance and the coursing in the main good; lack of space prevents a summarized account of the meeting. The usual coursing will be run tomorrow, the draw appears in to-day's DAILY BREEDER AND SPORTSMAN.

Pacific Mastiff Club.

At the regular meeting of the Pacific Mastiff Club held Tuesday evening, February 15th, two medals were offered for the San Jose show—one, the club medal for the best California bred mastiff in the show, to be competed for annually, until won twice by the same owner and breeder—the second, a class medal for the best mastiff dog and bitch shown by a club member.

The club's delegate to the A. K. C. was forwarded instructions to vote for the continuance of the Pacific Advisory Board in modified form and with extended powers; for a return to the old rules of classification and for the elimination of the "senior class."

An interesting demonstration was given by S. L. Simon, the subject being Mrs. J. P. Norman's mastiff bitch Lola, 37,547.

Coursing at Los Angeles.

Several San Francisco dogs were entered in the coursing matches at Agricultural Park, last Sunday, and one of them, Ormond, made a sensational run. There was a 64 dog stake for a \$200 purse and the runs were unusually good. Beauty and Trip ran five "no-gos" together. Beauty finally winning three to nothing. In three other runs there were ties.

Westminster Kennel Club.

The entry list at the New York dog show this year is a record-breaker, numbering 1,700, an increase of 94 over last year. The list is as follows:

English bloodhounds.....	20	Boston terriers.....	105
Mastiffs.....	27	Basset hounds.....	6
Rough-coated St. Bernards.....	103	Dachshunde.....	37
Smooth coated St. Bernards.....	30	B-agles.....	62
Great Danes.....	30	Fox terriers (smooth).....	94
Newfoundland dogs.....	7	Fox terriers (wire).....	69
Russian wolfhounds.....	35	Irish terriers.....	63
Deerhounds.....	5	Scottish terriers.....	12
Greyhounds.....	39	Black and tan terriers.....	18
Boxhounds.....	10	Welsh terriers.....	1
Pointers.....	100	Skye terriers.....	4
English setters.....	68	Dandie Dinmont terriers.....	1
Irish setters.....	39	White English terriers.....	3
Go don setters.....	31	Whippets.....	4
Irish water spaniels.....	41	Schipperkes.....	4
Field spaniels.....	4	Pomeranians.....	2
Cocker spaniels.....	97	Yorkshire terriers.....	14
Collies.....	77	Toy terriers (other than York-shire).....	7
Old English sheepdogs.....	4	Pugs.....	16
Poodles.....	60	Toy spaniels.....	43
Dalmatians.....	5	Italian greyhounds.....	2
Bulldogs.....	102	Miscellaneous (recognized breeds unclassified).....	11
French bulldogs.....	20		
Bull terriers.....	120		
Airedale terriers.....	8		

DOINGS IN DOGDOM.

Affairs in regard to the coming San Jose show are progressing in a very satisfactory manner. The entry list promises to be a large one and of good quality.

The St. Bernard Club of California have notified the A. K. C. that they favor a return to the old system of rules and also that they will unanimously support the Pacific Advisory Board.

DR. H. CLAY GLOVER.

DEAR SIR—Your Vermifuge is the most harmless and effective remedy for worms in dogs I have ever used.

THE THOROUGHbred STALLION

## ZOBAIR

— SIRED BY —

ST. SAVIOUR, out of Nighthawk, by Haddington; second dam by NORFOLK, etc.

ZOBAIR is a bay stallion, foaled in 1890, and is one of the finest-looking thoroughbreds in America. His career on the turf compares favorably with any thoroughbred in America. He started 33 times, won 11, was second 9 times and third 7 times, and won almost \$6,000 in purses.

ZOBAIR will make the SEASON OF 1898, ending JULY 1st, at the PETALUMA RACE TRACK. TERMS \$25 THE SEASON.

Mares kept in any manner owners may desire. Facilities for doing so are first-class. Mares can be shipped per steamer "Gold." For pasturage, etc., apply to

O. A. KENYON or GEO. E. SMITH, Petaluma Race Track.

S. F. Office: 725 Howard Street.

THE FASTEST OF THE GUY WILKES FAMILY

## SEYMOUR WILKES, 2:08½

(REGISTERED 0232)

WILL MAKE THE SEASON OF 1898 AT

J. H. White's Stock Farm, Lakeville, Cal.

TERMS—\$25 FOR THE SEASON

SEYMOUR WILKES was sired by the King of the Wilkes family, Guy Wilkes, 2:15½, dam Early Bird, by Playmail (brother to Barney, 2:25½); second dam Lucy, by Odd Fellow (son of Chloroform); third dam by a son of Williamson's Belmont; fourth dam by Blackhawk 767. Playmail was by Mike 3103 (he by Vermont 822, out of the Peniger mare), out of Kate McDonough (dam of Ella Lewis 2:27, and granddam of Saladin, 2:05½).

SEYMOUR WILKES stands 16 hands high and weighs 1,200 pounds. He is a seal brown in color, and in conformation is one of the most symmetrical of any in California. His qualities as a level-headed, game and speedy race horse are known to all horsemen. He is the fastest son of the mighty Guy Wilkes, and on his maternal side traces to the very best of sires and dams. He has an iron constitution, and all owners of good mares that want horses that will have breeding, size, bone, quality, good disposition and extreme speed should not overlook this horse. His service fee is placed at a very low figure considering his merits. He never was bred but to a few mares, and his progeny are models of perfection.

Mares can be shipped direct to the ranch via steamer "Gold." The best of care taken of them on the farm, but no responsibility assumed for accidents or escapes. Pasturage \$3 per month. For further particulars apply to

THOS. ROCHE, Lakeville, Cal.

— WILL MAKE THE SEASON AT —

Pleasanton, Alameda County, Cal.

SERVICE FEE, \$40.

Address.

WM. MURRAY, PLEASANTON, CAL.

## ZOMBRO, 2:11

The Greatest Trotter in America,

Has trotted 40 heats as a three-year old better than 2:27 1-2, 31 in 2:20 or better and 12 in 2:15 or better. Won 13 races out of 17 starts as a three-year-old, and a total of \$5,400 in his three-year-old form.

ZOMBRO, 2:11 (Registered No. 28,029), brown stallion, foaled in 1892, stands 16 hands high and weighs 1,200 pounds, and is one of the most perfect formed horses in America. His career on the turf in 1895 stamps him as one of the greatest three-year-olds the world has ever seen.

ZOMBRO, 2:11, sired by McKinney, 2:11½, son of Aleyone, by George Wilkes. ZOMBRO, 2:11, first dam Whisper, by Almont Lightning, son of Almont 33, dam by Mambrino Pilot 29. ZOMBRO, 2:11, second dam May Berry, by Kentucky Clay 191, whose dam is also the dam of Mambrino Patchen and Lady Thorne, 2:18½.

ZOMBRO, 2:11, third dam by Edwin Forest 49. Whisper, the dam of Zombro, was bred and raised by Gen. W. T. Withers, of Lexington, Ky., and is a handsome brown mare, 16 hands high, weighing 1,150 pounds. She has never been beaten in the show ring, always carrying off first prize.

ZOMBRO, 2:11, won the first prize over all three-year-old stallions at the Horse Show in San Francisco in 1895.

This grand stallion will make the SEASON OF 1898 at SACRAMENTO RACE TRACK, from FEBRUARY 1st to JULY 1st, 1898. Terms, \$50 cash at the time of service, with usual return privileges.

Address,

GEO. T. BECKERS.

# THE THOROUGHBRED STALLION

## TORSO

Will Make the SEASON of 1898 at the Parkview Stock Farm  
(HALF MILE EAST OF SACRAMENTO.)

Chestnut horse, foaled 1886. Bred by HON. W. L. SCOTT, Algeria Stud, Pa.

TORSO	Algerine .....	Abd-el-Kader .....	Imp. Australian .....	West Australian .....
		Nina .....	Rescue .....	Imp. Emilia .....
	Lord Lyon .....	Lord Lyon .....	Boston .....	Berthun .....
		Lord Lyon .....	Imp. Frolicsome Fanny .....	Alice Carneal .....
Imp. Santa Lucia .....	Lady Margarette .....	Lord Lyon .....	Stockwell .....	Timoleon .....
		Lord Lyon .....	Paradigm .....	Sister to Tuckahoe .....
	Lady Margarette .....	Lord Lyon .....	Honiton .....	Lottery .....
		Lord Lyon .....	Retreat .....	Sister to Catterick .....
				The Baron .....
				Pocahontas .....
				Paragon .....
				Ellen Horne .....
				Stockwell .....
				Flax .....
				Orlando .....
				Flight .....

Torso sired the following winners: Torsina, Joe Roger, Torello, True Love II., Tortosa, Una Que Amo, Torsion, Torsolene, Myrtle H., Tortenson, Sister Ella, Solution, Hearso, Torsida, Sculptor, Torchdance, The Shrew, Vana, Odds On, Cosina, Caricia, Restless, Our Johnny, Sweet Liberty, Tessa, Finanza (dead) and Merry Lass (dead).

During his two years of turf career, Torso won nearly \$45,000. His full sister, Aurelia, was one of the best mares of her day, winning \$20,385, and her first foal was last season's capital two-year-old performer, Aurelian. Their dam, imp. Santa Lucia, also threw the winners, Tasso and Aureole. She is a daughter of the triple event winner, Lord Lyon, and through him obtains the potent blood of Paradigm, who produced Achievement, and two of whose granddaughters are the dams of Ladas and Glare, two of the best two-year-olds in England in 1892.

Algerine, the sire of Torso, was a superior race horse, winner of the Belmont Stakes, etc., and is by Abd-el-Kader, out of Nina, by Boston. Abd-el-Kader (a full brother to the good four-miler, Abd-el-Koree), although badlyhipped, was a fine race horse at all distances. He won a dash of four miles at Saratoga, in 1869, in 7:31 1/4, a very creditable performance. Nina, the dam of Algerine, was one of the best race mares of her day. She was a winner at all distances, from one to four-mile heats, in good time, and produced Planet, one of the best horses in the country at all distances, and a successful sire, also Echequer, Ninette, Eclectic, etc.

Torso was a brilliant two-year-old. He won the first of the Double Events from a field of nine and also the second Double Event with a five-pound penalty, making his weight 123 pounds. In the Surf Stakes he beat Cayuga, St. James and four others, and in the Flatbush he defeated Reclaire, Onaway, Burlington and three others.

At three years of age he won the Lorillard Stakes, 1 1/2 miles in 2:36 1/4, from Tournament, Banquet, Badisha, Devotee, St. John, Burlington and Protection, a high-class field; was second to Burlington for the Brooklyn Derby, in front of Tournament, Padisha, Lisimov, Kenwood and four others; was second for the Equinoctial Stakes to Reclaire, beating Tournament and others, and carrying nine pounds more than he winner, and was third for the Omnibus Stakes, 1 1/2 miles, carrying a penalty of five pounds.

TERMS \$50 THE SEASON.

SEASON CLOSSES JUNE 1, 1898. All bills payable not later than that date. Good pasturage at \$5 per month. Address all letters to

JOHN F. CAVANAUGH,

602 I STREET, SACRAMENTO

# THE STANDARD-BRED TROTTING STALLION

## MONTEREY, 2:13 3-4,

WILL MAKE THE SEASON OF 1898 AT ALAMEDA

(Cor. Arbor St. and Eagle Ave., end of Speed Track.)

MONTEREY, 2:13 3/4.	Sidney, 2:19 3/4.....	Santa Claus, 2:15.....	Strathmore 402	Sire of
		Santa Claus, 2:15.....	Elenor .....	2:11
	Sweetness, 2:21.....	Claus Forrester .....	Lady Thorn Jr. ....	Dam of
		Wm. Penn .....	Navidad .....	2:22 1/2
Hattie .....	Com. Belmont 4340.....	Sweetness, 2:21.....	Volunteer 55 .....	Sire of
		Sidney .....	St. Julian .....	2:11 3/4
	Meteor .....	Sidney .....	Lady Merrit, by Edw. Everett	Dam of
		Cora Bell .....	Belmont 64 .....	2:08 1/2
Monterey .....	Iago .....	Meteor .....	Maud S .....	Sire of
		Cora Bell .....	Miss Gratz (by Commodore)	2:13 3/4
	Barona .....	Iago .....	Woodford Mambrino, 2:21	Sire of
		Hattie .....	Abbottsford .....	2:21 1/2
Montana .....	Monterey .....	Barona .....	By Alexander's Norman 25	Dam of
		Monterey .....		2:13 3/4
		Montana .....		2:16 1/4

If Monterey begets colts like himself he will prove to be the poor horse-breeder's friend, for it will cost but little to get them to a race. Monterey had only four and a half months' training prior to starting in his first race, which he won in 2:21, and won his last race in 2:13 3/4, all training and racing inside of five months.

He was injured last season in shoeing. The day before he went an easy mile in 2:11 1/4 in the presence of three thousand people. He seems all right, and I predict Monterey will soon hold the harness record. If he gets the record I expect, his colts will be very valuable.

MONTEREY has a bold and square way of going, such as is now in demand for road horses. He is thoroughly game; in fact, I never drove a gamer horse; is level-headed; legs as clean as a yearling's, and has the strongest foot lever saw on a horse. He is a chestnut, 15.3 in height, and weighs 1,200 pounds. Come and see him.

TERMS, \$50, With Usual Return Privileges.

SEASON CLOSSES JUNE 1, 1898. All bills payable not later than that date. Address all letters

P. J. WILLIAMS, ALAMEDA CAL.

Do You Want a 2:10 Trotter?

## BOODLE, 2:12 1/2

The Only stallion with a Fast Record in California that has Produced a 2:10 Trotter. This he did the First Time.

— SIRE OF —

ETHEL DOWNS, 2:10 (first foal); THOMPSON, 2:15 (second foal); VALENTINE (2), 2:30, AND OTHERS

BOODLE will be on the turf again this year and every year until he makes all horsemen realize that

"Trotters may come, break down and go,  
But the Boodles train on forever."

If you don't breed to BOODLE, you will not get a BOODLE Colt. Send for tabulated pedigree.

TERMS, \$100, Payable at Time of Service.

Leading Sire of 2:10 Performers

## ALTAMONT 3600

BY ALMONT 33

Dam SUE FORD (dam of three producing sons), by Brown Chief 4445; second dam by imp. Hooton; third dam by Bertrand; fourth dam by imp. Buzzard.

Sire of Chehalis, two miles, 4:19 1/2, the Champion Two-mile Harness Horse.

Grandsire of Klamath, 2:07 1/2, the Champion Trotter of the Pacific Coast.

Sire of Altas, 2:09 3/4, the Champion Trotting Stallion of the Pacific Northwest.

Sire of Seven new 2:20 Performers for 1897.

Sire and Grandsire of all the 2:10 Performers ever Produced in Oregon and Washington.

WILL MAKE THE SEASON OF 1898 AT

Alameda, at \$100 the Season.

(WITH USUAL RETURN PRIVILEGES.)

LIMITED TO TWENTY-FIVE MARES.

ALTAMONT shares championship honors with Baron Wilkes, a horse of great opportunities, in having six 2:10 performers to his credit. He has taken a leading position among the foremost trotting sires of the country under such conditions that phenomenal ability alone has saved him from oblivion. A very small proportion of his progeny has been trained, and an extremely small number of these by competent men. As a partial illustration of his meagre advantages, it may be stated that he has never produced a colt from a pacing-bred mare or from one with a fast record. Nor until 1897 had he ever been crossed with a descendant of George Wilkes, Electioneer, Dictator, Sidney or Dexter Prince. Oregon and Washington have produced seven 2:10 performers, and EVERY ONE of these are ALTAMONTS.

ALTAMONT is a horse of iron constitution, and at twenty-three years of age is in the full vigor of his prime, a sure foal-getter, and, except for his blindness—the result of an accident—is without blemish. He has never sired a sorrel, all of his colts having been solid colors—bays, browns or blacks.

NOTE—Bessie Rankin, by Altamont, sold November, 1897, brought the highest price obtained for a harness horse at public auction in California during the year. Address

BAY STREET STATION.

J. M. NELSON, Cor. St. Charles and Eagle ave., Alameda, Cal.

# SARATOGA ASSOCIATION

THE FOLLOWING EVENTS TO CLOSE MARCH 1, 1898

TO BE RUN BETWEEN JULY 28th and AUGUST 27th.

**THE GRAND UNION HOTEL.—DOUBLE EVENT.**—A Double Event—\$8,000 for two-year-olds (foals of 1896), of \$100 each, or \$50 if declared out by June 1, 1898. Starters to pay \$100 additional, which shall entitle them to start for both events. To a Grand Union Hotel to add the amount necessary to make the value of the two events \$1,000 each. In each event the second to receive \$750 and the third \$250. Conditions of the First Event, to be run about the 10th of August, during the Saratoga meeting, 1898: Winners of two races of \$2,000, or one of \$3,500, 7 lbs extra. Maidens never having been placed second for a race of \$1,800 allowed 5 lbs. The produce of four or six stallions which have not produced a winner prior to January 1, 1898, if maidens at time of starting, allowed 3 lbs; or both, 5 lbs additional. The winner to receive \$3,000, the second \$750 and the third \$250. Five and a half furlongs. Conditions of the Second Event, to be run on or about the 18th of August: Winners of three races of \$2,000 or of one of \$3,500, 7 lbs extra. Maidens never having been placed second in a race of \$2,000 allowed 10 lbs. The produce of mares or stallions which have not produced a winner prior to Jan. 1, 1898, at time of starting, allowed 3 lbs; or both, 5 lbs additional. The winner to receive \$3,000, the second \$750 and the third \$250. Six furlongs.

**THE G. H. MUMM & CO. HANDICAP.**—For two-year-olds; \$50 each, \$20 forfeit, with \$1,000 added by the champagne firm of G. H. Mumm & Co., of which \$200 to second and \$100 to third. Weights to be announced three days before the race. Six furlongs.

**THE CONGRESS HALL.**—For two-year-olds; \$30 each, half forfeit, with \$750 added by the proprietors of Congress Hall, of which \$200 to second and \$100 to third. Winners of \$2,800, 4 lbs extra; of \$3,800, 7 lbs extra. Non-winners of \$800 allowed 3 lbs; of \$450, 15 lbs. Five furlongs.

**THE PEPPER.**—For two-year-olds; \$50 each, \$20 forfeit, with \$1,000 added by J. E. Pepper & Co., of which \$200 to second and \$100 to third. Winner of \$2,400, 4 lbs extra. Non-winners of \$1,200 allowed 4 lbs; of \$800, 8 lbs; of \$650, 12 lbs; maidens, 18 lbs. Five and a half furlongs.

**THE WORDEN HOUSE.**—For two-year-olds; \$30 each, half forfeit, with \$750 added by proprietors of the Worden House, of which \$150 to second and \$100 to third. The winner to be sold at auction for \$2,000. If entered for \$1,300, to be sold at \$1,500; if for \$1,000, 12 lbs. If for \$500, 20 lbs. Selling price to be named through the entry box at the usual hour for the closing of entries on the day preceding the race. Winners of \$1,400 to carry 10 lbs additional. Five furlongs.

**THE HAMBURG.**—For three-year-olds; \$50 each, \$20 forfeit, with \$1,000 added by Mr. J. E. Madden, of which \$200 to second and \$100 to third. Non-winners of \$5,000 in 1897 allowed 7 lbs. One mile.

**THE UNITED STATES HOTEL.**—For three-year-olds; \$50 each, \$20 forfeit, with \$1,000 added by the proprietors of the United States Hotel, of which \$200 to second and \$100 to third. Winner of the Belmont, Brooklyn Derby, Realization or any race exclusively for three-year-olds (handicaps excepted) of the value of

\$3,800 to carry 5 lbs extra. Non-winners in 1898 of \$1,700, if non-winners of \$2,000 in 1897, allowed 10 lbs; of \$700, if non-winners of \$1,200 in 1897, allowed 14 lbs. One mile and a furlong.

**THE HENDRICK.**—For three-year-old fillies; \$50 each, \$20 forfeit, with \$750 added, of which \$150 to second and \$100 to third. Weights, 121 lbs. Non-winners of \$2,000 in 1897 or 1898 allowed 3 lbs; of \$1,500, 5 lbs; of \$1,000, 7 lbs; of \$750, 12 lbs; of \$350, 15 lbs. One mile and a sixteenth.

**THE SPENCER.**—For three-year-olds and upward; a handicap; \$50 each, \$20 forfeit, with \$1,250 added by Mr. R. A. Canfield, of which \$300 to second and \$100 to third. Weights to be announced three days before the race. One mile and a quarter.

**THE CITIZENS' AND MERCHANTS'.**—For three-year-olds and upward; a handicap; \$50 each, \$20 forfeit, with \$1,250 added by the citizens and merchants of Saratoga, of which \$300 to second and \$200 to third. Weights to be announced three days before the race. One mile and a furlong.

**THE KEARNEY.**—For all ages; \$50 each, \$20 forfeit, with \$1,000 added by Hon. Edward Kearney, of which \$200 to second and \$100 to third. Weights, 8 lbs below the scale. Winners in 1898 of any race (excepting those exclusively for two-year-olds), value \$1,800, 5 lbs extra; of \$7,000, 10 lbs extra. Three-year-olds or upward, non-winners in 1898 of \$700, if non-winners of \$1,500 in 1897, allowed 6 lbs; of \$400, 10 lbs. Six furlongs.

**THE CANADIAN CLUB.**—For all ages; \$70 each, \$35 forfeit, with \$1,000 added by Messrs. Hiram Walker & Sons, Limited, of Walkerville, Canada, of which \$200 to second and \$100 to third. Weights, 5 lbs below the scale. Winners in 1898 of \$4,800, 7 lbs extra; of \$2,800, 4 lbs extra; of but \$1,800 allowed 3 lbs; of \$800 6 lbs; of \$400, 12 lbs. One mile.

**THE KENSINGTON HOTEL.**—For three-year-olds and upward; a handicap; \$50 each, \$20 forfeit, with \$1,000 added by the Messrs. Kings, proprietors of the Kensington Hotel, Saratoga and Sturtevant House, New York, of which \$200 to second and \$100 to third. Weights to appear three days before the race. One mile.

## STEEPLECHASE.

**THE BEVERWYCK STEEPLECHASE.**—A sweepstake of \$50 each, \$20 forfeit, with \$1,000 added by Hon. M. N. Nolan, of which \$200 to second and \$100 to third. Weight for age under the steeplechase rules. Horses which have never won a steeplechase allowed 10 lbs. Full course, about two and a half miles.

N. B.—The foregoing events will be run without conflicting with Sheepshead Bay's Fall Meeting.

EDWARD KEARNEY, PRESIDENT.

## The American Horse for Export.

Address before the Cattlemen's Convention at Pendleton, Ore., by  
F. J. Berry, of Chicago:

"The subject before us is the American horse of to-day and the export demand. I will endeavor to show you the kind of a horse that the markets demand at present and the most salable kind for the export trade.

"Every horse should be bred for a purpose, and to meet all the requirements of his class, with all the qualities that are required at the present time.

"There are five distinct classes of horses and every horse for the market has to fill all the requirements of one of these classes, or he is condemned as a no-class horse, and is of but little value, and would not sell in our markets to-day for anything like the cost of producing him; therefore, he would be considered a failure. He might be a very useful animal in the country, but would not sell in our markets for anything like what it costs to produce him. Small, rough and ordinary horses are animals of the past, and never will be of any great value again.

"The export demand is divided into five different classes, of which I will give you an accurate description later on, and every horse must be an animal distinctly of his class, and the grades that are the most salable and profitable to produce for all export markets are the very same kinds that are the most salable in all American markets. Therefore, a man in breeding horses for the export demand can make no mistake. The up-to-date horse of to-day is a very much different animal from what he was five years ago; therefore, the breeder of horses is not left to his own resources, as he has been in former times, but has a fixed type before him, demanded by the markets, and to meet the American, as well as the export demand, he has to breed strictly for a purpose, and every horse must be one of the five different classes. In former times there were no classes of market horses. Every farmer could breed to his own fancy, and naturally bred the kinds of horses he might have, regardless of what he might produce, and as every man has different ideas, all kinds of horses were bred and raised. In this way, a larger percentage of the stock produced were too small and inferior and low-grade to ever make marketable and salable horses.

"Before 1887, there was no regular market established in this country, to which a man could ship a load of horses and close them out immediately. Neither were there any fixed market values until that time. Men were left to agree on prices, and there were as many different ideas about the value of horses as there were different horses. Every man bred and raised horses according to his best judgment, and sold them whenever he could, or he would bring them to market, and they would sometimes stay at boarding-stables until they nearly ate up their value in many cases. He would finally find a customer to whom he could sell them at some price, but very often he would ship them back home, thus making horseraising a very unsatisfactory and unprofitable business, although horses were high at that time.

"About 1887, a market was established at the Union stock yards, Chicago, where all horses sold readily at market prices. This market increased and grew stronger until now it is the largest horse market in the world, and a man can ship a carload of horses and sell them as readily as cattle. Prices remained high until the panic of 1893, when all branches of business were depressed, prices became very unsatisfactory, and all kinds of properties were selling low, especially the horse.

"It has been said that there was an overproduction of horses previous to 1893 and we presume there was of the class that was produced, but at the same time there were not too many

good horses produced. Had the times remained good, they would have all been taken at firm prices, but while the supply was on hand, the demand decreased, an oversupply of horses was left, most of them unsalable, inferior and small, and during the depression from 1893 to 1897 many changes went on, and as a result of them, the whole horse problem was revolutionized. While the wheel came in, and it has been said, took the place of the horse, we doubt very much if the wheel has decreased the value of the horse. While it has, in a small measure, taken the place of the small horse, and the interests brought about by it have improved streets and roads, it has been the means of increasing the demand for a larger and finer horse. We very much doubt if the wheel has depreciated the value of the horse.

"It is believed by some that electricity will take the place of horses. We believe it never will. It is not practical.

F. J. BERRY.

We believe this is an erroneous idea. Horses have been beasts of burden and pleasure ever since civilization began, and we believe they will remain so. While electricity has taken the place of street-car horses, there are many other uses that will make a demand for the horse in this period. Electricity has extended the street car lines far into the suburbs, thus causing people to live farther from the center of the city, where they can secure cheaper homes, and many keep horses of their own who never kept them before. As all goods are delivered from the center of the city to the suburbs, where one horse was used for delivery wagons three years ago, five are used at the present time, thus making a larger increase in the demand in this direction.

"In the meantime, the export demand, which commenced in 1893, doubled in 1894, doubled again in 1895, and 35,000 horses were exported in 1896, and 50,000 in 1897. Thus while the demand has decreased for one purpose, it has increased for many other purposes, being larger to-day than ever before. As the number of colts raised since 1893 is comparatively small, our visible supply of American horses

is reduced about 3,000,000, not only in numbers, but in quality. Good horses have become very scarce, and there will be a great shortage of the best kinds in a very few years. But the great depression has all passed away, times are better, business is good, and there is a strong demand for all grades of horses, while our very choicest specimens of light harness and coach and heavy draft horses are worth nearly double to-day what they were two years ago. The medium classes have advanced in value considerably, while the lower grades still remain low.

"Now, I will give you a description of the five different classes, covering the export as well as the domestic demand.

"Class No. 1—Drivers and coachers, which must be of good color, well bred, Wilkes preferred, from 15:3 to 16½ hands high, with fine heads and necks, plenty of bone and substance, short back, smooth hip, of good style and action, the last being the most important, good travelers. If they have some speed, all the better. This class has advanced very much in price and are worth very nearly double the price they sold at two years ago, ranging from \$100 to \$300. Some very rare specimens of this class have sold at auction in our Chicago market the first week in January for as high as \$450. When Hambletonian stallions with size to produce this class have been lacking, the French coach horse has been crossed with the trotting brood mares, with extremely favorable results, and it is the opinion of the best breeders and horsemen that we will have to cross our good trotting brood mares with the French coach horse in order to produce light harness horses large enough to meet the coach horse demand. It is believed that this cross breeding will produce a fixed type of coach horse that will possess size and quality, action and style, and still retain the road qualities required, as every light harness horse should be well bred in order to stand the wear and tear and hard work of pavements and the long drives of city service, and the more he partakes of the blood of the trotter the better.

"Class No. 2—A cab horse, rather blocky, weighing 1100 pounds and standing 15½ to 15¾ hands, smooth made, with bone and substance, fair traveler, price about \$75. These are very salable for many purposes, but they are always plentiful in our market, too plentiful to be profitable to raise. In breeding horses the breeder will always have some of this class. He will find a fair demand for all, although the price will never be high. This is the smallest class that ever should be bred, as there is no demand for anything smaller, except at ruinous prices.

"Class No. 3—A buss horse, blocky and smooth made, must shape himself well in harness, standing 15½ to 16 hands, with plenty of bone and substance, be a fair traveler, weighing from 1250 to 1400 pounds. These horses must be useful for general purposes as well as for omnibuses. The English use the blocky, lower-set ones for 'bussers,' while the larger ones are used for express and general purposes. This class of horses is in the strongest demand in all American and foreign markets and sell at from \$80 to \$125, and can be produced best by a Percheron horse crossed with a smaller mare that has some breeding and good style and action and road qualities.

"Class No. 4—The draft horse, which should weigh from 1500 to 1800 pounds, blocky made, heavy boned, with smooth finish, good quality and action, and first class in every respect. The present price is from \$100 to \$250. The best specimens sell as high as \$300. This class is one of the most salable and will find ready sale in all domestic and foreign markets, and can be produced from the best heavy draft mares of good quality crossed with the best heavy draft horses of high quality, regardless of what breed he might be, as long as he possesses all the qualities of a draft horse.

"Fifth and lastly—'The American trotter,' which in all cases must be a high-bred trotting horse, with good bone and substance, high finish, good action and disposition, and the more speed he has the higher price he will bring, ranging from \$200 to \$5,000, according to his quality, size and speed.

"All horses for export must be perfectly sound and without blemish. They are bringing at present higher prices than horses sold for any other market. Good horses will be held higher and higher for many years to come, as there is an increasing demand, as almost all countries of Europe have turned their attention to our American horses. They are giving such entire satisfaction that it seems to be the general impression that all countries in Europe will want American horses for many years to come, as breeding is reported to have ceased there, for they can buy American horses much cheaper than they can raise them. We believe there will be no let up to the export demand, and that it will increase all the time, and nothing can ever stop that demand, unless it should be extreme high prices and the scarcity of good horses.

"The greatest need of the present day is a fixed type of a coach horse or light harness horse. We believe the American trotter is the best blood to produce them. We also believe that, if the same care is taken to produce size, shape and quality that has been taken to produce the American trotter with speed, a still higher class of horse can be produced from the blood of the trotter by combining size and other qualities with his road qualities. The American trotter is the highest class of horse the world has ever produced. He has been produced within this century, and we have every reason to be proud of him, as he is purely an American product, and has made a world-wide reputation.

"It should be our aim now to produce a fixed type of a coach horse, and when this is accomplished, we will have the most profitable and most salable horse the world has ever produced."

#### The Benefits of Continuous Racing.

The business men of Chicago, realizing the benefits accruing from high-class racing, have petitioned the legislature of Illinois which is now in session, to extend the limit, and to authorize the making of books within race track enclosures. They show that the 100 days' racing recently concluded at the Harlem track, put into circulation more than a half million dollars, nearly every dollar of which was drawn from the surrounding cities and States.

Every dollar of this vast sum was filtered through the business channels of this city, paying tributes to every one engaged in trade, from the banker who handles the gate receipts to the newsboy who makes the announcement. It was shown that this money would have gone to New Orleans or somewhere else if Chicago did not entertain its owners.

In refutation of the charge made that racing promoted defalcations and other crimes, the spokesman of the business men's committee introduced the police records of Chicago for the three months covered by the racing season and the three corresponding months of the previous year, in which there was no racing, and showed that it had not only failed to promote crime, but that it had actually diminished the rate. It was shown that whatever crime grew out of racing at all it was directly traceable to the down-town pool-rooms, and these dens were in no way associated with the tracks. It was for this reason that they desired bookmaking confined to regular race tracks.

The experience of Chicago has been more or less the experience of San Francisco. Racing itself has been a source of revenue to the city, but the down-town dives were a source of reproach. But these happily have been crushed through the present action of the jockey clubs and the police. San Francisco has solved the problem of continuous racing.

#### A Race Pulled Out of the Fire.

LIMA, O., June 22, 1895.

J. W. HUGHES, Indianapolis, Ind.: I can testify in all sincerity that a practical test of your Speed Sustaining Elixir has demonstrated to my satisfaction that it is all you claim for it and more. Without it I am convinced that I would have lost my race at this town yesterday with Duplex in the 2:40 pace. I shall use my influence to induce my friends to use it.

WILLIAM ROSS,  
Jerseyville, Ill.

We are in receipt from the Messrs. Goodwin a copy of their standard work, "The Annual," for 1897. The present volume, like all of its predecessors, shows the result of hard but painstaking toil. It is an immense work of about 1,800 pages, each one reflecting indelibly the doings of the thoroughbreds during the year just closed in this country and Canada. Some conception, perhaps, of the labor entailed in the production of the "Annual" can be better understood when we state that it contains reports of 324 distinct meetings, at which about 9,000 races were decided, in which nearly 7,000 horses took part. The names of president, secretary and starter appear to all principal meetings, then there is a separate alphabetical list of every such meeting, likewise scale of weights for the U. S. and Canada; fastest time on record made at all distances; horses running under the same name; jockey mounts for the entire year; dates for home and foreign meetings of 1898; separate alphabetical list of stakes run during 1897; list of important events for the past 16 years; index with pedigrees of outlawed horses; widths of the various courses at the different starting points; locality and various methods of reaching race courses, &c., &c. In addition to the above the compilers have added additional value to their work by the insertion of the following five new features, which have never before appeared in any of their "Annals": Important turf rulings and resolutions of the Jockey Club and Western Turf Congress; best time made at all distances on all the principal tracks in the country, showing distance, time made and date; performances of American bred horses in England in 1897; list of horses which have run with wrong pedigrees, and also those which have run under wrong nomenclature, showing under what names they ran and how registered with Jockey Club; important turf rulings of the Jockey Club and Western Turf Congress during the whole of 1897 and as late as January 13th of the present year. This latter feature is a particularly commendable one and of great value to both the Jockey Club and Turf Congress, as well as to all horse-owners, trainers and breeders as, by reason of the influence and far reaching circulation of the Guide, these rulings, etc., will be disseminated through the length and breadth of the country.

#### Ingleside Races.

WEDNESDAY, FEBRUARY 23.

First race, three and a half furlongs, maiden two-year-olds, purse \$350 Royal Fan (Conley, 107), first, easily by three-quarters of a length; Obedian (W. Martin, 118) second by 1/2; Vilmar (McHugh, 118) third. Reina de Cuba, La Parasseuse, Master Buck, Primavera, Racine Murphy, Engage, Complimentary, Sir Urian, Lobos, San Laredo, Bly and Native Son finished in the order named. Time, 0:44.

Second race, six furlongs, selling, four-year-olds and upward, purse \$350. Callente (Clawson, 109), first, handily, by one and one-half lengths; Miss Lynde (St. Clair, 104), second by six lengths; Jack Martin (106) third. George Miller and Scott Pine also ran. Time, 1:16 1/4.

Third race, one mile, handicap, three-year-olds and upward, purse \$500. Ed Garland II (O'Connor, 93), first, handily, by three lengths; Souffle (T Sloan, 100) second by six lengths; Mainstay (H. Martin, 102) third. Devil's Dream and Barney Stone also ran. Time, 1:44 1/4.

Fourth race, selling, steeplechase, short course, four-year-olds and upward, purse \$400. Lord Chesterfield (Preston, 125), first, easily by twenty-five lengths; God Budd (McKenna, 138), second, by twelve lengths; Esperance (Barry, 135), third. Presidio and Silverado finished as named. Mestor, Monita and Three Forks fell. Time, 4:07.

Fifth race, four furlongs, selling, two-year-olds, purse \$350. Formero (H. Brown, 112), second by eight lengths; Foxey (E. Jones, 103) third. Don't Tell, La Juanita and Odd Eyes also ran. Time, 0:50 1/2.

Sixth race, one mile, selling, four-year-olds and upward, purse \$350. Fashion Plate (Conley, 104), first, easily by three-quarters of a length; Lena (McDonald, 104), second, by three and one-half lengths; Sontro (Spencer, 106), third. Kaiser Ludwig, Velox and Pleasanton also ran. Time, 1:47.

THURSDAY, FEBRUARY 24.

First race, six furlongs, three-year-olds and upward, purse \$350. Tea Rose III (Clawson, 107), first, easily, by three lengths; Fonsvannah (T Sloan, 100) second by one-half length; Highland Ball (Gray, 95) third. Pat Murphy and Hermoso also ran. Time, 1:15 1/4.

Second race, seven furlongs, selling, three-year-olds, purse \$350. Geo. Lee (T Sloan, 109), first, driving, by one length; Dr. Marks (H. Martin, 107) second by two lengths; Gotoch (Clawson, 110) third. Plain, Bow and Arrow, The Ace and Bonita R finished as named. Time, 1:31 1/4.

Third race, one and one-eighth miles, three-year-olds and upward, purse \$500. Morinel (J. Woods, 89), first, driving by three-quarters of a length; Ooster Joe (T Sloan, 114) second by a nose; Howard Maun (Clawson, 114) third. Los Prietos also ran. Time, 1:56 1/4.

Fourth race, one mile, selling, four-year-olds and upward, purse \$350. Saylor (T Sloan, 98), first, easily, by one and a half lengths; Benamela (Clawson, 103) second by one-half length; Charles A. (E. Jones, 103) third. Cavallo and Scholtz finished as named. Time, 1:45 1/4.

Fifth race, five furlongs, three-year-olds and upward, purse \$400. Traverser (T Sloan, 106), first, driving by a head; Trolley (Conley, 108) second by twenty-five lengths; R. Q. Han (Taylor, 114) third. Fly also ran. Time, 1:02.

Sixth race, seven furlongs, four-year-olds and upward, purse \$350. Greyhurst (H. Martin, 106), first, easily, by one and a half lengths; Won't Dance (T Sloan, 107) second by two lengths; Vergara (Spencer, 109) third. Presidio and Durward finished as named. Time, 1:31 1/4.

FRIDAY, FEBRUARY 25.

First race, five and a half furlongs, maiden three-year-olds, purse \$350. Moorito (E. Jones, 105) first, driving, by three-quarters of a length; Aprona (T Sloan, 105) second by a nose; Oahu (Clawson, 105) third. Estrata, Ocktruck, Indomitus, Nita Murphy and Livermore finished in the order named. Time, 1:11 1/4.

Second race, one mile, four-year-olds and upward, purse \$400. Geyser (T Sloan, 111), first, easily, by a head; Orimar (Conley, 108) second by two and one-half lengths; Red Glenn (Gray, 108) third. Devil's Dream also ran. Time, 1:45.

Third race, five and one-half furlongs, maiden three-year-olds, purse \$350. Roulette Wheel (Thorpe, 110), first, driving, by one-half length; Nilbau (Spencer, 110) second by two and a half lengths; Flantes (Clayton, 115) third. Dr. Mizer, Hertha, Royal Prize, Mainbar, Padrone and Chener finished as named. Time, 1:11 1/4.

Fourth race, one mile handicap, three-year-olds, purse \$350. George Lee (T Sloan, 109), first, driving, by one-half length; Bonito (Clawson, 102) second by three lengths; Staro Stone (J. Woods, 89) third. Fonsvannah, Los Prietos and Bow and Arrow finished in the order named. Time, 1:44.

Fifth race, one mile and a sixteenth, selling, four-year-olds and upward, purse \$400. Collins (E. Jones, 109) first, easily, by one and a half lengths; Little Cripple (Conley, 109) second by five lengths; Souffle (Clayton, 110) third. Perseus and Pleasanton also ran. Time, 1:52 1/4.

Sixth race, six furlongs, four-year-olds and upward, purse \$350. Refugee (H. Brown, 112), first, driving, by a head; Pat Murphy (Clawson, 107) second by six lengths; Don Fulano (Conley, 110) third. Distinction, Una Que Amo, Last Chance, Vivo and Reno finished in the order named. Time, 1:16 1/4.

SATURDAY, FEBRUARY 26.

First race, six furlongs, selling, four-year-olds and upward, purse \$350. Jack Martin (Stevens, 102), first, driving by three-quarters of a length; Fortunate (Conley, 110), second, by one length; O'Fleeta (Thorpe, 109), third. Silver State, Viking, Hazard, Una Que Amo and Starling finished in the order named. Time, 1:17 1/4.

Second race, seven furlongs, selling, four-year-olds and upward, purse \$350. Charles A. (Spencer, 104), first, cleverly by one-half length; Benamela (Clawson, 107), second, by four lengths; Daylight (Conley, 107), third. Vergara, Humbug, Last Chance, Nic Nac and Wm. O.B. finished in the order named. Time, 1:17.

Third race, four furlongs, selling, two-year-old colts, the Malowansky State, value \$1000. Milton Young (Clayton, 118), first, driving by a nose; Frank Ireland (Clawson, 118), second by a neck; Obsidian (Thorpe, 118), third. Semicolon, Native Son and Rainer finished as named. Time, 0:50.

Fourth race, one and one-quarter miles over five hurdles, four-year-olds and upward, purse \$400. Capt. Rees (Hueston, 147), first, easily by two and one-half lengths; Major S. (Peters, 138) second by one-half length; Monita (McAuliffe, 131) third. Tortoni and Reno also ran. Time, 2:18 1/4.

Fifth race, seven furlongs, three-year-olds, purse \$350. Dr. Marks (H. Martin, 112), first, driving by one and one-half lengths; Odds On (Thorpe, 112) second by three-quarters of a length; Morning (Devlin, 102) third. Watomb, Rebel Jack, Bonnie Ione, Novia and Prince Blazes finished as named. Time, 1:31 1/4.

Sixth race, three furlongs, two-year-olds, selling, purse \$350. Royal Fan (E. Jones, 103), first, cleverly by two lengths; Master Buck (Conley, 108) second by three lengths; Conace (McNichols, 103) third. La Parasseuse and Racine Murphy also ran. Ocorona was left. Time, 0:36 1/4.

MONDAY, FEBRUARY 28.

First race, seven furlongs, selling, four-year-olds and upward, purse \$350. Velox (Conley, 109), first, handily, by a head; Captain Piersal (Thorpe, 106), second by twelve lengths; William O.B. (Clayton, 110), third. J. M. B. also ran. Time, 1:32 1/4.

Second race, four furlongs, two-year-olds, purse \$350. Primavera (Hennessy, 107), first, his own way by two lengths; Master Buck (Thorpe, 106), second by two and one-half lengths; Ocorona (Clawson, 107), third. Ach. Rainier, Ellen Wood and Complimentary finished in the order named. Time, 1:31 1/4.

Third race, seven furlongs, selling, three-year-olds and upward, purse \$350. Benamela (Clawson, 110), first, driving by a nose; Vergara (E. Jones, 107), second, by one-half length; Morning (Devlin, 102) third. Nilbau, Cavallo, Humbug and Vivo finished as named. Time, 1:31 1/4.

Fourth race, one mile, selling, four-year-olds and upward, purse \$350. Joe Ullman (Clayton, 109), first, easily, by two and one-half lengths; Charles A. (Spencer, 111) second by two lengths; Hazard (Conley, 111) third. Rutaba and Imp Devil's Dream also ran. Time, 1:45.

Fifth race, one and one-sixteenth miles, selling, three-year-olds and upward, purse \$400. Plan (Gray, 91), first, cleverly, by one-half length; Gotoch (Clawson, 94), second by a head; Los Prietos (Holmes, 91) third. Can't Dance, Argentina and Little Cripple also ran. Time, 1:51 1/4.

Sixth race, seven furlongs, three-year-olds, purse \$400. Bonita (Clawson, 103), first, easily, by four and one-half lengths; Odds On (Thorpe, 118) second by eight lengths; Melvin Burnham (Conley, 110) third. Time, 1:31 1/4.

TUESDAY, MARCH 1.

First race, seven furlongs, three-year-olds, purse \$350. Prince Tyrant (Thorpe, 115), first, easily, by one and one-half lengths; Bow and Arrow (Gray, 113) second by seven lengths; Bonnie Ione (McDonald, 111) third. Flantes, Eldad, The Dipper, Rio Frio and Prince Blazes finished in the order named. Time, 1:32.

Second race, five and one-half furlongs, selling, four-year-olds and upward, purse \$350. Torsion (Clawson, 95), first, easily, by one and one-half lengths; Viking (Spencer, 106) second by one and one-half lengths; Durward (Woods, 91) third. Tom Smith and Nervoso also ran. Time, 1:10 1/4.

Third race, three and one-half furlongs, selling, two-year-olds, purse \$350. Buena Ventura (Hennessy, 107), first, ridden out by three lengths; Canace (McNichols, 115) second by two lengths; Gold Scratch (Thorpe, 110) third. Racivan, Wrinkles, Gilberto and Medasos finished as named. Time, 0:44 1/4.

Fourth race, one mile, handicap, three-year-olds and upward, purse \$500. Napamat (Clawson, 101), first, ridden out by a head; Ooster Joe (T Sloan, 120) second by four and one-half lengths; Highland Ball, Refuge and Barney Stone also ran. Time, 1:42 1/4.

Fifth race, one mile, selling, four-year-olds and upward, purse \$400. Saylor (T Sloan, 105), first, cleverly by one-half length; O'Fleeta (Thorpe, 109) second by four and one-half lengths; Fashion Plate (Hennessy, 109) third. Daylight, Red Glenn, Coupon III, Pleasanton, Walter J and Little Cripple finished in the order named. Time, 1:44 1/4.

Sixth race, five and one-half furlongs, four-year-olds and upward, purse \$400. Geyser (T Sloan, 111), first, easily by one and one-half lengths; Tea Rose III (Clawson, 106) second by twenty lengths; Roy Carruthers (Reidy, 108) third. Time, 1:08.

FRED EDWARDS, one of the youngest trainers on the track, is making very rapid strides in his profession. He has Magdalena ready to run for a kingdom, and can well feel proud of his efforts thus far in the line of conditioning racers of the equine tribe.

#### Santa Ana Track Notes.

A Kentuckian would enjoy a visit to the Santa Ana race track any week-day morning at present. Orange county boasts of some as fine and as fast horses, perhaps, as any county in the United States, and a good many of these have already commenced to take light work to get them in condition for the coming racing season. The track itself is in splendid shape, and an occasional fast quarter or an eighth is made on it.

G. H. Judd, the owner of Klamath, 2:07 1/4, has commenced working his string, Cookie being the principal one, and his driver is giving him quarters in about 35 seconds. In the Judd string, also, is Mr. Laurence's Atto Rex; the three-year-old colt Laurence, who has gone the half in 1:00 1/2, and C. Caudle's promising bay mare Marguerite, that also promises well.

Trainer John Baker has Ketchum, 2:17, as a three-year-old; promising two-year-old filly of the same horse's get, and a foal of Birdroe, 2:11 1/2, which has gone fourths in 25 seconds and Bastina, another promising three-year-old Nutford colt.

R. Garnsey has also commenced working the horses in his stable, which is made up of Henry Adam's Nutway, a four-year-old Nutford colt, which went in a five heat road race last year in 2:20 1/4, and worked a trial mile a few days later in 2:16 1/2; Henry Carter's Grand Nut, another Nutford promiser, who can go eighth in 16 seconds hitched to a cart; John Snover's four-year-old, which is a full sister to the Stimson mare, 2:18; and Fred Douglass' three-year-old Ketchum colt, another speedy one.

Charles Farrar is working his two-year-old filly Sunnyside, which is entered in several valuable stakes, and is also looking after Bill Baker, 2:16 1/4, a son of Silkwood's.

G. W. Ford has commenced jogging Neernut, 2:12 1/2, giving him slow miles with an occasional fast quarter.

John Werne is working Nollka, 2:24, another Nutford foal, giving her quarters in 35 seconds, and Paul Knauf drives down to the track every day or two with his mare, Docido, giving her a little fast time on the track besides.

MAGDALENAS is easily the best filly that has shown up this year, and is probably the best youngster of either sex. She brought \$300 at private sale after some scoundrel had "knocked" the Baldwin auction. Frank Edwards, one of the youngest of California trainers, is training Magdalena.

S. C. LYNE, Larchmont Stud, has shipped Rose Longfellow, by Duke of Montrose, out of Lady Longfellow (dam of Hawthorne), by Longfellow, and her yearling filly, by Major Richards, to Wakeman Bros., Newport, Ky., they having purchased them from Cincinnati parties.

SECRETARY GREEN of the P. C. J. C. says he ordered Alvarado scratched the other day, not Director Ed Corrigan, and that he never told Mr. Sink Sr. that the horse could start. Alvarado is probably the worst actor at the track and Refugee is a pretty close second.

BURNS & WATERHOUSE's great horse, Mt. McGregor, will not be raced this spring, and it is doubtful whether Altamza will ever again face the starter. This is to be regretted, as the son of Maxim was a greater race horse than he has ever shown in public.

CARROLL REID has sold at New Orleans the four-year-old Oral, to Billy Donohue and Jack Farrell for \$600. Reid shipped Sister Stella and Prosecutor to Cincinnati Friday.

## GOOD HEALTH

IS THE WORKING CAPITAL OF HUMANITY. If you lose it, you are wrecked indeed. Is your health failing? Your strength, ambition, vigor, vitality wasting away?

## DOCTOR SWEANY

737 MARKET STREET  
SAN FRANCISCO, CAL.

For the speedy, safe and permanent cure of all  
**NERVOUS, CHRONIC AND SPECIAL**  
Diseases of Men and Women.

**YOUNG MEN.** Unnatural drains caused by excesses, quickly and permanently stopped. He restores lost vigor and vitality to

**WEAK MEN.** Organs of the body which have been weakened through disease, overwork, excesses or indiscretions are restored to full power, strength and vigor through his new and original system of treatment

**RUPTURE** cured by his new method, from work, a painless, sure and permanent cure.

**VARICOCELE,** hydrocele, swelling and tenderness of the glands treated with unfailing success.

**CONTAGIOUS BLOOD POISON** in any of its stages thoroughly eradicated from the system.

**LADIES** will receive special attention for all their many ailments.

**CONSULTATION FREE** at office or by letter.

WRITE if you cannot call. A valuable book "Guide to Health," free. F. L. SWEANY, M. D., 737 Market St., op. Grant Av., San Francisco, Cal.

## SPECIAL DEPARTMENT

EDITED AND CONDUCTED SOLELY BY

JOSEPH CAIRN SIMPSON.

"HORSE PAPERS."—It may be that papers "devoted to the horse" meet with no greater tribulations than some other journals, but so far as my information extends, the trials and annoyances, the big troubles and the lighter affairs connected with them, are right close up, if not fully entitled, to the first place in the race for sympathetic condolence.

There are so many grievances connected with the publication of that division of class papers that it does seem that there is small hazard in accepting a syllogism that is beyond fair denial, and the premises so strong that the conclusion must be true. In fact, so many premises, and these so strongly supported by the evidence of large majorities of people engaged in the pursuit, that there is an overpowering weight of testimony to substantiate the charge.

Even in the good old days when there was only one paper in the whole of the United States of that class, the same reprimands and lamentations, the same growlings and mutterings, the same reproaches and the same wailings and gnashing of teeth as at present when there must be nearly a half-hundred published.

Touchy, quite a number of people who own horses. Choleric, too, in some cases, and there are good reasons for petulance and cholera as there is no other kind of property cherished with so much affection, especially when the animals have also been bred by the owner. The foals anxiously watched from the time they stagger by the side of their dams, and when old enough to disport in lively gambols about the fields there is intensification of the warm feelings.

Commendations are not never fervid enough, in the opinion of the breeder, and if there is a semblance of adverse criticism there is a lively war at the next meeting. Praise of others is sufficient ground to call the scribe to account, and charges of a lack of appreciation, or downright ignorance laid to the writer.

There is little question of envy being a prominent passion in the human race. We may term it emulation, well worthy of praise in place of condemnation, and yet there is small doubt of it being an infirmity if not a vice. Laudatory accounts of horses, apart from those of the jealous reprover, are held to be attacks on the fair fame of the animals he fancies. And still with all these tribulations there is a potent fascination in the pursuit of horse journalism. Apart from the tendency to find fault, owners and breeders of racehorses, both gallopers and those which trot and pace, are in the main companionable, worthy men.

Hospitable, and of kindly natures a visit to one of our stock farms is highly enjoyable, and many of the pleasantest hours in my life have been spent on the breeding establishments of the country and among my most cherished friends those met there. South, East, West, North, or on the Golden Slope, the same kind reception, a like desire to make the visit satisfactory one to be recalled with extra pleasure. And in looking back over the many years I have made and enjoyed these trips the retrospection brings out features so distinct that it hardly seems possible that half-a-century has elapsed since the first was made. And when fond memory brings back these scenes it seems as though horses and people were so intimately associated, that animals take on the semblance of humanity, and it does not appear at all improbable that the famous traveler, Captain Gulliver, gave a true account of the country in which horses ruled, their virtues not overdrawn or their merits overcolored.

But there are times in the history of the horse papers when the tribulations already mentioned are so light in comparison as not to be worthy of notice. Scarcely one of the class that has not passed through crises that threatened destruction, not a few which had to succumb. Times, when there is scarcely a rift in the dark cloud, when even a faint streak of silver cannot be discovered; from horizon to zenith the darkness of the valley of despair. And all of that occasioned by a reluctance, or rather an oversight in the payment of bills. Not at all surprising that when the debt is so small the debtor should underrate the importance of liquidating the claim. But when thousands are embodied in the same category the result is disastrous.

Not a pleasant subject to discourse upon, not an agreeable topic to consider that of debtor and creditor, when on one side are a huge array of small bills to collect, on the other the absolute necessity of collection.

Probably not one in a thousand of the readers of the BREEDER AND SPORTSMAN are aware of the heavy expenses attending its publication. Not a single individual who has a more intimate knowledge of all the phases connected with it from the date of the issue of its initial number, July 1, 1882 up to the present time. Inspired mainly by sentiment in making this appeal, as my direct pecuniary interests are small, an ardent hope that when the situation is fully known their will be relief, the governing principle. It is so intimately associated with interests I have done my best to support through the best part of a long life that failure of the paper would surely entail a weakening of these interests, that again sentiment plays an important part. It has certainly done its full share in bringing California horses, and all the interests connected with them, prominently before the people of the horse world.

And it is also quite safe to say that there is scarcely a line of California products that have attracted more attention in the past sixteen years than the horses bred and reared on this coast.

Not at all arrogant the assumption that the influence of the paper has been for the good of all concerned, and it cannot be called egotism that presents that influence in a favorable light.

I have abiding faith that there will be a change for the better in the near future, and that the interests which have been so greatly depressed for several years in the past will see a return of prosperity. With the present difficulties cleared away, this season in a measure at least, another year will surely witness a return to the good old times when harness horses flourished. Paper and owners joint beneficiaries and in place of the gloom that now prevails, brightness and good cheer.

I have also strong faith and ardent hopes that this appeal will elicit a hearty response from those to whom it is addressed. Plenty of reason for that degree of confidence, few, indeed, to account for it being disregarded.

HEADS, HANDS, SEAT—Were the words used for the caption of the last note on race-riding, and the heels should also be incorporated in the essentials of jockeyship. Little doubt that very many races have been lost through injudicious use of spurs and not a few thrown away by a too liberal application of the lash. But the chief topic, the paramount question nowadays, at least, since the "Prince of Jockeys" made his successful campaign in England, arguments have nearly all been based on the advantages of English and American positions in the saddle as illustrated by the best jockeys of both countries.

The Sloan and Conley seats are exemplars of leaning over the withers, though quite a number of our jockeys adopt the upright or English system of riding.

As heretofore stated, I have been partial to the perpendicular, or nearly upright, style of riding, thinking that it was more in accordance with the action, but when Sloan demonstrated his superiority so emphatically former impressions may be erroneous.

The airflight and recovery can be accepted as the most prominent feature of the action in the fast gallop. The last impulse is given by the foreleg and when the flight through the air is finished one hind foot makes the first contact with the ground. Now the weight being carried well forward it is in a position to be handled to the best advantage, and this will also induce a longer stride owing to the further advancement of the hind foot in order to place it near the center of gravity. And admitting the advantages that will come from lengthening the stride, provided the action is not measurably retarded, the placing of the weight may be beneficial in the way of increasing the rapidity of stroke. There is little question that the English seat is more favorable to the light touch of hands as the position of the arms is not so constrained as when body and limbs are hunched.

The short stirrup compels "humping" of the back, so that it may be that there is not such a rigidity of muscles or stiffness of pose as shown. Then there is another point to consider, viz., that American racecourses are practically level, while in England are many steep gradients. It would seem to be entirely out of place to set over the withers when going down a grade, and Englishmen contend that by shifting the position there is the same relief as changing weight from one hand to the other. That is surely a reasonable contention peculiarly applicable in a long race, or even when the distance is one mile.

At all events no harm can come from discussion, and there is one point in English jockeyship that can be copied. Apprenticeship and a rigid surveillance, while learning the business, is far better than the lax system of management that prevails in this country.

But there is one decided advantage, however, in the American seat, that being lessened atmospheric pressure. Going through the atmosphere at the rate of about forty miles an hour the pressure is very strong, and the smaller surface there is exposed the better. The value of overcoming the air pressure, by using a horse to haul a screen in front of a cyclist, demonstrates that even with a reduced area it is no small factor in a race; in all probability equivalent to several pounds reduction in the weight. This is palpably sound reasoning and only requires presentation to carry conviction. Not much hazard then in stating that the burden of proof supports the American seat.

\* \* \*

RANCHO DEL PASO, SAN JOSE ELMWOOD STOCK FARM, INGLESIDE, ALAMEDA, OAKLAND C. J. C. RACECOURSE PALO ALTO.—Somewhat ponderous that array of small caps, and if the story was constructed on all connected therewith like the old time romances, at least three volumes to tell it from start to finish. An index then will be nearer the present plan, at the most a brief summary of what was seen. The Rancho del Paso trip was made by myself, but the best part of two days after reaching there was occupied by being driven around the big ranch by Mr. John Mackey. This was the 14th and 15th of February, and it was astonishing how well the place and horses looked so early in the season. Had the white oaks and other deciduous trees been in leaf more like May than the shortest month in the year, the grapes forming a thick emerald carpet, foals, excepting of the briefest age, strong and hearty, and one by Star Ruby evidently taking its first gallop around his dam, went the four courses, so that according to the accepted token by all the horsey darkies of forty years ago, he is sure to make a four-miles though people of more modern ideas will base their faith on his sire's breeding and shape, and especially his four-miles in 7:23, and only galloping at that. Two Gold Finches from Firenze and Fleurette show "heaps of quality," and if Firenze should fail to equal her sister when the foals are by he same horse the belief that mares, after having made a long campaign will fail in the stud, though there are plenty of exceptions to that generally accepted law in horse biology. The yearlings are a magnificent lot, and even from the necessarily casual scrutiny, it is not out of bounds to state that in two months from now they will come fully up to any that have heretofore left the great breeding farm.

The stallions all of them in prime condition, and the oldest gave plenty of evidence of no impairment of vigor.

Not even an index, when there is a close approximation to five hundred thoroughbred broodmares, about fifty, perhaps more, thoroughbred stallions, and youngsters in proportion.

The next trip, San Jose and Elmwood, I was fortunate in meeting Mr. "Dave" Gideon, Mr. Randall and Mr. Mike Daly. Mr. Charles Boots met us at the San Jose depot with a carriage, and the first section of the drive was to the track. The Burns & Waterhouse string of two-year-olds will surely make their mark, if predictions of any value can be made on form and breeding, and another point in their favor, so far as can be told by the eye, they are taking their work kindly, and "more than likely to be in the right condition when sent to the races." A brother to Counter Tenor seemed to be the prime favorite of the eastern horsemen, and as Mr. Gideon has already selected three winners of the Futurity Stakes, his estimate of future values, worthy of the highest consideration. Mr. Boots' two-year-olds appear to be in the most vigorous health, and though not yet "asked" to do more than a slow gallop they are surely getting in shape to answer even troublesome questions satisfactorily.

From the race course to Elmwood is as pleasant a drive as one could wish, and when there was so much novelty for our eastern companions to note and admire the pleasure was enhanced. Almond trees, a mass of blossoms and a few of the peach trees also putting on the gorgeous livery of springtime. The live oaks could not be greener and at Elmwood mammoth sycamores, giant holes and gnarled branches, if not a thing of beauty now, when in full foliage will add to the beauty of the scene. Too early by at least two months to see Elmwood at its best, but the attractions so great that before May comes to a close I will surely make another visit.

I had not seen Brutus since he was in training, and though my recollections gave expectations of seeing a fine horse, maturity has done more than was anticipated in the way of perfecting his form, racing shape, which he always presented being supplemented by plenty of substance and additional beauty.

Quite within reason to suppose that I would be favorably disposed to a son of Three Cheers, though again expectations were more than realized when Tiger was visited. A fine big horse, not as much quality as his sire, but so powerful and truly made that I will be greatly mistaken and disappointed if his blood does not blend kindly with the daughter of Brutus.

The other places named were visited in order to show an old friend from Chicago, F. J. Berry, something of the vicinity of San Francisco, at least that part of it bearing on horse question which Mr. Berry is so vitally interested in, but will have to defer the description to a future time.

\* \* \*

SOME years ago, on the track at Lexington, in conversation with "Eph" Simmons, I asked him what his opinion was of the usage that permitted betting on heats and at the same time tolerated laying-up-heats. His answer was direct to the point, in few words: "Why, sir, it's simply immoral." Yet, after "all these years" of "reforming" the rules, this "immoral" condition still prevails. All the wisdom of the two great trotting associations, with all their powerful machinery, has not been adequate to devise means to prevent those who have the turpitude to swindle the public through the deadly "back-my-horse-and-lay-up-yours" combination from doing it. True, Mr. J. C. Simpson two years ago got through a rule to prevent and punish the laying-up of heats, but that rule has been almost universally disregarded. If laying-up heats is to be tolerated, betting on heats should be peremptorily prohibited. On the other hand, if betting on heats is to be continued, some measures should be found to stop the practice of laying-up heats. The two cannot continue to go hand in hand without reproach, scandal and disaster to the trotting turf. By itself either one might be abided; together they are an intolerable invitation and means to swindling and jobbery. Will the National Association ever have the moral courage to tackle this immoral condition earnestly and effectively? Milk and water measures can accomplish nothing; for gangrene the knife.—Roland in Trotter and Pacer.

Somewhat singular that there is a disposition on the part of some of the horse papers to still ignore the fact that laying up heats is still forbidden. The above from the Trotter and Pacer is quite misleading, the section that I was instrumental in having adopted two years ago was changed very slightly.

The opening sentence of the section read: "Every heat in a race must be contested by every horse in the race; an honest endeavor made by every driver to win." The last clause now reads: "And an honest endeavor made on the part of every driver to win." The rest of the section is an exact copy of the section adopted in 1896. A letter received from Major P. P. Johnson a few days ago contained, "There was no disposition to modify your rule against laying up heats. An honest endeavor on the tracks to enforce it would result in a higher standard of racing."

JOS. CAIRN SIMPSON.

PETER WILLIAMS, the well known trainer who is at present in Alameda, announces that he is ready to handle horses and prepare them for the road or track at very reasonable rates. Mr. Williams is one of the most careful and capable horsemen in California, and should have no trouble in getting a stable of good ones.

IMP. SIMON MAGUS arrived in Lexington Sunday, the 20th, in first-class condition, and was taken at once to his new home, the famous Oakwood Stud. The highly bred mare Noire, by imp. Strachino, out of Cicely Jopson (dam of Waverly), by Weatherbit, was bred to imp. Simon Magus on the 23d.

I. MOORHOUSE, of Butte, Montana, has the fastest horse in Montana. It is by Silver Bow, 2:16, out of Magenta, by Tempest. Peter Williams brought him there last year and the colt showed considerable speed then.

HAZEL H., 2:12½, and a number of fine broodmares from San Jose, will be bred to Monterey, 2:13½, this season.

CURBS, SPLINTS, SPAVINS, WINDPUFFS,  
—and all enlargements, absolutely removed by—

## QUINN'S OINTMENT.

It has the unqualified endorsement of our leading horsemen and veterinarians.

MR. C. E. DINEHART, Cashier State Bank,  
Slayton, Minn., says:  
"One bottle cured a very bad case of blood spavin on a mare for which I have since been offered \$800. I would not be without it if it cost \$5.00 a bottle."  
We have hundreds of such testimonials.

Price \$1.50 per Package.  
Druggist for it. If he does not keep it we will send prepaid on receipt of price. Address W. B. EDDY & CO., Whitehall, N.Y.

## TURF AND TRACK.

## THE SULKY.

HEAT betting will not be allowed at the Denver, Col., spring meeting.

AMERICAN exportations of horses to Germany and Austria trebled in 1897.

MILLARD SANDERS will take his stable to Lexington, Ky., to train during the spring.

THOMAS CLANCY, of Seattle, has two colts sired by Direct, 2:05½, out of Rosie C., 2:16½.

GREAT preparations are being made to have special races at the Alameda race track.

J. HODGES has the phenomenal McKinney colt, You Bet, at the Los Angeles race track.

A NUMBER of horsemen in California will be disappointed if Oro Wilkes, 2:11, does not bring \$5,000.

THE pacing mare, Miss Jones, which has been one of the star snow horses in Buffalo this winter is Syrena, 2:14½, by Shpinx.

TWO miles is the shortest distance for trotting races in Russia. It requires stamina as well as speed to win in that country.

FAUSTINO, 2:12½, was sold at auction last week in Chicago for \$605. Don Lowell, 2:14½, brought only \$400 at the same sale and place.

TOUCHET, 2:15, brought \$410 at auction in Chicago, February 25th. Tenino, 2:19½, a full sister to this son of Altamont, brought \$305 the same day.

F. J. BERRY, in company with Joseph Cairn Simpson visited Palo Alto last Friday and was delighted. He says he will be back in California next year.

ADVERTISE your stallions if they are worthy of mention, but if not, make geldings of them, for it will pay you well and do your neighbor a great justice.

W. F. STEELE, whose successful trotting campaigns with James L., 2:09½, and other great trotters are well remembered, is about to come to California next week.

THE first foal of San Mateo, 2:13½, arrived at Cynthiana, Ky., on February 6th. It is out of Amami, by Princeps; second dam Rapidan, dam of Lockheart, 2:08½.

THERE is no better way to stimulate the horse interest all along the line than to patronize liberally the horse papers. They are working constantly for the good of the cause.

METEOR, by Commodore Belmont, who reduced his record to 2:17½, in Montana, last summer, at the age of eighteen years, is to be in the stud this season at Walla Walla, Wash.

IN 1897 \$400,000 were offered in purses in Austria, and 642 trotters started during the season in 469 races; 146 of these horses were American bred and 78 of them won races.

BELLE MEDIUM, 2:20, dam of Stam B, 2:11½, was bred to Zombro, 2:11, on February 26th. The Tuttle Brothers, owner of this grand mare, want some of the blood which beat Stam B.

BLINDFOLDING in place of using the nose twitch is advocated by an English writer, who says that the practice was adopted from the natives of India. The suggestion is worth acting upon.

IN the carload of horses shipped from here last week to Vermont by C. X. Larabee, was a full sister to Pearl Fisher, 2:18½, that is said to possess a wonderful lot of speed for a green trotter.

JOHN CHENEY will race a number of horses for John H. Shults again this year. His string will include Town Lady, 2:13½; Axworthy, 2:15½, and Lillian Wilkes, 2:17½, and some fast green ones.

WE have received a number of blank applications for drivers' licenses. It is necessary to forward photographs of the applicants with these applications to W. H. Gocher, Hartford, Conn.

ALZY MONT, 2:14½, a bay stallion by Roy Wilkes out of Zoe K., by Egmont, second dam Flaxie by Flaxtail, was purchased at auction in Chicago, February 25th, by Louis Newgass for \$1,975.

THE Palo Alto consignment to be sold in the east by Wm. B. Fasig & Co. is the choicest ever shipped across the continent. F. W. Covey, Superintendent of the farm will take charge of the horses.

THE younger some horses are the faster they trot. The writer has learned of yearlings that were as good as landed in the 2:30 list, that as five year-olds could not carry rub rags for an omnibus horse.

THE splendid showers the past few days have compelled a cessation in turf activity for some time. But the reinsmen and horse owners are not "kicking," for they know the rain means much for the welfare of California.

THE BREEDER AND SPORTSMAN of San Francisco is making a gallant and a very commendable fight against the pool-room nuisance. May it win, is the hope of thousands of legitimate racehorse men.—Santa Rosa Press-Democrat.

THE Pacific Coast Horse Breeders' Association has cancelled all claims held against horsemen prior to January 1, 1897, and Secretary Gocher of the National Trotting Association is sending out notices to suspended horsemen to that effect.

THE McKinney-Grace Kaiser black three-year-old pacer that Thos. Keating is working at Pleasanton was bought by Mr. Crellin for \$1200 the other day. This colt is a better pacer than Searchlight. The McKinneys will all be heard from this year.

VERY often the inquiry is made, "Who discovers the 2:10 performers?" Now the facts are that 2:10 performers discover themselves; that is, they demonstrate their ability to trot or pace fast, and some capable man encourages them in their laudable effort.

FRANK J. MURPHY, of Santa Rosa, has several very good horses now. One of them is Maudee, the fine Anteeo mare that earned considerable distinction while in the string of the late Rufus Murphy. Mr. Murphy has one of his horses out at Rose Dale Farm.

SOME of the finest-looking colts in Sonoma county are by the Red Wilkes stallion, Ed Wilkes, which was purchased recently from R. S. Brown by his present owner, O. A. Kenyon. This horse is billed to make the season of 1898 at the Petaluma race track.

THOUGH a number of the most prominent business men of Chicago have petitioned Speaker Curtis to let the proposed racing bill come out of Committee, it is said that the opposition of the Speaker and the Governor leaves no hope for a liberal racing bill this year.

THE attention of horsemen is called to the advertisement of the Denver Colorado race meeting. Valuable purses are offered and as entries close May 15, 1898, everyone contemplating going east should make arrangements to race their horses at the beautiful track at Denver.

PRINCE WARWICK, by Alcona, was considered a well-sold horse when Orrin Hickok disposed of him to the Austrians several years ago, but he is proving a surprise party as a sire. Last year his get won close to \$4,000 on the European turf, placing him in the lead of all stallions.

A FEW days ago Linwood Wilkes was driven several brushes of an eighth of a mile each. Several of our well known horsemen timed him, and, it is said by them, the Wilkes trotter turned off an eighth in 15½ seconds and others better than 16½. This was to a high wheel sulky.—Santa Rosa Press Democrat.

GEO. Y. BOLLINGER, ex-sheriff of Santa Clara county, says he has a two-year-old colt by Hambletonian Wilkes, out of the dam of Our Boy, 2:12½, that five weeks from the day he was taken up to be broken trotted a quarter in 40 seconds under a pull, and is the fastest two-year old ever seen in San Jose.

A. W. FOSTER, president of the S. F. & N. P. Railway Company, shipped eighteen head of Shetland ponies to his ranch at Hopland on Friday morning, says the Santa Rosa Press-Democrat. Mr. Foster is well known as a breeder of splendid Shetlands and some of his ponies have appeared in numerous carnival parades in the State.

DAUGHTERS of Pilot Jr. have produced more stallions that have sired 2:10 trotters than those of any other horse. They have to their credit Lord Russell, sire of Kremlin, 2:07½; Nutwood, sire of Lockheart, 2:08½; Pilot Medium, sire of Pilot Boy, 2:08½, and B. B. P., 2:09½; Meander, sire of Pacilio, 2:10, and Nutbourne, sire of Cheyenne, 2:90½.

MR. WILLIAM B. FASIG says that the total for the sale of last week was about \$118,000, and that one record for sales of this character was broken. Wednesday the average was about \$700, which, he says, is the best ever realized for a sale continuing day and night. People are getting to be as ingenious in discovering records for sales as for performances.

AN exchange that is usually very reliable in its statements recently reported the sale of a black gelding called Spider, with a record of 2:22, that was sired by Sultan, 2:24, dam by Red Hawk, son of George Wilkes. As the transaction occurred in Philadelphia, the home of so many sharks, and as Sultan has nothing in the list named Spider, it may be safely asserted that the whole thing is a steal.

ALL delinquent subscribers to this journal should pay what they owe. There are thousands of dollars owing us and we must collect every subscription in order to conduct this paper. It is not very pleasant to be "dunned" subscribers for \$3, and to do this have to send notices every three months. So we urge the necessity of paying your bills now, and avoid being dunned in the future.

NOT since 1893 has there been much "long distance" trotting. In that year old Nightingale set new marks for various distances, and out on the Pacific Coast the roan gelding, Bishop Hero, made several cuts from the five-mile mark. Pascal also reduced the ten-mile record. Greendander was prominent at the two-mile distance, though his 4:32 is very far behind the 4:19½ pacing mark set by Chehalis last fall.

ARTHUR C. HUSTON, commissioner in the case of Mary C. Nelson against the Yolo County Agricultural Association, executed a commissioner's deed to Mrs. Nelson, on Friday, for the Woodland race track property, the time of redemption having expired. We are sorry to state that there is nothing new to report in regard to the property passing into the hands of Burns & Waterhouse, although negotiations are still pending.

ELECTRINA, 2:20, by Richard's Elector out of Stemwinder, 2:30½, died while foaling last week. The foal was also dead. He was by Chas. Derby, 2:20. The loss is a serious one to Mr. Green, as Electrina was one of the purest gaited and gamest trotting mares seen on the California turf and was destined to be one of the best broodmares in Alameda county. She left a colt by Diablo, 2:09½, that is one of the most promising at Pleasanton.

IT is reported that a man in Massachusetts has a colt with a wooden leg. Last summer a falling log broke the the colt's leg below the hock. Having, for a personal reason, a strong liking for the animal, the owner was unwilling to have him destroyed, so he called in a veterinary surgeon, who amputated the leg and after a time fitted a wooden peg for it just like you see old soldiers and the like wearing. At first the colt rebelled against the appendage, but after he found he could walk with it all right, he grew to like it and now gets around without trouble. Last Christmas time the owner's son walked the colt twelve miles to a neighboring town and exhibited him in a vacant store building to large crowds which cheerfully paid to see the curiosity. And, by the way, a horse with a wooden leg is quite a curiosity, after all.

THE litigation over the Pleasanton Stock Farm as the result of Monroe Salisbury's insolvency proceedings have been dropped, and the suit of E. B. Young against the assignee compromised. Mr. Young, who is president of the Pleasanton Stock Farm Company, takes \$487.06 of the \$1,461.18 realized by the assignee from the sale of the personal property of the corporation. The account of Assignee Hall was approved after the compromise was agreed upon.

EVERETT B. SHERMAN, Bedford, Mass., has bought t of George A. Fales, Boston, the bay mare, Pathwood, 2:26½, by Woodnut, 2:19½—Lady Pathfinder, by Pathfinder. Pathwood is a very fast trotter and has had but little campaigning. After starting her in two races, her owner, Wm. B. Althouse, breeder of William Penn, 2:07½, sold her in company with a number more of his horses. She can beat 2:20 handily and is a superior road mare. Mr. Fales owns the handsome filly Asthore, by Emperor Wilkes, 2:20½.

HORSEMEN should feel encouraged at the prospects for better prices for good stock. The chief factor in the improved conditions is conceded to be the short supply and the sharp demand. And many people say that the wave of sentiment which swept people to the bicycle so strongly is now turned the other way, and that more horses and fewer bicycles will be the result. They point to the failure of some bicycle firms as corroborative evidence of a decadence in bicycle enthusiasm.

IT may not be generally known that the third dam of Red Wilkes, the most successful son of George Wilkes as a sire of speed, was thoroughbred; yet such is undoubtedly a fact. Queen Dido, the dam of Red Wilkes, was owned for several of the last years of her life by the late Gen. W. T. Withers. In Gen. Withers' twelfth annual catalogue she is described as bay in color and 16 hands high. Her first dam is given as by Red Jacket, son of Comet; second dam the Robert Patterson mare, said to be a thoroughbred.

A SINGULAR accident happened to the great trotting mare La Belle, 2:16, at Los Angeles two years ago. She was found in the field with a badly lacerated hind leg. The wound was a long time healing, and all hope of ever training her for the track was abandoned. Last week the enlargement on the leg broke, and on making a closer examination it was discovered that a piece of a horseshoe was deeply imbedded in the flesh; it was removed and the patient is getting along nicely. How she got the piece there is a mystery.

TWO races which give promise of lively sport have been arranged for next July at the Parkway track, Brooklyn. George Ihoken and Capt. Henry Hoffman, of the Parkway Driving Club, have matched their trotters, Crescent, 2:19½, by Stamboul, and Thelma, 2:19½, by Sidney, for \$500 a side, to start on July 1st. The race is play or pay and the money is up. On July 16th Crescent and Thelma will start again over the same track in a four-cornered sweepstakes race with James Gormley's chestnut mare Georgina, 2:15½, by Epaullet and John F. Gingee's brown gelding Bowman, 2:17½, by Moquette. The stakes are \$500 a corner. Each owner has posted \$250 forfeit, and the remainder will be due on July 1st.

TESTS made at the Missouri agricultural experiment station at Columbia, Mo., have awakened new interest in the question of broad tires both for country roads and city streets. The result of these careful tests, made under scientific direction, show that the general use of wide tires would mean more in the interest of good roads than anything else. Besides this, the tests have demonstrated that as an economical and humane measure the general use of wide tires on all kinds of heavy vehicles means much more than would be supposed. The tests show that wagon tires six inches wide are from 50 to 100 per cent. better for all farm and draft uses than the standard one and a half inch tires which farmers use.

WHEN a horse does not appear to thrive, as he should, on his food, and the most careful observation fails to account for his condition, it is wise to have his teeth carefully examined, especially the back-jaw teeth or molars. An irregularity of these is often the unsuspected source of the evil. The molars occasionally wear irregularly; sometimes the upper border over-lapping the external surface of the lower, while the internal surface of the lower rises to a corresponding height within the mouth. In such cases sharp points are found where the wear has been the slightest, and these roughnesses lacerate the inside face of the cheeks and cut the sides of the tongue, so that mastication is performed not only with difficulty, but with pain. The consequence is that the food is not properly prepared for the stomach and passes through it without assimilating to a full extent its nutritive principle.

C. F. EMERY must feel elated over the good prices realized by Hermitage Stud for the get of Ponce de Leon in New York last week. At the sale four of that stallion's get brought \$7,410, an average of \$1,852, and Ponce de Leon himself was purchased by Marcus Daly, who evidently cannot get too much of this family, as he has owned for several years the highly successful Prodgal. Mr. Emery has for many years been firm in the belief that the branch of the Mambrino family which Patron represents is the greatest trotting family in the world, and the way it has come on in the past few years fully confirms his opinion. Patron trotted in 2:14½ in 1887. Had the bike been in use at that time his mark would have been below 2:10. Mr. Emery has developed comparatively few of the get of Patron, and he knows that at Forest City Farm there are faster young horses than Ananias 2:06½, Miss Della Fox 2:14½ or any which were ever developed.

AWAY back in the 80's there was a gentleman named Smith—Nathaniel Smith—who was a member of the old Waverley Driving Association, of Newark, N. J. He was a butter merchant of Washington Market, New York, and the horsemen of those days hereabouts will remember him as "Butter Smith," a name he went by in that locality. Mr. Smith drove good horses, and some of them made history for the Waverley Association in the matinee trots on Saturday afternoons. Mr. Smith at one time owned the granddam of Jerome Eddy, 2:16½. Mr. Smith did not know this, however, until Jerome Eddy made his record at Buffalo, N. Y., nor was it known by anyone else. It was only after the event that the pedigree of the dam of Jerome Eddy was extended. The dam of Jerome Eddy was Fanny Mapes, who was bred by the late Lewis J. Sutton, of Orange county, N. Y., and was sired by Alexander's Abdallah. Mr. Sutton obtained the dam of Fanny Mapes from Peck & Saunders, Clyde, N. Y., who got her in trade from Nathaniel (Butter) Smith. The latter purchased her from Willet Underhill, Glencove, Long Island.

## THE SADDLE.

HUGH HENRY has purchased Humbug from Tom Griffin.

GEORGE BARRETT, the celebrated English jockey, died Feb. 25th.

INGOMAR and LOKI are both entered in the jumping events in the East.

SYLVESTER, the Salvator—Mabel gelding that finished up third in the two-mile hurdle race, was as good as 6 to 1 for the show.

LUMINA is to be tried out this week whether she will stand up for racing. If not, she will join the brood mare brigade.

CHARLES BOOTS has about decided to breed Lucrezia Borgia, holder of the world's four-mile record, to Libertine, the holder of the world's mile record.

THE full sisters, Firenze and Fleurette, have each a colt foal at Rancho del Paso by the young English horse Gold-finch, son of Ormonde and Thistle.

An English turfman is negotiating with Barney Schreiber for the purchase of Marplot. He wants to secure the colt to race in some of the long-distance races in England.

H. STULL's bay mare, Princess Jean (sister of Saragossa), by Duke of Montrose—Elsino, arrived at the McGrathiana Stud on the 20th. She is in foal to His Highness and will be bred to Hanover.

SPENCER and Hennessy have been set down for the balance of the meeting, Spencer for crowding Hennessy on the rail with Fashion Plate and the latter jockey for hitting Spencer with his whip.

A HALF-MILE race track at Juneau is among the latest Alaskan probabilities. Thomas D. Draw, a well-known mining man who has struck it rich in that country, is said to be the backer of the enterprise.

JESSE HART has been engaged to ride for Middleton & Jungbluth, the Louisville turfmen. In the stable are Eugenia Wickes, Taluca, Marcato, Alameda and about ten good two-year-olds. They will race at Churchill Downs, Oakley and Latonia.

THE owner of May W. has offered \$1,500 for the sire of the mare, imp. Eagle's Plume, who is by Scottish Chief, dam Decoration, by Knight of the Garter, second dam Toison'Or, by Buccaneer, third dam, Auld Acquaintance, by Irish Birdcatcher.

CUBA, a four-year-old sister to Traverser (by imp. Rossington—Betsy Broeck) won the first race at Singlerly, Md., on February 23d, and the second race was captured by Sister Myra, a daughter of imp. Rossington and Inez. Betsy Broeck and Inez, strange to say, are by Ten Broeck from daughters of Longfellow.

"TINY" WILLIAMS who is to ride the coming season for J. E. Seagram, the Canadian turfman, will go to New Orleans on the evening of March 2d. Williams will train at the Crescent City track by riding such mounts as are offered. By doing this he will be in the best of fettle when the season opens on the metropolitan tracks.

THE horses belonging to Mr. James R. Keene won an aggregate of \$28,550 last year, of which Voter, with six wins in nine starts, contributed \$9,430. Other useful contributors were Easter Gift, \$2,860; Uriel, \$2,770, and Tripping, \$2,640. His horses started 131 times, were first in twenty-eight races, second in eleven and third in fifteen.

CINCINNATI, February 28.—The Queen City Jockey Club (Newport, Ky.) has selected for its spring meeting, which opens April 9th, the following track officials: Presiding Judge, L. P. Tarlton; Associate Judges, Henry M. Queen and J. Gratz Hanley; Starter, Curley Brown. The betting privileges have been sold to Eddie Austin.

CONLEY has been engaged by W. F. Schulte for the season of 1898. Simms & Anderson have second call on his services. Conley has been riding in great form in California, outfinishing and defeating "Ted" Sloan twice in one day, when the band played "All Coons Look Alike to Me," and "You Ain't So Warm."—Thoroughbred Record.

GASTON ASHE, who was seriously burned two months ago at his ranch east of town, has so far recovered as to be around again. His face and hands show the effects of the severe burns, but no scars will result. He expects to visit Hollister next week, which will be the first time that he will have left the ranch since the accident.—Hollister Bee.

MILT YOUNG, winner of the Malowansky Stakes Saturday, is one of the first of the get of Montana Regent, the great horse that beat Lucky B. for the Louisville Cup about 1887. Montana Regent was by Regent (bred by Jos. Cairn Simpson), while Milt Young's dam, Lucerne, was by Longfellow. Lucerne is an own sister to Riley, Mr. Corrigan's great Kentucky winner.

WILLIAM M. SINGERLY, owner of the Philadelphia Record died Sunday at his home of heart failure. He owned the Elkton Stud in Cecil County, Md., claimed to be the only one having any interest in the great Morello, and raced a good-sized string of horses last season. Besides, he was a large owner of Holstein cattle and kept these at his ranch in Montgomery County, Pa.

W. O. FARMER, the Nashville turfman who spent some time at the New Orleans track, in speaking of Charley Patterson's filly May Hempstead, said: "This good filly is a living image of Yo Tambien. She has the same pale chestnut color, the same conformation, and is about the same size. The resemblance is remarkable. Patterson undoubtedly has a great race mare in May Hempstead."

ORELIO, the own brother to Ormonde, the \$150,000 horse owned by W. O. B. Macdonough, was sold in England some weeks ago at the Newmarket sales for 950 guineas, and his owner says he is destined for South Africa. He does not seem a dear horse, as his breeding is beyond criticism, and he won the Royal Stakes at Newmarket, and was placed third in the Great Foal Stakes and second in the Houghton Stakes

ONE of the finest looking animals at Churchill Downs, and one that is admired by all visitors to the track, is Alleviate, the crack racer in W. F. Schulte's stable. Alleviate is entered in the Oaks at Louisville, Oakley and Latonia, besides a number of good handicaps in the West. Last year she was the best two-year-old filly in the West. She gave every indication of developing into a grand filly this year, and on paper she has the Oaks at her mercy.

LOUIS EZELL, who has a breeding farm near Joliet, will shortly order some of his horses sent to Roby. Among the recently registered one were Don't Tell, by Luke Blackburn—Secret; Marco Polo, by Jim Gore—Helene; Practice, by Burlington—Across the Sea; Leo Vertner, by Leonatus—Rosa Vertner; Espirage, by Inspector B—Sunmaid. Jim Blair has two, Knight H., by Davis, dam Miss Flynn and Heiser, by Walter, dam Little Fanny. In all there are about two hundred at the track in good condition.—Roby (Ind.) Cor. N. Y. Spirit.

EDDIE JONES has engaged for the season to George C. Bennett, owner of Gath, Dr. Walmsley, Jane, Damocles, and other useful horses. He will report for duty on April 1st at Memphis (Mr. Bennett's home), where the horses are wintering. Billy Randall, the well-known Montana horseman, was anxious to take Jones to Montana with him this summer, but could not offer as good terms as Mr. Bennett did and as the opportunities are much better in the East and Middle West, Jones wisely signed with Mr. Bennett.

GRATZ HANLY, secretary of the Newport Club, has been here for a few days. He is working up interest for the Newport Spring meeting, which, he says, will be a successful one. A good many of the stables now here will be shipped to Newport near the close of March. Hanly tells me it is not yet settled who will be presiding judge at Newport, but the chances are in favor of J. J. Burke. "Curly" Brown will be the Newport starter, provided he is not secured by the Eastern Jockey Club.—"Broad Church" in New Orleans cor. N. Y. Spirit of the Times

MRS. LANGTRY, who races in England under the name of Mr. Jersey, may ship her stable to this country next year and try her luck on the tracks in and about New York. Mrs. Langtry has planned a great season on the English tracks for the present year. She has paid a big price for the Australian horse Aurum, which she has entered liberally in the big stakes. Aurum won the Victoria Derby and ran third in the famous Melbourne Cup. Mrs. Langtry has entered her Cesarewitch winner Merman in a number of stakes. Her stable will be one of the strongest in England.

"UNCLE JIM" GRAY, well known on Chicago race tracks, will campaign the following string of racers this year: Gold Corn, ch m, 7, by John Barleycorn—Gold Bug; Earl Bug, br g, 5, by Iroquois—Gold Bug; Rob Roy II., b g, 5, by Faustus—Bank Stock; Bulger Dick, ch g, 4, by Billy Gilmore—Kittie R.; Cannon Ball, ch c, 3, by Faustus—Maid of Thrift; Ed Henry, ch c, 3, by Billy Gilmore—Kittie R.; Pearl Walker, b f, 3, by Free Knight—Zella; Sadie Artha, b f, 2, by Siddartha—Evaline; Fontella, ch f, 2, by Woodmoss—Perfection; Lady Osbourn, b f, 2, by Siddartha—Miss Bowling; Bert Davis, blk c, 2, by King Regent—Sarah Davis; Joe Broeck, ch c, 2, by King Regent—Theckla.

BARNEY SCHREIBER sent a carload of thoroughbreds to St. Louis Monday. The superbly-bred stallion, imp. Sain, and the mares Charmion, Marjorie, imp. Grand Lady, Prize, Florence Dickey and Miss Baker will be sent to the Woodlands stud near St. Louis. The two-year-olds will be trained for the spring races and should do well, as they are royally bred, one being a filly by Flambeau from imp. Fairy Rose, dam of Fairy, Racine, Sweet Rose and Rosomonde, and the other a colt by the great racehorse Tenny from imp. Fun, by Fiddler. Osric, who was bought at the last Burns & Waterhouse sale for C. E. Maffitt, president of the Turf Congress, was sent along in the same car. McLemore's Kowalsky was included in the shipment.

LOWEN TUCKER, who has charge of the horses at Santa Anita Stud, writes us as follows: "I promised to inform you of the foals and other items of interest, and have not fulfilled my promise until now, the reason being that the foals are very late, considering. They have begun to come now in nice shape, among them being the chestnut colt by Amigo—Mezzotin; bay colt by Emperor of Norfolk—Miss Ford; chestnut filly by Amigo—Ruby Payne; bay colt by Emperor of Norfolk—Ogarita, and bay colt by Santiago—Chloe A. I expect fifty five in all will be foaled by the middle of April. We have booked some very fine mares to Rey El Santa Anita, and expect him to do well in the stud. I am very glad that the colts we disposed of up there are doing better than the average. It is worth mention that the 'cast-offs' can win when they have a chance. Our yearlings are very nice and of good-size."

THE reinstatement of John D. Lewis and his mare Trance is now in order. The mare was under lease to Dan Halliday, her trainer, and Mr. Lewis had naught to say as to her management. Dan Honig and his horses were reinstated and the trainer indefinitely suspended, and the case was a much more flagrant one. As to the mare Trance being ruled off in Queensland, there is no Turf Congress law which says any horse shall be debarred because they are disqualified in another country, and we challenge the officials to produce anything to the contrary. Besides, under the rules of the Australian Jockey Club, when an animal is ruled off for any cause and it passes into the hands of those that are in good standing with the Jockey Club, satisfactory proof being given that the sale is bona fide, the disqualified animal or animals are reinstated. It is not a case of can be reinstated, but they are. Such action was taken in the case of the great Marvel and many others ruled off for alleged fraud. Mr. Lewis is a reputable turfman, owning a good enough horse to win Australia's greatest race, the Melbourne Cup, and why he should be suspended and his good mare disbarred from racing because someone else does wrong, or is said to have done wrong, is a mystery. One might just as well say that the P. C. J. C. should be held accountable in our courts of law for the misdeeds of every man owning, training or riding a race horse in California. The property of Mr. Lewis, by the action of the P. C. J. C. officials, is rendered practically worthless and he is kept from earning any money through the alleged misdoing of Dan Halliday, a man practically unknown to Trance's owner, but highly recommended to Mr. L.—— in Australia by Halliday's former employers.

HARRY BROWN, the little colored lightweight who graduated from Virginia Bradley's stable, and rode last season for W. D. Randall, the Montana horseman, has signed to ride this season for Timmons & Marks, owners of Marquise, Montell, Attainment and others. Bob Marks will ship the horses to Memphis in a few days and get ready for the spring meetings. Blakely will send Capt. Piersal and Snowdown in the same car, and J. T. Stewart will send a couple.

W. J. SPIERS, lately indefinitely suspended at San Francisco, is widely known on the Western turf, as he has raced his horses for years on nearly all of the Western tracks. He raced here last winter and the winter before. His best performer is O'Connell, who lowered the six furlongs record at Oakley, a couple of years ago. The big sprinter—for he is simply a sprinter—won several times at San Francisco this winter. Spiers was a clergyman before he went on the turf, nearly a decade ago, but he as he was partial to fast horses, baseball and so forth, he doffed his clerical garb and became an out-and-out turfman, with a fair string of horse for several years back. He owns Major Domo, and it is his two-year-old, Sant Cello, that has got him into trouble on the slope.—"Broadchurch" in N. Y. Spirit.

THE winter meeting of the California Jockey Club begin next Monday, March 7th. The Cadmus stake, at one mile, for a guaranteed purse of \$1200, is down for decision on the opening day. On Wednesday, March 9th, the Rancho del Paso handicap is to be run. The event will bring together the best three-year-olds in training. The stake events for Saturday, March 12th, are the Racing stakes, for two-year-olds, and the Baldwin handicap at one mile. In the latter event are such horses as Scarborough, Ruinart, Bernardillo, Mount McGregor II., Colonel Wheeler, Altamax, Napamax Traverser, Howard Mann, May W., The Roman, Victor, Installator, Senator Bland, Flashlight, Wheel of Fortune, Judge Denny, St. Lee, Lincoln II., Paul Griggs, Trolley, Buck Massie, Buckwa, Salvation, Ostler Joe, Greyhurst and Fleur de Lis.

THE report that Charley Patterson has sold Ornament for \$30,000 to John Considine, of Detroit, for an Eastern turfman, supposed to be Richard Croker, has created no end of talk here to-day. The uncertainty of the sale, if, indeed, it was a sale, recalls the recent Hamburg transaction, when it was several days before the real purchaser and actual price were known to the public. While it is stated that Considine, who is a theatrical manager, has done business for Richard Croker, it is also said that Considine has been commissioned by ex-Secretary Whitney on other occasions, and that it is but fair to predict that Whitney gets Ornament. One reason for this belief among turfmen here is that Whitney has recently purchased a farm, to which he has shipped from Kentucky Sir Vassar, Loki and a number of thoroughbred mares, which he has been keeping at the farm of Dr. E. M. Norwood in this county.—Lexington (Ky.) dispatch.

THE stewards of the Pacific Coast Jockey Club met Monday night and made the following announcements: Owner Stanfield and stable suspended for the balance of this week. Steeplechase Jockey Stanford and stable suspended indefinitely. Steeplechase Jockey Barry suspended. Owner Honig and stable reinstated. Le Fevre, trainer for the Honig stable, suspended indefinitely. Stanford's suspension is for his ride on Silverado, Stanfield's for the bad showing made by George Miller, Le Fevre's for the general in-and-out running of the Honig horses. The reinstatement of the Honig stable and the owner surprised a few, but not many. It was probably shown that the St. Louis turfman did not handle his own horses, hence was not responsible for their acrobatic feats. The reinstatement of J. D. Lewis, owner of Trance (whose case is a parallel one) should immediately follow, if the officials desire to be consistent.

MARCUS DALY was interviewed by a reporter of the Chicago Inter-Ocean recently, and following is a part of that interview: "There have been rumors in circulation that Matt Byrnes and yourself had patched up your differences, and that he would again take charge of your running stable." "You can say for me that Mr. Byrnes and I have no differences to adjust. You can add, too, that I am perfectly satisfied with my present trainer, and that Mr. Byrnes will not again take charge." "How about the talk that you had made a proposition to Tod Sloan to ride for you in 1899?" "Mr. Byrnes made Sloan an offer which Sloan refused. I am inclined to the belief that this jockey will wear colors of Lord W. Beresford after his contract with the Fleischmanns expires." Mr. Daly was told of Sloan's reasons for refusing Byrnes's offer. "I would not ride under Byrnes," was Tod's way of putting it. "I like Mr. Daly, and would be proud to wear his colors." "That was very nice of Mr. Sloan," answered the copper king, "but as yet nothing has been done in the way of securing his services." From a reliable source it is learned that Mr. Daly made the statement recently that it was not horse racing proper that was expensive, but rather the breeding of race horses. "I won over \$100,000 last year on the racing qualities of the stable. To offset this I lost \$260,000 in trying to breed race horses."

FOLLOWING are the weights assigned by Handicapper Walter S. Vosburgh in the Metropolitan, to be run over the Withers mile: Eastin & Larabie's b h Ben Halladay, 5, 126; Rogers & Rose's b h Tillo, 4, 126; Turney Bros.' ch h Dr. Catlett, 4, 124; August Belmont's ch h Don de Oro, 4, 122; Bromley & Co. ch h Typhoon, 4, 119; M. F. Dwyer's ch m Cleophas, 4, 119; M. F. Dwyer's b h Ben Eder, 5, 117; August Belmont's ch h Octagon, 4, 116; J. S. Curtis' imp. b h Royal Stag, 5, 115; Marcus Daly's b h Ogden, 4, 115; J. McLaughlin's ch h Premier, 5, 114; J. W. Schorr & Son, ch h Algol, 4, 112; Marcus Daly's ch h Isidor, 4, 111; August Belmont's ch h Merry Prince, 5, 110; J. W. Schorr & Son's br h Macy, 4, 110; James Galway's br h Imperator, 4, 108; M. F. Dwyer's b c Previous, 3, 107; Sydney Paget's b m Lou Bramble, 4, 106; E. D. Morgan's br h, Blue Devil, 4, 104; P. J. Dwyer's ch c Handball, 3, 104; W. A. Chandler's blk h Caldron, 4, 104; C. F. Dwyer's ch c Michael III, 3, 102; Chas Fleischmann's Sons' b c George Keene, 3, 102; A. A. & D. H. Morris' b c Bowling Brook, 3, 102; Wm. Lakeland's ch m Winged Foot, 4, 100; J. W. Schorr & Son's b c Presbyterian, 3, 100; Hayman & Frank's br c Demagogue, 3, 100; A. H. and D. H. # THE WEEKLY BREEDER AND SPORTSMAN

WM. G. LAYNE, EDITOR AND PROPRIETOR.

The Turf and Sporting Authority of the Pacific Coast.

— OFFICE —

No. 313 BUSH ST., SAN FRANCISCO  
P. O. BOX 2300.

TERMS—One Year, \$3; Six Months, \$1.75; Three Months, \$1.

STRICTLY IN ADVANCE.

Money should be sent by postal order, draft or by registered letter addressed to Wm. G. LAYNE, 313 Bush St., San Francisco, Cal. Communications must be accompanied by the writers' name and address, not necessarily for publication, but as a private guarantee of good faith.

San Francisco, Saturday, March 5, 1898.

## Encouragement Everywhere.

In another column in this issue is a partial account of the great sale of trotting stock held in New York last week by Wm. B. Fasig & Co., the famous auctioneers. The result of this sale proves conclusively that if ever the bottom was "knocked out" of the trotting-horse business it has been replaced with far better material. Comparing the long list of purchasers at this sale with those who attended the Splan-Newgass sale in Chicago, the reader is astonished, as well as delighted, to see that there are hundreds of new buyers among them, and that many of the "old guard" have been bidding against them. The amounts paid show that there must be something to encourage these men to bid so lively. And the enthusiasm at the ringside when a good horse was led in demonstrated clearly that man's love for the American trotter and pacer is just as strong as ever.

When the "big drop" in the prices of light harness horses was felt by every farmer and horseman in America four years ago, and horses of every kind were unloaded at ruinous prices, many people thought there would never be any more buyers, and this was their last chance to induce these men to part with their money in exchange for their trotters. Four years is a long time, and many changes have taken place, but instead of a diminution in the ranks of buyers, there is a decided increase, and it includes educated horsemen who are not rendered almost insane by listening to speeches on pedigrees for animals with nothing else to recommend them. They like pedigrees yet, but they esteem individuality, size, soundness and speed, more. Hence, at the sales spoken of, it was not necessary for the auctioneer to try and force people to believe an inferior animal was perfect because his bloodlines were unsurpassed. He knew better, and, in every instance, the "educated public" proved to be the best judge of what the animal was worth.

The prices received were excellent; but, if the same horses were offered in February, 1899 (judging by the increase in values during the past twelve months), they would net at least fifty per cent more. This is an opinion which we will all see verified, for the best horses we have are being shipped across the sea, and the demand for more of the same kind seems unlimited.

The presence of a new class of buyers at the big auction marts has stimulated all the racing associations in the east to prepare for the best season's racing they have had in years; consequently, meetings of directors are being held in all the large cities, and as every owner of a good horse is desirous of sending record holders to the sales hereafter, it would not be surprising if many a mare that has been filling the role of motherhood on large and small stock farms will be taken up this Spring and their foals made to adopt other nurses. These mares will be raced, and their duties as matrons will soon be forgotten in the wild rush to get speed.

From all parts of the United States comes the news: "There is a great scarcity of grandly bred young trotters and pacers, because many people who were breeding this class a few years ago have gone out of business." Yes, and they will wish they had remained in, for no industry can engage in will pay larger dividends on the investments.

The demand for good horses in the Southern States, where mules were the much-prized beasts of burden, is increasing every year, and with the Southerner's love for enjoying life along the shaded roads it will not be many years before we shall have campaigners far below Mason and Dixie line which will force many of our best horses to their highest speed to beat them.

In Canada, the increase in light harness horses during the past two years is almost incredible. In Honolulu, Hilo, Maui, and other islands in the South Pacific, the same deduction may be drawn. In far-away Australia and New Zealand, columns of the leading newspapers are devoted to the trotters that are being bred and raced there. The writers are not as conversant with the best breeds of trotters as we are, but they thoroughly understand how racing should be conducted, and woe betide the driver who resorts to trickery and is apprehended.

In Russia, in fact from Vladivostok to St. Petersburg, high-bred trotters and heavy draft stock will be in use all along the line of the great Trans-Siberia railway, and agents from the Russian government will be found standing beside the bidders from all other parts of the world in our big salesmarts. The opening of this vast country will revolutionize that part of the world and affect every nation on the globe.

Japan is a new horse buyer, but like every innovation in this land of the Mikado, the very best is selected for a foundation. We are in communication with the leading horsemen there, and before 1899 is ended there will be shipped from this port a large number of the very best horses and mares we can raise.

Horsemen in California have every reason to rejoice at the prospects. Prices for good horses will never be as low as they were, and we advise all owners to do all they can to keep their colts and fillies growing. Hay will be plenty and the prospects for one of the best seasons we have ever had were never brighter. All mining, manufacturing and agricultural pursuits will be "boom-jug;" prices for everything will be better, as millions from the Alaska gold fields will arrive for investment in the cities and rural districts. Much of this money will be spent for luxuries, and as fine horses are considered such by everyone who has the wealth to care for them, the prices to be paid for the best ones will run up into the thousands. Hence, we repeat, that for the California farmer and horse-breeder there is encouragement everywhere.

The following letter was received just as we were going to press, and as it corroborate all that is stated above, we publish it verbatim:

SPLAN & NEWGASS

CHICAGO, ILL., February 28, 1898.

EDITOR BREEDER AND SPORTSMAN—Dear Sir:—Please accept thanks of the concern for the handsome manner in which you placed the advertisement of our February sale before the public. The sale is over and was a success in every way. Good, useful animals brought good prices and it seemed to us the cheaper animals that were in the sale brought all they were worth.

Each sale at this place demonstrated more and more what we have always claimed for it—that what customers are looking for is good, useful animals with some speed. A horse without speed now—no matter what his pedigree is—is not sought after at a very great price. We are pleased to note that the BREEDER AND SPORTSMAN lays particular stress upon this point in its advice to breeders. A general observance of this feature will add very materially to the wealth of the brood farms of your State. It looks now as though we would hold a sale some time about the first of May.

Again thanking you for your kindness in regard to our business, we remain  
Yours truly,  
SPLAN & NEWGASS.

## Race Tracks and Real Estate.

The particular effect that a first-class race track has upon the surrounding property has been clearly demonstrated in the case of the old Bay District track, which lives now only through the pleasant recollections it leaves behind. Instead of the lonely sand dunes which constituted the original site of this once famous track, there is found a city within itself. Handsome dwellings and substantial business houses have followed in the wake of the old course. The sand hill has been covered by the palatial dwelling.

Two things have operated in producing this result. The first of these was the demand for habitation and business houses to meet the wants of the small army of race track attaches; the next thing was the improved transportation facilities made possible by the spectators at track performances. As the result of this, land that had but a vague value, as acre property, became valuable business and residence lots. The advanced car service, which was first made possible by the track attendance, gave an immediate value to the wastes it traversed.

The long stretch of uninviting sand dunes lying between old Holy Cross Cemetery and the Bay District track, now covered by thousands of handsome homes, owes much of its transformation to the influences of the race track. Out of the hundreds of thousands who rode over the old steam dummy road then operating between the Geary street terminus and the track, it is safe to say that many thousand are to-day home-owners in that district, which is now known as Richmond. The experience of that section gives excellent promise of being duplicated at Ingleside.

To one who saw the waste of a few years ago upon which this beautiful track is located the transformation is but little short of marvellous. Pastures and pig pens have by the magic wand of enterprise been transformed into busy marts and cozy homes. Hundreds of Eastern visitors have become property-owners in this section, as the result of a midwinter trip to the Ingleside track. A ride over the modern annihilator of distance—the electric car—and the sight of a race track covered with flowers, has been the means of opening many an Eastern pocket-book. Some of the largest suburban sales of recent years have been made through the agency of the race track.

## Grains of Truth.

A leading merchant was once asked how it was that he had no representatives on the road. He replied: "I have the best representatives in the world. They always tell the value of my goods in plain language. They are always attentive to business. They are always polite. They never miss an appointment and they are at work from early in the morning till last thing at night. They take no holidays and work the whole year round. My representatives are my advertisements, and I know exactly where they are in every city and town, and I know to a cent what they cost me." At this season of the year the breeders of the country will do well to follow the example of this merchant. Their business is one that cannot be kept before the public by a commercial traveler, and the reputable journal devoted to turf sports is the best medium they can employ to bring their stallions and colts to the attention of possible patrons and buyers. If a breeder cannot afford to advertise he cannot afford to breed. No matter how small the card may be, so long as it is in the journal which commands the attention of the people the breeder wishes to reach, it will be a representative who never sleeps.

This article, copied from an exchange, conveys so much truth that we take pleasure in reprinting it.

## The Denver Meeting.

On June 11th, the Overland Trotting and Running Association will throw open the gates of the beautiful Overland Park at Denver for the meeting which is to be held there that week. The programme of events appears in our business columns, and it should be read by every horseowner on this Coast. The management is in most excellent hands, and as there are two tracks, one for the harness-horses the other for the runners, there can be no complaint regarding the condition of both tracks. Entries will close May 15th, and blanks will be forwarded to all horsemen on this coast. We have a supply on hand.

THE Colusa Jockey Club has issued its speed programmes and posters for the spring meeting, which is to be held at Agricultural track, Colusa, May 10th, 11th, 12th, 13th and 14th. A copy of the programme appears in this issue and it is earnestly hoped that a number of our horsemen will send their horses to this track and compete for the purses offered. The prospects for a banner year in Colusa county were never better, money is plentiful, horsemen enthusiastic and as the management of this meeting is in the hands of that thoroughly capable gentleman, E. C. Peart, President Oscar Robinson and F. E. Wright, visiting horsemen can rest assured they will be treated well. Entries for the races will close April 15, 1898.

HON. FRANK L. COOMBS, of Napa, who was once President of the Pacific Coast Trotting Horse Breeders Association has been elected State Librarian. A better selection could not be made, for in every way he is capable and worthy of the position.

If you are in arrears for subscription to the BREEDER AND SPORTSMAN, read Jos. Cairn Simpson's article in his special column.

THE State Board of Agriculture meets at Sacramento to-day to elect officers.

THE race for gentlemen riders Thursday caused a lot of excitement of various kinds. Henry Forsland had the mount on Walter J., a horse that experts tremble to handle, and it is much to his credit that after Walter had acted as crazy as the proverbial bed bug for about twenty minutes that he should have wound up third. Mr. Gamage rode a superb race on the 50 to 1 shot, William O'B., but fell off after the finish had been made, and Mr. Dunphy handle the bad actor, Alvarado, almost to perfection. Frank Skinner rode Dick Behan with vim, but got away so poorly that all chances of winning were lost. Young Mr. Sink got out of Daylight as good a race as that horse was capable of putting up. Mr. Hobart was on Foremost, who was outclassed completely.

THE LEITER WHEAT DEAL

A California Newspaper Man Who Played a Sensational Part in the Greatest Wheat Combine in the World.

The great wheat combine, through which the price of that product has gone up from 65 cents to a point above the dollar mark and became the subject of gossip in the two hemispheres, owes much of its success to J. T. Flynn, a well-known Pacific Coast newspaper man who was at one time an editorial writer on the BREEDER AND SPORTSMAN. A year ago last June he went to St. Louis as a delegate at large to the National Bimetallic Convention, where he participated in the deliberations of that body and at once became prominent as an advocate of fusion. From there he went to Chicago, where he published a work entitled "The American Dollar," which was extensively circulated by the National Democratic Committee as a campaign document.

For several months previous to the election he was associated with James R. Sovereign, then the Grand Master Workman of the Knights of Labor, in conducting what was known as the Bryan Campaign Labor Bureau with headquarters in Chicago. Being a forcible writer as well as a fluent speaker he soon jumped into favor as a campaigner with such men as Wm. J. Bryan, Governor Stone, Carter H. Harrison, Governor Altgeld, Senator Jones and the other lights of National Democracy. He made more than 100 speeches during the campaign in Illinois, Wisconsin, Indiana, Michigan, Kentucky and Missouri.

After Bryan's defeat, on which he lost the profit of his book amounting to several thousand dollars, he took editorial charge of "The Gentleman Farmer" magazine of Chicago, which was then being launched by the J. I. Case Thresher Co. In its columns he vigorously advocated the organizations of the wheat growers throughout the South and West taking the ground that combination was all that was necessary to fix the price of that product at any figure below the dollar and a half mark. The first State where he succeeded in putting his plans into effect was in Kentucky. At a large meeting of the wheat growers of that State held in Lexington in June of last year, he advised farmers to hold their wheat even at the risk of mortgage foreclosures. This they did and finally sold the entire crop of 12,000,000 bushels for a dollar a bushel, although the millers who were in attendance declared they would pay but 67 cents.

From there Mr. Flynn made a tour of Illinois, Iowa, Kansas, Nebraska and Missouri, addressing the wheat growers upon the necessity of organization, and in many other ways contributed to the strength of the "bull" movement, by inducing farmers to hold their wheat. During his campaign of organization he was in communication with the Russian authorities at St. Petersburg, and made several trips to Washington to confer with the representatives of that government upon a plan of combining the wheat interests of the two governments. Among the most startling declarations made in the columns of the magazine over which he presided was one to the effect that arrangements were being perfected whereby the Russian government would, through private agents, take up the entire wheat surplus of the United States at a dollar a bushel. The effect of this was a rise of ten cents in one day.

Whether this is the power behind the Leiter deal or not, it is hard to say, but there is one thing certain, and that is that Joseph Leiter had brains enough to grasp the situation and courage enough to back it up. This is more than can be said of the St. Louis millionaires to whom the proposition was submitted. After vainly trying to enlist ex-Governor Francis in the scheme of buying up the wheat, Flynn returned to Chicago, where he succeeded in inducing a firm of well known brokers to back him.

In consideration of his work upon the magazine, and in the matter of organization in the early months of the campaign, they carried him for a third interest in a block of wheat aggregating nearly a million and a half bushels. This was secured at prices ranging from 67 to 75 cents, and was carried well up into the nineties when a concerted bear movement, based upon a published dispatch to the effect that President McKinley had sent a secret commission to Siberia to investigate the great wheat possibilities of that country, sent it down ten cents in one day and broke the whole party. Flynn tried to counteract the effect by showing in the next issue of the magazine that the whole Siberian output did not reach that of California and would never exceed that of Kansas, and furthermore that the Russian government had a joint interest with this one, in keeping up the price of breadstuffs on Great Britain, but the denial came too late to save him.

If he could have held on to that line of wheat for thirty days longer his share of the profits would have amounted to \$150,000. But this did not discourage him. He took his loss as lightly as he did others of equal amount sustained

when he was one of the largest and boldest real estate operators in the West. In his fight for higher prices he literally flooded the Pacific States with magazines and other printed matter bearing upon the propriety of holding out for the dollar mark. His article entitled "The Price and Production of Wheat" was the subject of widespread comment. During his advocacy of the wheat combine, Mr. Flynn published many able articles both in his own and other magazines, refuting the slanderous statements which have been directed against the Muscovite government, and at the same time showing the necessity of a closer commercial alliance between the two great wheat-producing countries of the world. As he has recently severed his connection with the magazine to take charge of a Russian commercial company which is to operate in the vast territory traversed by the Trans Siberian railway, it is evident that his friendship for that government has not gone unrewarded.

Races at San Diego.

The races at Coronado on Washington's birthday gave general satisfaction to a big crowd present, the absence of questionable methods peculiar to race tracks being the subject of general comment. The winners in the various events were as follows:

In the 2:18 trot, T. Moxley's bay stallion, Belmont Chief, won first money, Prato, owned by L. E. Dadmun, winning the first heat in the remarkably good time of 2:29.

In the 2:40 pace race, Dehesa Pointer, owned by Stanley Shields took the first heat and second money, Nicodemus, owned by Mr. Thorndike, taking first money and the race.

The four year-old trotting race was won by H. Walker's "Kid" in a very close and exciting finish, Dixie losing only by a half-head. Lizzie C was drawn after the second heat.

The running race, quarter-mile dash, was won by Prince, the property of William Silsbee, ridden by James Reading, with Green's Lightfoot second.

Rheumatism and Horses.

CORNHILL, Tex., March 24, 1896.

Please send me six bottles Gombault's Caustic Balsam by express. Your Balsam is the best liniment I have ever used both for horses and myself. I have used it on myself for rheumatism with good success. I doctored 4 months and spent \$120 for doctor and medicine with no results, but since using your Balsam I can work around on the farm. Would like the agency for this country. OTTO A. BEYER.

THE Union Pacific Railroad Company has recently built some very fine resting stables, with box-stalls and other modern conveniences, including an outside paddock, at Ogden, Utah, for the free use of horse-owners shipping by this old and popular route, which will be highly appreciated. The "Overland Limited" leaving San Francisco daily at 6 P. M. for Chicago is now the finest and fastest train in the West composed of Pullman latest improved double drawing-room sleepers, dining cars and composite buffet smoking library cars, between Ogden and Chicago, also through tourist sleepers for the accommodation of passengers holding second-class tickets. For tickets and sleeping car accommodations call on D. W. Hitchcock, General Agent No. 1 Montgomery street, San Francisco, Cal.

YESTERDAY'S Chronicle took the same ground that we did in the Trance case—that Mr. John Lewis and his good mare should be reinstated at once; that the Australian owner should not be punished for the alleged misdeeds of others. We take a great interest in this case because Mr. Lewis is a stranger in a strange land, thousands of miles from home, because he bears an excellent reputation in Melbourne, and further, because we do not want to see an injustice done any man if it is within our power to call attention to such matters and have them righted.

TOD SLOAN is all that has been claim for him, in our opinion. Thursday he rode four horses, and brought every one in a winner. Three of the number (Ach, Satyr and Geyser) were owned by Ed Corrigan.

LILLIAN M., brought out to race by Messrs. Sloan and Hurst, has been sold to a young gentleman of this city who fancies trotters, and the filly will be bred to a horse of diagonal gait.

TWO FINE YOUNG STALLIONS FOR SALE.

One a trotter and the other a pacer, bred in the most fashionable strains. The trotter is one of the finest individuals and GRANDEST BRED horses on the coast, and a great stock horse, as his produce show. For particulars, pedigree, etc., address, G. W. STIMPSON, V. S., 698 24th St., Oakland

\$2020 IN PURSES

SPEED PROGRAMME

—OF THE—

SPRING RACES

—OF THE—

Colusa Jockey Club

(COLUSA COUNTY)

—TO BE HELD—

MAY 10, 11, 12, 13, 14

—AT—

Agricultural Park

COLUSA, CAL.

ENTRIES CLOSE APRIL 15, 1898, except Races 3, 7, 10, 12, 14 and 17. These are Overnight Entries.

Fast Track! Best of Accommodations

FIRST DAY.		Purse.
No. 1. Trotting, 2:20 Class.....		\$140
2. Colusa Futurity Trotting Race.....		174
(Closed November 1, 1897. Only six entries, making purse as above.)		
3. Running, 5-8 Mile Dash.....		100
SECOND DAY.		
4. Trotting, 2:24 Class.....		100
5. Stake Race, Trotting Purse, for Two-year-olds.....		275
(Closed November 1, 1897.)		
6. Running, 1-2 Mile Dash.....		200
7. Hurdle Race, 1 1-4 Mile, over four Hurdles.....		90
THIRD DAY.		
8. Pacing, 2:40 Class.....		90

16. Trotting, 3-minute Class.....		75
17. Running, 3-4 Mile Dash.....		90

CONDITIONS.

American Trotting Association rules to govern trotting races, except otherwise specified herein. State Agricultural Association rules to govern running races.

Trotting and pacing purse will be divided into four moneys—50, 25, 15 and 10 per cent. Running purses will be divided into three moneys—50, 30 and 10 per cent. In no case will a horse be entitled to more than one of the above divisions of a purse.

The right is reserved to declare off races not filling satisfactorily to the club, but nominators in the race so declared off may transfer at any time prior to April 30, 1898, such entries to other classes to which they are eligible.

For a walk-over a horse shall be entitled only to its entrance and one-half of the additional entrance money paid in in such a race.

The Board of Directors reserves the right to declare two starters a walk-over.

Entries not declared out at 5 o'clock P. M. the day preceding the race shall be required to start. Declarations must be made at the office of the Secretary.

Trotting and pacing colors must be named by 5 o'clock P. M. on the day preceding the race and must be worn upon the track.

Conditional entries will be treated the same as regular entries and nominators held under the rules.

Entrance fee ten per cent. of purse, to accompany the nomination.

All harness races 3 in 5, except races 5, 11 and 12, which are 2 in 3.

Horses called at 1 o'clock P. M. each day. Drivers and riders must cause no delay.

Entries will close with Secretary April 15, 1898 in all races except Nos. 3, 7, 10, 12, 14 and 17. These close the eve before the race at 5 P. M.

Five or more to enter in each race, three or more to start.

No horses barred on account of back entries.

OSCAR ROBINSON, Pres.

F. E. WRIGHT, Sec'y.

K. C. PEART, Manager.

SPEED SALE! SPEED SALE!

MY NEXT SALE WILL TAKE PLACE

WEDNESDAY, APRIL 20th.

Nothing but GOOD, SOUND HORSES WILL BE ACCEPTED

It is acknowledged by all that I have the best place in California to sell harness horses.

Entries Close April 4, 1898.

Catalogues will be out April 8th. Among the horses already consigned are some of the best on the Coast. Correspondence solicited.

J. M. NELSON, Alameda Sale and Training Stable, cor. St. Charles and Eagle Ave., Alameda.

## An Encouraging Sale.

William B. Fasig & Co.'s midwinter sale of trotters held the boards for five days last week at Madison Square garden, New York, says The Horseman. The market proved to be uncommonly good for the horses that seemed to have a chance to go out and get their share of the money in the campaign next season. Such prices as \$6,000 for Planet, \$3,800 for Percy, \$2,350 for Blue Bird, \$2,000 for Gazette, \$1,550 for Chanty, \$1,200 for Lampton and a like amount for Ansel Chief, will strike the average horseman as being on the whole satisfactory and in some cases surprisingly high. Shrewd guessers rated Planet at about \$4,000 until within a few days of the sale, when it became evident that several good buyers wanted the handsome stallion, and that he would bring a higher price. E. R. Bowne was a bidder up to \$5,000 but he did not, as nearly all horsemen presumed, represent Lewis G. Tewksbury. His client was a very prominent New York horseman, who never owned a pacer and who even wished to cover up the fact that he had bid for one. Joe Thayer and Mart Demarest were the final contestants for the son of Bonnie McGregor, Demarest getting him at \$6,000 for A. E. Alvord, the Syracuse horseman who owns Eager and other good ones. Outclassed campaigners were at a discount throughout the week, as the summary of the sale will show. The time seems to have passed when a trotter having a fast record will bring a big price in the New York market regardless of his qualities as a road horse. The sale showed no noticeable letup in the demand for high class road horses, but New York buyers want something more than speed when they part with their money nowadays.

The sale of Tosa, 2:19½ (dam of Preston, 2:13½), for \$2,000, and of Rosy Morn (dam of Boreal, 2:15½), for \$1,300, and Belle Archer, 2:12½, for \$1,050, shows that desirable broodmares did not go begging for buyers. Up to the time that the boom was launched at the Glenview dispersal sale in 1886, such prices as these for broodmares at auction would have been considered as bordering on the sensational.

The price for which Sphinx sold was a disappointment to his owners and to many other horsemen besides, \$2,500 seeming like a low value for a son of Electioneer that has 54 representatives in the 230 list at fourteen years of age. The remarkably high quality of the colts by Ponce de Leon in the sale helped wonderfully to stimulate bidding on the big black son of Pancoast and Elvira. He is a fine looking horse himself, and when he came into the ring just after four of his get had brought \$7,410, an average of \$1,825 each, the wonder was that he did not fetch more than \$3,500. Ed Tipton said that he bought Ponce de Leon as a sort of reserve stallion to Prodigal, in case that horse should happen to die. The average of \$818 for the entire thirty-one head in the Hermitage collection was a reminder of boom days.

On the closing day of the sale Auctioneer Fasig and his assistants broke their record by selling 134 horses. The total number sold during the week was 431 head. They brought \$117,520, an average of \$272 each.

Following are the California-bred, as well as the highest-priced ones sold:

Sphinx, 2:30½, b. h, 1883, by Electioneer—Sprite, by Belmont; T. V. Chappell, Saginaw, Mich.	2,500
Belle of Abscots, 2:20, gr. m, 1891, by Sphinx—Cora of Hearts, by Pilot Medium; William Rockefeller, New York	650
Ponce de Leon, 2:13, blk. h, 1887, by Pancoast—Elvira, 2:18½, by Cuyler; Marcus Daly, Hamilton, Mont.	3,500
The Curfew, 2:27½, blk. m, 1891, by Bow Bells—Rosy Morn, by Alcantara; Dr. G. H. Albernasius, Jersey City, N. J.	560
Merry Peals, b. f, 1886, by Bow Bells—Rosy Morn, by Alcantara; R. H. Montgomery, Indianapolis, Ind.	250
Matin Bells, b. f, 1886, by Bow Bells—Rosy Morn, by Alcantara; J. Scott Quintin, Philadelphia	475
Rosy Morn, b. m, 1887, by Alcantara—Noontide, 2:20½, by Harold; Moses Wall, Keysburg, Ky.	1,300
Admiral Symmes, blk. c, 1895, by Ponce de Leon—Io, 2:13½, by McCurdy's Hambletonian; R. H. Plant, Macon, Ga.	1,800
Io, 2:13½, ch. h, 1889, by McCurdy's Hambletonian—Lulu, by Dorsey's Goldust; John P. Crozer, Upland, Pa.	650
Preston, 2:13¼, gr. g, 1894, by Ponce de Leon—Tosa, 2:19¼, by Enfield; Thomas Murphy, Glen Cove, L. I.	1,450
Boquita, 2:17½, gr. m, 1894, by Bow Bells—Tosa, 2:19¼, by Enfield; R. H. Plant, Macon, Georgia	1,100
Pickanilly, bl. f, 1897, by Ponce de Leon—Boquita, 2:17½, by Bow Bells; R. H. Montgomery, Indianapolis, Ind.	360
